I Dates and Deadlines

1.1 Application and Document Deadlines 2006/07

These deadlines are the latest dates on which an application or document will be accepted. Processing of applications does begin before these dates and, in some cases, programs may be filled by well-qualified students before the document deadlines. If a deadline falls on the weekend, it will be extended to the next working day.

Generally, undergraduate applications are due February 28 and the documentation deadline is June 30, unless otherwise noted.

The following information applies to both domestic and international students. For Non-Degree Studies (Visitor, Unclassified, Concurrent), the application deadline is June 30; the document deadline is July 15. The deadline to submit interim transcripts for post-secondary transfer students is February 28.

Program	Credential	Faculty/School	Application Deadline	Supplemental Application Deadline	Document Deadline
Accounting ¹	Diploma	Commerce and Business Administration	Mar 31		
Acting ²	B.F.A.	Arts	Feb 28		Jun 30
Agroecology	B.Sc. (Agroecology)	Land and Food Systems	Feb 28		Jun 30
Applied Creative Non-Fiction ²	Diploma	Arts	Feb 28		Mar 31
Applied Linguistics	Diploma	Arts	Feb 28		
Applied Science (Engineering)	B.A.S.C.	Applied Science (Engineering)	Feb 28		Jun 30
Art History	Diploma	Arts	Jul 31		
Arts ³	B.A.	Arts	Feb 28		Jun 30
Commerce	B.Com.	Commerce and Business Administration	Feb 28	May 1	Jun 30
Computer Science	B.C.S.	Science	Feb 28	Apr 15	
Creative Writing ²	B.F.A.	Arts	Feb 28		Jun 30
Dental Science in Dental Hygiene ⁴	B.D.Sc.	Dentistry	Feb 28		
Dentistry ⁵	D.M.D.	Dentistry	Nov 7		
Education ⁶	B.Ed.	Education	Mar 15

Program	Credential	Faculty/School	Application Deadline	Supplemental Application Deadline	Document Deadline
Nursing (third year) ⁹	B.S.N.	Nursing	Feb 28	Feb 28	
Pharmacy	B.Sc. (Pharm.)	Pharmaceutical Sciences	Feb 28	Feb 28	Feb 28
Science ^{10,11}	B.Sc.	Science	Feb 28	May 1	Jun 30
Social Work	B.S.W.	Social Work and Family Studies	Jan 31		
Theatre Design and Technology ²	Certificate	Arts	Feb 28		Jul 15
Visual Art ^{2,12}	B.F.A.	Arts	Feb 28		Mar 31
Wood Products Processing	B.Sc. (Wood Products Processing)	Forestry	Feb 28		Jun 30

¹ Dates indicated are for the program/session commencing in May. Note: International student application deadline is February 28. September admission deadlines are as follows: application deadline: July 5 (Canadian students), June 6 (international students); document deadline: August 15. Applications are to be directed to the Faculty.

² Contact the department or program directly regarding portfolio, audition, or manuscript requirements.

³ Supplementary application forms are required for the following programs and are due on the dates indicated: Economics Major (June 15), English Major (September 30; May 15), English Honours (April 28), Interdisciplinary Studies BA (May 14; Aug. 20; Nov. 19), International Relations Major (May 15), Political Science Major (May 15), Theatre or Film Major (April 1).

⁴ Application deadline for Degree Completion for Bachelor of Dental Science in Dental Hygiene is April 15 for admission in September. Application deadline for unclassified students is July 31 for admission in September and October 15 for admission in January.

⁵ Including applications for readmission.

⁶ For a Diploma in Education, applications are accepted all year and must be received one month before anticipated registration date.

⁷ Portfolio deadline is March 15; deadline for other documents is June 30.

⁸ The deadline for applying for readmission is May 31.

⁹ Post-RN applicants must apply directly to the School of Nursing.

¹⁰ Students entering first-year Science who wish to apply for the Science One program should contact the Science One office. The supplementary application deadline is April 30.

¹¹ A supplemental application form is required for the Honours program in Biotechnology and is due on February 28.

¹² Deadlines also apply for entry into second-year Visual Art courses.

2006-07

1.2 Academic Year 2006/07

The Academic Year begins on September 1, 2006 and ends on August 31, 2007. Classes for most faculties begin on September 5, 2006. The last day of classes for the Winter Session, Term 1 is December 1, 2006. The last day of classes for Term 2 is April 12, 2007.

WINTER SESSION

The Winter Session is divided into two terms: the first term, generally from early September to late December (although some studies begin in August) and the second term, generally from early January to the end of April (although some studies continue well into the month of May). During the Winter Session classes are offered in the evening as well as in the day.

SUMMER SESSION

Term 1 of Summer Session begins in mid-May and continues through July. Term 2 of Summer Session begins in early July and ends in mid-August.

Many faculties offer distance education courses. Check the Student Service Centre (www.students.ubc.ca/ssc) for summer courses and scheduling.

SATURDAYS, SUNDAYS, AND HOLIDAYS

Where an application deadline falls on a day the University is closed, applications will be accepted on the following working day. Offices are closed Saturdays and Sundays.

Note: all statutory holidays are subject to confirmation by UBC Human Resources.

FACULTY/PROGRAM-SPECIFIC DATES

Contact the respective faculty/program for confirmation of faculty/program-specific dates.

SEPTEMBER

Friday, 1 September 2006

GALA – International Orientation for new international (including US) and exchange students continues (August 30 to September 1). Graduate Studies: Expected date for Faculty of Graduate Studies to receive recommendations

from departments for North American students to be admitted for registration in January.

Graduate Studies: Students wishing to apply for University Graduate Fellowships and external awards administered through the University (NSERC, SSHRC) for 2007/08 should check with their departments for internal student deadlines.

Saturday, 2 September 2006

Language Proficiency Index (LPI): Deadline for completion of the Language Proficiency Index (LPI) test for International applicants residing and attending school outside of Canada at the time of the July or August deadlines.

UBC Housing and Conferences: Residences open.

Monday, 4 September 2006

Labour Day. University closed.

Tuesday, 5 September 2006

2006/07 Academic Year begins.

Classes begin for 2006/07: Winter Session day and evening courses for all faculties not already in session.

Commerce and Business Administration, B.Com. and second year: Orientation day.

Distance education courses: Start date for September (Term A).

Imagine UBC: First-day orientation program for new students. All 100-level classes are cancelled today, with the single exception of those 100-level classes which start at or after 6:00 pm and meet only once per week.

Law, first year: Orientation begins.

Law, second and third years: Classes begin.

Pharmaceutical Sciences: BLOCK 1 clerkship begins (September 5 – 29 inclusive).

Teacher Education Program: 12-month Elementary options, Elementary Year 1 of 2, NITEP Year 4, Middle Years, and 12 month Secondary Options; orientation day. (Term 1: September 5 to December 1 inclusive.) Elementary Year 2 of 2 and NITEP Year 5: practicum begins (September 5 to December 1 inclusive).

Work Study job postings appear on the website: www.students.ubc.ca/workstudy.

Wednesday, 6 September 2006

Graduate Studies: Last day for payment of September installment of tuition fees. Students who have not paid their fees will be placed on financial hold: further registration activity will not be permitted, grades will not be released, and graduation diplomas will be withheld. Students will also be assessed a processing fee of \$30.00 and interest will be assessed on the outstanding balance until it is paid in full (see Fees chapter of Calendar).

Last day for payment of first installment of fees for registration and course changes made before September 1. Students who have not paid their fees will be placed on financial hold: further registration activity will not be permitted, grades will not be released, and graduation diplomas will be withheld. Students will also be assessed a processing fee of \$30.00 and interest will be assessed on the outstanding balance until it is paid in full (see Fees chapter of Calendar).

Friday, 15 September 2006

Students applying for student loan via the BC Student Assistance Program (BCSAP) for the 2007 Summer Session will have their Term 1 Summer Session tuition fees automatically deferred until June 7, 2007 if their BCSAP application is received and assessed by this date. Students receiving student loan from a province other than BC should contact Student Financial Assistance & Awards before the tuition fee deadline to obtain a deferral.

Monday, 16 April 2007

April examinations begin (day and evening classes) for most faculties (April 16 to 30 inclusive). Saturdays are included in the examination schedule.

Forestry, third year: FRST 452 field work begins at the University Research Forest, Maple Ridge, BC (April 16 to 27 inclusive).

Law: Examinations begin.

Wednesday, 18 April 2007

Meeting of the Senate.

Friday, 20 April 2007

Graduate Studies: Last day for final doctoral oral examinations in time for April 30, 2007 program end date.

Graduate Studies: Last day for departments to notify the Faculty of Graduate Studies that major papers have been submitted and all requirements met for non-thesis master's degrees for Spring graduation.

Graduate Studies: Last day for submission of final master's and doctoral theses to Faculty of Graduate Studies for Spring graduation.

Pharmaceutical Sciences, fourth year: BLOCK 7 clerkship ends.

Friday, 27 April 2007

Geography, third year: GEOG 309 field school begins.

Monday, 30 April 2007

2006/07 Winter Session ends.

Last day of April examinations for most faculties.

Graduate Studies: Last day for submission of final master's and doctoral theses to Faculty of Graduate Studies for April 30, 2007 program end date.

Law, all years: Last day of examinations.

MAY

Tuesday, 1 May 2007

UBC Housing and Conferences: Winter Session residences close; residents are required to vacate.

Civil Engineering Surveying field school (CIVL 235) begins (May 1 to 13 inclusive).

Deadline for secondary school applicants to submit Commerce supplemental application form.

Last day for sponsored students to submit applications to have fees billed to a sponsoring organization. Students who do not submit their applications by the deadline will be required to pay the first instalment of fees by May 10 to avoid financial hold procedure (see Fees chapter of Calendar).

Wednesday, 2 May 2007

Earth and Ocean Sciences, second year students: Geology Field School begins (EOSC 223) (May 2 to May 9 inclusive).

Earth and Ocean Sciences, third year students: Geology field school begins (EOSC 328) (May 2 to May 16 inclusive).

Earth and Ocean Sciences: Hydrogeology Field School begins (EOSC 428) (May 2 to May 6 inclusive).

Monday, 7 May 2007

Summer Session, Term 1: First day of classes for terms running from May 7 to June 15 (exams June 16), and May 7 to July 27 (exams July 28).

Distance education courses: Course start date for Summer Session (Term 1).

GALA – International Orientation for new international (including US) and exchange students attending 2007 Summer Session.

Wednesday, 9 May 2007

Graduate Studies: Last day for payment of May instalment of tuition fees. Students who have not paid their fees will be placed on financial hold; further registration activity will not be permitted, grades will not be released and

graduation diplomas will be withheld. Students will also be assessed a processing fee of \$30.00 and interest will be assessed on the outstanding balance until it is paid in full (see Fees chapter of Calendar).

Summer Session, Term 1: Tuition fees due. Students who have not paid their fees will be placed on financial hold: further registration activity will not be permitted, grades will not be released and graduation diplomas will be withheld. Students will also be assessed a processing fee of \$30.00 and interest will be assessed on the outstanding balance until it is paid in full (see Fees chapter of Calendar).

Friday, 11 May 2007

Last day for changes in registration and for withdrawal from most 3-credit/six-week courses starting May 8 without withdrawal standing of “W” recorded on a student’s academic record. Student Service Centre remains open for course withdrawals with “W” standing.

Crane Resource Centre: Recommended dates for submission of materials for alternate format production for Summer Session courses starting June 18.

Distance Education courses: Student Service Centre closes for distance education courses starting in May (Summer Session Term A). Last day for changes in registration and for withdrawal without a “W” standing recorded on a student’s academic record.

Graduate Studies: Last day for supervisor to submit “Appointment of External Examiner” form to Faculty of Graduate Studies for Fall graduation.

Monday, 14 May 2007

Teacher Education program: 12 Month Secondary options: Most classes begin for Term 1 Summer Session (May 14 to June 22 inclusive).

Tuesday, 15 May 2007

Science One Program: Application deadline.

Wednesday, 16 May 2007

Meeting of the Senate

Friday, 18 May 2007

Last day for changes in registration and for withdrawal from most 6-credit/twelve-week courses starting May 7 without withdrawal standing of “W” recorded on a student’s academic record. Student Service Centre remains open for course withdrawals with “W” standing.

Monday, 21 May 2007

Victoria Day. University closed.

Wednesday, 23 May 2007

Spring Congregation Ceremonies, Day 1: The Chan Centre for the Performing Arts.

Baccalaureate Concert: The Chan Centre for the Performing Arts.

Thursday, 24 May 2007

Spring Congregation Ceremonies, Day 2: The Chan Centre for the Performing Arts.

Friday, 25 May 2007

Last date for withdrawal from most 3-credit/six-week courses starting May 7 with withdrawal standing of “W” recorded on a student’s academic record.

Spring Congregation Ceremonies, Day 3: The Chan Centre for the Performing Arts.

Monday, 28 May 2007

Spring Congregation Ceremonies, Day 4: The Chan Centre for the Performing Arts.

Tuesday, 29 May 2007

Spring Congregation Ceremonies, Day 5: The Chan Centre for the Performing Arts.

Wednesday, 30 May 2007

Spring Congregation Ceremonies, Day 6: The Chan Centre for the Performing Arts.

JUNE

Friday, 1 June 2007

Access & Diversity Office: Recommended dates for submission of Exam Accommodation forms for Summer Session, Term 1, for courses ending June 15.

Crane Resource Centre: Recommended date for submission of materials for alternate format production for Summer Session, Term 2, for courses starting July 10.

Deadline for submission of Summer Session scholarship and bursary applications to Student Financial Assistance & Awards.

Monday, 4 June 2007

Registration for Winter Session opens (subject to change). All students should refer to the Student Service Centre for individual registration access dates.

Monday, 11 June 2007

Graduate Studies: Last day for submission of exam copies of doctoral theses to Faculty of Graduate Studies for transmission to the external examiner in time for August 31, 2007 program end date.

Friday, 15 June 2007

Last date for withdrawal from most 6-credit/twelve-week courses starting May 7 with withdrawal standing of “W” recorded on a student’s academic record.

Summer Session, Term 1, some courses end. Examinations are held either in the evening of June 15 or Saturday June 16.

Saturday, 16 June 2007

Summer Session Term 1 (some courses) examinations.

Monday, 18 June 2007

Summer Session, Term 1: First day of classes for courses running June 18 to July 27 (exams July 28).

Friday, 22 June 2007

Summer Session, Term 1: Last day for changes in registration and for withdrawal from most 3-credit/six-week courses starting June 18 without withdrawal standing of “W” recorded on a student’s academic record. Student Service Centre remains open for course withdrawals with “W” standing.

Application deadline for supplemental and deferred examinations from 2006/07 Winter Session.

Monday, 25 June 2007

Crane Resource Centre: Recommended date for submission of materials for alternate format production for Summer Session, Term 2, for courses starting July 30.

Saturday, 30 June 2007

Affiliation Scholarship, Affiliation Bursaries and First Nations Awards: Last day for applications to be submitted to Student Financial Assistance & Awards.

Students applying to the Winter bursary program in September 2007 should apply for winter government student loans by this date.

JULY

Sunday, 1 July 2007

Canada Day. University closed.

Monday, 2 July 2007

Holiday in lieu of Canada Day, Sunday, July 1, 2007. University closed.

Tuesday, 3 July 2007

Law: Supplemental and deferred examinations begin (July 3 to July 12 inclusive).

Teacher Education Program: 12-Month Elementary September start, Middle Years and 12 Month Secondary September start: Classes begin for Summer Session, Term 2 dates (July 3 to August 10), (July 3 to 20 and July 23 to August 10). 12 Month Elementary and Secondary, Incoming July start programs: Classes begin for Summer Session Term 2 (July 3 – August 17), (July 3 to 20, 28 and July 23 – August 10 and July 23 – August 17)

Friday, 6 July 2007

Summer Session, Term 1: Last date for withdrawal from most 3-credit courses starting June 18 with withdrawal standing of “W” recorded on a student’s academic record.

Monday, 9 July 2007

Summer Session, Term 2: Some courses begin (July 9 to August 17 (exams August 18).

Wednesday, 11 July 2007

Summer Session, Term 2: Last day for withdrawal from most 3-credit courses starting July 9 without withdrawal standing of “W” recorded on a student’s academic record. Student Service Centre remains open for course withdrawals with “W” standing.

Summer Session, Term 2: Tuition due date.

Friday, 13 July 2007

Summer Session, Term 2: Last date for changes in registration and for withdrawal from most 6-credit/six-week courses starting July 9 without withdrawal standing of “W” recorded on a student’s academic record. Student Service Centre remains open for course withdrawals with “W” standing.

Saturday, 14 July 2007

Deadline for the completion of the Language Proficiency Index (LPI) test by BC students (including students who are non-BC residents studying at BC educational institutions) intending to take a first-year English course in September 2007.

Tuesday, 17 July 2007

Summer Session, Term 2: Last date for withdrawal from most 3-credit/three-week courses starting July 9 with withdrawal standing of “W” recorded on a student’s academic record.

Friday, 20 July 2007

Access & Diversity Office: Recommended date for submission of Exam Accommodation forms for Summer Session, Term 1, for courses ending July 27.

Monday, 23 July 2007

Supplemental and deferred examination period (Winter Session), weekdays (July 23 to August 3 inclusive).

Friday, 27 July 2007

Summer Session Term 1: Most classes end. Examinations are held either the evening of July 27 or Saturday July 28.

Summer Session Term 2: Some classes end. Examinations are held either the evening of July 27 or Saturday July 28.

Graduate Studies: Last day for supervisor to submit “Appointment of External Examiner” form to Faculty of Graduate Studies for December 31, 2007 program end date.

Summer Session, Term 2: Last date for withdrawal from most 6-credit/six-week courses starting July 9 with withdrawal standing of “W” recorded on a student’s academic record.

Monday, 30 July 2007

Summer Session, Term 2: Some courses begin (July 30 to August 17, exams August 18).

Graduate Studies: Last day for final doctoral oral examinations in time for August 31, 2007 program end date.

AUGUST

Wednesday, 1 August 2007

Summer Session, Term 2: Last date for changes in registration and for withdrawal from most 3-credit/three-week courses starting July 30 without withdrawal standing of “W” recorded on a student’s academic record. Student Service Centre remains open for course withdrawals with “W” standing.

Graduate Studies: Expected date for Faculty of Graduate Studies to have received recommendations from departments for overseas international students to be admitted for registration in January.

Saturday, 4 August 2007

Language Proficiency Index (LPI): Deadline for completion of the Language Proficiency Index (LPI) test by out-of-province students intending to take a first-year English course in September 2007. Out-of-province students may be granted permission write on September 1 if they miss the LPI sitting in their province. To seek permission, write to the First-Year English Office (First-Year.English@ubc.ca).

Monday, 6 August 2007

BC Day. University closed.

Tuesday, 7 August 2007

Last date for withdrawal from most 3-credit/three-week courses starting July 30 with withdrawal standing of “W” recorded on a student’s academic record.

Wednesday, 8 August 2007

International Student Services welcome services for new international (including US) and exchange students (August 8 to 26 inclusive, and ongoing).

Friday, 10 August 2007

Access & Diversity Office: Recommended date for submission of Exam Accommodation forms for Summer Session, Term 2 courses ending August 17.

Graduate Studies: Last day for submission of exam copies of doctoral theses to Faculty of Graduate Studies for transmission to the external examiner in time for Fall graduation.

Last day for students who hold major external graduate or undergraduate fellowships to apply for Winter Session fee deferments.

Wednesday, 15 August 2007

Last day for sponsored students to submit application to have fees billed to a sponsoring organization. Students who do not submit their applications by the deadline will be required to pay the first instalment of tuition fees by September 5 to avoid financial hold procedure (see Fees chapter of Calendar).

General Bursary Program: Applications available on the Student Service Centre.

Friday, 17 August 2007

Summer Session Term 2: Most courses end. Examinations are held either the evening of August 17 or on Saturday August 18.

Saturday, 18 August 2007

Forestry, third year: Interior Field School (FRST 351) begins (August 18 to 26 inclusive).

Friday, 31 August 2007

2006/07 Academic Year ends.

Last day for graduation applications to be submitted to Enrolment Services by all students expecting to graduate in November. Application is made through the Student Service Centre.

Graduate Studies: Last day for submission of final master’s and doctoral theses to Faculty of Graduate Studies for August 31, 2007 program end date.

II Admissions

UNDERGRADUATE ADMISSION PROCEDURE

Inquiries concerning admission should be made to:

Undergraduate Admissions
(www.welcome.ubc.ca)
The University of British Columbia
Enrolment Services
2016–1874 East Mall
Vancouver, BC, Canada V6T 1Z1
Telephone: 604-822-3014
Fax: 604-822-3599

For application and document deadlines for the various faculties and schools, see Application Deadlines (www.students.ubc.ca/calendar/index.cfm?page=deadlines). All necessary educational documents and an Application for Admission form must be submitted by the designated date. See *Application to UBC*, p. 22.

Faculties or schools that have more eligible applicants than they can admit will not accept applications after the deadline. Faculties or schools that expect to have space available may accept late applications. However, late applications will only be considered after all other eligible applications and it may not be possible to process them before the start of classes. Applications that are not complete by the document deadline may be cancelled if the program has been filled by that date.

Documents submitted in support of an application become the property of the University and are not returned to the applicant unless they are irreplaceable (e.g., graduation certificates/booklets, Iranian high school transcripts, etc.). Applicants who submit irreplaceable documents may complete a “Request for Return of Irreplaceable Documents” (www.welcome.ubc.ca/apply.cfm?page=ttd&view=irreplaceable) form, available online or from Admissions. Irreplaceable documents will be returned after the admission evaluation is complete. For applicants who do not attend UBC, documents will be kept on file for one year only. For those who attend UBC, admission documents are retained for five years after a student stops attending the University.

Notification of admission decisions are given to applicants after all necessary documents have been received and evaluated. Offers of admission and information concerning registration procedures will be provided to all successful applicants.

Students receiving offers of admission to most limited enrolment programs will have their offer of admission revoked and their eligibility to register cancelled if they do not register by the cancellation date given in their letter of

acceptance. Offers of admission or readmission are valid only for the session(s) indicated on the letter of acceptance.

POLICY ON ADMISSIONS

The University of British Columbia seeks applications from students who can benefit from and contribute to the varied and stimulating academic life at this university. The University’s admission regulations and procedures are intended to identify such students and to ensure that they enter programs at a level that will allow them to get the maximum benefit from their university studies.

Academic criteria are the bases of admission for the majority of applicants offered admission but additional criteria may be used in some programs in the selection of a limited number of qualified students. Programs to which admission may be based on both academic and other criteria are identified in the faculty and school entries.

Excellent students who do not meet all of the published admission requirements may be considered for admission in exceptional cases by the dean of the faculty or the dean’s designate.

The number of new students that can be admitted to each program is dependent on a number of factors and is usually not known when the first offers of admission are made. The chances of receiving an offer of admission may be increased by the early submission of an application and supporting documentation. Application and document deadlines are the latest dates on which an application or document will be accepted. Processing of applications does begin before these dates and in some cases programs may be filled by well qualified students before the document deadline.

The University reserves the right, the published regulations notwithstanding, to deny admission on the basis of overall academic record and to limit enrolment by selecting from among qualified applicants those who will be admitted.

Except in special circumstances, no student under the age of 16 is admitted.

The admission requirements in this section refer to the minimum educational level necessary for admission to undergraduate programs. Because of enrolment limitations the academic standing required for admission to most programs is higher than the published minimum. Reference may also be made to the faculty and school entries for specific requirements for admission to the various programs of study in the faculties and schools.

CLASSIFICATION OF STUDENTS

- 1) **Regular.** A student enrolled for studies leading to a degree or a diploma whether on a full-time or a part-time basis.
- 2) **Qualifying.** A student enrolled in make-up studies in preparation for registration as a regular student in a graduate or professional program. Qualifying status is granted only to those students who are recommended for such status by the departments concerned and the Faculty of Graduate Studies.
- 3) **Unclassified.** A student enrolled for studies not intended to lead to a particular degree or diploma. Unclassified students should normally have a recognized degree. Admission as an unclassified student does not guarantee that a student will be able to register for any course offered. Admission as an unclassified student does not imply future admission as a regular student. Students with a failed year in a faculty will not be admitted as unclassified until they have discontinued their studies for at least one year. After a second failed year, admission as unclassified will be subject to the approval of the Senate Admissions Committee.

(a) *Unclassified Students Applying to Second or Subsequent Undergraduate Degree Programs*

A faculty may limit the number of credits taken as an Unclassified student that may be counted for credit toward a second or subsequent undergraduate degree. See individual faculty listings and/or contact faculty advisors for details.

(b) *Unclassified Students Applying to Graduate Programs*

Courses taken as an unclassified (or non-degree) student may be approved for transfer toward a graduate program on permission of the department and the Dean of the Faculty of Graduate Studies.

Consistent with standard transfer credit regulations, students are limited to transferring a maximum of 12 credits or up to 40% of the program credit requirements, whichever is more, toward their Master’s program. No more than 6 credits of transfer credit may be at the undergraduate level (300–400). To be eligible for transfer, a minimum ‘B’ standing must have been achieved and the course(s) must not have been counted toward the completion of another degree or program.

- 4) **Access Studies.** Applicants may be enrolled as Access Studies students upon approval by a faculty (a) to allow them to take a limited number of courses in a specific area to upgrade or achieve a qualification, or (b) when they do not wish to pursue a specific program. Distance education students may be enrolled in this category. Students in this category may normally take up to 6 credits per academic term, up to a maximum of 24 credits in total while registered as Access Studies students. Students enrolled in a UBC degree program may not normally be concurrently registered as Access Studies students. Although documentation requirements vary by Faculty, Access Studies applicants are not normally required to submit transcripts or other academic documentation of prior study. Students with English as a second language, however, are required to satisfy the *English Language Admission Standard*, p. 15, in the same way as applicants to degree programs. Students who have been required to withdraw from any post-secondary institution must provide official transcripts. To be welcome as an Access Studies student, they must normally first complete a minimum of 15 credits of transferable coursework with a GPA of 2.0 on the 4-point scale since having been required to withdraw. Students who have been required to withdraw more than once from any post-secondary institution or program are not eligible for admission as Access Studies students. Continuation as an Access Studies student is normally contingent upon maintaining a passing grade on all courses attempted. Admission as an Access Studies student does not guarantee that a student will be able to register for any course offered. Admission as an Access Studies student does not imply future admission as a regular student. For further information about Access Studies, please contact the Access Studies Coordinator (access.studies@ubc.ca) in Enrolment Services at 604-822-9836.
- 5) **Visitor.** A student enrolled in studies for transfer to a degree program at another recognized university. For applicable fees, see the “Fees, Financial Assistance, and Scholarships” chapter. Student must be in good standing at the home university and must submit official transcripts and a Letter of Permission with their application. Course registrations will be made on a space-available basis only. A Letter of Permission is valid for one session only. A Letter of Permission must be submitted for any subsequent sessions in which a student wishes to register for courses.
- 6) **Exchange.** A visiting student studying at the University of British Columbia under a Senate approved student exchange program and enrolled in studies for transfer to a degree program at another university.
- 7) **Resident.** A dental resident, medical resident or intern, or pharmacy resident

registered in a postgraduate training program in the Faculty of Dentistry, the Faculty of Medicine or the Faculty of Pharmaceutical Sciences.

- 8) **Auditor.** A student registered in a credit course whose participation is limited to that deemed appropriate by the instructor but who, in general, is expected to maintain the same schedule of readings as regular students although not expected to write examinations. An auditor may not transfer to the category of regular student during the term nor may a regular student transfer to the category of auditor except upon the recommendation of the dean of the faculty concerned. Application for admission as an auditor must parallel the procedures for the application of regular students. The application for admission must be accompanied by a written explanation of the reason that status as an auditor is sought. Where an applicant has not met formal requirements for admission to the university, or to the course involved, a full statement of previous relevant activities must be submitted with the application in order that consideration can be given for special admission in the category “mature”. Once formal application has been made the decision on acceptance or otherwise will be made by the dean of the faculty concerned or the dean’s designate. The fees for auditors will be the same as those for regular undergraduate students, See the “Fees, Financial Assistance, and Scholarships” chapter. There will be a statement of “audit” on the permanent academic record for any course taken by a student as an auditor. Students taking a combination of credit and audit courses will be subject to restrictions on maximum work load imposed by the faculties as interpreted by faculty advisors.
- 9) **Post-Degree Trainee.** A post-graduate non-credit student pursuing further clinical or research training in their specialty.
- 10) **Mature Applicant.** A resident of BC whose formal education has been interrupted and who does not meet the normal requirements for admission, but who has pursued interests and activities that have contributed to an intellectual maturity that would permit acceptance to the University. The University reserves the right to determine whether or not an applicant can be classified as mature; the determination will not be made on the sole criterion of chronological age. An applicant who applies for admission as a mature applicant and is not granted admission in this category will be advised of an alternate route of study, usually at a college, in order to prepare for future admission as a regular student. Each applicant is considered on an individual basis. Application must be made to Enrolment Services, giving the applicant’s school and employment background. It may be necessary for the applicant to be interviewed by the dean of the faculty concerned. A mature student is permitted to

undertake degree or diploma studies on the same basis as a fully-matriculated student.

CANADIAN ABORIGINAL STUDENTS

The University of British Columbia is dedicated to making the University’s vast resources more accessible to Aboriginal People, and to improving the University’s ability to meet their educational needs. The University recognizes that Aboriginal students make valuable contributions to its learning environment and therefore invites inquiries and applications from Aboriginal candidates to its many and diverse fields of study.

UBC will consider applicants who do not meet the current academic standing set by the individual faculties and schools, but who meet the University-wide academic minimum of 67% for applicants applying directly from high school or 2.0 for applicants applying from a recognized post-secondary institution.

Applicants will be considered on an individual basis by the applicable faculty or school and a representative of the First Nations House of Learning. Educational history, cultural knowledge, work experience, educational goals, and achievements that indicate an ability to succeed at university will be considered.

Each applicant must submit two letters of reference from persons specifically able to assess the applicant’s potential for academic success. One reference letter should be from a recognized Aboriginal organization or community leader. Applicants must also submit a personal letter outlining their academic objectives.

For the purpose of application and admission to the University of British Columbia, and in accordance with the *Constitution Act, 1982*, Part II, Section 35(2), an Aboriginal applicant is an Indian, Inuit, or Metis person of Canada.

STUDENTS WITH DISABILITIES

Academically qualified students who have physical, sensory, or specific learning disabilities are encouraged to attend the University of British Columbia. The University has a wide variety of services, including several forms of special assistance, designed to accommodate the needs of students with disabilities.

The University will ensure that applicants are not denied admission as a result of their disability and that, where appropriate, accommodation will be made with respect to admission criteria.

Prospective applicants and students with disabilities are encouraged to contact the Disability Resource Centre (www.students.ubc.ca/access). See also the *Services, Organizations, and Facilities* chapter of this Calendar, p. 62, for a description of the services available and to arrange access to them.

ADVANCED CREDIT OR PLACEMENT

Advanced placement, and in many cases advanced credit, may be given in appropriate secondary school subjects where high academic achievement has been attained. This provision applies particularly to the Advanced Placement, International Baccalaureate (Higher Level), and General Certificate of Education (Advanced Level) programs. Interested students should refer to the Undergraduate Viewbook or inquire at Undergraduate Admissions (www.students.ubc.ca/welcome) for more information.

HOME SCHOOLED SECONDARY SCHOOL APPLICANTS

Applicants completing their secondary school education through home study may be eligible for admission. Applicants will be considered on an individual basis and may be expected to present a recognized academic secondary school credential. Homeschooled applicants are encouraged to contact a program advisor prior to applying for admission.

ADMISSION TO UNDERGRADUATE PROGRAMS REQUIRING PRIOR STUDY

Admission requirements for undergraduate programs requiring either substantial progress towards or completion of a prior degree are specified in entries for the faculties and schools offering these programs. Applicants are advised that in some cases a recognized prior degree may not satisfy requirements for specific pre-admission studies. More information is available at Programs of Study (www.students.ubc.ca/welcome/programs.cfm).

ENGLISH LANGUAGE ADMISSION STANDARD

As English is the language of instruction at the University of British Columbia, all applicants, regardless of country of origin or of citizenship status, will be required to demonstrate competence in the English language prior to admission. Competence is expected in all four of the following skills: listening, reading, speaking, and writing.

This requirement is distinct from the Language Proficiency Index (LPI) requirement for first-year English courses, Arts One, the Arts Foundation Program, and Science One at UBC. Please see *Language Proficiency Index Requirement for First-Year English*, p. 120 and below, p. 16, for further information about the LPI.

With the exception of applicants to the Faculty of Graduate Studies, applicants may demonstrate English language competence by one of the following:

- Four years of full-time education in English in Canada or the equivalent in another

country where English is the principal language. Such education must include BC Grade 12 or equivalent and can be in a combination of secondary and post-secondary education. Years completed in a recognized international school where English is the language of instruction may be eligible for inclusion in the required years of instruction.

- A minimum final English (non-ESL) grade in one of the following:

BC English 12 provincial exam (or equivalent ¹)	70%
BC English Literature 12 provincial exam (or equivalent ¹)	70%
IB English A1 or A2 (Standard or Higher)	5
AP English Language and Composition	4
AP English Literature and Composition	4
GCE Advanced-Level English	B

- ¹ In an approved school or country where English is the principal language. Grade scale may be adjusted for the different grading practices.
- Successful completion of the equivalent of four years of full-time instruction in a school/institution in Canada in which the major language of instruction is other than English but where the level of English proficiency required is equivalent to that in English-language schools or institutions in Canada. Such education must include the equivalent to BC Grade 12 and can be in a combination of secondary and post-secondary education. (This will include applicants from CEGEPs who have completed English as a first language).
 - Graduation from a recognized degree program at an accredited university at which English is the primary language of instruction and in a country where English is the principal language.
 - Successful completion of 6 credits of post-secondary first-year English studies for which UBC gives transfer credit.
 - The competence standard indicated on one of the tests of English language proficiency as listed in the 'English Language Proficiency Tests' table below that evaluates skills in listening, reading, speaking, and writing.

ENGLISH LANGUAGE PROFICIENCY TESTS

Test	Competence Level ¹
CAE Certificate in Advanced English ⁴	B
CAEL Canadian Academic English Language assessment	overall 70
With the speaking sub-test	60
CEL UBC Certificate in English Language ²	600
CELPPI Canadian English Language Proficiency Index Program ³	
CELPIT-A (Academic Reading and Writing) ³	4L

Test (Continued)	Competence Level ¹
CELL (Listening)	4L
CELTOP (Speaking)	4L
CPE Certificate of Proficiency in English ⁴	C
IELTS International English Language Testing System (Academic)	6.5 with no part less than 6.0
MELAB Michigan English Language Assessment Battery	85
With the MELAB Oral Interview	
TOEFL Test of English as a Foreign Language	
Either the Paper-based test	55
With the TWE (Test of Written English)	4.0
Or the Computer-based test	22
With the essay	4.0
Or the Internet-based test	
Overall Score	86
Reading	21
Listening	21
Writing	20
Speaking	20

¹ Unless otherwise stated, the score is the minimum on each part of the examination. Tests taken more than two years prior to application for admission will not be considered.

² From UBC's English Language Institute. See www.eli.ubc.ca/lep for further details.

³ From UBC's Applied Research and Evaluation Services (ARES). The Canadian English Language Proficiency Index Test – Academic (CELPIT-A) portion of this test satisfies the Language Proficiency Index (LPI) requirement for first-year English courses at UBC with a score of at least 5 on the essay section.

⁴ Administered by the University of Cambridge ESOL Examinations organization.

WAIVERS OF THE ENGLISH LANGUAGE PROFICIENCY REQUIREMENT

Note: unless a student meets this requirement by exemption, the LPI examination must be taken prior to enrolment in any first-year English course at UBC, or in any of the programs listed above. A student's registration in other courses may be halted if the English requirement for the student's degree has not been met by the faculty's allotted completion time.

Students who have studied full-time for at least four years at a recognized international school where English is the language of instruction, but in a country where English is not the principal language, may be eligible for a waiver of the English Language Admission Standard. A student should consider arranging to meet the requirement through regular means in the event that their request for a waiver of the requirement cannot be granted. To request a waiver, students should send to Admissions:

- A brief letter or email explaining why they believe the requirement should be waived;
- A letter of recommendation from the student's high school English teacher, guidance counsellor, principal, or headmaster that attests the student's level of English proficiency is close to, or equal to, that of a native speaker. The letter should provide information as to how the writer may be contacted (including an email address if possible);
- An official transcript of grades including the student's interim senior year or Grade 12 marks and predicted IB or AP grades (if not already sent); and
- Any additional evidence that may reflect the student's English competence such as achievement test scores (e.g., Scholastic Aptitude Test [SAT] scores).

LANGUAGE PROFICIENCY INDEX (LPI) REQUIREMENT FOR FIRST-YEAR ENGLISH

All programs at UBC require at least 3 credits of first-year English; most require 6 credits. Although it is not necessary to complete the LPI prior to registering for UBC, it is necessary to have completed it before enrolling in any first-year English course, Arts One, the Arts Foundations Program, or Science One at UBC. The LPI is administered by the Department of English in the Faculty of Arts and the LPI Office (www.lpi.ubc.ca). Please refer to each faculty's "English Requirements" and the *LPI section*, p.121, for further details regarding this requirement.

UBC-SFU-UVIC-UNBC CALCULUS EXAMINATION CERTIFICATE

Working in collaboration, the University of British Columbia, Simon Fraser University, the University of Victoria, and the University of Northern British Columbia offer a three-hour calculus examination to all students who have completed, or are currently registered in, a calculus course in secondary school. Students who pass the examination will be awarded a UBC-SFU-UVIC-UNBC Calculus Examination Certificate. The certificate may be presented for credit in MATH 100 at UBC, MATH 151 at SFU, MATH 100 at UVIC, or MATH 100 at UNBC, after registering at one of the four universities. Students claiming credit at UBC will have their examination score shown on their transcript as their grade in MATH 100. Only one attempt is permitted. Students who have already started college or university may not participate. Students already eligible for transfer credit because of high AP or IB scores retain their eligibility regardless of their examination score.

The duties of organizing and hosting the examination rotate between the Mathematics Departments of the participating universities. Web links to the latest information are maintained by the UBC Mathematics Department (see the

Calculus Examination site (www.math.ubc.ca/Ugrad/Challenge)).

APPLICANTS FOLLOWING THE BC/YUKON SECONDARY SCHOOL CURRICULUM

ADMISSION REQUIREMENTS

The minimum academic qualification for admission is secondary school graduation from a recognized secondary school, including the following Grade 11 and 12 courses:

Grade	Required Courses ¹
Grade 12	English 12 Three additional approved examinable Grade 12 courses ¹
Grade 11	English 11 Principles of Mathematics 11 Civic Studies 11 or Social Studies 11 or First Nations Studies 12 At least one approved Science 11 ² An approved Language 11 ³

¹ Or approved equivalent International Baccalaureate, Advanced Placement, or Post-secondary course. See the table *Specific Program Requirements for Applicants Following the BC/Yukon Secondary School Curriculum*, p. 18, and the sections titled *Advanced Placement and International Baccalaureate Courses Approved to Satisfy Pre-requisites*, p. 21, and *Post-Secondary Course Credits that Count Toward High School Graduation*, p. 17.

² See the table *Specific Program Requirements for Applicants following the BC/Yukon Secondary School Curriculum*, p. 18, for programs requiring two Science courses at the Grade 11 level.

³ A beginner's Language 11 does not satisfy this requirement.

The admission average will be calculated on English 12 and the three additional approved examinable Grade 12 courses or the equivalent.

A minimum average of 67% is required for admission to all programs. However, due to limited enrolment, a higher average is required in most programs.

Applicants who, because of administrative difficulties in their school or because they have a physical, sensory, or specific learning disability, cannot present the courses as required, may be excused a specific admissions course requirement. Supporting documentation sent by the principal of the school concerned is required.

All courses must be completed by June. Final examinations offered by the BC Ministry of Education or the external examinations for International Baccalaureate and Advanced Placement courses **must** be written. Summer school courses or grades obtained in supplemental examinations will not be considered.

Approved Examinable Grade 12 Courses

Biology 12
Chemistry 12
English Literature 12
English 12
Français Langue 12 or French 12
Geography 12
Geology 12
German 12
History 12
Japanese 12
Mandarin 12
Principles of Mathematics 12
Physics 12
PSI Calculus Assessment 12¹
Punjabi 12
Spanish 12

¹ For further information refer to *UBC-SFU-UVIC-UNBC Calculus Examination Certificate*, p. 16.

Approved courses offered in French will also be accepted. (Français 12 is not accepted in place of English 12.)

Approved Grade 11 Science Courses

Applied Physics 11 and 12¹
Biology
Chemistry
Earth Science
Physics

¹ Together these courses meet both the Grade 11 Science requirement and the Physics 11 requirement.

Approved Grade 11 Language Courses¹

Athapaskan (with Athapaskan 12)
American Sign Language (ASL) 11
Arabic
Chilcotin
Français (Communication et Littérature)
Français (Langue)
French
German
Gitksan
Hebrew²
Italian
Japanese
Korean
Latin
Mandarin Chinese
Musqueam³
Nisga'a
Nuxhalk
Punjabi
Russian
Sechelt
Shuswap
Sm'algayx
Spanish

¹ External Language Certificate 11 or External Language Assessment 11 will meet the language 11 admission requirement.

² King David High School or Pacific Torah Institute.

³ Taught through the UBC FNLG 100B course.

POST-SECONDARY COURSES THAT COUNT TOWARD BC OR YUKON HIGH SCHOOL GRADUATION

The University of British Columbia recognizes certain post-secondary courses, completed as part of the high school graduation requirements, for admission and for transfer credit.

For the purpose of admission, all post-secondary courses completed toward high school graduation must satisfy the requirements of the program of study to which an applicant is admitted, and must be transferable to UBC in accordance with agreed-upon equivalencies published in the British Columbia Transfer Guide (www.bccat.bc.ca/otg). Successfully completed post-secondary courses are considered electives and will not be used in place of required provincially examinable Grade 12 courses.

The admission average will be calculated on English 12 and three additional approved examinable Grade 12 courses or approved post-secondary course(s). Applicants must arrange to have an official transcript sent directly from their post-secondary institution to UBC Undergraduate Admissions.

Courses successfully completed at recognized colleges and universities in British Columbia and Yukon are granted transfer credit in accordance with agreed-upon equivalencies published in the British Columbia Transfer Guide (www.bccat.bc.ca/otg).

TRANSITION PROGRAM

UBC, the Vancouver School Board, and the BC Ministry of Education run a joint university preparation program for academically exceptional students. Students enrolled in this program are eligible for admission to the University upon recommendation of the Principal of the Transition Program and concurrence of the dean of the admitting faculty. Completion of required Grade 12 courses (or their equivalent) necessary for entry to that faculty is mandatory.

CONCURRENT ENROLMENT POLICY

Students who are enrolled in a BC secondary school may be admitted to the University of British Columbia to pursue Concurrent Studies. Students pursuing Concurrent Studies are admitted under the Access Studies student category. Please see *Access Studies*, p. 14, for more information. The following conditions will apply at the University:

- the applicant must have a superior academic record;
- the applicant must be enrolled in a BC secondary school in a program that meets regular UBC entry requirements;
- the applicant must have the written recommendation of the secondary school principal;
- the applicant must have the written consent of the parent or legal guardian

if under the legal age of majority on the opening day of classes; and

- the applicant must have the support of the dean of the faculty for the courses in which the applicant plans to enrol.

Admission will initially be for one academic session but may be renewed with the continued support of the school principal and the dean. Normally no more than 12 credits may be obtained by Concurrent Studies, but students who continue to have superior academic records and the support of the school principal may seek permission from the dean to enrol in further courses.

Students in Concurrent Studies will be treated as regular students in most respects, except that they may not register in a full range of courses. Standard transcripts will be issued and fees and deadlines will be as for regular students.

Students who have enrolled in Concurrent Studies at other recognized post-secondary institutions prior to secondary school graduation may also be eligible for transfer credit.

BRITISH COLUMBIA ADULT GRADUATION DIPLOMA (BCAGD)

The University recognizes the BCAGD Provincial Diploma for admission to the first year of an undergraduate degree. Applicants who have completed the BCAGD must be at least 19 years of age and meet the following admission requirements:

- 1) Four Adult Basic Education (ABE) Advanced Level or Grade 11 courses, which must include English; Algebraic Mathematics (ABE) or Principles of Mathematics 11; one Science¹; and one of Social Science (ABE), Social Studies 11, Civic Studies 11, Language 11, or First Nations 12.
- 2) Four Provincial Level (ABE) or Grade 12, including English and three additional subjects chosen from Biology, Chemistry, Physics, Mathematics (ABE) or Principles of Mathematics 12, Computer Science (ABE), Geology, Geography, History, English Literature, and Languages.

¹ Excludes ABE General and Applied Science and Grade 11 Resource Science.

The admission average will be calculated on ABE Provincial Level English or English 12, and three other ABE Provincial Level or Grade 12 courses, each of which must be graded. A minimum average of 67% is required for admission to all programs. However, due to limited enrolment, a higher average is required in most programs. All courses must be completed by June. Summer school courses or grades obtained in supplemental examinations will not be considered.

Entrance requirements to specific programs parallel those for BC/Yukon secondary school graduates and applicants should refer to the table *Specific Program Requirements for Applicants Following the BC/Yukon Secondary School Curriculum*, p. 18, to ensure they have the required courses.

Adult Basic Education (ABE) Courses

UBC accepts the BC Certificate of Graduation (Dogwood) in combination with Adult Basic Education (ABE) Provincial Level courses completed at recognized secondary schools, adult education centres, or post-secondary institutions. Applicants who complete ABE Provincial Level courses, but do not complete the BC Adult Graduation Diploma (BCAGD), must write the final examination offered by the BC Ministry of Education for each Provincial Level course completed. The admission average will be calculated on ABE Provincial Level English or English 12, and three other ABE Provincial Level or Grade 12 courses, each of which must be graded.

SPECIFIC PROGRAM REQUIREMENTS FOR APPLICANTS FOLLOWING THE BC/YUKON SECONDARY SCHOOL CURRICULUM

The table *Specific Program Requirements for Applicants Following the BC/Yukon Secondary School Curriculum* shows the required courses used in the calculation of the admission average for specific programs, as well as courses that are required but are not used in the calculation of the average:

Program	Degree	Faculty/School	Average Calculated on the Following Required Courses or IB/AP Equivalents	Courses Required but not included in the Calculation of the Average
Agroecology	B.Sc. (Agroecology)	Land and Food Systems	English 12 Principles of Mathematics 12 One of Biology 12, Chemistry 12, Geology 12 or Physics 12 One other approved examinable Grade 12 course	English 11 Language 11 Principles of Mathematics 11 Two of Biology 11, Chemistry 11, or Physics 11 Social Studies 11
Arts	B.A.	Arts	English 12 Three other approved examinable Grade 12 courses	English 11 Language 11 Principles of Mathematics 11 Science 11 Social Studies 11
Commerce ¹ (Direct Entry)	B.Com.	Commerce and Business Administration	English 12 Principles of Mathematics 12 Two other approved examinable Grade 12 courses	English 11 Language 11 Principles of Mathematics 11 Science 11 Social Studies 11
Dental Science	B.D.Sc. (Dental Hygiene)	Dentistry	English 12 Biology 12 Chemistry 12 One other approved examinable Grade 12 course	Biology 11 Chemistry 11 English 11 Principles of Mathematics 11 Language 11 Social Studies 11
Engineering	B.A.Sc.	Applied Science	English 12 Chemistry 12 Principles of Mathematics 12 Physics 12	English 11 Language 11 Chemistry 11 Principles of Mathematics 11 Physics 11 Social Studies 11
Food, Nutrition and Health	B.Sc. (Food, Nutrition and Health)	Land and Food Systems	English 12 Principles of Mathematics 12 One of Biology 12, Chemistry 12, Geology 12, Physics 12 One other approved examinable Grade 12 course	English 11 Language 11 Principles of Mathematics 11 Two of Biology 11, Chemistry 11 or Physics 11 Social Studies 11
Forest Operations, Forest Resource Management	B.S.F.	Forestry	English 12 Principles of Mathematics 12 One of Chemistry 12 or Physics 12 One other approved examinable Grade 12 course	English 11 Language 11 Principles of Mathematics 11 Biology 11 One of Chemistry 11 or Physics 11 Social Studies 11
Forest Science	B.Sc. (Forestry)	Forestry	Same as for B.S.F. (above)	Same as for B.S.F. (above)
Human Kinetics	B.H.K.	Human Kinetics	English 12 One of Principles of Mathematics 12, Biology 12, Chemistry 12, Geology 12 or Physics 12 Two other approved examinable Grade 12 courses	English 11 Language 11 Principles of Mathematics 11 Science 11 Social Studies 11
Midwifery	B.Mw.	Medicine	English 12 Biology 12 Two other approved examinable Grade 12 courses	Chemistry 11 English 11 Language 11 Principles of Mathematics 11 Social Studies 11
Music	B.Mus.	Music	English 12 Three other approved examinable Grade 12 courses	English 11 Language 11 Principles of Mathematics 11 Science 11 Social Studies 11

¹ Under review.

APPLICANTS FROM A SECONDARY SCHOOL IN CANADA OUTSIDE OF BC/YUKON

Applicants who have followed an academic program leading to university entrance will be considered for admission to the University of British Columbia. Students will be required to present English to the senior year level and all prescribed subjects for the university studies sought. (See the table *Specific Program Requirements*, p. 20, in this section.)

Completion of secondary school graduation from a recognized secondary school is mandatory and a minimum average of 67% or equivalent is required.

Because of enrolment limitations the academic standing required for admission to most programs is higher than 67%. Admission to some programs requires a minimum standing in specific courses. The minimum study for a UBC degree is four years.

The following requirements apply:

- **Ontario.** Ontario Secondary School Diploma with six appropriate Ontario Academic Courses (OACs) including English (OAC I) or a minimum of six Grade 12 U/M courses including English (ENG40).
- **Quebec.** The Cote de Rendement Collège d'Enseignement Général et Professionnel (CEGEP). Applicants must have at least one full year of study in an academic diploma program with a minimum R-score of 15. However, due to limited enrolment, a higher R-score is required for most programs. Transfer credit for up to one full year of degree study may be granted when the two-year diploma has been awarded.

- **Alberta, Saskatchewan, Manitoba, New Brunswick, Nova Scotia, PEI, Newfoundland, Northwest Territories, and Nunavut.** Grade 12 graduation with standing in at least five appropriate academic Grade 12 courses including English.

Further information on appropriate academic courses is available through the Welcome website (www.students.ubc.ca/welcome/programs.cfm).

ADMISSION BASED ON INTERIM GRADES

Admission based on interim grades is possible for students with strong academic standing in the final year of secondary school. Applicants must arrange for their school to provide an official transcript to Admissions before the stated document deadline. The transcript must include any final grades for the current year and a list of courses in progress with interim grades. Offers of admission based on interim grades are subject to satisfactory completion of secondary school graduation requirements, completion of all required courses, and maintenance of the required threshold average as noted in the official offer of admission. Offers of admission may be withdrawn from students who do not satisfy these requirements.

SPECIFIC PROGRAM REQUIREMENTS

The information contained in the following table, Specific Program Requirements, applies to applicants from outside BC/Yukon and is expressed in BC/Yukon terms. Undergraduate Admissions will determine course equivalency. These requirements are in addition to those listed above for each province.

SPECIFIC PROGRAM REQUIREMENTS FOR STUDENTS APPLYING FROM OUTSIDE OF BC/YUKON

Program	Degree	Faculty/School	Secondary School Graduation Must Include:
Agroecology	B.Sc. (Agroecology)	Land and Food Systems	English 12, Principles of Mathematics 12 Two of Biology 11, Chemistry 11, Physics 11 Two of Biology 11, Chemistry 11, Physics 11 One of Biology 12, Chemistry 12, Geology 12, Physics 12
Arts	B.A.	Arts	English 12
Commerce ¹ (Direct Entry) and Business Administration	B.Com.	Commerce	English 12, Principles of Mathematics 12
Dental Science in Dental Hygiene	B.D.Sc. (Dental Hygiene)	Dentistry	English 12, Biology 12, Chemistry 12
Engineering	B.A.Sc.	Applied Science	Chemistry 12, English 12, Principles of Mathematics 12, Physics 12
Food, Nutrition and Health	B.Sc. (Food, Nutrition and Health)	Land and Food Systems	English 12, Principle of Mathematics 12 Two of Biology 11, Chemistry 11, Physics 11 One of Biology 12, Chemistry 12, Geology 12, Physics 12
Forest Operations, Forest Resources Management	B.S.F.	Forestry	English 12, Principles of Mathematics 12 Biology 11 One of Chemistry 11, Physics 11 One of Chemistry 12, Physics 12
Forest Science	B.Sc. (Forestry)	Forestry	Same as for B.S.F. (above)

Wood Products Processing	B.Sc. (Wood Products Processing)	Forestry	English 12, Principles of Mathematics 12, Physics 12, Chemistry 11, and Physics 11

¹ under review.

APPLICANTS FROM A SECONDARY SCHOOL OUTSIDE CANADA

The following list outlines the minimum standing for admission in terms of educational credentials. All students must present prerequisites appropriate for their intended program of study.

- General Certificate of Secondary Education (GCSE) or General Certificate of Education (GCE), with standing in at least five subject areas, including English, with three at the Advanced Level.
- School Certificate (SC). A Division 1 Certificate with standing in at least five different subjects, including English, with two at the Principal Level on the Higher School Certificate (HSC).
- International Baccalaureate (IB). A Diploma with standing in at least six subjects, three at the standard level and three at the higher level, with a Diploma awarded.
- Secondary school graduation from an academic program at a recognized secondary school with the required average on academic courses completed in Grades 11 and 12. The secondary school subjects must include four years of English and at least three years of Mathematics.

- Certificate of Matriculation. Applicants who have matriculated at a recognized university may be admitted provided subject prerequisites and academic standing for admission to UBC are met.

Because of the differences in world educational systems, satisfactory completion of secondary school is not necessarily an acceptable basis for admission to first year. The University of British Columbia reserves the right to determine whether or not a student is eligible for admission and to determine what transfer credit, if any, may be granted.

Applicants presenting appropriate subjects with high academic achievement on the Advanced Level (GCE), Principal Level (HSC), Higher Level (IB), or Advanced Placement will, where appropriate, be considered for advanced credit or placement.

Additional academic criteria, such as achievement in standardized tests, results from national or international competitions, or compelling evidence of outstanding leadership, may be considered when evaluating undergraduate applicants from secondary schools who have studied full-time outside of Canada for at least one year immediately prior to UBC admission.

International applicants should realize that the financial assistance that is available at the undergraduate level is limited and that

opportunities for gainful employment will be severely restricted as a result of immigration regulations.

APPLICANTS WITH INTERNATIONAL BACCALAUREATE AND ADVANCED PLACEMENT COURSES

The University of British Columbia recognizes these advanced secondary school programs for admission and for transfer credit.

INTERNATIONAL BACCALAUREATE DIPLOMA STUDENTS

For students who complete the International Baccalaureate (IB) Diploma, admission to the University will require a minimum of 24 points including bonus points. Due to limited enrolment, a higher score will be required for admission to most programs.

INTERNATIONAL BACCALAUREATE CERTIFICATE STUDENTS

International Baccalaureate certificate courses may be combined with an approved high school credential for the purpose of admission.

For students who present International Baccalaureate certificate courses, the admission

average will be calculated on the higher of either the official IB final score or the final school grade. In those cases where an IB score is not available at the time of admission selection, the course grade will be used.

The grade conversion scale that will be used to determine admission based on official IB results is as follows:

IB Grade	% Equivalent
7	96
6	90
5	86
4	76
3	70

INTERNATIONAL BACCALAUREATE TRANSFER CREDIT

Credit for equivalent first-year UBC courses will be awarded to students who achieve a grade of at least 5 in Higher Level IB Arts courses and 6 in Higher Level IB Science courses. Details are provided at the Admissions website (www.students.ubc.ca/welcome/transfer.cfm?page=firstyear).

ADVANCED PLACEMENT STUDENTS

Advanced Placement (AP) courses may be combined with an approved high school credential for the purpose of admission.

For students who present Advanced Placement courses, the admission average will be calculated on the higher of either the final AP exam score or the final school grade. In those cases where an AP examination grade is not available at the time of admission selection, the course grade will be used.

The grade conversion scale that will be used to determine admission based on official AP results is as follows:

AP Grade	% Equivalent
5	96
4	86
3	80
2	70

ADVANCED PLACEMENT TRANSFER CREDIT

Credit for equivalent first-year UBC courses will be awarded to students who achieve a grade of 4 or better on the appropriate AP course. Details are available at the Admissions website (www.students.ubc.ca/welcome/admission.cfm?page=ap).

ADVANCED PLACEMENT AND INTERNATIONAL BACCALAUREATE COURSES APPROVED TO SATISFY PRE-REQUISITES

Grade 12 Course	Advanced Placement Course	International Baccalaureate Higher Level Course
Biology 12	Biology	General Biology
Chemistry 12	General Chemistry	Chemistry
English 12	English Language and Composition	English Language A
Physics 12	Physics (B or C)	Physics
Principles of Mathematics 12 ¹		Further Math or Math Methods

¹ One of AP Calculus (AB or BC), IB Calculus, or the UBC-SFU-UVIC-UNBC Calculus Examination Certificate may be used as an elective course (in addition to Principles of Mathematics 12).

APPLICANTS FROM A COLLEGE OR UNIVERSITY

Applicants with prior credit from a recognized university or college will be admitted on satisfaction of the appropriate admission requirement as outlined below. Courses successfully completed in prior study, where appropriate, may satisfy requirements of the program of study to which an applicant is admitted.

A student with an unsatisfactory standing at a college or another university will not be admitted.

GENERAL ADMISSION REQUIREMENT

The minimum academic standing to qualify for admission to the University as a transfer student is successful completion of 24 transferable credits with a 'C' average (60% where 50% is a passing grade), or grade point average of 2.0 (calculated on a 4-point scale: A+=4.33, A=4.0, A-=3.67, B+=3.33, B=3, B-=2.67, C+=2.33, C=2, C-=1.67, D+=1.33, D=1, D-=0.67, F=0). Applicants presenting fewer than 24 credits are evaluated on the basis of both final secondary school grades and the partial post-secondary studies completed. Unless otherwise prescribed by the program to which admission is sought, academic standing is based on the average on all college or university courses attempted, including failures and repeated courses. In the case of applicants with more than 60 credits of prior study, the admission average is calculated on the basis of the most recently completed 60 credits.

Because of enrolment limitations, some programs may require a higher average for admission than the University minimum, and may require a minimum standing in specified courses. Applicants should consult the relevant faculty or school entry for a statement of admission requirements for the program to which they seek admission. To be eligible for second year, applicants must normally have successfully completed 30 credits, and satisfied all promotion requirements for advancement to that year. Applicants to third year must have

successfully completed 54 to 60 credits, and satisfied all promotion requirements for advancement to that year.

MAXIMUM ALLOWABLE TRANSFER CREDIT

In general, transfer credit is limited to the first two years of an undergraduate degree program, but credit at a more senior level is possible with the approval of the faculty concerned. No more than 60 credits of transfer credit, or 50% of required program credits, are allowed in any program, and in some programs the maximum may be less. Courses successfully completed at recognized colleges in British Columbia and Yukon are granted transfer credit in accordance with agreed-upon equivalencies published in the British Columbia Transfer Guide (www.bccat.bc.ca/otg). Courses completed at recognized universities and university colleges in British Columbia are likewise granted credit on the basis of established equivalencies. Courses successfully completed at colleges and universities outside British Columbia and Yukon will be assessed for transfer credit on a course-by-course basis. Students applying for transfer credit may be required to supply a copy of the current calendar of the college or university at which they have previously studied in order that an assessment can be made.

UNASSIGNED CREDIT

Unassigned credit may be granted where a course-to-course equivalence cannot be established. This credit may be used as elective credit. Elective credit may be either in a particular discipline, e.g., "Economics (3) credits," or in a faculty, e.g., "Arts (6) credits." Students should be cautioned that there may be specific faculty or school requirements, as well as specific program requirements that unassigned credit may not satisfy.

ASSOCIATE DEGREES

Students with Associate Degrees of Arts or Science from a recognized college or university college in British Columbia or the Yukon, if admitted to the Faculty of Arts or the Faculty of Science, are guaranteed full transfer credit (60 credits) for the work done for their Associate Degree. Students must still meet all 100- and 200-level course requirements for specific degree programs (e.g., majors, honours, faculty-level requirements) and this may require students to take more than 120 total credits to earn their degree. Students admitted with Associate Degrees must meet the competitive admission average for the program to which they apply if this average is above the published minimum.

CREDIT EARNED VIA PRIOR LEARNING ASSESSMENT OR CHALLENGE

Credits earned via prior learning assessment (PLA), challenge credit, or the equivalent, at another recognized post-secondary institution are acceptable at UBC, provided that the course to which those credits apply is recognized by the University as suitable for transfer credit.

The University accepts only PLA credits that are assigned to specific courses.

MUSIC PRE-MAJOR

For a student completing two years in a post-secondary music program, transfer to the B.Mus. degree at UBC is facilitated by the Music Pre-Major Transfer Agreement. By a notation on his/her transcript, a student is recognized by the sending institution as having satisfied the requirements of the Music Pre-Major if he/she completes a specific number of credits in *each* of five course categories. UBC will award 46 credits for the Pre-Major and will deem the student to have met the first- and second-year core requirements of his/her B.Mus. program.

The Music Pre-Major Transfer Agreement does not cover non-music elective courses and does not guarantee acceptance by a receiving institution. The UBC School of Music will continue to require transferring students to audition. A student who wishes to transfer before completing the Pre-Major will have his/her courses evaluated on an individual basis.

Students who have completed the requirements of the Music Pre-Major and who transfer to the B.A. program at UBC, instead of the B.Mus., will be awarded 36 transfer credits: 30 lower-level Music, and 6 of first-year English.

INSTITUTES OF TECHNOLOGY

Advanced Standing or transfer credit for up to one full year of degree study may be granted, where appropriate.

APPEALING FOR ADDITIONAL CREDIT

Students who feel an error has been made in the credit granted at the time of admission should first make a written request to Enrolment Services for a review of credit granted on admission, and if they are not satisfied with the review decision, they should consult the faculty or school to which they are seeking admission.

INTERNATIONAL APPLICANTS

The University welcomes applications from outstanding international students. Well-qualified applicants from recognized secondary schools colleges and universities will be considered, as well as students applying as transfer students from recognized universities and colleges. Applications from short-term visiting students from other recognized universities may also apply. See Apply to UBC (www.welcome.ubc.ca/apply.cfm) to apply online.

For more information and further assistance, international students should contact the International Student Recruitment and Reception Office (international.reception@ubc.ca), The University of British Columbia, 1036-1874 East Mall, Vancouver, BC, V6T 1Z1. Tel: 604-822-8999; Fax: 604-822-9888.

For information about English language admission requirements see UBC's *English Language Admission Standard*, p. 15.

APPLICATION TO UBC

Prospective students apply for admission to the University of British Columbia on the Internet by using the Provincial Application Service of British Columbia (PASBC) Application form (www.pas.bc.ca). Further information on how to apply to UBC is available on the Welcome website (www.students.ubc.ca/welcome/apply.cfm).

Applications will not be processed until all required items, including the fees, have been received. See *Item 4.1*, p. 29, in the Fees, Financial Assistance, and Scholarship chapter.

Application deadlines are February 28 unless otherwise noted. See Dates and Deadlines (www.students.ubc.ca/calendar/index.cfm?page=deadlines) for details.

DEFERRED ADMISSION

The University of British Columbia recognizes that students may encounter opportunities or circumstances that could result in a request for deferred admission. Applicants who are offered admission to full-time study in the first year of a degree program may request a deferral for one year (or two years in cases of mandatory military service).

To be eligible for a deferral, the applicant must:

- Accept the offer of admission by paying a non-refundable registration deposit; and
- Submit an Admission Deferral Request to Undergraduate Admissions by July 15, or 30 days after an offer of admission, whichever is later.

Deferral will not be available to applicants who wish to attend another post-secondary institution. Applicants who attend another institution during their deferral will lose their guaranteed space and will have to reapply for admission.

Deferral may not be possible for students seeking admission to limited enrolment programs.

Students who are granted permission to defer their admission will still have to satisfy any conditions of the admission offer, such as completion of courses in progress, maintenance of a satisfactory admission average, and graduation from secondary school. They must apply to take up the deferred offer by the application deadline of the following year. They must register in the program and at the campus to which they were admitted or will be required to re-apply and compete with the new applicant pool for a space.

READMISSION

Currently attending UBC students who wish to change faculties or apply for readmission to a new faculty must meet the University minimum average of 60% or 2.0 grade point average. Some programs may require a competitive admission average.

Students who have previously attended UBC may apply for readmission online at the Student Service Centre (www.students.ubc.ca/ssc). There is a non-refundable \$60.00 application fee for all readmission applications. Students who have attended any post-secondary institution(s) since last in attendance at UBC will be required to submit a transcript(s) and must qualify for readmission. Please see application information at www.students.ubc.ca/welcome/admission.cfm?page=readmission.

CHANGE OF DEGREE PROGRAM/CAMPUS

Currently attending UBC students who wish to change faculties or apply for readmission to a new faculty must meet the University minimum average of 60% or 2.0 grade point average. Some programs may require a competitive admission average.

UBC students who wish to transfer to a different program must complete the Change of Degree Program/Campus form on the Student Service Centre (www.students.ubc.ca/ssc) and pay the \$60.00 application fee. Former UBC students can also apply for readmission and change of program or campus using the same form. Readmission and Change of Degree Program forms are considered for the Winter Session only. For current UBC students, evaluations for degree changes will take place in mid-June when final grades for the previous Winter Session are released to the Undergraduate Admissions office. Because of this unavoidable delay, applicants awaiting faculty transfer decisions may wish to register for courses using the eligibility from their current program. Students applying to change degree programs are required to meet faculty or school pre-requisites and admission average. Certain programs may require Change of Degree applications to meet a competitive admission average.

Students who wish to change campus from UBC Vancouver to UBC Okanagan, or *vice versa*, must complete the Change of Degree Program/Campus form on the Student Service Centre (www.students.ubc.ca/ssc) and pay the \$60.00 application fee. Students changing campuses must meet all faculty or school requirements and meet the competitive average for the program. Students may transfer a maximum of 60 credits unless registered in a special inter-campus program.

REGISTRATION

Registration is the process of formally assigning and recording the enrolment of a student usually in a course or courses. Registration is available only to those students who have received an offer of admission or readmission, or to students continuing from term to the following term.

Students register using the Student Service Centre (www.students.ubc.ca/ssc). Certain courses and sections may be restricted.

New students, and students who have applied for readmission to the University, will receive

an offer of admission and an information package.

All undergraduate students who are newly admitted to the University must pay a non-refundable deposit to confirm their acceptance of an offer of admission before they can register for the first time.

Continuing undergraduate students are required to pay a non-refundable deposit before they can register for the first time for any session. Students must pay any overdue amount in full before paying their deposit.

For further information regarding deposits, see *Deposits*, p. 25, in the “Fees, Financial Assistance, and Scholarships” chapter. Deposits will be credited in full towards any assessed fees.

All students must pay their current fee instalment in full by the due date.

Students can register through the Student Service Centre (www.students.ubc.ca/ssc).

APPEALS

APPEALS ON ADMISSION DECISIONS

Applications are screened carefully by Enrolment Services in accordance with Senate and faculty admission policies. Applicants who believe that they have been unjustly denied admission to a program due to an error in process or who believe that they deserve special consideration due to mitigating circumstances should discuss the matter with their Admissions Evaluator immediately upon receipt of their final admission decision. If a satisfactory resolution cannot be achieved, the applicant may submit a written appeal to Enrolment Services for review by the applicant’s faculty or school. **Appeals against admission decisions will be considered on applications for the current year only and must be submitted within four weeks of the date of issue on the admission decision letter, or by the 15th of the month prior to the start of classes, whichever is earlier.** The letter of appeal should include (a) the decision that the applicant is appealing against, (b) a statement of the grounds for the appeal, (c) a detailed account of the circumstances relating to the appeal, and (d) copies of any relevant documents. For more information, refer to the Admission Requirements (www.welcome.ubc.ca/admission.cfm).

APPEALS TO SENATE ADMISSIONS COMMITTEE

Applicants who are unsuccessful in their appeal at the faculty or school level may submit a written appeal to Enrolment Services for review by the Senate Admissions Committee. The Senate Admissions Committee reviews doubtful cases and cases of appeal against decisions made on the basis of Senate policy. **Appeals to the Senate Admissions Committee must be submitted to Enrolment Services no later than the 15th of the month prior to the start of classes.**

The Committee may allow an appeal where it decides that a faculty or school may have overlooked or misinterpreted information provided by the applicant, or arrived at a decision without reasonable consideration of mitigating circumstances, or acted contrary to the faculty’s published procedures. Whenever possible, the student should provide documentary evidence to support the appeal.

Upon receipt of the appeal, Enrolment Services will send a copy of the statement of appeal to the dean of the relevant faculty or school, and ask the faculty or school to provide a written response. Enrolment Services will then forward copies of the student’s appeal and the faculty or school’s response to the Senate Admissions Committee for its consideration.

The decision of the Committee will be communicated in writing to the student and to the dean of the faculty or school within ten days of the hearing of the appeal. The Committee’s decision is final.

2006-07

III Fees, Financial Assistance and Scholarships

NOTICE REGARDING FEES

Fees, including tuition fees, program fees, special fees, and student society fees are subject to approval by the Board of Governors, following consultation with students.

PLEASE NOTE: All fees are reviewed by the Board of Governors in Spring of each year, and are subject to change. Provincial Government guidelines currently limit tuition fee increases in 2006/07 for domestic students to 2%. The fees in this edition of the Calendar are for reference only, and reflect fees for the previous 2005/06 year.

Official fees for the 2006/07 session were not available at the time of publication.

The UBC Web Calendar (www.students.ubc.ca/calendar) will be updated in June 2006 to reflect fee changes.

1 GENERAL INFORMATION AND POLICY ON FEES

1.1 ALLOCATIONS, CONTRACT, CHANGES OF FEES

Fees include any amounts assessed to a student by the University, or by the University on behalf of the AMS, or other student societies and organizations. Fees include, but are not limited to, tuition fees, program fees, special fees, and student society fees.

Notwithstanding anything else in this Calendar, the University reserves the right at any time to change fees without notice. Students who have not completed their course requirements when a change in fees is made may be required to pay the new fees.

Tuition fees for all students include allocations to the Teaching and Learning Enhancement Fund and to student financial support.

A student upon registering has initiated a contract with the University for payment of all assessed fees. A student may terminate this contract only by withdrawing from the University (see Items 1.3, p. 25, and 1.6, p. 26, in this chapter regarding refunds, and *Withdrawal*, p. 50, in the chapter “Academic Regulations”).

Fees listed are in Canadian Dollars, unless otherwise indicated.

1.2 PAYMENT OF FEES

Students may view their individual student financial account on the Student Service Centre (www.students.ubc.ca/ssc).

Fees may be paid by the following methods:

- Electronic Funds Transfer (EFT), at the Student Service Centre. Click on “My

Banking Info” to enter your banking information, and then click on “My Financial Account” to make the payment. *This is the preferred method of payment.*

- By touch-tone or online banking, available through most banks and credit unions. (Your student number is your account number.) Please contact your bank branch for details.
- Credit Card Online: Fee and deposit payments are accepted on the Student Service Centre (www.students.ubc.ca/ssc). Log in and click on “My Financial Account”. You will need VISA or MasterCard to use this option.
- By cheque or cash at any branch of HSBC Bank Canada. A Tuition Fee Payment Form (www.students.ubc.ca/finance/download/fees_payment.pdf) must accompany the payment. Note: You do not have to be an HSBC customer to use this payment method.
- By mail. Cheques should be made payable to “The University of British Columbia” and must reach Enrolment Services by the due date. Send cheques to: Enrolment Services, The University of British Columbia, 2016–1874 East Mall, Vancouver, BC, V6T 1Z1.
- In person at Enrolment Services in the main concourse of Brock Hall at Point Grey Campus or Robson Square Campus. Students may pay by cheque or debit card only. **Please note:** No cash payments are accepted.

Tuition fees, student fees, and other approved fees are consolidated in a Student Financial Account. The outstanding balance in this account will reflect outstanding amounts from previous sessions, changes in registration, any awards made to the student (or the cancellation of an award), penalties for late payment and other approved charges, as well as payments made by the student.

It is the responsibility of students to make their payments by the due dates. Please note: If you have an outstanding balance from a previous session, your payment will be applied to that outstanding amount, not to the current session. Students should check their outstanding balance on the Student Service Centre (www.students.ubc.ca/ssc).

1.3 DEPOSITS

Undergraduate students must pay a registration deposit before they can register. The deposit will be credited towards the student's assessed tuition fees. Once students have registered in

any course, this deposit becomes non-refundable and cannot be transferred to another session.

Some programs require students to confirm their acceptance of an offer of admission by paying an additional portion of their tuition fee. Students will be notified of this when they are offered admission to the program.

See *Item 1.2, Payment of Fees*, p. 25, in this chapter for instructions on how to pay.

Most graduate students and senior citizens do not pay a deposit.

Domestic Undergraduate Students

Domestic undergraduate students must pay a registration deposit of \$100.00. Students who have not registered and wish to have their deposit refunded, should visit Enrolment Services in Brock Hall, email (records.inquiry@ubc.ca), or call 604-822-2844.

International Undergraduate Students

New international undergraduate students are required to pay a first-time deposit of \$500.00 before they can register in any courses. Half of the deposit, \$250.00, is refundable if the student withdraws from all Summer Session courses or from all Winter Session courses by set dates (see *Item 1.6.5 for details*, p. 26). No portion of the deposit is refundable if the student de-registers from courses after these dates. To request a refund, students should first ensure that they have de-registered from all courses, and then email (international.reception@ubc.ca) or phone 604-822-8999 in order to request a \$250.00 refund.

Registration in subsequent sessions requires a \$100.00 deposit. The student's \$100.00 deposit is only refundable if they have not yet registered in any courses. Once the student registers in any course the deposit becomes non-refundable and cannot be transferred to another session. To request a refund, visit Enrolment Services in Brock Hall, email (records.inquiry@ubc.ca) or phone 604-822-2844.

1.4 DUE DATES

The due date for payment of fees is:

- Summer Session (2006)
- Term 1: May 10, 2006
- Term 2: July 12, 2006

Winter Session (2006/2007)

- Term 1: September 6, 2006
- Term 2: January 8, 2007

Summer Session (2007)

- Term 1: May 9, 2007
- Term 2: July 11, 2007

The due date for any increase in a student's balance resulting from an assessment during a term is the 7th of the next month. When the due date falls on a Saturday, Sunday, or statutory holiday, payment may be made on the next business day.

All students must pay their current fee instalment in full by the due date. The due date for a student who has been given a fee deferment is the deferment date.

1.5 OUTSTANDING INDEBTEDNESS (LATE PAYMENTS)

1.5.1 – Undergraduate Students

Where fees, fines, or other indebtedness to the University (including tuition fees, student fees, parking fines, library fines, housing and conferences fees) have not been paid in full, students may be placed on financial hold and charged an interest penalty (see Items 1.5.3, *Financial Hold*, p. 26, and 1.5.4, *Interest Penalty*, p. 26). For tuition fees and student fee due dates, see *Item 1.4, Due Dates*, p. 25.

1.5.2 – Graduate Students

Where fees, fines, or other indebtedness to the University (including tuition fees, student fees, parking fines, library fines, housing and conferences fees) have not been paid in full, students may be placed on financial hold and charged an interest penalty (see Items 1.5.3, *Financial Hold*, p. 26, and 1.5.4, *Interest Penalty*, p. 26). For tuition fees and student fee due dates, see *Item 1.4, Due Dates*, p. 25). If the overdue amount is not paid in full by the first day of the next session, no future session registration will be allowed. Students will remain liable for the outstanding balance plus all interest assessed up to the date on which the outstanding balance is paid in full. Subsequent registration will be allowed only with the written approval of the Faculty of Graduate Studies. Retroactive fees and interest will be assessed prior to registration and must be paid at that time.

1.5.3 – Financial Hold

A student may be placed on financial hold as result of outstanding indebtedness to the University, including tuition fees, student fees, parking fines, library fines, housing and conferences fees. When a student has been placed on financial hold, no subsequent registration activity will be allowed and no transcripts of academic record or graduation diploma will be issued. The Department of Housing and Conferences may refuse admission to residences and may withdraw residence privileges, including dining privileges, requiring a resident to vacate the premises; Parking and Access Control Services may withdraw parking privileges and may tow vehicles; and the UBC Library may withdraw borrowing privileges and access to its collection of electronic information. Students will also be assessed a processing fee of \$30.00 in addition to the

interest penalty. The financial hold will be removed when the outstanding balance, including all penalties, is paid in full.

1.5.4 – Interest Penalty

Interest will be charged at a rate of prime plus 6% per annum. Interest is charged on all outstanding amounts that are past due and is calculated towards the end of each month. See *Item 1.4, Due Dates*, p. 25.

1.5.5 – Late Registration

Fees payable by late registrants will be considered to have been assessed on the starting date of the course or program and to be due seven days later. An interest penalty based on these dates may be assessed.

1.6 REFUND OF FEES

1.6.1 – Overview

Refund of fees, if any, is calculated from the day on which a student drops or withdraws from a course or program. (See *Change of Registration*, p. 49, and *Withdrawal*, p. 50, in the "Academic Regulations" chapter.) If a withdrawal is not approved, the student will be liable for all assessed fees including any interest penalty. For processing of refunds, students must apply to Enrolment Services (records.inquiry@ubc.ca); Tel: 604-822-2844.

1.6.2 – Refund of Undergraduate Student Tuition

The first \$100.00 of tuition fees paid for any session is non-refundable and may not be transferred to another session.

Refund for Two-Term Courses (Term 1)

During first three weeks of classes	100% of the first instalment of the fee for credits dropped
During fourth week	50% of the first instalment
During fifth week	25% of the first instalment
After fifth week	No refund of any part of the first instalment. The second instalment of fees will not be assessed.

Refund for Two-Term Courses (Term 2)

During first two weeks of classes	100% of the second instalment of the fee for credits dropped
After second week	No refund

Refund for One-Term Courses

During first two weeks of classes	100% of the fee for credits dropped
During third week	50% of the fee for credits dropped
During fourth week	25% of the fee for credits dropped

1.6.3 – Refund of Graduate Student Tuition

Graduate students who withdraw during the first two weeks of University sessions will receive 100% of the instalment for that term or session.

The refund of fees for graduate students who withdraw from either Term 1 or Term 2 of

Winter Session or from Summer Session after registration will be calculated as shown below.

Winter Session Term 1 / Term 2 / Summer Session

During first two weeks	100% of the instalment
During third or fourth week	60% of the instalment
During fifth or sixth week	40% of the instalment
During seventh or eighth week	20% of the instalment
After eighth week	No refund of any part of tuition fee instalment

1.6.4 – Refund of Undergraduate Student Fees

If a student's sessional credit load drops below 18 credits on or before the dates listed below, student fees will be re-assessed:

- on or before September 19 for Term 1 courses;
- on or before September 22 for two-term courses; or
- on or before January 22 for Term 2 courses.

The Athletics and Recreation fee, the Ubysey Publication fee, and the AMS fees listed under *Item 2.1, Student Fees, Overview*, p. 27, are adjusted based on credit load.

1.6.5 – Refund of Deposits

Deposits for undergraduate students are non-refundable and may not be transferred to another session. See *Item 1.3, Deposits*, p. 25.

For new international students \$250.00 (of the \$500.00 deposit) is refundable if the student withdraws from all Summer Session courses by April 30 or from all Winter Session courses by August 31. Students who have de-registered by these dates should email International Reception (international.reception@ubc.ca). No portion of the deposit is refundable if a student de-registers from courses after these dates.

1.7 TAX RECEIPTS (T2202A)

This tax receipt is not mailed to students. Students can access their information by logging into the Student Service Centre (www.students.ubc.ca/ssc) on the Web and selecting the T2202A Tax Form option. This information includes the student's assessed tuition and monthly education credit for the tax year. The Athletics and Recreation Fee, the Extended Medical/Dental Fee, the Dietetics and Internship Fee, the ENDS Studio Fee, the Graduating Class Fee, and the Pharmacy Practice Fee qualify for tuition tax credit and will be included on the receipt.

For more information on income tax, visit the Canada Customs and Revenue Website (www.cra-adrc.gc.ca) and search for the "Students and Income Tax" page.

1.8 STUDENTS REGISTERED IN MORE THAN ONE PROGRAM

For students registered in more than one graduate degree program, fees are assessed for both programs until minimum payment is reached for the first program. Fees for the

second program continue as assessed until degree completion.

For students registered in one graduate degree program and one undergraduate program, fees are assessed for both programs until minimum payments are completed for the graduate program. Undergraduate fees will continue to be assessed.

Students registered in one graduate degree program and as an “unclassified student” will be assessed fees for both programs.

Students in Senate-approved combined degree programs for which a program fee has not been established will be assessed fees for each separate program.

Note: Student fees that are common to more than one of the programs will only be assessed once.

1.9 ADMINISTRATIVE AND DOCUMENT FEES

1.9.1 – Miscellaneous Fees

Deferred examination written off-campus, per paper	\$60.00
Diploma, duplicate or replacement (incl. GST)	\$58.85
Diploma, certified copy, per copy (incl. GST)	\$6.42
Dishonoured payment (incl. cheque)	\$15.00
Distance Education special examination (where permitted), per paper	\$40.00
Duplicate tuition fee receipts (incl. GST)	\$6.42
Financial Hold Processing Fee	\$30.00
Review of Assigned Standing, per course	\$50.00
Supplemental examination written at UBC, per paper	\$30.00
Supplemental examination written off-campus, per paper	\$60.00
UBCard (replacement card)	\$10.00

1.9.2 – Calendar Fees

Calendar Fee (incl. GST)	\$5.35
Calendar sent by mail:	
Canada (incl. GST)	\$12.85
USA	\$18.85
International	\$29.85

1.9.3 – Transcript of Academic Record

Official transcripts ordered from the Student Service Centre (www.students.ubc.ca/ssc) are normally mailed or available for pickup at Enrolment Services on the next business day after they are ordered.

Transcripts ordered in person, by mail, or by fax will normally be mailed or available for pickup within five working days. During peak periods, processing time may be longer.

Each copy (incl. GST)	\$5.35
-----------------------	--------

Additional fee for courier delivery, per address:

Local Area (Vancouver or Kelowna)	\$9.00
Canada	\$15.00
USA	\$23.00
International	\$30.00

1.9.4 – Library – Extramural Services Fee

Fees have been authorized for extramural borrowing. Information concerning these fees may be obtained from the UBC Library.

2 STUDENT FEES

2.1 OVERVIEW

Student fees include fees authorized by student referendum, the UBC Board of Governors, the AMS, and other student societies and organizations. Student fees are due annually, and charged to all students. Fees are calculated according to full-time or part-time status, session, and study level.

Example of Student Fees for Winter Session:

Athletics and Recreation Fee	\$172.53
AMS Fees	\$276.24
Ubyyssey Publication Fee	\$5.00
U-Pass Fee (2 terms)	\$176.00
Student Society Fee	variable
<i>Total</i>	<i>\$629.77</i>

2.2 ATHLETICS AND RECREATION FEE

This annual mandatory fee is authorized by the Board of Governors and is used to support athletic and recreation programs and facilities. This fee is tax deductible and will be included in the T2202A tax receipt (see *section 1.7, Tax Receipts*, p. 26).

For students enrolled in a program of 18 credits or more	\$172.53
Students taking fewer than 18 credits	\$9.58 per credit

2.3 U-PASS FEE

All students are assessed a transit U-Pass program fee, authorized by student referendum.

U-Pass Fee	\$88.00 per term
U-Pass Fee for Summer	\$88.00 (four-month pass)

The U-Pass provides all zone unlimited access to public transit, and is charged to eligible students enrolled in Winter and Summer Session and members of the AMS. The U-Pass program has limited opt-out exemptions (all opt-out applications are available online at the Student Service Centre (www.students.ubc.ca/ssc)). Refer to the U-Pass website (www.upass.ubc.ca) for more information.

2.4 UBYSSEY PUBLICATION FEE

A fee of \$5.00 per year was authorized by a student referendum and the Board of

Governors. This fee is used to fund the operation of *The Ubyyssey* newspaper.

Undergraduate students registered for 18 or more credits	\$5.00
Undergraduate students registered for fewer than 18 credits	\$0.29 per credit
Full-time graduate students	\$5.00
Part-time graduate students	\$2.50

Students who wish to opt out of this fee may do so by applying in person to The Ubyyssey Publications Society Business Office, Student Union Building, Room 23 (basement), 10:30 am to 2:30 pm (closed noon to 1:00 pm), Monday through Friday, and fill out a form for an assessment adjustment. Students registered in one term of Winter Session or either term of Summer Session must apply by the end of the second week of classes. Students registered in both terms of the Winter Session must apply by the end of the second week of classes in Term 1. Adjustments will be credited to the student's Financial Account.

2.5 ALMA MATER SOCIETY FEES

2.5.1 – Overview of AMS Fees

The following fees are authorized by student referendum and the Board of Governors. They are collected by the University at the request of the Society. Students enrolled in 18 or more credits are assessed fees of \$33.50 made up as follows:

Operating expenses of the AMS	\$12.50
Capital projects (CPAC)	\$15.00
University/External Lobbying	\$3.50
AMS Resource Groups	\$1.50
WUSC Refugee students assistance	\$1.00
<i>Subtotal</i>	<i>\$33.50</i>

Students taking fewer than 18 credits are assessed fees of \$1.86 per credit. Graduate students on Schedule B (see *Item 5.2.3*, p. 31) are assessed \$16.75.

2.5.2 – Athletics and Intramurals Fee

All students are assessed an Athletics and Intramurals fee.

Athletics and Intramurals Fee	\$21.00
-------------------------------	---------

The maximum fees payable for the period September to August 31 are \$54.50 (fee total from Items 2.5.1 and 2.5.2).

2.5.3 – Additional AMS Fees (with Opt-out Provisions)

All students assessed the AMS or GSS fees (regardless of credit load or place of residence) will be assessed a maximum fee of \$221.74 for the period September 1 to August 31, made up as follows:

AMS Extended Health and Dental Plan	\$196.74
Student Aid Bursary Fund	\$12.00
Student Legal Fund	\$1.00
AMS Services	\$9.00
Sexual Assault Support Services	\$3.00

<i>Subtotal</i>	\$221.74
Ubysses Publication	\$5.00 or variable, p. 27.

For students enrolled only in Summer Session, please see *Item 3.6*, p. 29, for assessed student fees.

2.5.4 – Medical Insurance

Students from outside British Columbia are responsible for ensuring that they have basic medical insurance as a condition of their acceptance to the University. International students should refer to *Item 6.2* of the online Calendar, p. 35 for more information. Canadians, or permanent residents, should visit the BC Government's Health Website (www.healthservices.gov.bc.ca/msp) or contact the *Student Health Service*, p. 65, under the "Services, Facilities, and Organizations" chapter of the Calendar for more information.

All UBC students who are assessed student fees are also assessed the *AMS/GSS Extended Health and Dental Plan fee*, p. 27. This is an extended health and dental plan that provides coverage, in addition to basic medical covered by MSP, for expenses such as most prescription drugs, travel health insurance, vision, and dental care. This fee is assessed only in the Winter Session and provides coverage from September 1 to August 31.

For information on Mandatory International Student Medical Insurance see *Item 6.2*, p. 35.

2.5.5 – Extended Health and Dental Plan

Students who already have an equivalent extended health and dental plan may opt out of the AMS Health and Dental plan. Students can also enrol their spouse and/or dependants by completing an enrolment process and paying an additional fee, over and above their student association fee. Visit the Studentcare website (www.studentcare.net) for more information.

AMS Extended Health and Dental Plan	\$196.74
-------------------------------------	----------

Students registered in Winter Term 1 must apply to opt out or enrol their spouse/dependants between Sept. 5 – 26, 2006, or within three weeks of their registration date, whichever is later. Students registered in Winter Term 2 only must apply for opt outs or enrolments between Jan. 8 – 29, 2007, or within three weeks of their registration date, whichever is later. Students wishing to enrol or opt out should visit the Studentcare website (www.studentcare.net) or contact Studentcare, Room 61, Student Union Building, Tel: 1-877-795-4421 (toll free).

The Extended Health and Dental Insurance Plan is not available to students who are registered only in the Summer Session.

Check your fees at the Student Service Centre (www.students.ubc.ca/ssc) to verify whether or not you are assessed the Extended Health and Dental Plan fee. For Plan details, enrolment and opt-out deadlines (see above), visit the Studentcare website (www.studentcare.net).

2.5.6 – Student Funds, Support, and Services Fees

Students who wish to opt out of the Student Aid Bursary Fund fee, the Student Legal Fund fee, Sexual Assault Support Fund fee, or the AMS Services fee may do so by applying in person to the AMS Administration Office, Room 266, Student Union Building. Office hours are 11:00 am to 2:00 pm. Students registered in one term of Winter Session or either term of Summer Session must apply by the end of the second week of classes. Students registered in both terms of Winter Session must apply by the end of the second week of classes in Term 1. Refunds will be issued upon request. Those students who opt out of the Student Legal Fund fee forgo eligibility for membership in the Student Legal Fund Society. See *Student Legal Fund Society*, p. 65, in the "Services, Facilities, and Organizations" chapter in the Calendar for more information.

2.6 UNDERGRADUATE SOCIETY FEES

The Board of Governors approves, on the recommendation of the Alma Mater Society, special fees for Undergraduate Societies. These fees are not related to credit load. The fees for Winter Session are as follows:

Arts (B.A., B.F.A., and Diploma Programs)	\$13.00
Commerce (B.Com.)	\$266.00
Dentistry	\$115.00
Education (including Diploma Programs)	\$10.00
Engineering	\$45.00
Forestry	\$50.00
Human Kinetics	\$10.00
Land and Food Systems (Agriculture) (B.Sc. degrees)	\$30.00
Law	\$148.00
Medicine: 1st and 2nd years	\$58.00
Medicine: 3rd and 4th years	\$68.00
Music	\$10.00
Nursing	\$28.50
Pharmacy	\$18.00
Rehabilitation Sciences	\$6.00
Social Work and Family Studies	\$5.00
Science	\$22.00

2.7 GRADUATING CLASS FEE

A fee of \$7.00, authorized by the Board of Governors, is assessed for all students in Winter Session who are registered in the final year of a course leading to a bachelor's degree, the M.D., or the D.M.D., and who have not previously paid the fee. This fee is for the support of student-sponsored graduating class activities. Enquiries with respect to this fee should be directed to the Alma Mater Society. This fee is tax deductible and will be included in the T2202A income tax receipt (see *section 1.7, Tax Receipts*, p. 26).

2.8 GRADUATE STUDENT SOCIETY FEES

The following annual fees are authorized by student referendum and the Board of Governors:

Capital Improvement Fund	\$5.00
Graduate Student Society	\$44.00

SPECIFIC PROGRAM-LEVIED SOCIETY FEES COLLECTED BY THE STUDENT SOCIETIES:

Community and Regional Planning	\$10.00
Forestry	\$5.00
Library, Archival and Information Studies ¹	\$20.00

¹ This fee is collected one time only (not annually) by the School of Library, Archival and Information Studies on behalf of the student society.

3 PROGRAM AND COURSE FEES

3.1 CO-OPERATIVE EDUCATION PROGRAM FEES

Co-operative Education Program	
Co-op Fee per work term	\$612.00
Co-op Workshops	\$200.00

3.2 DISTANCE EDUCATION COURSES

Fees will be charged on a per-credit basis plus a non-refundable administrative charge of \$45.00 for each Distance Education course.

Refunds will be granted if applied for in writing and received at the Distance Education Office by the end of the month of the course start date. Course materials must be returned in new condition. The minimum assessment will be \$100.00 or 20% of the tuition, whichever is greater.

Where examinations are permitted at a location not normally set up for UBC examinations, a Special Invigilation and Outside Examination Centre Fee of \$40.00 is payable with your examination application.

The following Distance Education fees also apply to the courses listed below:

Lab fees for FRST 308, 309, and 421	\$65.00
Lab fees for SOIL 200	\$65.00

3.3 EXCHANGE PROGRAMS

3.3.1 – Undergraduate Formal Exchange Programs

Students visiting UBC, on approved exchange programs under a formal agreement between their home university and UBC, will pay fees to their home university. These fees cover credit courses taken in Winter Session. Students will be assessed the transit *U-Pass fee*, p. 27, of \$88.00 per term, and an *IMED fee*, p. 35, of either \$120.00 or \$170.00.

UBC undergraduate students who are studying elsewhere on approved exchange programs covered by a formal agreement between the two universities (EAP, GOTSEP, or CUSE) must register for the appropriate non-credit exchange activity and pay UBC tuition fees for 15 credits per term plus student fees for the Winter Ses-

sion. All other UBC students on such exchange programs pay to UBC the normal tuition fees for their program for each term they are away, in addition to student fees.

All other UBC students on such exchange programs pay to UBC the normal tuition fees for their program for each term they are away, in addition to student fees.

3.3.2 – Student Exchange Fees

UBC undergraduate students applying for the exchange program pay the following fees:

Student Exchange Programs

Student Exchange Application Fee (non-refundable) all applicants	\$75.00
Student Exchange Administration Fee (refundable) all applicants	\$255.00

3.3.3 – Universities Graduate Exchange Agreements

Graduate students in good standing and paying tuition fees at one of the following universities: Alberta, Athabasca, Brandon, Calgary, Lethbridge, Manitoba, McGill, Montreal, Northern British Columbia, Regina, Saskatchewan, Simon Fraser, Toronto, or Victoria can register at UBC as exchange graduate students without paying tuition fees. See *Visiting Students under the Graduate Exchange Agreement*, p. 223, and the *Western Deans' Agreement*, p. 223, under the Faculty of Graduate Studies.

3.4 COURSE, FIELD TRIP AND FIELD COURSE FEES

These are one-time fees that are applied to specific programs or courses. Fees are collected by the faculty departments.

3.4.1 – Student Accident Insurance

Departments may require students performing coursework in environments where the risk of injury is greater than in a classroom, (e.g., laboratories, field work, clinical practice, practicums, and so on), to purchase Student Accident Insurance. The annual fee for this Insurance is \$7.00. See the UBC Treasury website (www.treasury.ubc.ca/risk_2.html#sai) for more information.

3.4.2 – Miscellaneous Course and Program Fees

Course/Program	
ANTH 306	variable
ARCH 502	variable
BIOL 140 (elective field trip)	variable
BIOL 205 (optional field trip)	variable
BIOL 326 (optional field trip)	variable
BIOL 328 (optional field trip)	variable
BIOL 409	variable
BIOL 427	variable
BIOL 428 (optional field trip)	variable
BIOL 465 (optional field trip)	variable
Environmental Design (B.En.D./ENDS program) Studio Fee ¹	\$60.00 per course
EOSC 223	variable
EOSC 328	variable
EOSC 473	variable

Course/Program (Continued)

EOSC 573	variable
GEOG 309	variable
GEOG 379	variable
LARC 511: accomodation, instruction, administration, transportation, meals	variable
Visual Arts (VISA) Studio Fee ¹	\$30.00 per course

¹ Applied to select courses only. See department for list of courses to which the fee applies.

3.4.3 – Forestry Field and Workshop Courses

Forestry Field and Workshop Courses

CONS 451 (Natural Resources Conservation)	variable
FRST 305 (Silviculture I Field Trip)	variable
FRST 351 (Interior Field School)	variable
FRST 352 (Integrated Field Studies)	variable
FRST 452 (Coast Field School)	variable
FRST 551	variable
FOPR 352 (Harvesting Field Trip)	variable
WOOD 305 (Wood Machine Skills)	variable
WOOD 353 (Mill Site Visits)	variable

3.5 MISCELLANEOUS FACULTY FEES

Applied Science

B.A.Sc. Annual Professional Activities Fee	\$100.00
--	----------

This fee is assessed for all students registered in the B.A.Sc. program upon entry into each year of the program. An Advisory Committee, which includes faculty members and students, will make recommendations on the allocation of the funds.

Dentistry

Dentistry, short-term visiting students	\$51.00
Annual Clinic Fee (DMD Program in 2006/07)	\$23,300.00

Land and Food Systems (formerly Agricultural Sciences)

Annual Dietetics Internship Fee	\$1,500.00
---------------------------------	------------

Medicine

Canadian Electives Application Fee	\$100.00
Dean's Letter of Reference, Single Copy	\$45.00
Dean's Letter of Reference, Additional Copies processed at the same time	\$10.00
Confirmation of Graduation form	\$10.00
Faxing single copy: Canada and USA	\$10.00
Faxing single copy: International	\$15.00
International Electives Application Fee	\$140.00-\$300.00
Non-credit Activity course for visiting foreign medical students	\$250.00
Replacement ID cards	\$10.00

Pharmaceutical Sciences

B.Sc. (Pharm.) practice fee for students in fourth year	\$203.75
---	----------

3.6 SUMMER SESSION FEES

Summer Session students who have not already paid the maximum AMS fees in a given year will be assessed as follows:

Summer Session 2006 Fees

Athletics and Recreation Fee	\$9.58 per credit
AMS Fee	\$1.86 per credit
AMS Athletics and Intramurals	\$21.00
AMS Services	\$9.00
AMS Student Aid Bursary Fund	\$12.00
AMS Student Legal Fund	\$1.00
Sexual Assault Support Services	\$3.00
Ubysey Publications	\$0.29 per credit
U-Pass (4 month pass)	\$88.00

Students should refer to the Summer Session Calendar Supplement (www.students.ubc.ca/calendar/summer) for further details on these fees and the procedure for opting out where applicable. (The AMS fees are exclusive of the Extended Health and Dental Plan Fee that is available only for students who were registered in the preceding Winter Session.)

4 UNDERGRADUATE STUDENT FEES

4.1 UNDERGRADUATE APPLICATION PROCESSING FEES

Undergraduate Application Processing Fees (Enrolment Services)

For applicants who are Canadian citizens or Permanent Residents of Canada	\$60.00
For UBC students who are applying for re-admission and/or change of faculty	\$60.00
For applicants who will be studying on a Student Authorization (e.g., non-Canadian citizens and non-Permanent Residents) and presenting transcripts from institutions within or outside of BC	\$100.00

Commerce – Broad-based Admission Application Processing Fee

Supplemental Application Processing Fee for all Secondary School applicants to the Faculty of Commerce (regardless of citizenship)	\$75.00
--	---------

Land and Food Systems

Integrated Dietetics Program Application Fee	\$50.00
--	---------

Law

Supplemental Application Fee	\$80.00
------------------------------	---------

Music

Supplemental Application Fee	\$60.00
------------------------------	---------

4.2 UNDERGRADUATE TUITION FEES

4.2.1 – Overview

The following fees apply to Canadian Citizens and Permanent Residents (Landed Immigrants) only. International students see Section 6 for applicable fees.

Fee payment in Winter Session may be in two instalments. In general, the first instalment covers tuition for Term 1 courses and the first half of two-term courses, plus most student fees.

The second instalment covers tuition for Term 2 courses and the second half of two-term courses. Students enrolled in a study program restricted to Term 1 or Term 2 must pay the full amount assessed by the due date for that term.

Fees shown do not include student fees, nor do they include laboratory and other special fees. See sections 1, 2, and 3 of this chapter.

A tuition fee of \$136.40 per credit is charged for all undergraduate certificate, diploma, baccalaureate, and post-baccalaureate programs except those programs listed in *Item 4.2.3*, and in *Item 4.3*. Fees paid for a graduate program do not cover courses being taken to complete the requirements of an undergraduate degree.

4.2.2 – Per-Credit Fee Examples

EXAMPLE OF PER-CREDIT FEE, 30-CREDIT PROGRAM

30-credit program at \$136.40 per credit	
Tuition (30 x \$136.40)	\$4,092.00
Student Fees (see Items 2.2, p. 27, 2.3, p. 27, 2.4, p. 27, 2.5, p. 27)	\$629.77
Plus applicable student society fee (see Item 2.6, p. 28)	\$variable
	\$(total)

EXAMPLE OF PER-CREDIT FEE, 36-CREDIT PROGRAM

36-credit program at \$136.40 per credit	
Tuition (36 x \$136.40)	\$4,910.40
Student Fees (see Items 2.2, p. 27, 2.3, p. 27, 2.4, p. 27, 2.5, p. 27)	\$629.77
Plus applicable student society fee (see Item 2.6, p. 28).	\$variable
	\$(total)

4.2.3 – Per-Credit Fee for Specific Programs

B.A.Sc. Applied Science (year 1)	\$136.40 per credit
B.A.Sc. Applied Science (years 2–5)	\$145.60 per credit
B.Com. Commerce (year 1)	\$136.40 per credit
B.Com. Commerce (years 2–4)	\$202.10 per credit
BEDN Bachelor of Education: Elementary (years 1, 2 & 3)	\$136.40 per credit
BEDN Bachelor of Education: Elementary (years 4 & 5)	\$151.90 per credit
DEDU Diploma in Education	\$151.90 per credit
All other undergraduate programs in Education	\$151.90 per credit

B.Sc. (Pharm.) Pharmaceutical Sciences started 2004+	\$201.10 per credit
B.Sc. (Pharm.) Pharmaceutical Sciences started prior to 2004	\$194.70 per credit

4.2.4 – Student Fees for Undergraduate Students

See Section 2, Student Fees, for information on applicable student fees.

4.3 SPECIALIZED UNDERGRADUATE TUITION FEES

For fees related to faculty admission, application processing and/or other administrative items, please see the individual listings in the “Faculties, Colleges and Schools” chapter of the Calendar.

The following tuition fees are applicable to undergraduate programs of select faculties. For graduate-level program fees see Section 5. For per-credit fees for specific undergraduate programs see *Item 4.2.3*, p. 30.

Tuition fees are assessed in two instalments in Winter Session, and are charged for the following specific programs and year levels:

Dentistry	
DMD and Combined DMD and B.Sc. – Students who began their program starting 2004 and years after	\$14,000.00 per year
DMD and Combined DMD and B.Sc. – Students who began their program starting 2003	\$12,155.00 per year
DMD and Combined DMD and B.Sc. – Students who began their program starting 2002	\$10,491.00 per year
DMD and Combined DMD and B.Sc. – Students who began their program starting 2001 or years earlier	\$9,350.00 per year
International Dental Degree Completion Program	\$30,480.00 per year
Residents	\$332.00
Law (Full Time)	
Students who began their program starting 2003 and years after	\$9,180.00 per year
Students who began their program starting 2002 or years earlier	\$7,140.00 per year
International Students who began their program starting 2002	\$556.41 per credit

Law (Part Time)	
Students who began their program starting 2003 and years after	\$306.00 per credit
Students who began their program starting 2002 or years earlier	\$238.00 per credit

Medicine	
MD and Combined MD and B.Sc. – Students who began their program starting 2004 and years after	\$14,000.00 per year
MD and Combined MD and B.Sc. – Students who began their program starting 2003	\$12,155.00 per year
MD and Combined MD and B.Sc. – Students who began their program starting 2002	\$10,491.00 per year

Medicine (Continued)	
MD and Combined MD and B.Sc. – Students who began their program starting 2001 or years earlier	\$9,350.00 per year
Residents	\$332.00

Pharmaceutical Sciences	
Residents	\$70.00

4.4 UNCLASSIFIED, QUALIFYING, VISITING, AND ACCESS STUDIES STUDENTS; AUDITORS AND OTHERS (CANADIAN CITIZENS AND PERMANENT RESIDENTS)

4.4.1 – Overview

Unclassified students, qualifying students, auditors, students registered for concurrent studies and access studies, and students not working toward a degree are assessed a fee of:

- \$136.40 per credit for undergraduate courses (normally those numbered under 500).
- \$306.00 per credit for undergraduate Law courses.
- \$321.30 per credit for graduate courses (normally those numbered 500 and above).

If a course has a zero (0) credit value, fees will be assessed at one (1) credit at the applicable course-level fee.

4.4.2 – Qualifying Students

Qualifying students will be assessed fees on a per-credit basis for all courses taken (see *Item 4.4.1, Overview*, p. 30). Fees paid under these circumstances will not subsequently be credited in a graduate degree program. International students refer to *Item 6.4* of the online Calendar, p. 36, for details.

4.4.3 – Visiting Students

Visiting undergraduate students will be assessed fees at the prevailing per-credit rate (*Item 4.4.1*, p. 30) plus authorized student fees. International students refer to *Item 6.4*, p. 36, for details. Other visiting undergraduate students may register for the non-credit activity ‘Visiting Undergraduate Student’ (VURS499). The fee for each registration in this activity, which covers either Term 1 of Winter Session or Term 2 of Winter Session or Summer Session, is equal to the tuition fee for one credit of course work plus authorized student fees.

Visiting graduate students who wish to take credit courses must register for those courses and will be assessed tuition fees at the prevailing graduate per credit rate, (see *Items 4.4.1*, p. 30 and *6.4*, p. 36) plus authorized student fees. Other visiting graduate students may register for the non-credit activity ‘Visiting Graduate Student’ (VGRD 500). The fee for each registration in this activity, which covers either Winter Session Term 1 or Term 2, or Summer Session, is equal to the tuition fee for one credit of course work plus authorized student fees.

4.4.4. – Senior Citizens

BC residents who are Canadian citizens or permanent residents aged 65 years or over during the session in which they are registered are not assessed application, tuition, or student fees. The Distance Education administrative fee and some special fees may be assessed. Fees will be assessed to senior citizens for programs in areas such as Dentistry, Law, Medicine, Nursing, or any faculty or school where existing facilities and resources are limited.

4.4.5 – Access Studies

Tuition fees for Access Studies students are assessed on a per credit basis, taking into consideration the year level of the course and the Faculty in which it is offered. Most undergraduate courses will be assessed at \$136.40 per credit, or \$566.41 per credit for International Students. Tuition fees for programs in Commerce, Applied Science, Education, Pharmaceutical Sciences, if available, will be assessed as described in Section 4, Undergraduate Student Fees. Law courses, if available, will be assessed at \$306.00 per credit. International Students will be assessed as noted in *Item 6.4*, p. 36. Graduate level (courses numbered 500 or above) courses, if available, will be assessed at \$321.30 per credit, or \$556.41 per credit for International Students. All student fees will be assessed as noted in Section 2, Student Fees.

4.4.6 – Certificate Program Fees

CERTIFICATE OF ADVANCED STUDY

Three (3) instalments per year of	\$1,262.07
On-leave fee, per year	\$274.40

The Certificate of Advanced Study is offered by the School of Library, Archival and Information Studies. No candidate will pay total fees of less than the first three (3) instalments and will continue to pay the full instalment rate plus authorized student fees until degree completion.

The annual student fees are the same as those for full-time (Schedule A) Master's students. See *Item 5.2.7*, p. 32.

GRADUATE CERTIFICATE IN REHABILITATION SCIENCES

The Graduate Certificate in Rehabilitation Sciences is offered by the School of Rehabilitation Sciences.

Tuition Fee

\$951.00 per 3 credit course

5 GRADUATE STUDENT FEES

5.1 GRADUATE APPLICATION PROCESSING FEES

Graduate Application Processing Fees

Application fee, per department, for all graduate programs except master's-level Business programs – domestic students (Canadian citizens or Permanent Residents of Canada)	\$90.00
Application fee, per department, for all graduate programs except master's-level Business programs – students studying on a Student Authorization	\$150.00
Commerce and Business Administration (Sauder School of Business) application fee for master's-level programs	\$125.00
Pharmaceutical Sciences application fee for Doctor of Pharmacy (Pharm.D.)	\$125.00
Rehabilitation Sciences supplemental application fee for M.O.T. and M.P.T. programs	\$100.00

Some programs have higher or additional fees for graduate applications. If not listed in the table above, contact the *Faculty of Graduate Studies*, p. 217, or refer to the "Faculties, Colleges, and Schools" chapter of the Calendar for more details.

5.2 MASTER'S TUITION FEES

5.2.1 – Overview

The following fees apply for Canadian Citizens and Permanent Residents (Landed Immigrants). See Section 6, International Students, for fees for foreign residents.

Every candidate enrolled in a master's program is required to maintain continuous registration by paying tuition instalments according to Schedule A (*Item 5.2.2*, p. 31) or B, (*Item 5.2.3*, p. 31) plus authorized student fees (Section 2). Failure to pay fees will result in a financial hold and an interest penalty. (See *Item 1.5.2, Outstanding Indebtedness*, p. 26.)

All graduate students are automatically assessed fees according to *Schedule A*, p. 31. Students who are planning on taking a master's degree through part-time study (*Schedule B*, p. 31) must obtain approval of their departmental advisor and the Faculty of Graduate Studies prior to the beginning of the term in which fees are first assessed. To do so, please complete the *Application for Part-time Payment Form* (grad.ubc.ca/forms/?-SAW). This application is also available from the Faculty of Graduate Studies.

Only candidates planning to take their degree through part-time study are permitted to select Schedule B. Candidates who select Schedule B are advised that, by virtue of their part-time status, they are ineligible to receive government loans, interest-free status, and University fellowships or scholarships. Candidates are not permitted to switch from Schedule B to Schedule A after the due date of the first instalment.

5.2.2 – Full-time Fees Schedule

SCHEDULE A: AVAILABLE TO ALL STUDENTS

The normal fee for the full-time master's degree is payable in three (3) instalments per year according to the following schedule (plus authorized student fees). No candidate who selects Schedule A will pay total fees of less than the first three (3) instalments (plus authorized student fees).

Master's Degree	Instalments per year to be paid	Per Instalment Fee	Minimum no. of Instalments to be paid	Minimum Fee (based on Instalments)
	3	\$1,262.07	3	\$3786.20

See *Table 1*, p. 32, (*Item 5.2.5*, p. 32) for fees due after Instalment 6.

5.2.3 – Part-time Fees Schedule

SCHEDULE B: PART-TIME STUDENTS ONLY

The normal fee for the part-time master's degree is payable in three (3) instalments per year according to the following schedule (plus authorized student fees). No candidate who selects Schedule B will pay total fees of less than the first nine (9) instalments (plus authorized student fees).

Master's Degree	Instalments per year to be paid	Per Instalment Fee	Minimum no. of instalments to be paid	Minimum Fee (based on Instalments)
	3	\$721.30	9	\$6491.70

See *Table 1*, p. 32, (*Item 5.2.5*, below) for fees due after Instalment 9.

5.2.4 – Switching Fee Schedules

See *Item 5.2.1 (Overview)*, p. 31, for details on switching fee schedules.

5.2.5 – Continuing and Extension Fees

If a degree program is not completed by a set number of instalments or a minimum program fee, the assessments will then switch to a Continuing Fee.

Schedule A Continuing Fee is assessed after instalment 6. Schedule B Continuing Fee is assessed after instalment 9.

For the Specialized Master's Program Continuing Fee information see separate program listings under Item 5.3.

Table 1: Continuing and Extension Fees

Each subsequent year, Continuing fee, plus authorized student fees	\$1,729.80
Each subsequent year, Extension fee, plus authorized student fees	\$2,429.50

If a Master's degree is not awarded within a period of five years from the initial registration, a student may be granted an extension with permission from the Faculty of Graduate Studies.

5.2.6 – On Leave Fee

All Master's programs have a fee of \$274.40 assessed for each year On Leave status is taken.

5.2.7 – Student Fees for Graduate Students

Graduate students are required to pay student fees regardless of credit load or their place of residence. See Section 2, Student Fees, for further details on the fee groupings listed below.

The annual student fees for graduate students:

Fees	Full-time student (Schedule A)	Part-time student (Schedule B)
Athletics & Recreation Fee	\$172.53	\$172.53
AMS Mandatory Fees	\$54.50	\$37.75
AMS Opt-Out Fees	\$221.74	\$221.74
Ubyssy Publication Fee	\$5.00	\$2.50
U-Pass	\$88.00 per term	\$88.00 per term
Graduate Student Society Fees	\$49.00*	\$49.00*

* CIF \$5.00; GSS \$44.00. For other graduate student society fees that are applicable to specific programs see *Item 2.7*, p. 28.

Some of these fees are paid in instalments, some are assessed in Winter Session, Term 1 or, for new students, in their first registered term, along with tuition fees.

5.2.8 – Fees Payable upon Completion of Degree

Candidates who have paid more than the minimum for the degree will have their tuition fees prorated to the end of the month in which the Faculty of Graduate Studies confirms that all degree requirements have been completed. This includes the submission of either their major paper or final project to their department or their thesis to the Faculty of Graduate Studies Office.

Note: student fees are not prorated. Fees are due in September, January, and May for Graduate students. See Section 2, Student Fees, for further details on student fees for graduate students.

5.3 SPECIALIZED MASTER'S TUITION FEES

5.3.1 – Overview

The fees listed below apply to individual Master's programs. The specialized Master's program fees are different from the standard Schedule A or B of the Master's Program.

Note: Authorized student fees are applicable to all Schedules listed below. See Section 2 and *Item 5.2.7*, p. 32, for details of the applicable student fees.

5.3.2 – Master of Architecture

Schedule	Instalments per year to be paid	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A (Available to all students)	3	\$1,415.66	9

See *Table 1*, p. 32, for fees due after Instalment 9.

5.3.3 – Master of Business Administration

Minimum program fees \$36,000.00

Schedule	Per Instalment Fee	Minimum no. of instalments to be paid
15 month program	\$9,000.00	4
28 month program	\$5,142.85	7

See *Table 1*, p. 32, for fees due after Instalment 4 for the 15 month program and after Instalment 7 for the 28 month program.

5.3.4 – Master of Arts Education and Master of Education

Schedule	Instalments per year to be paid	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A (Available to all students)	3	\$1,804.34	3
Schedule B (Part-time students only)	3	\$1,084.67	9

See *Table 1*, p. 32, for fees due after Instalment 6 for Schedule A and Instalment 9 for Schedule B.

5.3.5 – Master of Education (Adult Learning and Global Change)

Schedule	Instalments per year to be paid	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A	3	\$2,125.00	6

See *Table 1*, p. 32, for fees due after Instalment 6.

5.3.6 – Master of Education (Hong Kong Institute of Education)

Schedule	Instalments per year to be paid	Per Instalment Fee	Minimum no. of Instalments to be paid
Schedule A	3	\$2,285.72	7

See *Table 1*, p. 32, for fees due after Instalment 7.

5.3.7 – Master of Education (Programs Off-Campus)

Schedule	Instalments per year to be paid	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A	3	\$1,275.00	9

See *Table 1*, p. 32, for fees due after Instalment 9.

5.3.8 – Master of Educational Technology

Schedule	Each 3-credit course
Per course fee	\$1,275.00

5.3.9 – Master of Engineering

Schedule	Instalments per year to be paid	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A (Available to all students)	3	\$1,534.00	3
Schedule B (Part-time students only)	3	\$904.00	9

See *Table 1*, p. 32, for fees due after Instalment 6 for Schedule A and Instalment 9 for Schedule B.

5.3.10 – Master of Fine Arts in Creative Writing (Distance Education)

Schedule	Per credit Amount
Per credit fee	\$466.66

5.3.11 – Master of Health Administration

Minimum program fees \$22,440.00

Schedule	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A	\$3,740.00	6

See *Table 1*, p. 32, for fees due after Instalment 6.

5.3.12 – Master of Human Kinetics

Schedule	Instalments per year to be paid	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A (Available to all students)	3	\$1,430.67	3
Schedule B (Part-time students only)	3	\$836.33	9

See *Table 1*, p. 32, for fees due after Instalment 6 for Schedule A and Instalment 9 for Schedule B.

5.3.13 – Master of Journalism

Schedule	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A (Available to all students)	\$1,848.20	5

See *Table 1*, p. 32, for fees due after Instalment 5.

5.3.14 – Master of Jurisprudence in Common Law

Minimum program fees \$25,500.00

Schedule	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A	\$8,500.00	3

See *Table 1*, p. 32, for fees due after Instalment 3.

5.3.15 – Master of Landscape Architecture

Schedule	Instalments per year to be paid	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A (Available to all students)	3	\$1,364.07	9

See *Table 1*, p. 32, for fees due after Instalment 9 for Schedule A.

5.3.16 – Master of Archival Studies, Master of Library and Information Studies and Joint M.A.S./M.L.I.S.

Schedule	Instalments per year to be paid	Per Instalment Fee	Minimum no. of instalments to be paid
----------	---------------------------------	--------------------	---------------------------------------

Schedule A (Available to all students)	3	\$1,290.67	3
Schedule B (Part-time students only)	3	\$743.00	9

See *Table 1*, p. 32, for fees due after Instalment 6 for Schedule A and Instalment 9 for Schedule B. For Certificate of Advanced Study fees see *Item 4.4.6*, p. 31.

5.3.17 – Master of Management

Minimum program fees \$22,440.00

Schedule	Per Instalment Fee	Minimum no. of instalments to be paid
----------	--------------------	---------------------------------------

Schedule – 16 month Operations Research and Transportation & Logistics	\$5,610.00	4
--	------------	---

See *Table 1*, p. 32, for fees due after Instalment 4.

5.3.18 – Master of Occupational Therapy

Minimum program fees \$11,220.00

Schedule	Per Instalment Fee	Minimum no. of instalments to be paid
----------	--------------------	---------------------------------------

Schedule A	\$1,870.00	6
------------	------------	---

See *Table 1*, p. 32, for fees due after Instalment 6.

5.3.19 – Master of Physical Therapy

Minimum program fees \$11,220.00

Schedule	Per Instalment Fee	Minimum no. of instalments to be paid
----------	--------------------	---------------------------------------

Schedule A	\$1,870.00	6
------------	------------	---

See *Table 1*, p. 32, for fees due after Instalment 6.

5.3.20 – Master of Rehabilitation Science (Online)

Schedule	Each 3-credit course	Each 1.5-credit course
per course fee	\$951.00	\$475.00

5.3.21 – Master of Science, Genetic Counselling

Minimum program fees (2 year program) \$30,600.00

Schedule	Per Instalment Fee	Minimum no. of instalments to be paid
----------	--------------------	---------------------------------------

Schedule A	\$6,120.00	5
------------	------------	---

See *Table 1*, p. 32, for fees due after Instalment 5

5.3.22 – Master of Social Work (Distance Education)

Minimum program fees \$10,684.00

Schedule	Per Instalment Fee	Minimum no. of instalments to be paid
----------	--------------------	---------------------------------------

Schedule A	\$1,187.11	9
------------	------------	---

See *Table 1*, p. 32, for fees due after Instalment 9.

NOTE: All fees are subject to change. Please see 'Notice Regarding Fees' at the beginning of this chapter.

5.3.23 – Master of Software Systems

Minimum program fees \$16,830.00

Schedule	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A	\$4,207.50	4

See *Table 1*, p. 32, for fees due after Instalment 4.

5.3.24 – Combined Master of Arts (Asia Pacific) and Bachelor of Laws

Schedule	Instalments per year to be paid	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A	2	\$5,221.04	6
After Instalment 6		\$1,262.07	3

See *Table 1*, p. 32, for fees due after Instalment 9.

5.3.25 – Combined Master of Business Administration and Bachelor of Laws

Schedule	Instalments per year to be paid	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A	2	\$7,942.50	8

See *Table 1*, p. 32, for fees due after Instalment 8.

5.3.26 – Combined Master of Business Administration and Master of Arts (Asia Pacific)

Schedule	Instalments per year to be paid	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A (Available to all students)	3	\$6,631.03	6
After Instalment 6		\$1,262.07	3

See *Table 1*, p. 32, for fees due after Instalment 9.

5.3.27 – Combined Master of Engineering and Bachelor of Applied Science

Schedule	Instalments per year to be paid	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A	3	\$1,534.00	3

See *Table 1*, p. 32, for fees due after Instalment 6.

5.3.28 – Combined Master of Science and Diploma in Periodontics

Minimum program fees \$11,585.16

Schedule	Instalments per year to be paid	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A	2	\$1,930.86	6

See *Table 1*, p. 32, for fees due after Instalment 6.

5.4 DOCTORAL TUITION FEES

5.4.1 – Overview

The following fees apply for Canadian Citizens and Permanent Residents (Landed Immigrants). See International Students (Section 6) for fees for foreign residents.

Every candidate enrolled in a doctoral program is required to maintain continuous registration by paying tuition instalments, plus authorized student fees according to the appropriate tuition fee schedule.

Special program fees apply to the Doctor of Education in Educational Leadership, Doctor of Pharmacy, and Combined Doctor of Philosophy and Doctor of Medicine, as noted in *Item 5.4.4*, p. 34.

Failure to pay fees will result in a financial hold and an interest penalty. (See *Item 1.5.2, Outstanding Indebtedness – Graduate Students*, p. 26.)

All candidates are considered to be “full-time” for the assessment of tuition and authorized student fees. Authorized student fees are applied to all Doctoral programs regardless of credit load or their place of residence.

Ph.D. and D.M.A. students in the first four years of their doctoral programs are eligible for a Ph.D. Tuition Fee Award, except in cases when Ph.D. tuition fees are directly billed to a third-party. The Ph.D. Tuition Fee Award is equivalent to the tuition fee assessment (but does not cover student fees).

5.4.2 – Doctoral Tuition Fees Schedule

The normal fee for the doctoral program is payable in three (3) instalments per year according to the following schedule, plus authorized student fees. No candidate in any doctoral program will pay total fees of less than the first six (6) instalments plus authorized student fees.

A student at this University who transfers from a master’s program to the doctoral program will receive credit toward the fees required for the doctoral program.

SCHEDULE A

Doctoral Degree	Instalments per year to be paid	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A	3	\$1,262.07	6

After instalment 9 each subsequent year’s Continuing Fee is \$1,729.80; Extension Fee per year \$2,429.50; On Leave Fee, per year is \$274.40.

5.4.3 – Fees Payable upon Completion of Degree

Candidates who have paid more than the minimum for the degree (the first six (6) instalments) will have their tuition fees prorated to the end of the month in which the Faculty of Graduate Studies confirms that all degree requirements have been completed. This includes the submission of their thesis to the Faculty of Graduate Studies. Student fees are not prorated.

5.4.4 – Specialized Doctoral Tuition Fees

DOCTOR OF EDUCATION IN EDUCATIONAL LEADERSHIP

Minimum Program Fees \$25,983.00

Schedule	Per Instalment Fee	Minimum no. of instalments to be paid
Instalment 1	\$1,443.50	
Instalments 2–9	\$2,877.00	
Instalment 10	\$1,443.50	10

After Instalment 10, each subsequent year, the Continuing Fee is \$2,658.71 (3 instalments per year of \$886.24). On Leave Fee is \$274.40

DOCTOR OF PHARMACY

Minimum program fees \$38,301.00

Schedule	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A	\$7,660.20	5

After instalment 5, each subsequent year, the Continuing Fee is \$1,729.80. On Leave Fee is \$274.40.

COMBINED DOCTOR OF PHILOSOPHY AND
DOCTOR OF MEDICINE

Schedule	Per Instalment Fee	Minimum no. of instalments to be paid
Schedule A (Available to all students)	\$1312.34	18

After Instalment 18, each subsequent year, the Continuing Fee is \$1,729.80. On Leave Fee is \$274.40.

5.4.5 – Student Fees for Doctoral Students

The annual student fees for doctoral students are the same as those for full-time (Schedule A) Master's students. See *Item 5.2.7*, p. 32, for applicable student fees.

6 INTERNATIONAL STUDENT FEES

6.1 GENERAL INFORMATION

6.1.1 – Overview

All information pertaining to general practices regarding fees are applicable to International Students. This includes, but is not exclusive to, all regulations, rules, and items of note that are specified in the following Sections of this chapter, including: *Item 1.1: Allocations, Contract, Change of Fees*, p. 25; *Item 1.2: Payment of Fees*, p. 25; *Item 1.3: Deposits*, p. 25; and *Item 1.5: Outstanding Indebtedness*.

6.1.2 – Student Visa to Permanent Residence Status

If an international student becomes a Permanent Resident on or before the tuition fee due date of the term (see *Item 6.1.3*, p. 35, below), regular fees will be assessed for that term.

If an international student becomes a Permanent Resident after the tuition fee due date for a current term, international fees will be assessed for that current term and regular fees will be assessed for subsequent terms.

Please Note: Permanent Resident status is attained as of the “Landed on” date, indicated on the Record of Landing, not the “Date Issued”.

6.1.3 – Fee Due Dates

Tuition fee due dates are as follows:

Winter Session, Term 1	September 6, 2006
Winter Session, Term 2	January 8, 2007
Summer Session	May 9, 2007

For information on Late Payments see *Item 1.5*.

6.1.4 – Student Fees for International Students

Student fees and applicable program fees will be applied to all international students enrolled at the University. See information in Sections 2 and 3 for applicable fees. Student and program fees are assessed upon registration to the University.

6.2 HEALTH INSURANCE FOR NEW INTERNATIONAL STUDENTS

There are two basic insurance plans (iMED and MSP) and one extended plan (AMS/GSS Health and Dental) for international students at UBC. Descriptions of all three plans are provided below.

6.2.1 iMED

The University provides a mandatory basic health insurance program (iMED) for all new international students as a condition of registering as a student (excludes Canadian citizens and permanent residents of Canada). iMED covers emergency hospitalization and medical services (including doctor's visits) for unexpected sickness or injury.

All new students who pay international tuition fees, as well as international exchange students and students in the Ritsumeikan University and

Korea University UBC Joint Academic programs, are automatically assessed the following fees:

A) iMED	\$120.00
B) iMED for one-term exchange students	\$170.00

COVERAGE PERIOD

New international students are automatically covered for the three-month waiting period before they become eligible for BC's Medical Services Plan (MSP), with the exception of one-term exchange students, who are covered by iMED for the duration of their exchange because they are not eligible for MSP.

For one-term international exchange students, iMED covers:

Term 1: August 28, 2006 – January 2, 2007 (plus up to ten days travel from your home country to Canada).

Term 2: December 25, 2006 – April 30, 2007 (plus up to ten days travel from your home country to Canada).

The \$170.00 fee will be assessed before the start of classes and will be listed online as a student fee.

One-term exchange students cannot change their dates; they can purchase additional days of coverage directly from David Cummings Insurance Services (DCIS) if they arrive in BC before – or leave after – the dates indicated above. For more information, visit DCIS (www.david-cummings.com/imed).

For all others, iMED covers the three month waiting period before you are eligible for MSP, from the time you leave home (up to ten days prior to arrival) until your MSP eligibility date. Your coverage will begin when you arrive in Canada, with the earliest arrival date being Aug. 1 (Term 1), Dec. 1 (Term 2), Apr. 1 (Summer Term 1), or June 1 (Summer Term 2). The \$120.00 fee for the three month period will be assessed when you register and will be listed online as a student fee.

If you arrive in BC in the month(s) before your iMED coverage is due to start, please contact DCIS (www.david-cummings.com/imed) to purchase advance coverage; you may then be eligible to opt out of UBC's iMED plan.

If you arrive in BC in the month after the dates indicated above, you must submit the Date Change Form (www.david-cummings.com/pdf/DCISiMEDChangeDatesForm.pdf), with proof of your arrival date in BC, to David Cummings Insurance Services. Your dates of coverage can then be shifted to cover your three-month waiting period for MSP. The deadline for submitting your Date Change Form is the end of the third week of classes.

Adding family members: You may add your dependents to your iMED plan. For more information and application forms, visit DCIS (david-cummings.com/imed/enrolment/familymembers.htm).

Opting Out: If you are already covered by MSP, by another Canadian provincial health plan, or by mandatory health insurance provided by a third-party sponsor with whom UBC has an agreement, you must opt out of iMED before the end of your third week of classes at UBC. Please note that having private insurance does not make you eligible to opt out of iMED. For opt out instructions and forms, visit DCIS (www.david-cummings.com/imed/enrolment/optingout.htm).

6.2.2 BC's Medical Services Plan (MSP)

Anyone residing in BC for longer than six months is required by law to enrol in BC MSP and pay premiums directly to the plan. However, there is a waiting period of three months before any newcomer to BC is eligible for BC MSP. For more information about MSP and to download an application, visit BC MSP (www.healthservices.gov.bc.ca/msp).

6.2.3 AMS/GSS Health and Dental Plan

All UBC students who are assessed student fees are also assessed the *AMS/GSS Health and Dental Plan fee*, p. 28. This is an extended health and dental plan which provides for medical services not covered by MSP, for example most prescription drugs, travel health insurance, vision care, and dental care. This fee is assessed only in the Winter Sessions and provides coverage from September 1 to August 31.

AMS/GSS Health and Dental Plan Fee	\$196.74
------------------------------------	----------

6.3 UNDERGRADUATE TUITION FEES FOR INTERNATIONAL STUDENTS

International students who began an undergraduate program as of Summer 2002 will be assessed tuition fees in the amount of \$566.41 per credit. Cost-of-living increases will be implemented annually. The cost-of-living increase reflects cost increases in wages and salaries, library acquisitions, supplies and equipment, utility charges, and other related education costs. Proposals for additional tuition fee increases for new (2006) international students and certain programs are under consideration and will be reviewed by UBC's Board of Governors at its March 2006 meeting. Proposals include contributions towards capital costs and differential fees for selected programs. Where reciprocity agreements (such as Exchange programs) exist, international students shall pay regular fees.

Per Credit Fee (undergraduate programs)	\$566.41*
Standard 3 credit course	\$1,699.23*

* Cost of Living increases will be implemented annually

6.4 UNCLASSIFIED, QUALIFYING, VISITING, AND ACCESS STUDIES STUDENTS; AUDITORS AND OTHERS (INTERNATIONAL STUDENTS)

Unclassified students, qualifying students, auditors, students registered for concurrent studies and access studies, and students not working toward a degree pay the following credit fees:

Commencing Summer 2002	\$556.41 per credit for both undergraduate and graduate courses*
Prior to Summer 2002	\$516.00 per credit for undergraduate courses* \$556.41 per credit for graduate courses*

* If the course has a zero (0) credit value, fees will be assessed at 1 credit, at the applicable course level fee. Cost-of-living increases will be implemented annually.

Student fees do apply, see Section 2.

6.5 MASTER'S DEGREE TUITION FEES FOR INTERNATIONAL STUDENTS

6.5.1 – Overview

Every candidate enrolled in a master's program is required to maintain continuous registration by paying tuition instalments according to Schedule A or B (listed below) plus authorized student fees, as listed under Section 2. Failure to pay fees will result in a financial hold and an interest penalty. (See 1.5, Outstanding Indebtedness.)

All international graduate students are automatically assessed fees according to *Schedule A*, p. 36.

Students who are planning on taking a master's degree through part-time study must obtain approval of their departmental advisor and the Faculty of Graduate Studies prior to the beginning of the term in which fees are first assessed. To do so, please complete the Application for Part-time Payment form (grad.ubc.ca/forms/index.asp?formID=SDT). This application is also available from the Faculty of Graduate Studies.

Only candidates planning to take their degree through part-time study are permitted to select *Schedule B*, p. 36. Candidates who select *Schedule B* are advised that, by virtue of their part-time status, they are ineligible to receive government loans, interest-free status and University fellowships or scholarships.

Note: Candidates are not permitted to switch from *Schedule B* to *Schedule A* after the initial payment.

International students admitted to programs charging tuition fees of \$7,200.00 are eligible for an International Partial Tuition Scholarship of \$3,488.00, which is applied to assist with their tuition fees. Students in the following master's programs in the Faculty of Education are eligible for the following amounts: Master of Arts in Education, \$1,893.00; Master of Education, \$1,893.00; and Master of Human Kinetics, \$2,992.00. Students are eligible as long as they are not a recipient of any external funding that pays their tuition. Some departments may offer additional money towards the International Partial Tuition Scholarship. Students are advised to contact their department for details.

6.5.2 – Fee Schedules for Master's Degree Programs

The full-time fees (*Schedule A*, below) are available to all students. The part-time fees (*Schedule B*, below) are only available to part-time students. No candidate will pay total fees less than the specified instalments, plus authorized student fees, and will continue to pay the full instalment rate, plus authorized student fees, until degree completion.

Student Fees apply to all Master's students. See *Item 6.1.4*, p. 35, for details on student fees applicable to International Master's students. Student fees are not prorated.

MASTER'S FEE SCHEDULES FOR INTERNATIONAL STUDENTS

Master's Degree Schedule	Instalments per year to be paid	Per Instalment Fee	On Leave Fee Per Year	Minimum no. of instalments to be paid
Full Time: Schedule A	3	\$2,400.00	\$849.00	3
Part Time: Schedule B	3	\$1,380.00	\$849.00	9

6.5.3 – Specialized Master's Tuition Fees

Specific Master's Program	Instalments per year to be paid	Per Instalment Fee	On Leave Fee Per Year	Minimum no. of instalments to be paid	Minimum Fee (based on instalments)
Master of Architecture	3	\$3,333.33	\$849.00	3	\$10,000.00
Master of Business Administration					
Master of Business Administration (15 month program)	3	\$9,000.00	\$849.00	4	\$36,000.00
Master of Business Administration (part time)	3*	\$5,142.85	\$849.00	7	\$36,000.00
* After Instalment 9, each subsequent year Continuing Fee is \$1,695.90					
Master of Educational Technology	Per course fee, each 3-credit course \$1,275.00				
Master of Engineering	3	\$5,000.00	\$849.00	3	\$15,000.00
Master of Fine Arts in Creative Writing (Distance Education)	\$766.66 per credit				
Master of Health Administration	3	\$3,740.00	\$849.00	6	\$22,440.00
Master of Journalism	3	\$3,333.33	\$849.00	3	\$10,000.00
Master of Jurisprudence in Common Law	3	\$8,500.00	\$849.00	3	\$25,500.00
Master of Landscape Architecture	3	\$3,333.33	\$849.00	3	\$10,000.00
Master of Management					
16 month program (Operations Research and Transportation & Logistics)	3	\$5,610.00	\$849.00	4	\$22,440.00
Master of Science in Genetic Counselling	3	\$6,120.00	\$849.00	5	\$30,600.00 (2 year program)
Master of Software Systems	3	\$4,207.50	\$849.00	4	\$16,830.00
Combined Master of Business Administration and Bachelor of Laws	2	\$11,148.00	\$849.00	8	\$89,184.00

See *Item 6.1.4*, p. 35, for student fees applicable to International Master's students. Student fees are not prorated.

6.5.4 – Switching Fee Schedules for International Students

The normal fee for the full-time master's degree is payable in three (3) instalments per year according to the schedules listed below (plus authorized student fees).

Note: Candidates are not permitted to switch from Schedule B to Schedule A after the initial payment.

6.5.5 – Fees Payable upon Completion of Degree

Candidates who have paid more than the minimum for the degree (three (3) instalments on *Schedule A*, p. 36 or nine (9) on *Schedule B*, p. 36) will have their tuition fees prorated to the end of the month in which the Faculty of Graduate Studies confirms that all degree requirements have been completed. This includes the submission of either the major paper or final project to the department, or the thesis to the Faculty of Graduate Studies.

6.6 DOCTORAL DEGREE TUITION FEES FOR INTERNATIONAL STUDENTS

6.6.1 – Overview

Every candidate enrolled in a doctoral program is required to maintain continuous registration by paying tuition instalments, plus authorized student fees, until degree completion according to the schedule below. Special program fees apply to the Doctor of Education in Educational Leadership and Doctor of Pharmacy, as noted in *Item 6.6.2*, p. 37.

Failure to pay fees will result in a financial hold and an interest penalty. See *Item 1.5*, Outstanding Indebtedness.

All candidates are considered to be full-time for the assessment of tuition and authorized student fees. No candidate in any doctoral degree program will pay total fees of less than six (6) instalments and will continue to pay the full instalment rate, plus authorized student fees, until degree completion.

A student at this University who transfers from a master's program to the doctoral program will receive credit toward the fees required for the doctoral program.

Ph.D. and D.M.A. students in the first four years of their doctoral programs are eligible for a Ph.D. Tuition Fee Award, except in cases when Ph.D. tuition fees are directly billed to a third-party. The Ph.D. Tuition Fee Award is equivalent to the tuition fee assessment (but does not cover student fees).

International students registered full-time in the fifth or later years of doctoral programs charging tuition fees of \$7,200.00 are eligible for an International Partial Tuition Scholarship of \$3,488.00 which is applied to assist with their tuition fees. Students are eligible as long as they are not a recipient of any external funding that pays their tuition.

Some departments may offer additional money toward the International Partial Tuition Scholarship. Students are advised to contact their department for details.

6.6.2 – Doctoral Tuition Fees

No candidate will pay less than six (6) instalments plus authorized student fees. See *Item 6.1.4*, p. 35, for student fees applicable to International Master's students.

DOCTORAL DEGREE (FULL-TIME)

Instalments per year	Per Instalment Fee	On Leave Fee per year	Minimum Instalments	Minimum Fee
3	\$2,400.00	\$849.00	6	\$14,440.00

SPECIFIC DOCTORAL DEGREES

Specific Doctoral Degree	Instalments per year	Instalment	Per Instalment Fee	Minimum Instalments	Minimum Fee
Education in Educational Leadership*	3	1	\$1,443.50		\$25,983.00
		2–9	\$2,877.00		
		10	\$1,443.50		
	3	After 10	\$886.24		
Doctor of Pharmacy*	3		\$9,810.00	5	\$49,050.00

* On Leave Fee is \$849.00 per year.

Fees for Students Registered Prior to September 1997

On Leave Fee (per year)	\$340.00
Extension Fee (per year)	\$2,595.00*

* Candidates enrolled in a doctoral program beginning September 1997 will continue to pay the full instalment rate until degree completion. Fees payable upon completion of degree (see *item 6.5.3*, p. 37).

6.6.3 – Fees Payable upon Completion of Degree

Candidates who have paid more than the minimum for the degree (six (6) instalments) will have their tuition fees prorated to the end of the month in which the Faculty of Graduate Studies confirms that all degree requirements have been completed. This includes the submission of their thesis to the Faculty of Graduate Studies. Student fees are not prorated.

7 FINANCIAL ASSISTANCE AND SCHOLARSHIPS

7.1 FINANCIAL ASSISTANCE

Deborah Robinson, Associate Registrar & Director, Student Financial Assistance and Awards

Barbara Crocker, Associate Director, Student Financial Assistance and Awards

UBC is committed to ensuring access for all eligible domestic students. In assessing financial need, students and their families are expected to assume the primary financial responsibility for their education. Student Financial Assistance and Awards can help.

UBC's financial assistance programs are summarized below. Complete information is available on the Awards, Fees, and Finances website (www.students.ubc.ca/finance).

To qualify for most financial assistance, students are required to register in 60% of a full course load (www.students.ubc.ca/finance/loans.cfm?page=courseload) in an approved program.

7.1.1 Domestic Students

Domestic students are Canadian citizens or permanent residents. Except for Entrance Bursaries, the following programs are available to both undergraduate and graduate domestic students.

GOVERNMENT STUDENT LOANS

A student loan is government-funded repayable financial assistance. While students are registered in full-time studies, the loans are interest-free. Students can maintain interest-free status even when not receiving a loan, provided they meet the full-time studies requirement and complete forms available from Student Financial Assistance and Awards.

Students apply for student loans from their home province of residence. Visit www.students.ubc.ca/finance/loans.cfm for more information on applying.

Students need to apply for loans by June 30 to ensure eligibility for bursaries and work study.

GENERAL BURSARIES

Bursaries are non-repayable awards allocated on the basis of assessed financial need. To be eligible, applicants must be Canadian citizens or permanent residents of Canada and apply by the Bursary deadline. They

also must have enrolment confirmed on government student loans, for the current session, by the Bursary deadline.

Students starting studies in September should apply to the Winter Bursary program; the deadline is September 15. Students starting in May, should apply to the Summer Bursary program; the deadline is June 1. For more information on applying, see the General Bursary information (www.students.ubc.ca/finance/awards.cfm?page=bursaries) on the Student Financial Assistance and Awards website.

WORK STUDY

Work Study is a UBC employment program that helps fund on-campus jobs for students. Eligible students must be Canadian citizens or permanent residents, and in receipt of government student loans. Applications are available starting August 15 from the Student Financial Assistance and Awards website and are due September 15. Apply early as positions are available on a first-come first-serve basis.

ENTRANCE BURSARIES

Entrance Bursaries help students make the transition from secondary school to university. Students have to demonstrate financial need, but do not have to be receiving a student loan. The applicant's high school principal or counsellor must attest to the student's financial need.

Most eligible students are in their graduating year of secondary school. Students who have taken an extended break between high school graduation and their post-secondary education are also eligible, provided they have not taken any post-secondary studies prior to attending UBC.

Applications are due February 28. Students applying for Entrance Bursaries should also consider applying for General Bursaries (see above).

AFFILIATION BURSARIES

Affiliation Bursaries, like General Bursaries, fund students that have assessed financial need and who are in receipt of student loans. In addition, criteria for these bursaries include membership in an organization, affiliation with a union, specific firm or industry, or personal characteristics of the student such as cultural heritage. Criteria for each bursary are listed on the application form.

Applications are available from the Student Financial Assistance and Awards website and are due June 30.

ABORIGINAL STUDENTS

In addition to the University's general award programs, UBC has over 60 awards specifically for Aboriginal students and students pursuing Aboriginal-relevant coursework. Applications are available from the Student Financial Assistance and Awards website (www.students.ubc.ca/finance/awards.cfm?page=search) and are due June 30.

STUDENTS WITH DISABILITIES

In addition to the University's general award programs, UBC has 20 awards specifically for students with disabilities. Applications are due

October 15 and are available for download online (www.students.ubc.ca/access/drc.cfm) or in paper format from the Disability Resource Centre and the Crane Library, 1874 East Mall, UBC.

PART-TIME STUDENTS

Students registered in degree related courses equivalent to less than a full-time course load may be eligible for federal grants and loans. More information, for students from all provinces, is available online (www.aved.gov.bc.ca/student-services/student/sp/pt/).

EMERGENCY FUNDING

A student in an emergency situation or faced with an unexpected expense should contact Student Financial Assistance and Awards. Advising is available to review the student's current financial situation and explore funding options.

7.1.2 International Students

International students are neither Canadian citizens nor permanent residents of Canada, and are studying at UBC on a Canadian study permit. Citizenship and Immigration Canada requires international students to have sufficient funds for tuition and living costs. Generally, international students are not eligible for need-based financial assistance from UBC, but are eligible to be considered for most merit-based scholarships. First year and post-secondary transfer students entering UBC are eligible to apply for the International Leader of Tomorrow Award and all international students can apply for work placements via the Work Learn program.

INTERNATIONAL LEADER OF TOMORROW AWARD

Eligible students demonstrate financial need and an exceptional level of scholastic achievement, extracurricular achievement, and leadership.

Each secondary and post-secondary school is invited to nominate one student. School counsellors may request a nomination package from UBC's International Student Recruitment and Reception (international.reception@ubc.ca) office. Packages will not be sent directly to students.

Nomination packages are due February 28.

WORK LEARN PROGRAM

The Work Learn Program is an experiential work program for international students that offers experience in a UBC workplace, the opportunity to earn money, and a connection with the UBC community. No loans are required. Visit the Career Services website (www.careers.ubc.ca) for more information.

US LOANS

U.S. citizens and some non-citizens are eligible for loans from the United States. UBC participates in the Federal Stafford Loan program and the Federal PLUS Loan program. Stafford loans are held directly by the student, while PLUS loans are held by the parent to help fund the student's education.

Students should visit US Loan page (www.students.ubc.ca/finance/loans.cfm) for more information.

7.2 SCHOLARSHIPS

Scholarships are awards given for academic excellence, and some also include other criteria such as leadership, community service, artistic endeavours, and athletics. The funding is provided by the University and by private donors, including the government, community organizations, and corporations. Unless otherwise specified, both domestic students (Canadian citizens and permanent residents) and international students (on a Canadian study permit) are eligible for all UBC awards.

Student Financial Assistance and Awards administers scholarships for undergraduate students. The Faculty of Graduate Studies administers scholarships and other merit-based support for graduate students.

7.2.1 Undergraduate Scholarships

Deborah Robinson, Associate Registrar & Director, Student Financial Assistance and Awards

Barbara Crocker, Associate Director, Student Financial Assistance and Awards

UBC's major scholarship programs are summarized below. Complete information is available on the web (www.students.ubc.ca/finance).

ENTRANCE SCHOLARSHIPS

Major Entrance Scholarships

There are over 80 Major Entrance Scholarships for students entering UBC from secondary school, some as high as \$40,000 over four years. Candidates are evaluated based on scholastic performance and the ability to lead, directly or by example, in artistic endeavours, community service, athletics, and the school.

Students must be nominated by their school to be eligible and can download application packages online (www.students.ubc.ca/welcome/finance.cfm?page=scholarships&view=entrance). Applications are open to Canadian citizens and permanent residents and are due February 28.

President's Entrance Scholarships

The President's Entrance Scholarships (PES) are up to \$4,000 and recognize academic excellence in students entering from secondary school or transferring from a college, university, or technical institute. There is no application; new students are automatically considered and notified as part of their offers of admission.

Please see the complete PES Information (www.welcome.ubc.ca/finance.cfm?page=scholarships&view=president).

Leadership Excellence Award

The Leadership Excellence Award recognizes students entering UBC from secondary school who are recipients of the Canadian Merit Scholarship Foundation (CMSF) Award and/or the Millennium Excellence Award at the national or provincial level. Visit the website (www.welcome.ubc.ca/finance.cfm?page=scholarships&view=leadership) for more information.

AP Achievement Scholarship

UBC recognizes students entering UBC from secondary school who have achieved the distinction of AP Scholar through their achievement in the Advanced Placement (AP) program. The AP Achievement Scholarships are available for students who do not already hold other UBC scholarships. Visit the website (www.welcome.ubc.ca/finance.cfm?page=scholarships&view=book) for more information.

Entrance Scholarships for Post Secondary Transfer Students

There are 18 Entrance Scholarships for undergraduate students entering UBC from a college or university. Candidates are evaluated primarily based on scholarly achievement, but are also considered for their personal qualities and activities.

Applications are due June 15 and are open to Canadian citizens and permanent residents. Students who already hold a degree and intend to transfer to UBC to complete a second degree are not eligible for this award.

TREK Excellence Scholarships – Post Secondary Transfer Students

The TREK Excellence Scholarship (TES) for students transferring from a college, university, or technical institute has been renamed and is now available as the President's Entrance Scholarship (see above).

International Leader of Tomorrow Award

This program provides funding to outstanding international students entering from either a secondary or post-secondary school. Please see *International Leader of Tomorrow Award*, p. 38, in the "Financial Assistance" section.

TREK EXCELLENCE SCHOLARSHIPS – CONTINUING UBC STUDENTS

The TREK Excellence Scholarships are \$1,500 awards for continuing students and are given to the top 5% of students in each year of each faculty and school. Each year the TREK Excellence Scholarship eligibility will be evaluated based on UBC grades from the previous year. This is not a renewable scholarship, and no application is required.

Please see the complete TES Information (www.welcome.ubc.ca/finance.cfm?page=scholarships&view=trek).

UNDERGRADUATE SCHOLARS PROGRAM
In September 2005, UBC began offering a new scholarship program for current students, the TREK Excellence Scholarship (TES), that

replaces the Undergraduate Scholars Program (USP). Funding for the USP program will not stop immediately. Instead, UBC will support a gradual transition to the TES by grandfathering out the USP until April 2007.

For details on eligibility for USP grandfathering, please see the complete USP information (www.students.ubc.ca/finance/awards.cfm?page=scholarships&view=usp).

AFFILIATION SCHOLARSHIPS

Criteria for these awards include membership in an organization, affiliation with a union, specific firm or industry, or personal characteristics of the student such as cultural heritage, in addition to scholastic achievement. Requirements for each award are listed on the application form.

Applications are available from the Student Financial Assistance and Awards website and are due June 30.

AWARDS RECOMMENDED BY FACULTIES

UBC has many awards available for students after first year. Most of these awards do not require an application. Instead, each faculty looks for students with strong academics and community leadership. Students are notified automatically if they receive an award.

Visit the Student Financial Assistance and Awards website for a complete list (www.students.ubc.ca/finance/awards.cfm?page=search) of awards that UBC provides.

PREMIER UNDERGRADUATE SCHOLARSHIPS

These scholarships are for students in the last two years of a baccalaureate program, the first year of Graduate Studies, or in the Medicine (M.D.) or Dentistry (D.M.D.) programs. Students must have strong academic standing. Other qualifications include: active interest and participation in sports; moral force of character; ability to work with and lead others; and participation in student and community activities.

Students must be nominated by their faculty, department, or a designated student organization. Applications are available in the summer months; contact Student Financial Assistance and Awards for more information.

ABORIGINAL STUDENTS

In addition to the University's general award programs, UBC has over 60 awards specifically for Aboriginal students and students pursuing Aboriginal-relevant coursework. Applications are available from the Student Financial Assistance and Awards website (www.students.ubc.ca/finance/awards.cfm?page=search) and are due June 30.

STUDENTS WITH DISABILITIES

In addition to the University's general award programs, UBC has 20 awards specifically for students with disabilities. Applications are due October 15 and are available for download online (www.students.ubc.ca/access/drc.cfm) or in paper format from the Disability Resource Centre and the Crane Library, 1874 East Mall, UBC.

PART-TIME AND SUMMER STUDENTS
There are limited numbers of scholarships available for part-time study and students studying during the Summer Session. Please contact Student Financial Assistance and Awards for more information.

EXTERNAL SCHOLARSHIPS

Many organizations offer their own scholarships that can be used towards a UBC education. Students apply directly to a corporation, parent's employer or community group. Students should conduct a broad search for these scholarships, including viewing three useful websites:

- www.millenniumsolarships.ca
- www.scholarshipscanada.com
- www.studentawards.com

7.2.2 Graduate Scholarships

Lynn Alden, Associate Dean, Awards and Student Professional Development

The Faculty of Graduate Studies administers merit-based scholarships and awards for graduate students at the University of British Columbia. These scholarships recognize high academic achievement, research ability and potential, demonstrated leadership ability, and excellent communication skills.

UBC's graduate scholarship programs are summarized below. Complete information is available on the web (grad.ubc.ca/awards).

GRADUATE ENTRANCE SCHOLARSHIPS

Graduate Entrance Scholarships are offered by graduate programs and departments to the best and brightest incoming students for their first year of full-time graduate study or research at UBC. Inquiries about this scholarship should be addressed to the head of the graduate program or department concerned.

UNIVERSITY GRADUATE FELLOWSHIPS

The Faculty of Graduate Studies offers approximately 300 University Graduate Fellowships each year to meritorious students for full-time study and/or research leading to a graduate degree. Awards are made on the basis of academic excellence, and are open to currently registered, full-time UBC graduate students, regardless of citizenship or visa status. Students should contact their departments for more information on departmental review processes and deadlines.

PH.D. TUITION AWARD

Effective September 2003, all Ph.D. and D.M.A. students in the first four years of doctoral studies are eligible for a Ph.D. Tuition Fee Award, except in cases when Ph.D. tuition fees are directly billed to a third-party. The

Ph.D. Tuition Fee Award is equivalent to the tuition fee assessment.

INTERNATIONAL PARTIAL TUITION SCHOLARSHIP

NB: Award amounts are for the 2005/2006 academic year, and are subject to change for the 2006/2007 academic year. International graduate students are eligible for an International Partial Tuition Scholarship of up to \$3,488, which is applied to assist with their tuition fees if they are registered full-time in master's programs or in fifth or later years of doctoral programs that assess tuition fees of \$7,200 per year. Students in the following master's programs in the Faculty of Education are eligible for the following amounts: Master of Arts in Education, \$1,893, Master of Education, \$1,893, and Master of Human Kinetics, \$2,992. Students are eligible as long as they are not recipients of external scholarships or external funding that pays their tuition.

MORE SCHOLARSHIPS

Killam Predoctoral Fellowships

Killam Predoctoral Fellowships are the most prestigious awards available to graduate students at UBC. Approximately 30 awards are made each year to the top doctoral candidates in the University Graduate Fellowships competition. The stipend for 2005–2006 awards was \$25,000 per annum for two years and a \$1,500 travel allowance for research during the two-year term of the award. All eligible candidates nominated by their department in the University Graduate Fellowships competition are automatically considered for Killam Predoctoral Fellowships.

Department-Recommended Awards

A large number of graduate awards are made on the recommendation of a department or faculty. In many cases students are automatically recommended by their departments; in other cases departments may hold an internal competition to which students must apply. Students should contact their departments to discuss the process by which department-recommended awards are given out.

External Awards

A large number of organizations and levels of government provide scholarship funding for graduate students. In most cases, students apply directly to the external funding agency. In some cases, however, applications are made through the student's graduate department and then through the Faculty of Graduate Studies. Students should contact their departments for more information on departmental review processes and deadlines. The Faculty of Graduate Studies is also responsible for administering the payments on behalf of most external funding agencies. Therefore, graduate students who are awarded external scholarship funding should contact the Faculty of Graduate Studies to arrange payment of the award funding.

Travel Awards

Graduate students are eligible for the Graduate Student Travel Fund once per degree program. The Travel Fund provides one-time travel

support, to a maximum of \$400, to a student who presents a paper or poster at an official conference or symposium (student workshops are ineligible) while they are enrolled full-time in a graduate degree program.

IV Establishment and Constitution

INTRODUCTION

The creation of a university in British Columbia was first advocated in 1877. In 1890 an act of the provincial legislature established “The University of British Columbia” but the venture failed for lack of a quorum at the first meeting of the Senate. In 1908 the earlier act was repealed and a new act was established, incorporating the University. The University operated under this act and its amendments as the sole public university in the province until 1963 at which time a new *Universities Act* was passed by the legislature making provision for sister institutions.

The University opened its Vancouver campus in the autumn of 1915 in temporary quarters on part of the site of the General Hospital in Fairview. At the beginning of the 1925/26 Session, the University commenced work on its permanent Vancouver campus on Point Grey.

UBC Okanagan was established as a campus of the University on April 1, 2005 on the North Kelowna campus of the former Okanagan University College. The first UBC Okanagan students began their studies in September 2005.

UNIVERSITY ACT

The *Universities Act* was rewritten in 1974 and has since been further revised. The University currently operates under the authority of the British Columbia *University Act*, R.S.B.C. 1996, c. 468.

The full text of the *University Act* is available at: www.qp.gov.bc.ca/statreg/stat/U/96468_01.htm.

COAT-OF-ARMS

The following description of the University of British Columbia’s institutional Coat of Arms is from the Grant of Arms issued by the College of Arms on September 23, 1915:

“Argent three bars wavy Azure issuant from the base a demi-sun in splendour proper, on a chief of the second an open book proper edged, strapped and buckled Or inscribed with the words TUUM EST Sable.”

HONORARY DEGREES

The degrees of Doctor of Laws (Honoris Causa), Doctor of Science (Honoris Causa) and Doctor of Letters (Honoris Causa), LL.D., D.Sc., and D.Litt., respectively, are the honorary degrees conferred from time to time by the Senate of the University upon persons who have achieved distinction in scholarship or public service.

ACADEMIC DRESS

The undergraduate’s gown is black in colour and of the ordinary stuff material, of ankle length, and with long sleeves and the yoke edged with khaki cord. The master’s gown is the same, without cord. The Ph.D. regalia consists of a gown, Cambridge style, of maroon silk material with front facing panel and sleeves of UBC blue with gold piping; hood, Cambridge pattern, blue silk outside and gold lining; cap, decanal bonnet, of maroon silk with gold cord and tassel. The Ed.D. regalia consists of a gown similar in style to that of the Ph.D. but of black stuff; hood American style with lining of light blue and with chevron of University blue, white and gold; cap, decanal bonnet of black stuff with gold cord and tassel. The D.M.A. regalia is similar to that of Ed.D. with hood lined with alizarin crimson and a chevron of University blue and gold.

The master’s hood is the same as the bachelor’s, lined with the distinctive colour. The M.B.A. hood conforms similarly to that of the B.Com. The M.Sc. (Bus. Admin.) hood is similar to that of M.Sc. with grey trim and black and white cord. The M.Eng. hood is the same as that of the M.A.Sc. except that it is trimmed with a University blue cord. The hood for the honorary degree of LL.D. is of scarlet broadcloth lined with dark blue velvet, that for the D.Sc. is the same with dark purple lining; and for the D.Litt., the same with cream lining.

UBC VISION AND INITIATIVES

UBC’S VISION FOR THE 21ST CENTURY

The University of British Columbia will provide its students, faculty, and staff with the best possible resources and conditions for learning and research, and create a working environment dedicated to excellence, equity, and mutual respect. It will cooperate with government, business, and industry, as well as with other educational institutions and the general community, to create new knowledge, prepare its students for fulfilling careers, and improve the quality of life through leading-edge research.

The graduates of UBC will have developed strong analytical, problem-solving, and critical thinking abilities; they will have excellent research and communication skills; they will be knowledgeable, flexible, and innovative. They will recognize the importance of understanding societies other than their own. As responsible citizens, the graduates of UBC will value diversity, work with and for their communities, and be agents for positive change. They will acknowledge their obligations as global citizens and strive to secure a sustainable and equitable future for all.

TREK 2010

“Trek 2010: A Global Journey” is a strategic planning document that spells out the University’s goals and the steps by which it hopes to achieve them, in five general areas: People, Learning, Research, Community, and Internationalization. The document is the successor to “Trek 2000”, an earlier plan that has determined many of the University’s academic and research priorities, influenced its involvement in the community, and resulted in various campus-wide initiatives over the past five or six years.

The vision statement of “Trek 2010” is that “The University of British Columbia, aspiring to be one of the world’s best universities, will prepare students to become exceptional global citizens, promote the values of a civil and sustainable society, and conduct outstanding research to serve the people of British Columbia, Canada, and the world.” For further information on “Trek 2010”, please visit the Trek (www.vision.ubc.ca) (UBC’s Vision) website.

E-STRATEGY

UBC’s e-Strategy (www.e-strategy.ubc.ca) is a guiding framework to align UBC’s technology initiatives with the University’s strategic goals. The goal of e-Strategy is to enable students, faculty, and staff to excel in one of the world’s leading universities by enhancing learning, research, and community through leading-edge technology initiatives. Campus Wide Login (CWL) simplifies login to the myUBC portal, the Student Service Centre, WebCT, and other University services. The myUBC portal offers convenient, personalized access to web mail, library account information, and other information and services. UBC’s wireless network allows notebook computer users to connect to the Internet from almost anywhere on any UBC campus. And thousands of UBC students use online course materials and tools to enhance their learning experience.

FACULTY MEMBERSHIP

The Senate defines membership of a faculty, other than the Faculty of Graduate Studies, as follows:

- 1) The Dean of the faculty;
- 2) The President;
- 3) The Dean of the Faculty of Graduate Studies;
- 4) The University Librarian;
- 5) All full-time: lecturers, instructors, assistant professors, associate professors and professors provided for in the budget of the faculty;
- 6) Such other members of the teaching or administrative staffs of the faculty or University as the faculty shall appoint in conformity with rules determined by the faculty and approved by the Senate; and
- 7) Student representatives.

FACULTY OF GRADUATE STUDIES

Individuals eligible for full membership in the Faculty must be faculty members holding the title of professor, associate professor or assistant professor or professors emeriti in an academic unit authorized to offer graduate degree programs. Ex-officio members include the President, the Dean and the Associate Deans of the Faculty of Graduate Studies and the University Librarian.

GRADUATE COUNCIL

The legislative and administrative authority of the faculty regarding graduate programs of study is vested in the Graduate Council. In all matters concerning admission, scholarships, programs and examinations, the Dean and Associate Deans act, with the Registrar, as administrative officers for the Graduate Council.

The elected membership of the Graduate Council includes up to seventy-five faculty elected by and from members of the Faculty of Graduate Studies and two faculty members of Senate elected by the Faculty of Graduate Studies. There are also up to 14 members elected by and from students registered in the Faculty of Graduate Studies and one student member of Senate elected by the students of the Faculty of Graduate Studies.

Ex-officio members include the Dean (Chair) and the Associate Deans of the Faculty, the Registrar (Secretary), and the Vice-President, Research.

V Academic Regulations

DEFINITIONS

In this chapter, and throughout this Calendar, unless the context requires otherwise:

“**days**” when referring to a number of days means working days and will not be construed as including Saturdays and Sundays or any other days on which the University is closed, unless required otherwise by the context;

“**Committee of the Senate**” or reference to a committee of the Senate means the committee designated for the purpose by the University Senate;

“**Dean of the Faculty**” refers, where necessary, to any other appropriate officer of the University;

“**Faculty**” includes, where necessary, any other appropriate administrative unit of the University;

“**Senate**” or “**University Senate**” means the Vancouver Senate of The University of British Columbia or the council of senates of The University of British Columbia, as required in the context.

“**University Act**” means the *British Columbia University Act*, R.S.B.C. 1996, c. 468, unless otherwise stated.

ACADEMIC FREEDOM

The members of the University enjoy certain rights and privileges essential to the fulfilment of its primary functions: instruction and the pursuit of knowledge. Central among these rights is the freedom, within the law, to pursue what seems to them as fruitful avenues of inquiry, to teach and to learn unhindered by external or non-academic constraints, and to engage in full and unrestricted consideration of any opinion. This freedom extends not only to the regular members of the University but to all who are invited to participate in its forum. Suppression of this freedom, whether by institutions of the state, the officers of the University, or the actions of private individuals, would prevent the University from carrying out its primary functions. All members of the University must recognize this fundamental principle and must share responsibility for supporting, safeguarding and preserving this central freedom. Behaviour that obstructs free and full discussion, not only of ideas that are safe and accepted, but of those which may be unpopular or even abhorrent, vitally threatens the integrity of the University’s forum. Such behaviour cannot be tolerated.

FREEDOM FROM HARASSMENT AND DISCRIMINATION

The University of British Columbia is committed to ensuring that all members of the University community—students, faculty, staff, and visitors—are able to study and work in an environment of tolerance and mutual respect that is free from harassment and discrimination.

ACADEMIC ACCOMMODATION FOR STUDENTS WITH DISABILITIES

The University of British Columbia recognizes its moral and legal duty to provide academic accommodation. The University must remove barriers and provide opportunities to students with a disability, enabling them to access university services, programs, and facilities and to be welcomed as participating members of the University community. The University’s goal is to ensure fair and consistent treatment of all students, including students with a disability, in accordance with their distinct needs and in a manner consistent with academic principles.

The University will provide academic accommodation to students with disabilities in accordance with the British Columbia *Human Rights Code*, R.S.B.C. 1996, c. 210 and the *Canadian Charter of Rights and Freedoms*, Part I of the *Constitution Act, 1982*, being Schedule B to the *Canada Act 1982* (U.K.), 1982, c. 11. Provision of academic accommodation shall not lower the academic standards of the University. Academic accommodation shall not remove the need for evaluation and the need to meet essential learning outcomes. (Approved by the Board of Governors, May 1999.)

TEACHING EVALUATION

The University recognizes the importance of high quality teaching for the academic preparation of its students and accordingly requires that instructors be annually evaluated by procedures which include provision for assessment by students.

ATTENDANCE

Regular attendance is expected of students in all their classes (including lectures, laboratories, tutorials, seminars, etc.). Students who neglect their academic work and assignments may be excluded from final examinations. Students who are unavoidably absent because of illness or disability should report to their instructors on return to classes.

Students may not, concurrently with their University attendance, take studies for university degree credit through any other institution by correspondence, evening or regular session class without the approval of the dean of the faculty in which they are studying at the University.

The University reserves the right to limit attendance, and to limit the registration in, or to cancel or revise, any of the courses listed.

Information concerning limitations on attendance for the various faculties and schools is found in the faculty and school entries.

SPACE IN COURSES

Enrolment is limited in all courses and admission does not guarantee that space will be available in any course or section. However, no student in a graduating year may be excluded from a course necessary to meet degree program requirements because of lack of space (this rule does not apply to elective courses or preferred sections of courses). Any student in a graduating year who is confronted with such a situation should consult the dean, director, department head or faculty advisor.

CANCELLATION OF CLASSES

The University accepts no responsibility for the cancellation or discontinuance of any class or course of instruction which may be made necessary or desirable as a result of an act of God, fire, riot, lock-out, stoppage of work or slow-down, labour disturbances, lack of funds, the operation of law, or other causes of the kind.

PROGRAM REQUIREMENTS

Degree or program requirements are established and modified with the knowledge and approval of Senate and are recorded in the faculty and school entries. Unless a student takes an extraordinary number of years to complete prescribed studies, the student is usually given the option of meeting requirements in effect when first enrolled or of meeting revised requirements subsequently approved by Senate.

Interpretation of the requirements will be provided in normal cases by the dean of the faculty concerned and where differences occur by the Registrar.

Some faculties indicate degree standing on graduation based on the average for the degree as follows: Class I, 80% or over; Class II, 65% to 79%; Pass, 50% to 64%.

Degree standings in faculties that grant initial degrees are designated as Class I, Class II and Pass when the degree is granted based on the average percentage grade of all upper-level (300 or higher) courses used to satisfy the degree requirements (excluding courses graded as Pass/Fail). When a student has passed courses that are surplus to degree requirements the courses with the highest grades among those that satisfy these requirements will be used in calculating the degree standing. The average percentage grade calculated to determine degree standing will appear on the transcript as the degree average.

REQUIREMENTS TO RECEIVE A DEGREE OR DIPLOMA

The requirements for degrees and diplomas are described in the faculty and school entries. Except where the requirements of a particular degree or diploma program specifically state otherwise, a student must:

- 1) satisfy all the program requirements by completing studies either at UBC or elsewhere;
- 2) satisfy at least 50% of the credits required for the program while registered in the program¹; and
- 3) in undergraduate programs, complete upper-division UBC credits to satisfy at least 50% of the credits required by point (2) above.

To complete a second or subsequent undergraduate degree or diploma program, a student must, in addition to the three requirements above, also complete at least as many upper-division (i.e., 300- or 400-level) credits as are normally required for that program while registered in it. A student may enrol in a degree program more than once provided that the program does not overlap significantly with studies for a prior degree.

¹ Courses taken while studying at another institution on a Senate-approved exchange program satisfy this requirement.

ACADEMIC ASSESSMENT

Formal examinations are held in most courses in December and April. These are scheduled during official examination periods at term end. Other tests are held at the discretion of the instructors and faculties concerned. All prescribed examinations are mandatory. Students who miss an examination or are unable to complete other tests or graded work, because of medical, emotional or other personal reasons should follow the procedures for requesting Academic Concession (see *Academic Concession*, p. 50, in this chapter).

REVIEW FOR AUTHENTICITY

All work submitted by students (including, without limitation, essays, dissertations, theses, examinations, tests, reports, presentations, problem sets, and tutorial assignments) may be reviewed by the University for authenticity and originality. Without limiting the generality of the foregoing, such review may include the use

of software tools and third party services including Internet-based services such as TurnItIn.com. By submitting work, students consent to their work undergoing such review and being retained in a database for comparison with other work submitted by students. The results of such review may be used in any University investigation or disciplinary proceedings. (See *Student Discipline*, p. 52, in this chapter).

SENATE POLICY ON EXAMINATIONS

The following regulations were approved by the Senate in October 1976 and amended in December 1990 and apply generally across campus except to the Faculty of Graduate Studies and to post-graduate professional faculties.

- 1) Faculties are urged to make full use of the formal examination periods, both in December and in April, and that, unless the relevant dean and head, for sound academic reason, grant exemption, all courses designed for first- and second-year students be examined in December as well as April.
- 2) The holding of any examination, formal or informal, during the two weeks preceding the formally scheduled examinations of December and April is forbidden. (This recommendation does not apply to regular weekly or bi-weekly tests or to traditional and current practices in laboratories.)
- 3) Scrupulous adherence by invigilators (members of faculty and other invigilators) to the regulations governing the invigilation of examinations is mandatory.
- 4) Smoking shall not be permitted during the examinations nor during lectures. (This applies equally to members of faculty and to students.)
- 5) Faculties are urged to curtail the use of the "take-home" examination, both in the extent of its administration and in the weight assigned to it in the calculation of marks.

RULES GOVERNING FORMAL EXAMINATIONS

The following are the rules governing formal examinations:

- 1) Each candidate must be prepared to produce, upon request, a Library/AMS card for identification;
- 2) Candidates are not permitted to ask questions of the invigilators, except in cases of supposed errors or ambiguities in examination questions;
- 3) No candidate shall be permitted to enter the examination room after the expiration of one-half hour from the scheduled starting time, or to leave during the first half hour of the examination;
- 4) Candidates suspected of any of the following, or similar, dishonest practices shall be immediately dismissed from the examination and shall be liable to disciplinary action;

- Having at the place of writing any books, papers or memoranda, calculators, computers, sound or image players/recorders/transmitters (including telephones), or other memory aid devices, other than those authorized by the examiners;
 - Speaking or communicating with other candidates;
 - Purposely exposing written papers to the view of other candidates or imaging devices. The plea of accident or forgetfulness shall not be received;
- 5) Candidates must not destroy or mutilate any examination material; must hand in all examination papers; and must not take any examination material from the examination room without permission of the invigilator; and
 - 6) Candidates must follow any additional examination rules or directions communicated by the instructor or invigilator.

EXAMINATION HARDSHIPS

An examination hardship is defined as three or more examinations scheduled within a 24-hour period. A student facing an examination hardship shall be given an examination date for the second examination causing hardship by the respective instructor or department. The student must notify the instructor of the second examination no later than one month prior to the examination date.

EXAMINATION RESULTS

Instructors may, subject to the policy in their department, school or faculty, post student grades, using lists showing student numbers in numeric order. Student names must not be shown. If instructors intend to post grades it is their responsibility to ensure that all students are advised of this before any grades are posted. Students may request that their grades not be posted. Departments, schools or faculties may ask professors not to post grades until they have been reviewed. All grades must be clearly labeled 'Unofficial'.

Official grades are available at the Student Service Centre (www.students.ubc.ca/ssc). Any student who must meet an application date for another institution before their official grades are received should contact the transcript clerk in *Enrolment Services*, p. 60, to make arrangements to meet the deadline.

VIEWING MARKED EXAMINATIONS

A final examination becomes the property of the University and must remain in the possession of the University until destroyed or otherwise disposed of. A student may make written application (by January 31 for the Winter Session Term 1, by June 30 for Winter Session, Term 2, and by September 15 for the Summer Session) to the department head, director or dean, who will make every effort to arrange for the student to view her or his marked final examination paper(s) with the course instructor or designate. The purpose of

this exercise is purely pedagogic and distinct from the *Review of Assigned Standing*, p. 50.

DEFERRED AND SUPPLEMENTAL EXAMINATIONS

A deferred examination is an examination written at a later date, while a supplemental examination is an examination in addition to the usual examination(s) given for a course.

If a deferred examination is not written by the end of the next regular deferred examination period for that session, the deferred standing will be removed.

It is the student's responsibility to seek an extension by contacting his/her faculty. If a student, because of exceptional circumstances, is permitted by their faculty to postpone a deferred beyond the first regular deferred examination period, the student will be responsible for the content of the course as currently offered. If the course is discontinued, the deferred privilege may be cancelled.

Students granted Deferred standing by the dean of the faculty in which the student is enrolled may be given the opportunity to complete outstanding course work by writing the next regularly scheduled examination in the course or make-up examination if the department offering the course agrees. Students should see the sections of the Calendar in which the regulations for the faculty offering the course are detailed (e.g. all students with deferred standing in a Science course should consult the Faculty of Science sections of the Calendar).

For Winter Session courses, Deferred and Supplemental examinations for students who have not completed outstanding course work will be held in late July or early August or on another date to be determined by the department. Applications may be made to *Enrolment Services*, p. 60 up to the date specified in the University's Academic Year (www.students.ubc.ca/calendar/academicyear.cfm) and must be accompanied by the required fee. Examinations may be written at the University or arrangements may be made to write off campus with the approval of Enrolment Services.

For Summer Session courses, Supplemental and Deferred examinations that cannot be written as regularly scheduled December examinations will be held at the University on one date in mid-November or on another date to be determined by the department. Applications must be made to Enrolment Services by the date specified in the University's Academic Year (www.students.ubc.ca/calendar/academicyear.cfm) and must be accompanied by the required fee.

In special cases a student may be permitted to write examinations at a university outside British Columbia or at a special centre other than a university if satisfactory arrangements can be made within Canada. Since permission is contingent on completion of arrangements, only early applications to write in special centres will be considered.

In the event that a candidate is unable to write an examination, a refund of the required fee will be considered if the candidate submits an adequate explanation to the Examination Coordinator in Enrolment Services at least two weeks prior to the scheduled examination period.

SUPPLEMENTAL EXAMINATION POLICY

Supplemental examination regulations vary among faculties and are described in the appropriate section in the faculty and school entries. Students are governed by the regulations of the faculty or school in which they are registered.

Supplemental examinations are not available in all faculties or in all courses. In courses in which proficiency is judged on a continuing basis throughout a term, or in which final examinations are not given, or in Pharmaceutical Sciences courses where the final examination contributes less than 40% of the course grade, no supplemental examinations are provided.

Supplemental examinations are not granted to students registered in a graduate program. However, a course in which a grade of less than 65% was obtained may be repeated for a higher standing if recommended by the department and approved by the Dean of Graduate Studies. In a course that is repeated, both marks will appear on the transcript. The higher mark will be used to determine promotion in a program and in any decision to admit a student or withdraw a student from a program. Averages calculated for other purposes will include both marks.

Where a supplemental examination is provided, a student may write it in an attempt to obtain higher standing in the course concerned. The result of the supplemental examination will be shown on the student's record as an additional entry. In some situations a higher mark may enhance a student's chance of meeting some specific program requirement.

In the Summer Session, a student who satisfactorily completes a 6-credit course will be granted a supplemental examination in a second subject if the final mark is not less than 40% in the second subject.

In all but the final year, a candidate who has been granted a supplemental may write it once only. If the candidate fails, the course must be repeated or a permissible substitute taken. Normally, in the final year, a second supplemental examination may be written.

If a supplemental examination is not written by the end of the next regular supplemental examination period for that session, the supplemental standing will be removed.

It is the student's responsibility to seek an extension by contacting his/her faculty. If a student, because of exceptional circumstances, is permitted by their faculty to postpone a supplemental beyond the first regular supplemental examination period, the student will be responsible for the content of the course as currently offered. If the course is discontinued, the supplemental privilege may be cancelled.

GRADING PRACTICES

In most faculties, individual courses are normally graded as follows:

Percentage (%)	Letter Grade
90–100	A+
85–89	A
80–84	A-
76–79	B+
72–75	B
68–71	B-
64–67	C+
60–63	C
55–59	C-
50–54	D
0–49	F (fail)

Instructors are responsible for providing written guidelines to all students at the start of each course, outlining how the final grade for the course will be arrived at, and including any related policies such as arrangements that may be made for students who are unable to complete a test or other graded work because of short term illness or for other reasons. Guidelines made available on the Web meet this requirement (students who are unable to access the Web should ask their instructor to provide these guidelines in an alternate format).

The Faculties of Dentistry and Graduate Studies and the Schools of Library and Archival Studies, Nursing, and Rehabilitation Sciences, define Fail ('F') as below 60%.

If a student in a baccalaureate program who receives a 'T' standing in a graduating essay or other course approved by the faculty completes the course within 12 months of the end of the term in which the student first registered for the course the 'T' standing will be replaced by the grade assigned. If the course is not completed within 12 months the 'T' standing will be replaced by a grade of zero (or 'F' standing in a Pass/Fail course).

In the Faculty of Medicine, individual courses in the Doctor of Medicine undergraduate program are graded on an Honours (H), Pass (P), Fail (F) system. The Faculty defines Fail as below 60% and a Pass as 60% or greater, but below Honours. An Honours grade is assigned by individual course directors and approved by the promotions committee.

Faculties, departments and schools reserve the right to scale grades in order to maintain equity among sections and conformity to university, faculty, department or school norms. Students should therefore note that an unofficial grade given by an instructor might be changed by the faculty, department or school. Grades are not official until they appear on a student's academic record.

A few programs of study make provision for an 'Honours Standing'. This is explained in the appropriate faculty and school entries. However, in most faculties where 'Honours' is used it is applied to a study program where expectations in terms of achievement and level of study are higher than in other programs.

STANDINGS

Aegrotat (AEG) allows a student credit for a course even though the course requirements have not been completed due to medical, emotional, or other difficulties. This standing is awarded only if the course instructor and the dean agree that the student has demonstrated the capacity to deal with the course material satisfactorily. When AEG standing is awarded, a letter grade is assigned. This will be converted to the minimum percentage for that category for the calculation of averages.

Audit (AUD) is granted to students who have been officially approved as having audit status. These students are expected to complete all course requirements except the final exam, and may be given Fail (F) standing if their performance is not satisfactory. See *Classification of Students*, p. 13, in the “Admissions” chapter in this Calendar.

Exempt (EX) is granted to students who have registered for a required course from which she or he is exempt.

Adjudicated Pass (J) is granted where credit is granted and the course need not be repeated although it may not normally qualify as a prerequisite for further work. (The grade assigned by the instructor is used in the calculation of averages.)

Pass (P) or **Fail (F)** is granted where no grade is assigned, excluded from calculation in all averages. Pass (P) denotes satisfactory completion of the requirements of the subject; credit granted where applicable. Fail (F) denotes fail standing.

Honours (H) or **Pass (P)** or **Fail (F)** is granted where no grade is assigned, excluded from calculation in all averages; Honours (H) exceeds course requirements, credit granted where applicable; Pass (P) requirements of subject completed satisfactorily, credit granted where applicable; Fail (F) denotes fail standing.

Prior Learning Assessment (PLA) credit is assigned based on prior learning in a subject area.

Supplemental (S) denotes failure, no credit. Supplemental privilege granted. See *Supplemental Examination Policy*, p. 47, under “Academic Assessment” in this chapter.

Deferred Standing (SD) may be granted by the Dean of the Faculty in which the student is enrolled when a student has a valid reason for not completing course requirements as scheduled and does not qualify for Aegrotat standing (see *Academic Concession*, p. 50). Students granted Deferred standing in Winter Session courses must complete all outstanding course requirements by August 23 following. Students granted Deferred standing in Summer Session courses must complete all outstanding work by December 25 following. Students granted Deferred standing are responsible for making satisfactory arrangements with their instructors for completion of outstanding course requirements. If a student fails to complete deferred requirements by the dates specified, the Deferred standing will be replaced with a grade

or standing that reflects requirements completed in the course. Students unable to meet the specified deadlines because of further medical, emotional or other difficulties must make an additional application for Academic Concession no later than August 31 for Winter Session courses or December 31 for Summer Session courses following the original deferral. See *Deferred and Supplemental Examinations*, p. 47, under “Academic Assessment” in this chapter.

Thesis in Progress (T) denotes graduating essay not submitted; course continuing. If a student in a bachelor's program who receives a ‘T’ standing in a graduating essay or other course approved by the faculty completes the course within 12 months of the end of the term in which the student first registered for the course, the ‘T’ standing will be replaced by the grade assigned. If the course is not completed within 12 months, the ‘T’ standing will be replaced by a grade of zero (or ‘F’ standing in a Pass/Fail course).

Withdrawal (W) denotes official withdrawal. See *Withdrawal*, p. 50, in this chapter.

ACADEMIC STANDING

There are three levels of academic standing:

- In Good Standing
- On Academic Probation
- Failed

All students on initial entry to the University are **In Good Standing**. The academic standing of a student may change to **On Academic Probation** or **Failed** as the result of academic performance evaluations, as described below.

A student **On Academic Probation** may have restrictions placed on his or her registration as described in each Faculty's section on “Academic Standing”. A student who had been required to discontinue his or her studies, and later successfully appealed for readmission, will be placed **On Academic Probation**.

A student who receives an academic standing of **Failed** will be required to discontinue his or her studies for 12 months. Normally, the student will be required to discontinue his or her studies starting immediately. However, a student registered in and attending one or more courses will be permitted to complete those courses if the determination of an academic standing of **Failed** is only made after the last date for withdrawal without a ‘W’ being recorded on the transcript.

A student appealing to be permitted to continue his or her studies immediately despite having received an academic standing of **Failed** may not register for, or, attend courses while awaiting the results of the appeal, except as noted above. Therefore, a student **On Academic Probation** should maintain contact with his or her faculty advisor in case any circumstances arise that might adversely affect academic performance.

ACADEMIC PERFORMANCE EVALUATIONS

The following description of the academic performance evaluation process applies to students in all faculties not having separate regulations. An academic performance evaluation also does not address the issue of academic progress toward a particular degree or promotion from one-year level to the next.

Academic performance evaluations are performed for each student up to three times per year: at the end of each term of the Winter Session and at the end of the Summer Session. No evaluation is performed if a student has taken no credit courses since the last evaluation, or if the number of credits taken is less than some minimum number specified by the faculty in which the student is registered. Otherwise, the total number of credits attempted since the last academic performance evaluation, the fraction of those credits that were passed, and the credit-weighted average are computed. Those three quantities, plus the current academic standing of the student, are used to determine the new academic standing of the student according to a table. (Refer to each faculty or school's sections on “Academic Standing” for the appropriate table, or contact the faculty in question.)

Courses are only included in an academic performance evaluation once a final grade has been assigned. For example, courses for which a deferred examination has been granted will be considered within the academic performance evaluation for the period in which the deferred examination is written.

ADVANCEMENT REGULATIONS

Advancement practices vary among faculties and are described in the faculty and school entries. General regulations applicable to all faculties include the following:

- 1) Except in special cases, or where the faculty provides otherwise, no student may repeat a course more than once.
- 2) Each faculty has regulations on advancement. Students who do not meet the required standard in any session will be assigned Failed standing and will be required to discontinue or withdraw.
- 3) A student in a year of study which may normally be taken in the first or second year following secondary school graduation who is assigned Failed standing will be required to either discontinue for at least one year or to withdraw.
- 4) Students who are assigned Failed standing in one faculty may transfer to another faculty if they meet the advancement and admission requirements of the second faculty.
- 5) Students who have been required to discontinue or withdraw may be readmitted subject to the regulations of the faculty which they wish to enter.

- 6) A student at any level of university study who fails for a second time, will be required to withdraw from the University. After a period of at least one year, an appeal for permission to re-enrol will be considered. Such an appeal will be granted only after the appeal has been reviewed and approved by the dean of the faculty concerned. A negative decision by the dean may be appealed to the Senate Admissions Committee.

GRADUATION

Every candidate for a degree must make formal application for graduation. Students make a formal application for graduation via the Student Service Centre (SSC) (www.students.ubc.ca/ssc).

The application deadline for May Congregation is March 1. The earliest date to make an application for May Congregation is December 15 of the previous year. The application deadline for November Congregation is August 31. The earliest date to make an application for November Congregation is June 15.

An application must be submitted if you plan to graduate regardless of whether or not you intend to participate in the scheduled ceremonies. If your request to graduate is not approved by your Faculty, a reapplication for the next congregation will be required.

Applications for May are not acknowledged until the end of March when Graduation Ceremony information is mailed. Acknowledgment for November applications will be emailed at the end of September. The receipt of graduation information does not confirm the satisfactory completion of your degree program. The Faculty completes this approval process. Students can access the SSC one week prior to the ceremonies to confirm graduation.

Students are reminded that because of the extended Winter Session in the Faculty of Medicine, academic results for the first year are not available from this faculty in time for spring graduation. Thus, all applications for degrees by students completing their Science degrees while registered in the first year of Medicine, will be treated by the Faculty of Science as applications for fall graduation.

Students completing degree requirements at another institution are also reminded that, because of the delay in obtaining official transcripts, all applications for degrees for such students will be treated by Enrolment Services as applications for fall graduation.

No student will receive a graduation diploma until all academic fees have been fully paid. See *Financial Hold*, p. 26, in the “Fees, Financial Assistance, and Scholarships” chapter in this Calendar.

Please check the following websites for the latest information on graduation:
www.students.ubc.ca/current/graduation.cfm
 and www.graduation.ubc.ca.

CHANGE OF REGISTRATION

Except in special circumstances, a one-term course may be added to a student’s program only within the first two weeks of the course, and a two-term course within the first three weeks. If a course is dropped during these periods, no record of the registration in the course will appear on the student’s academic record.

Students may withdraw from courses in which they are registered at any time up to the end of the sixth week of class for courses which are offered in a single term, and of the twelfth week for courses which span two terms. Withdrawals will be noted on the academic record by a standing of ‘W’. Such standings will not be included in computing averages. The withdrawal deadline dates for the current academic year are indicated in the accompanying tables in this part.

Fee refunds for withdrawals will be calculated on a pro-rata basis. See *Refund of Fees*, p. 26, in the “Fees, Financial Assistance, and Scholarships” chapter in this Calendar.

The dates for withdrawal given above also apply to students auditing courses.

Students may withdraw from courses outside the limits described above only with the permission of the dean of the faculty in which they are registered. In such cases, the instructor should be informed. Such withdrawals will be recorded as ‘W’ on the student’s academic record.

Faculties may, at their discretion, limit the number of ‘W’ standings permitted to a student. Any withdrawals in excess of that limit that would normally produce a standing of ‘W’ will result in assignment of ‘F’ for the course or courses involved. Normally, a student may not withdraw from a course more than once.

A student must be registered in all courses being taken for credit. A student who ceases to attend a course, does not write the final examination, or otherwise fails to complete course requirements, and who neither qualifies for a deferred examination (see *Deferred Standing*, p. 48, in the this chapter under “Grading Practices, Standings”), nor has obtained official permission to drop the course, will be given a standing of ‘F’ with a grade which reflects performance in the course. No supplemental examination can be granted under these circumstances.

The student is responsible for the completeness and accuracy of registration as it relates to the regulations of the degree or diploma program in which the student is enrolled.

COURSE DROP/WITHDRAWAL DATES FOR DISTANCE EDUCATION COURSES

For purposes of withdrawal, all courses delivered by DE&T are considered Term 1 courses (regardless of their credit value).

If you need to withdraw and it is past the deadline listed on the Student Service Centre (SSC) (www.students.ubc.ca/ssc), contact DE&T’s

2006 WINTER SESSION—COURSE DROP/WITHDRAWAL DATES

	Last day to drop without a ‘W’ standing through the Student Service Centre (Web)	Student Service Centre (Web) available for course withdrawals with a ‘W’ standing	Student Service Centre (Web) unavailable; Faculty approval required
Full-year course (2 terms)	September 22, 2006	September 23, 2006–November 24, 2006	After November 24, 2006
Term 1 Course	September 19, 2006	September 20, 2006–October 13, 2006	After October 13, 2006
Term 2 Course	January 22, 2007	January 23, 2007–February 16, 2007	After February 16, 2007

2006 WINTER SESSION—COURSE DROP/WITHDRAWAL DATES FOR COMMERCE MASTER’S-LEVEL MODULES BAXX

BAXX Modules in Commerce	Last day to drop without a ‘W’ standing through the Student Service Centre (Web)	Student Service Centre (Web) available for course withdrawals with a ‘W’ standing	Student Service Centre (Web) unavailable; Faculty approval required
Term 1A Module (Period 5)	September 11, 2006	September 12, 2006–September 18, 2006	After September 18, 2006
Term 1B Module (Period 6)	October 30, 2006	October 31, 2006–November 6, 2006	After November 6, 2006
Term 2A Module (Period 1) ¹	January 15, 2007	January 16, 2007–January 22, 2007	After January 22, 2007
Term 2B Module (Period 2)	March 5, 2007	March 6, 2007–March 12, 2007	After March 12, 2007
Term 2C Module (Period 3)	April 30, 2007	May 1, 2007–May 7, 2007	After May 7, 2007

¹ Please note that Period 1 BAXX classes start the week of January 8, 2007.

Learner Support Advisors
(amanda.marques@ubc.ca).

If you are concerned about your progress in your course, a DE&T Learner Support Advisor (det.queries@ubc.ca) (in partnership with your instructor) can offer some guidance as to your options. Visit the Distance Education and Technology (det.ubc.ca) website for general information and resources.

WITHDRAWAL

Undergraduate students may withdraw from the University by using the Student Service Centre (www.students.ubc.ca/ssc) to withdraw from all courses when it is available. In all other cases a student who wishes to withdraw from the University must obtain the approval of the dean, director or faculty advisor on a *Change of Registration* form. When the withdrawal is approved the academic record will show the date of withdrawal and a standing of 'W' in all courses that are not completed on that date. When the withdrawal is not approved the student will remain registered in all courses and a final grade and/or standing will be assigned at the end of the term or session. Unclassified students who wish to withdraw should apply to *Enrolment Services*, p. 60. A student who does not complete formal withdrawal procedures will be liable for all assessed fees until such procedures are completed.

WITHDRAWAL FOR UNSATISFACTORY CONDUCT

The Senate of the University may require a student to withdraw from the University at any time for unsatisfactory conduct, for failure to abide by regulations, for unsatisfactory progress in a program of studies or training, or for any other reason which is deemed to show that withdrawal is in the interests of the student and/or the University.

Cases brought forward under this policy will be referred to an *ad hoc* committee of Senate, to be named by the Senate (currently the Senate Nominating Committee), for disposition, with the understanding that the student would have the right of appeal to the Senate Committee on Appeals on Academic Standing. Both the reasons for bringing the case and the response of the student should be heard before a final decision is reached. The *ad hoc* committee must ensure that the case is conducted fairly. A tie vote on the decision upholds the decision being appealed and the case is dismissed.

LETTER OF PERMISSION TO STUDY AT ANOTHER INSTITUTION

After the start of the first session to which a student has been admitted, any student who is eligible to continue studies and who intends to complete a UBC degree, may obtain transfer credit from another institution—only if prior permission has been obtained from the faculty in which the student is enrolled.

ACADEMIC CONCESSION

Students may request academic concession in circumstances that may adversely affect their attendance or performance in a course or program. Such circumstances include:

- a medical condition
- emotional or other problems
- religious observance

Students who intend, or, as the result of circumstance, must request academic concessions should notify their dean or director, or their instructor(s) as specified in the procedures below.

Religious observance may preclude attending classes or examinations at certain times. In accordance with the UBC Policy on Religious Holidays (www.universitycounsel.ubc.ca/policies/policy65.pdf), students who wish to be accommodated for religious reasons must notify their instructors in writing at least two weeks in advance, and preferably earlier.

Students absent from final examinations held in the official examination periods must request academic concession from the office of their dean or director. Students who are absent at the other times, or are unable to complete tests or other graded work because of short term illness, religious obligation, or for other reasons, should normally discuss with their instructors how they can make up for missed work, according to written guidelines given them at the start of the course (see *Grading Practices*, p. 47, in this chapter). Instructors are not required to make allowance for any missed test or incomplete work that is not satisfactorily accounted for. Students also have the right to request academic concession from their dean or director's office.

Students who wish to request academic concession from the office of the dean or director must apply to the office as close as possible to the time their attendance is adversely affected. In case of religious observance, the office of the dean or director must receive notification a minimum of two weeks in advance. The University, in considering these requests or any appeals of decisions on academic concession, will not normally take into account untimely notifications. When a student requests academic concession, he or she will be asked to provide such evidence as is deemed appropriate. If there is a medical problem, the student should submit a "Statement of Illness" form obtained from the *Student Health Service*, p. 65 or the attending physician. The student may be asked to provide additional information.

The academic concessions that may be granted include the following: permission to drop or withdraw from a course after the normal deadlines (see *Change of Registration*, p. 49), Aegrotat standing or Deferred standing (see *Grading Practices*, p. 47) and withdrawal from the University (see *Withdrawal*, p. 50).

If permission is given to drop or withdraw from a course, any refund of fees will be in accordance with normal policy (see *Refund of Fees*, p. 26, in the "Fees, Financial Assistance, and Scholarships" chapter in this Calendar).

Students in good academic standing who are permitted to withdraw from the University may apply to re-enrol in the program from which they withdrew. Application to re-enrol must be made by the published application deadline for the program. A student permitted to withdraw may be told the time period during which an application to re-enrol will be permitted. A medical certificate of a nature sufficient to satisfy the University that the student is ready to continue studies may be required before the student will be re-enrolled.

REVIEW OF ASSIGNED STANDING

Reviews of assigned standing are governed by the following regulations:

- 1) Any request for the review of an assigned grade other than for a supplemental examination (in which a request for a review will not be granted), must reach Enrolment Services no later than July 15 for the Winter Session, and not later than October 15 for the Summer Session, and must be accompanied by the necessary fee for each course concerned which will be refunded only if the mark is raised.
- 2) Each applicant for a review must state clearly why he or she believes the course deserves a grade higher than it received; pleas on compassionate grounds should not form part of this statement. Prospective applicants should remember that under Senate regulations instructors must re-examine all failing grades and indicate in their records that this has been done.
- 3) An applicant who has been granted a supplemental should prepare for the examination since a change in the original mark is unlikely and the result of the review may not be available before the end of the supplemental examination period.
- 4) Reviews will not be permitted in more than two courses in the work of one academic year, and in one course in a partial program of 18 credits or fewer or in the work of Term 1 or 2 of a Summer Session.

Students can download the application form (www.students.ubc.ca/current/grades.cfm) or pick up a copy from Enrolment Services.

TRANSCRIPT OF ACADEMIC RECORD

Official transcripts are confidential and are only released on written request from the student. All transcripts issued to the student are officially sealed in individual envelopes and may be either mailed to the student or picked up. Transcripts issued to an institution, company, or agency are mailed directly to their address in confidential envelopes marked transcript of record. Third-party requests must be accompanied by a signed authorization from the student.

Each transcript will include the student's complete record at the University. Since credit earned is determined on the results of final

examinations, a transcript will not include results of midterm examinations.

No transcript will be issued to or for a student who has not made arrangements satisfactory to the Department of Financial Services to meet any outstanding indebtedness.

Requests for transcripts should be made in advance to allow time for processing. Payment must be included with requests. Transcripts will not be provided until payment is received.

Students may order transcripts through the Student Service Centre (www.students.ubc.ca/ssc). For more information about other ways to order, students should visit www.students.ubc.ca/current, or email (transcripts.students@ubc.ca) the transcripts department.

RETENTION OF STUDENT RECORDS

Academic Records, including all information appearing on a Transcript of Academic Record, are retained indefinitely. Notations of student discipline are retained according to the terms of the penalty imposed. Materials supporting applications for admission, correspondence and transcripts from other institutions and similar material may be destroyed five years after a student's last registration, except for doctoral students where material may be destroyed after two years from the date of graduation. Other material may be destroyed sooner.

Students who submit irreplaceable material may request the return of that material. Such requests must be submitted with the original material. The office to which the material is submitted will return the material as soon as possible and not later than six months after the student's graduation or last registration.

SENATE APPEALS ON ACADEMIC STANDING

DEFINITION

Under this heading, "Senate Appeals on Academic Standing":

"Committee" means the University Senate's Committee on Appeals on Academic Standing.

APPEAL PROCEDURE

Students who wish to protest decisions relating to their academic studies may do so. The protest should be made initially as near the source of difficulty as possible, presumably an instructor, and progress to the Head of the Department concerned and then to the Dean of the Faculty. There is a standing committee of the University Senate, the Committee on Appeals on Academic Standing, that reviews all appeals made to the Senate, the senior academic authority in the University. Following are the policies and procedures of this Committee.

1 COMPOSITION OF THE COMMITTEE

The Committee consists of eleven members, six of whom are members of Senate who are faculty members, three of whom are members of Senate who are students, and two of whom are members of Senate who are neither faculty members nor students. The Chancellor, the President and the Registrar are members of the Committee ex-officio; the Chancellor and the President, but not the Registrar, shall be entitled to vote.

2 TERMS OF REFERENCE

2.1 The Committee shall hear and dispose of appeals by students from decisions of Faculties on matters of Academic standing, but the Committee has no jurisdiction where the sole question raised in an appeal turns on the exercise of academic judgment by a Faculty.

2.2 Subject to section 2.3 below, the decision of the Committee on an appeal is a final disposition of that appeal. Senate has conferred on the Committee the power of making final decisions pursuant to section 37(1)(b) of the *University Act*.

2.3 If an issue on an appeal raises, in the opinion of the Committee, an unsettled question of policy or procedure of general importance to the University, the Committee may refer that question to the Senate for a ruling.

2.4 The Committee shall allow an appeal where it decides that the decision has been arrived at through improper or unfair procedures, and that as a result a wrong decision on the merits has or may have been arrived at. Without limiting the generality of the phrase 'improper or unfair procedures' shall be construed to include the consideration of information that ought not to have been considered, and the failure to consider information that ought properly to have been considered.

2.5 An appeal allowed by the Committee shall be by:

- 1) reversal of the decision of the Faculty, and the granting of such academic standing to the appellant as the Committee thinks fit in the circumstances; or
- 2) quashing of the decision of the Faculty, and the sending of the matter back to the Faculty to be dealt with in accordance with proper procedures.

2.6 In all cases, other than those falling within paragraph 2.4, the Committee shall dismiss the appeal. A dismissed appeal or a tie vote on the decision upholds the decision being appealed and the case is dismissed.

2.7 In order to ensure that an appeal is fairly conducted, the Committee may in any particular case waive any of the procedural rules provided for in these regulations, or may make such further ancillary rulings on procedure as it sees fit. The rules need not conform to an adversarial model and inquiry model rules may be applied.

2.8 Members of the Committee will not discuss the substance of an appeal with any of the parties other than at a hearing.

2.9 The Committee shall make annual reports to Senate. The report shall state the number of appeals heard, their disposition, and the general nature of the appeals, and shall draw Senate's attention to any other matters of general significance in the university which have arisen out of the Committee's work.

3 PROCEDURES PRIOR TO THE HEARING

3.1 A student who wishes to appeal a decision of a Faculty shall lodge a written notice of appeal with the Registrar within 10 days of being informed in writing of the Faculty's final decision.

3.2 Within five (5) days of receiving a notice of appeal, the Registrar shall send to the appellant a copy of these regulations, and in addition shall inform the appellant that he or she is entitled to appear before the Committee in person and may also be represented by counsel.

3.3 Within 15 days of receiving the regulations, the appellant shall file with the Registrar a statement of appeal. This should contain each of the following:

- 1) A statement of the decision from which the appeal is being taken;
- 2) A statement of the relief which the appellant seeks;
- 3) A brief chronological statement of the circumstances relating to the appeal;
- 4) Copies of any documents which the appellant intends to rely on at the hearing; and
- 5) The names of any witnesses the appellant proposes to call at the hearing. It is the appellant's responsibility to ensure that such witnesses are present at the hearing.

3.4 Within five (5) days of its receipt the Registrar shall send the appellant's statement of appeal to the Dean of the faculty from which the appeal is being taken.

3.5 Within 15 days of the receipt from the Registrar of the appellant's statement of appeal, the Dean shall file a response with the Registrar. This should contain each of the following:

- 1) A confirmation of the nature of the decision from which the student is appealing or, if the decision is not properly stated in the appellant's statement of appeal, a statement as to the nature of the decision;
- 2) A statement whether, assuming the appeal were to be allowed, the relief sought by the student ought properly to be granted;
- 3) The Faculty's response to the grounds of appeal;
- 4) The Faculty's comments on the chronological statements of events;
- 5) Copies of any documents which the faculty intends to rely on at the hearings; and
- 6) The names of any witnesses the Faculty proposes to call at the hearing.

3.6 Within 10 days of the receipt of the Faculty's response, the Registrar shall set a date for a hearing. The hearing should usually take place within two months of the receipt of the Faculty's response.

3.7 Prior to the hearing, the Registrar shall circulate copies of material submitted by the appellant and the Faculty to the members of the Committee, the appellant, and the Faculty.

3.8 The time limits referred to in paragraphs 3.1–3.6 are intended as outside limits, and all parties are encouraged to make every effort to proceed more quickly if possible.

3.9 The Registrar may, of his own volition or at the request of the appellant or the Faculty, extend the time limits provided for in these regulations. If the Registrar refuses to extend the time limits following the request, then the refusal may be appealed to the Committee as a whole, and the Committee may, acting pursuant to its authority under section 2.5, extend the time limits as it sees fit.

3.10 The Senate Committee may, at its discretion, dismiss an appeal for lack of timely prosecution.

4 PROCEDURES AT THE HEARING

4.1 A quorum for any hearing before the Committee shall consist of at least five (5) voting members, or any lesser number if that is agreed to by the appellant and the Faculty.

4.2 A member of the Committee shall not take part in an appeal where to do so would involve the member of the Committee in a conflict of interest (e.g., conflict of duty).

4.3 At the hearing, subject to the rulings of the Committee, the following order should be followed:

- 1) The appellant may make an opening statement;
- 2) The appellant may call and examine such witnesses as the appellant sees fit;
- 3) The Faculty may cross-examine any of the witnesses called by the appellant, including, where appropriate, the appellant;
- 4) The Faculty may make such opening statement as it sees fit;
- 5) The Faculty may call and examine such witnesses as it sees fit;
- 6) The student may cross-examine any of the Faculty's witnesses;
- 7) The appellant may make a closing statement;
- 8) The Faculty may make a closing statement; and
- 9) The appellant may respond to any matters arising out of the Faculty's statement to which the appellant has not yet spoken.

4.4 The Committee may request that it be provided with further information other than that supplied initially by the appellant or the Faculty. Without limiting this general power if, after a hearing, the Committee is of the opinion that it requires further information in order to reach a decision it may either ask that that information be supplied at a further hearing or,

without a hearing, it may ask that the information be supplied to it in writing. In the latter case both the appellant and the Faculty must be given the opportunity of commenting on the information so supplied, before the Committee reaches a final decision.

5 THE DECISION

5.1 The Committee may arrive at a decision on the basis of a majority vote of those voting members of the Committee present at the hearing.

5.2 In the event of a tie vote an appeal shall be dismissed.

5.3 The decision of the Committee shall be communicated in writing to the appellant and to the Dean of the Faculty within ten days of the final hearing of the appeal.

5.4 The Committee shall give reasons for its decision; and in the case of a minority vote, the minority may if it wishes give reasons for its dissent.

STUDENT CONDUCT AND DISCIPLINE

DEFINITIONS

In this chapter, and throughout this Calendar, unless the context requires otherwise:

“**ARES**” means the director of Applied Research and Evaluation Services in its capacity as administrator of the Language Proficiency Index and includes a person designated by the director to represent ARES;

“**cheating**” and similar terms includes, but is not limited to: falsifying any material subject to academic evaluation, including research data; engaging in unauthorized collaborative work; having in an examination any materials (including devices) other than those permitted by the examiner; and using unauthorized means to complete an examination (e.g., receiving unauthorized assistance from a fellow student);

“**Committee of the Senate**” or reference to a committee of the Senate means the committee designated for the purpose by the University Senate;

“**Dean's Office**” means the dean of the faculty of the course in which the student is enrolled and includes a faculty member designated by the dean to represent the faculty;

“**Enrolment Services**” means the Registrar and includes a person designated by the Registrar to represent Enrolment Services;

“**Initiator**” means the party that refers an allegation of academic misconduct to the President's Committee. Normally, a Dean's Office refers allegations but on occasion, ARES or Enrolment Services may also refer allegations to the President's Committee;

“**Office of the University Counsel**” means the University Counsel and includes a person designated by the University Counsel to represent the Office of the University Counsel;

“**plagiarism**” see section 3.1., Academic Misconduct below;

“**President's Committee**” means the President's Advisory Committee on Student Discipline as the President may designate for the University, by campus or otherwise;

“**Senate Committee**” means the Senate Committee on Student Appeals on Academic Discipline;

“**Dean of the Faculty**” shall be deemed to refer, where necessary, to any other appropriate officer of the University; and

“**Senate**” or “**University Senate**” means the Vancouver Senate of The University of British Columbia or the council of senates of The University of British Columbia, as the case may be.

STATUTORY AUTHORITY

The President of the University has the authority under section 61 of the *University Act*, p. 41, to deal summarily with any matter of student discipline, allowing the President to take whatever disciplinary action he or she deems to be warranted by a student's academic misconduct. The specific provisions as to Academic Misconduct and Non-Academic Misconduct, as set out below, do not limit, and should not be construed as limiting in any way, the general authority conferred upon the President by the *University Act*.

DISCIPLINE FOR ACADEMIC MISCONDUCT

1. Student Declaration and Responsibility

Upon registering, a student has initiated a contract with the University and is bound by the following declaration:

“I hereby accept and submit myself to the statutes, rules and regulations, and ordinances (including bylaws, codes, and policies) of The University of British Columbia, and of the faculty or faculties in which I am registered, and to any amendments thereto which may be made while I am a student of the University, and I promise to observe the same.”

The student declaration is important. It imposes obligations on students and affects rights and privileges including property rights. You must not enroll as a student at the University if you do not agree to become bound by the declaration above. By agreeing to become a student you make the declaration above and agree to be bound by it.

Each student is required to furnish the information necessary for the University record, to keep Enrolment Services informed of changes in name and contact information.

Students are required to inform themselves of the statutes, rules and regulations, and ordinances (including bylaws, codes, and policies) and to any amendments thereto applicable at the University. For policies and procedures issued by the Board of Governors, see the University of British Columbia Policy and Proce-

Handbook or the Office of the University Counsel website (www.universitycounsel.ubc.ca/policies/index.html). For policies issued by the Vancouver Senate, see the Senate website (www.students.ubc.ca/senate/policies.cfm).

The University authorities do not assume responsibilities for others that naturally rest with adults themselves. This being so, the University relies on the good sense and on the home training of students for the preservation of good moral standards and for appropriate modes of behaviour and dress.

The University and University authorities are not obligated to enforce any statutes, rules, regulations, or ordinances (including bylaws, codes or policies) if discretionarily enforceable by law or made under its, or their, power or authority.

2. General

2.1 Academic honesty is essential to the continued functioning of the University of British Columbia as an institution of higher learning and research. All UBC students are expected to behave as honest and responsible members of an academic community. Failure to follow the appropriate policies, principles, rules and guidelines of the University with respect to academic honesty may result in disciplinary action.

2.2 It is the student's obligation to inform himself or herself of the applicable standards for academic honesty. Students must be aware that standards at the University of British Columbia may be different from those in secondary schools or at other institutions. If a student is in any doubt as to the standard of academic honesty in a particular course or assignment then the student must consult with the instructor as soon as possible and in no case should a student submit an assignment if the student is not clear on the relevant standard of academic honesty.

2.3 If an allegation is made against a student, the Registrar may place the student on academic hold until the President has made his or her final decision. When a student is placed on academic hold, the student is blocked from all activity in the Student Service Centre.

3. Academic Misconduct

Students are responsible for informing themselves of the guidelines of acceptable and non-acceptable conduct for graded assignments established by their instructors for specific courses and of the examples of academic misconduct set out below. Academic misconduct that is subject to disciplinary measures includes, but is not limited to, engaging in, attempting to engage in, or assisting others to engage in the following:

- **3.1** Plagiarism occurs where an individual submits or presents the oral or written work of another person as his or her own. Scholarship quite properly rests upon examining and referring to the thoughts and writings of others. However, when another person's words or ideas are used, the author must be acknowledged in the

text, in footnotes, in endnotes, or in another accepted form of academic citation. Where direct quotations are made, they must be clearly delineated (for example, within quotation marks or separately indented). Plagiarism encompasses situations in which there is no recognition given to the author for phrases, sentences, or ideas of the author incorporated in a work to situations in which an entire work is copied from an author, or composed by another person, and presented as original work. Plagiarism should not occur in submitted drafts or final works. A student who seeks assistance from a tutor or other scholastic aids must ensure that the work submitted is the student's own. Students are responsible for ensuring that any work submitted does not constitute plagiarism. Students who are in any doubt as to what constitutes plagiarism should consult their instructor before handing in any assignments;

- **3.2** Submitting the same, or substantially the same, essay, presentation, or assignment more than once (whether the earlier submission was at this or another institution) unless prior approval has been obtained from the instructor(s) to whom the assignment is to be submitted;
- **3.3** Impersonating a candidate at an examination or other evaluation, facilitating the impersonation of a candidate, or availing oneself of the results of an impersonation;
- **3.4** Submitting false records or information, orally or in writing, or failing to provide relevant information when requested;
- **3.5** Falsifying or submitting false documents, transcripts, or other academic credentials; and
- **3.6** Failing to comply with any disciplinary measure imposed for academic misconduct.

4. Disciplinary Measures

Academic misconduct often results in a one-year suspension from the University and a notation of academic discipline on the student's record. However, disciplinary measures which may be imposed, singly or in combination, for academic misconduct include, but are not limited to, the following:

- a letter of reprimand
- a failing grade or mark of zero on the assignment or in the course in which the academic misconduct occurred
- suspension, cancellation or forfeiture of any scholarships, bursaries or prizes
- suspension from the University for a specified period of time. During the period of suspension, a student may not participate in activities of the University, including but not limited to attending or auditing classes. Students will not receive credit for courses taken at another institution during a suspension
- expulsion from the University

- denial of admission or re-admission to the University for a specified or indefinite period of time
- a notation of academic discipline on the student's record in the Student Information System, which will appear on the student's Transcript of Academic Record
- revocation of a degree or other academic credentials dishonestly or improperly obtained

The laying of criminal charges or the commencement of civil proceedings does not preclude the University from commencing disciplinary proceedings or taking disciplinary measures against a student who has committed academic misconduct.

5. Investigation—Dean's Office

5.1 All incidents of suspected academic misconduct must be reported to the Dean's Office, with the exception of complaints arising through Enrolment Services or ARES, and those no longer suspected following investigation by the querying instructor. Instructors will report under procedures established by the Dean's Office, or where none exist, then directly to the Dean's Office. The Dean's Office may investigate further (which may include a review by the Dean's Office, the instructor, or others of the record and other work of the student) before dealing with the matter by:

- dismissing the allegation;
- giving the student a warning; or
- referring the matter to the President's Committee for possible disciplinary measures by the President.

5.2 When an instructor suspects that a student has committed an academic misconduct the instructor normally will be the first to investigate the incident and should give the student the opportunity to meet to discuss the suspected academic misconduct. This meeting may not be required in all incidents of suspected academic misconduct.

Assignment of grades is a matter of academic merit and the instructor may re-evaluate the academic merit of the student's work at issue taking into consideration the results of any investigation under this section 5, in which case the instructor may:

- require the student to re-do work at issue or to do supplementary work;
- assign a grade of zero or a failing grade for the work; or
- assign a mark less harsh than failing for the work.

5.3 When a student admits having committed the suspected academic misconduct, the Dean's Office may investigate further before dealing with the matter. If the Dean's Office refers the incident to the President's Committee, the student will normally be given the opportunity to meet with the Dean's Office to discuss and explain any extenuating circumstances of the academic misconduct.

5.4 When a student denies having committed the suspected academic misconduct, the Dean's

Office will investigate further. In the course of the investigation, the student will normally be given the opportunity to meet with the Dean's Office to discuss the circumstances of suspected academic misconduct. If the investigation reveals academic misconduct by the student:

- in the original incident only, then the Dean's Office may refer the matter to the President's Committee; or
- in other incidences, then the Dean's Office will refer the matter to the President's Committee.

5.5. The student will be advised by the Dean's Office that a record of its decision will be retained in the student's file in the Faculty and that, in the event of any further allegations of academic misconduct, the incident may be used in determining the academic measures or discipline to be imposed for subsequent misconduct. The Dean's Office will notify the President's Committee and the instructor in writing of its decision.

6. Investigation–Enrolment Services

6.1 When Enrolment Services suspects that a student has committed an academic misconduct it will investigate the incident. In the course of the investigation, the student will normally be given the opportunity to meet with Enrolment Services to discuss the allegation and/or explain any extenuating circumstances of the academic misconduct.

6.2 Enrolment Services may refer any allegation of academic misconduct to the President's Committee for possible disciplinary measures by the President.

7. Investigation–ARES

7.1 When ARES suspects that a student has committed an academic misconduct it will investigate the incident. In the course of the investigation, the student will normally be given the opportunity to meet with ARES to discuss the allegation and/or explain any extenuating circumstances of the academic misconduct.

7.2 ARES may refer any allegation of academic misconduct to the President's Committee for possible disciplinary measures by the President.

8. Initiator's Responsibilities

8.1 All allegations referred to the President's Committee by any Initiator must be made by submitting a completed Statement of Case in the form prescribed by the Office of the University Counsel. The Statement of Case must set out all facts relevant to the allegation and include all documentary evidence upon which the Initiator intends to rely and a list of witnesses, if any, who will be called by the Initiator at the hearing before the President's Committee.

8.2 The Initiator is normally responsible for presenting the allegations at the hearing before the President's Committee and arranging for witnesses to attend on behalf of the Initiator. In certain cases, the University Counsel may designate legal counsel to present the case instead of the Initiator or to assist the Initiator.

9. Student's Responsibilities

9.1 Upon receipt of a Statement of Case and the notice of hearing from the President's Committee, the student must submit a completed Statement of Response in the form prescribed by the Office of the University Counsel. The Statement of Response must set out all facts relevant to the student's defence and include all documentary evidence upon which the student intends to rely and a list of witnesses who will be called by the student at the hearing before the President's Committee.

9.2 The student is responsible for responding to the allegations at the hearing before the President's Committee and arranging for witnesses, if any, to attend on behalf of the student. If the student is unable or unwilling to participate in a hearing within a reasonable period of time, the President's Committee may proceed with the hearing or the Chair of the President's Committee may recommend to the President that the student remain on academic hold (or both) until the President has made his or her final decision.

9.3 The student may be represented or assisted at the hearing before the President's Committee by any person, including legal counsel. If the student is to be represented by legal counsel then the student must inform the President's Committee and the Office of the University Counsel at least ten working days prior to the hearing. The University Counsel may designate legal counsel to assist the Initiator at the hearing.

10. President's Committee

10.1 The President's Committee is constituted to conduct hearings on alleged academic misconduct and to report its findings to the President, who then decides what discipline, if any, should be imposed pursuant to section 61 of the *University Act*. The Chair of the President's Committee may set down rules for President's Committee hearings and these rules may be altered from time to time by the Chair. The rules need not conform to an adversarial model and inquiry model rules may be applied. See the online President's Committee rules (www.universitycounsel.ubc.ca).

10.2 The President's Committee will notify the student of the date for the hearing into the allegation and provide the student with a copy of the Statement of Case. The President's Committee will provide the Initiator with a copy of the Statement of Response.

10.3 The Registrar, in consultation with the Chair of the President's Committee, may place the student on academic hold until the President has made his or her final decision.

10.3.1 A student may write to the Registrar to request the academic hold be removed. The request must include an explanation of why such an academic hold is not appropriate in the circumstances. The Registrar, in consultation with the Chair of the President's Committee, will determine if the request will be granted.

10.4 The President's Committee may arrange for witnesses to attend a hearing or otherwise require the Initiator or the student to provide

additional information relevant to the President's Committee's determination.

10.5 At the conclusion of the hearing, the President's Committee will review the evidence submitted to it, including the Statement of Case submitted by the Initiator and the Statement of Response submitted by the student involved, and may consider all issues relevant to the allegation in making a determination as to whether, on a balance of probabilities, the student committed the alleged academic misconduct. The President's Committee will submit a report of its findings (including any findings with respect to extenuating circumstances) to the President, who will decide what disciplinary measures, if any, are to be taken under section 61 of the *University Act*.

11. President

11.1 Once the President has come to a decision based on the report of the President's Committee, the President will send a letter to the student detailing the following:

- the President's decision;
- reasons for the President's decision, including the Report from the President's Committee;
- a description of the nature and the duration of the disciplinary measures imposed, if any; and
- notice that the student has a right to appeal the decision to the Senate Committee and the time limit for such an appeal.

11.2 The President will promptly report any disciplinary measures imposed to the Senate Committee with a statement of his or her reasons. The President will also provide copies of his or her decision to the Registrar and the Initiator.

12. Registrar

The Registrar is responsible for taking appropriate action in accordance with the President's decision, including making a notation on a student's transcript, entering or changing a grade for a course, placing an academic hold on a student's academic status for the duration of a suspension, and notifying the instructors of courses in which a student is enrolled.

13. Appeals

13.1 A student has the right to appeal any disciplinary decision of the President to the Senate Committee as established under section 37(1)(v) of the *University Act*.

13.2 A student who wishes to appeal a decision of the President under section 13.1 must so notify the Registrar in writing and give a full explanation of the grounds for the appeal. The Registrar must receive this notification within 45 calendar days of the date of the President's letter to the student informing the student of the disciplinary decision. The Registrar may extend this time limit if, in the Registrar's opinion, circumstances warrant.

13.3 Appeals are considered by at least five members of the Senate Committee, unless the

student consents to fewer members. The student and the Initiator may make written submissions to the Senate Committee for consideration at the appeal. The student may be represented or assisted at the appeal by any person, including legal counsel. The University Counsel may designate legal counsel to assist the Initiator through the appeal process.

13.4 The Senate Committee is an appellate tribunal and does not re-hear matters. A student may, under section 13.1, appeal a decision on the following grounds:

- 1) the President incorrectly determined that the conduct of the student, either admitted or as found by the President, constitutes misconduct or the President incorrectly applied a University policy or procedure;
- 2) the student has material evidence that was not reasonably available at the time of the President's Committee hearing;
- 3) there was a breach or unfair application of the University's procedure prior to the President's Committee hearing that was raised before the President's Committee but not adequately remedied through the President's Committee;
- 4) the procedure of the President's Committee was unfair or operated unfairly, in that there was bias or a lack of independence in the President's Committee, or the President's Committee's procedures were unfairly applied or breached, or that the President gave insufficient reasons for his or her decision;
- 5) the President erred in the President's assessment of the evidence in the President's Committee's report, including any factual inferences made by the President, or the credibility of the student or other witnesses; or
- 6) the discipline imposed by the President was excessive.

13.5 The Senate Committee reviews the President's decision on one of the grounds enumerated in section 13.4 using the appropriate standard as follows:

- 1) Where the appeal is under section 13.4(1), the appropriate standard of review is correctness. The Senate Committee may reverse or vary the President's decision or substitute its own decision if it disagrees with the President's determination or application of a University policy or procedure;
- 2) Where the appeal is under section 13.4(2) and the Senate Committee is satisfied that the material evidence was not reasonably available at the time of the President's Committee hearing and there is substantial likelihood that it would affect the outcome, the Senate Committee will send the matter back to the President's Committee for re-hearing;
- 3) Where the appeal is under section 13.4(3) or section 13.4(4), the appropriate standard of review is whether a reasonable person, knowledgeable about the facts, would perceive the process at or before the President's Committee to be unfair. If the

Senate Committee finds this to be the case, it will refer the matter back to the President's Committee for a re-hearing, or with the consent of the student and the Initiator, reverse or vary the President's decision or substitute its own decision;

- 4) Where the appeal is under section 13.4(5), the appropriate standard of review is reasonableness. The Senate Committee may reverse or vary the President's decision or substitute its own decision only if the President's assessment of the evidence in the President's Committee's report, including any factual inferences made by the President or the credibility of the student or other witnesses, is unreasonable; or
- 5) Where the appeal is under section 13.4(6), the appropriate standard of review is reasonableness. The Senate Committee may reverse or vary the President's decision or substitute its own decision only if the exercise of the President's discretion with respect to the academic discipline imposed is unreasonable.

13.6 As soon as possible after the hearing is completed the Senate Committee will notify the student, the Initiator, the Registrar and the Office of the University Counsel (as the President's representative) of its decision in writing.

13.7 The Chair of the Senate Committee may set down rules for Senate Committee appeals and these rules may be altered from time to time by the Chair. The Senate Committee rules are available online at the Senate website (www.students.ubc.ca/senate).

DISCIPLINE FOR NON-ACADEMIC MISCONDUCT

Ignorance of the appropriate standard of behaviour is no defence to an allegation of Non-Academic Misconduct. Non-Academic Misconduct that is subject to Disciplinary Measures includes, but is not limited to, the following:

- 1) Disrupting instructional activities, including making it difficult to proceed with scheduled lectures, seminars, etc., and with examinations and tests.
- 2) Damaging, removing, or making unauthorized use of university property, or the personal property of faculty, staff, students or others at the University. Without restricting the generality of the meaning of "property", it includes information, however it be recorded or stored.
- 3) Injuring a person or damaging property in any way which demonstrates or results from hate, prejudice or bias against an individual or group based on race, national or ethnic origin, language, colour, religion, sex, age, mental or physical disability, sexual orientation or any other similar factor.
- 4) Assaulting individuals, including conduct which leads to the physical or emotional injury of faculty, staff, students, or others at the University, or which threatens the

physical or emotional well-being of faculty, staff, students, or others at the University.

- 5) For information regarding appeals for academic discipline resulting from non-academic misconduct, see section 13 Appeals under *Discipline for Academic Misconduct*, p. 54.

CAMPUSES

VANCOUVER (POINT GREY)

The University of British Columbia (Point Grey) is located at the western tip of the Point Grey Peninsula, in the City of Vancouver. The University Endowment Lands community (also known as University Hill) is situated adjacent to the campus to the east, while 763 hectares of forested parkland known as Pacific Spirit Regional Park serves as a “green belt” between Vancouver and the campus.

UBC offers hundreds of undergraduate and graduate programs through its 12 faculties and 11 schools, and one college at the Vancouver campus. UBC Vancouver also has over 3,000 full-time faculty members who are dedicated to teaching and research. Further information on programs of study and general information for students is available at www.welcome.ubc.ca. For information on UBC news and developments visit www.ubc.ca.

University Town

Like all great universities, the University of British Columbia is evolving. Originally conceived as a traditional commuter campus, the University is returning to the original vision of its founding architects who in 1914

described "...a university city in an idyllic setting." UBC is continuing to engage the campus community in a planning and visioning process that will assist in the creation of a new mixed use and sustainable community which, in turn, supports and strengthens the University's academic mission. For more information, visit the University Town website (www.universitytown.ubc.ca).

For more on the history of UBC, visit the UBC Library's University History and Historical Facts website (www.library.ubc.ca/archives/facts.html).

UBC OKANAGAN

One Great University, Two Great Campuses

The Okanagan's University of British Columbia campus, UBC Okanagan, opened its doors on the former North Kelowna campus of Okanagan University College in September 2005. The establishment of UBC Okanagan will increase access to post-secondary education in British Columbia by adding 4,500 new student spaces by 2009. This new campus features the reputation and learning resources of a world-class research and teaching university, and offers distinctive academic programs, a smaller-scale campus, region-centred research, and international learning opportunities. Programs of study include agroecology, arts, engineering, fine arts, management, nursing, science, and social work. Flexible learning models, theme-based inquiry, undergraduate research, and practical experience are important themes for existing and emerging programs. For more information, see the UBC Okanagan website (www.ubc.ca/okanagan). For detailed program and course information, consult the UBC Okanagan Calendar (www.ubc.ca/okanagan/calendar).

UBC ROBSON SQUARE

UBC Robson Square is a vital link between the University and the community. Comprehensive services including the Life and Career Centre, Faculty of Commerce and Business Administration (Sauder School of Business) – Executive Education, UBC Continuing Studies, UBC Enrolment Services, the UBC Bookstore, and UBC Library, are now easily accessible in the heart of downtown Vancouver.

With over 70,000 square feet of beautifully renovated classrooms, meeting rooms, reception areas, and a theatre available for rental, the campus is also a popular venue for meetings, conferences, exhibitions, and special events.

For more information, please visit the UBC Robson Square website (www.robson-square.ubc.ca).

UBC Robson Square

GREAT NORTHERN WAY

In 2001 Finning International Inc. donated a 6.6 hectare land package, located at the False Creek flats, to UBC and three other institutions. Today, UBC, Simon Fraser University, the Emily Carr Institute of Art and Design, and the British Columbia Institute of Technology share this land, now known as the Great Northern Way Campus.

The Great Northern Way Campus is being developed into an integrated environment with training and education programs offered by each partner. The four institutions are currently developing their program goals and campus construction plans.

For more information visit the Great Northern Way Campus website (www.gnwc.ca).

STUDENT SERVICES

ALMA MATER SOCIETY

The Alma Mater Society (AMS) is the student society of UBC. Its mission is to improve the quality of the educational, social, and personal lives of the students of UBC. Since 1915 the AMS has played a major role in such areas as student representation on University bodies, housing, internal and external lobbying, childcare, student services, and construction of buildings on campus. Every student becomes a member of the AMS upon enrolment in a credit course at UBC and payment of the AMS fees. Today the AMS represents more than 42,000 students at UBC, and operates or oversees a wide variety of student services, student-owned businesses, resource groups, clubs, and a health and dental plan.

The AMS offices, AMS student services, AMS resource groups, and student businesses are all located in the Student Union Building (SUB). In addition to offering services to students, the AMS is an advocate on student issues and ensures that the views of students are presented to the University administration and the provincial and federal governments.

The AMS is governed by a 49-member Student Council, consisting of the Executive, representatives from undergraduate and graduate societies and schools, and student representatives from the UBC Board of Governors and the Senate. The AMS Executive, Senate, and Board of Governors representatives are elected by the general student population in January of each year. Student Council meets every other Wednesday evening at 6:00 pm in SUB Room 206 (Council Chambers). Any student is welcome to attend these meetings, the minutes of which are posted outside the AMS offices as well as on the AMS website (www.ams.ubc.ca).

Commissions

The AMS ensures student participation at all levels of student government through its commissions. An Executive member heads each commission and each commissioner is given a specific portfolio and responsibilities. Below is a description of the four commissions.

Student Administrative Commission (SAC), SUB Room 238, telephone 604-822-2361. SAC is chaired by the Vice-President, Administration and is responsible for implementing AMS policies regarding the Student Union Building and is the official liaison between the AMS and the clubs. It is also responsible for overseeing SUB security, the AMS Art Gallery, student room bookings and Clubs Days, as well as approving administrative contracts between the AMS subsidiaries and non-AMS organizations.

Finance Commission, SUB Room 238F, telephone 604-822-2361. Chaired by the Vice-President, Finance, this commission is responsible for administering AMS funds, overseeing the financial activities of the AMS subsidiary organizations, helping AMS organizations prepare their budgets, and approving short-term loans to AMS clubs and undergraduate societies.

University Commission, SUB Room 238P, telephone 604-822-6868. Chaired by the Vice-President, Academic/University Affairs, this commission is responsible for lobbying the University administration on issues such as childcare, equity, housing, safety, academics, University policies, and campus planning or any University policies that affect students.

External Commission, SUB Room 238P, telephone 604-822-6868. Chaired by the Vice-President, External Affairs, this commission is responsible for community outreach such as Homecoming and The Great Trekker Award, maintaining good relations with other student associations, and government lobbying on student issues such as post-secondary education funding, student loans, transit, childcare, and equity.

Communications

The AMS employs a wide array of society-wide resources to engage in consistent and high-quality communications with students. At the AMS we foster a climate that encourages interchange of ideas in order to facilitate a greater understanding of the relationship of the AMS to its membership, the subsidiary organizations, the University administration, and all levels of government. The AMS is committed to fostering an understanding of the issues and priorities of students and student bodies and is prepared to act on their interests through their elected student representatives.

The AMS employs a wide array of communications initiatives; some of these are:

- surveys to gauge student interests, opinions, concerns, wants, and needs
- weekly updates in *The Ubyssy* paper
- feedback via email
- public forums
- communication boards around campus
- write-ups in *The Point* and *Graduate Magazine*
- poster campaigns
- various information pamphlets distributed around campus
- AMS website

- *Inside UBC*, AMS guide to student life at UBC
- press releases and media relations
- washroom ads
- feedback cards located around the SUB
- bi-monthly student council meetings open to all students
- AMS submissions in the *First Year Insight* email newsletter

For more information, please contact the AMS Marketing and Promotions department at marketing@ams.ubc.ca.

Student Services

For an overview of the businesses and services the AMS offers, visit the AMS website (www.ams.ubc.ca).

The AMS operates a wide variety of student services to meet student needs throughout the year. Professional staff, student staff, and volunteers work together to operate these services.

Through student fees, the following services are provided for and by the students of UBC:

AMS Advocacy Office	604-822-9855; advocate@ams.ubc.ca ; standing up for student rights
AMS Food Bank	foodbank@ams.ubc.ca ; fighting student hunger and providing emergency food supplies to students in need
AMS Internship program	604-822-5627; internship@ams.ubc.ca ; placing students in internships across Vancouver
AMS Joblink	604-822-5627; joblink@ams.ubc.ca ; the only student-run employment centre in Canada
AMS Ombuds office	604-822-4946; assist@ams.ubc.ca ; promoting collaborative dispute resolution
AMS First Week	604-822-1989; firstweek@ams.ubc.ca ; filling the first week of school with exciting events
AMS Mini-school	604-822-9342; minischool@ams.ubc.ca ; course offerings outside the classroom
AMS Rentsline	604-714-4848, 604-730-2010; off campus housing
AMS Safewalk	604-822-5355; safewalk@ams.ubc.ca ; campus walkers getting students home safely
AMS Speakeasy	604-822-3777 (Info), 604-822-3700 (Crisis); speak@ams.ubc.ca , speakreferrals@ams.ubc.ca ; peer counselling, referrals, and information

AMS Volunteer Connections 604-822-9268; volunteers@ams.ubc.ca; connecting students to volunteer opportunities on campus and around the world

For more information, contact the Executive Coordinator of Student Services at 604-822-9949, or at services@ams.ubc.ca. For more information about the AMS/GSS Health and Dental Plan, call toll-free 1-877-795-4421.

AMS Businesses

The AMS owns and operates businesses that are designed to meet student needs. They include: the Pit Pub, Snack Attack, the Pendulum, Pie R Squared, Blue Chip Cookies, the Gallery Lounge, the Moon Restaurant, Bernoulli's Bagels, the Outpost (retail store), Subcetera/Box Office, Copyright, the Sub Arcade, and Whistler Lodge. There is also a full-service post office and a commercial conference and catering department. These businesses are owned and operated by UBC students. Through its services and commercial operations the AMS employs over 500 students and pays approximately \$2 million in student wages each year.

Clubs

The AMS, through the Student Administrative Commission, maintains over 200 clubs with focuses ranging from recreational to academic, religious to political. In September, during the third week of classes, many clubs set up information and recruitment tables in the SUB for Clubs Days. For more information, or to create your own club, contact the Vice-President, Administration at 604-822-3961.

Student Resource Groups

Student Resource Groups aim to support, protect, and celebrate the different cultural backgrounds and beliefs of all the students. They provide services such as seminars, public speakers, and discussion groups as well as proposing and lobbying for policy changes within the AMS and the University.

Student resource groups include the following:

Colour Connected	604-822-1421; provides support and information to students who feel alienated and disempowered due to discrimination.
Social Justice Centre	604-822-9612; committed to encouraging activism on campus and providing support to students.
Pride UBC	604-822-4638; provides peer support to members and friends of the gay, lesbian, bisexual and transgendered community at UBC.

Student Environment Centre 604-822-8676; created for students concerned about the ecological problems facing our planet.

Women's Centre 604-822-2163; feminist centre and women-only lounge.

For more information please contact the Vice-President, Academic/University Affairs at 604-822-3092.

ATHLETICS AND RECREATION

The Department of Athletics and Recreation is committed to offering students a wide variety of opportunities to take part in sport and recreational activities, ranging from a multitude of non-credit courses, special events, and intramural leagues administered by UBC REC (www.rec.ubc.ca), to the elite intercollegiate competition of the UBC Thunderbirds. In addition to its many programs, Athletics and Recreation operates an extensive network of modern indoor and outdoor facilities, including the Student Recreation Centre, the Aquatic Centre, the Thunderbird Winter Sports Centre, War Memorial Gymnasium, Thunderbird Stadium, the UBC Tennis Centre, as well as numerous fields specifically designed for soccer and rugby.

Students receive preferential rates for most campus recreation activities as well as special student rates for admission to all UBC Thunderbird football, basketball, hockey, and volleyball home games.

CAREER SERVICES

Career Services is the central campus service for students and alumni to explore options, find and create work opportunities, and manage their careers. Career Services offers a variety of mixed mode, in-class/on-line career self-management workshops as well as individual advising and work search consultations. Career Services oversees the Tri-mentoring program, hosts many events where students and alumni can connect, and maintains an extensive array of on-line resources. Career Services also administers Careers Online, the central university job posting website.

Career Services

Student Development and Services
The University of British Columbia
2307–1874 East Mall
Vancouver, BC V6T 1Z1
Tel: 604-822-4011
Web: www.students.ubc.ca/careers

Hours: 8:30 am to 4:00 pm, Monday to Friday.

COUNSELLING SERVICES

Counselling Services provides free confidential counselling for students attending UBC. Psychologists, professional counsellors, pre-doctoral interns, and master's-level counsellor trainees are available to work individually with students to help them address personal, career, and/or educational concerns. First appointments can be made in person, by phone, or by dropping in. Drop-in sessions are first come first served. Emergencies are seen on a same day basis.

- Mon/Tue/Thur/Fri: 8:00am–4:30pm
- Wed: 9:30am–8:00pm (September–April); 9:30am–6:00pm (May–August)

Follow-up appointments may be made by calling or dropping by Counselling Services.

In addition to individual counselling, Counselling Services offers counselling groups and student development workshops designed to help students achieve their highest potential.

ENROLMENT SERVICES

YES! Your Enrolment Services

Enrolment Services aims to provide the best possible service to the UBC community, in support of UBC's goal of becoming one of the world's finest universities.

Many Enrolment Services publications, including the *UBC Calendar* and the *Undergraduate Viewbook* are available online and in print. All printed publications are available at the Welcome Centre or from the Enrolment Services' counter in Brock Hall.

Enrolment Services (www.students.ubc.ca) is located at Brock Hall on the Point Grey campus and comprises the units listed in this section. Refer to the individual units for further contact details and information on their services.

Administrative Services

Administrative Services provides support in the areas of finance, budgeting, human resources, office operations, space administration, staff orientation, health, safety and environment support, and mailroom and print shop services to the 15 units that comprise Enrolment Services and Student Development & Services.

Admissions

Admissions is responsible for admission of undergraduate students, re-admission of

students and evaluation of transfer credit from other educational institutions. Undergraduate Admissions is located within Enrolment Services in Brock Hall.

Prospective students can obtain admissions information, apply to UBC, and check the status of their application online. Public access terminals are located in Brock Hall and are available 7:00 am to 6:00 pm Monday to Friday.

For details of admission requirements, see the *Admissions* chapter, p. 13, in this Calendar.

For graduate student admissions' requirements, see *The Faculty of Graduate Studies*, p. 217, under the chapter "Faculties, Colleges, and Schools" in this Calendar.

Hours: 8:00 am to 4:00 pm, Monday, Thursday and Friday; 9:30 am to 4:00 pm Tuesday; and 8:00 am to 5:30 pm Wednesday.

Classroom Services

Classroom Services, located in Brock Hall, is responsible for the overall management of the University's learning spaces. This includes the provision of technical equipment and resources, and classroom design, maintenance and renovations. The unit coordinates academic course schedules, *ad hoc* use of classrooms and outdoor space, and exam schedules, as well as processing liquor license requests for functions in unlicensed areas of campus.

For classroom bookings or more information, contact us by email (classroomservices@students.ubc.ca) or visit our website below.

Student Financial Assistance and Awards

Student Financial Assistance and Awards partners with students and their families to build a financial strategy to attend UBC. Financial support includes student loans, grants, bursaries, work placements and emergency funding. Scholarships are available to reward merit, including achievements in academics, leadership, community service, artistic endeavours and athletics. For further information, see the "Fees, Financial Assistance, and Scholarships" chapter in this Calendar.

Student Information Services

See *Student Information Services*, p. 62, for information on the Welcome Centre and other resources available to students.

Student Systems

Student Systems, a unit of Enrolment Services, is responsible for development, ongoing maintenance, enhancements, reporting, and operations for the University-wide Student Information System (SIS). The SIS includes interactive web-based systems for students, faculty and administrative staff. These include systems to support awards and financial assistance, admissions, advising, registration, grades processing, sessional evaluation, degree audit, graduation, student financial account, course management, course scheduling and room bookings. Student Systems is also responsible for office automation support within all Enrolment Services & Student Development and Services units by providing desktop equipment, server hardware, software, and technical support.

Student Recruitment and Advising

UBC Student Recruitment and Advising serves as a welcome centre for prospective UBC students. The office provides information, services, and programs for prospective students and their parents, and counsellors from Canadian secondary schools and colleges. Student Recruiter-Advisors provide academic advising (prior to admission) and information regarding undergraduate programs, admission requirements, awards and financial assistance, student housing, campus life, and other student services for both the Vancouver and Okanagan campuses of UBC. The office also provides services for newly admitted students, including help with course registration and preparing for first year.

Each year, Student Recruiter-Advisors visit secondary schools and colleges in BC and throughout Canada to meet with prospective UBC students. The office also arranges a multi-faceted campus visit program for school groups or individual students and their parents, including guided campus tours, March Break activities, information sessions, and individual advising services; online registration is available for all services. Student Recruitment and Advising also coordinates a wide variety of events and programs both on and off campus designed to help prospective students learn more about academic options and student life at UBC.

UBC Student Recruitment and Advising is located in the UBC Welcome Centre, room 1200 Brock Hall (see hours of operation below). Visit the UBC Student Recruitment & Advising website (www.welcome.ubc.ca) for more information.

See *Food Services*, p. 68, under “Spaces and Places” for further details.

FRATERNITIES AND SORORITIES

Fraternities and sororities are recognized by the Senate of UBC as student organizations. Since 1926, thousands of students have become members of UBC's Greek Community (so-called because groups are named with Greek letters). The ten men's fraternities and seven women's sororities on campus provide valuable leadership experience and academic, social, and athletic opportunities for their members, including scholarships, career networking with alumni, and the highest participation rate in Intramural sports of any campus group. The Greek Community is also active in fund-raising and volunteering for charity, benefiting over 50 Lower Mainland philanthropic organizations. The brand-new Greek Village on campus provides housing for members and a home away from home for commuters. All UBC students are invited to learn more about Greek life and membership during Sorority Recruitment and Fraternity Rush in early September. For more information, please visit the greek life website (www.ams.ubc.ca/clubs/greek).

GRADUATE STUDENT SOCIETY

The UBC Graduate Student Society (GSS) is an organization of graduate students, dedicated to serving the academic, social, and cultural interests of its members. The GSS is managed by graduate student representatives elected by each UBC graduate program, and a ten-member executive committee. By virtue of a \$39.00 fee paid with tuition fees, all of the 7000 graduate students are members of GSS. From the \$39.00 fee, \$34.00 goes to fund GSS activities and \$5.00 goes to a Capital Improvement Fund (monies allocated specifically for maintaining the Thea Koerner Graduate Student Centre). A not-for-profit society, the GSS is independently registered with the Registrar of Companies of BC, and is affiliated with the Alma Mater Society (AMS). The University recognizes GSS as the official representative of UBC graduate students.

GSS advocates for, and protects the interests of, graduate students at UBC. It not only supports

graduate students in their studies, especially those facing academic problems, but also organizes social, sport, and recreational events for its members. Most important of all, the Society is dedicated to promoting post-secondary (particularly graduate) education and to increasing participation by members of the community in post-secondary education at UBC. The Society works towards increasing such participation by seeking the removal of remaining non-academic barriers to participation in post secondary education.

As part of its mandate, the GSS manages the Thea Koerner Graduate Student Centre (GSC). Built in 1960 on the northeastern edge of the campus, the GSC was made possible by a generous endowment from Leon Koerner in memory of his wife, Thea. The Centre houses the offices of the GSS and the Faculty of Graduate Studies (FoGS), and is also home to the Koerner's Pub with an open-air patio, which has the best selection of microbrews on campus, and is managed by the GSS; and Leon's Lounge, equipped with computers and relaxing couches, available for graduate students to check emails or relax over tea or coffee.

The Society's other ongoing commitments include: publishing “The GSS Notes”, a weekly email update, *The Graduate*, a monthly magazine, and the annual *Graduate Student Handbook*; the Grad Nooners, a series of Friday talks on academic and social issues; and a wide range of sporting and cultural events. New services and activities are constantly being designed in an effort to bring graduate students together.

Please visit the GSS website (www.gss.ubc.ca) to learn more about the GSS or email (information@gss.ubc.ca) if you have any questions or concerns.

HOUSING

See the *Department of Housing and Conferences*, p. 67.

INTERNATIONAL STUDENT RECRUITMENT AND RECEPTION

Under the leadership of UBC's International Student Initiative (see below), the International Student Recruitment & Reception Office responds to international inquiries and provides information and pre-admission advising services to prospective international students inquiring from within Canada or from abroad. The office also coordinates international recruiting and outreach activities, sending UBC representatives to international secondary schools and college fairs to meet with prospective UBC students. In the recruitment year 2005/06 recruiters visited over 60 countries and 22 US states.

The office works closely with other Enrolment Services and Student Development and Services units to assist newly-admitted students during their transition to UBC. For more information about undergraduate programs of study, application, admissions, English language admission standards, tuition, scholarships, housing, campus tours, and transition services for newly-admitted students, please contact:

International Student Recruitment and Reception
Room 1200–1874 East Mall
Brock Hall, UBC
Vancouver, BC V6T 1Z1
Tel: 604-822-8999
Fax: 604-822-9888
Web: www.welcome.ubc.ca

International Student Initiative

One of UBC's Trek 2010 goals is to internationalize the University by increasing the numbers of international students that attend the University. This strategy was first established by the Board of Governors in 1996, and since that time has been implemented by the International Student Initiative. The Initiative is authorized to increase the participation of international students in undergraduate, post-baccalaureate, diploma, and professional graduate programs.

Through the Initiative, the University works actively to attract and retain outstanding students from a geographically-diverse range of countries, including the United States, Mexico and countries in Africa, Asia, Australasia, Europe, Central and South America, and the Middle East. The University collaborates with external organizations such as the Canadian Education Centre Network, Canadian Embassies, the Association of Universities and Colleges of Canada, and the British Columbia Centre for International Education to promote Canada in general and UBC in particular, as a venue for post-secondary education. The Initiative also works closely with faculties, UBC Enrolment Services, and Student Development and Services to identify and address barriers to entry for international students, and to pay special attention to improving and expanding services critical to international student success at UBC. The Initiative also works closely with Canadian secondary schools and colleges from which a significant percentage of UBC's international students come.

The Initiative has established an International Student Recruitment and Reception Office (see above) to handle inquiries from prospective international students, to provide pre-admissions advising services, and to coordinate the University's international recruitment activities.

PARKING AND ACCESS CONTROL SERVICES

See *Parking and Access Control Services*, p. 70, under "Spaces and Places".

STUDENT DEVELOPMENT AND SERVICES

Student Development and Services comprises the units listed in this section, and provides services to students in partnership with academic units, Alma Mater Society and the Graduate Student Society.

Please refer to the individual units for contact information and further details on their services.

Access and Diversity

Access and Diversity (www.students.ubc.ca/access) provides leadership at UBC in eliminat-

ing barriers to full participation that prospective and enrolled students experience arising from gender, race/ethnicity, sexual orientation, and disability. The unit works with the University community to further equity and inclusivity in the learning environment.

The Disability Resource Centre, a component of Access and Diversity, works with the University community to determine reasonable accommodation for students, faculty, staff, and visitors with disabilities. The DRC coordinates disability related accommodations such as interpreting, captioning, mobility assistance, and specialized exam arrangements and facilitates the provision of specialized equipment. The Crane Resource Centre provides access to alternate format materials for people with print disabilities.

International House

See *International House*, p. 69, within "Spaces and Places" in this chapter.

International House Community Programs

Exciting international experiences are no longer a world away. International House Community Programs brings the world to you through a series of discussions, workshops, retreats, classes, cultural events, and excursions. A diversity of programming throughout the year provides students with an opportunity to make connections, gain valuable intercultural leader-

ship skills, learn about Canadian life, global issues, world cultures, and global citizenship.

International Student Development

International Student Advisors (ISAs) are available for appointments, by email and phone to assist international students throughout their time at UBC. ISAs can help with information and guidance about immigration and employment (i.e. study permits, work permits, temporary resident visas), health insurance, and personal and cultural transition to the UBC learning environment. They can also act as a starting point and referral source for other questions you may have.

Student Development

Student Development (www.vpstudents.ubc.ca/development.cfm) works with the University community to support and enrich student learning. Student Development officers provide experiential learning opportunities for students, as well as responsive and professional programs and services in the areas of leadership, learning, skills, peer programs, international student development and advising, and orientation and transition.

Student Health Service

See *Student Health Service*, p. 65, under "Health Services" in this chapter.

Women Students' Office

The Women Students' Office is now part of the unit *Access and Diversity*, p. 62, within Student Development and Services.

STUDENT INFORMATION SERVICES

The mandate of Student Information Services is to provide excellent service at a single point of contact, and to enhance the quality of services provided to students and others at UBC.

Services are located in the Brock Hall concourse, the Welcome Centre and at UBC Robson Square. These areas are the first point of contact for many students and campus visitors at UBC.

Registrarial services are located in the Brock Hall concourse. Services include transcript requests, tuition payment, registration information, faculty advisor referrals, as well as general information about UBC and its services.

Prospective students can visit the Welcome Centre for campus tours, information about admission requirements and applications, appointments with Advisors and general information about UBC and its services.

Staff can answer most questions; students are referred to other services when necessary. Other resources include the Ask Me (www.askme.ubc.ca) web-based response system and the student information call centre.

Student Information Services
The University of British Columbia
1874 East Mall
Vancouver, BC V6T 1Z1

Fax: 604-822-9858
Web: www.askme.ubc.ca; www.students.ubc.ca

STUDENT SERVICE CENTRE

Students and applicants may access their student records and perform many tasks, including registration, grades inquiry, admission status and ordering transcripts, through the Student Service Centre (www.students.ubc.ca/SSC). New services are continuously being added, so students are advised to check the website regularly.

UBYSSEY PUBLICATIONS SOCIETY

Since 1918 UBC's official student newspaper, *The Ubyyssey*, has been the paper of choice for those who want to know what's going on around campus. Twice a week, the paper hits the stands packed full of news, sports, arts and culture, and opinion, all edited, written and produced by students. Tuesday's paper generally focuses on news and sports, while Friday's "Page Friday" emphasizes culture and features.

The Ubyyssey (www.ubyssey.bc.ca) has been an autonomous paper since 1995, governed by a board of elected UBC students. The paper concentrates on students at UBC and the issues that affect them, both on—and off-campus. One of the largest and most distinguished university papers in the country, *The Ubyyssey* was one of the first members in Canadian University Press, a collective of student papers across Canada. The writers and photographers have been recognised nationally by the John H. MacDonald awards for journalism and for filing freedom of information requests, receiving five awards in 2004.

The paper is always looking for volunteers, so students are encouraged to be a part of this 85 year tradition. No experience is necessary. If interested contact us (coordinating@ubyssey.bc.ca). Telephone 604-822-2301.

ADVOCACY AND SUPPORT SERVICES

ALUMNI AFFAIRS

Alumni services at UBC are managed by the independent Alumni Association and the Alumni Relations Unit administered by the Vice-President, Students. Together, these two units make up Alumni Affairs, and work as a team to create opportunities for UBC graduates to get involved with their alma mater.

The Alumni Association was founded in 1917 to foster a life-long relationship between the university and its graduates. Over the years the

Alumni Association developed programs such as reunions, faculty-based networking nights, recognition events, career workshops, faculty lectures, regional alumni network organizations, and mentoring and other opportunities for students. The Alumni Association is governed by an elected Board of Directors, and alumni serve on the university's senate and Board of Governors.

In 2004, the university and the Alumni Association officially joined forces to provide alumni services to UBC's 200,000-plus graduates. Alumni Affairs produces and distributes the award-winning *Trek Magazine* and the *Grad Gazette* email newsletter, and provides member services such as travel/study programs, affinity credit card and insurance programs. Alumni Affairs also awards a number of scholarships and bursaries to students, holds an annual Achievement Dinner to recognize alumni and friends of UBC who have had a significant impact on the university and the community, hosts major alumni events around the globe, and mobilizes alumni to advocate on behalf of UBC.

Alumni Affairs operates a website www.alumni.ubc.ca and an online social networking community, *TrekConnect*, which is accessible through the website.

CAMPUS SECURITY

Campus Security (www.security.ubc.ca) plays a leading role in promoting and maintaining a safe and secure environment that serves to enhance the quality of life for students, staff, faculty, residents, and guests of the University.

Campus Security is comprised of professionally trained and dedicated security personnel who are focused on the delivery of quality security and safety services to the community. Campus Security provides services in the four specific program areas of Operational Patrols, Secure Access, Community Relations, and Lost & Found:

- Campus Security Patrol provides 24-hour assistance, 7 days a week for any security and safety concerns. Our officers patrol by vehicle, bike, and foot.
- Secure Access provides support to your department and building needs with intrusion alarm systems and card access control services.
- Community Relations supports and partners in campus safety initiatives and crime prevention programs with a focus on education and awareness outreach and training.
- Campus Security coordinates the central campus Lost & Found. Hours of operation are: Monday through Friday (excluding statutory holidays) from 9:00 am to 5:00 pm. The Lost and Found contact number is 604-822-9922.

Campus Security is located at 2133 East Mall, just south of the main Bookstore entrance. For both emergency and non-emergency assistance Campus Security may be contacted direct by calling 604-822-2222 or by activating any blue

light phone on campus. In addition, incidents can be reported on-line through our website.

For more detailed information about programs or our services, please visit our website at www.security.ubc.ca.

CHAPLAINS

Students are invited to consult the following chaplains and advisors, whose services are offered on a voluntary basis:

Rev. Roberta Fraser, B.Sc., M.Div.	Anglican	604-224-1410
Mr. Trevor Freeman, B.A.	Anglican	604-224-1410
Mr. Borna Nouredin	Bahai	604-224-1244
Rev. Harry Park, M.Div.	Baptist	604-331-0260
Sensei Roy Akune, B.S., M.Div.	Buddhist	604-224-7710
Mr. Richard Carruthers, B.S., M.Div.	Canadian Southern Baptist	604-939-8589
Mr. Eyal Lichtman	Jewish	604-224-4748

Further information on chaplaincy at UBC can be found at the Chaplaincy website (chaplains.students.ubc.ca).

CHILD CARE FACILITIES

UBC operates a variety of child care centres and preschool programs. See *Child Care Services*, p. 68, under "Spaces and Places", Department of Housing and Conferences, in this chapter.

DEVELOPMENT OFFICE

The University of British Columbia's reputation as a world-class teaching and research institution grows stronger every year. Privately funded scholarships and bursaries, endowed professorships and chairs, library acquisitions and state-of-the-art equipment and facilities help UBC stay at the forefront of higher education and research.

The Development Office works in close partnership with alumni, friends of UBC, corporations, foundations, service organizations, and government to secure funding for projects that address University and community priorities. A range of fundraising and donor recognition activities are organized by the University's central and campus-based Development Staff.

There are a number of ways an individual can contribute to the University. Individual donors may make one-time gifts, pledges over a period of time, or contributions through bequests, gifts-in-kind, and other planned gifts. Many in-

tatives are designed to build the financial endowment UBC holds in trust. Annual endowment earnings are invested in the University's students, faculty, and future, providing a legacy of opportunity and achievement.

Donations are an investment in higher education. For more information about supporting UBC, call the Development Office at 604-822-8900 or visit the Development Office website (www.supporting.ubc.ca).

DISABILITY RESOURCE CENTRE

The Disability Resource Centre, a component of Access and Diversity, works with the University community to determine reasonable accommodation for students, faculty, staff and visitors with disabilities. The DRC coordinates disability related accommodations such as interpreting, captioning, mobility assistance, and specialized exam arrangements and facilitates the provision of specialized equipment. The Crane Resource Centre provides access to alternate format materials for people with print disabilities.

FINANCIAL SERVICES

The Financial Services Department provides accounting-related services to the University Community. Our primary areas of responsibility are:

Payroll

- Ensuring that all employees (faculty, staff and students) are paid on an accurate and timely basis.

- Administering health and insurance benefits as well as tuition waivers and special leaves.
- Accounts Payable
- Processing vendor invoices, expense claims, and other payment requests.

Research and Trust Accounting

- Invoicing and providing financial reporting to government and industry research sponsors.
- Advising and supporting the University research community on a variety of project funding and compliance issues through liaising with government and industry project sponsors.

Systems

- Financial and human resource system support and development.

Reporting

- Accurate and timely financial reporting to internal and external users.

FIRST NATIONS HOUSE OF LEARNING

First Nations House of Learning (FNHL) was established in 1987 to make UBC and its resources more accessible to BC's First People, and to improve the University's ability to meet the needs of First Nations. Through consultation with Aboriginal communities, the House of Learning aims to provide a quality post-secondary education determined by the philosophies and values of First Nations.

FNHL is located in the spectacular Longhouse that is the centre of Aboriginal activities on campus. The Longhouse serves as a "home away from home" where Aboriginal students, families, and friends can gather to study, share, and socialize in an environment that reflects the cultural traditions of Aboriginal people.

Housed within the Longhouse are the Sty-Wet Tan Great Hall, an Elder's lounge, S-Takya Childcare Centre, Xwi7xwa Library, a student and staff lounge, a computer lab, kitchen, change rooms, and administrative offices.

The House of Learning promotes a number of initiatives designed specifically for Aboriginal students. FNHL works with faculties across the University to enrich courses and programs with Aboriginal content.

In addition, the House of Learning works with the University to increase access of Aboriginal people to the University. As a result of this, the Canadian Aboriginal Students Admission Policy was established. For more information, see *Canadian Aboriginal Students*, p. 14, in the chapter, Admissions. The House of Learning also provides information on post-secondary opportunities and offers counselling and support services for Aboriginal students. Other

goals of the House of Learning include increasing the Aboriginal leadership on campus, and promoting international relations and exchange for the advancement of Indigenous peoples around the world.

HUMAN RESOURCES

People create the community we know as UBC—faculty, staff, students, alumni, residents, and visitors. We want to "make it possible for everyone to live, work, and study in the most supportive environment possible" (Trek 2010). Human Resources contributes to the values, strategies, and goals of Trek 2010 by providing supportive and innovative people practices to the UBC community.

How does this apply to students? The University of British Columbia encourages students to consider employment at UBC as they work towards their degrees and after graduation. In addition to being a wonderful academic environment for learning and research, UBC wants to create a place to work and study that exceeds people's expectations. Students seeking employment opportunities can contact their departments directly or consult the Career Services website (www.students.ubc.ca/careers). In addition, term positions and career opportunities are posted weekly on the HR website (www.hr.ubc.ca), along with application procedures.

INFORMATION TECHNOLOGY SERVICES

Information Technology works closely with students, faculty, staff, and alumni to provide IT-related strategy, applications, infrastructure, and support services to the UBC community. Information Technology does this through two principal units: ITServices and ITStrategy. Learn more about Information Technology, its services, and its role in collaborative technology leadership by visiting the ITServices website (www.it.ubc.ca).

Services for Students

ITServices at Information Technology offers a range of online, data, and voice services to students. Visit the ITServices website (www.itservices.ubc.ca) to find out more.

Campus-Wide Login. You'll need a Campus-Wide Login account to access many online services at UBC, such as the Student Service Centre and UBC Wireless. Visit www.cwl.ubc.ca for more information.

Email. Sign up for your free UBC email account at www.interchange.ubc.ca.

UBC Wireless Network. Connect to the internet for free from almost anywhere on campus using a laptop and a wireless card. Visit www.wireless.ubc.ca for more information.

Free Anti-Virus Software. Protect your computer from harmful viruses and worms by downloading free anti-virus software at www.download.ubc.ca.

myUBC. Get personalized access to the university's online resources, including webmail and WebCT. Visit my.ubc.ca for more information.

Residence Telephones. ResTel is the telephone service for Thunderbird, Ritsumeikan, St. Andrew's, St. John's College, Vancouver School of Theology, and Carey Hall residences. Visit voice.ubc.ca for more information.

Residence High Speed Internet Access. If you live in a connected residence, you can access the internet with ResNet. Visit www.resnet.ubc.ca for more details, including availability.

Protecting Your Computer and IT Security

Information Technology strives to ensure that computer systems operated by UBC students, faculty, and staff remain secure. As a proactive measure, Information Technology provides free anti-virus software (see **Services for Students** above for more details) and IT security expertise. Visit the IT Security Office website (www.itsecurity.ubc.ca) for more information.

The IT Security Office at Information Technology also investigates security incidents reported by students, faculty, and staff. For more information on what constitutes a security incident, and when to notify the IT Security Office, visit the IT Services Security Reporting page (www.itservices.ubc.ca/security/reporting).

Getting Support

IT Service Centre. The Information Technology IT Service Centre can assist you with inquiries, support requests, and billing information. For contact information and hours of operation, contact Customer Service (www.itservices.ubc.ca/contact/support).

MEDIA GROUP, THE

See *The Media Group*, p. 292, in the *College of Health Disciplines*.

PUBLIC AFFAIRS OFFICE

This office is responsible for communicating UBC's Trek 2000 vision along with key University messages and values to both its internal community of students, faculty, and staff, and to the broader external community of diverse audiences. Public Affairs' primary role is to enhance the reputation of the University.

The office provides the news media with accurate and timely information about research activities and other matters of public interest, produces a wide range of publications including *UBC Reports*, *Annual Report*, *Experts Guide*, and various brochures. The office takes overall responsibility for the top level of the UBC website (www.ubc.ca), and the Public Affairs website (www.publicaffairs.ubc.ca). Staff also provide public and media relations counselling to UBC administrative and academic units and offer communications services to campus units. The Public Affairs Office may be reached by

telephone at 604-822-4636, fax 604-822-2684 or email (public.affairs@ubc.ca).

For general information about UBC, contact the public information line, UBC-INFO (822-4636), or visit the Public Affairs Office website (www.publicaffairs.ubc.ca).

STUDENT LEGAL FUND SOCIETY

The Student Legal Fund Society (www.slfs.org) (SLFS) was founded in 1998 to support litigation, advocacy, and lobbying for improved education and access to education at UBC, and such other matters of law which set broad precedent and concern UBC students. All UBC students who have paid the Student Legal Fund fee (charged by the AMS) are eligible for membership. Members may stand for election to the SLFS board and may vote in SLFS elections. Membership registration takes place during SLFS elections, which are held in conjunction with AMS elections during the third week of January. For more information, telephone 604-827-1208.

WOMEN STUDENTS' OFFICE

See *Access and Diversity*, p. 62, within Student Development and Services.

HEALTH SERVICES

STUDENT HEALTH SERVICE

The Student Health Service is open to all UBC students. The clinic operates on an appointment system with time reserved daily for urgent, same day care.

Services include care of illness or injury, preventive health care, psychiatric services, antigen and immunization administration. When necessary, hospitalization will be arranged in a hospital, either on or off campus, depending on the type of facility required. Student Health Service Outreach Services include: a Wellness Centre in the Student Union Building, providing information and workshops on all aspects of wellness; a Nurse in Rez which offers health and wellness advice in some of the residences on campus, and the Health and Wellness website (www.students.ubc.ca/health) which provides health information specific to the concerns of University students.

Student Health Service
Student Development & Services
The University of British Columbia
main floor M334

Acute Care Unit, Vancouver hospital and
Health Sciences Centre
Vancouver, BC, V6T 1Z3
Tel: 604-822-7011
Web: www.students.ubc.ca/health

Hours: 8:00 am to 4:00 pm Monday to Friday except Thursday when we open at 9:00 am. There is an Emergency Department in the Acute Care Unit where help is available for acute injuries or sudden illness, when the Health Service is closed.

Wellness Education Outreach

The Wellness Education Coordinator, in collaboration with the Wellness Information Network (WIN) Peer Educators, provides wellness programming and resources for UBC students. The program includes a variety of health and wellness fairs, articles, displays, brochures and workshops. A new wellness centre is open for information and discussions from 9:00 to 5:00 pm Monday to Friday, in the Student Union Building, Room 56B. WIN volunteers are recruited in March and December. Information is available from the Wellness Education Coordinator (wellness.outreach@ubc.ca); telephone 604-822-4858.

MEDICAL INSURANCE

Application forms for medical insurance coverage are available at the Student Health Service and at International House. Electronic application forms are available online at the MSPBC website (www.healthservices.gov.bc.ca/msp). For further details consult the Health Service or the Medical Services Plan of BC by writing to MSPBC, PO Box 9035, Stn Prov Govt, Victoria, BC, V8W 9E3 or by calling 604-296-4677 (general inquiries) or 604-660-2421 (application status).

Note: Students who allow their insurance to lapse or who do not possess valid medical insurance must be billed directly.

BC Residents

Students who are BC residents are advised to have coverage under the Medical Services Plan of BC (MSP) of BC. Unmarried students whose parents are covered by the MSP are insured as dependents until their nineteenth birthday. The coverage may be continued until the student's twenty-fifth birthday if the student is in full-time attendance at university and mainly dependent on his or her parents. However, students must notify the Plan of student status each September, otherwise coverage ceases on the nineteenth birthday.

Students who are not covered by their parents' medical insurance plan must obtain insurance coverage from the MSPBC. Students covered by the MSPBC as individual subscribers may be eligible for a subsidy directly from MSPBC to defray the costs of the premiums. Application forms for the subsidy are available in the Student Health Service Office, International House and from MSPBC.

Non-BC Residents

Canadian students who are not BC residents should maintain coverage in their home province. All Canadian provinces accept responsibility for physician visits and hospital costs for their students attending the University of British Columbia provided the hospital insurance premiums (where required) have been paid.

International Students

UBC requires that all international students have basic and extended health insurance for the duration of their studies at UBC. The university provides Health Insurance for New

International Students (iMED), to all new students who pay international tuition and student fees, as well as exchange students and Ritsumeikan –and Korea University –UBC Joint Academic Program students. New international students are automatically covered for the three-month waiting period before they become eligible for BC's Medical Services Plan (MSP), with the exception of one-term exchange students, who are covered by iMED for the duration of their exchange because they are not eligible for MSP.

Students who are already covered by MSP, another Canadian provincial health plan, or mandatory health insurance provided by third-party sponsors with whom UBC has an agreement, must opt out of iMED before the end of their third week of classes at UBC. New international students should register for MSP as soon as they arrive. For extended coverage most international students are covered by the AMS/GSS Health and Dental Plan. For information on fees, see Item 6.2, p. 35, in the "Fees, Financial Assistance, and Scholarships" chapter. For further information please visit the *International Student Handbook* (www.students.ubc.ca/international/handbook.cfm).

Medical Requirements for Registration

The University reserves the right to require a medical examination if circumstances warrant.

The Faculties of Dentistry and Medicine have special medical requirements.

- Faculty of Dentistry: see *Acceptance*, p. 180, in that section under "Admission".
- Faculty of Medicine: see *Post-Acceptance Requirements*, p. 323, under Doctor of Medicine, Admission.

AMS/GSS HEALTH/DENTAL PLAN

The AMS/GSS provides a mandatory Extended Health and Dental Plan. If you have equivalent coverage, you may opt out. For further information on fees, applications, coverage and opting out, please refer to the *Health & Dental Plan Reference Guide* brochure (distributed by the AMS and GSS), visit the website (www.studentcare.net), or contact the Health Plan Office (Tel: 1-877-795-4421).

STUDENT SERVICE CENTRE

Students and applicants may access their student records and perform many tasks, including registration, grades inquiry, admission status and ordering transcripts, through the Student Service Centre (students.ubc.ca/ssc). New services are continuously being added, so students are advised to check the website regularly.

SPACES AND PLACES

ASIAN CENTRE

The UBC Asian Centre is a focal point for the sharing of ideas and information around the Pacific. Opened in 1981, the Centre houses the Asian Library, the Department of Asian Studies, and the Office of UBC International. The

Centre also provides space for the Asian interests of the School of Music, and houses a small permanent photo exhibit, "Asian Canadians: The Immigrant Experience." In 1985 the Pacific Bell Tower was constructed on the Asian Centre grounds to house the Pacific Bell, cast by the late Master Craftsman, KATORI Masahiko. The Bell reflects the strong spirit of peace and friendship between Japan and Canada.

The UBC Asian Centre has multi-functional facilities suitable for conferences, seminars, workshops, exhibitions, and cultural performances. Space can be booked by university and public groups.

Information on the UBC Asian Centre facilities is available on the Office of UBC International website (www.ubcinternational.ubc.ca/asian_centre.htm). Enquiries about booking the Seminar Room at the Asian Centre may be made by calling UBC International, Administrator, Tangerine Twiss, at 604-822-3114.

The booking of the Auditorium is handled by the Department of Asian Studies, Administrator, Roger Chow, at 604-822-5068.

The Asian Centre
1871 West Mall
Vancouver, BC, V6T 1Z2
Tel: 604-822-2427

Hours: The Asian Centre is open during the regular hours of the Asian Library.

BOOKSTORE

The UBC Bookstore is a self-supporting business owned by the University of British Columbia. The Bookstore is the province's major academic bookstore, stocking both general and academic book titles. As well as serving students, faculty, and staff, the Bookstore welcomes the general public.

UBC Bookstore operates four locations: the UBC (Point Grey) store, the UBC Health Sciences Bookshop, the UBC Bookstore Robson Square, and, in Kelowna, the UBC Okanagan Bookstore. The UBC Bookstore website (www.bookstore.ubc.ca) provides general information and secure online ordering.

During the first week of classes, regular store hours are extended. Exact dates and hours are posted at each Bookstore and on the website.

UBC Bookstore
6200 University Boulevard
Vancouver, BC, V6T 1Z4
Tel: 604-822-2665
Toll-free in Canada 1-800-661-3889
Fax: 604-822-8592
Email: bkstore@interchange.ubc.ca

Hours: Monday –Friday from 9:30 am to 5:00 pm; and Saturday from 11:00 am to 5:00 pm.

Course Books

Course books and academic materials are normally available two to three weeks prior to the beginning of classes. The Bookstore operates the FastStart Coursebook Reservation Service, which is free to UBC students. Course book listings are available under "Students" at

www.bookstore.ubc.ca two weeks before the start of terms. A first year student can expect to spend between \$400.00 and \$700.00 for books and supplies per term, depending on their program. Used course books are available for sale whenever possible. Extended used book buybacks are held at the beginning and end of Terms 1 and 2. The Bookstore also buys back coursebooks, Monday to Friday, during each term.

General Books and Special Orders

The Bookstore stocks all UBC course texts and materials, as well as general and reference books. Children's books, bestsellers, computer books, magazines and one of the city's largest collections of calendars are also available. Discounts on regular-priced general books are offered through the UBC Bookstore Book Club. For information on general books, call 604-822-4749. The Bookstore offers a special order service for in-print titles, which are not in stock. For special orders phone 604-822-6415 or click "Special Order Service" at www.bookstore.ubc.ca.

Supplies

Additional in-store merchandise includes UBC clothing, giftware, school/office supplies, and office furniture. UBC clothing and giftware are also available online.

Computer Department

The Bookstore's Computer Department carries Apple and IBM laptops as well as name brand peripherals. There is also a full line of software, including educational packages and office programs. Many products are educationally priced (lower than retail) for UBC faculty, staff, and students. Click on "Computer Department" at the UBC Bookstore website (www.bookstore.ubc.ca) or call 604-822-4748 for more information.

Health Sciences Bookshop

UBC Health Sciences Bookshop carries over 7,000 titles specializing in medical and allied health sciences plus diagnostic equipment.

Health Sciences Bookshop
2750 Heather Street
Vancouver, BC, V5Z 4M2
Tel: 604-875-5588

Orders may be placed toll free in Canada at 1-800-665-7119. Books can be ordered at hsb.bookstore.ubc.ca or via email (medbooks@interchange.ubc.ca).

Hours: Monday –Saturday from 10:00 am to 5:00 pm.

UBC Bookstore Robson Square

This store carries titles related to courses held at UBC Robson Square plus reference and general book titles, UBC clothing, giftware, stationery, and educationally-priced software. In addition, this location specializes in books for the legal, engineering, and architectural professions.

800 Robson Street
Vancouver, BC, V6Z 2C5
Tel: 604-822-6453
Email: rsquare@interchange.ubc.ca

Hours: Monday, Tuesday, Thursday, Friday
from 10:30 am to 5:00 pm; Wednesday from
10:30 am to 7:30 pm; and Saturday from Noon
to 4:00 pm.

UBC Okanagan Bookstore

This store carries textbooks and academic materials for all courses held at UBC Okanagan. As well, it features reference and general books, UBC clothing and giftware, educationally-priced computer hardware and software, and school/office supplies.

333 University Way
Kelowna, BC, V1V 1V7
Tel: (250) 491-6546
Fax: (250) 491-6563

Hours: Monday–Friday from 8:30 am to 4 pm.

BOTANICAL GARDEN

UBC Botanical Garden's history dates back to 1912 when a hectare of land was allocated to establish a botanical garden on the Provincial Colony Farm at Essondale under the directorship of Prof. John Davidson. In 1916, the collections were moved about 20 miles to the lands set aside for the development of the new university, UBC. The Botanical Garden is both the oldest department on campus and the oldest continuously operating university botanical garden in Canada.

The Botanical Garden's present holdings comprise three main sites: the main Botanical Garden (28 ha), with its administration and reception buildings and garden shop; the nursery (10 ha); and the Nitobe Memorial Garden (1 ha), an authentic Japanese Tea and Stroll garden (see below). The main garden consists of a number of separate gardens, including a Food Garden, Physic (apothecary's) Garden, Winter Garden, Alpine Garden, Arbour Garden, BC Native Garden, and an Asian Garden.

Among the foremost attractions in the Vancouver area are the 15-hectare David C. Lam Asian Garden and the E. H. Lohbrunner Alpine Garden. The Alpine Garden displays plants from alpine regions around the world. This garden was constructed using 2,000 tonnes of pyroxine andesite boulders from the BC Interior.

Situated among towering native conifers at the garden's entrance, the Asian Garden includes more than five hundred different rhododendrons. This garden also features significant collections of maples, clematis, magnolia and sorbus along with hundreds of rare and unusual southeast Asian plants of all forms. The garden is named for the Honourable David C. Lam, the province's first Chinese-Canadian Lieutenant Governor.

Botanical Garden and the Shop in the Garden
6804 SW Marine Drive
Tel: 604-822-3928
Fax: 604-822-2016
Email: botg@interchange.ubc.ca
Web: www.ubcbotanicalgarden.org

Public horticultural inquiries (Tuesday and Wednesday, 12:00 to 3:00 pm) and 24 hr event information: 604-822-9666. Admission free for UBC students with student card.

NITOBE MEMORIAL GARDEN

Opened in 1960, the Nitobe Memorial Garden is dedicated to the memory of Dr. Inazo Nitobe. Dr. Nitobe was a distinguished educator and international civil servant who sought to build cultural bridges between Japan and the West. The garden was designed by Professor K. Mori of the University of Chiba and was developed to provide an authentic example of Japanese landscape architecture using native and Japanese plants. The garden is known as one of the top three Japanese gardens in the world outside of Japan.

The Nitobe Memorial Garden is located across the street from UBC's Museum of Anthropology. To contact, please see the Botanical Garden listing above, or visit the garden's website (www.nitobe.org). Admission free for UBC students with student card.

CHAN CENTRE FOR THE PERFORMING ARTS

Conceived by a consortium of distinguished architects, theatre designers and acousticians, the Chan Centre for the Performing Arts houses the Chan Shun Concert Hall, the Telus Studio Theatre and the Royal Bank Cinema. The Chan Centre offers a full range of music, theatre, and film programs involving the community and the University.

The 1,200-seat **Chan Shun Concert Hall** has been designed as an inspiring environment for the enjoyment of audiences and artists alike. The Concert Hall features an adjustable acoustical canopy and can accommodate a wide range of musical events with superb sound quality. The flexibility of the stage ensures that solo performers, chamber groups and symphony orchestras with a full chorus on stage are provided with a facility which meets their individual and specific needs.

The Telus Studio Theatre features a flexible seating configuration which can accommodate an audience of up to 280 people. The Studio Theatre is an ideal space for classical drama, small musicals, cabaret, and solo performances, with spatial and technical requirements readily available for all productions.

The Royal Bank Cinema is an intimate 160-seat audio visual theatre with the capacity to screen 16 mm, 35 mm film or slide and video projections. The multi-purpose facility can also be used for a wide range of activities including conferences, meetings, lectures, and festival events.

Inquiries regarding the Chan Centre may be sent by telephone 604-822-9197 or fax 604-822-1606. More information may be obtained from the Chan Centre website (www.chancentre.com).

DEPARTMENT OF HOUSING AND CONFERENCES

The Department of Housing and Conferences provides housing for students, faculty, and staff on campus. Applications are approved on a first-come, first-serve basis. The Department also arranges conference spaces and facilities.

Application/information booklets, application forms and rate sheets for residences are available from the Department of Housing and Conferences online at www.housing.ubc.ca/application/gen_info.htm, or in Brock Hall.

Note: The Department of Housing and Conferences' application process is entirely separate from the University's admission system, so students should not wait until they are admitted to UBC before applying for housing, due to high demand.

CONTACT INFORMATION

Department of Housing and Conferences
1874 East Mall
Vancouver, BC V6T 1Z1
Tel: 604-822-2811
Fax: 604-822-6935
Email: information@housing.ubc.ca
Web: www.housing.ubc.ca

Hours: 8:30 am to 4:00 pm, Monday to Friday
(closed on weekends and statutory holidays).

Single Student Housing-Winter Session

Furnished residence accommodation is available for single students during Winter Session on a room-and-board basis in Place Vanier and Totem Park residences, or on a room-only basis in Walter Gage, Fairview Crescent, Ritsumeikan-UBC House and Marine Drive residences (opening Fall 2005).

Tel: 604-822-2811
Fax: 604-822-6935
Email: information@housing.ubc.ca
Address: See *Contact Information*, p. 67.

Single Student Housing-Year Round

Thunderbird Residence is designed for single students and couples, without children, requiring year-round on-campus accommodation. The unfurnished studio, one-bedroom, and two-bedroom units are assigned on a priority basis to graduate students, students registered in professional programs and mature students over 25 years of age. Thunderbird Residence also offers four-bedroom, furnished townhouses which are assigned to qualified applicants on a first-come, first-served basis on a year-round contract.

Thunderbird Residence Assignments
Tel: 604-822-2812
Fax: 604-822-6935
Email: thunderbird@housing.ubc.ca
Address: See *Contact Information*, p. 67.

Summer Housing

Students registered for Summer Session Term 1 only or for Terms 1 and 2 are housed in Fairview Crescent residence. Students who are on campus for Summer Session Term 2 only are housed in Place Vanier residence. Housing

enquiries for Summer Session Term 1 or those taking Term 1 and Term 2 should be directed to:

UBC Summer Housing
Tel: 604-822-2812
Fax: 604-822-6935
Email: reservations@housing.ubc.ca
Address: See *Contact Information*, p. 67.

Summer Session Term 2 only registrants should contact:

Conferences and Accommodation
Tel: 604-822-1000
Fax: 604-822-1001
Email: reservations@housing.ubc.ca
Address: See *Contact Information*, p. 67.

Residence Advisors

This once-in-a-lifetime work experience offers outstanding leadership training and development. Employment positions as residence advisors are offered each year to students who have previous experience living in a university residence or other group living setting, and who have demonstrated ability to relate well to others in a community environment, to maintain high academic standards, and to participate more actively in student life. More information and an application form are available in early January at the Housing and Conferences website (www.housing.ubc.ca), the Department of Housing and Conferences in Brock Hall, or at one of the residence front desks. Participation in the interview selection process and a criminal record check are necessary.

Student Family Housing

Unfurnished apartments and townhouses are available on a yearly basis in Acadia Park residence for couples with or without children and single parents with children. Applicants should contact:

UBC Student Family Housing
Tel: 604-822-4411
Fax: 604-822-6935
Email: family@housing.ubc.ca
Address: See *Contact Information*, p. 67.

Faculty/Staff Housing

Unfurnished apartments are available on a yearly basis in University Apartments residence for singles and couples with or without children. Qualified faculty and staff applicants should apply to:

Faculty/Staff Housing
Tel: 604-822-4411
Fax: 604-822-6935
Email: family@housing.ubc.ca
Address: See *Contact Information*, p. 67.

Child Care Services

UBC operates a variety of child care centres and preschool programs which provide care for children aged four months to twelve years. Full-time and part-time care is available. There is a waiting list for each age group. For brochures and waiting list applications, please contact:

UBC Child Care Services
2881 Acadia Road
Vancouver, BC, V6T 1S1
Tel: 604-822-5343 Fax: 604-822-9195
Email: child_care@brock.housing.ubc.ca
Web: UBC Child Care Services website (www.childcare.ubc.ca).

FOOD SERVICES

Home of the famous UBC Cinnamon Bun.

UBC Food Services offers 20 unique operations and services with over 400 union and student employees providing fast, convenient, and friendly service to the university community. A variety of branded food outlets are available. Snack bars, coffee bars, and cafeterias are strategically located throughout the campus. Pacific Spirit Cafeteria, Sage Bistro, 99 Chairs and the Trek Express offer variety from quick snack items to fine dining. We also offer a few options for evening dining on campus. Visit the new Vanier Dining Room at Place Vanier, Totem Park Dining Room, or 99 Chairs at the David Lam Centre. Our bakeshop is well known for its all-occasion cakes, which can be ordered directly from the UBC Bakeshop and delivered to you anywhere on campus. Food Services also has Gift Baskets and Gift Certificates available for gift giving anytime of the year, please visit the UBC Food Services (www.foodserv.ubc.ca) for more information or call 604-822-6828.

UBC Catering

Extensive catering services for office meetings, graduations, conferences, banquets, weddings, and BBQs are available seven days a week. Services are available at any location on campus, including AMS locations, the Museum of Anthropology, Asian Centre, Botanical Garden, Cecil Green Park House. Call 604-822-2018 for more details or visit UBC catering. (www.ubccatering.ubc.ca)

Ponderosa Meeting Space

UBC Food Services has great rooms available for meetings, seminars, workshops, and banquets at the Ponderosa Building. For space availability, booking and catering needs, please call 604-822-2018.

University Centre

The University Centre, home of Sage Bistro and Sage Catering, offers an upscale, fine dining environment. Spectacular vistas of Howe Sound and the North Shore mountains add to the dining experience. Full catering and banquet services are available. Call 604-822-0429 for more information or visit the Sage Bistro website (www.sage.ubc.ca). For reservations for lunch or dinner call 604-822-0968.

Dining Convenience & Savings with your UBCcard

Your UBCcard is also a dining discount card, providing convenience and savings (up to 20%) to students, faculty, staff, and the University community. Purchase your Dining Savings at the UBC Food Service Meal Account Office. Your UBCcard is accepted at all UBC Food Services locations, including Residence Dining

Rooms, Starbucks coffee bars, Bread Garden, Subway, Tim Hortons, and the full-service restaurants. For more information contact the Meal Accounts Office (meal.plan@ubc.ca) at 604-822-5839.

Administration Office

HERBARIUM

The Herbarium consists of permanent reference and research collections of dried plant specimens housed in cases in the Department of Botany in the Biological Sciences Building. All groups of macroscopic algae, fungi, and plants are represented in the collection of more than half a million specimens. There are more than 220,000 specimens of seed plants and ferns. This includes the world's largest collection of British Columbia plants, one of the world's largest collections of tropical prayer plants (Marantaceae), as well as large collections from other parts of North America, the Hawaiian Islands, Europe, South Africa, South America, New Zealand, and Australia. The algae collection includes over 80,000 specimens of marine algae. This includes the world's largest collection of seaweeds from British Columbia and Alaska, and major collections from Washington, Oregon, Australia, New Zealand, Europe, Japan, and South Africa. The fungi collection includes over 38,000 specimens. This includes an excellent collection of Myxomycetes (slime molds) as well as representatives of most groups of true fungi. In addition, the lichen collection includes 30,000 specimens. The bryophyte collection contains over 220,000 specimens, of which over 180,000 are mosses and 35,000 are liverworts. It is the third largest bryophyte collection in North America, and the largest collection of British Columbia bryophytes. It also includes major collections from the rest of North America, Japan, Western Europe, Australia, and New Zealand.

Herbarium specimens are the basis for all documented identifications and geographical distributions of plants. The collections are studied taxonomically by the curators, other faculty and students, and researchers all over the world. The specimens are also a resource that can be used by scientists for chemical and molecular analysis. The Herbarium also keeps voucher specimens of plants which have been studied chemically, genetically, or in other ways. These voucher specimens provide permanent proof of the identity of the species that was actually studied. Foresters, archaeologists, ecologists, police, agriculturists, other government agencies, and the general public also use the Herbarium for plant identifications. More information about the Herbarium may be

obtained from the Botany website (www.botany.ubc.ca).

INTERNATIONAL HOUSE

International House (I. House) is a student centre for international and intercultural learning and is open to all members of UBC and their families. If you want to meet people, share your culture, and learn about the world, I. House is a great place to start.

I. House is home to UBC's International Student Advisors, Go Global: Student Mobility Programs, International House Community Programs, and YouLead. Each year I. House hosts GALA-International Orientations in August, January, and May, as well as UBC International Week in the spring.

You can come to I. House for:

- International Peer Program
- International student advising
- Student exchange information
- GALA-International Orientation
- ReachOut
- International volunteer opportunities
- Global Resource Centre
- Explore Canada / Explore the World programs: Leadership and Learning (UBC International Week); Language Support (Language Circles; ESL Classes; Conversation Club); Multicultural Wellness and Spirituality (My International Circle; Heart-Mind Community Circle; Yoga, Salsa, Kendo, Kung Fu, MSA Prayer) and a diversity of cultural programs
- TOP: Transition Out Program
- I. Volunteer Program: Mentorship, host programs, event planning, public relations, and community service projects are just some of the ongoing volunteer leadership opportunities at I. House

I. House is a place where everyone is welcome to drop in and get involved. It is surrounded by a peaceful garden and offers two lounges, a meeting room, a reading corner and global resource library, a piano, a big screen TV, and table tennis. I. House is available for booking for international learning activities by all members of UBC.

MORRIS AND HELEN BELKIN ART GALLERY

The UBC Fine Arts Gallery was established in 1948 and located in the basement of Main Library. During its early history, it was the only gallery in the Vancouver region to focus exclusively on contemporary art. In 1995, the Fine Arts Gallery was rededicated the Morris and Helen Belkin Art Gallery and moved to its current premises at 1825 Main Mall. In 2002, the Belkin Satellite gallery opened in downtown

Vancouver as an outreach site for the UBC Morris and Helen Belkin Art Gallery

The Morris and Helen Belkin Art Gallery's mandate is to research, exhibit, collect, publish, educate, and develop programs in the field of contemporary art and in contemporary approaches to art history and criticism. The Gallery is not limited to particular media or disciplines; however, special emphasis is placed on the areas of the Canadian avant-garde, emerging artists, Vancouver's post-war art history, and practices and projects that challenge the status quo. The University Art Collection, which is housed and administered by the Gallery, is the third largest public art collection in the province, containing more than 2,500 artworks and over 30,000 archival items.

Through a regular program of exhibitions, publications, loans, special projects, and exchange programs, the Morris and Helen Belkin Art Gallery participates in the national and international community of institutions concerned with contemporary art. The Gallery serves students, scholars, researchers, and the public on local, national, and international levels. The Gallery also collaborates with the UBC Department of Art History, Visual Art, and Theory, on the Masters of Arts in Critical and Curatorial Studies program.

The Morris and Helen Belkin Art Gallery is funded by the UBC Faculty of Arts, the Belkin Family Foundation Operating Endowment, the Belkin Gallery Endowment for Acquisitions and Exhibitions, private and corporate sponsorship, and government arts funding agencies.

MUSEUM OF ANTHROPOLOGY

The Museum of Anthropology (MOA) (www.moa.ubc.ca), founded in 1947, houses over 35,000 ethnographic artifacts. The Northwest Coast collection is outstanding, consisting of a broad range of materials, both ceremonial and domestic, some donated and others purchased.

MOA also contains extensive Asian, Pacific Islands, and Inuit collections along with classical materials from the Mediterranean. Other important collections include a worldwide collection of over 5,000 textiles and an extensive ceramics collection of which the Koerner collection of European ceramics forms a part.

The Laboratory of Archaeology is housed in the Museum and operates independently. Its collections are primarily the result of four decades of UBC faculty and student research in southwestern British Columbia.

The Museum of Anthropology is Canada's largest teaching museum. Collections from North American First Nations and Inuit cultures of both ancient and contemporary materials are used in teaching, especially in museum training courses, and in various anthropology courses as well as courses in other disciplines. They are also resources for research work by students, scholars, and community groups.

The spectacular building enhances the Museum's collection of massive carvings created by Northwest Coast First Nations' artists, and permits the public display of most of its ethnographic collections in the Research Collection gallery.

The Museum of Anthropology, with the Departments of Anthropology and Sociology and Fine Arts, offers theoretical and practical training in Museum Studies as a component of undergraduate and graduate degree programs. This training is also available to students of other related disciplines such as Asian Studies, Classics, History, and Education by permission of the relevant departments. In addition, the museum has a program of internships for students to gain practical experience as part of their studies.

The operations and programs of the Museum are funded in part by the Government of Canada through the Museums Assistance Program of the Department of Canadian Heritage and by the Province of British Columbia through the British Columbia Arts Council.

PACIFIC MUSEUM OF THE EARTH, THE

The newly created Pacific Museum of the Earth (PME) combines the collections of the former MY Williams Planet Earth Museum and the Pacific Mineral Museum. The museum includes displays of spectacular rocks and minerals, fossils, a seismograph and various exhibits relating to ocean and atmospheric sciences. This exhibit is the only one of its kind in British Columbia.

The most prominent display is the wall-mounted example of the dinosaur *Lambeosaurus*. This animal, 80 million years old, occupies a permanent position just inside the door. Minerals, rocks and fossils are drawn from departmental collections, individuals, and societies and total approximately 40,000 items. The museum offers exhibit tours free of charge to groups and K-12 school classes. For information on Earth and Ocean Sciences, the PME, and directions, please refer to our website below.

The Pacific Museum of the Earth
6339 Stores Rd.
Earth and Ocean Sciences Main Bldg.
Vancouver, BC V6T 1Z4
Tel: 604-822-6992

Hours: 9:00 am to 5:00 pm Monday to Friday.

PARKING AND ACCESS CONTROL SERVICES

Parking and Access Control Services is an ancillary operation of the University of British Columbia, the goals of which are to provide efficient and effective parking facilities for its customers and to meet the needs of the University community and its visitors.

Campus parking is a user-pay privilege. Several pay parking options are available on campus including parking permits, daily parking, and proximity parking in one of our five parkades, surface lots or metered spaces.

Parking Permits

Parking permits are sold at the Parking Office to allow students, faculty, and staff to park their vehicles in designated permit parking lots. Parking permits are not transferable.

There is more demand for parking than spaces available. Each year an Advanced Student Registration is held. Students may register starting in April on our secure website (www.ubcparking.com).

Parking is permitted only in areas which are clearly designated for parking. No parking is allowed on roadways, fire lanes, or in any area not designated or signed for parking.

Penalties for contravention of UBC Parking Regulations are ticketing and/or impoundment of vehicle. To avoid impoundment and other consequences all parking tickets must be paid. Late payment of Fees and Accounts: whereas the University may decline to allow subsequent registration of a student, or provide academic transcripts. The University may take legal action or utilize any other remedies that may be available to it, whether the outstanding obligation is owed by a faculty member, staff member, student, or other individual. Please see University Policy #67 (www.universitycounsel.ubc.ca/policies/policy67.pdf).

For further information call 604-822-6786 Monday to Friday, 8:30 am to 4:30 pm or visit the Parking and Access Control Services website (www.ubcparking.com).

ZOOLOGICAL MUSEUMS

The Zoological Museums contain material representative of both vertebrate and invertebrate taxa. They are housed in several rooms in the Biological Sciences building.

The Cowan Vertebrate Museum contains 17,400 catalogued mammal specimens, 15,200 birds, 2,100 clutches of bird eggs, and 1,600 amphibians and reptiles. Major historical accessions include the K. Racey collection of birds and mammals, the H.R. Macmillan bird collection, and the zoological collections of W.S. Maguire and J. Wynne. Major geographical

representation is for Western Canada. About half of the bird specimens date from before 1950. More information may be obtained from the museum website (www.zoology.ubc.ca/~vertmus/). This museum is now being run by part-time staff, so use is limited. Telephone: 604-822-4665.

The George J. Spencer Entomological Museum now contains about 600,000 specimens mostly from British Columbia and Yukon. Notable holdings include the Stace-Smith Collection of Coleoptera, the Foxlee collection of Diptera and Hymenoptera, the Downes collection of Hemiptera, and the Llewellyn-Jones collection of Lepidoptera. More information may be obtained from the museum website (www.insecta.com). This museum is now being run by part-time staff, so use is limited. Telephone: 604-822-3379.

The UBC Fish Museum has one of the two largest collections of fish in Canada with over 23,000 catalogued entries comprising over 800,000 specimens. Fifty percent of the collection is from North America and the remainder from throughout the world. In addition to preserved specimens, the collection is rich in skeletal and x-ray material. The data base is amenable to computer manipulation, permitting searching for specific geographical areas and/or faunal associations. For more information visit the museum website (www.zoology.ubc.ca/~etaylor/nfrg/fishmuseum.html). This museum is now being run by part-time staff, so use is limited.

AFFILIATED AND RESIDENTIAL COLLEGES

AFFILIATED THEOLOGICAL COLLEGES

The British Columbia *University Act*, R.S.B.C. 1996, c. 468 states that a "university must be non-sectarian and non-political in principle" (s. 66(1)), and further, that "[d]espite subsection (1), a theological college incorporated in British Columbia may be affiliated with a university under a resolution or order made by the senate and approved by the board" (s. 66(2)). At UBC, affiliated colleges have the right to representation of one member each on the UBC Vancouver Senate.

The granting of affiliation means that the college meets the criteria for affiliation established by the Senate of the University of British Columbia but does not imply any scrutiny or approval of the course offerings of the affiliate college by the Senate.

Carey Theological College

Brian F. Stelck, B.Ed., M.Ed., M.Div., Ph.D.,
President

Carey Theological College is the centre for pastoral studies and graduate internship programs for the Baptist Union of Western Canada. The College offers courses in applied theology, supervised field education, and continuing education programs for church leaders, including a Doctor of Ministry program, a Master of Pasto-

ral Ministry program, and, in cooperation with Regent College, a Master of Divinity.

Regent College

Rod J. K. Wilson, B.Sc., M.A., Ph.D., M.T.S.,
President

Regent College is an international graduate school of Christian studies. It is an autonomous body, trans-denominational in character and evangelical and Biblical in basis. Regent College offers graduate-level theological and interdisciplinary courses for lay men and women that lead to a one-year Diploma in Christian Studies, and a two-year Master of Christian Studies degree. A three-year Master of Divinity degree designed for men and women entering professional ministries, and a four-year Master of Theology degree are also offered. Summer Sessions consisting of one-, two- and three-week periods as well as a seven-week intensive Hebrew and Greek-Language Session are held each year. The College has formal affiliation with the university, and is fully accredited with the Association of Theological Schools in the USA and Canada.

Vancouver School of Theology

ANGLICAN, UNITED, PRESBYTERIAN,
UNITED METHODIST
Vancouver School of Theology (VST) is a multi-denominational graduate school of theology open to all interested in the study of the Christian faith. The School offers varied programs for all – lay and ordained. The School's goal is to be a centre for theological research and dialogue. It caters to both full and part-time students and, with a focus on educational competence, offers the following degrees:

- Master of Arts in Theological Studies (M.A.T.S.) degree. A two-year program. Five concentrations are offered: Spirituality, Spirituality and Spiritual Direction, Bible, History & Theology or Integrative Studies.
- Master of Arts in Religious Education (M.A.R.E.). A two-year degree designed to equip people for competent leadership in various forms of educational ministry in congregations and other religious institutions.
- Master of Divinity (M.Div.) degree. A three- to four-year program.
- Master of Divinity (Ordained) degree. A three- to four-year program for those interested in ordained ministry.
- Master of Theology (Th.M.) degree. A post-graduate degree for those who hold a Master of Divinity degree, offering thesis or general research options.
- Doctor of Ministry (D.Min.) degree. A post-graduate degree for those who hold a Master of Divinity degree, this program is designed to improve student's leadership abilities in interpreting and communicating the Gospel in ministerial contexts.

VST also offers one-year programs of general inquiry into theology, ministry and spirituality. Evening and weekend continuing education courses are also available to all.

As a member of the Native Ministries Consortium, VST offers a Master's of Divinity degree program by extension to prepare candidates identified and sponsored by Aboriginal communities and their churches for professional and lay ministry.

The VST Library is one of the major theological libraries in North America. It is open to all with a valid UBC Library card.

In 2004–05, Vancouver School of Theology is housed in the Chancellor Building, north of Gage Towers. VST is formally affiliated with UBC and is fully accredited by The Association of Theological Schools in the United States and Canada.

RESIDENTIAL COLLEGES

Carey Hall

Within the Carey Theological College, Carey Hall provides residence and dining facilities for 55 co-educational undergraduate UBC students, mostly in single rooms. The residence is currently under construction and will be available January 2005. Contact the main office at 604-224-4308 for further details.

Green College

Green College is a residential college for graduate students. See *Green College*, p. 288, under the Faculty of Graduate Studies, Centres and Institutes for further details.

St. Andrew's Hall

St. Andrew's Hall is a theological college of the Presbyterian Church in Canada on the campus of the University of British Columbia. It provides a multidisciplinary residential community located at the heart of the campus, immediately east of the Faculty of Law, for students and their families from all faculties and schools at the University. St. Andrew's is the centre for Presbyterian chaplaincy activities on campus. In conjunction with the Vancouver School of Theology, it offers degree and diploma programs in theological education. For further information on student accommodation, conference facilities, or chaplaincy services, contact the main office at 604-822-9720. More information may be obtained on the St. Andrew's website (www.standrews.edu).

St. John's College

St. John's College is a residential college for graduate students. See *St. John's College*, p. 288, under the Faculty of Graduate Studies, Centres and Institutes for further details.

ACADEMIC PRESSES

B.C. ASIAN REVIEW

Maiko Behr, Managing Editor. Tara Barnett, Tanya Boughtflower, Javier Cha, Courtney Loo, Editors

Established in 1987 by graduate students of the Department of Asian Studies, the *B.C. Asian Review* is a refereed journal of scholarly research in the humanities covering all regions of Asia. Produced in electronic format since 1998, the journal now invites critical feedback from a worldwide audience. The editors wel-

come submissions from graduate students, scholars and researchers at universities in Canada and abroad. Inquiries may be directed to:

CANADIAN JOURNAL OF CIVIL ENGINEERING

D.S. Mavinic, Editor

The *Canadian Journal of Civil Engineering* publishes papers in the various disciplines of civil engineering. The *Journal* publishes the views and findings of recognized researchers and practitioners from industry, government and universities. It also highlights new developments in civil engineering analysis, design, and construction. The *Journal*, which is now in its 30th year, is published bi-monthly in both electronic and hard copy form.

Don Mavinic, Professor of Civil Engineering at UBC, and the editor of the *Journal*, is assisted by an editorial board of 19 prominent civil engineers from across Canada, and by the Assistant to the Editor, Kelly Lamb, and the Office Assistant, Julie Sedger. The *Journal's* editorial office (cjce@civil.ubc.ca) is based in the Department of Civil Engineering at UBC.

PACIFIC EDUCATIONAL PRESS

Catherine Edwards, Director

Pacific Educational Press is an educational publishing house located within the Faculty of Education. It has been publishing educational and general interest titles since 1971. Over 250 titles have been published, and almost 80 are currently in print. The press publishes textbooks for use in teacher-education programs, scholarly books in education, general books on issues in education, professional books for teachers, and books for use in school programs. The press has also produced school textbooks under contract to the ministries of education.

Subject area interests of the press include literature and language education; fine arts, drama, and music education; mathematics, environmental, and science education; social studies education and related areas such as multiculturalism and anti-racist education, First Nations education, and global education; use of computers and alternative media in education; his-

tory and philosophy of education; and contemporary issues in education.

PRISM INTERNATIONAL

Amanda Lamarche, Catharine Chen, Editors
Brenda Leifso, Executive Editor
George McWhirter, Andrew Gray, Advisory Editors
Jennifer Herbison, Design & Production Manager

PRISM international is a literary journal published by the Creative Writing Program. It features poetry, fiction, drama, creative non-fiction, and translation by emerging and established authors from Canada and around the world. 1999 marked *PRISM's* 40th anniversary, making it western Canada's longest running literary magazine. In 2003, *PRISM* won first prize in poetry at the Western Magazines Awards for Marlene Cookshaw's "Dial" and "Pocket-watch." *PRISM* also won the silver medal for fiction at the National Magazine Awards for Michael V. Smith's "What We Wanted." "What We Wanted" and William Metcalfe's story "Nice Big Car, Rap Music Coming Out the Window" (42.1), also appeared in the prestigious Journey Prize Anthology.

For individual subscription rates to *PRISM International* (Literary Quarterly), visit our website (prism.arts.ubc.ca) or email us (prism@interchange.ubc.ca).

Annual Short Fiction Contest: deadline January 31 of each year, First Prize \$2,000.00, runners up \$200.00 each. Annual Prize for Literary Non-Fiction: deadline September 30, First Prize \$500. Annual Earle Birney Poetry Prize, \$500.00. More information is available on the *PRISM* website (prism.arts.ubc.ca).

THE THUNDERBIRD

The Thunderbird (www.tojr.ca) (UBC Online Journalism Review) is a student-run online publication – the only one of its kind in Canada – devoted to media issues, criticism, and developing new models of journalism. *The Thunderbird's* content includes a selection of news stories, analysis, opinion, and creative non-fiction about a wide range of topics from the local to international level. The publication is run from UBC's School of Journalism.

The University of British Columbia bears no responsibility whatsoever for the content of the student publication.

UBC PRESS

R. Peter Milroy, Director
Jean Wilson, Associate Director, Editorial
George Maddison, Associate Director, Marketing and Operations
Holly Keller, Assistant Director, Production and Editing
Melissa Pitts Assistant Director, Toronto Office

Since its founding in 1971, UBC Press has become a nationally and internationally recognized leader in scholarly book publishing. Through innovation, resourcefulness, and a commitment to the highest professional standards it seeks to advance knowledge, contribute to the community of scholarship, and engage society. The Press publishes peer-reviewed works written by scholars from the University of British Columbia and other Canadian and non-Canadian universities, as well as by writers who are not members of the academic community but whose work meets the Press's criteria. To ensure that rigorous standards are maintained in work associated with the University's imprint, UBC Press books must be approved by a Publications Board consisting of faculty members appointed by the President to assess the peer review process. The Press markets and distributes its books in Canada and works with a network of sales agents, distributors, and library jobbers throughout the world to ensure international distribution.

In addition to its role as a publisher, the Press is a major Canadian marketing agent for scholarly and reference works from other scholarly and academic publishers from Canada, the US, UK, Australia, and Asia.

Recognizing that a publisher of books for specialist audiences serves its authors and audience best through a strategy of publication in selected areas, the Press in the last decade has focused primarily on the social sciences. The main areas in which UBC Press publishes are Canadian and British Columbian history, Native studies, political science, law, Asian studies, environmental studies, forestry, natural history, geography, sociology, urban studies, Northern studies, archaeology, anthropology, and linguistics.

The Press frequently co-publishes books with university presses and museums in the United States, Asia, Australia, and Europe.

The UBC Press main office at 2029 West Mall houses the Press's editorial, marketing, and production departments. An eastern office is located at 587 Markham Street, 2nd floor, Toronto, ON M6G 2L7; telephone 416-535-9670, fax 416-535-9677. There is also a Kelowna office: telephone 250-764-4761, fax 250-764-4709. Queries about publication should be addressed to Jean Wilson (wilson@ubcpres.ubc.ca), Associate Director, Editorial.

Shipping and warehousing are done by UniPresses, 34 Armstrong Avenue, Georgetown, ON L7G 4R9; telephone 905-873-2750, toll-free telephone: 1-877-864-8477, fax 905-873-6170.

Information and catalogues of recently published books and all books in print are available from UBC Press, 2029 West Mall, Vancouver, BC, V6T 1Z2, Canada. To access electronic books-in-print listings and other information about the Press, see the UBC Press website (www.ubcpres.ca), telephone 604-822-5959, fax 604-822-6083, or contact UniPresses.

VII Research Units, Centres, and Institutes

INTRODUCTION

The University of British Columbia has a long-standing tradition of excellence in research in all fields. The biomedical and health sciences work with the social sciences and humanities to improve health, health care, and quality of life. The basic sciences, as well as engineering and architecture build our understanding of nature, the universe, and the wellspring of inventions that enhance life on this planet. Work in the humanities and social sciences help us understand ourselves—individually and collectively, historically and cross-culturally, pragmatically and imaginatively. The agricultural sciences, forestry, sustainability, and the environment focus on matters fundamentally important to human sustenance. The University is committed to discipline-based traditions of inquiry, while fostering interdisciplinary initiatives that allow research groups to pursue avenues that could not be as fully explored within disciplinary boundaries.

Not all research units, centres, and institutes are currently listed in this chapter. Please refer to the UBC Research website (www.research.ubc.ca) or individual faculties for further listings of research activities at UBC.

VICE-PRESIDENT RESEARCH

OVERVIEW

Dr. John Hepburn, Vice-President, Research

The Vice-President Research has a wide range of administrative functions that are both internal and external to the University. The general mandate is as follows:

- to be a champion of, and advocate for, research among UBC's internal and external communities;
- to foster collaborations in research, creative, scholarly, and professional activities among scholars in various fields both within and outside UBC;
- to foster an environment that ensures that faculties, schools, colleges, and the library receive efficient support services relating to research administration and information on funding sources, grant procedures, and other relevant matters;
- to establish and maintain effective liaison with agencies and institutions such as the national granting councils, research foundations, teaching hospitals, as well as with external research centres, business, industry, government, and the public;

- to promote technology transfer and oversee the management of intellectual property issues;
- to foster international linkages and research collaboration; and
- to promote and ensure ethical research practices.

Reporting units under the direction of the Vice-President Research include: Animal Care Centre, Office of Research Services, University-Industry Liaison Office, the Peter Wall Institute for Advanced Studies, and UBC Press. In addition, a number of regulatory committees report to the Vice-President Research: The UBC Animal Care Committee, the UBC Biosafety Committee, the Chemical Safety Committee, the UBC Behavioural Research Ethics Board, the UBC Clinical Research Ethics Board, and the Radiation and Radioisotopes Screening Committee.

For more information visit the Office of the Vice-President Research website (www.research.ubc.ca).

ANIMAL CARE CENTRE

The Animal Care Centre (ACC) is responsible for the welfare of all animals on the University campus and in University departments located at affiliated hospitals. Animal health is monitored by veterinary staff and by regular health surveys, particularly of the rodent population.

Assistance is provided to researchers in developing proposals using animals and in carrying out technical aspects of the animal-related components. Research activities are monitored to ensure compliance with the protocols approved by the UBC Committee on Animal Care (www.acc.ubc.ca) under the guidelines of the Canadian Council on Animal Care.

OFFICE OF RESEARCH SERVICES

The Office of Research Services (ORS) (www.orsil.ubc.ca) serves a dual role in the area of research funding: service to researchers, and responsibility to the University for the application of policies and procedures.

Services include: maintaining a website providing research funding information (e.g., grant-competition deadline dates, application form templates and guidelines); personal communication/consultation regarding appropriate funding sources; departmental presentations by Office staff, and organization of presentations by granting agency representatives; development and implementation of the Researcher Information Service (RISe) allowing researchers to interact via the web with all ORS services.

The Office processes all grant applications and awarded funds, establishes project grants (PGs), and administers fund transfers to/from UBC. The Office also provides the secretariat and management for the review of research involving humans, animals, or biohazardous materials.

The ORS responsibilities to the University include: the vetting of signatures on grant applications and final approval on behalf of the University; compliance with UBC policies and external funding agency requirements/conditions; the administration of procedures for review of projects involving human subjects, animals, and biological hazards; the maintenance of databases of applications; funded research; reviews of projects involving human subjects, animals, and biological hazards; and the production of reports and statistics on research funding.

UNIVERSITY-INDUSTRY LIAISON OFFICE

The University-Industry Liaison Office (UILO) facilitates the exchange between industry and UBC's academic researchers. The UILO negotiates research agreements with industry and supports the commercialization of technological innovations arising from UBC and its affiliated hospitals.

UBC is one of Canada's top research universities. In the 2004/2005 fiscal year, UBC received \$364 million in sponsored research funding that supported close to 6,000 research projects. Research activities lead to an annual average of 143 invention disclosures. It is the UILO's responsibility to evaluate, protect, market, and license those inventions that have commercial application. Through technology transfer, UBC supports BC's growing high technology industries, and contributes to the economic development and diversification of the region.

UILO activities include: protecting the intellectual property assets of UBC; managing the further development of UBC technologies; licensing UBC research discoveries; fostering the creation, development, and early success of spin-off companies formed around UBC technologies; identifying sources of industry and government research funding and opportunities for collaborative research; serving as an information and networking resource for industry on UBC technologies, research expertise and facilities; and providing education programs and awareness both on and off-campus regarding the sponsored research and technology transfer process.

For more information on the UILO including resources, reports, and statistics on UBC technology transfer activities, please visit the UILO website (www.uilo.ubc.ca).

PETER WALL INSTITUTE FOR ADVANCED STUDIES

The Peter Wall Institute for Advanced Studies was established to support fundamental, interdisciplinary research and creative activities that have the potential to result in significant advances to knowledge. See *Peter Wall Institute for Advanced Studies*, p. 82, in this chapter under “Institutes” for further information.

UBC PRESS

Since its founding in 1971, UBC Press has become a nationally and internationally recognized leader in scholarly book publishing. Through innovation, resourcefulness, and a commitment to the highest professional standards it seeks to advance knowledge, contribute to the community of scholarship, and engage society. See *UBC Press*, p. 72, in Chapter 6, “Services, Facilities, and Organizations” for further information.

CENTRES

APPLIED CONSERVATION RESEARCH, CENTRE FOR

Peter Arcese, Sarah Gergel, Directors

The Centre for Applied Conservation Research (CACR) was established to find science-based solutions to complex conservation problems within managed and natural landscapes. CACR conducts research on applied conservation issues in British Columbia and elsewhere in the world. A major goal is to further sustainable forest management through the application of research to complex land management issues. CACR's research assists with both planning and determining the effectiveness of improved management practices. CACR provides opportunities for high-calibre graduate students to work on issues that are both complex and immediately relevant. CACR also encourages an effective dialogue with people working outside the University, to ensure the continued relevance of our research and to provide people with access to the most current research information. Housed within the Forest Sciences Centre, the Centre is closely associated with the Departments of Zoology, Botany, and Geography, and with the *Biodiversity Research Centre*, p. 74. Research activities are profiled on the CACR website (www.forestry.ubc.ca/conservation).

Centre for Applied Conservation Research
Forest Sciences Centre
The University of British Columbia
2045—2424 Main Mall
Vancouver, BC, V6T 1Z4
Tel: 604-822-6761

BIODIVERSITY RESEARCH CENTRE

D. Schluter, Director

A unit within the Faculty of Science

The Biodiversity Research Centre is concerned with all aspects of biodiversity research. Faculty members and their students from the Departments of Botany, Earth and Ocean Sciences, Microbiology and Immunology, and Zoology are cooperating to investigate the measurement of biological diversity, the role of biodiversity in ecosystem function, the origins of biodiversity, factors endangering biodiversity, uses of biological diversity, and the many aspects of biodiversity conservation. The BRC is closely associated with the *Centre for Applied Conservation Research*, p. 74, and the *Fisheries Centre*, p. 75. For more information contact the Centre (biodiversity.centre@ubc.ca) or visit the Biodiversity Research Centre's website (www.zoology.ubc.ca/biodiversity).

BLOOD RESEARCH, CENTRE FOR

Dr. Ross T. A. MacGillivray, Director

The Centre for Blood Research is a multi-disciplinary unit that offers facilities and opportunities for graduate study in transfusion science through the academic departments of its faculty members. The academic appointments of the faculty members in the Centre for Blood Research span seven faculties and thirteen departments at UBC. Research activities are organized into four general themes: (1) the blood plasma proteome as a diagnostic and therapeutic resource, (2) optimizing value derived from donor platelets, (3) creation of artificial blood components, and (4) social and psychological aspects of blood donation.

Graduate students wishing to work with faculty members in the Centre for Blood Research should identify their research interests, associate these with specific faculty members, and phone or write to the faculty member directly. Information on these training opportunities is available upon request from the Centre for Blood Research, or on the Centre for Blood Research website (www.cbr.ubc.ca).

BRAIN RESEARCH CENTRE

Max Cynader, Director

The Brain Research Centre is a unique partnership between Vancouver Coastal Health (www.vch.ca/home_page/index.htm) and the Faculty of Medicine (www.med.ubc.ca) at UBC. The Centre aims both to advance knowledge of the brain and to explore new discoveries and technologies that have the potential to reduce the suffering and cost associated with disease and injuries of the brain.

The Brain Research Centre includes over 160 investigators with broad expertise in neuroscience research ranging from the test tube, to the bedside, to industrial spin-offs. Headquartered at the UBC Hospital site of Vancouver Coastal Health, the Centre operates as a hub-and-spoke facility, with teams of neuroscientists located at the UBC campus and other locations in Vancouver and beyond.

The Centre employs a strong multidisciplinary approach, combined with a scientific philosophy of cooperation and collaboration among the researchers, students, and technicians who are exploring common origins and overlapping features of neurological and psychiatric disorders. More information is available on the Brain Research Centre website (www.brain.ubc.ca).

CANADIAN CENTRE FOR THE CULTURE OF MICROORGANISMS

The Canadian Centre for the Culture of Microorganisms (CCCM) maintains living specimens of marine phytoplankton, freshwater microalgae, and fungal isolates for research, teaching, and commercial use. This facility represents an amalgamation of three living collections:

- The Northeast Pacific Culture Collection of marine phytoplankton (NEPCC), which originated in the late 1960s in the Department of Oceanography under the administration of Dr. F. J. R. Taylor;
- The Freshwater Algal Culture Collection of the Department of Botany (likewise established more than 30 years ago by Dr. Janet Stein); and
- The Fungal Collection of Dr. Robert Bandoni, Emeritus Professor of Botany at UBC.

The Canadian Centre for the Culture of Microorganisms is the only facility of its kind in Canada and is one of the most comprehensive in the world. The marine phytoplankton collection currently consists of 207 strains, representing 11 algal classes and all the major algal groups. The major emphases are on local species of ecological and toxicological importance and on those that may be of importance in biotechnology. Currently, 35% of the isolates are from BC waters and the remainder are from tropical and other temperate regions. A unique feature of the CCCM is the inclusion of various species of oceanic microflagellates isolated from the northeast Pacific, and the dinoflagellate collection is one of the largest in the world. The freshwater algal collection currently consists of approximately 68 strains representing 9 algal classes, while the fungal collection contains 1190 strains of filamentous fungi and 696 strains of yeast, many of which are unique to the CCCM. These collections have been declared by the National Biotechnology Advisory Committee as being of “strategic value to Canadian Biotechnology” and of “unique scientific importance”.

Cultures are supplied for teaching, research, and commercial purposes at UBC and worldwide. A nominal fee is charged to cover processing costs, unless an exchange of cultures can be arranged. Further information, including a current list of species in culture and relevant technical data, is available on the Department of Botany website (www.botany.ubc.ca). The CCCM is located in the Department of Botany in the Biosciences Building and may be reached by telephone at 604-822-4825, fax 604-822-6089, or email (cccm@interchange.ubc.ca).

CROSS-FACULTY INQUIRY IN EDUCATION, CENTRE FOR

A unit within the Faculty of Education

Established originally as the Centre for the Study of Curriculum and Instruction in 1976, the Centre for Cross-Faculty Inquiry in Education (www.ccfi.educ.ubc.ca) combines the features of both a research and program unit. The Centre fosters collaborative inquiry on education-relevant themes of cross-faculty interest, at the same time offering graduate courses and programs on cross-faculty themes in Education.

FISHERIES CENTRE

D. Pauly, Director

A unit within the Faculty of Graduate Studies

The Fisheries Centre mission is to research the options for restoring fisheries, conserving aquatic life, and rebuilding ecosystems. Fisheries Centre work integrates research on ecological, social, and economic aspects of fisheries. In addition, the Fisheries Centre trains a diverse and international mix of graduate students.

The Fisheries Centre aims to focus and promote the multidisciplinary study of fisheries. Analytical tools developed in a broad spectrum of parent subjects, including biology, oceanography, economics, and planning are employed in order to assess, appraise, and forecast the impacts of both human and natural processes on fishery resources.

Fisheries policy and management problems under study include assessment and management of artisanal and commercial food capture fisheries, ecosystem impacts of fishing, multidisciplinary evaluation of the health of fisheries, recreational fisheries, coastal and watershed management, conflict resolution and co-management of shared fishery resources, marine resource consumption, and the conservation of threatened and exploited species in both marine and freshwater environments. Major objectives are to establish a fully international, multidisciplinary perspective, and to provide a forum for the foundation of concepts of management and sustainable development of fisheries.

The Fisheries Centre conducts grant- and contract-based research, organizes courses, seminars, workshops, and professional training courses. The resulting publications aim to promote a deeper understanding of management of fisheries resources around the globe. The Fisheries Centre forms a base for a research community of faculty, research associates, post-doctoral fellows, graduate students, and off-campus adjuncts. It provides a Resources Centre and Local Area Network comprising reference material and computing facilities for analysis and assessment of fisheries.

At present, in addition to individual faculty researching a number of topics (C. Walters: population dynamics; T. Pitcher: ecosystem reconstruction; S. Martell: population dynamics; V. Christensen: ecosystem modeling), five research units conduct coordinated research within the Fisheries Centre. The Marine Mammal Research Unit (Director,

Dr. Andrew Trites) conducts multidisciplinary research on marine mammals in the field, in captivity, and in the laboratory. It addresses pressing questions relevant to the natural history, biology, and conservation of marine mammals, and provides independent research and advice on these matters. The Sea Around Us Project (Principal Investigator, Dr. Daniel Pauly) studies the impact of fisheries on marine ecosystems. Project Seahorse (Director, Dr. Amanda Vincent) works to advance conservation and sustainable use of the world's coastal marine ecosystems. The Fisheries Economics Research Unit (Director, Dr. Ussif Rashid Sumaila) explores how ecosystems can provide sustainable and equitable economic and social benefits to both present and future generations. Finally, the BC Government Aquatic Ecosystem Science Section, an affiliated unit, works on freshwater management, mitigation, and recreational fisheries in the province.

Although housed in the Centre, graduate students within the Fisheries Centre are attached to the RMES interdisciplinary program, to Zoology, Geography, Economics, Animal Science, or other programs as appropriate to their research project. The Fisheries Centre organizes a series of graduate courses on fisheries topics and issues. Full details are available on request.

The Fisheries Centre

HEALTH SERVICES AND POLICY RESEARCH, CENTRE FOR

See the *College of Health Disciplines*, p. 292, in the "Faculties, Colleges, and Schools" chapter of the Calendar for details on this centre.

HUMAN SETTLEMENTS, CENTRE FOR

Anthony H.J. Dorsey, Chair

A unit within the Faculty of Graduate Studies

The Centre for Human Settlements (CHS) conducts multi-disciplinary research, and capacity-building programs related to regional, urban, and community development. The Centre is a unit within the School of Community and Regional Planning (www.scarp.ubc.ca). Faculty and student associates from various departments participate in CHS projects.

See also *The School of Community and Regional Planning*, p. 175.

INTERCULTURAL LANGUAGES STUDIES, CENTRE FOR

Dr. Kenneth Reeder, Dr. Christine Rouget, Acting Directors

The mission of the Centre for Intercultural Language Studies is to facilitate, coordinate, enhance and promote the study of intercultural communication and the teaching and learning of languages in an intercultural context.

The Centre's main goals are to contribute to the study of intercultural communication and the professionalization of language and culture instruction both at UBC and more broadly in British Columbia through research, teaching, and outreach. For more information visit our website (www.lerc.educ.ubc.ca/fac/duff/cils/index.htm) or, contact Dr. Kenneth Reeder (kenneth.reeder@ubc.ca) at 604-822-5764 or Dr. Christine Rouget (christine.rouget@ubc.ca) at 604-822-4035.

INTERNATIONAL BUSINESS STUDIES, CENTRE FOR

Dedicated to the promotion of research in the fields of international business and trade, the Centre for International Business Studies (CIBS) is committed to the dissemination of information concerning international trade and investment to businesspeople, government officials, faculty, and students.

The research of the Centre includes a mix of applied theory, empirical studies and policy papers. Faculty members form the leading research group in Canada in subject areas including: international trade and investment theories and policies, international finance, and transportation. The Centre also has a leading team of researchers specializing in Asian business. Some of the current research projects in the Centre include international trade between consumer and conservationist countries, scale effects of North American trade liberalization, international capital-market integration, dynamic behaviour of international joint ventures, and the convergence of regional and multilateral trade regimes.

In addition to its research programs, the Centre promotes international exchanges of students. It also funds undergraduate and graduate seminars on international business and executive programs focusing on trade and investment. For more information visit the CIBS website (cibs.commerce.ubc.ca) or telephone 604-822-9406.

INTERNATIONAL CANADIAN STUDIES CENTRE

Richard Cavell, Director

Canada is increasingly being studied internationally and in terms of its international contexts. The ICSC positions itself collaboratively and entrepreneurially with particular regard to the *circa* 300 Canadian Studies programs around the world through programs of Visiting Scholars and Professors, international symposia and conferences, and in its support of international research consortia.

Graduate Associates support graduate research and international exchange, and enhance undergraduate learning and research through a mentoring program for Majors in Canadian Studies facilitated by the Associates.

The Centre is administered by a Director, an Associate Director (who is also Chair of the Program in Canadian Studies) and a Board of Directors, appointed from senior scholars in the University, including the McLean Chair in Canadian Studies. It also takes advice from an Honorary Board and an International Advisory Committee.

For further information, visit the website (www.canadianstudies.ubc.ca) and contact the Director (icsc@interchange.ubc.ca).

INTERNATIONAL CENTRE FOR CRIMINAL LAW REFORM AND CRIMINAL JUSTICE POLICY

Kathleen Macdonald,
Acting Executive Director

The International Centre for Criminal Law Reform and Criminal Justice Policy was established in 1991 in Vancouver. It is a joint initiative of the University of British Columbia, Simon Fraser University, and the International Society for the Reform of Criminal Law. The Centre is affiliated with the United Nations and is an interregional institute in the UN Network of Institutes on Crime Prevention and Criminal Justice. The Centre is housed at UBC.

The International Centre's association with the University of British Columbia and Simon Fraser University allows it to marshal effective interdisciplinary teams for work in criminal law and criminal justice policy research and education.

The Centre's primary role is to contribute to international criminal justice policy development through analysis, research, and consultation, and to provide technical assistance to implement international policy and standards. The program focus for the Centre is threefold: international criminal law; protection of human rights through criminal law in national systems; and criminal law responses to emerging threats to human security.

The International Centre for Criminal Law Reform and Criminal Justice Policy
The University of British Columbia
1822 East Mall
Vancouver, BC V6T 1Z1

INTERNATIONAL HEALTH, CENTRE FOR

See the *College of Health Disciplines*, p. 292, within the "Faculties, Colleges, and Schools" chapter for details on this centre.

INTERNATIONAL RELATIONS, CENTRE OF

B. L. Job, Director
A unit within the Faculty of Graduate Studies

The Centre of International Relations (CIR), a component of the Liu Institute for Global Issues, is a research institute within the Faculty of Graduate Studies. Its purpose is to facilitate internationally-oriented, interdisciplinary research and teaching among the faculty and students of UBC and other institutions. The Centre administers projects and grants, organizes conferences, sponsors seminars and lectures, and hosts postdoctoral fellows and visiting scholars. The Centre of International Relations is one of the longest standing of its kind within Canada.

Faculty members, postdoctoral fellows, and graduate students, from a range of disciplines, including political science, law, commerce, history, economics, and other social sciences, are involved in the Centre's activities. The Centre collaborates with other campus units, especially the Liu Institute for Global Issues, the Institute of Asian Research, the Institute for European Studies, and with Simon Fraser University and other institutions both in Canada and abroad. The Centre operates as headquarters for the Canadian Consortium on Human Security and the Canadian Member Committee of the Council on Security Cooperation for the Asia Pacific.

The current research agenda of the Centre is focused on the transformation of the international system in the post-Cold War era—on Canada's role in this international order, on the formation of international regimes to manage global issues, and on international security, especially Asia-Pacific security.

The Centre sponsors projects, conferences, lecture series, and publishes a Working Paper series. See www.cir.ubc.ca for further information.

The Centre does not offer courses or degree programs. Inquiries concerning graduate studies in international relations should be directed to the Department of Political Studies and the Faculty of Graduate Studies.

The Centre of International Relations

6476 NW Marine Drive
Vancouver, BC V6T 1Z2
Tel: 604-822-5480
Web: www.cir.ubc.ca

JAMES HOGG ICAPTURE CENTRE FOR CARDIOVASCULAR AND PULMONARY RESEARCH

Peter Pare, Director
Bruce McManus, Co-Director

Among the important challenges for biomedical researchers, discovering the inter-individual variations in the genetic code of patients and model systems and how these differences interact with diverse environments to produce disease is one of the most compelling. The James Hogg iCAPTURE Centre (Imaging, Cell Analysis, and Phenotyping Toward Understanding Responsive, Reparative, Remodelling, and Recombinant Events) is a UBC Senate-approved research centre supported collabora-

tively by the Faculty of Medicine of UBC and Providence Health Care.

Investigators and trainees in the iCAPTURE Centre are now using the best available technology to image and measure changes in molecules, cells, tissues, organs, and whole organisms, including patients, in order to understand the link between our genes and environments in causing heart, lung, and blood vessel diseases. The role of inflammation and virus infections in the initiation and progression of disease is a central theme of emphasis for the 250 staff of the Centre. Efforts to integrate complex datasets by the establishment of novel software underlie the life sciences program. Synergy with numerous scientists across faculties at UBC and elsewhere has been fostered to enable the work. The iCAPTURE Centre offers various training and research programs and facilities to students and partners. iCAPTURE is located at UBC's campus of St. Paul's Hospital. More information is available on the iCAPTURE website (www.icapture.ubc.ca).

MEDIA AND GRAPHICS INTERDISCIPLINARY CENTRE

S. Fels, Director
A unit within the Faculty of Graduate Studies

The Media and Graphics Interdisciplinary Centre (MAGIC) was created at UBC to foster research covering the entire spectrum of new computer-based and computer-associated media. Typical examples include multimedia, computer animation, 3-D modeling, interactive Web-based applications, hypermedia, computer music and computer-based tools for collaboration in education, medicine and entertainment. The Centre highlights the commitment of UBC to the use of advanced media technology, and brings together existing efforts and new initiatives from various research programs. MAGIC serves as a catalyst to assimilate and exploit new technology in research and education at UBC and to strengthen interaction with industry through collaborative research. Projects affiliated with MAGIC have their own funding, although MAGIC provides shared facilities and personnel to assist in the start-up phases of projects and in the design and evaluation of research prototypes. MAGIC does not grant degrees directly. Students earn degrees in existing programs, conducting research within MAGIC projects.

Specializations

HUMAN COMPUTER INTERACTION (HCI)
The Media and Graphics Interdisciplinary Centre coordinates a Specialization in the field of Human Computer Interaction (HCI). Human-Computer Interaction is an interdisciplinary field of study that explores human behaviour in technology-rich environments with the goal of informing the design and testing of new technologies. MAGIC does not grant degrees; however, students earning degrees in participating departments can specialize in Human-Computer Interaction by successfully completing the Specialization requirements in addition to the requirements

necessary for their Masters degree. Students who meet the requirements for the Specialization will have the following added to their Master's degree: "Specialization in Human-Computer Interaction". The Specialization in HCI, along with the transcript and the endorsement of the program, will identify Masters Graduates as having attained special training in the interdisciplinary field of HCI.

Contact Information

Additional information on MAGIC or the Specialization in Human Computer Interaction may be obtained directly from the Director of the Media and Graphics Interdisciplinary Centre (MAGIC), 3640 Forest Science Centre, 2424 Main Mall, Vancouver, BC, V6T 1Z4, Canada; Tel: 604-822-8990; or by visiting the MAGIC website (www.magic.ubc.ca).

MOLECULAR MEDICINE & THERAPEUTICS, CENTRE FOR

Michael Hayden, Director

The Centre for Molecular Medicine and Therapeutics (CMMT) is a research centre dedicated to the practice of discovery research contributing to fundamental knowledge in the determination and control of genetic susceptibility to disease. CMMT's specific mandate is to increase understanding of cellular and protein function as the key to improved diagnosis, treatment, and prevention of health problems in children and adults.

The CMMT promotes research excellence and innovation, providing flexible funding to researchers and an environment that enhances the ability to reach goals in a time effective manner. Infrastructure and support at the CMMT include a bioinformatics facility, expression profiling, DNA sequencing, antibody production, world-class facilities for mouse genetics (transgenics, breeding, and behaviour testing), and a facility for experimental therapeutics in animal models of human disease.

Graduate students and scientists with special interests in genetics, model organisms, cellular mechanisms, computational biology, pharmacogenetics, developmental biology, experimental therapeutics and proteomics are encouraged to apply for positions. For more information please visit CMMT's website (www.cmmt.ubc.ca).

OPERATIONS EXCELLENCE, CENTRE FOR

Eric Cope, Director

A unit within the Faculty of Commerce and Business Administration (otherwise known as the Sauder School of Business)

The Centre for Operations Excellence (COE) administers the Master of Management in Operations Research (MM in OR) program in the Faculty of Commerce and Business Administration (otherwise known as the Sauder School of Business) at UBC. The MM in OR program is a unique master's program that works closely with students to develop and realize their goals by providing an advanced education and the

opportunity to apply their knowledge and skills in a professional business environment.

The COE partners with leading companies to formulate and solve operations research problems using advanced management science methods. A COE project combines the enthusiasm of hard-working graduate students with the knowledge and expertise of the Operations and Logistics Division of the Faculty. An outstanding project team comprised of students, faculty, and staff will work with you to discuss potential outcomes and develop a project plan tailored to your specific needs. A COE project will bring you a solution to a challenging problem and add significant value to your organization.

The industry project is the cornerstone of the program. Every MM in OR student conducts an intensive 5-month applied project with a COE Industry Partner that addresses a significant operational issue. Students gain practical outlets and new ideas for their research, and further enhance their professional skills through interaction with leading companies in a corporate environment. Working closely with Sauder faculty and COE project leaders, students use the latest decision tools and technologies to make concrete recommendations to senior executives of some of the most prominent companies in Western Canada.

PHELPS CENTRE FOR THE STUDY OF GOVERNMENT AND BUSINESS

Thomas W. Ross, Director

A unit within the Faculty of Commerce and Business Administration (otherwise known as the Sauder School of Business)

The Phelps Centre for the Study of Government and Business is a research centre within the Faculty of Commerce and Business Administration (otherwise known as the Sauder School of Business). The Centre supports theoretical and applied research into the role of governments in the Canadian economy and into the relationship between government and business in Canada. The twin foci of this research will be on normative questions about the way governments should operate to best serve their constituents, and on positive questions about the causes and effects of actual government activities.

The Centre carries out its mandate through a number of activities including the support of research through, for example, small research grants, commissioned papers, and conferences. The Centre also supports research and education through dissemination activities, including its own working paper series, a seminar series,

a public policy luncheon series, and the establishment of a public website. The Centre is the home of the UBC Election Stock Market Project and of the Canadian Competition Policy Web Page Project. The Centre (together with the Department of Civil Engineering) has recently launched the UBC P3 Project, a large research and teaching initiative aimed at improving our knowledge of how public-private partnerships (P3s) can be used by governments to provide public services in Canada and elsewhere.

PHILLIPS, HAGER & NORTH CENTRE FOR FINANCIAL RESEARCH

Ron Giammarino, Director

A unit within the Faculty of Commerce and Business Administration (otherwise known as the Sauder School of Business)

To remain on the leading edge of business education, the Faculty of Commerce and Business Administration (otherwise known as the Sauder School of Business) must be at the forefront of financial research. The Phillips, Hager & North Centre for Financial Research was established as the umbrella of Finance Division activity and coordinates the Division's research and educational activities around four broad themes: understanding and managing financial risks; understanding and evaluating the financial policies of corporations; understanding and evaluating financial regulation; and understanding the determinants of financial values. Within these four areas, the Centre will pursue research designed to produce substantive insights into critical industry challenges—insights that help to strengthen institutional performance.

The Centre will build upon this research foundation and the strong industry-faculty interactions that currently exist to enhance the educational experience of our students. Research papers and breakfast briefings will all be supported through the activities of the Centre. In addition, research will be brought to bear on issues that are of more immediate and practical importance through conferences and applied research projects.

PROSTATE RESEARCH, UBC CENTRE FOR

Larry Goldenberg, M.D., F.R.C.S.C., F.A.C.S.,
Director

The UBC Centre for Prostate Research is recognized world-wide as a comprehensive, multi-disciplinary hub for research, treatment, and education in prostate disease. Our primary research goal is to better understand prostate cancer, and to accelerate the discovery of therapeutics to control progression of the disease to treatment-resistant androgen independence.

The Centre is home to internationally renowned scientists and clinicians with expertise in functional genomics, nucleotide therapeutics, androgen receptor studies, antisense technology, viral-based gene therapies, cell signaling, genetic epidemiology, pharmacokinetics, magnetic resonance imaging (MRI) research, environmental impact on tumorigenesis, patient education, and population-based clinical trial development and implementation (translational research).

The Centre's programs continue to expand, thanks to significant grant funding and philanthropic donations. Graduate students, clinicians and researchers wishing to work at the Centre for Prostate Research are encouraged to contact the Centre directly. Contact information is available at our website (www.prostatecentre.com).

PULP AND PAPER CENTRE

The Pulp and Paper Centre houses collaborative research and teaching programs between UBC and the Pulp and Paper Research Institute of Canada (Paprican). Affiliates of the Centre drawn from University faculty members supervise graduate student research in a variety of engineering fields. These academic activities are linked to the industry through Paprican's post-graduate program founded more than eighty years ago at McGill University. More information is available on the Pulp and Paper Centre's website (www.ppc.ubc.ca).

UBC CENTRE FOR RESEARCH ON ECONOMIC AND SOCIAL POLICY

TBA, Director

The UBC Centre for Research on Economic and Social Policy (CRESP), established in 1992, is a centre for multi-disciplinary policy-relevant research in the social sciences. The Centre is based in the Faculty of Arts and has an advisory board from various departments in both the

Faculty of Arts and other faculties. Research at the Centre is focused on policies related to the labour market and training/education, income security and social insurance, the public sector and public finance, and a broad range of social issues. Distributional matters are a particular concern in much research conducted through the Centre.

The Centre's current activities focus on a major study: 'Equality, Security and Community: Explaining and Improving the Distribution of Well-Being in Canada', funded as a SSHRC Major Collaborative Research Initiatives project and with other supporters. This interdisciplinary project will run from 1998 to 2004 and involves 12 UBC academics plus researchers from seven other Canadian universities and Statistics Canada. The project is summarized at the CRESP website (www2.arts.ubc.ca/cresp).

TEACHING AND ACADEMIC GROWTH, CENTRE FOR

Gary Poole, Director

Since its establishment in 1987, the Centre for Teaching and Academic Growth's (TAG) mission has been to foster quality teaching and learning across the University. The Centre offers programs, services, and resources to meet a wide range of needs and interests of all members of the UBC teaching community. Offerings include seminars and institutes, a University-wide learning conference, a faculty certificate program, three-day instructional skills workshops, support for new faculty, a resource room, publications and web resources, and other customized peer coaching and outreach activities. TAG relies upon and builds a strong network of colleagues from all disciplines, and creates a supportive learning environment in which to explore teaching practice and reflect upon a range of contemporary instructional issues.

For more information visit the Centre for Teaching and Academic Growth website (www.tag.ubc.ca).

TRANSPORTATION STUDIES, CENTRE FOR

David Gillen, Director

A unit within the Faculty of Commerce and Business Administration (otherwise known as the Sauder School of Business)

The Centre for Transportation Studies fosters research and publication on transportation and logistics and closely related fields. The Centre has an extensive research publication record. Research usually involves student research assistants under the direction of faculty, thereby contributing to the role of the University as well as the research function. The research is wide-ranging, covering all modes of transportation and a number of disciplinary approaches and research methods. There is an emphasis on publication to foster wider knowledge and contribute to improved management and public policy in transportation and logistics. Dissemination activities include: conferences, roundtable events, and seminars.

UBC BIOINFORMATICS CENTRE

Francis Ouellette, Director

The UBC Bioinformatics Centre (UBiC) is an interdisciplinary research centre focused on collaborative research. A multidisciplinary group of researchers, with expertise in the areas of microbiology, biology, computer science, statistics, chemistry, and medical genetics make up the faculty members at UBiC, academically affiliated with the Faculties of Science and Medicine. UBiC offers opportunities for graduate study in bioinformatics through the academic departments of its faculty members and through the CIHR/MSFHR funded Bioinformatics training program (bioinformatics.ubc.ca).

UBiC integrates three groups of investigators: scientists involved in basic research in computational biology, software and database developers engaged in high-throughput bioinformatics, and support and training core staff facilitating the learning of bioinformatics by the research community. Research activities are focused on algorithm development, statistical methodologies, and data management processes that accelerate discoveries in life sciences and computational biology. This integrated environment allows for the translation of basic research activities into computational tools. More information for students interested in exploring opportunities at UBiC can be found on the UBC Bioinformatics Centre website (bioinformatics.ubc.ca).

UBC CENTRE FOR URBAN ECONOMICS AND REAL ESTATE

Tsur Somerville, Director

A unit within the Faculty of Commerce and Business Administration (otherwise known as the Sauder School of Business)

The UBC Centre for Urban Economics and Real Estate is a research centre within the Faculty of Commerce and Business Administration (otherwise known as the Sauder School of Business at UBC). The Centre was established in 1988 (originally named the Canadian Real Estate Research Bureau) with the financial support of the Real Estate Foundation of British Columbia.

The Centre's general objective is to support research and education in real estate and urban economics at UBC. Research supported by the Centre covers both theoretical issues and applied problems. Some of the research activities conducted within the Centre include publishing working papers and research monographs, providing financial support for students in the M.Sc. and Ph.D. programs in Urban

Economics and Real Estate, running a unique visiting scholar program and a research symposium in the summer, and promoting B.Comm students in the Real Estate concentration to the professional community. The Centre is also a forum for the exchange of views about factors influencing the real estate industry.

W. MAURICE YOUNG CENTRE FOR APPLIED ETHICS

P. Danielson, Professor of Applied Ethics
and Director

A unit within the Faculty of Graduate Studies

The W. Maurice Young Centre for Applied Ethics is an interdisciplinary unit in the Faculty of Graduate Studies. The Centre promotes research and graduate education in applied ethics, including bioethics, business ethics, professional ethics, environmental ethics, ethics and technology, ethics and genetics/genomics, and research ethics. The Centre has four endowed chairs and professorships, two faculty members with clinical ethics appointments, a Michael Smith Foundation Scholar, faculty associates from many disciplines, research associates, adjunct professors, and post-doctoral fellows. As well, the two NSERC Industrial Chairs in Animal Welfare are associated with the Centre. In addition, the Centre sponsors lunch, lectures, conferences, and workshops, as well as graduate/post-graduate courses and practicums in applied ethics. The Centre is supported by endowments, core university funding, and project funding.

Students can become associated with the Centre through the Interdisciplinary Studies Program or through participating graduate programs. The Centre also provides a number of research assistantships each year.

W. MAURICE YOUNG ENTREPRENEURSHIP AND VENTURE CAPITAL RESEARCH CENTRE

Ilan Vertinsky, Director
A unit within the Faculty of Commerce and Business Administration (otherwise known as the Sauder School of Business)

The W. Maurice Young Entrepreneurship and Venture Capital (EVC) Research Centre is

housed in the Faculty of Commerce and Business Administration (otherwise known as the Sauder School of Business). The Centre serves as a catalyst for innovative ideas in entrepreneurship and new venture creation. Through research partnerships with the public sector, the private sector, and other universities, the Centre maintains a very active research agenda.

To facilitate research, education and the dissemination of information, the EVC Research Centre undertakes a broad scope of activities including initiating and funding research projects, supporting degree programs, developing and offering professional programs in entrepreneurship, and communicating research in scientific journals and business publications.

WINE RESEARCH CENTRE

Hennie J.J. van Vuuren, Director
*A unit within the Faculty of
Agricultural Sciences*

The Wine Research Centre's (WRC) mission is to conduct research in enology and viticulture and to develop highly qualified human resources with relevant scientific expertise and enterprise who will promote the technological advancement of the wine industry. This new initiative is based on a concept of collaboration with researchers at UBC, at other educational and research institutions, and all facets of the wine industry.

Trained graduate students, experienced in experimental design, genetic, biochemical and molecular technology, fermentation technology, and viticulture will be positioned to play a major role in future technological developments and growth of the wine industry in Canada. Pioneering research in genomics/proteomics of wine yeast and the grape vine will contribute significantly to improve wine quality. More information is available on the Wine Research Center website (www.agsci.ubc.ca/wine).

WOMEN'S AND GENDER STUDIES, CENTRE FOR

S. Gunew, Director
A unit within the Faculty of Graduate Studies

The Centre for Women's and Gender Studies was created in 1991 as part of the University of British Columbia's commitment to ensuring equity in scholarship, research, and teaching. In establishing this Centre, UBC joined other major universities in Canada and elsewhere in supporting a multidisciplinary field of scholarship that has had a substantial impact on tradi-

tional ways of thinking in the humanities, social sciences, sciences, and professional areas.

The Centre reports to the Dean of the Faculty of Graduate Studies. Its graduate and research committee is composed of senior scholars from a wide range of departments and faculties.

The Centre's research and program initiatives are strongly collaborative, within UBC, with other institutions of higher learning, and with the broader community.

The Centre organizes a graduate student presentation day each spring to highlight feminist research on campus. Visiting scholars from a variety of disciplines actively participate in the activities and programs of the Centre and take part in a lecture series.

The Centre offers M.A. and Ph.D. programs in Women's Studies and Gender Relation, and graduate level courses. For a program description, see *Women's Studies and Gender Relations*, p. 286, in the Faculty of Graduate Studies, Degree Programs section.

For further information contact the Director or visit the Women's and Gender Studies website (www.wmst.ubc.ca).

INSTITUTES

ABORIGINAL HEALTH, INSTITUTE FOR

See the *College of Health Disciplines*, p. 292, within the "Faculty, Colleges and Schools" chapter for details on this Institute.

APPLIED MATHEMATICS, INSTITUTE OF

Michael Ward, Director
Dr. Marek Labecki, Research/IT Manager
A unit within the Faculty of Graduate Studies

The Institute of Applied Mathematics (IAM) promotes interdisciplinary research activities involving applied mathematics. The Institute organizes colloquia and special seminars; maintains a computing laboratory and visitors' office accommodations; and provides consultative assistance to those who use applied mathematics in their research.

The Institute provides an administrative structure to arrange graduate programs of an interdisciplinary nature for students with an interest in both mathematics and another field. IAM students can register through any department, but must clearly state their intention of following an IAM program. The availability of financial support and the location of a potential supervisor usually determine the student's department. The majority of IAM students are registered in the Mathematics Department.

Although the Institute of Applied Mathematics does not confer graduate degrees, it designs and

oversees interdisciplinary M.Sc. and Ph.D. programs for graduate students from different departments on campus interested in graduate work involving Applied Mathematics. The basic requirements for these programs are sufficiently flexible to accommodate the particular academic background and career objectives of an individual student. Fields of mathematics involved in interdisciplinary programs of graduate studies fall into six areas: Applied Analysis, Fluid Dynamics, Mathematical Biology, Optimization, Mathematical Finance, Engineering and Industrial Mathematics.

To enter a degree program supervised by the Institute, a student must first be admitted to an academic department which is closely related to the applicant's interests (e.g. Mathematics, Economics, Mechanical Engineering). The student's first-year program is planned with an IAM advisor appointed by the Director. After successful completion of this first-year program, an interdisciplinary committee is appointed to supervise the student's progress towards meeting the degree requirements. Please contact your academic department of interest or the Institute for further details on the requirements for interdisciplinary M.Sc. and Ph.D. programs. To obtain the necessary application forms, information on financial assistance, and detailed information on the Institute, students should write the Director of the Institute of Applied Mathematics.

ASIAN RESEARCH, INSTITUTE OF

P. Potter, Director

A unit within the Faculty of Graduate Studies

The Institute of Asian Research was established in 1978 to sponsor and co-ordinate research activities concerning Asia and the Pacific. The Institute also provides liaison for seminar presentations and special lectures by Asian area specialists working at or visiting UBC. The Institute actively encourages graduate student participation in its activities.

In 1992, the Institute was restructured to include five area research centres: the Centres for Chinese, Japanese, Korean, India and South Asia, and Southeast Asia Research. The centres serve as focal points on campus for research and community outreach activities on their specific areas of the Asia Pacific region, while the Institute promotes and conducts contemporary, issue-oriented, interdisciplinary research that cuts across regional boundaries. The aim of the Institute and its centres is to facilitate interaction among people from different disciplines and backgrounds, from both campus and community, who share a common interest in Asia and the Pacific. The Institute and the centres organize seminars, lectures, workshops, conferences, art exhibits and cultural perfor-

mances, produce a series of working papers and monographs, and publish the Asia Pacific Report, a bi-annual newsletter focusing on current activities both on campus and in the community that relate to Asia.

The main objective of the restructuring was to promote and develop high-quality research on the Asia Pacific region and its relations with Canada with particular emphasis on the policy implications of research undertaken. Research activities of the Institute are interdisciplinary, interregional, and long range. They cover many areas of intellectual inquiry, encompassing general processes of cultural, economic, political, social, and technological change in the Asia Pacific region. The Institute has welcomed new faculty and staff and continues to recruit for new positions to carry out its research activities in these areas. The Institute also acts as host for honorary research associates and visiting scholars who participate actively in the Institute's and centres' programs. In addition, the Institute has launched an International Associates Forum to promote mutual understanding between Canada and the Asia Pacific countries through long-term visits of government officials, corporate personnel, and academic researchers from the region to UBC. The Institute also houses a series of interdisciplinary and inter-area programs such as the Program for Australasian Research, Program on Canada Asia Policy Studies, the Contemporary Tibetan Studies Program, and the Religion and Public Policy Program. Guided by the theme of "Policy Relevance Informed by Local Knowledge", the Institute strives to disseminate knowledge and expertise about the peoples and places of Asia and the Pacific in ways that can inform policy discourses and build understanding. Through its constituent Research Centres, thematic Research Programs, regular lectures and seminars, community liaison activities, and the MAPPS teaching program, the IAR community remains fully engaged in the process of building local knowledge and making it available to deepen policy understanding about Asia and the Pacific.

Master of Arts in Asia Pacific Policy Studies

The program leading to the Master of Arts in Asia Pacific Policy Studies (M.A., Asia Pacific Policy Studies) is administered by the Institute of Asian Research. See *Asia Pacific Policy Studies*, p. 233, under Faculty of Graduate Studies, Degree Programs section.

To receive regular notification of centre- and institute-sponsored events, individuals are encouraged to join the centre of their choice or the Friends of Asian Research for a newsletter subscription.

COMPUTING, INFORMATION AND COGNITIVE SYSTEMS, INSTITUTE FOR

Rabab K. Ward, Director

The Institute for Computing, Information and Cognitive Systems (ICICS) was established to facilitate and foster collaborative research and graduate training in all areas related to computer, communication, and information technology systems. The Institute's research areas include computer communications and systems; VLSI design, architecture, and microelectronics; integrated systems design/software engineering; computational intelligence: perception, reasoning and action; controls, robotics, and CAD/CAM; numeric computation algorithms, complexity theory; graphics, visualization, image/video processing, multimedia, human-computer interaction, and more.

ICICS emphasizes inter- and multi-disciplinary studies. It actively promotes closer links with the computer and telecommunications industry as well as with external organizations. The Institute has 110 members and 16 associate members from various UBC faculties. Some associate members are from industry and other BC organizations. The Institute's advisory committee is made up of the Department Heads of Computer Science, Electrical and Computer Engineering, and Mechanical Engineering, and other senior researchers representing ICICS's diverse research groups. Details are available on the ICICS website (www.icics.ubc.ca).

EUROPEAN STUDIES, INSTITUTE FOR

A unit within the Faculty of Graduate Studies

The Institute for European Studies was established in 1998 as an interdisciplinary and teaching institute within the Faculty of Graduate Studies. The interests and the research it promotes, the seminars, workshops, and colloquia it hosts, as well as the graduate program in European Studies that it offers, represent a broad cross-section of the academic activities and research in place at the University. The objectives of the Institute include:

- encouraging graduate-level teaching and learning opportunities in European Studies at UBC and in Canada in general;
- facilitating and enhancing research with respect to Europe on the part of all

Canadian scholars, in particular in the social sciences and humanities;

- fostering improved communications and collaboration between Canadians and Europeans;
- facilitating interdisciplinary and comparative approaches to the study of complex issues involving Europe; and
- providing a forum for intellectual and public discourse on contemporary European issues.

The Institute holds a series of regular seminars led by distinguished visitors from outside UBC, UBC faculty members, and graduate students. The Institute also encourages short- and long-term visiting scholars and provides some post-doctoral fellowships. Close relationships with both European institutions and other Canadian universities and bodies make the Institute a national centre for activity related to Europe.

The Institute offers a program leading to the M.A. (European Studies) that addresses the growing needs and demands for Canadians to understand the complexities of Europe—past, present, and future. Drawing on the diversity and strengths of faculty members working on the subject of Europe, the Institute brings together teachers, researchers, and students from across the faculties and disciplines to engage in a genuinely interdisciplinary study of Europe that addresses the balance between national and supranational constructions of politics, identity and culture. For more information, see *European Studies*, p. 249, under Faculty of Graduate Studies, Degree Programs section.

HEALTH PROMOTION RESEARCH, INSTITUTE OF

Annalee Yassi, Director
A unit within the Faculty of Graduate Studies

Established within the Faculty of Graduate Studies in 1990, the Institute of Health Promotion Research (IHPR) provides a UBC focus for interdisciplinary collaboration on research, education, and community partnerships to promote health.

The Institute's faculty, staff, graduate students, postdoctoral fellows, and visiting scholars approach health as a resource for communities, workforces, and individuals. Health promotion is a process that empowers individuals and their communities to take control of the determinants of their health so as to improve health. The IHPR seeks to bridge the University's research, education, and community capacity-building programs across the biomedical, clinical, health services, and population health pillars bringing the university into closer working

relationships with community groups and agencies.

The IHPR's program of research, education, and community capacity-building supports international, national, provincial, and local efforts to address health determinants, examining the global as well as local social, psychological, and environmental determinants of health and the factors that predispose, enable, and reinforce actions in relation to these determinants. Research projects include a wide array of studies of social, psychological, and environmental determinants of health and disease or injury, as well as design and evaluations of innovative approaches to bring about change in these factors, and studies of the implementation and diffusion of these innovations by policy makers, institutions, agencies, communities, practitioners, and populations.

Building on UBC's strengths in the health, social, and environmental sciences, some of this work occurs in collaboration with colleagues at other universities in BC, across Canada, and internationally. The Institute currently houses two CIHR-funded Community Alliances for Health Research (CAHR) research programs—one entitled "Making Healthcare a Healthier Place to Work" and the other CAHR addressing primary healthcare issues. IHPR houses a CIHR-MSFHR funded Strategic Research Training Program, "Partners in Community Health Research" (with clusters addressing vulnerable populations, the healthcare workforce and health services). IHPR also houses a large number of research grants in workplace health, international and global health, the health of vulnerable populations, community capacity building, and health services. IHPR has a particularly close working relationship with the Occupational Health and Safety Agency for Healthcare (OHSAH), a province-wide bi-partite governed agency dedicated to working with all members of the healthcare community to improve working conditions for healthcare workers and prevent illness, injury, and disability from a wide variety of hazardous exposures including infectious diseases, allergenic or toxic chemicals, violence, mental stress, and ergonomic hazards leading to musculoskeletal injuries.

Students may enrol for doctoral and master's programs through the Individual Interdisciplinary Studies Graduate Program (IISGP) by establishing individual programs under the guidance of a multi-departmental faculty committee. IHPR may also house students from departmental programs associated with the Institute's mission.

HEARING ACCESSIBILITY RESEARCH, INSTITUTE OF

M. R. Hodgson, Acting Director
A unit within the Faculty of Graduate Studies

The Institute of Hearing Accessibility Research (IHEAR) was established in 1994 to develop research, training, education, and service in the field of hearing accessibility. In pursuing this mission, the Institute coordinates the activities of scientists, professionals, manufacturers, and consumers to examine the problems facing hearing and hard-of-hearing people, to find appropriate solutions to these problems, and to promote hearing accessibility. One of the most important tasks of the Institute is to gather, evaluate, and disseminate information related to the field.

The Institute will serve the needs and interests of people who are normal hearing and, in particular, the hard-of-hearing—people with hearing loss ranging from mild to profound—who nevertheless communicate via speech and make use of whatever residual hearing they have left. Hard-of-hearing people comprise about 7% of the general population and are by far the largest group of people with hearing disorders. Yet the condition itself, and the varied and complex needs of hard-of-hearing people, are poorly understood.

Areas of activity include hearing accessibility issues in the home, in the educational setting, at the work place, in the health care setting, and the rehabilitation of the hard-of-hearing elderly. Psycho-social issues associated with hearing accessibility and hard-of-hearing people, the effect of the acoustical environment, hearing aids and assistive listening devices, and physiological and medical issues are also of major interest.

The disciplines involved in these activities include anthropology, architecture, audiology, educational psychology, electrical engineering, health promotion, law, mechanical engineering, occupational and environmental hygiene, otolaryngology, psychology, sociology, special education, and speech sciences.

The associates of the Institute are professors in various departments and faculties of the University. Practising professionals in the community and hard-of-hearing consumers who are actively participating in the work of the Institute can become affiliates. Professionals have the opportunity to propose and to participate in projects, and to pursue their own research interests. Consumers participate in the setting of research and program goals, work on specific projects, participate in community outreach, or raise funds. A number of seats on the advisory committee of the Institute are reserved for professional and hard-of-hearing consumer organizations.

LIU INSTITUTE FOR THE STUDY OF GLOBAL ISSUES

P. Evans, Professor and Acting Director
A unit within the Faculty of Graduate Studies

The Liu Institute for Global Issues is an interdisciplinary unit within the Faculty of Graduate Studies. The Institute pursues interdisciplinary and policy-related research and advocacy on global public policy issues related to human security. Its research agenda embraces international relations, human security, peace and disarmament, global public opinion and democratization, the environment, conflict and development, and global health, and global justice issues.

PETER WALL INSTITUTE FOR ADVANCED STUDIES

Olav Slaymaker, Acting Director, 2006
A unit within the Vice President Research Office

The Peter Wall Institute for Advanced Studies was established to support fundamental, interdisciplinary research and creative activities that have the potential to result in significant advances to knowledge. As the name "Institute for Advanced Studies" suggests, the Institute focuses on basic research rather than policy. It facilitates research programs across a variety of disciplines. All research disciplines at UBC fall within the domain of interest to the Institute. As well as helping to bridge departmental and faculty boundaries within UBC, the Institute is committed to facilitating contacts between outstanding UBC researchers and distinguished researchers around the world. An overriding concern is to encourage research and creative activities that otherwise would not take place. The Institute was established by an endowment from Peter Wall and supplemented by a further endowment from the President's Office. The programs of the Institute fall into two broad categories: thematic and residential.

Thematic Programs

- **Major Thematic Grants** provide funding of up to \$500,000 over three years to a broad interdisciplinary team of UBC and external scholars to research a new area.
- **Exploratory Workshop Grants** bring together researchers from different disciplines at UBC with outstanding external experts in meetings of typically a few days' duration. The purpose is to work towards assessing research possibilities and developing a research agenda. A base level of

funding up to \$15,000 (\$25,000 under certain conditions) is provided.

- **Theme Development Workshops** are very informal meetings, typically for a few hours. The sessions allow researchers to come together with colleagues across the campus to share initial ideas on researching a particular theme.
- **Colloquia** program funds public talks by outstanding visiting scholars to UBC.

Residential Programs

- **Distinguished Professor** endowed chair is intended to attract or retain a world-class scholar. The Peter Wall endowment provides a five-year terms renewable salary support.
- **Distinguished Scholars in Residence** program appoints up to four outstanding senior UBC researchers for a calendar year. Each Scholar is given a research office at the Institute and a modest research budget. Applicants must be tenure-track faculty with demonstrated and recognized research excellence.
- **Early Career UBC Scholars** are tenure-track Assistant or Associate Professors who are within two years of their appointment or promotion. They must have a very strong research record and compatibility with the goals of the Institute. Researchers from any Faculty or department are eligible. A modest research budget is provided with the appointment.
- **Visiting Junior Scholars.** This program is under review; a replacement summer program is being planned.

The Institute has no direct role in teaching or in the development of curricula but the internal funding to UBC faculty members provides research opportunities for students. The externally-focused programs provide opportunities for students to come into contact with world-class artists and scholars.

The Director reports to the Board of Trustees and a management committee established by the Wall Endowment. Academic direction is provided by distinguished researchers drawn from all Faculties who serve on the Institute's Advisory, Adjudication, and Selection committees. Any faculty member acting as PI on an Institute competitive grant, receiving an individual Institute award, or serving on an Institute committee, becomes a Faculty Associate. Faculty Associates are invited to twice-monthly meetings at the Institute; these provide excellent informal opportunities for a broad exchange of ideas with colleagues from very different disciplines.

Visit the Institute's website (www.pwias.ubc.ca) for further information.

PULP AND PAPER RESEARCH INSTITUTE OF CANADA

The Pulp and Paper Research Institute of Canada (Paprican) is a non-profit research and educational organization dedicated to enhancing the technical competitiveness of its supporting member companies. The funding of the Institute is borne largely by the member companies which represent over 70% of the pulp and paper producers in Canada. Fundamental and applied research is carried out in laboratories in Pointe Claire and Vancouver. The Institute also collaborates in programs of post-graduate studies at McGill University, the University of British Columbia, and Ecole Polytechnique supporting research for advanced degrees under the supervision of faculty at these universities. The program at UBC is housed in the Pulp and Paper Centre (www.ppc.ubc.ca).

RESOURCES, ENVIRONMENT AND SUSTAINABILITY, INSTITUTE FOR

The Institute for Resources, Environment and Sustainability (IRES) was established by the amalgamation of the Resource Management and Environmental Studies interdisciplinary graduate program, the Westwater Research Centre, and the Sustainable Development Research Institute. The role of the Institute is to foster holistic approaches to issues related to the sustainable use of natural resources and the reciprocal interactions with the environment within which society functions. The Institute's research and teaching program initiatives are collaborative both within the University, with other educational institutions and with the broader community. More information can be found on the Institute for Resources, Environment and Sustainability (www.ires.ubc.ca) website.

Doctor of Philosophy, Master of Arts and Master of Science

For a description of programs offered in resource management areas, see *Resource Management and Environmental Studies*, p. 278, under Faculty of Graduate Studies, Programs.

Eco-Risk Research Unit

The mission of the Eco-Risk Research Unit is to contribute to the research and educational mission of the Institute for Resources, Environment and Sustainability, the School of Community and Regional Planning, and the Centre for Human Settlements. The unit conducts interdisciplinary research and associated activities that focus on decision-making for managing environment, health, and technology risks. For more information contact

Dr. T.L. McDaniels
(timmcd@interchange.ubc.ca) or telephone
604-822-9288.

Forest Economics and Policy Analysis Unit

The Forest Economics and Policy Analysis research unit is a national centre focusing on interdisciplinary aspects of the economics and policy imperatives in the Canadian forest sector. Canadian timber supply, forest-land amenities, competitiveness, and economic integration are the primary objectives of the research program. The unit develops its research programs in conjunction with an advisory committee to reflect the emerging and long-term issues of the forest sector in Canada. Graduate students are involved in the research programs of the unit and may enrol in a variety of graduate programs including Forestry, Commerce and Business Administration, and Resource Management and Environmental Studies. For more information contact Dr. I.B. Vertinsky (ilan.vertinsky@commerce.ubc.ca) or telephone 604-822-3886.

Sustainable Development Research Initiative (SDRI)

The Sustainable Development Research Initiative (formerly Institute) is an academic focus within the Institute for Resources, Environment and Sustainability. Established in 1991, the Initiative is a vehicle for the development and coordination of sustainable development, encouraging interdisciplinary collaboration among faculty departments and centres at UBC, provincial and federal agencies, and communities. The research focus is on applied policy, relevant interdisciplinary research, and the dissemination of knowledge to local, national, and international groups.

Westwater Research Unit

Westwater, established in 1971 in response to the growing concern about water resources, functions as a collaborative research unit conducting research on problems concerning water resources and their associated lands. Its general objective is to provide an improved foundation for decisions about policies and institutional arrangements through rigorous analysis of the alternative courses of action that might be taken. The research program involves natural and social scientists in the analysis of multi-dimensional problems. Students are associated with Westwater by working with faculty members on the projects of the unit.

Visit the Institute for Resources, Environment and Sustainability (and Resource Management and Environmental Studies) website (www.ires.ubc.ca) for further details.

RICK HANSEN INSTITUTE

Rick Hansen, C.C., O.B.C., President and Chief Executive Officer

"If you believe in a dream and have the courage to try, great things can be accomplished."

In August of 1997, Rick Hansen, Canada's Man in Motion, established the Rick Hansen Institute in collaboration with the University of British Columbia. Governed by a board of directors that is made up of both community and University representatives, and fueled by the belief that anything is possible, the Institute's goal is to accelerate the discovery of a cure for spinal cord injury. Through creative leadership and innovative local, national, and international partnerships, including UBC, the Institute supports research to both improve quality of life for people with spinal cord injuries, and ultimately, to find a cure.

For further information, please visit our website (www.rickhansen.com) or contact:

Rick Hansen Institute

Fax: 604-876-6666

OTHERS

ADVANCED MATERIALS AND PROCESS ENGINEERING LABORATORY (AMPEL)

Dr. G. Sawatzky, Director

Situated in the Brimacombe Building, the Advanced Material and Process Engineering Laboratory (AMPEL) offers opportunities for graduate research in material-related topics. AMPEL is an interdisciplinary research laboratory with faculty members and students from the Faculties of Science and Applied Science and from the Departments of Chemistry, Electrical and Computer Engineering, Materials Engineering, and Physics and Astronomy. The Centre for Metallurgical Process Engineering is also located in the Brimacombe Building. For description of programs offered in materials-related areas, see *Materials Engineering*, p. 104, under the Faculty of Applied Science.

Students interested in doing graduate work at the laboratory may contact Dr. G. Sawatzky (sawatzky@physics.ubc.ca), Director at AMPEL, 2355 East Mall, UBC, Vancouver, BC, V6T 1Z4. Or, visit the AMPEL website (www.ampel.ubc.ca) for further information.

BAMFIELD MARINE SCIENCES CENTRE

In 1972 a consortium of five western Canadian universities, the Western Canadian Universities Marine Sciences Society (WCUMSS), established the Bamfield Marine Sciences Centre (BMSC) with support from the National Research Council, becoming the only facility of its kind on the outer coast between Oregon and Alaska. WCUMSS members are: the University of Alberta, UBC, University of Calgary, University of Victoria, and Simon Fraser University.

Located on the west coast of Vancouver Island (Barkley Sound), BMSC provides year-round research facilities and technical assistance to both WCUMSS member and non-member scientists, and offers undergraduate and graduate courses in all aspects of coastal and marine biological sciences. BMSC offers a public education program as well.

Facilities include general laboratories, a seawater system, research vessels (including a remotely-operated vehicle), SCUBA and shop facilities, stores and maintenance shop, fish/invertebrate museum, herbarium, lecture space, library, computer lab, fluid-dynamics lab (including a 12m x 1m x 2m flume and swim tunnel planned for mid-2006), confocal microscope, TOC analyzer, tree-canopy platform, and on-site food and housing services.

BMSC offers financial assistance in the form of awards, bursaries, teaching assistantships, post-doctoral fellowships, and researcher-in-residence funding.

HUMAN EARLY LEARNING PARTNERSHIP (HELP)

Clyde Hertzman, Director
Hillel Goelman, Associate Director
A research institute within the Faculty of Graduate Studies

Established in 2001, the Human Early Learning Partnership (HELP) is a pioneering, interdisciplinary research partnership that is directing a world-leading contribution to new understanding and approaches to early child development. HELP is a network of faculty, researchers and graduate students from five BC universities (UBC, UVic, SFU, UNBC and UCC). HELP facilitates the creation of new knowledge in human early learning and child development, and helps apply this knowledge in the community by working directly with government and community programs. HELP is a partnership with the BC Ministry of Children and Family Development and the BC Minister of State for Early Childhood Development.

Drawn from such disciplines as neurology, pediatrics, biology, social sciences, epidemiology, psychology, education, and other fields, HELP engages in collaborative, multi-focused studies to create new knowledge that could not emerge from the perspective of any one discipline. HELP's research program traces the neurodevelopment, cognitive, socio-economic, familial, peer, biological, cognitive, community, and cultural factors in child development. Core research activities include the Early Child Development Mapping Project, the Consortium for Health Intervention, Learning & Development (CHILD), the Child and Youth Developmental Trajectories Research Unit (CYDTRU), and HELP Affiliate research projects. HELP

facilitates knowledge translation, interdisciplinary research coordination, and is a training for graduate students and new researchers.

HELP is making a significant contribution to the understanding of, and approaches to, early child development, education, and intervention in British Columbia, so that all children have the means to reach their full potential.

For further information contact the Managing Director, Jacqueline Smit Alex (smitalex@chspr.ubc.ca).

MICHAEL SMITH LABORATORIES

Dr. Phil Hieter, Director

The Michael Smith Laboratories offer facilities and opportunities for graduate study in biotechnology through the academic departments of its faculty members. The academic appointments of the faculty members in the Michael Smith Laboratories span five faculties and ten departments at UBC. Research activities are organized into four separate areas: human/animal molecular biology, fermentation/process engineering, bioinformatics, and plant/forest molecular genetics.

Graduate students wishing to work with faculty members in the Michael Smith Laboratories should identify their research interests, associate these with specific faculty members, and phone or write to the faculty member directly. A brochure describing the process is available upon request from the Laboratories. Information is also available on the Michael Smith Laboratories website (www.michaelsmith.ubc.ca).

OCEAN STUDIES COUNCIL

L. M. Lavkulich (Institute for Resources, Environment and Sustainability), Chair

The Ocean Studies Council consists of faculty members from a number of disciplines with research interests in various aspects of the oceans. The Council has representatives from various constituencies, including the Faculties of Commerce and Business Administration, Forestry, Graduate Studies, and Law; the Departments of Anthropology and Sociology, Chemical and Biological Engineering, Earth and Ocean Sciences, Economics, Geography, Mathematics, Physical Education, Political Science, and Zoology; the Institute of Asian Research, the Lui Institute for Global Studies, and the Institute for Resources, Environment

and Sustainability; and other groups with related interests.

The Council has as its primary function the promotion of interdisciplinary research on ocean matters within the University. The council serves to facilitate contacts between scholars at UBC concerned with ocean research and other universities, government bodies, international agencies, and other interested groups off-campus. While the Council has no role in teaching or the development of curricula it does act to develop interdisciplinary seminars on ocean topics for both faculty and graduate students.

Interested individuals wishing to contact this council should forward their communication to the *Dean of the Faculty of Graduate Studies*, p. 217, for transmittal to the council.

REMOTE SENSING COUNCIL

B. Klinkenberg (Geography), Chair

The Remote Sensing Council coordinates studies in various aspects of remote sensing leading to master's and doctoral degrees in Agroecology, Astronomy, Computer Science, Earth and Ocean Sciences (Atmospheric Science, Geology, Geophysics, or Oceanography), Electrical and Computer Engineering, Forestry, and Geography.

Students enter the program by admission as a master's or doctoral candidate. The disciplinary department and the student's committee chair are selected from the department or faculty that represents the student's primary field of interest. Students are encouraged to seek representation on their committee from other University departments. In consultation with their committee, specialized programs of study can be developed for highly motivated and well-qualified individuals in any aspect of remote sensing, or in any application of remote sensing technology. Similarly, specialized research programs can be developed to suit a student's interest-area and can range from theoretical development of remote sensing technology (including image analysis and sensor development) to specialized applications of remote sensing (including geographic information systems (GIS), vegetation and land classification, land-use analysis, atmospheric and oceanographic studies).

Remote Sensing Council's research facilities are housed in the associated departments and include a wide range of modern equipment that is continually updated. Scholarships, fellowships, and teaching research assistantships are available for eight- and twelve-month periods.

Additional information on graduate studies in remote sensing may be obtained directly from the Faculty of Graduate Studies or from the Chair of the Remote Sensing Council. Answers to more specific questions on research direction in the various disciplines relative to remote sensing may be obtained directly from the department and individual faculty members concerned. For more information, contact one of the following Council members: P. Austin (paustin@eos.ubc.ca), Earth and Ocean Sciences; I. Cumming (ianc@ece.ubc.ca),

Electrical and Computer Engineering; H. Schreier (star@interchange.ubc.ca), Agroecology; R.J. Woodham (head.cs.ubc.ca), Computer Science.

TRIUMF

TRIUMF is Canada's largest national accelerator facility for research in particle and nuclear physics and related sciences. Located on the UBC campus, it is operated as a joint venture by the University of Alberta, the University of British Columbia, Carleton University, Simon Fraser University, the University of Toronto, and the University of Victoria. In addition, there are seven associated universities: the University of Guelph, the University of Manitoba, McMaster University, L'Université de Montréal, Queen's University, the University of Regina, and Saint Mary's University.

Facilities at TRIUMF, based on medium-energy, 0.5 GeV high-current cyclotron accelerator, are used primarily for fundamental physics experiments in nuclear physics, particle physics, material science, chemistry, and life sciences.

For the fundamental and applied science programs, proton beams from the cyclotron are used to produce intense secondary beams of exotic ions, neutrons, pions or muons. The beam is also used for proton therapy of cancer, in Canada's only such treatment centre.

In recent years the laboratory has built a new radioactive beams facility, ISAC, which is now the world's most powerful facility to produce exotic radioisotopes. This facility is used by an international community for a range of science areas, including nuclear physics, astrophysics, and material science. In addition, TRIUMF accelerator expertise is used to make 'in-kind' contributions on behalf of the Canadian Government to the Large Hadron Collider at CERN (the largest European facility, near Geneva).

Besides its large cyclotron, TRIUMF also operates four smaller models on site for the production of radioisotopes used primarily for medical diagnostic procedures (e.g., 'PET' scans at the hospital on campus). TRIUMF also provides Canadian users with infrastructure support for their experiments at TRIUMF and abroad, and its science and engineering efforts are effective in transferring high technology to Canadian industry.

VIZON SCITEC INC

Vizon SciTec Inc. is an integrated contract science and technology development company with a focus on chemical and biological technology development. Clients and business partners are offered competitive advantage through science and innovation to keep pace with the ongoing and rapid advancements in Technology, Chemistry, Biosciences,

Toxicology, Mining, Energy, Health & Safety, and Ship Dynamics. Vizon SciTec has helped create a number of successful enterprises based on leading-edge ideas and intellectual property.

Vizon SciTec's 185,000 square foot research and innovation complex, strategically located on the University of British Columbia campus in Vancouver, provides state-of-the-art analytical laboratories. Clients can choose from a spectrum of scientific services ranging from chemical process development, technology evaluation and pilot plant and bench-scale capabilities, to contract analysis. Vizon SciTec's scientists, engineers, and technologists are respected specialists in their fields, ensuring satisfactory results with minimal risk.

Vizon SciTec is recognised by the Standards Council of Canada as a GLP compliant facility, and accredited by the Canadian Association of Environmental Analytical Laboratories (CAEAL).

VIII UBC Library

INTRODUCTION

The University of British Columbia Library is the second largest research library in Canada. The Library encompasses 23 branches and divisions, including three branches at teaching hospitals (St. Paul's, Vancouver Hospital and Health Sciences Centre, and Children's and Women's Health Centre of BC), one at Robson Square campus in downtown Vancouver, and one at UBC Okanagan campus in Kelowna.

The Library's collections are large and diverse, attracting researchers from around the world and contributing significantly to establishing UBC as a leading academic institution. Our collection comprises (1) over 4.7 million books, as well as approximately 46,000 journal, ejournal, and series subscriptions; (2) 500 electronic indexes and databases; (3) 5 million microforms; and (4) 800,000 maps, archival materials, media, and other items. UBC Library also has the largest biomedical collection in Western Canada and the largest collection of Asian language materials in the country. It is a depository library for publications of the governments of BC, Canada, Japan, and the United Nations.

Catherine Quinlan, University Librarian
Library Information: 604-822-6375

THE UBC LIBRARY WEBSITE

The UBC Library website (www.library.ubc.ca) provides information about the Library and its services, and is a link to a world of scholarly information. Via the website, students have access to a wide range of information and services, including (1) connection to the Library's catalogue of books, journals, videos, pamphlets, and sound recordings; (2) access to online indexes and research databases, electronic journals and texts, government publications, and statistical sources; and (3) connection to other libraries in BC and around the world.

COMPUTER FACILITIES

There are around 450 workstations available in the UBC libraries. Workstations located in many branches provide MS Office software and access to the Internet, and some are equipped with soundcards enabling headphone use. Library networked print stations provide printing access with a UBC Copycard. Wireless internet access is available in all campus libraries and Internet access ports are available in some libraries for laptop computers with appropriate equipment. Information about loaner laptops is available on the UBC Library website (www.library.ubc.ca).

SERVICES

REFERENCE AND INFORMATION

Reference and information staff are available for consultation on information resources relevant to the various disciplines supported by the University. Staff may be contacted in person, by telephone, or by email. Subject specialists provide in-depth assistance with searching for bibliographic citations and other reference materials, advice on researching term papers or theses, and instruction in using electronic resources. Reference staff work closely with faculty members to ensure that the Library offers appropriate and relevant research assistance and instruction. The Library also publishes many maps and guides to its resources, services, and physical layout. These publications are available from the UBC Library homepage (www.library.ubc.ca) and in print at all library locations.

INFORMATION AND RESEARCH SKILLS INSTRUCTION

UBC Library's Instruction program provides training at all levels on getting the most from electronic and print information sources. Classes cover topics such as the essentials of searching the UBC Library website, subject-specific research skills, using specialized databases to find journal articles, and finding information on the Web. The program features hands-on workshops, self-paced online tutorials, and instructional sessions for credit courses, both during and outside class time. A schedule of drop-in classes is accessible from the UBC Library homepage (www.library.ubc.ca) by selecting the "Instruction" tab on the navigation bar.

THE IRVING K. BARBER LEARNING CENTRE AT UBC

The Irving K. Barbour Learning Centre at UBC (Point Grey) is an education and research support facility providing access to information resources, technology, and services for UBC and British Columbia. Phase One of the Learning Centre is now open. Phase One houses library collections and services, and a variety of group and individual study spaces, including the new Ridington Reading Room. The Learning Centre also provides circulation services, including access to collections located in the Automated Storage and Retrieval System. When complete in 2007, the Learning Centre will feature 250,000 square feet of new and renovated space, incorporating classrooms, lecture halls, academic units, library services, information resources, and state-of-the-art technology. The Learning Centre has been funded by the Univer-

sity of British Columbia, the Province of British Columbia, and a \$20 million donation from UBC alumnus, Irving K. Barber. For information and construction updates, please visit the Irving K. Barber Learning Centre website (www.ikebarberlearningcentre.ubc.ca).

THE CHAPMAN LEARNING COMMONS

The Chapman Learning Commons features peer assistance, instruction, academic support, community events, a laptop-lending program, and access to UBC's wireless network. It has support space for group and individual study. Between May 2005 and late 2007, the Chapman Learning Commons will be closed due to construction of The Irving K. Barber Learning Centre. Please visit The Chapman Learning Commons website (www.library.ubc.ca/chapmanlearningcommons) for alternate computer and study support facilities. The Chapman Learning Commons will reopen on the third level of the completed Learning Centre in 2007.

PEOPLE WITH DISABILITIES

Students, faculty, and staff with mobility or print disabilities may obtain Enhanced Services Library cards. Cardholders are entitled to book and journal retrieval, browsing assistance, catalogue assistance, and photocopying by library staff at the self-service price. Medical confirmation of a disability may be required. For more information about services for people with disabilities, contact Access and Diversity/The Disability Resource Centre at 604-822-5844 (voice) or 604-822-9049 (Telecommunications Device for the Deaf).

DISTANCE EDUCATION STUDENTS

UBC Library provides library and information services to UBC students who are living at a distance from the campus and taking credit distance education courses or completing some other UBC degree requirement. Library staff locate and send library materials (fees may be charged for this service) and provide other assistance needed to complete research assignments.

INTERLIBRARY LOAN

Materials not available at UBC or by self-service ordering can usually be borrowed from other institutions through the Library's Interlibrary Loan service. Certain items such as journal articles, technical reports, or theses are obtained as photocopies or microfilm or microfiche copies. There is no fee for borrowing books, photocopying short journal articles, or

making microfiche copies of short technical reports or other documents.

ORDER/DELIVERY SERVICES

Several document delivery services are available to students, faculty, and staff. Through UBC Library's own services, books, articles, and other materials in the Library's collection can be arranged for either physical or electronic pick up. UBC Vancouver and UBC Okanagan students can request library materials from any UBC library regardless of location. Fees are charged for some transactions. CISTI Orders is a self-service electronic ordering service for documents from the Canada Institute for Scientific and Technical Information (CISTI), Canada's largest library for science, engineering, and medicine. UBC Library covers the cost of CISTI Orders for students, faculty, and staff.

UBCCARD/LIBRARY CARD

The UBCCard is the University's official student identification card, and is also the student Library card. It is valid for up to four years. UBCCards are issued at the UBC Carding Office, located in UBC Bookstore, throughout the academic year. For more information, please visit the UBCCard website (www.ubccard.ubc.ca) or call 604-822-2406.

LIBRARIES AND COLLECTIONS

ASIAN LIBRARY

Since its acquisition of the Puban collection in 1960, the Asian Library has developed the largest research collection of Asian language materials in Canada. Its holdings in Chinese, Japanese, Korean, South Asian and Indonesian languages exceed 525,000 volumes. While comprehensive in a range of subjects, the collection is especially strong in the humanities and social sciences. Special materials include the valuable Puban collection, Swann collection, Song Xuepeng collection, Jing Yi Zhai collection, Japanese government publications, and Pearl Delta Area as well as Japanese Canadian studies collections. A growing collection of photographs on Chinese immigrants, and a database of historical Chinese language materials in British Columbia, have developed through research interests in Chinese settlement in BC. The Asian Library shares resources with numerous North American libraries and organizations beyond UBC Library. The Asian Library is located in the Asian Centre, 1871 West Mall.

DAVID LAM LIBRARY

The David Lam Management Research Library offers services and collections for research in all facets of business management and administration, including: accounting, collective bargaining, finance, marketing, and urban land economics. Notable collections focus on Asian business, transportation, international finance, sales and marketing. David Lam Library also has extensive resources offering corporate financial data on Canadian and international publicly traded companies. David Lam Library

is located in the Henry Angus Building, 2033 Main Mall.

EDUCATION LIBRARY

The Education Library's collection serves as a foundation for teaching and research in the Faculty of Education. The collection comprises children's books, school texts, and multimedia for K-12, as well as books and journals dealing with teaching strategies, curriculum evaluation, educational technology and research in education. The Education Library also has a number of electronic information resources, as well as materials in microform, audiocassette, and video-recording formats. A high priority is placed on materials that reflect Canadian content and approaches, and materials pertaining to BC Education. The Education Library is located on the main floor of the Neville Scarfe building, 2125 Main Mall.

FINE ARTS LIBRARY

The Fine Arts Division collects materials on art history, architecture, community and regional planning, costume, graphics, sculpture, design, artistic photography, and painting. The collection is particularly strong in Canadian art, Far Eastern art, and exhibition catalogues. Extensive picture collections include the Photographic Archive from the Chinese National Palace and Central Museums, Taiwan; the Carnegie Collection of photographs of Western art; the Chatsworth Collection of photographs of drawings; and the Marburg Index, an inventory of art in Germany. The Division's rare book collection includes important catalogue raisonnées of artists' works. Pamphlet files contain exhibition catalogues and notices with emphasis on the Vancouver area, as well as information on local buildings and galleries. The Fine Arts Division is located in the Irving K. Barber Learning Centre, 1961 East Mall.

LAW LIBRARY

The Law Library supports the study, reference, and research needs of the students and faculty of the Faculty of Law, and other members of the University community. Its research collection exceeds 215,000 volumes and is supplemented by many electronic indexes, databases, and electronic journals. Primary and secondary legal materials are acquired from major common law jurisdictions of the world: Canada, US, UK, Australia, New Zealand, as well as materials from other selected jurisdictions such as the European Community and the Pacific Rim. A specialized Asian law collection comprises resources in English and in the vernacular. The Law Library is located in the George F. Curtis Building, 1822 East Mall.

MACMILLAN LIBRARY

The MacMillan Library specializes in providing reference and instruction services and collections for forestry and the agricultural sciences. The collection includes books, journals, and other materials in the plant, soil and animal sciences, agroecology, food science and technology, animal welfare, wine research, landscape

architecture, environmental design, aquaculture, forestry conservation and wood science. MacMillan Library is located in the MacMillan Building, 2357 Main Mall.

MATHEMATICS LIBRARY

The Mathematics Library has materials on pure and applied mathematics. Subjects include calculus, complexity theory, differential equations, dynamical systems, geometry, logic, mathematical finance, mathematical physics, numerical analysis, number theory, probability, theoretical statistics and the history of mathematics. The Math Library is located in the Mathematics Building, 1984 Mathematics Road.

MUSIC LIBRARY

The Music Library, serving the research and teaching needs of the UBC School of Music, has one of the finest collections of music materials in Canada. The collection includes books and journals about music, musical scores, sound recordings, CD-ROMs, and video recordings. The Music Library is located in the Music Building, 6361 Memorial Road.

RARE BOOKS AND SPECIAL COLLECTIONS

Rare Books and Special Collections houses an outstanding research collection of rare books, Canadian history and literature, archival research materials, and collections of historic maps and photographs. Areas of specialization include selected British Columbia authors, books about BC, pre-Confederation Canada, Pacific and Arctic exploration, the fur trade, pre-1900 Canadian travel and exploration, Canadian, English and American children's literature, and the history of cartography. The manuscript collections are particularly strong in the areas of fishing, forestry, and mining, with important records relating to BC politics, literature, and history. Rare Books and Special Collections is located in the Irving K. Barber Learning Centre, 1961 East Mall.

SCIENCE AND ENGINEERING DIVISION

Science and Engineering provides reference service and collections for: chemistry, physics, geology, geophysics, palaeontology, computer science, chemical and bio-resource engineering; civil, electrical, mechanical and environmental engineering; atmospheric science, physical oceanography, transportation, and mathematics. The Science and Engineering Division is located in the Irving K. Barber Learning Centre, 1961 East Mall.

UBC LIBRARY AT ROBSON SQUARE

Supporting the needs of students, faculty, staff and community researchers at UBC's downtown campus, the Library at Robson Square provides a reference centre with digital/electronic and other resources. The UBC Library at Robson Square is located at 800 Robson Street, Plaza Level.

UBC OKANAGAN LIBRARY

The UBC Okanagan Library supports the full range of academic programs taught at UBC Okanagan. The collection is multi-formatted, including monographs, periodicals, dictionaries, directories, encyclopedias, government documents, multimedia, maps, microforms, and a GIS area. Students and faculty enjoy a broad selection of services such as reference, circulation, Interlibrary Loan, instruction, and an Information Commons. The UBC Okanagan Library is located at 3333 University Way in Kelowna, BC.

UNIVERSITY ARCHIVES

University Archives provides archival and records management services to the UBC community. It is a repository of documents, photographs, and other historical materials preserving the corporate memory of the University. To augment this information, University Archives acquires the private papers of selected faculty members, administrators and alumni, as well as the records of independent student, alumni, and employee organizations. University Archives serves in a public relations capacity by disseminating information about the University to interested individuals and promotes academic research through the provision of reference and other services. University Archives is located in the Irving K. Barber Learning Centre, 1961 East Mall.

WALTER C. KOERNER LIBRARY

Koerner Library houses materials on the humanities and social sciences, including economics, geography, history, languages and literature, philosophy, political science, psychology, religion, and sociology. The collection in Koerner includes CD-ROM databases, bibliographies, directories, encyclopedias, dictionaries, maps, microforms, numeric data files, newspapers, calendars of other universities, and a comprehensive collection of Canadian federal and BC government publications, with publications from international agencies, the US government, as well as from the governments of western European, south-east Asian, and Pacific Rim countries. The Walter C. Koerner Library is located at 1958 Main Mall.

WOODWARD LIBRARY

Woodward Library is one of a network of four Life Sciences Libraries. It houses the largest biomedical collection in western Canada. Woodward has materials in the health and life sciences, biology, botany, dentistry, medicine, nursing, nutrition, pharmaceutical sciences, zoology, and related fields. The Charles Woodward Memorial Room houses the William C. Gibson History of Medicine and Science Collection, an outstanding collection of more than 5,000 volumes on the history of medicine and the natural sciences. Woodward Library is located at 2198 Health Sciences Mall. The other libraries in the Life Sciences Libraries network are located off-campus in Vancouver hospitals, serving students and researchers affiliated with the Faculty of Medicine and allied health professions.

They are: Biomedical Branch Library at Vancouver General Hospital, 700 West 10th Avenue; Eric Hamber Library at Children's and Women's Health Centre of BC, 4480 Oak Street; and St. Paul's Hospital Library, 1081 Burrard Street.

X̱wi7̱wa LIBRARY

X̱wi7̱wa Library is the newest branch of the UBC Library. Its collections focus on Aboriginal peoples in British Columbia, including contextual materials on Canadian Aboriginal peoples, in addition to national and international issues relating to Aboriginal and indigenous peoples. X̱wi7̱wa is particularly interested in materials written from Aboriginal perspectives, such as materials produced by Aboriginal organizations, tribal councils, schools, publishers, researchers, writers, and scholars. X̱wi7̱wa Library is located at 1985 West Mall.

Courses of Study and Degrees

The University offers instruction in each of its faculties and schools. Listed below are the bachelor, master's and doctoral degrees offered, along with diplomas and certificates. Doctoral and master's degrees are offered either by the Faculty of Graduate Studies or by a disciplinary Faculty. For complete information on graduate programs, see the Faculty of Graduate Studies section or the disciplinary Faculty or School sections. For a listing of graduate interdisciplinary programs offered, see Interdisciplinary Studies in the Faculty of Graduate Studies section. For a listing of Honorary Degrees, see the Calendar Chapter Establishment and Constitution.

APPLIED SCIENCE (ENGINEERING)

Bachelor of Applied Science	B.A.Sc.
Bachelor of Applied Science with Master of Engineering	B.A.Sc./M.Eng.
Master of Applied Science	M.A.Sc.
Master of Engineering	M.Eng.
Doctor of Philosophy	Ph.D.

ARCHITECTURE AND LANDSCAPE ARCHITECTURE

Bachelor of Environmental Design	B.En.D.
Master of Architecture	M.Arch.
Master of Advanced Studies in Architecture	M.A.S.A.
Master of Landscape Architecture	M.L.A.
Master of Advanced Studies in Landscape Architecture	M.A.S.L.A.

ARTS

Bachelor of Arts	B.A.
Bachelor of Fine Arts	B.F.A.
Master of Arts	M.A.
Master of Arts in Asia Pacific Policy Studies	M.A.P.P.S.
Master of Arts in Asia Pacific Policy Studies with Bachelor of Laws	LL.B./M.A.P.P.S.
Master of Fine Arts	M.F.A.
Doctor of Philosophy	Ph.D.

AUDIOLOGY AND SPEECH SCIENCES

Master of Science	M.Sc.
Doctor of Philosophy	Ph.D.

COMMERCE AND BUSINESS ADMINISTRATION

Bachelor of Commerce	B.Com.
Bachelor of Business in Real Estate	B.B.R.E.
Master of Business Administration	M.B.A.
Master of Business Administration with Bachelor of Laws	M.B.A./LL.B.
Master of Management	M.M.
Master of Science in Business Administration	M.Sc. (Bus. Admin.)
Doctor of Philosophy	Ph.D.

COMMUNITY AND REGIONAL PLANNING

Master of Arts in Planning	M.A.P.
Master of Science in Planning	M.Sc.P.
Doctor of Philosophy	Ph.D.

DENTISTRY

Bachelor of Dental Science	B.D.Sc.
Doctor of Dental Medicine	D.M.D.
Master of Science/Diploma in Periodontics	M.Sc./Dip. Periodontics
Doctor of Philosophy	Ph.D.

EDUCATION

Bachelor of Education	B.Ed.
Master of Education	M.Ed.
Master of Educational Technology	M.E.T.
Master of Arts	M.A.
Doctor of Education	Ed.D.
Doctor of Philosophy	Ph.D.

FORESTRY

Bachelor of Science in Forestry	B.S.F.
Bachelor of Science in Forestry	B.Sc. (Forestry)
Bachelor of Science in Natural Resources Conservation	B.Sc. (Natural Resources Conservation)
Bachelor of Science in Wood Products Processing	B.Sc. (Wood Products Processing)
Master of Forestry	M.F.
Master of Science	M.Sc.
Master of Applied Science	M.A.Sc.
Doctor of Philosophy	Ph.D.

GRADUATE STUDIES

See Degrees Offered in the Faculty of Graduate Studies section of this chapter.

HUMAN KINETICS

Bachelor of Human Kinetics	B.H.K.
Master of Human Kinetics	M.H.K.
Master of Arts	M.A.
Master of Science	M.Sc.
Doctor of Philosophy	Ph.D.

JOURNALISM

Master of Journalism	M.J.
----------------------	------

LAND AND FOOD SYSTEMS

Bachelor of Science in Agroecology	B.Sc. (Agroecology)
Bachelor of Science in Global Resource Systems	B.Sc. (Global Resource Systems)
Bachelor of Science in Food, Nutrition and Health	B.Sc. (Food, Nutrition and Health)
Master of Science	M.Sc.
Doctor of Philosophy	Ph.D.

LAW

Bachelor of Laws	LL.B.
Master of Arts in Asia Pacific Policy Studies with Bachelor of Laws	M.A.P.P.S./LL.B.
Bachelor of Laws with Master of Business Administration	LL.B./M.B.A.
Master of Laws	LL.M.
Master of Jurisprudence in Common Law	M.Jur.
Doctor of Philosophy	Ph.D.

LIBRARY, ARCHIVAL AND INFORMATION STUDIES

Master of Library and Information Studies	M.L.I.S.
Master of Archival Studies	M.A.S.
Master of Archival Studies with Master of Library and Information Studies	M.A.S./M.L.I.S.
Master of Arts (Children's Literature)	M.A.
Doctor of Philosophy	Ph.D.

MEDICINE

Bachelor of Medical Laboratory Science	B.M.L.Sc.
Bachelor of Midwifery	B.Mw.
Doctor of Medicine	M.D.
Doctor of Medicine with Doctor of Philosophy	M.D./Ph.D.
Master of Health Administration	M.H.A.
Master of Health Science	M.H.Sc.
Master of Science	M.Sc.
Doctor of Philosophy	Ph.D.

MUSIC

Bachelor of Music	B.Mus.
Bachelor of Arts	B.A.
Master of Music	M.Mus.
Master of Arts	M.A.
Doctor of Musical Arts	D.M.A.
Doctor of Philosophy	Ph.D.

NURSING

Bachelor of Science in Nursing	B.S.N.
Master of Science in Nursing	M.S.N.
Doctor of Philosophy	Ph.D.

OCCUPATIONAL AND ENVIRONMENTAL HYGIENE

Master of Science	M.Sc.
Doctor of Philosophy	Ph.D.

PHARMACEUTICAL SCIENCES

Bachelor of Science in Pharmacy	B.Sc. (Pharm.)
Master of Science	M.Sc.
Doctor of Pharmacy	Pharm.D.
Doctor of Philosophy	Ph.D.

REHABILITATION SCIENCES

Master of Occupational Therapy	M.O.T.
Master of Physical Therapy	M.P.T.
Master of Rehabilitation Science	M.R.Sc.
Master of Science	M.Sc.
Doctor of Philosophy	Ph.D.

SCIENCE

Bachelor of Science	B.Sc.
Bachelor of Computer Science	B.C.S.
Master of Science	M.Sc.
Master of Software Systems	M.S.S.
Doctor of Philosophy	Ph.D.

SOCIAL WORK AND FAMILY STUDIES

Bachelor of Social Work	B.S.W.
Bachelor of Arts	B.A.
Master of Arts	M.A.
Master of Social Work	M.S.W.
Doctor of Philosophy	Ph.D.

DIPLOMAS

Accounting
Applied Creative Non-Fiction
Art History
Collaborative Piano Studies
Computer Science
Education
Film Production
Forestry (Advanced Silviculture)
Forest Engineering
Linguistics
Meteorology
Music Performance
Periodontics (in conjunction with an M.Sc. in Dental Science)
Urban Land Economics

CERTIFICATES

Advanced Study (Library, Archival and Information Studies)
Graduate Certificate in Rehabilitation
Oral Medicine and Oral Pathology
Post-Graduate Certificate in Real Property Valuation
Post-Graduate Certificate in Technology-based Distributed Learning
Post-Graduate Certificate in Technology-based Learning for Schools
Real Property Assessment
Theatre Design and Technology

1 The Faculty of Applied Science

Dean's Office

M. Isaacson, Dean
P. E. Adebar, Associate Dean
A. B. Dunwoody, Associate Dean
S. G. Hatzikiriakos, Associate Dean

5000–2332 Main Mall
Vancouver, BC V6T 1Z4
Telephone: 604-822-6413
Fax: 604-822-7006
Engineering Student Services: 604-822-6556
Applied Science Website (www.apsc.ubc.ca)

The Faculty of Applied Science offers undergraduate and graduate programs in engineering, architecture, and nursing. The Faculty offers engineering programs through the Departments of Chemical and Biological Engineering, Civil Engineering, Electrical and Computer Engineering, Mechanical Engineering, Materials Engineering, and Mining Engineering, and three boards of study: Engineering Physics, Geological Engineering, and Integrated Engineering. The two schools in the Faculty offer programs in their respective disciplines, which are described in *The School of Architecture and Landscape Architecture*, p. 111, and *The School of Nursing*, p. 361. In cooperation with the Faculty of Forestry and the Institute of Forest Engineering of British Columbia, the Faculty of Applied Science offers the Diploma in Forest Engineering.

Extension of engineering studies to the graduate level is becoming increasingly important. The Faculty offers graduate programs leading to the degrees of Master of Applied Science, Master of Engineering, and Doctor of Philosophy, and provides research facilities in many areas of engineering. The requirements for admission to these programs are listed in *The Faculty of Graduate Studies*, p. 217. The Master of Engineering requirements are listed under *Master of Engineering*, p. 107 in this section. The Master of Engineering may be obtained by part-time study in all departments. Part-time study towards the Master of Applied Science is permitted in some departments.

BACHELOR OF APPLIED SCIENCE

The Faculty offers programs of undergraduate study leading to the Bachelor of Applied Science in the following areas of engineering: Chemical

and Biological Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Engineering Physics, Geological Engineering, Integrated Engineering, Mechanical Engineering, Materials Engineering, and Mining Engineering.

The Faculty of Applied Science admits suitably qualified applicants directly from secondary school into first-year engineering. These students will normally complete the Bachelor of Applied Science in four years, except in the case of the Engineering Physics and Chemical Engineering-Chemistry Honours programs which require five years' study. Students may also enter the engineering program after spending one or more years in the Faculty of Science, either because they wish to avail themselves of a broader range of electives or because they do not meet the entrance requirements for admission directly from secondary school (see *Admission from BC/Yukon Grade 12 (or equivalent)*, p. 95). Depending on the transfer credit in engineering received from first-year Science (see *Admission from Science*, p. 96), such students may be able to complete an engineering degree with three further years of study, otherwise they will require four further years.

Scheduled field trips, and the activities of professional and technical societies all contribute to the rounding out of the undergraduate programs and students are expected to participate in them as fully as circumstances permit.

The Faculty will consider proposals from qualified applicants for part-time study towards the Bachelor of Applied Science. Since the flexibility for such study may be limited, approval must be obtained from the Dean's Office.

ACADEMIC ADVISING

Academic advising duties are shared between the Engineering Student Services Office and departmental advisors. The Engineering Student Services Office is located at 2332 Main Mall, Room 1100. Departmental offices have the names of the departmental advisors. The Engineering Student Services Office handles advising for all first-year students and for courses given by other faculties. Departmental advisors deal with questions regarding courses taken within the student's own department.

ADMISSION

Application for admission to the engineering program must be made through Enrolment Services no later than February 28. All supporting documents, including official transcripts, must be received by Enrolment Services by June 30, otherwise the application will not be considered. The applicant is responsible for ensuring that official transcripts are received by June 30.

Due to limited resources, the Faculty has been authorized to restrict enrolment in first-year engineering, and within individual engineering programs at the second-year level. Attainment of the minimum academic requirements listed below means that the applicant is eligible for selection, but does not provide assurance of admission. The selection is based on academic standing. For most engineering programs, the competition for places is such that standing above the minimum prescribed requirements is necessary to ensure admission.

The attention of applicants is drawn to the importance of mathematics as a preparation for engineering courses. Experience has shown that UBC students with grades below 65% in mathematics (below 'B' at a college) are likely to have difficulty with many engineering courses.

Admission from BC/Yukon Grade 12 (or equivalent)

In addition to satisfying university admission requirements, applicants must have completed mathematics, physics, and chemistry at the British Columbia Grade 12 level, or the equivalent. Students will be selected on the basis of their standing in Grade 12 courses in mathematics, chemistry, physics, and English. Applicants from schools where either Physics 12 or Chemistry 12 is not available may petition to be excused this deficiency.

The University is prepared to offer early admission to secondary school students graduating in June based on interim or projected final grades submitted by the schools.

In addition to high academic standards, the Faculty of Applied Science recognizes the benefits of previous technical work and extracurricular activities. Admissible applicants from BC and Yukon secondary schools whose interim grades (and final grades where applicable) fall below 85% will be sent a supplementary application

form. The form requests information from the applicant in areas such as:

- career objectives in the context of the present application to enter engineering;
- experiences related to athletic, cultural, family, community, or other activities requiring considerable personal initiative;
- science projects requiring design, construction, and use of specialized equipment and/or software;
- summer jobs in technical organizations or environments; and
- technical courses completed.

This information will be used by the Admissions Committee of the Faculty of Applied Science in the selection of up to 15% of the students entering engineering.

Admission from Science

Applicants who have taken first-year Science at UBC are eligible to be considered if they have achieved an overall average of at least 55% on all courses, including any failed courses, and at least 60% in each of chemistry, physics, and mathematics (60% average in MATH 100 and 101, minimum 60% in MATH 101). Applicants from a college or another university are eligible for consideration if they have achieved an overall grade point average of at least 2.5, including any failed courses, with a grade point average of at least 2.7 in mathematics, physics, and chemistry with no grade less than 'C' in these subjects.

Applicants registered in Science who have taken 60 or more credits must normally have an average of at least 60% on all courses taken in their most recent 60 credits of study in Science, including any failed courses.

Applicants from first year at an approved university or college should normally have taken the following 30 credits of prerequisite subjects: CHEM 121 and 123, ENGL 112 or another first-year English course, MATH 100 and 101 (or 120 and 121), PHYS 101 and 102 (or 121 and 122), plus nine credits of appropriate electives.

Students transferring into engineering with 6 credits of first-year Chemistry may substitute a 3-credit engineering graphics course for APSC 150.

Applicants who are deficient in one or more of these subjects should consult the Dean's Office.

Applicants with more than 24 credits of transfer credit in first-year engineering may be eligible for second-year engineering, depending on the program which they wish to enter and the transfer credit received. Advice on transfer credit is available from the Applied Science Dean's Office. Applicants admitted to second year may be able to complete their engineering program in three years following first-year Science, depending on the first-year engineering courses that they lack and the arrangements that they can make for completing these courses. These applicants must obtain a 'Second Year Program Preference' form from the

Dean's Office and return the completed form to the Dean's Office by June 15.

Exemptions are given for courses in first-year Applied Science for the following courses normally taken in first-year Science at UBC:

EXEMPTIONS FOR APPLIED SCIENCE

Course	Exemption
CHEM 121 and 123	CHEM 154
PHYS 101 and 102	PHYS 153

The following courses, which can be taken as electives in first-year Science, also give the exemptions indicated:

EXEMPTIONS FOR SCIENCE

Course	Exemption
MATH 221 or 223	MATH 152
PHYS 216	PHYS 170

MATH 221, or equivalent, is required for students wishing to enter the Departments of Electrical and Computer Engineering or Mechanical Engineering.

Successful completion of Science One (from UBC) provides transfer credit for first-year engineering for CHEM 154, MATH 100, MATH 101 and PHYS 153.

Applicants with 24 or fewer credits of transfer credit in engineering will normally enter first-year engineering and take a program similar to the one described in the table, *Typical Transfer Program Following First-Year Science*, p. 99. They will normally require four years following first-year Science to complete their engineering programs.

Admission from UBC Engineering Transfer Programs

Students who have completed first-year engineering at a college offering a UBC transfer program are eligible to be considered for admission to second-year engineering provided that they have obtained an overall grade point average of at least 2.5.

Admission Following Two-Year Technology Diploma Programs

Students are eligible to be considered for admission if they have completed an appropriate two-year technology diploma program with an overall average of at least 70%. Admission is normally into first-year engineering.

Camosun Bridging Program

Students with a two-year diploma in Civil or Mining Technology will be admitted to third year of the B.A.Sc. program in Civil Engineering or Mining Engineering upon successful completion of the Engineering Bridging program offered by Camosun College. Applications for entry into the bridging program are considered on an individual basis and approval for admission must be obtained from both the Faculty of Applied Science and Camosun College before registering in any of the bridging courses. Students may be required to take additional first- or second-year UBC courses to make up deficiencies. Mature applicants may be admitted into the Bridging Program notwithstanding the fact they might not meet the normal admission requirements if, in the

judgment of the Faculty of Applied Science and Camosun College, equivalent experience has been obtained.

Mature Students

Applicants who do not meet the normal University or Faculty requirements for admission, but who have relevant work experience in engineering, may be considered for admission. Mature student applications are considered on an individual basis; this applies to residents of BC only.

ACADEMIC REGULATIONS

Dean's Honour List

Students in any Winter Session with a sessional average of at least 80% while taking 30 or more credits will receive the notation 'Dean's Honour List' on their record.

Degree with Distinction

A student will be granted a degree with distinction upon graduation if he or she achieves an overall average of at least 80% on all 200-level and higher courses while registered in the B.A.Sc. program. The Faculty may also grant a degree with distinction in exceptional circumstances to students who do not meet the above criterion.

Student Classification

The required courses and electives for the Winter Session are shown in the following sections. Historically, the average credit load taken by students is 33 per session, and normal completion time is four to five years. Students may take higher loads than those shown below with the approval of the Dean's Office.

Regular students are considered to be "full-time" or "part-time" as follows:

In order to be considered as full-time, a student must carry a credit load in the Winter Session which is equal to at least 80% of the standard credit load for the year and program in which the student is registered. Note that the Faculty's definition of full-time status may not be the same as that used by *Student Financial Assistance and Awards*, p. 60, in determining eligibility for financial assistance. Students wishing to ensure that they are eligible for consideration for scholarships or other forms of award should check with Student Financial Assistance and Awards.

A student who has approval for a credit load in a Winter Session which is less than that required for full-time status shall be considered as a part-time student. A part-time student will not normally be eligible for scholarships or for a Degree with Distinction.

A student who is taking courses from more than one year level shall normally be given year status based on the program year of the majority of credits being taken.

Examinations

Examinations are held in December and in April. In any course which includes both lecture and laboratory work, a student must complete

the laboratory assignments with satisfactory standing before being admitted to the written examination of the course and must pass in the material of both components before standing will be granted in the subject. The minimum passing mark in each course is 50%.

Applications for special consideration for examinations missed on account of illness or domestic affliction must be submitted to the Dean before or immediately after the missed examination(s). For information regarding medical certificates see *Academic Concession*, p. 50.

Advancement

In order to pass the year, a student must both obtain an overall average of at least 55% in the Winter Session and pass in 65% of credits taken. A student who fails a year will be required to discontinue studies in the Faculty for at least one year but is eligible to apply for readmission after that year. A student who fails a second time will be required to withdraw. In a failed year a student will be granted credit for all courses passed.

A student who withdraws during Term 2 of Winter Session after obtaining less than 55% on the December examinations will not be readmitted for the following Winter Session but is eligible to apply for readmission after that year.

In order to advance in the Faculty of Applied Science, students normally must have met the Language Proficiency Index (LPI) requirement by April 30 to be eligible for admission to a program at the second-year level. (See *Language Proficiency Index Requirement for First-Year English*, p. 120.) They must also complete ENGL 112 (or equivalent) prior to promotion to third year, and APSC 201 prior to promotion to fourth year.

Term essays and examination papers may be refused a passing mark if they are noticeably deficient in English.

Supplemental Examinations

There are no supplemental examinations for any courses offered within the Faculty of Applied Science, with the exception of 400-level courses. Additionally, supplemental examinations may not be offered in all 400-level courses within the Faculty. Supplemental examinations are only available to students who have passed their year. A student must have failed a course, but received a final grade of at least 40% in order to be eligible to write a supplemental examination in that course. Supplemental examinations are only offered during the deferred/supplemental examination period of July to August.

Supplemental examinations for courses which terminate in December will normally be made available to students only during the supplemental examination period in July to August.

Appeals

Current students may appeal year standing decisions to the Faculty of Applied Science

Committee on Admissions, Standing, and Courses.

Applications for readmission from non-current students should be directed to Enrolment Services.

Field Trips

Students who are required to participate in field trips will be responsible for expenses incurred in such trips.

DEGREE REQUIREMENTS

A student shall be granted a Bachelor of Applied Science only after obtaining credit for all courses listed in the program of study for a given engineering program. This requirement will normally be met by completing four Winter Sessions with full credit load (five Winter Sessions for the Engineering Physics Program). With the approval of the Dean's Office, a student may be allowed to study on a part-time basis. Credit will be granted for courses completed during the Summer Session.

A student transferring from an engineering program at another university or from a science faculty may be granted transfer credit for courses if the student has completed courses of equivalent content.

Elective Courses in Engineering

Students are advised that enrolment in elective courses offered within the Faculty may be restricted.

English Requirement

The Faculty of Applied Science recognizes that good communication skills in English are essential to the understanding of course material and to the successful practice of engineering. To qualify for the B.A.Sc., a student must complete ENGL 112 (or equivalent) and APSC 201 (or equivalent). Students admitted directly from secondary schools are required to take English in their first year if eligible to do so. To be eligible, students must have met the Language Proficiency Index (LPI) requirement (see *Language Proficiency Index Requirement for First-Year English*, p. 120. Once admitted to UBC, students will not normally be permitted to satisfy the English requirements at another institution. Students should take particular notice of the English requirements for advancement in the Faculty (see *Advancement*, p. 97).

Complementary Studies Courses

Students must take complementary studies courses totalling at least 20 credits. The minimum requirements are as follows:

- 1) Professional development – APSC 450 (2) or equivalent
- 2) English – ENGL 112 (3) or another first-year English course, APSC 201 (3)
- 3) Engineering economics (3). All engineering programs include a 3-credit engineering economics course, usually taken in third or fourth year. Approved courses include: CHBE 459, CIVL 403, EECE 450, MECH 431, MINE 396, and MTRL 455.

- 4) Impact of technology on society (3). Acceptable courses include: APSC 261 (3), APSC 262 (3), CIVL 200 (3), CPSC 430 (3), ECON 339 (3), GEOG 122 (3), GEOG 310 (3), HIST 215 (3), HIST 425 (6), PHIL 435 (3/4), POLI 361 (3/6), SOCI 260 (3/6), URST 200 (3). Civil Engineering students must take CIVL 200 to satisfy this requirement. Students may seek approval from the Dean's Office for other courses in this area.
- 5) Humanities and social sciences electives – minimum 6 credits. In general, scientific geography courses, statistical courses, studio/performance courses in fine arts, music and theatre, will not satisfy this requirement. Courses that teach language skills are not acceptable.

MINOR IN COMMERCE

Students desiring a stronger foundation in business are encouraged to consider the Minor in Commerce. Upon successful completion of this minor program, the notation 'Minor in Commerce' will be placed on the student's transcript.

Enrolment in this program is limited. Applications for admission can be obtained from Engineering Student Services. The completed form must be returned by May 15. For an application to be considered, the student must be eligible for at least third-year standing in the Faculty of Applied Science with a cumulative average of at least 68% in the previous two years. Meeting the stated minimum requirements does not guarantee admission into the minor. Preference will be given to students who have already completed ECON 310 and 311 (or ECON 101 and 102). The program will consist of the following:

ECON 310 and 311 (or 101 and 102) ¹	6
COMM 457	3
COMM 465	3
One of COMM 329, 458 or 473	3
An engineering economics course appropriate for the department in which the student is enrolled.	3

¹ Students who have completed ECON 101 and 102 prior to entry into the program may use this course in lieu of ECON 310 and 311. Either Economics course may be used as the humanities and social sciences elective component of the complementary studies courses. Some programs will allow a maximum of 3 credits of Commerce courses to count towards the technical electives requirement.

In general, completing the Minor in Commerce will take an additional term.

MINOR IN INFORMATION TECHNOLOGY

Students wishing to improve their computer-related skills are encouraged to consider the Minor in Information Technology. Upon successful completion of this minor, the notation 'Minor in Information Technology' will be placed on the student's record.

A student completing the Minor in Information Technology will not be able to replace a professional trained in information technology. However, that student will be able to apply

information technology within their field of specialization. Specifically, they will have an understanding of information technology on three levels; hardware, software, and systems. Where their own understanding of an issue is insufficient, they will be able to work knowledgeably with information technology professionals to resolve the problems.

This minor is not open to students in the Electrical and Computer Engineering Department, in the Electro-Mechanical option of the Mechanical Engineering program or in the Electrical or Computer Science options of the Engineering Physics program. Application for admission must be made through Engineering Student Services by May 15. Applicants must be eligible for third-year standing in the Faculty of Applied Science with a cumulative average of at least 68% over the previous two years. Due to limited enrolment, meeting the stated minimum requirements does not guarantee admission into them minor.

MINOR IN INFORMATION TECHNOLOGY

APSC 160	3
APSC 380	3
CPSC 260	3
EECE 314	3
6 credits from the following courses:	
CIVL 584	3
COMM 335	3
COMM 437	3
COMM 438	3
EECE 369	3
EECE 456	3
EECE 478	3
MECH 595	2
MINE 432	3

In general, completion of the Minor in Information Technology will require an additional term.

CO-OPERATIVE EDUCATION PROGRAM

The Engineering Co-operative Education Program is intended to provide motivated and qualified students with paid, faculty-monitored work experience which is directly related to their academic program. Currently, the Co-op Program is available in Chemical and Biological Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Geological Engineering, Integrated Engineering, Mechanical Engineering, Electro-mechanical Engineering, Materials Engineering, Mining Engineering, and Engineering Physics.

The program is an optional, year-round program that normally requires completion of five work terms including one winter and one fall placement. The Co-op Program requires an additional year to complete the Bachelor of Applied Science requirements.

Students intending to enter these programs may apply between January of first year and September of second year. Specific deadlines are available from the Co-op office.

Faculty advisors or coordinators visit students at their places of work and provide advice on the technical reports that are a requirement of the program.

Students who wish to be considered for the program must meet all requirements of the Faculty of Applied Science (engineering) and will be selected on the basis of academic performance, written and oral communication skills, and general suitability for the work environment.

The total enrolment is subject to the availability of appropriate work placements. Students who are accepted to the program will register in, and pay for, the appropriate 3-credit Co-operative Education course (see *Program and Course Fees*, p. 28) for each work term once a suitable position is confirmed.

In order to graduate in the year-round Co-operative Education Program, a student must have satisfactorily completed the required number of work placements, in addition to the normal academic requirements.

Normally, students transferring from other institutions may be given credit for work terms completed at their former institution if they meet the following requirements:

- the student must be accepted into the UBC Co-op Program;
- the program in which the work term was undertaken is accredited;
- the work term is officially recognized, (i.e., noted on the transcript), by the institution where the work term originated; and
- the work term was granted for experience in the same or similar discipline into which the student is transferring.

Regardless of the number of work terms accepted, students will be required to complete at least 50% of the required work terms in the new program into which they are transferring. Acceptance into a co-op program at one institution does not guarantee acceptance into UBC's Co-op Program. Application for transfer of work terms must be made to the director of Co-operative Education prior to undertaking any additional work terms at UBC.

For further information on Co-operative Education Programs please contact the Engineering Co-operative Education Office, 6298 Biological Sciences Road, Vancouver, BC, Canada, V6T 1Z4, telephone 604-822-3022, fax 604-822-3449, or visit the Co-operative Education website (www.coop.apsc.ubc.ca).

DUAL DEGREE PROGRAM IN ARTS AND APPLIED SCIENCE

This program offers capable students the opportunity to earn a Bachelor of Arts and a Bachelor of Applied Science degree in five years of study, in most combinations of one Arts degree program and one Engineering degree program. A board of studies administers and oversees admission to the program. Please contact Arts Advising or Engineering Student Services for more information.

Admission

Application for admission to the program is made to the board of studies through either the Arts Advising Office or Engineering Student Services. Applicants may be registered in either faculty but must be admissible to the other faculty at the time of admission to the program. Acceptance into the program will be determined based on a review of the applicant's transcript, an interview, and on a review of a portfolio or other such material that the applicant wishes to submit. Normally, application for admission will be made immediately upon acceptance into either faculty. Admission to the program at a later date is also possible but may imply a longer time to complete the program.

Requirements

Students must satisfy all of the program requirements for both the Bachelor of Arts and Bachelor of Applied Science degrees in their chosen programs. Individual courses may be considered to satisfy program requirements for both degrees. Courses taken within the Faculty of Applied Science will have the same standing as courses taken within the Faculty of Science for the purpose of satisfying requirements for a Bachelor of Arts for students enrolled in this program. The regulations governing the granting of a second degree apply to this program, with either of the two degrees being considered as the 'second' degree even though both are being taken simultaneously. Where possible, students should meet with an advisor from the board of studies prior to enrolling in their first year of courses.

CURRICULUM AND FIRST YEAR

First Year

Students admitted into the engineering program directly from secondary school will take the first-year curriculum.

The typical transfer program is appropriate for most students transferring into the Faculty from the first year of a science program at UBC or another university or college. Applicants with more than 24 credits of engineering transfer credit may be eligible for second-year engineering. See *Admission from Science*, p. 96.

Other students will need to contact Engineering Student Services for advice on their first-year program.

Second, Third, and Fourth Years

The curriculum tables which follow show the requirements for each program year as they are in the current session. However, because of possible curriculum revisions, these requirements will not necessarily be the same in future sessions. Students should therefore be aware that the requirements which they will have to satisfy in subsequent years may not be the same as those which appear in this publication.

Options in Third and Fourth Years

In some departments selected groups of courses are offered as options which represent different areas of interest. High-quality performance in any option or field qualifies the student to continue his studies at the graduate level if he chooses to do so. Students entering third year should consult representatives of the departments concerned before registering for the courses offered.

CHEMICAL AND BIOLOGICAL ENGINEERING

Students entering Chemical and Biological Engineering may choose from three programs of study:

- Chemical Engineering – Process Option,
- Chemical Engineering – Environmental Option, or
- Chemical and Biological Engineering.

The Environmental Option of Chemical Engineering and the Chemical and Biological Engineering program are modifications to the regular Process Option of Chemical Engineering in which students, while continuing to study core chemical engineering principles, have some courses replaced by environmental or biological courses. For these options, technical electives are to be taken from a constrained list. Inter-

ested students should apply for the Chemical Engineering or Chemical and Biological Engineering program of their choice after completing first year engineering, or after second year if applying from another institution. Prospective students should be aware that the number of available spaces in any of the three programs of study may be limited.

CHEMICAL ENGINEERING-CHEMISTRY HONOURS

Enrolment in this program is suspended effective September 2004. Inquiries regarding the program should be made to the Department of Chemical and Biological Engineering.

The Chemical Engineering-Chemistry Honours program is jointly administered by the Departments of Chemical and Biological Engineering, and Chemistry.

The completion of the Bachelor of Applied Science in Chemical Engineering-Chemistry Honours will normally take five years of study. Entry to the program is normally from first-year Applied Science. To obtain permission to enter the program students must consult faculty advisors in the Departments of Chemical and Biological Engineering, and Chemistry.

The five-year Chemical Engineering-Chemistry Honours program has an integrated sequence of Chemistry courses which are different from those in the regular four-year Chemical Engineering program. Because of this and other differences between the programs, transfer from one to the other becomes progressively more difficult after first year. Students who complete four years of the combined program (including fourth-year Chemical Engineering) would have a number of deficiencies to make up if they wished to graduate at that point with a Bachelor of Applied Science in Chemical Engineering.

Students who satisfactorily complete the program and who obtain a minimum overall 65% average in their chemistry courses numbered 300 and higher, will receive a Bachelor of Applied Science in Chemical Engineering-Chemistry Honours.

CIVIL ENGINEERING

Within the Civil Engineering program, students may enrol in an Environmental Engineering Option which begins in third year. The Environmental Engineering Option is a modification of the regular Civil Engineering program in which environmental courses replace some of the regular program core courses in the third and fourth years of study. Interested students should apply for Civil Engineering (Environmental Engineering Option) after completing first-year Engineering, or after second year if transferring from another institution. Prospective students should be aware that an enrolment limit applies.

Project Integrated Program (PIP)

(Common to both Computer Engineering and Electrical Engineering)

This program is a project-based learning alternative to the traditional common second-year Electrical Engineering Program and Computer Engineering Program. Engineering design projects are used to motivate both the learning of academic course material and the development of analytical skills. The appropriate second year academic material is presented prior to each design project. Each of two modules per term contains a design project. The four projects per year are carefully selected to span the full second-year curriculum. Design teams of four to six students share access to assigned meeting rooms, workstations containing common engineering design tools and reference materials.

Honours Mathematics Option in either Electrical Engineering or Computer Engineering

It is possible for students to complete, in addition to their program, the basic Mathematics requirement of a combined Honours degree in Mathematics, by:

- obtaining 80% overall average in MATH 263, MATH 265, and MATH 267.^{1,2}
- obtaining a 68% overall average in MATH 300, 301, 320, 321, and 9 additional credits chosen from MATH 322, 331, 345, 402, 403, 405, 412, 416–429, 437, 443, and 449.³

¹ MATH 215, 226, and 227, with 68% in MATH 226, may be permitted as a replacement, upon approval of an advisor.

² The requirement of MATH 220 for entry into MATH 320 will be waived on the basis of this 80% overall average.

³ MATH 316, 400, and 401 are recommended for students in Electrical Engineering, and MATH 322 and 418 are recommended for students in Computer Engineering

Students who satisfactorily complete such a program will be given recognition as receiving the Bachelor of Applied Science in Electrical Engineering (Honours Mathematics Option) or Bachelor of Applied Science in Computer Engineering (Honours Mathematics Option). Students who enter engineering directly from secondary school are advised that some summer courses or additional Winter Session terms will probably be necessary in order to accommodate the extra load of the Honours Mathematics Option.

Students interested in undertaking this program should consult undergraduate student advisors in the Departments of Electrical and Computer Engineering, and Mathematics.

ENGINEERING PHYSICS

Engineering Physics is a program under the jurisdiction of the Dean of Applied Science and is administered by the Department of Physics and Astronomy. All inquiries regarding the program and student advising should be made through the Engineering Physics Program Director, Dr. A. Marziali, Room 341 in the Hennings Building.

The completion of a Bachelor of Applied Science in Engineering Physics will normally take five years of study. There are two routes to achieve this goal: the direct route and the transfer route.

The direct route is for students who enter first-year Applied Science directly from Grade 12. Having completed first-year Applied Science, students must then complete four years in the Engineering Physics program as described below. Students must submit a second-year program preference form, indicating Engineering

Physics as first choice, to the Applied Science Dean's Office by June 15.

The transfer route is for students who have completed first-year Science or the equivalent before entering the Faculty of Applied Science. Students must apply for the Engineering Physics program at the time of their application for admission into the Faculty of Applied Science. The deadline is February 28.

Students completing first-year Science will normally have the following course deficiencies: APSC 121, APSC 151, CPSC 152, MATH 152, and PHYS 170. If students have not taken CPSC in first-year Science, they should plan on taking the necessary courses as soon as possible, preferably during the summer before entering Engineering Physics. Students who are considering entering this program via the transfer route are advised to consult the program director regarding transfer credits and course scheduling.

The mission of the Engineering Physics program is to provide the best possible broad-based engineering degree which emphasizes the fundamentals of physics and mathematics and which is relevant to technology companies. Students will follow one of four options in the Program: Computer Science, Electrical Engineering, Mechanical Engineering, or Mechatronic Science. While following one of these four options, technical elective courses may be taken to obtain specialized training in sub fields of Earth and Ocean Sciences, Applied Physics, Applied Mathematics, or Materials Engineering. Prospective students should be aware that the number of available spaces in any of the options may be limited and may not always be available. Students should be prepared to make an alternative choice.

Most students choose to obtain technical work experience in addition to that offered in the regular curriculum. Students wishing to obtain technical work experience outside the Co-operative Education Program should confer with the Director of Engineering Physics.

The following program-year curriculum tables are specific to students registered in the corresponding years of Engineering Physics during the 2006/2007 Academic Year.

¹ Chosen in consultation with the director.

Honours Mathematics Option

It is possible for students to complete, in addition to the Engineering Physics degree, the basic Mathematics requirement of a combined Honours degree in Mathematics, by:

- obtaining 68% in MATH 226/227 or 226/317 or 220/217¹;
- obtaining a 68% overall average in the following courses, over and above those required of the regular Engineering Physics degree: MATH 320/321/401 and 3 credits chosen from MATH 322, 323, 345, 401, 402, 403, 404, 405, 412, 416–429, 433–440, 443, or 449.

Students who satisfactorily complete such a program will receive a Bachelor of Applied Science in Engineering Physics with Honours Mathematics Option, as well as the usual recognition for completing one of the normal Options in the program. This implies that students will take more than the normal load for the degree. Students intending to take this program should consult the Director of Engineering Physics or advisors in the Department of Mathematics.

¹ Students who obtain 80% or higher in Math 217 are not required to complete Math 220 and are qualified to take Math 320.

Co-operative Education Sequence of Placements

The degree will normally require the students to take nine academic (“Acad”) semesters and four co-operative education placements (“Coop#”). Students who have deficiencies in their program before entering Engineering Physics are encouraged to complete as many of those as possible during the “open” summer semester. Please seek the advice of an advisor in Engineering Physics.

CO-OP SEQUENCE OF PLACEMENTS

Year	Term 1	Term 2	Summer
1 Applied Science	Acad	Acad	Open
2 Engineering Physics	Acad	Coop#1	Acad
3 Engineering Physics	Acad	Acad	Coop#2
4 Engineering Physics	Coop#3	Acad	Coop#4
5 Engineering Physics	Acad	Acad	

Students accepted into Engineering Physics who are interested in the Co-operative Education program must contact the Science Co-op Office (www.sciencecoop.ubc.ca), located in Room 170 of the Chemistry/Physics Building.

GEOLOGICAL ENGINEERING

Geological Engineering is an interdisciplinary program under the jurisdiction of the Dean of the Faculty of Applied Science and administered by a board of study. Inquiries regarding

the program and student advising should be made through Dr. R. Beckie, Director, Geological Engineering, Room 261, Department of Earth and Ocean Sciences, telephone 604-822-6462.

INTEGRATED ENGINEERING

Integrated Engineering (IGEN) is a multidisciplinary engineering program that places a strong focus on team-based engineering design by means of three full-year project courses. In addition to developing a broad foundation in engineering, the student develops primary and secondary knowledge in specific engineering disciplines via 18 credits of technical electives in third and fourth year.

Completion of a B.A.Sc. in Integrated Engineering will normally take four years of study. Students may enter the program from first-year Applied Science or via transfer from the first-year Science or Engineering transfer program at a community college. Students entering from first-year Science will normally have course deficiencies that must be made up. Consult the IGEN Student Advisor for assistance in such cases.

There is a co-operative education option (Co-op) where students normally take eight academic semesters and five Co-op semesters over a five-year period. Students normally apply for Co-op between January of first year and September of the second year of the program. The *Co-op Office*, p. 98, should be contacted for details.

All inquiries concerning the program should be directed to the Program Director. See the IGEN website (www.igen.ubc.ca) for contact information.

¹ CIVL 215 (in second year) and MECH 375 (in third year) may be replaced by CHBE 251 (in second year) and CHBE 351 (in third year).

² Of the 18 credits of technical electives, 9 credits must be in one engineering discipline and 6 in another discipline. Several elective streams are possible. Consult the IGEN Student Advisor for assistance.

³ See *Complementary Studies Courses*, p. 97.

MATERIALS ENGINEERING

Materials Engineering is concerned with the characterization, processing, and use in design of metallic and non-metallic materials. An optional cooperative education program is available which permits students to obtain twenty months of related experience in the last three years of the program. Interested students should apply to the Applied Science Co-operative Education Program during the first week of second year.

Mechatronics Option

The Mechatronics Option in Mechanical Engineering allows students interested in mechanical systems integrated with embedded electronics, sensors, actuators, and related systems to have a course and project concentration in these areas.

Second-year students will take the same courses as regular mechanical engineering students.

Students will be admitted to the option at the end of first year by permission of the program director, based on a demonstrated interest in mechanical engineering and electronic design, and the grade point average obtained in the first year of engineering.

To complete this option, students will modify the standard Mechanical Engineering third- and fourth-year programs.

Thermofluids Option

The Thermofluids Option in Mechanical Engineering allows students interested in aircraft, naval architecture, engines, and related systems to have a course and project concentration in these areas.

Students will be admitted to the option at the end of second year by permission of the program director, based on a demonstrated interest in engineering thermofluids.

The Thermofluids Option replaced the previous Naval Architecture and the Industrial Aerodynamics and Aircraft Options.

Students can continue into the Thermofluids Option in the Master of Engineering degree program if they have a strong interest in a particular area of thermofluids and are eligible for graduate studies.

To complete this option, students will modify the standard Mechanical Engineering third- and fourth-year programs.

Honours Mathematics Option

It is possible for students to complete, in addition to the Mechanical Engineering degree, the basic Mathematics requirement of a combined Honours degree in Mathematics, by:

- obtaining 68% in MATH 257;
- obtaining a 68% overall average in MATH 300, 301, 317, 320, 321, 400, and 6 credits chosen from MATH 318, 345, 401–405, 412, 416–429, 433–440, 443, 449, 450.

Students who satisfactorily complete such a program will receive a Bachelor of Applied Science in Mechanical Engineering (Honours Mathematics Option). Extra Winter Session terms will probably be necessary to accommo-

date the substantial extra load of the Honours Mathematics Option. Students interested in undertaking this program should consult with undergraduate student advisors in the Departments of Mechanical Engineering and Mathematics.

Electro-Mechanical Design Engineering (B.A.Sc./M.Eng.)

Enrolment in this program is suspended. Inquiries regarding the program should be made to the Department of Mechanical Engineering.

Admission into this option is normally limited to students selected by interview during their first year of engineering studies. Courses completed in second, third, fourth, and fifth years of study culminate in the awarding of two degrees simultaneously: the Bachelor of Applied Science in Mechanical Engineering (Electro-Mechanical Design Option) and the Master of Engineering. A Summer Session is required between fourth and fifth years. Entry into the fifth year of the program is subject to meeting graduate studies admission requirements in their third and fourth years (see *The Faculty of Graduate Studies*, p. 217) and subject to availability of an approved industrial masters project. Students not meeting these requirements can complete a Bachelor of Applied Science in Mechanical Engineering (Electro-Mechanical Design Option). Students wishing to switch from the Master of Engineering to the Master of Applied Science can apply during their fourth year. Candidates successfully completing the degree requirements will be awarded a Master of Applied Science instead of a Master of Engineering. For further details, consult the Department of Mechanical Engineering and Faculty of Graduate Studies admission offices.

A maximum of 6 credits of undergraduate courses is permitted. Students are encouraged to complete 6 credits of these electives during their fourth year.

³ Subject to designation of an appropriate Mechanical Engineering advisor.

⁴ Completion of thesis normally takes two years.

Students Leaving Electro-Mechanical Design Engineering

Students leaving the Electro-Mechanical Design Engineering program will receive a Bachelor of Applied Science in Mechanical Engineering (Computer-Aided Automation) by successfully completing the third and fourth year of the Electro-Mechanical Design Engineering program with the following modifications: drop EECE 356, 379 and 494; add MECH 457 or 458 and 6 credits of Mechanical Engineering Technical Electives.

MINING ENGINEERING

Mining Engineering is concerned with the optimal exploitation of mineral resources while minimizing environmental impact. The discipline requires a broad knowledge of engineering and scientific subjects.

JOINT UNBC/UBC PROGRAM: ENVIRONMENTAL ENGINEERING

The Environmental Engineering program is a four and a half year (nine semester) joint degree between the University of British Columbia and the University of Northern British Columbia.

The program starts with a two-year foundation in mathematics and the basic sciences from the College of Science and Management of the University of Northern British Columbia. In the third and fourth years, the program provides a thorough education and training in engineering fundamentals, engineering analysis and engineering design, largely through courses in Civil Engineering and Chemical and Biological Engineering at the University of British Columbia. The final term at UNBC will expose students to practical environmental engineering problems.

The Environmental Engineering program is a joint program under the jurisdiction of the Dean of the Faculty of Applied Science at UBC and the Dean of the College of Science and Management at the University of Northern British Columbia. The program is administered by a joint board of study.

The program has been developed to satisfy Canadian Engineering Accreditation Board (CEAB) requirements for accreditation of engineering programs.

There is a co-operative education option (Co-op) where students normally take five work semesters in addition to the nine academic semesters. Accounting for summer work terms, this option results in a total duration of five and one-half years.

MASTER OF ENGINEERING

INTRODUCTION

The Master of Engineering (M.Eng.) is a study program suited to students who wish to pursue their engineering education in a preferred discipline beyond the undergraduate level, but who do not wish to pursue a thesis research program. A typical completion time for the M.Eng. is 12 to 18 months (two to three terms) for full-time students. Students who are planning on taking the M.Eng. program on a part-time basis must obtain approval from their departmental advisor prior to the commencement of the program.

Administration of the Master of Engineering program was moved to the Faculty of Applied Science from the Faculty of Graduate Studies in 2005. Through the transition, many of the guidelines will remain as they were in the Faculty of Graduate Studies. For further information please see the program website (www.apsc.ubc.ca/student_info/Engineering/graduate) or contact the M.Eng. Coordinator (MEngInfo@apsc.ubc.ca) in the Dean's Office.

Financial assistance is generally not available to M.Eng. students. The M.Eng. program is not recommended as preparation for the Doctor of Philosophy. Applicants who are considering taking a Ph.D. in the future should apply for admission to either the Master of Applied Science (M.A.Sc.) or Ph.D. program through the Faculty of Graduate Studies.

Students interested in applying to a Master of Engineering program must contact the individual departments in the Faculty of Applied Science.

For Academic Regulations see Chapter 5 "Academic Regulations" and *Academic Regulations*, p. 223, in the Faculty of Graduate Studies section in Chapter 9.

The requirement for the M.Eng. is satisfactory completion of 30 credits of courses. At least 24 of these credits must be courses numbered 500 and above; at least 12 of these 24 credits must be in the preferred discipline; and 6 of these 24 credits may be for a supervised project report. Individual programs have specific degree requirements in addition to the primary requirements.

DIPLOMA IN FOREST ENGINEERING

The Faculty of Applied Science (Department of Civil Engineering), in cooperation with the Faculty of Forestry and the Forest Management Institute of British Columbia, offers the *Diploma in Forest Engineering*, p. 213.

The program is designed for professional foresters, engineers, and geoscientists specializing in forest engineering practice in BC who wish to improve their job-related knowledge, work performance, and business opportunities. It

focuses on advanced engineering principles, recent research, and current practices.

The Diploma in Forest Engineering will be awarded upon successful completion of the program.

ADMISSION

Admission to the Diploma program requires a combination of academic and work experience qualifications. Applicants must be:

- a Registered Professional Forester (R.P.F.) with the Association of British Columbia Professional Foresters; and/or
- a Registered Professional Engineer (P.Eng.) with the Association of Professional Engineers and Geoscientists of British Columbia; and/or
- a Registered Professional Geoscientist (P.Geo.) with the Association of Professional Engineers and Geoscientists of British Columbia.

Applicants normally will have a minimum of five years of relevant work experience. Applicants normally are practicing forest engineers who are employed with government, industry, or a consulting firm and who are engaged in forest engineering or related forest management work.

DIPLOMA REQUIREMENTS

The Diploma requires the completion of six course modules, each of two weeks' duration, for a total of 12 weeks of education. Extensive pre-course reading assignments are also required prior to each course module. The program normally takes three years to complete. In order to qualify for the Diploma, the student must complete all requirements within a maximum of five years.

RESIDENCE REQUIREMENTS AND TRANSFER OF CREDIT

Students are required to attend full-time day and evening sessions for at least 10 consecutive days for each course module. Classroom sessions are held in several off-campus locations in British Columbia. There is no transfer of credit available either to or from the Diploma program.

PROFESSIONAL ASSOCIATIONS

The right to practise engineering and accept professional responsibility in Canada is limited to those who are registered members of the Association of Professional Engineers in the Province concerned. During the period between graduation and registration, the graduate who intends to practise in BC should be enrolled with the Association as an "Engineer in Training."

All of the Bachelor of Applied Science programs at UBC are accredited by the Canadian Engineering Accreditation Board (CEAB) of the Canadian Council of Professional Engineers (www.cpe.ca). Graduates of CEAB-accredited programs are accepted as being fully qualified academically for professional engineering regis-

tration anywhere in Canada. However, there are also experience qualifications and professional practice requirements that must be fulfilled before full registration is granted. These qualifications vary within Canada and applicants should obtain the necessary details from the appropriate association(s).

M.Eng., M.A.Sc., or Ph.D. degrees alone do not form an acceptable basis for application to Associations of Professional Engineers in Canada.

ACADEMIC STAFF

DEPARTMENT OF CHEMICAL AND BIOLOGICAL ENGINEERING

K. J. Smith, Head

Professors Emeriti

R. Branion, B.A.Sc. (Tor.), M.A.Sc. (Tor.), Ph.D. (Sask.), P.Eng., F.C.I.C.; N. Epstein, M.Eng. (McG.), Eng.Sc.D. (N.Y.), P.Eng., F.C.I.C., F.A.I.Ch.E.; C. W. Oloman, B.Eng. (Syd.), M.A.Sc. (Br.Col.), P.Eng., M.C.I.C.; K. L. Pinder, M.Eng. (McG.), Ph.D. (Birm.), P.Eng., F.C.I.C.; A. P. Watkinson, B.Eng. (McM.), M.A.Sc., Ph.D. (Br.Col.), P.Eng., F.C.I.C.

Professors

B. D. Bowen, B.A.Sc., Ph.D. (Br.Col.); S. Duff, B.Sc. (Guelph), M.E.Sc. (W.Ont.), Ph.D. (McG.); P. Englezos, B.Eng. (N.T.U., Athens), M.Sc., Ph.D. (Calg.), P.Eng., M.C.I.C., M.A.I.Ch.E.; J. R. Grace, B.E.Sc. (W.Ont.), Ph.D. (Cantab.), P.Eng., F.C.I.C., M.I.Ch.E.; S. Hatzikiriakos, Dip. (Thessaloniki), M.A.Sc. (Tor.), Ph.D. (McG.), P.Eng., M.C.S.Ch.E., Soc. of Rheology; C. A. Haynes, B.S. (Texas), Ph.D. (Calif., Berkeley), P.Eng.; R. J. Kerekes, B.A.Sc., M.A.Sc. (Tor.), Ph.D. (McG.), P.Eng., F.C.A.E.; C. J. Lim, B.Sc. (Chem. Eng.) (Sing.), M.A.Sc., Ph.D. (Br.Col.), P.Eng., M.C.I.C.; J. M. Piret, B.A. (Harv.), M.Sc., Ph.D. (M.I.T.), Joint Biotech. Lab; K. J. Smith, M.Sc. (Eng.), (Natal), Ph.D. (McM.), P.Eng., M.C.I.C.; D. P. Wilkinson, B.A. Sc. (Br.Col.), Ph.D., P.Eng.

Associate Professors

S. A. Baldwin, B.Sc. M.Sc. (Cape T.), Ph.D. (Tor.), P.Eng.; C. P. J. Bennington, B.Sc., M.A.Sc., Ph.D. (Br.Col.), P.Eng.; X. Bi, B.S.Ch.E., M.S.Ch.E. (Tsinghua), Ph.D. (Br.Col.), P.Eng.; J. J. Feng, B.S., M.S. (Peking), Ph.D. (Minnesota); K. E. Kwok, B.Sc., Ph.D. (Alta.), P.Eng.; A. K. P. Lau, B.Sc., M.Sc. (Guelph), Ph.D. (Br.Col.), P.Eng.; M. Martinez, B.A.Sc., M.A.Sc. (Tor.), Ph.D. (Br.Col.); M. Mohseni, B.Sc. (Amirkabir), M.A. Sc., Ph. D. (Tor.), P.Eng.; R. J. Petrell, B.A. (Minn.), M.Sc. (Penn. State), Ph. D. (Flor.), P.Eng.

Assistant Professors

N. Ellis, B.Sc. (Hons.) (Wat.), M.E.Sc. (W.Ont.), Ph.D. (Br.Col.); E. Gyenge, B.Eng. (Hons.) (Babes-Bolyai, Cluj, Romania), M.A.Sc. (Br.Col.), Ph.D. (Br.Col.), P.Eng.; F. Taghipour, B.Sc. (Sharif), M.Sc. (Azad), M.A.S., Ph.D. (Tor.), P.Eng.

Senior Instructors

A. L. Creagh, B.Sc. (Alta.), M.Sc., Ph.D. (Calif. Berkeley), P.Eng.; D. Kannangara, B.Sc. (S. Lanka), Ph.D. (Ott.); D. Posarac, B.Sc. M.Sc., Ph.D. (Novi Sad).

Adjunct Professors

A. E. M. Adris, B.Sc. (Cairo), M.Sc. (Salford, Engl.), Ph.D. (Br.Col.); Y. Bolkan, B.Sc. (Bogazici), M.Sc. (Calg.), Ph.D. (Calgary/W.Ont.); C. Brereton, B.A.Sc., Ph.D. (Br.Col.); A. A. Guenkel, Dip. Ing. (Aachen), Ph.D. (McG.), P.Eng.; R. Sheikholeslami, B.Sc.

(Kansas), M.A.Sc., (Ph.D. (Br.Col.)), P.Eng., F.I.E. Aust; S. A. Sokhansanj, B.Sc. (Tehran), M.Sc. (Mich.), Ph.D. (Mich.).

Associate Member

D. G. Kilburn, B.A.Sc. (Br.Col.), Ph.D. (Univ. Coll., Lond.).

DEPARTMENT OF CIVIL ENGINEERING

E.R. Hall, Head

Professors Emeriti

D.L. Anderson, B.Sc. (Alta.), M.S. (Ill.), Ph.D. (Stan.), P.Eng., F.C.S.C.E.; P.M. Byrne, B.E. (Nat. Ireland), M.A.Sc., Ph.D. (Br.Col.), P.Eng.; R.G. Campanella, B.S., M.S., Ph.D. (Calif., Berkeley), P.Eng., M.A.S.C.E., M.C.G.S., M.A.S.T.M.; S. Cherry, B.Sc. (Manit.), M.S. (Ill.), Ph.D. (Brist.), P.Eng., F.A.S.C.E., F.C.S.C.E., M.E.I.C., Hon. M.E.E.R.I.; W.D.L. Finn, B.E. (Nat., Ireland), M.Sc., Ph.D. (Wash.), P.Eng., M.A.S.C.E., M.E.I.C., M.C.G.S., M.CANCOLD, M.I.S.M.F.E., M.SIAM.; R.O. Foschi, B.Sc. (Rosario), M.Sc., Ph.D. (Stan.), P.Eng., F.C.S.C.E., F.I.A.W.S.; K.J.F. Hall, B.S.A. (Guelph), Ph.D. (Wis.), A.S.L.O.; S. Mindess, B.A., B.Sc. (C.E.) (Manit.), M.S., Ph.D. (Stan.), P.Eng.; F.P.D. Sessional Lecturers

B. Jolliffe, B.Sc. (Br.Col.), M.Math. (Wat.); **J.M. Pavelich**, B.A. (Br.Col.), M.A. (Dal.); **S. Sarkaria**, B.Sc., Ph.D. (Asten).

ENGINEERING PHYSICS PROGRAM

A. Marziali, Physics and Astronomy, Program Director

Board of Study

Y. Altintas, Mechanical Engineering; **S. Green**, Mechanical Engineering; **C. Hansen**, Physics and Astronomy; **M. Isaacson**, P.Eng., Dean; **C. Leung**, Electrical and Computer Engineering; **M. Miltzer**, Metals and Materials Engineering; **I. Mitchell**, Computer Science; **B. Seymour**, Mathematics; **M. Yedlin**, Electrical and Computer Engineering; **J. Young**, P. Eng., Physics and Astronomy; Two Student Representatives.

GEOLOGICAL ENGINEERING PROGRAM

R. D. Beckie, P.Eng., Earth and Ocean Sciences, Director and Chair
M. Lawrence, P.Eng., Chair

Board of Study

W. S. Dunbar, P.Eng., Mining Engineering; **E. Hall**, P.Eng., Civil Engineering; **O. Hungr**, P.Eng., P.Geo., Earth and Ocean Sciences; **M. Isaacson**, P.Eng., Dean; **M. Lawrence**, P.Eng., BC Hydro; **M. J. Scoble**, P.Eng., Mining and Mineral Process Engineering; **D. Shuttle**, C.Eng., Civil Engineering; **P. Smith**, Earth and Ocean Sciences; Two Student Representatives.

INTEGRATED ENGINEERING PROGRAM

W. S. Dunbar, P.Eng., Mining Engineering, Program Director

Board of Study

W. G. Dunford, P.Eng., Electrical and Computer Engineering; **A. B. Dunwoody**, P.Eng., Associate Dean; **M. S. Gadala**, P.Eng., Mechanical Engineering; **R. A. Hall**, P.Eng., Mining Engineering; **R. J. Petrell**, P.Eng., Chemical and Biological Engineering; **W. J. Poole**, P.Eng., Materials Engineering; **R. Vaziri**, Civil Engineering.

DEPARTMENT OF MATERIALS ENGINEERING

S.L. Cockcroft, Head

Professors Emeriti

T.R. Meadowcroft, B.A.Sc. (Br.Col.), D.I.C., Ph.D. (Lond.), P.Eng; **A. Mitchell**, B.A., M.A., D.Phil. (Oxon.), P.Eng., C.Eng; **D. Tromans**, B.Sc., Ph.D. (Leeds).

Professors

S.L. Cockcroft, B.Sc., B.A.Sc., M.A.Sc., Ph.D. (Br.Col.), P.Eng; **D.B. Dreisinger**, B.Sc., Ph.D. (Qu.), P.Eng., Industrial Research Chair in Hydrometallurgy; **W.J. Poole**, B.E.Sc., (W.Ont.), Ph.D. (McM.), P.Eng; **A. Poursartip**, B.A., M.A., Ph.D. (Cantab.); P.Eng; **T. Troczynski**, B.Sc., M.Sc. (Poland), Ph.D. (McM.), P.Eng; **R. Vaziri**, B.Sc. (Lond.), M.A.Sc., Ph.D. (Br.Col.), P.Eng.

Associate Professors

P.V. Barr, B.Sc., M.Sc. (New Br.), Ph.D. (Br.Col.), P.Eng; **D.G. Dixon**, B.S., Ph.D. (Nevada), P.Eng; **G. Fernlund**, Civ. Ing., M.Sc. (Sweden), M.A.Sc., Ph.D. (Tor.), P.Eng; **M. Miltzer**, Dip. Phys. (Dresden), Ph.D. (Acad. Sciences, GDR), Dofasco Chair; **M.A. Wells**, B.Eng. (McG.), Ph.D. (Br.Col.), P.Eng.

Assistant Professors

A. Alfantazi, B.Eng. (Laur.), M.A.Sc., Ph.D. (Qu.), P.Eng; **D.M. Majjer**, B.A.Sc., Ph.D. (Br.Col.), P.Eng; **C.W. Sinclair**, B.Eng., Ph.D. (McM.); **R. Wang**, B.E. (Zhejiang), M.Sc., Ph.D. (Harbin Inst. Tech., China), P.Eng.

Adjunct Professors

A. Akhtar, B.Sc., B.E. (India), Ph.D. (Br.Col.), P.Eng; **F. Ellyin**, Dip. Eng., M.Sc. (Iran), Ph.D. (Wat.); **D. Ghosh**, B.Tech (India), M.Eng, Ph.D. (McM.); **J.A. Gonzalez Dominguez**, B.Sc., M.Sc. (Mexico), Ph.D. (Br.Col.); **L.S. Gormely**, B.Sc., Ph.D. (Br.Col.); **R.P. Hackl**, B.Sc., M.Sc., Ph.D. (Br.Col.); **F. Hossein-Babaei**, B.Sc. (Iran), M.S., D.I.C., Ph.D. (Lond.); **D.J. Lloyd**, B.Sc., Ph.D. (Wales); **G. Oprea**, B.Sc., M.Sc., Ph.D. (Romania), P.Eng; **P. Patnaik**, B.Sc., M.Tech. (India), M.Eng., Ph.D. (McM.); **G.G. Richards**, B.A.Sc., Ph.D. (Br.Col.), P.Eng; **G. Van Weert**, B.Sc., M.Sc. (Netherlands), M.A.Sc.(Tor.), Ph.D. (Netherlands).

DEPARTMENT OF MECHANICAL ENGINEERING

N. Rajapakse, Head

Professors Emeriti

K. V. Bury, B.A.Sc. (Tor.), B.A. (Sir. Geo. Williams), M.S. (Cal.Tech.), M.B.A. (Stan.), Ph.D. (Tor.); **S. M. Calisal**, B.Sc. (Robert Coll., Turkey), M.S., Ph.D. (Calif., Berkeley), P.Eng., Fellow S.N.A.M.E., A.S.M.E.; **J. P. Duncan**, B.E., M.E. (Adel.), D.Sc. (Manch.), F.I.Mech.E.; **I. S. Gartshore**, D.P.A. (Olds.), B.A.Sc. (Br.Col.), M.Sc. (Eng.) (Lond.), Ph.D. (McG.),

P.Eng; **E. Hauptmann**, B.Sc. (Alta.), M.S., Ph.D. (Cal.Tech.); **P. G. Hill**, B.Sc. (Hons.) (Qu.), M.Sc. (Birm.), Sc.D. (M.I.T.), P.Eng., F.R.S.C., Mem. A.S.M.E., Fellow S.A.E., Fellow C.S.M.E.; **S. G. Hutton**, B.Sc. (Nott.) M.Sc. (Calg.), Ph.D. (Br.Col.), P.Eng., Mem. A.S.M.E., Mem. S.N.A.M.E.; **M. Iqbal**, B.A., B.Sc.Eng. (Punj.), M.Eng., Ph.D.; **D. W. McAdam**, B.Sc. (Alta.), Ph.D. (Br.Col.), P.Eng.; **H. Ramsey**, B.Sc. (Alta.), M.S., Ph.D. (Stanf.); **M. E. Salcudean**, B.Eng., Ph.D. (Romania), Honorary Doctorate (Ott.), P.Eng., Fellow C.S.M.E., F.C.A.E., F.R.S.C., Mem. A.S.M.E., Weyerhaeuser Industrial Research Chair in Computational Fluid Dynamics; **H. Vaughan**, B.Sc. (Brist.), M.Sc. (Cantab.), Ph.D. (Glas.), Fellow Royal Inst. of Naval Architects, C.Eng.

Professors

Y. Altintas, B.Sc. (Istanbul Tech. U.), M.Sc. (New Bruns.), Ph.D. (McM.), P.Eng., Fellow A.S.M.E., Fellow S.M.E., Active Mem. C.I.R.P., NSERC-Pratt&Whitney Industrial Research Chair; **C. W. de Silva**, B.Sc. Eng. (Hons.) (Ceyl.), M.A.Sc. (Tor.), Ph.D. (Cantab.), Ph.D. (M.I.T.), P.Eng., Fellow I.E.E.E., Fellow A.S.M.E., F.I.T., Emeritus A.S.I., NSERC Professor of Industrial Automation; **R. L. Evans**, B.A.Sc. (Br.Col.), M.A.Sc. (Tor.), Ph.D. (Cantab.), P.Eng., C.Eng., F.C.A.E., F.I. Mech. E., Fellow S.A.E., Methanex Professor of Clean Energy Systems; **M. S. Gadala**, B.Sc., M.Sc. (Cairo), Ph.D. (McM.), P. Eng., Patrick Campbell Design Chair; **S. I. Green**, B.A.Sc. (Tor.), M.S., Ph.D. (Cal.Tech.), P.Eng., Mem. A.S.M.E., Mem. P.A.P.T.A.C., Mem. T.A.P.P.I.; **M. Hodgson**, B.Sc. (Hons.) (Qu.), M.Sc., Ph.D. (S'ton.), C. Eng; **T. R. Oxland**, B.A.Sc., M.A.Sc. (Wat.), M.S., M.Phil., Ph.D. (Yale), P. Eng., Mem.O.R.S., Mem. A.S.B., Mem. A.S.M.E.; **N. Rajapakse**, B.Sc.(Hons.) (S.Lanka), M.Eng, D. Eng (A.I.T., Thailand), P.Eng., F.C.A.E., Mem. A.A.M., Mem. A.S.M.E., Fellow C.S.C.E.; **F. Sassani**, B.Sc. (Sharif, Tehran), M.Sc., Ph.D. (Manc.), P.Eng., Fellow A.S.M.E., Fellow I. Manf., Mem. C.S.M.E., Mem. A.S.E.E.; **G. S. Schajer**, B.A., M.A. (Cantab.), M.S., Ph.D. (Calif., Berkeley), P.Eng., P.E., C.Eng., Eur. Ing., Fellow A.S.M.E., Mem. S.E.M., F.I.Mech.E.; **I. Yellowley**, B.Sc. (Nott.), M.Sc., Ph.D. (Manc.).

Associate Professors

W. K. Bushe, B.Sc. (Alta.), Ph.D. (Cantab.), P.Eng; **E. A. Croft**, B.Sc. (Br.Col.), M.A.Sc. (Wat.), Ph.D. (Tor.), P.Eng., Mem. I.E.E.E., Mem. A.S.M.E.; **A. B. Dunwoody**, B.A.Sc. (Br.Col.), Ph.D. (M.I.T.), P.Eng; **I.A. Frigaard**, B.Sc. (Cardiff), M.Sc., D.Phil. (Oxon), C.Math. Mem. S.P.E., Mem. S.I.A.M.; **A. J. Hodgson**, B.A.Sc., M.A.Sc. (Br.Col.), Ph.D. (M.I.T.; Harv.), Mem. A.S.M.E., Mem. I.E.E.E., Mem. I.S.B., Mem. C.A.O.S.; **C. F. Ollivier-Gooch**, B.A., B.S. (Rice), M.S., Ph.D. (Stan.), P.Eng., Mem.A.S.M.E., Mem.A.I.A.A., Mem. C.F.D.S.C.; **J. A. Olson**, B.A.Sc., Ph.D. (Br.Col.), Mem. C.P.P.A., Mem. T.A.P.P.I.; **S. N. Rogak**, B.A.Sc. (Br.Col.), M.S., Ph.D. (Cal.Tech.), P.Eng., Mem. A.A.A.R.; **D. P. Romilly**, B.A.Sc., Ph.D. (Wat.), P.Eng, Councillor C.A.S.I.

Assistant Professors

M. Chiao, B.S., M.S. (N. Taiwan), Ph.D. (Calif., Berkeley); **P. A. Crompton**, B.Sc. (Dal.), B.Eng. (T.U.N.S.), M.Sc., Ph.D. (Qu.), P. Eng., Mem. O.R.S., Mem. S.A.E., Mem. I.S.B., Mem. A.S.T.M.; **M.H. Davy**, B.Eng. (Univ. Coll., Lond.), Ph.D., (Univ. Coll., Lond.), C.Eng., M.I.Mech.E.; **D. Grecov**, B.Eng. (U.P.B.), Ph.D. (I.N.P.G.), P.Eng; **O. Kesler**, B.S.E. (Penn.), S.M (M.I.T.), Sc.D. (M.I.T.), Mem. M.R.S., Mem. E.C.S.; **X. Lu**, B.S., M.S. (Tsinghua), Ph.D. (M.I.T.); **W. Merida**, B.Sc. (Trent), M.A.Sc. (Vic.B.C.), Ph.D., (Vic.B.C.); **R. N. Rohling**, B.A.Sc. (Br.Col.), M.Eng. (McG.), Ph.D. (Cantab.), P.Eng; **B. Stoeber**, M.Sc. (T.U. Darmstadt), M.Sc. (E.C. Lyon), Ph.D. (Calif., Berkeley), Mem. Soc. of Rheology, Mem.

A.P.S.; **D. Yip-Hoi**, B.Sc. (U.W.I.), M.Sc. (Sunny, Buffalo), Ph.D. (Mich.), Mem. A.S.M.E., Mem. S.M.E.

Senior Instructor

P. Cramond, B.A.Sc. (Br.Col.), P.Eng.

Instructors

J. Mikkelsen, B.A.Sc., M.A.Sc. (Br.Col.), P.Eng., Mem.S.N.A.M.E., Mem. A.S.M.E.; **P. Ostafichuk**, B.A.Sc., Ph.D. (Br.Col.), Mem. S.N.A.M.E., Mem. A.S.M.E.

Lecturer

M. Fengler, B.A.Sc. (Br.Col.), P.Eng.

Associate Members

R.A. Hall, B.Sc. (U.N.B.), M.Sc., Ph.D. (Qu.), P.Eng., Mem. C.I.M., Mem. S.M.E., Mem. A.S.M.F.; **K. M. MacLean**, B.S. (Stan.), M.S., Ph.D. (M.I.T.); **D. Wilson**, B.Eng. (McG.), D.Phil. (Oxon.), Mem. O.R.S., Mem. O.A.R.S.I.

DEPARTMENT OF MINING ENGINEERING

M. J. Scoble, Head

Professors

J. A. Meech, B.Eng. (McG.), M.Sc. (Eng.), Ph.D. (Qu.), P.Eng., F.C.I.M.; **M. J. Scoble**, A.C.S.M. (Camborne), M.Sc. (Leic.), Ph.D. (Nott.), P.Eng., M.C.I.M., M.I.M.M.; **G. W. Wilson**, B.Sc. (Manit.), Ph.D. (Sask.), P.Eng. P.Geo.

Associate Professors

W. S. Dunbar, B.Sc. (Br.Col.), M.Sc. (Tor.), Ph.D. (Stan.), P.Eng., M.C.I.M.; **R. A. Hall**, B.Sc. (N.B.), M.Sc., Ph.D. (Qu.), P.Eng., M.C.I.M., M.S.M.E., M.A.S.M.E.; **B. Klein**, B.A.Sc., Ph.D. (Br.Col.), M.C.I.M., M.S.M.E.; **R. C. Pakalnis**, B.Eng. (McG.), M.A.Sc., Ph.D. (Br.Col.), P.Eng., M.C.I.M.; **M. M. Veiga**, B.Sc. (Cath. U. Rio de Janeiro), M.Sc. (Fluminense Federal), Ph.D. (Br.Col.) P.Eng., M.C.I.M.

Assistant Professor

M. Pawlik, B.Sc. (Poland), Ph.D. (Br.Col.), M.C.I.M.

Adjunct Professors

T. Atkinson, D.Sc. (Nott.), D. Eng. (Witw.), Ph.D. (Lond.); **G. R. Balden**, B.Sc., M.Sc. (Qu.), Ph.D. (McG.), P.Eng., M.C.I.M.; **M. M. Ghomshei**, M.Sc. (Tehran), Ph.D./D.Eng (France); **R. W. Lawrence**, B.Sc., Ph.D. (Wales); **M. G. Lipsett**, B.Sc., Ph.D. (Qu.); **M. Morin**, B.Eng. (McM.), M.Sc., Ph.D. (Qu.), P.Eng., M.C.I.M., M.S.M.E., M.C.L.R.A.; **W. E. Stanley**, B.Sc. (Mich. Tech.), P.Eng.

DEAN'S OFFICE

Co-operative Education Programs

J. Kagetsu, Director

The School of Architecture and Landscape Architecture offers graduate professional programs in Architecture (Master of Architecture, M.Arch.) and Landscape Architecture (Master of Landscape Architecture, M.L.A.) as well as the post-professional Master of Advanced Studies in Architecture (M.A.S.A.) and Master of Advanced Studies in Landscape Architecture (M.A.S.L.A.). An undergraduate degree in Environmental Design (Bachelor of Environmental Design, B.En.D.) is also offered as a non-professional program anticipating graduate professional studies or related careers engaged with the broad role of design in society.

Architecture, landscape architecture and environmental design more generally are disciplines that are directly concerned with shaping the human environment. As academic constituents of the University, they relate to the humanities, sciences, technology and creative arts. Each program of study demands a sound academic background and the capacity to contribute to the realm of creative problem solving.

A description of each constituent program, degree requirements, academic regulations, and admissions procedures are outlined below. Fur-

ther and more current information may be found at the School's website (www.sala.ubc.ca).

MASTER OF ARCHITECTURE

The Master of Architecture (M.Arch.) program is an accredited professional graduate program for those with an undergraduate degree who wish to pursue professional studies in architecture, as a prerequisite to becoming a registered architect.

The full program is 119 credits. Students entering the program with an undergraduate degree normally take three and one-half years of full-time study to complete the requirements. Students holding a pre-professional architecture degree will be considered for advanced placement. An undergraduate degree in a field related to architecture may be advantageous in reducing the length of the program but it is not a required prerequisite. Demonstration of interest and aptitude in the field occurs as part of the application process. At the time of application, the School's Admissions Committee will determine the extent of advanced placement on the basis of the applicant's undergraduate transcript and portfolio.

ACADEMIC ADVISING

Students entering the program are assigned an advisor for their first year of study. In addition, during the first year, and in subsequent years, students may seek advice from their studio or thesis mentor, administrative faculty, specifically the chair of Standings and Promotion and the head of the Master of Architecture program, as well as the administrative staff.

ADMISSION

The selection of university courses anticipating graduate studies in architecture should emphasize a breadth and mix of academic experience including exposure to some aspect of visual communication. Irrespective of specific degree requirements within various faculties or universities, university-level course work in mathematics, physics, english literature, and composition is desirable. Beyond specific academic experiences, students entering the Master of Architecture program should

demonstrate interest and potential in the creative arts and architecture.

For prospective applicants seeking information and guidance in preparation for entry, a School Prospectus is available on request and at the Architecture website (www.arch.ubc.ca).

Candidates for admission to the Master of Architecture program are generally required to hold the academic equivalent of a four-year baccalaureate degree from UBC. In at least four years of study, candidates should have obtained a B+ average in third- and fourth-year coursework. Applicants must in addition demonstrate creative potential and aptitude for the study of architecture.

Applicants must submit all of the following by the end of the first week of January:

- Application form. A completed official application form for the Faculty of Graduate Studies along with a non-refundable fee. An online application can be made at grad.ubc.ca/apply/online.
- Biographical statement. A brief summary (in resumé form) including work experience, travel or other relevant experience. A single page in prose form to flesh out or give depth to the resumé is also required.
- Statement of interest. A brief statement of the reasons for desiring to study architecture as well as reasons for selecting Architecture at UBC.
- Portfolio. A portfolio of work demonstrating aptitude and experience in creative endeavours and evidence of graphic skills. Additional information and instructions pertaining to the presentation of the portfolio are provided in the Prospectus.
- Transcripts. Two official transcripts of all post-secondary study completed to date (up to, and including, December grades) received in sealed, endorsed envelopes. If an applicant is currently completing a degree, an evaluation will be made on the transcripts to date. Acceptance will be conditional on the successful completion of the bachelor's degree according to the academic requirements, and receipt of a final, official transcript confirming the degree awarded.
- Letters of reference. A minimum of three letters of reference from persons who can best assess the applicant's initiative and academic, analytical and creative abilities.

These must be received in sealed, endorsed envelopes.

Places are awarded on a competitive basis as interest in the program far exceeds available resources and facilities. The Admissions Committee reserves the right to not admit applicants who nominally meet the entrance requirements. All admissions must be approved by the Faculty of Graduate Studies.

A weeklong workshop course in late August is mandatory for entering students. Details about the workshop course are provided with the letter of offer. Students who are unable to attend must re-apply for admission at a later date.

Readmission and Reinstatement

For regulations concerning readmission and reinstatement see *Withdrawal, Reinstatement and Readmission*, p. 226, under the Faculty of Graduate Studies, Academic Regulations.

ACADEMIC REGULATIONS

Students in the Master of Architecture program fall under academic regulations in place for master's programs as set out by the Faculty of Graduate Studies. The following apply specifically to the Master of Architecture program:

A grade of at least 60% is required in any course taken in the program with no more than 15 credits of Pass-level standing (60–67%) being counted towards degree requirements. In addition, a grade of at least 65% is required in ARCH 500 and at least 68% in ARCH 540 and 549. Failure to obtain credit for a total of three design studios will require the student to withdraw from the program and the student will not be permitted to re-register in the program.

Should a student not attain 65% or above in ARCH 500, the following conditions would apply:

- If the mark is less than 60% the student would be required to withdraw from the program for eight months and retake ARCH 500 in the subsequent Winter Session Term 1;
- If the mark is between 60% and 65% the student will not be granted credit for ARCH 500. The student will be required to re-register for ARCH 500 the following term.

A minimum mark of 74% must be obtained when repeating a failed course.

Portfolio

All students are required to keep a portfolio of their work in each design studio for review by faculty members at the end of each term in which the studio is held. The portfolio must contain, at a minimum, all the presentation drawings from each project in a studio, but these may be digital files or reproductions of originals and photographs of other presentation materials such as models, etc. The portfolio is to be kept available for review in case of an appeal of grade in a studio or other dispute regarding the student's standing.

Advanced Placement

As noted under *Admission*, p. 111, advanced placement is normally established at the time of admission, subject to confirmation of previous experience by appropriate School faculty.

Supplementary Work

No supplementary work is available in tutorials.

For courses other than tutorials, the normal University regulations apply. Only in exceptional circumstances will a student be allowed to undertake supplementary work in those other Architecture courses which are assessed on a continuing basis throughout the term.

Appeal Procedures

Students may protest decisions relating to their academic studies. In this event, it is recommended that the student first consult the faculty member directly involved in the decision. At any point in seeking resolution, a student should feel free to seek the advice of the chair of the program's Standings and Promotion Committee. If satisfactory resolution is not forthcoming at this point, the appeal process should continue with a written request of appeal to the head of the program.

When the protest relates to a decision in a design studio, the program head would establish an appeal committee to hear the case. The appeal committee would consist of three full-time design faculty plus the program head, ex-officio, and has the authority to interview all persons involved and to recommend to the program head that the grade be affirmed or changed. The appeal would only be heard if it is initiated within thirty days from the time the decision has been communicated to the student, whether it be by letter or by posting on the Student Services Centre.

If the matter has not reached satisfactory resolution, the student would then contact the following sequence of individuals as necessary: the Director of SALA, the Dean of Applied Science, and finally the Dean of the Faculty of Graduate Studies. Any change of grade must be approved by the Dean of the Faculty of Graduate Studies. Normally resolution can be achieved through the above processes, however the following additional procedures are in place. In matters of academic judgment, students may request a Review of Assigned Standing through Enrollment Services. For details, see *Review of Academic Standing*, p. 50. With respect to matters of procedure, resolution may be sought through the Registrar to the Senate Committee on Appeals on Academic Standing. For details, see *Senate Appeals on Academic Standing*, p. 51.

DEGREE REQUIREMENTS

Instruction in the School is offered through several types of courses:

- The Introductory Workshop, mandatory for all incoming students for a period one week prior to Labour Day, involves the engagement of environmental and architectural concerns of the West Coast through field trips, design exercises, and seminars.
- Lecture courses and seminars

- Design tutorials – required core studios and vertical options – explore selected topics in architectural design. Students are expected to present and defend their proposals in the course of critical dialogue with faculty members, visiting professionals and their peers during reviews.

To qualify for the Master of Architecture, students must satisfactorily complete a minimum of 119 credits including a sequence of structured core coursework, 15 credits of electives, and a major graduation project as follows:

- Workshop Course – ARCH 502
- Lecture/Seminar Courses – ARCH 503, 504¹, 505¹, 511¹, 512¹, 513¹, 515, 517, 523, 531, 532, 533, 541, 543, and one of 538³ or 561
- Design Courses – ARCH 500, 501, 520, 521, 540
- 15 credits of electives which may be selected from – ARCH 522, 524, 525, 537, 538, 544, 545, 561, 571, 572, 573, 577.
- Graduation Project – ARCH 548, 549

¹ These courses are prerequisite to more advanced-level courses and should therefore be completed in the first and second year of the program.

² Other history/theory offerings may be available for credit.

³ Winter Session study abroad.

Students holding a pre-professional architecture degree, as noted in the Admission section, will, in general be eligible to qualify for the Master of Architecture by completing fewer credits than 119; the minimum requirement being 82 credits. The exact number of credits to be completed and the program of study will be established at the time of admission and will vary according to the applicant's previous education and level of achievement.

A student may be granted exemption from a required course if he/she has completed a similar course at a prior date. For this to take place, a student must validate the equivalence with both the faculty member responsible for the course as well as with the Standings and Promotion Committee. An exempted course is to be replaced by another of the same credit value so that there is no change to the number of credits required for completion of the degree.

Students may undertake courses outside Architecture for credit toward their degree. Such courses must be demonstrated to be relevant to the student's program of study. Students must submit a request for permission to enrol in the course for credit towards the Master of Architecture, in writing, to the Standing and Promotion Committee.

See Course Descriptions (www.students.ubc.ca/courses) for complete university course information. More detailed and current information regarding Architecture courses is available in the Prospectus and at the Architecture website (www.arch.ubc.ca).

Study Abroad Program

A student who enrolls in the full-term Study Abroad Program may substitute ARCH 538 (Study of Architecture Abroad) for elective credits and ARCH 539 (Architectural Design Abroad) for ARCH 520 or 540, so as to make up a full term's work abroad.

Co-op Education Program

The added co-op component to the Master of Architecture program provides motivated, qualified students with paid employment experience directly relevant to their academic program under the supervision of practicing professionals.

The optional program consists of two consecutive terms; placement begins in either January or May. The co-op experience must be followed by two terms of academic study.

Students will be selected on the basis of academic performance, written and oral communication skills, and general suitability for the work environment. Students may apply during their fourth term of studio. Specific deadlines are available at Architecture's administrative offices.

Faculty advisors or coordinators visit students at their places of work and provide advice on the work term reports that is a requirement of the program.

Students are responsible for finding their own work placements, although the Architecture office keeps a file of interested firms. Students participating in the program will be registered in ARCH 555 and ARCH 556 for a total of 6 credits and pay the usual graduate fees. These credits are considered elective credits. In addition, the requirement of ARCH 543 will be waived if a Professional Practice Workbook is completed.

Program Specific Expenses

Apart from the cost of living and tuition, certain additional expenses must be anticipated to include books, equipment, the Introductory Workshop (ARCH 502) and support technology and equipment.

Students electing to participate in a Study Abroad Program must be prepared to meet further expenses.

Graduation Project

The Graduation Project, consisting of ARCH 548 and ARCH 549, provides an opportunity for students in the professional M.Arch program to identify, delineate, and explore a topic of their choice leading to a proposal for a specific architectural project clearly situated in a fully articulated context. Students are required to demonstrate their ability to define an architectural project, to acknowledge the varied scales of resolution appropriate to the task, and to take responsibility for the management of the process to complete the project on schedule.

The Graduation Project is overseen by the Graduation Project Review Committee (GPRC), a subcommittee of the faculty.

Complete details on the criteria for and completion of the Graduation Project can be found within the Graduation Project Guidelines available at the Architecture website (www.arch.ubc.ca).

GRADUATION PROJECT PART I:

ARCH 548

The purpose of Part I of the Graduation Project is to explore a chosen topic, to discover and define the architectural project that is inherent or implicit within it, and to develop an outline program through which the project may be explored in terms of its design ramifications. ARCH 548 is a one-term, 3 credit course. In order to be eligible to enrol in ARCH 548, a student must have successfully completed all requirements for second year.

GRADUATION PROJECT PART II:

ARCH 549

The purpose of Part II of the Graduation Project is to explore in deliberate design terms the material of Part I. ARCH 549 is a one-term, 9 credit course. In order to enrol in ARCH 549, in addition to passing ARCH 548, a student must have reduced any outstanding course requirements beyond ARCH 549 to a maximum of 18 credits.

The final grade will be determined by the supervising committee in consultation with guests and other faculty in attendance at the final presentation. A minimum of 68% is required in order to obtain credit for the course. It should be noted that in cases where the time taken to complete the Graduation Project has been extended, the final grade will fully reflect the period of time taken to complete the project.

Should a grade of less than 68% be attained for ARCH 549, the student would then be required to take a leave from the program for a period of twelve months. The student would then be required to submit a new Part II proposal and, with the approval of the GPRC, begin again with a new topic and a new supervisory committee. It would be necessary for the student to undertake any needed preparatory work acceptable to the new committee chair without credit, prior to re-registering.

Should a student receive a grade of less than 68% after a second attempt, the student would be required to withdraw from the program and would not be permitted to re-register.

GRADUATION PROJECT FINAL REPORT

The Graduation Project Final Report consists of an amalgam of the work of Part I and Part II, submitted with the purpose of, in part, providing a bound copy of the project to be held in the Architecture Reading Room. Adherence to specified format requirements is expected.

Time Limit for Completion of Degree Requirements

University regulations establish a five-year time limit for the completion of a master's program. For provisions regarding on-leave status, see *On Leave Status*, p. 223, under Classification of Students in the section Faculty of Graduate Studies.

PROFESSIONAL ASSOCIATION AND CERTIFICATION

The Canadian Architectural Certification Board (www.cacb.ca) accredits the M.Arch. professional degree. As an accredited degree program, successful completion of the M.Arch. leads directly to the certification of educational credentials, that in turn serves as prerequisite to seeking professional licensure.

Requirements for architectural registration vary within jurisdictions and applicants should confirm current details from the appropriate professional association. In general, the practice of architecture in Canada is governed by legislation enacted by the individual provinces. The right to practice architecture and accept responsibility is limited to those who are registered architects in the province where the work is being completed.

In British Columbia, the practice of architecture is regulated by the Architectural Institute of British Columbia (AIBC). Students are encouraged to make contact with the profession by applying for admission to the AIBC as a Student Associate. Interested students should contact the AIBC (www.aibc.ca) directly.

Statement of Certification: In Canada, all provincial associations recommend a degree from an accredited professional degree program as a prerequisite for licensure. The Canadian Architectural Certification Board (CACB), which is the sole agency authorized to accredit Canadian professional degree programs in architecture, recognizes two types of accredited degrees: the Bachelor of Architecture and the Master of Architecture. A program may be granted a five-year, three-year, or two-year term of accreditation, depending on its degree of conformance with established educational standards.

Master's degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree, which, when earned sequentially, comprise an accredited professional education. However, the pre-professional degree is not, by itself recognized as an accredited degree.

MASTER OF ADVANCED STUDIES IN ARCHITECTURE

INTRODUCTION

The Master of Advanced Studies in Architecture (M.A.S.A.) is a post-professional graduate program primarily for those with a professional degree in architecture or a related field who wish to expand their knowledge in a particular branch of architectural studies. It is a 30-credit program culminating in a thesis. The degree can be completed in 16 months with two terms of full-time residency required. This program is not accredited and therefore does not fulfil the educational requirements for architectural registration.

ADMISSION

The M.A.S.A. program allows a student to investigate an area within the broad field of architecture in collaboration with one or more members of the faculty. The demonstrated ability to carry out independent research is critical. A well-defined Statement of Research Intent is the primary indicator of the student's potential in the selected area. Major research thrusts within the program include environmental imperatives, history and cultural studies, advanced design research, urban design and community activism, and advanced research in digital applications. Information on research interests of the faculty is available at the Architecture website (www.arch.ubc.ca).

Information for prospective M.A.S.A. applicants is available in the Prospectus on request and at the Architecture website (www.arch.ubc.ca). The Prospectus is available on request. Students are selected on a competitive basis dependent on the research interests of the faculty. Prior to formal submission applicants are encouraged to send a brief outline of a potential research topic to the Program Chair for an initial assessment of suitability.

Applicants must submit the following by February 15:

- Application form and fee. An online application can be made at grad.ubc.ca/apply/ online.
- Transcripts. Two official transcripts of all post-secondary study should be received in sealed, endorsed envelopes. The admission requirements of the Faculty of Graduate Studies (grad.ubc.ca) must be fulfilled prior to being considered by the program's Admissions Committee.
- Letters of reference. Three letters of reference from persons who can best assess the applicant's ability in an independent research program. Letters must be received in sealed, endorsed envelopes.
- Test of English as a Second Language (TOEFL). Applicants whose first language is not English must pass the TOEFL exam with a minimum score of 250 on the computer-based exam (600 on the paper-based exam).
- Biographical statement. A chronological listing in resumé form including education, work experience, travel, and other relevant experience. Prose form can be used to elaborate on key areas of the resumé.
- Portfolio of professional or academic work.
- Statement of research intent. A minimum 500 -word statement discussing background education and work experience in the selected area of study and giving a clear outline of the area of research to be pursued.

ACADEMIC REGULATIONS

Students in the Master of Advanced Studies in Architecture (M.A.S.A.) program fall under academic regulations in place for master's programs as set out by the Faculty of Graduate Studies (grad.ubc.ca).

DEGREE REQUIREMENTS

Course Work

Students must complete a minimum of 30 credits including the following:

- ARCH 568 (3 credits) Research Methodology in Architecture. This course is to be taken in Winter Session Term 1 during the first year. Students will develop a preliminary proposal for their thesis by the end of the course.
- 15 credits of course work or directed study selected in consultation with the advisor. A minimum of 9 credits must be at the graduate (500) level. In some cases makeup courses will be required beyond the total number of credits of course work. It is intended that the course work will be completed by the end of the second term. At this time the student orally presents the thesis proposal for critical discussion by faculty and students.

Thesis

ARCH 598 (12 credits) Thesis. Depending on the area of study, the form of the thesis may be written, digital media, or a design investigation. An oral defense of the thesis is required for all M.A.S.A. students.

Time Limit for Completion of Degree Requirements

University regulations establish a five-year time limit for the completion of a master's program.

MASTER OF LANDSCAPE ARCHITECTURE

INTRODUCTION

Formerly located in the Faculty of Agricultural Sciences (now Land and Food Systems). Landscape Architecture is concerned with the design, planning, and management of the land. It involves the physical design of sites or places with particular emphasis on resource conservation, sustainability, social responsiveness, and aesthetics. It is one of several professions concerned with both the natural and human environments, with both nature and culture, and as such, places heavy emphasis on interdisciplinary knowledge and cooperation. As an academic discipline, landscape architecture is concerned with design as an act of critical inquiry, design criticism, and issues of critical regionalism.

ADMISSIONS

Applicants for admission to the program must have a strong academic record and demonstrate potential for creative problem solving. The Landscape Architecture Program selects students from a variety of disciplines on which

to build landscape architectural understanding, competence, and the sharing of knowledge. Students entering the program should demonstrate interest and potential in the broad fields of environment, the creative arts, and landscape architecture.

Students are accepted into the three-year M.L.A. from all disciplines; applicants seeking admission into the two-year M.L.A. variant must be in possession of a four-year undergraduate degree in Architecture, Environmental Design, or Landscape Architecture. Approximately eighteen students will be admitted to either the three-year or two-year program each year. Certain students may be expected to fulfill additional requirements in order to adequately prepare them for design and environmental studies.

In addition, students are required to submit examples of their creative abilities in the form of an application portfolio and demonstrate, in writing, their understanding of the profession. Please contact us for detailed admission information.

Landscape Architecture
Admissions and Administration
393 Main Mall
Vancouver, BC V6T 1Z4
Tel: 604-822-6919
Fax: 604-822-2184
Email: larc@interchange.ubc.ca
Web: www.larc.ubc.ca

ACADEMIC REGULATIONS

The faculty will conduct a year-end evaluation at the conclusion of year one. Students who, in a consensus opinion of full-time program faculty, are not making satisfactory progress will be asked to leave the program.

A grade of 68% is required as a passing grade for all design studio courses (LARC 501, 502, 503, 504) or any substituting classes.

APPEAL PROCEDURES

Students may protest decisions relating to their academic studies. In this event, the student should first consult the faculty member directly involved in the decision. If satisfactory resolution is not forthcoming at this point, the appeal process should continue, with a written request of appeal to the head of the program.

When the protest relates to a decision in a design studio, the program head establishes an appeal committee to hear the case. The appeal would only be heard if it is initiated within thirty days from the time the decision has been communicated to the student, whether it be by letter or by posting on the Student Service Centre.

If the matter has not reached satisfactory resolution, the student would then contact the following sequence of individuals as necessary: the Director of SALA, the Dean of Applied Science, and finally the Dean of the Faculty of Graduate Studies. Any change of grade must be approved by the Dean of the Faculty of Graduate Studies.

Normally resolution can be achieved through the above processes. However, the following additional procedures are in place:

- In matters of academic judgment, students may request a Review of Assigned Standing through Enrolment Services. For details, see *Review of Assigned Standing*, p. 50.
- With respect to matters of procedure, resolution may be sought through the Registrar to the Senate Committee on Appeals on Academic Standing. For details, see *Senate Appeals on Academic Standing*, p. 51.

DEGREE REQUIREMENTS

The Master of Landscape Architecture (M.L.A.) degree is designed for candidates seeking admission to the profession. Full-time students normally complete this program in three years. Students with a UBC-recognized undergraduate degree in Architecture, Environmental Design, or Landscape Architecture may apply for admission to a two-year 72-credit variant of the professional M.L.A. Program. This variant is comprised of approximately two years of M.L.A. design studio courses, as well as courses required for professional degree accreditation by the Canadian Society of Landscape Architects. The particular course requirements will be determined by the graduate advisor for each student upon acceptance and entry into the program, based on prior experience and a portfolio review.

The master's degree is awarded upon the completion of 109 credits of work, including a major graduating project. The core curriculum includes a structured first year of 38 credits and 56 additional required credits in years two and three. All students must declare a study stream and take nine credits in the chosen area, plus six elective credits. Designated study streams include site design, urban design, and regional design.

Detailed information on specific, yearly course requirements are available on the M.L.A. website (www.larc.ubc.ca).

PROFESSIONAL ASSOCIATION AND CERTIFICATION

The Accreditation Council of the Canadian Society of Landscape Architects accredits the M.L.A. professional degree. As an accredited degree program, successful completion of the M.L.A. leads directly to the certification of educational credentials that in turn serves as prerequisite to seeking professional licensure.

Requirements for landscape architectural registration vary within jurisdictions and applicants should confirm current details from the appropriate professional association. In general, the practice of landscape architecture in Canada is governed by legislation enacted by the individual provinces. In most provinces, the right to practice landscape architecture and accept responsibility is limited to those who are registered landscape architects in the province where the work is being completed.

In British Columbia, the practice of landscape architecture is regulated by the British Columbia Society of Landscape Architects (BCSLA). Students are encouraged to make contact with the profession by applying for admission to the BCSLA as a Student Member. Interested students should contact the BCSLA (www.bcsla.org).

MASTER OF ADVANCED STUDIES IN LANDSCAPE ARCHITECTURE

INTRODUCTION

The Master of Advanced Studies in Landscape Architecture (M.A.S.L.A.) is a 31-credit program. The program provides students an opportunity to examine and research specific issues relating to landscape, place and environment. This post-professional program is not intended to fulfill the requirements for membership as established by the British Columbia Society of Landscape Architects or similar organizations in other provinces of Canada. Those wishing professional credentials should enrol in the Master of Landscape Architecture (M.L.A.) program.

ADMISSIONS

Applicants for admission to the M.A.S.L.A. program must have a four-year bachelor's degree in a design discipline as well as some experience in a design practice. All candidates must also meet the basic academic requirements of the Faculty of Graduate Studies. In addition, all applicants must submit a design portfolio. The minimum TOEFL score required of international applicants is 580. For additional information, please visit the program's website (www.larc.ubc.ca).

ACADEMIC REGULATIONS

Part-time study is allowed with prior approval from the Graduate Program Committee. Full-time students normally complete this program within two academic years.

DEGREE REQUIREMENTS

The course of study is comprised of LARC 500, 520, 541, 599, 6 credits of 500-level electives, and 6 credits of 300-level and above electives. At least one of the elective courses must focus on design research methodologies. Research activities and thesis development will be focused within the two broad areas of advanced design, design theory and design education, and environmental design, planning, and management at the site-specific scale.

TIME LIMIT FOR COMPLETION OF DEGREE REQUIREMENTS

University regulations establish a five-year time limit for the completion of a master's program.

BACHELOR OF ENVIRONMENTAL DESIGN

The Bachelor of Environmental Design (ENDS) Program is a four-year, non-professional honours degree offered by the School of Architecture and Landscape Architecture in the Faculty of Applied Science. It is intended as a preparatory degree for students interested in pursuing a Master of Architecture, Landscape Architecture or Planning degree, or for those who wish to have a greater understanding of the role of design in the broad environmental decision-making processes of society.

Students pursue a program of study of their choice in the first two years of their degree. Admission to ENDS occurs in the third year. The third and fourth years of the program emphasize design learning supported by ecological, social, theoretical, and technical courses.

ADMISSION

Students apply for admission to the Bachelor of Environmental Design Program for autumn, third-year matriculation. Prospective students enrol in a first-year university program of their choice at a recognized university or college. For first-year admission requirements students are directed to the admission requirements of those institutions and their respective programs of study. Students must complete the UBC equivalent of 60 credits during their first two years of study. First- and second-year coursework must include the equivalent of 6 credits of first-year English (ENGL 110, 112), Geography (GEOG 101, 6 credits), and Physics (100 or 170, 3 credits). Additional recommendations for preparatory study are listed on the program website.

Admission to the ENDS Program is competitive; the program accepts a maximum of 30 students per year. Admission is based on the student's academic standing, submission of a portfolio demonstrating general creative abilities, completion of an admissions questionnaire, and a letter expressing interest in the program. A complete list of the required documents is available on the ENDS website (www.ends.ubc.ca). Students seeking transfer from other universities and colleges may be granted advanced credit for parallel courses in the first two years of the UBC curricula where standings obtained are above minimum passing grade at those institutions.

Basic skill with design-oriented digital media and processes is fundamental to effective participation in ENDS design and media courses. Prior to autumn matriculation, students admitted to ENDS must register for the Digital Media Workshop (fee-based class).

To petition out the Design Media Workshop, students must show evidence of competency with all of the following digital media skills:

- graphic/digital image processing (e.g., Photoshop)
- layout applications (e.g., InDesign, Illustrator)
- 2D drawing (e.g., AutoCAD, Vectorworks)
- 3D modeling (e.g., FormZ, Maya)

For detailed Program and Admission information, interested students must visit the ENDS website (www.ends.ubc.ca). Inquiries can be made to the ENDS Program Office (ends@interchange.ubc.ca) directly.

DEGREE REQUIREMENTS

First and Second Years:
60 credits, including

GEOG 101 or equivalent
ENGL 112 or equivalent
ENGL 110 or equivalent
PHYS 100 or 170 or equivalent

**Credits

Arts website (www.arts.ubc.ca)

The Faculty of Arts, through its schools and departments, offers undergraduate programs leading to the following degrees: Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music, and Bachelor of Social Work. The Faculty also offers Diplomas in Applied Creative Non-Fiction, Applied Linguistics, Art History, and Film Studies, and the Certificate in Theatre Design and Technology. For information on the Bachelor of Music see *The School of Music*, p. 353. The Bachelor programs for Social Work and Family Studies are described in *The School of Social Work and Family Studies*, p. 439.

The Faculty also offers graduate programs leading to degrees of Master of Arts, Master of Archival Studies, Master of Fine Arts, Master of Journalism, Master of Library and Information Studies, Master of Music, Master of Social Work, Doctor of Philosophy, and Doctor of Musical Arts. See *the Faculty of Graduate Studies*, p. 217, for further details. The Master of Journalism is described further in *The School of Journalism*, p. 299. Programs leading to the Master of Archival Studies and the Master of Library and Information Studies are described in detail within *The School of Library, Archival and Information Studies*, p. 315.

Email Communication

Email is the preferred means of the Faculty of Arts and Arts faculty members for communicating important messages to students. It is the responsibility of all Arts students to ensure that their current email is accurately recorded on UBC's Student Service Centre (www.students.ubc.ca/ssc), and to read email sent to that account on a regular basis. Free email accounts are available to all UBC students, but any email account may be registered through the SSC. See www.netinfo.ubc.ca for more information.

University staff are not responsible for resending returned messages or for the consequences of messages not received due to full mailboxes, spam blockers, inactive addresses, etc. Students should inquire about and follow their instructors' policies on email communication. All use of email is governed by UBC's Policy #104, *Responsible Use of Information Technology Facilities and Services* (www.universitycounsel.ubc.ca/policies/policies.html).

BACHELOR OF ARTS

The Faculty of Arts offers four-year degree programs leading to the Bachelor of Arts. The Faculty offers the B.A. with Honours, a major, double major, or an Interdisciplinary Studies program in one or more of its departments. The four-year B.A. program features intensive study in the social sciences, performing arts, and humanities. The first two years of study are dedicated to building a solid foundation in communication and reasoning. The final two years offer specialized studies as selected by students, in many subjects leading to degrees, including:

- Specialized programs in one or more of the departments in the Faculty of Arts.
- Interdisciplinary programs in Asian Area Studies, Canadian Studies, Critical Studies in Sexuality, Interdisciplinary Studies, International Relations, Medieval Studies, Modern European Studies, Religion and Literature, and Women's Studies.
- Concentrations in Archaeology, Commerce, Museum Studies, Nineteenth-Century Studies, Russian and Slavic Languages and Literatures, Science, Science Studies, Slavic Area Studies, and Urban Studies.

ACADEMIC ADVISING

Degree, program, and course advice is provided through the Faculty of Arts Academic Advising Services and through departmental and Interdisciplinary Studies advisors.

The staff of Academic Advising Services assist first- and second-year students to plan their programs and offer advice about Faculty of Arts regulations to students in the Faculty. They also administer regulations governing the Bachelor of Arts and Bachelor of Fine Arts, and evaluate and approve (as appropriate) requests for

course changes, withdrawals, academic concessions (for medical, emotional, or other reasons), and letters of permission for study elsewhere. This office does not advise students about the requirements for admission to, or continuation in, other faculties. Students should contact other faculties directly for such information.

Departmental advisors, who are located in the relevant department, advise students about major, minor, double major, and honours programs in that department. Advisors for students in the Interdisciplinary Studies Program can be contacted through the Academic Advising Services. See *Program Planning*, p. 117 (below) and *Program Requirements*, p. 122.

Academic Advising Services is located in Room A201 of the Buchanan Building and is open throughout the year, Monday to Thursday, from 9:30 am to 4:00 pm, and Friday, from 9:30 am to 1:00 pm.

Daily and weekly appointments are available to students who wish to speak with advisors in Academic Advising Services. To schedule an appointment with an Academic Advisor, students may contact the office in person or by telephone, 604-822-4028.

Program Planning

Every student is responsible for drawing up a program of study that meets Faculty, departmental, and degree program requirements. All students should consult appropriate Academic Advising staff and departmental or Interdisciplinary Studies advisors (as applicable), in the preparation of their program of study. However, the responsibility for meeting requirements is the student's.

Although most degree programs are of four years' duration (implying successful completion of 30 credits per year), students may take more or less time than this to complete degree requirements. Credit obtained in Summer Sessions can be combined with that obtained in Winter Sessions. Students wishing to register for more than 12 credits in Summer Session must obtain permission to do so from Academic Advising Services. Likewise, students wishing to register for more than 30 credits in any Winter Session must obtain permission to do so from Academic Advising Services, unless they are enrolled in a program that requires more than 30 credits in the session. In Summer and Winter

Sessions, such authorization is normally given only to students with high academic standing.

Students who register in fewer than 27 credits per Winter Session are not normally eligible for scholarships; those registered in fewer than 27 credits are ineligible for recognition on the Dean's List.

ADMISSION

Admission requirements are specified in *Admissions*, p. 13. Students who are accepted on transfer from other post-secondary institutions must either have met the English requirement or be eligible to enrol in first-year English before they will be permitted to register in any courses for credit.

Advanced Credit and Advanced Placement

The Faculty of Arts may grant advanced placement and/or course credit to students who complete certain International Baccalaureate, Advanced Placement, or other enriched secondary school courses with appropriate grades. When granted, the credit/placement will be indicated on the student's notification of acceptance to UBC.

ACADEMIC REGULATIONS

Attendance

Regular attendance is expected of students in all their lectures, laboratories, tutorials, and seminars. Students who neglect their academic work and assignments in a course may be excluded from its final examination. Students who are unavoidably absent from scheduled classes because of illness or disability should report to their instructors immediately on their return. Students whose attendance or academic performance is severely affected by medical, emotional, or other problems should apply for special consideration through Academic Advising Services. (See *Academic Concession*, p. 118, in this chapter (below) and *Academic Concession*, p. 50, in the chapter "Academic Regulations" of this Calendar).

Change of Registration

In the Winter Session, students can drop one-term courses within two weeks of their commencement and two-term courses within three weeks of commencement. All record of registration in the course(s) will be removed from the student's transcript. Thereafter, students may withdraw from a one-term course up to the end of the sixth week of classes, and from a two-term course up to the end of the twelfth week of classes. Courses dropped during this latter period will be indicated by a 'W' on the student's transcript. Students can withdraw from courses using the Student Service Centre (www.students.ubc.ca/ssc). After these dates, students are not normally permitted to withdraw from courses but can apply for *Academic Concession*, p. 118 (see below).

Students who cease to attend or otherwise fail to complete exams, assignments, or other course requirements will receive a grade reflecting requirements completed in the course. (See

also *Change of Registration*, p. 49, and *Withdrawal*, p. 50).

Academic Concession

Students whose attendance or academic performance is severely affected by medical, emotional, or other problems should apply for special consideration from their instructor or Arts Academic Advising as soon as possible.

Students are advised to contact their instructor if they are unable to complete tests or other graded work because of short-term illness or for other reasons, and arrange how they can make up for missed work according to written guidelines given to them at the start of the course (see *Grading Practices*, p. 47). Students also have the right to request Academic Concession from Arts Academic Advising.

Students absent from final examinations held in the official examination period must request Academic Concession from Arts Academic Advising, or, if they are Bachelor of Music students in the School of Music or Bachelor of Social Work students in the School of Social Work and Family Studies, from the Director of their school. Absences from final examinations held in the official examination periods in any term must be reported as soon as possible after the missed examination.

Students requesting Academic Concession will be required to complete an application form and provide supporting documentation as requested. In some cases it will be necessary for the student to attend an interview. Academic concessions are granted only by the senior staff of Academic Advising Services, and are a privilege not a right. Among academic concessions that may be granted are permission to drop or withdraw from a course after the normal deadlines are passed (see *Change of Registration*, p. 49), Deferred Standing, Aegrotat Standing, and Withdrawal from the University.

Deferred Standing may be granted when a student has a valid reason for not completing course requirements as scheduled. Students granted deferred standing in Winter Session courses must complete all outstanding course requirements no later than August 24 following. Students granted Deferred Standing in Summer Session courses must complete all outstanding work no later than December 23 following. Students granted deferred standing are responsible for making satisfactory arrangements with their instructors for completion of outstanding course requirements. If a student fails to complete deferred requirements by the dates specified, the deferred standing will be replaced with a grade or standing that reflects requirements completed in the course. Students unable to meet the specified deadlines because of further medical, emotional, or other difficulties must make an additional application for Academic Concession no later than August 31 (for Winter Session courses) or December 31 (for Summer Session courses) following the original deferral. (See also *Academic Concession*, p. 50, and *Grading Practices*, p. 47, in the chapter "Academic Regulations" of this Calendar.)

Aegrotat Standing allows a student credit for a course, although the student has not completed course requirements due to medical, emotional, or other difficulties. This standing is awarded only if the course instructor and the Dean (or designate) agree that the student has demonstrated the ability to deal with the course material satisfactorily. When AEG standing is awarded, a letter grade is assigned; this will be converted to the minimum percentage for that category for the calculation of averages.

Students with Standing Deferred credits should reduce the maximum load in the session immediately following (Summer or Winter) by the equivalent number of credits. For example, if a student has three credits deferred from the Winter session until August, that student should not enrol in more than nine credits in the following Summer session, although the permitted maximum is 12. Should a student require an extension of a Standing Deferred, he or she may be blocked or deregistered from the equivalent number of credits during the extension period.

Transfer Credit

Students entering the Faculty of Arts from a college or another university will receive credit for appropriate courses completed there, subject to the provisions listed in *Applicants from a College or University*, p. 21, and in *Degree Requirements*, p. 120.

Students who are accepted on transfer from other post-secondary institutions must either have met the English requirement (see *Degree Requirements*, p. 120) or be eligible to enrol in first-year English (see note 1, *English Requirement*, p. 120) before they will be permitted to register in any courses for credit. Students who have accumulated 60 or more credits either at UBC or elsewhere, and who have not fulfilled the English requirement, will not be permitted to enrol in courses other than first-year English until the requirement is met.

Students in the Faculty of Arts who wish to interrupt their UBC studies and take courses in other institutions for credit toward a UBC degree must obtain, in advance, a Letter of Permission from the Academic Advising Office.

Students currently registered in UBC courses may not take courses for credit toward the Bachelor of Arts at other institutions without specific written permission from Academic Advising Services.

The Faculty has no obligation to grant transfer credit unless a Letter of Permission has been obtained.

Students will not normally be permitted to complete the Faculty of Arts English requirement at another institution. (See also *Attendance*, p. 45.)

Granting of Credit

Credit is granted for all courses completed with at least the minimum passing grade (normally 50%), provided they are eligible under the requirements specified for the degree.

Evaluation of Written Work

In all courses taught in the English language in the Faculty of Arts, students' written work will be evaluated in part on grammatical and syntactical correctness.

Failed Courses

A student may repeat a failed course only once. This restriction does not apply to courses required to satisfy the Faculty of Arts language requirement or to MATH 100, 101, 102, 103, 104, and 105, any of which may be repeated twice.

Supplemental Examinations

The Faculty of Arts does not offer supplemental examinations in any of its courses.

Letter of Permission

See *Transfer Credit*, p. 118.

Scholarships and Awards

Information on scholarships and awards available to academically outstanding students can be found at Student Financial Assistance and Awards website (www.students.ubc.ca/finance). See also the "Fees, Financial Assistance, and Scholarships" chapter in this Calendar.

Dean's List

Students who complete 27 credits or more in any Winter Session with an overall average of 85% or higher receive the notation "Dean's List" on their permanent records.

Students in the Arts Co-operative Education Program who complete a Co-operative Work Term in Term 1 or Term 2 of any Winter Session and 15 credits in the other Term of the same Winter Session with an overall average of 85% or higher receive the notation of "Dean's List" on their permanent records.

Promotion Requirements

Promotion is dependent on successful completion of a minimum number of credits as listed below.

Students who have completed 27 credits are promoted to second year. Students who have completed 54 credits are promoted to third year. Students who have completed 84 credits are promoted to fourth year.

Continuation Requirements

Students in the Faculty of Arts who do not achieve a level 5 on the *LPI examination*, p. 120, before completing 30 credits of Arts-eligible courses, taken either at UBC or another post-secondary institution, will not be permitted to register in any additional credit courses until they successfully complete the LPI.

Students who do not meet the 6-credit first-year English requirement before completing 60 credits of Arts-eligible credits, taken either at UBC or another post-secondary institution, will not be permitted to enrol in courses other than first-year English until that requirement is satisfied.

Continuation Requirements are listed in the table *Summary of Continuation Requirements*, p. 119 (below). Subject to the above conditions,

students who attain a sessional average of 55% or more will be assigned a 'Pass' standing and will be eligible to continue their studies.

Students who register in (and do not officially withdraw from) 12 or more credits in a Winter Session and attain a sessional average of between 45% and 54.9% will be placed on Academic Probation (ACPR). This will be noted on their statement of grades. They will be eligible to continue their studies unless a 'Fail' or 'ACPR' has appeared previously in their record, in which case they will be assigned a 'Fail' standing and required to withdraw from the Faculty.

Students who register in fewer than 12 credits in a Winter Session and attain a sessional average of between 45% and 54.9% will be assigned a standing based on past performance:

- 1) If their cumulative average is 55% or more, they will be assigned a 'Pass' standing and will be eligible to continue,
- 2) If their cumulative average is less than 55%, they will be assigned ACPR standing. This will be noted on their statement of grades. They will be eligible to continue unless a 'Fail' or 'ACPR' has appeared previously on their record, in which case they will be assigned a 'Fail' standing and required to withdraw from the Faculty.

Students who attain a sessional average of less than 45% in a Winter Session will be assigned a 'Fail' standing. They will be required to withdraw from the Faculty, unless this sessional

average is based on fewer than 12 credits and there is no 'Fail' or 'ACPR' on their previous record, in which case they will be eligible to continue.

Students required to withdraw from the Faculty may apply for readmission after one full year, but no student required to withdraw has a right to readmission.

Students required to withdraw before completing 54 or fewer Arts-eligible credits can qualify for readmission by completing the following amount of work at a BC college or similar institution and attaining an overall G.P.A. equal to or better than that required of any other transfer student applicant:

Credits Completed	College Transfer Credits Required
36 or fewer	30
39 to 45	24
48 to 54	21

Students required to withdraw after completing 54 Arts-eligible credits are encouraged to take courses at a college or similar institution, even though some of the credits so earned may not be transferable to UBC. Applications for readmission will be adjudicated by the Arts Appeals Committee. In considering an application for readmission, the Arts Appeals Committee will take into account any and all evidence of a student's ability to perform satisfactorily at the university level.

Summary of Continuation Requirements

Credits Attempted	Winter Session Average	Cumulative Average	ACPR or Fail already on Record	Sessional Standing	Continuation Status
12 or more	55% or more	N.A.	N.A.	Pass	Eligible to continue
	45% to 54.9%	N.A.	No	ACPR	Eligible to continue
			Yes	Fail	Required to withdraw
Fewer than 12	less than 45%	N.A.	N.A.	Fail	Required to withdraw
	55% or more	N.A.	N.A.	Pass	Eligible to continue
				45% to 54.9%	55% or more
	less than 55%	No	ACPR	Eligible to continue	Eligible to continue
				Yes	Fail
less than 45%	N.A.	No	Fail	Eligible to continue	
			Yes	Fail	Required to withdraw

DEGREE REQUIREMENTS

Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music

All programs leading to the Bachelor of Arts (B.A.), Bachelor of Fine Arts (B.F.A.), and Bachelor of Music (B.Mus.) require a minimum of 120 credits.

No more than 60 credits completed at other post-secondary institutions can be counted toward the Bachelor of Arts at UBC. This restriction on the number of transfer credits permitted towards degrees does not include credits taken by students in their first year at *Herstmonceux*, p. 444, as part of the Canadian Universities Study Abroad program. The exact UBC equivalents for Herstmonceux courses are determined on a case-by-case basis by Arts Advising.

No more than 60 credits of UBC Distance Education and Technology (DE&T) courses can be counted toward the Bachelor of Arts; no more than 42 such credits may be taken after the completion of 60 credits toward the degree program.

Unless special permission is given in writing, in advance, by Academic Advising Services, students must complete their final 30 credits at UBC. At least 30 of the final 60 credits toward the degree must be completed at UBC (or through UBC DE&T courses).

Students are not permitted to register in more than four Science courses, a maximum of 16 credits (six courses including Mathematics and Computer Science for a further seven credits), before completing 30 credits in the Faculty of Arts.

All students in the Bachelor of Arts and Bachelor of Fine Arts programs must complete the following:

- 1) The Faculty of Arts English requirement;
- 2) The Faculty of Arts language requirement;
- 3) The Faculty of Arts science requirement; and
- 4) The Faculty of Arts literature requirement.

Each requirement is specified in more detail below. Students are encouraged to complete these requirements in the first 60 credits. Students who fail to meet the English requirement before completing 60 Arts-eligible credits will not be permitted to register in courses other than first-year English until this requirement is satisfied. Students who have not satisfied the language requirement are advised to maintain their registration in course(s) leading to its fulfilment through all Winter and Summer Sessions attended until the requirement is met.

Students intending to enter the Interdisciplinary Studies program must satisfy the language requirement before registering in that program.

All students in the Bachelor of Music program must complete the Faculty of Arts English and literature requirements.

English Requirement

In order to fulfil the English requirement, students must successfully complete six credits of first-year English, or Arts One, or Foundations. Students admitted to the Bachelor of Arts

program must take immediate steps to satisfy the English requirement. The following notes apply:

- 1) Students admitted directly from secondary school are required to take English in their first year if eligible to do so. To be eligible, students must have written the Language Proficiency Index (LPI) examination and obtained a score of level 5. For details on this examination, and exemptions from it, see Language Proficiency Index Requirement for first-year English, below.
- 2) Students admitted directly from secondary school who have not obtained a score of level 5 on the LPI should not register for more than 12 credits per term and are advised to take a non-credit course from the University Writing Centre.
- 3) Students in the Faculty of Arts who do not achieve a level 5 on the LPI examination before completing 30 credits of Arts-eligible courses, taken either at UBC or another post-secondary institution, will not be permitted to register in any additional credit courses until they successfully complete the LPI.
- 4) Students who are accepted on transfer from other post-secondary institutions, or who are readmitted to the Faculty after being required to discontinue, must either have met the English requirement or be eligible to enrol in first-year English before they will be permitted to register in any courses for credit.
- 5) Students who do not complete 6 first-year English credits in their first 60 Arts-eligible credits, taken either at UBC or another post-secondary institution, will not be permitted to enrol in courses other than first-year English until the English requirement is met.
- 6) Students who fail a first-year English course (i.e., ENGL 110, 111, 112, 120, or 121) may repeat that course once only.
- 7) Once admitted to UBC, students will not normally be permitted to satisfy the English requirement at another institution.

The Language Proficiency Index (LPI) Requirement for First-Year English

All programs at UBC require at least 3 credits of first-year English; most require 6 credits. In order to remain registered in any first-year English course, Arts One, and the Arts Foundations Program at UBC, students must complete all sections of the Language Proficiency Index (LPI) and achieve a minimum score of level 5 (30/40) on the essay section of the examination.

Unless a student meets the LPI requirement by exemption, the LPI test must be taken **on or before** the deadline mentioned below. Restrictions for registering in other courses may be applied to the student if the English requirements of a faculty are not met.

THE LPI EXAMINATION

The LPI is an examination that provides the University with a way to determine a student's competence in summary and essay writing and

in the recognition of common errors in English usage and sentence structure. It also involves the composition of an argumentative essay of between 300 and 400 words. Performance on the essay will determine a student's eligibility for first-year English courses, but students must complete all parts of the examination.

An information booklet entitled *Preparing to Write the LPI* is available from the LPI Office. Visit the LPI website (www.lpi.ubc.ca) for further details.

Results

Student results are available within four weeks of writing the examination and are forwarded to the English Department, Arts One, and the Arts Foundations Program immediately upon the completion of marking. The English Department does not release results. Students should keep the report of their results; they may be asked to present results in their English classes in September. Students can also use the LPI website (www.lpi.ubc.ca) to request a Personal Score Report that will be sent as a PDF file via email.

Students with scores of level 5 or 6 on the essay section will retain their registered spaces in their first-year English courses, Arts One, or the Arts Foundations Program; those with a level 4 or below at the deadline will not be permitted to remain either in a first-year English course or in Arts One or Arts Foundations Program. Students in this latter category are encouraged to enrol in Writing 098, a non-credit course offered by the University Writing Centre. For more information on Writing 098, see *University Writing Centre*, p. 446, in the "Alternative Study Options" chapter.

Exemptions

Students in the following categories are exempt from the LPI requirement; all other students must complete the LPI:

- those with a final grade (school mark plus government exam mark) of 80% in BC English 12 or BC English Literature 12;
- those with a final grade of (80%) English Language and Literature or Studies in Literature (ENG4U or OAC English) for Ontario applicants;
- those with a final grade of "A" or 80% (equivalent) in grade 12/senior year English in an English curriculum secondary school, operating in a country where the primary language is English;
- those with a final grade of 4 or better in the Advanced Placement (AP) course in literature and composition;
- those with a final grade of 5 or better in Standard or Higher level International Baccalaureate English A;
- those who have completed 6 credits of first-year English or the equivalent, acceptable for transfer to UBC;
- those who have attained a score of at least 5.0 on the essay section of the Canadian English Language Proficiency Index Test - Academic (CELPIT-A), a portion of the Canadian English Language Proficiency Index Program (CELPPIP) that may be used

to satisfy the English Language Admission Standard;

- those with a passing grade in UBC's English Composition Test (ECT) prior to September 1992.

Deadlines for Completion of the LPI

In order to be eligible for **Term 1 (September 2006)** first-year English courses, Arts One, and the Arts Foundations Program students must complete the LPI **on or before** the following deadlines:

- BC students: Saturday, July 15, 2006
- Out-of-Province students: Saturday, August 5, 2006
- International students: Saturday, September 2, 2006

This includes students residing and attending school outside Canada at the time of the July or August deadlines. This sitting of the LPI is specially arranged for International students arriving in Vancouver from outside Canada in late August. Such students must obtain prior permission to write on this date by emailing the program in which they intend to enrol: First-Year.English@ubc.ca; or Artsone@interchange.ubc.ca; or Arts.Foundations@ubc.ca.

In order to be eligible for **Term 2 (January 2007)** first-year English courses, students must complete the LPI **on or before** the following deadlines:

- All Students: Saturday, October 28, 2006
- Writing 098/099 Students: Saturday, December 2, 2006

In order to be eligible for **Summer Session, Term 1 and Term 2 (Summer 2007)** English courses (ENGL 110 or 112), students must complete the LPI **on or before** Saturday, February 24, 2007.

Any student who misses the LPI deadline must contact the First-Year English Office (first-year.english@ubc.ca). For assistance, telephone 604-822-4247 or 604-822-4259.

Registration for the LPI

BC Students: The LPI is offered a number of times and at a number of locations around BC each year. **Students must register for the examination at least two weeks in advance.**

On the registration form, or in a personal letter, students should include their name, address and postal code, telephone number, and the date, time, and place the student wishes to write the examination.

The registration fee of CAD\$49.00 (either VISA, MasterCard, money order, or personalized cheque with the student's name clearly indicated, payable to LPI) must accompany the application. The application can be faxed (if the payment is by VISA or MasterCard), mailed, or brought to the LPI Office, University of British Columbia, Room 6, 2125 Main Mall, Vancouver, BC, V6T 1Z4. Fax: 604-822-9144. Examination admission tickets will then be mailed to students approximately two weeks before the examination date. Any student who has not

received a ticket prior to the examination date should contact the LPI Office at 604-822-4145 immediately.

Online registration and book ordering is available at www.lpi.ubc.ca. Students may print their own admission tickets, in which case they will not receive a ticket from the LPI office.

Students must present their Test Admission Tickets (with an attached passport-size photograph as described on the LPI website) and present acceptable photo identification in order to be admitted to the examination room on the day of the sitting.

Out-of-Province Students: Students living outside BC may arrange a private sitting of the examination in their own area. To do so, they should contact a secondary school, college, university administrator, or counsellor who would be willing to supervise their writing of the LPI. The administrator or counsellor should contact the LPI Office (on official letterhead) by fax at 604-822-9144 or at the address listed above, and indicate willingness to undertake the supervision. The registration fee (CAD\$75.00 outside of BC but within Canada, CAD\$100.00 outside of Canada), may be paid by VISA, MasterCard, or personalized cheque payable to 'Language Proficiency Index (LPI)'. Application and payment may be made by fax or by mail as indicated above. Note that a passport-size photo must be submitted to the Test Supervisor in order to write the LPI at a private sitting. This photo will be attached to the Test Admission Ticket.

Upon receipt of the application, payment, and a letter from the supervisor, the LPI Office will send a copy of the examination to the supervisor, who can then arrange with the student where and when the examination will be written. (Any charge for invigilation services is the responsibility of the student.) The supervisor must return the examination paper to the LPI Office within two weeks unless a later date has been specified in writing to the LPI Office.

Further Enquiries

For further information about the LPI, visit the LPI website (www.lpi.ubc.ca) or contact the LPI Office, Room 6, 2125 Main Mall, University of British Columbia, Vancouver, BC, V6T 1Z4; telephone 604-822-4146; fax 604-822-9144. For further information about eligibility for first-year English courses, contact the First-Year English office; telephone 604-822-4247 or 604-822-4259.

Language Requirement

In order to fulfil the language requirement, students must:

- 1) have successfully completed a Grade 12 course in an approved language other than English while in secondary school, or
- 2) write an examination, if they have knowledge of an approved language, but no secondary school or university transcript to prove it, or
- 3) reach the language level taught in any of the following courses: Arabic 400, Asian Languages 400, Chinese 111 or 112, First

Nations Languages 200, French 112, German 210, Greek 200, Hebrew 405, Hindi-Urdu 200, Indonesian 200, Italian 202 (previously 200 or 201), Japanese 103 or 151, Korean 200, Latin 200, Polish 300, Portuguese 202, Punjabi 200, Russian 110 or 200, Sanskrit 200, SCAN 402 (Swedish), Spanish 112 or 202 (previously 105 and 110), Ukrainian 225.

Most of these courses have prerequisites. Students with Grade 11 in any of the above languages can expect to enter the listed courses directly; those that do not have Grade 11 or equivalent must fill the prerequisites.

Students with secondary-school or native language background wishing to register in any of the above languages must check with the departments to see whether they are required to write a placement test before the beginning of classes.

Students may satisfy the language requirement in any of the above languages by proving the appropriate competency through examination. Arrangements for such examination must be made through the academic department providing instruction in the language. No course credit will be awarded for satisfaction of the language requirement in this manner.

Students who wish to present a language other than those identified above to satisfy the language requirement may be permitted to do so through a challenge examination, where appropriate expertise to test the student's competency in the language is available. Arrangements for such examination must be made through the Academic Advising Services. No course credit will be awarded for satisfaction of the language requirement in this manner.

Science Requirement

The requirement can be met by successful completion of:

- 1) 6 credits in the Faculty of Science, or
- 2) GEOG 101, or GEOG 102 and 3 additional credits in a Faculty of Science course; or GEOG 103 and 3 additional credits in a Faculty of Science course; or GEOG 102 and GEOG 103, or
- 3) WMST 201 and 3 additional credits in a Faculty of Science course, or GEOG 102, or GEOG 103, or
- 4) FRST 300.

COGS 200 and COGS 400 and PSYC Science courses (those with the last two digits numbered 60 or higher) may not be used to satisfy the 6 Science credits required for a B.A. degree.

Science courses that include laboratory work are recommended. Students may, however, choose to meet the science requirement through successful completion of 6 credits from the following list of courses: AGRO 260; ASTR 310, 311; BIOL 343, 344, 345, 346, 446; EOSC 310, 311, 312, 314, 315; FNH 200, 255, 330; MATH, all courses; PHYS 340, 341, 343; STAT, all courses.

Literature Requirement

Students must successfully complete 6 credits, in the Faculty of Arts, of work in literature in addition to the English requirement.

Courses in composition and writing (such as ENGL 301, ENGL 303, CRWR 202, CRWR 301) and courses intended to develop fluency in reading newspapers, etc. in languages other than English (e.g., CHIN 300, GERM 430, JAPN 315, 416, 417), do not satisfy this requirement. With these restrictions, eligible courses are:

Subject	Course Requirement
Arabic (ARAB)	400
Asian Studies (ASIA)	308, 341, 342, 347–352, 357–360, 364, 368, 398, 444, 447, 457, 460, 464
Central, Eastern, and Northern European Studies	202, 303
Chinese (CHIN)	all 300- and 400-level literature courses except 300–302, 310–312, 330–332, 482
Classical Studies (CLST)	310, 313, 314, 315, 317, 318
Drama (DRAM)	200, 201, 300, 301, 400
English (ENGL)	all 200-, 300- and 400-level literature courses, except 229, 301–340, 352, 399, 408, 409, 412, 419
French (FREN)	220, 221, 300, 320, 321, 330, 348, 349, 400, 403, and all 400-level literature courses except 402, 426, 427, 499
German (GERM)	301, 302, all 300- and 400-level literature courses
Greek (GREK)	all 300- and 400-level literature courses
Hindi-Urdu (HINU)	400
Italian (ITAL)	all Italian 300- and 400-level literature courses except 499
Italian Studies (ITST)	231, 232, and all 400-level literature courses
Japanese (JAPN)	all 300- and 400-level courses except 300–303, 310, 315, 410, 411, 416, 417, 420, 421, 440
Korean (KORN)	410
Latin (LATN)	all 300- and 400-level literature courses
Medieval Studies (MDVL)	301, 302
Philosophy (PHIL)	375
Religion, Literature and the Arts (RGLA)	371, 372, 471
Religious studies (RELG)	202, 311
Romance Studies	220, 420
Russian (RUSS)	206, 207, 305, 306, 407–412
Sanskrit (SANS)	300 ²
Scandinavian (SCAN)	411–414
Slavic Studies (SLAV)	307
South Asian Languages (SOAL)	440

Subject (Continued)	Course Requirement
Spanish (SPAN)	220, 312; all 300- and 400-level literature courses except 449
Theatre (THTR)	245
Women's Studies (WMST)	224

¹ Prerequisites for 300- and 400-level English courses are 6 credits of first-year English and third-year standing.

² With the permission of the Department of Asian Studies.

PROGRAM REQUIREMENTS

Students are advised to plan their 100- and 200-level courses with their entire program in mind, although they formally declare their specific program of study only on completion of at least 54 (and not more than 75) credits.

Students in their first 30 credits of university-level study may register in any 100-level Arts or Science course for which they have the appropriate prerequisite. In addition, there are a limited number of 200- and higher-level Arts courses for which they may be eligible.

Students seeking entry into 200-level (or in exceptional cases 300-level) language courses should consult the appropriate department for placement.

Students granted advanced credit or advanced placement may register in appropriate courses numbered 200 to 299 in the subjects in which they have received such credit/placement.

Students accepted into Creative Writing (CRWR) 202 with written permission from the Department of Creative Writing may include that course in their first 30 credits.

Students registered in their second 30 credits (31 to 60 credits in total) may take up to 6 credits of 300-level courses for which they have the appropriate prerequisites. For restrictions, see below.

Students who have completed 60 credits may register in any course for which they have the appropriate prerequisites. For restrictions, see below.

Students must complete at least 120 Arts-acceptable credits for the degree.

The following courses are acceptable for credit toward the Bachelor of Arts:

- all courses in the Faculties of Arts and Science;
- all B.A.Sc. courses for students enrolled in the Combined B.A./B.A.Sc. degree program. Only 18 credits of Applied Science courses may be counted towards the B.A. if a student drops out of the Combined B.A./B.A.Sc. program;
- all courses in music history, music theory, ethnomusicology, or music composition and a maximum of eight credits from the ensemble courses in musical performance;
- all courses designated Family Studies (FMST); and
- 18 credits in courses outside Arts and Sciences, other than those specified above.

In the 120 credits required and acceptable for the degree, there may be:

- no more than 72 credits in courses at the 100 and 200 level; and
- no more than two courses at the 500 level (a maximum of eight credits). For further information on enrolment in graduate courses, see *Enrolment in Graduate Courses*, p. 124.

After completing at least 54 credits and no more than 75 credits, students must enter one of the following programs listed below.

Depending on the program chosen they must make application to do so, or identify their program using the Student Service Centre (www.students.ubc.ca/ssc). Refer below, under individual programs, for those requiring formal application, and the procedures to be followed in applying for them.

- **Major program.** This program involves specialization in a single field of study. It may lead to graduate study if a sufficiently high average is obtained.
- **Combined Major program.** This program combines courses from two distinct fields of study into a single major. A Combined major introduces students to the core methodologies of two complementary disciplines and offers opportunities for the development of significant substantive knowledge in each of them. This program is intended to encourage students to work across the boundaries of cognate disciplines and to date is available only in the following combinations: Economics and Mathematics, Economics and Philosophy, Economics and Political Science, and Economics and Statistics. Further details regarding each of these Combined Majors may be found under the relevant subject listings.
- **Double Major program.** This program involves specialization in two fields of study. It is an ambitious program allowing a dual focus with few electives outside the subjects of the Major.
- **Honours program.** This program involves intense specialization in a single field of study. It is the preferred route to graduate study in many fields. Entry requires high academic standing.
- **Combined Honours program.** This program involves intense specialization in two fields of study. Entry requires high academic standing.
- **Double Major in Arts and Science.** This program involves specialization in one Arts field of study and one Science field of study. It is an ambitious program, which requires careful planning; students are advised to see an Arts advisor as early as possible to ensure that they are choosing the correct courses in first and second year.
- **Interdisciplinary Studies program.** This program permits a student to select courses that will provide a broad liberal education, encompassing several disciplines with a limited concentration in one discipline. See *B.A. Program in Interdisciplinary Studies*, p. 138.

All students must draw up a plan of study and consult the relevant departmental or program advisor(s) on entering a Major, Double Major, Honours, or Interdisciplinary Studies Program. The Honours or Major programs can be combined with a Minor. Further consultation with an advisor is recommended on completion of 90 credits toward the Bachelor of Arts. Students must, however, recognize their responsibility for ensuring that they meet all Faculty and program requirements.

Major Program

To graduate with a Major, a student must include in the 120 credits required for the degree at least 42 credits but no more than 60 credits in one subject (discipline) or field of specialization. At least 30 of these credits must be in courses numbered 300 or above. Students may graduate with a Major in Creative Writing on completion of 36 credits in that discipline, provided all are numbered 300 or above.

For the purposes of this regulation, subjects (disciplines) are defined by their course titles. Fields of specialization (such as International Relations, Women's Studies, or Canadian Studies) are defined by the courses specified under these fields. When departmental regulations allow credit for a course (or courses) numbered 300 or above in other departments as part of the Major (or other) program, such courses must always be counted as credits toward that Major (or other) program if completed by students in that program.

Cross-listed courses (indicated in Course Descriptions (www.students.ubc.ca/calendar/courses.cfm) as "Equivalent: xxx", e.g., ARTH 351/RELG 341) must be counted in the 60-credit limit if the student is a Major in either department.

Combined Major Program

To graduate with a Combined Major, a student must include in the 120 credits required for the degree at least 60 credits but not more than 72 credits from the two subjects (disciplines) or fields of specialization involved in the Combined Major program. These credits must satisfy the following requirements:

- 1) at least 30 of these credits must come from each of the two subjects (disciplines) or fields of specialization involved;
- 2) at least 36 of these credits, including at least 18 from each of the two subjects (disciplines) or fields of specialization, must be in courses numbered 300 or above (this requirement differs for the Economics and Mathematics Combined Major program); and
- 3) these credits must satisfy the Combined Major Program requirements as set out by the appropriate departments. The general definitions of subjects and cross-listed courses in the Major apply to the Combined Major (see *Major Program*, p. 123, above). Cross-listed courses must be counted in the 72-credit limit if the Combined Major includes either department.

Double Major Program

To graduate with a Double Major, a student must include in the 120 credits required for the degree at least 42 credits (and no more than 48 credits) in each of two subjects (disciplines) or fields of specialization. At least 30 credits in each subject/field must be in courses numbered 300 or above.

The general provisions regarding the definition of subjects, cross-listed courses, and courses outside the Faculties of Arts and Science in the Major apply to Double Major programs (see *Major Program*, p. 123).

Double Major Program in Arts and Science

To graduate with a Double Major in Arts and Science, students must complete the requirements of a Major in Arts and a Major in Science. The Double Major in Arts and Science program will normally require the completion of more than 120 credits. Students must complete at least 42 and no more than 48 credits in the Arts Major and follow the rules of the Faculty of Science to complete their Major in Science. A Science Major is normally declared in second year. Students in the following B.A. Major programs may not complete a B.Sc. major in the same subject area: Geography, Mathematics, Combined Major in Mathematics and Economics, Psychology.

Honours Program

To graduate with an Honours degree, a student must complete at least 60 but no more than 72 credits in one subject (discipline) or field of specialization. At least 48 of these credits must be in courses numbered 300 or above, and at least 54 of the total required credits must be in courses numbered 300 or above. Departments (and some individual programs) may require more than 120 credits for the completion of an Honours degree.

Honours programs are open only to students who, in the opinion of the department, have shown special aptitude and capacity to profit from working intensively in the subject or field. An average of at least 68% on all credits attempted is required for entry into and graduation from Honours programs; some departments may have more stringent requirements, or require higher marks on certain courses. Departments may also require students to maintain a specified average in order to continue in an Honours program.

Combined Honours Program

Students who wish to pursue a course of study combining more than one Honours program may do so with written approval, from both departments and Academic Advising Services, of a program of study specified in advance. Approval should normally be obtained before completion of the first 60 credits toward the Bachelor of Arts. Such programs almost invariably require completion of more than 120 credits.

Minor Programs

Students in a Major program may construct their program to include a Minor in a subject (discipline) or field of specialization other than the Major. To complete a Minor, a student must include in the 120 credits required for the degree at least 30 credits and no more than 42 credits in a single subject or field of specialization other than that of the Major, including any courses specified as required for a Minor in the discipline or field of specialization. At least 18 of these credits must be in courses numbered 300 or above. Some Interdisciplinary Minors are defined as 18 to 21 credits in specified courses numbered 300 or above, and their prerequisites.

At least 24 of the 120 credits required for the degree must be in subjects or fields other than those of the Major and Minor.

The general provisions regarding the definition of subjects and cross-listed courses in the Major apply to the Minor (see *Major Program*, p. 123, above). Only courses in the Faculties of Arts and Science can be credited toward the Minor.

Students registered in other degree programs may apply to have completion of the requirements for a Minor in the Faculty of Arts noted on their transcript. Students are encouraged to consult an advisor in their faculty and see a departmental advisor in Arts, preferably before taking the necessary courses.

Students who wish to pursue an Honours program together with a Minor must meet all the requirements for the Honours program as well as all the requirements for a Minor program (i.e., at least 30 credits in a subject or field of specialization other than that of the Honours program) of which at least 18 credits must be in courses numbered 300 or above. At least 24 credits must be in subjects or fields other than those of the Honours and Minor. The combination of an Honours and Minor program almost invariably requires completion of more than 120 credits.

MINOR IN COMMERCE

Enrolment in this program is strictly limited. An application for admission can be obtained from the Arts Academic Advising Services Website (advising.arts.ubc.ca). The completed form must be returned by May 31. At the time of application, students must be eligible for third-year standing in the Faculty of Arts with a cumulative average of at least 68% in the previous two years. Meeting the stated minimum requirements does not guarantee admission into the Minor.

The Minor in Commerce consists of the following courses: ECON 310 (3), 311 (3), COMM 457 (3), COMM 493 (3), and two of the following courses: COMM 329, 458, 465 and 473. Students who have completed ECON 101 must use this course in lieu of ECON 310. Students who have completed ECON 102 must use this course in lieu of ECON 311. Upon admission to, and successful completion of, this Minor program, the notation 'Minor in Commerce' will be placed on the student's transcript.

MINOR IN HEALTH AND SOCIETY

Students wishing to study a range of courses relating to Health and Society (heso.arts.ubc.ca) may do so by taking a Minor in this area as part of their B.A. program. The Health and Society Minor Coordinating Committee maintains a list of courses approved for the Minor. Students wishing to take the Minor must have their course selection approved by the Committee, which may be contacted through Arts Academic Advising. A knowledge of statistics may be useful for some students in this Minor, but it is not mandatory.

First and Second Years

Students take 12 credits of approved courses, including IHHS 200 (3), which may be taken in third year as a co-requisite for the Minor. Students may not count junior courses that are prerequisites for their majors in these 12 credits without permission. Students must ensure that they have prerequisites for any senior course they plan to take in their third and fourth years.

Third and Fourth years

Students take 18 credits of approved courses, including HESO 400 (3).

MINOR IN SCIENCE

Arts students can also take a Minor in Science. An acceptable program must comprise courses recognized in the Faculty of Science that are for credit toward a Bachelor of Science and consist of at least 18 credits numbered 300 or higher in a single subject or field of specialization, together with any necessary prerequisites. Students should design a coherent and academically sound course of studies for their proposed Minor, which must be approved by a senior advisor in Faculty of Arts Advising Services at the beginning of the second year. All courses must be acceptable for a Science Major in the proposed subject area or field. The following restrictions apply:

- B.A. Geography majors may not minor in any one of the following disciplines: Geography, Geology, Geophysics, or Oceanography;
- B.A. Mathematics majors may not minor in B.Sc. Mathematics; and
- B.A. Psychology majors may not minor in B.Sc. Psychology.

Double-Counting

Students enrolled in a combined program (e.g., Double Majors, Major/Minor, or Honours/Minor) are allowed to double-count courses (i.e., count one course to fill area requirements in both areas of specialization). Thus ENGL 340 can fill area requirements for both Medieval Studies and English, or ASIA 308 for both Asian Studies and Religion and Literature. Double-counting cannot be used for credit requirements. In order to graduate, Double Majors students must have 60 upper-level credits, Major/Minor students must have 48 upper-level credits, Honours/Minor students must have 66, and that number of credits cannot be arrived at by double-counting. Students may double-count a maximum of 6 credits toward a program with a minor and a maximum of 9 credits for a double major program.

Enrolment in Graduate Courses

Outstanding students in their fourth year may apply to the Faculty of Graduate Studies to register in two courses (or a maximum of 8 credits) at the 500-level toward the Bachelor of Arts. Students must receive the permission of the course instructor, Arts Academic Advising, and Graduate Studies. Normally such permission will be given only to students in an Honours program who have completed 75% of their 300- and 400-level requirements with a minimum overall average of 80%.

Summary

The table below, “Summary of Program Requirements”, summarizes the minimum credits required for the various programs described above.

As some departments require more than the minimum 120 credits for the Honours degree, students should read carefully the individual program descriptions on the pages that follow.

FIRST YEAR PROGRAMS

The Faculty of Arts offers three first-year enrolment options for students entering UBC directly from secondary school:

- 1) Arts One. An 18-credit, integrated, team-taught program focused on a general theme of concern within the humanities. Themes vary by year.
- 2) Foundations. A 24-credit integrated academic program focusing on broad interdisciplinary perspectives and research approaches in the Humanities, Social Sciences, and Creative and Performing Arts.
- 3) Standard Program. Individually designed programs chosen by students to meet the Degree requirements while also permitting exploration of specific courses.

Arts One Program

Students entering the first year may enrol in Arts One, an 18-credit program of liberal education. Arts One is organized in teaching groups, each consisting of a maximum of 100 students and five faculty members from various University departments, who address a theme of basic human concern. The theme is approached through the study of major works in their historical context, and the aim of the curriculum is to provide a coherent program of study. The impact of the program, made possible by the ratio of one faculty member for every five students, comes through weekly lectures, twice weekly seminars of 20 students, and weekly tutorials of four which focus on

student writing. A sense of membership in a community of learners is created through use of the Arts One Building, located near the centre of the campus.

Arts One satisfies the Faculty of Arts requirement for *first-year English*, p. 120, and departmental requirements for first-year History and Philosophy.

On successful completion of Arts One and additional courses equivalent to 12 credits, students receive second-year standing in the University.

Students who enrol in Arts One are expected to remain in the program for the complete session, but they may drop it without penalty during the period officially allowed for course changes.

For detailed information see the Arts One website (www.arts.ubc.ca/arts1), or contact our office. Email: artstone@interchange.ubc.ca; telephone: 604-822-3430.

Foundations Program

The Foundations Program offers first-year students an enriched, cross-disciplinary introduction to university life and to the themes of the Faculty of Arts, including the humanities, the social sciences, and the fine and performing arts. It provides a supportive and challenging learning environment directed by faculty members of proven scholarly and teaching excellence. Students spend equal time in lectures and in seminars. The teaching of good writing and critical thinking is a primary goal of the Program.

The setting for an effective learning community is provided by the new Foundations Commons, which contains seminar rooms, a faculty-student lounge, and a study area for students in the Program.

The curriculum contains three broad, 8-credit courses: FDNS 101, Routes to the 21st Century; FDNS 102, Knowledge Bases; and FDNS 103, Approaches to Social Understanding. Each is team-taught by three faculty members from different departments or specialties. Each course has a weekly two-hour lecture and two-hour seminars. The Foundations experience centers upon small seminar groups, each having a maximum of 20 students.

Full-time students in the Program must ordinarily take all three courses. Students whose intended major programs require more than 6 credits of first-year electives may, with the permission of the Director, postpone one Foundations course to their second year. Part-time students may postpone one course to their subsequent year. Registration involves no special

Summary of Program Requirements for B.A.*

	Major	Major+ Minor	Double Major	Honours	Combined Major
Total Credits	120	120	120	120	120
of which courses 300+	48	48	60	54	48
Total within specialty(ies)	42	42+30	42+42	60	30+30
of which courses 300+	30	30+18	30+30	48	18+18
Total outside specialty(ies)	60	24	24	48	48

* B.A. (COGS) and all specialties in the B.F.A. require different credit numbers in the specialty (see specialty descriptions).

procedures for those taking all three courses; those intending to postpone a course must contact the Foundations office before their assigned registration time. During the initial period in which course changes are allowed, students may not drop a Foundations course unless they are dropping the Program.

Upon completion of the Foundations Program students are granted equivalency credits in a number of Arts degree programs. Completion of 16 Foundations credits satisfies the *first-year English requirement*, p. 120, in Arts. Second-year standing is obtained upon completion of the 24 Foundation credits and 6 additional elective credits.

For detailed information, see the Foundations website (foundations.arts.ubc.ca) or contact the Foundations Office (arts.foundations@ubc.ca); telephone: 604-822-0217.

DUAL DEGREE PROGRAM IN ARTS AND APPLIED SCIENCE

This Program offers capable students the opportunity to earn a Bachelor of Arts and a Bachelor of Applied Science degree in five years of study, in most combinations of one Arts degree program and one Engineering degree program. A Board of Studies administers and oversees admission to the Program. Please contact Arts Academic Advising Services or Applied Science for more information.

Admission

Application for admission to the Program is made to the Board of Studies through either Arts Advising Services or Engineering Student Services. Applicants may be registered in either Faculty but must be admissible to the other Faculty at the time of admission to the program. Acceptance into the Program will be determined based on a review of the applicant's transcript, an interview, and a review of a portfolio or other such material that the applicant wishes to submit. Normally, application for admission will be made immediately upon acceptance into either Faculty. Admission to the Program at a later date is also possible but may imply a longer time to complete the Program.

Requirements

Students must satisfy all of the program requirements for both the Bachelor of Arts and Bachelor of Applied Science degrees in their chosen programs. Individual courses may be considered to satisfy program requirements for both degrees. Courses taken within the Faculty of Applied Science will have the same standing as courses taken within the Faculty of Science for the purpose of satisfying requirements for a Bachelor of Arts for students enrolled in this program. Where possible, students should meet with an advisor from the Board of Studies prior to enrolling in their first year of courses.

AFRICAN STUDIES

Minor in African Studies

African Studies offers an interdisciplinary approach to the study of Africa, as well as the African diaspora. The African Studies Coordinating Committee maintains a list of approved courses available for credit toward the Minor. This list changes annually. Students registered in the Minor must have their course selection approved by a member of the Coordinating Committee. A detailed description of the program, the approved list of courses, the names of advisors and affiliated faculty, and other information may be obtained from the AFST Coordinating Committee. Contact the Arts Advising Office 604-822-4028 for the name, telephone number, and email address for the Chair of the AFST Coordinating Committee, or link to the AFST website through the Arts Website (www.arts.ubc.ca/Departments_Schools_Programs.260.0.html).

FIRST AND SECOND YEARS
Students take 12 credits formally approved by the Coordinating Committee.

THIRD AND FOURTH YEARS
Students take 18 credits of 300- and 400-level courses, including at least 3 credits of AFST 350 and electives from the approved list.

ANTHROPOLOGY

The Department of Anthropology and Sociology offers programs of study that lead to the degrees of Doctor of Philosophy, Master of Arts, and Bachelor of Arts. For information on graduate programs, see *Anthropology*, p. 231, in the Graduate Studies section. See also *Museum Studies*, p. 144. The Department also collaborates with Canadian Studies, Classical Studies, First Nations Languages, First Nations Studies, International Relations, Latin American Studies, Linguistics, and Science Studies. For details about current offerings, consult the departmental website (www.anso.ubc.ca).

Major in Anthropology

A total of 42 credits (but no more than 60 credits) within Anthropology and Sociology, at least 30 credits of which must be numbered 300 or higher. All students considering the Major in Anthropology are encouraged to meet with the Anthropology undergraduate advisor prior to enrolling in the program and periodically during their third and fourth years.

FIRST AND SECOND YEARS
ANTH 100; ANTH 103 and/or 140; ANTH 200; 3 credits chosen from other Anthropology courses at the 200 level.

THIRD AND FOURTH YEARS
At least 30 credits in Anthropology and Sociology, including:

Group A

- 1) ANTH 300 and 400
- 2) At least 3 credits from courses in each of the following groups:
 - (a) Methodology – ANTH 305, 317 or 417, 407, 431
 - (b) Archaeology and Physical Anthropology – ANTH 318–326.

- (b) Archaeology and Physical Anthropology – ANTH 318–326.

Group B

- 1) 6 credits from the following ethnographic area courses: ANTH 302–304, 315, 350–353, 401–403, 404, 416.

Three primary areas of concentration are possible within the Anthropology Major: Archaeology, Museum Studies, and Socio-Cultural Anthropology. Students should consult with a departmental advisor to select courses that are most appropriate to their preferred concentration.

A course in statistics, such as STAT 200 or 203, is also recommended as part of the Major and Honours program in Anthropology.

Honours in Anthropology

A total of 60 credits (but not more than 72 credits) in Anthropology and Sociology, at least 48 of which must be numbered 300 or higher. All students considering the Honours program in Anthropology are encouraged to seek advising with the Anthropology undergraduate advisor prior to enrolling in the program and periodically during their third and fourth years.

ADMISSION TO THIRD YEAR

Admission to third year requires a high 'B' average in first and second years and credit for ANTH 100, ANTH 103 and/or 140, ANTH 200, and 3 credits chosen from other Anthropology courses at the 200 level.

ADMISSION OR CONTINUATION TO FOURTH YEAR

At least 48 credits in Anthropology and Sociology, including:

Group A

- 1) ANTH 300 and 400
- 2) At least 3 credits from courses in each of the following areas:
 - (a) Methodology – ANTH 305, 317 or 417, 407, 431
 - (b) Archaeology and Physical Anthropology – ANTH 318–326.

Group B

- 1) 6 credits from the following ethnographic area courses: ANTH 302–304, 315, 350–353, 401–403, 404, 416.

Three primary areas of concentration are possible within the Anthropology Honours program: Archaeology, Museum Studies, and Socio-Cultural Anthropology. Students should consult with a departmental advisor to select courses that are most appropriate to their preferred concentration.

A course in statistics, such as STAT 200 or 203, is also recommended as part of the Major and Honours program in Anthropology.

Minor

All students considering the Minor in Anthropology are encouraged to seek advising with the Anthropology undergraduate advisor prior to enrolling in the program.

FIRST TO FOURTH YEARS

At least 30 credits (but no more than 42 credits) in Anthropology and Sociology including ANTH 100. At least 18 of these credits should be at the 300 level or above, including at least 3 credits from Group A and at least 3 credits from Group B below:

Group A

Any courses from Group A of the Anthropology Major (see third- and fourth-year requirements under *Major in Anthropology*, p. 125).

Group B

Any courses in the ethnographic areas list (see third- and fourth-year requirements under *Major in Anthropology*, p. 125.)

Undergraduate Courses

ANTH 100, 103, 140, 201, 202, 204, 205, 206, 213, 214, 215, 217, 218, 220, 221, 222, 225, 231, 232, and 329 are general courses open to all students. ANTH 329 cannot be taken for credit in the Major or Honours program.

Other courses listed in Course Descriptions (www.students.ubc.ca/calendar/courses.cfm) under "ANTH" are intended primarily for students in the Major and Honours programs. Except for ANTH 449, these are open to non-Majors and students in the General B.A. Program with appropriate prerequisites or permission of the instructor.

ANTH 100 is a prerequisite to all courses in the Department except those described above as "general", unless specific permission of a departmental advisor is obtained.

First Nations

Students who wish to concentrate in the study of First Nations and cultures may choose from among the following courses beginning in the second year: ANTH 220, 221, 222, 231, 232, 304, 321, 329, 401, 411, 420.

The following courses also regularly include material relating to indigenous cultures: ANTH 331, 332, 341, 407, 408, 424; ARTH 261, 262, 376, 377, 469; HIST 302, 427, 475.

ARABIC

See *Religious Studies*, p. 148.

ARCHAEOLOGY

Students may emphasize archaeology both at the undergraduate and graduate levels by selecting courses offered in a number of departments, especially the Departments of Anthropology and Sociology, Art History, Visual Art, and Theory; and Classical, Near Eastern, and Religious Studies. In each case, a Major or Honours program can be developed with an emphasis on archaeology. The University is strong in areas complementary to archaeology, such as ethnology, ecology, geography, geology, metallurgy, biology, and quantitative methods; and students are urged to begin courses in these fields at an early date. They are encouraged to acquire a broad knowledge of different geographical areas, techniques, and theories. Several possibilities are listed below under

Course Descriptions (www.students.ubc.ca/calendar/courses.cfm) and *Courses Which are Ancillary to Archaeology*, p. 126.

Within the Department of Anthropology and Sociology, the focus is on anthropological archaeology, cultural ecology, the economic patterns of hunters and gatherers and agriculturists, and the nature of complex societies.

Instruction covers field techniques, analysis, and the study of various culture areas (such as Western North America, Mesoamerica, and East Asia) and includes a local field school. The Laboratory of Archaeology located in the *Museum of Anthropology*, p. 69, building offers extensive archaeological facilities and houses collections from various parts of the world.

Classical Archaeology, p. 129, in the Department of Classical, Near Eastern, and Religious Studies covers the art and cultural history of the Greek and Roman world from the Bronze Age to the founding of Constantinople. Though primarily descriptive, courses include a certain amount of archaeological material and method, and discussion of relevant social and historical processes. Some attention is paid also to ancillary disciplines such as epigraphy and numismatics. Field experience is acquired through a summer practicum on a classical site in Europe. There is a small teaching collection in the Museum of Anthropology.

The Department of Earth and Ocean Sciences offers several courses that may prove of value to the student of archaeology, particularly in the fields of mineralogy and the analysis of materials.

The Department of Art History, Visual Art, and Theory offers a number of courses at the undergraduate and graduate level that depend to a greater or lesser extent on material deriving from archaeological work; these courses are concerned with archaeological interpretations and may be of great value to students specializing in archaeology.

The Department of Geography offers courses of value to the archaeologist in a variety of fields. Students can undertake combined programs with Anthropology in the fields of subsistence and cultural ecology.

The Department of History offers various courses on cultural history relevant to those working in archaeology. The Department also offers an introductory course in historical archaeology that concentrates on material culture in the period of written records, with an emphasis on North America.

Courses in biology, botany, and zoology that deal with the basic structures and functions of the plants and animals found in archaeological sites are also listed below.

Courses

ANTH 103, 231, 232, 305, 306, 318, 319, 321, 322, 323, 406, 410, 411, 420, 424, 510, 517, 520, 527

CLST 204, 306, 330, 335, 429, 430, 431, 501, 502, 503, 504, 505, 506, 508, 509, 510, 511, 512, 513, 514, 518, 519

HIST 205

RELG 300¹, 306, 341²

Courses Ancillary to Archaeology

ANTH 140, 225, 325, 360, 431, 451, 452
ARTH 251, 261, 262, 330, 331, 332, 333, 352, 353, 358, 359, 364, 365, 370, 371, 372, 373, 376, 377

BIOL 204, 205, 209, 210, 324, 343, 412, 421

EOSC 220, 221, 222, 320, 425

GEOG 101, 207, 308, 315, 317, 318, 329, 370, 372, 373, 422, 472, 495

¹ Also listed as ARTH 327.

² Also listed as ARTH 351.

ARCHAEOLOGY (CLASSICAL STUDIES)

See "Classical Studies" for information on *Archaeology and History of Greece, Rome, and the Near East*, p. 129.

ART HISTORY, VISUAL ART, AND THEORY

The Department of Art History, Visual Art, and Theory (www.finearts.ubc.ca) offers programs of study that lead to the Doctor of Philosophy, Master of Arts, Master of Fine Arts, Bachelor of Arts, Bachelor of Fine Arts, and the Diploma in Art History. These programs have one common goal: the development of critical approaches to visual art. They may be pursued for general educational purposes or for professional activity in the field.

In Art History, the Department offers a Bachelor of Arts (Major and Honours), Master of Arts, and Doctor of Philosophy, and a Minor in Art History. The Diploma in Art History is available for students who have a first degree in another discipline and who wish a foundation in art history equivalent to the undergraduate Major. See *Diploma in Art History*, p. 155.

In Visual Art, the Department offers a Bachelor of Arts, Bachelor of Fine Arts (Major and Honours), Master of Fine Arts, and the Minor in Visual Arts. The B.A. is available for those intending to pursue a post-graduate program in secondary education, but it is also often taken by those with other career goals. The B.F.A. program is a focused program in Visual Art. While it is particularly designed for students who contemplate a career in the Arts, it is also well suited to students who seek a liberal education via the practice of art and study of art within a lively academic setting. See *Bachelor of Fine Arts*, p. 152.

Formerly Fine Arts (FINA), the Department of Art History, Visual Arts, and Theory courses are now listed under ARTH and VISA. Brochures that introduce art history and studio goals, programs, and courses are available from the Department. For information on graduate programs, see *Art History, Visual Art, and Theory*, p. 233, in the Graduate Studies section.

Major in Art History

FIRST AND SECOND YEARS

Students take any 12 credits in ARTH. Students may count 6 credits of VISA towards these 12 credits. Students enter the Major program in the third year.

THIRD AND FOURTH YEARS

The minimum requirements for the Major in the third and fourth years are as follows:

- ARTH 300 (3) Seminar in theory and approaches to Art History;
- 15 credits of Art History courses numbered 300 or above in one of the following three areas: Western art and architecture, Indigenous art of the Americas, or Asian art;
- 3 credits in Art History courses numbered 300 or above in each of the two areas not selected for concentration;
- 3 credits in a 400-level Art History seminar.

All of these courses must be at the 300 level or above.

The B.A. student is allowed a maximum of 60 and a minimum of 42 credits in ARTH over the four years of the program. The minimum credits of upper-level ARTH courses in the third and fourth years is 30 and the maximum is 48.

Students may take a 6-credit visual art course as an elective within the maximum of 60 credits in ARTH allowed for a BA program.

No more than 6 credits of cross-listed courses (indicated in Course Descriptions in the UBC Calendar as “Equivalent: xxx”, i.e. ARTH 329/CLST 330) offered by other departments, excepting ARTH 329 (Classical Studies CLST 330), may be counted toward the minimum requirements for the Major.

Cross-listed courses, even though they may be taken under the department offering the course, must be counted in the 60-credit limit of ARTH courses if the student is a Major in either department.

Honours in Art History

Students entering the Honours Program in the third year, like those in the Major program, will be expected to have previously completed 12 credits in Art History courses, of which at least 6 credits must be in art history. It is normally expected that the Honours students will have a high B average in all first- and second-year course work and a minimum A- average in art history courses. If the same minimum average is not maintained in third-year art history courses, the student will be advised to revert to the Major program.

THIRD AND FOURTH YEARS

The Honours program is the same as the Major program with two additional requirements:

- 12 additional upper-level credits in art history;
- the Honours Essay (ARTH 499, 6 credits).

Completion of these additional requirements will give the honours student a total of a minimum of 48 credits in art history over the third and fourth years.

Minor in Art History

The Minor in Art History follows the general regulations for minor programs established by the Faculty of Arts.

To complete a minor in Art History, the student must take at least 30 credits and no more than 42 credits in this field of specialization. At least 18 of these credits must be in courses numbered 300 or above.

See *Faculty of Arts Minor Programs*, p. 123.

Major and Minor in Visual Art

See *Visual Art*, p. 151.

ARTS STUDIES

The Faculty of Arts offers special topics and interdisciplinary courses for upper-division students in the Faculty of Arts, and two second-year level courses in the *UBC-Ritsumeikan Joint Program*, p. 444.

- Distinguished Visitors (ASTU 401) (3–6). Special topics course offered by distinguished visitors in the Faculty of Arts. Topics announced annually.
- Interdisciplinary Studies in Arts (ASTU 400). The Faculty of Arts offers interdisciplinary courses taught by Faculty members from two or more departments. These courses appear cross-listed under the relevant departments. Topics announced annually.
- UBC-Ritsumeikan Joint Program (ASTU 201, ASTU 202). These two courses explore the relations between, and compare facets of, Canadian and Japanese societies. Offered as part of a joint academic program with Ritsumeikan University in Kyoto, they are taught jointly by UBC and Ritsumeikan faculty members, and normally include students from both universities.

Descriptions of these courses can be found under Arts Studies (ASTU) in Course Descriptions (www.students.ubc.ca/calendar/courses.cfm). Further details are available from the relevant departments, from the director of the UBC-Ritsumeikan Joint Program (UBC-Ritsumeikan House), and from the senior Academic Advising Office (Buchanan A201).

ASIAN STUDIES

The Department of Asian Studies offers programs of study that lead to the degrees of Doctor of Philosophy, Master of Arts, and Bachelor of Arts. For information on graduate programs, see *Asian Studies*, p. 234, in the Graduate Studies section. The department also collaborates with Film Studies, International Relations, Linguistics, Museum Studies, Philosophy, Religion, Literature and the Arts, and Women's Studies. For current offerings, consult the departmental website (www.asia.ubc.ca).

The courses offered at the undergraduate level fall into two categories:

- 1) Courses on the contemporary and historical cultures of South, Southeast, and East Asia that do not require knowledge of an Asian language (these are listed under the heading Asian Studies); and

- 2) Courses in language, including advanced reading courses, that introduce the student to literary, philosophical, and historical works in their original language (these courses are listed under the specific language headings).

Courses in category 1 (see above) are open to all students in the Faculty of Arts. Courses in category 2 (see above) are designed to provide the essential training for those who wish to proceed to further scholarly studies in the field of Asian Studies at the graduate level. However, in the more elementary courses, language training at the appropriate level is also provided for those who wish to obtain some knowledge of Chinese, Indonesian, Japanese, Korean, or South Asian languages (Hindi, Punjabi, Sanskrit, Urdu) as part of their general education or with a view to later practical use.

Study of the necessary languages should begin as early as possible in a student's academic career. A good foundation in language studies is a prerequisite for admission to graduate studies. Those who do not have the necessary preparation when they apply will be asked to make up this deficiency. Credit is not normally given to graduate students for such preparatory work.

Major in Asian Area Studies

48 total credits of coursework on Asia are required, of which at least 30 credits must be from courses numbered 300 or above which focus on ASIA. Those 48 credits must include:

- ASIA 100 and 101;
- 6 credits from ASIA 200, 208, and 209;
- at least 12 credits of one language taught in the Department of Asian Studies;
- at least 6 credits from upper-division courses on Asia taught in one other department.

No more than 12 credits from courses taught in other departments can be applied to a major in Asian Area Studies. The following courses are pre-approved:

- ANTH 315(3/6), 402 (3/6), 410 (3/6)
- ARTH 358 (3), 359 (3), 360 (3), 361 (3), 364 (3), 365 (3), 366 (3), 367 (3)
- ECON 342 (3), 343 (3)
- FILM 338 (3)
- GEOG 380 (3)
- HIST 380 (6), 381 (6), 382 (6), 383 (6), 384 (6), 385 (6), 386 (6), 387 (3), 388 (3), 389 (6)
- PHIL 378 (3), 388 (3)
- POLI 321 (3/6), 322 (3), 323 (3/6), 324 (3/6), 330 (3), 331 (3), 365 (3/6), 368 (3)
- RELG 354 (6), 364 (3), 365 (3), 366 (3), 367 (3), 368 (3)
- SOCI 315 (3/6)

Other courses may be approved under advisement from the Department.

- At least 15 upper-division credits from courses offered in the Department of Asian Studies. No more than 6 of those credits can be from CHIN, HINU, INDO, JAPN, KORN, PUNJ, SANS, or SOAL courses.
- 3 credits from an ASIA course at the 400 level.

Those students who wish to major in Asian Area Studies will be required to have an average of at least 64% in the lower-division ASIA courses required for the major (ASIA 100, 101, and two of ASIA 200/208/209), as well as an overall average of at least 64% in the courses they took at UBC before they declared their major.

The Major does not allow for double-majoring within the Department. The Minor cannot be combined with the Major in Asian Area Studies.

Minor in Asian Area Studies

The Minor in Asian Area Studies requires:

- 12 credits of one Asian language at the appropriate level;
- 18 credits of upper-level ASIA courses. As many as 6 of these 18 units may be from courses on Asia taught in one other department.

The Minor cannot be combined with the Major in Asian Languages and Cultures.

Major in Asian Language and Culture

Students who wish to major in Asian Language and Culture must have an overall UBC average of at least 64% before they declare their major.

The major requires 42 credits, of which at least 30 must be from courses numbered 300 or above.

Those 42 credits must include:

- Between 12 and 18 credits of upper-division credit in one language taught in the Department of Asian Studies, which must include at least 6 credits at the 400 level (if Chinese is the language of specialization, CHIN 330 is required; in the case of South Asian languages, 12–18 credits of upper-level courses in Sanskrit-Hindi-Urdu or Sanskrit-Punjabi are required).
- Students with little or no prior knowledge of the language they wish to focus on may be required to earn up to 24 credits in that language before they take any 300 level language courses. However, they will still be required to earn 30 upper-division credits in addition to those 24 lower-division credits.
- Between 12 to 18 upper-division ASIA credits, of which at least 3 credits must be from an area beyond that of the language of specialization.
- 3 credits from a 400-level ASIA course.

No more than 6 credits of courses on Asia taught in other departments may be applied toward the requirements for an Asian Language and Culture major.

In order for students to advance from one level of classes in one language to the next level in

that same language, they must earn at least an average of 68% in the classes in that language at the level immediately below the level they wish to advance into. This would apply to all the students in our language classes, not just the language majors.

The Major does not allow for double-majoring within the Department. The Minor cannot be combined with the Major in Asian Languages and Culture.

Minor in Asian Languages and Culture

A total of 30 credits of coursework, as follows:

- 12 credits of coursework in one language taught in the Dept. of Asian Studies.
- 6 to 12 credits of the same language at the upper level.
- 6 to 12 credits of ASIA courses at the upper level, of which as many as 6 may be from courses on Asia taught in one other department.

The Minor cannot be combined with the Major in Asian Area Studies.

Visit the Department of Asian Studies Website (www.asia.ubc.ca) for more details.

Honours Program in Asian Studies

The Honours Program in Asian Studies requires the successful completion of 60 credits.

- 1) Included among the 48 upper-level credits, at least 12 credits must be in language, via study abroad at an approved UBC Exchange program (note: this option may require a fifth year of study); or
- 2) Included among the 48 upper-level credits, at least 6 credits of Classical Chinese or Japanese for students using one of these as the language of specialization; and, at least 6 additional credits of a fourth-year (400-level) content course on Asia.

Students who wish an honours degree in Asian Language and Culture must have an overall UBC average of at least 74.

CANADIAN STUDIES

The Canadian Studies Major program provides an opportunity for contact with the way disciplines in the humanities and social sciences have shaped understanding of Canada.

Students in the program will be required to take courses in each of five areas: culture, geography, history, politics and economics, and society. In their third year they will enrol in CDST 350. In their fourth year they will enrol in CDST 450, the Senior Seminar in Canadian Studies, to be taught by the distinguished Canadianist holding the Brenda and David McLean Chair in Canadian Studies.

Admission is by application; all applications must be accompanied by transcripts of the first and second year. The program must be approved by a Canadian Studies advisor. For further information please consult the Canadian Studies website (www.canadianstudies.ubc.ca). For enquiries, email (cdst@interchange.ubc.ca) the chair of the program.

Major in Canadian Studies

FIRST AND SECOND YEARS

First and second years of the program require that students complete all three of the following:

- 1) 6 credits of: CHIN 100, 101, 200, 201; either FREN 121 and FREN 122, or FREN 122 and FREN 123¹; FNLG 100 and/or FNLG 200; GERM 131; GREK 100, 200; HEBR 305, 405; HINU 102, 200; INDO 102, 200; ITAL 100, 101, 105, 200, 201; JAPN 100, 101, 102, 103, 104, 200, 201; KORN 102, 104, 200; LATN 100, 200; PORT 102, 202; PUNJ 102, 200, 205; RUSS 100, 101, 102, 200; SANS 102, 200; SCAN 302, 303; SOAL 100; SPAN 100, 105, 200, 205; UKRN 125, 225
- 2) ECON 101 (3) and 102 (3) or POLI 101² (3)
- 3) 6 credits (total) from the following courses: ANTH 201 (3/6), 220 (3), 221 (3), 222 (3); ECON 101² (3), 102² (3); ENGL 222 (3); GEOG 290 (3); HIST 135 (6); POLI 101² (3); SOCI 100 (6), 210³ (3/6); WMST 205 (3), 210 (3).

In planning the first and second years students should take into account the prerequisites for the 300- and 400-level courses they intend to take in subsequent years.

¹ Students intending to meet more than the minimum program requirements in French are advised to complete FREN 222 (3) and FREN 223 (3).

² Neither ECON 101, ECON 102 nor POLI 103 can be used to satisfy more than one of these requirements.

³ Students planning to take 300- and 400-level Sociology courses must complete SOCI 100.

THIRD AND FOURTH YEARS

In consultation with a Canadian Studies advisor, students will compose a program which includes:

- 1) CDST 350 (3/6). Prerequisite for CDST 450.
- 2) CDST 450 (3/6)
- 3) 6 credits of work in each of the five major areas of study which follow, for a total of 30 credits. Note: In special circumstances, and with the permission of the program chair, other courses may be substituted for those listed. Credit value is determined by the department offering the course.
 - Culture – ARTH/FINA 343 (3), 344 (3), 443 (3); ENGL 470 (3–12); FREN 335 (3/6), 403 (6)
 - Geography – GEOG 327 (3), 328 (3), 499 (3)
 - History – HIST 302 (6), 307 (6), 326 (6), 329 (6), 401 (6), 426 (6), 427 (3), 430 (6), 437 (6)
 - Politics and Economics – POLI 301 (3), 303 (3), 305 (3), 363 (3/6); ECON 336 (6)
 - Society – ANTH 329 (3/6); SOCI 310 (6), 410 (3/6).
- 4) Up to 15 credits from the following courses (unless already taken, and with care that all senior-level credits are fulfilled). The total number of upper-division courses in

any one discipline may not exceed 12. The amount of Canadian content in these courses may vary from year to year; please check with the instructor. Credit value is determined by the department offering the course.

- ANTH 304 (6), 321 (3), 329 (3/6), 331 (3/6), 332 (3/6), 420 (3/6)
- ARTH/FINA 343 (3), 344 (3), 348 (3), 349 (3), 376 (3), 377 (3), 443 (3), 448 (3), 469 (3)
- ECON 317 (3), 336 (6), 345 (6), 350 (3), 351 (3), 355 (3), 360 (3), 361 (3), 365 (3), 370 (3), 371 (3), 374 (3), 384 (3), 450 (3), 456 (3), 460 (3), 461 (3), 480 (3)
- ENGL 464 (3–12), 466 (3–12), 474 (3–12), 476 (3–12), 478 (3–12)
- FMST 320 (3), 440 (3)
- FILM 200 (3), 438 (3)
- FREN 330 (3/6), 335 (3/6), 403 (6), 419 (3/6), 422 (3–6), 430 (3/6)
- GEOG 317 (3), 327 (3), 328 (3), 353 (3), 363 (3), 426 (3), 428 (3), 450 (3), 468 (3), 497 (3), 499 (3)
- HIST 302 (6), 303 (6), 307 (6), 326 (6), 329 (6), 401 (6), 404 (6), 430 (6), 437 (6)
- LING 433 (3), 434 (3), 445 (3/6)
- MUSC 403E
- POLI 301 (3), 302 (3/6), 303 (3), 304 (3), 305 (3), 306 (3), 307 (3), 363 (3/6), 401 (3/6), 402 (3/6), 403 (3/6), 404 (3/6), 405 (3/6), 406 (3)
- RELG 312 (3), 420 (6)
- SOCI 310 (6), 360 (3/6), 361 (6), 410 (3/6), 420 (3/6), 425 (3/6), 470 (3/6)

Minor in Canadian Studies

The Minor is comprised of 12 credits (with no more than 6 credits in any one discipline) from ANTH 201, 220, 221, 222; ECON 101, 102; ENGL 222; FREN 121, 122, 123; GEOG 290; HIST 135; POLI 101; SOCI 100, 210; together with CDST 350, and a minimum of 15 additional upper-level credits from at least 3 of the five major areas of study listed above.

CENTRAL, EASTERN AND NORTHERN EUROPEAN STUDIES

The Department of Central, Eastern and Northern European Studies offers programs of study that lead to the degrees of Doctor of Philosophy, Master of Arts, and Bachelor of Arts in German. For information on graduate programs in German, see German (www.german.ubc.ca). For information on graduate programs in European studies, see *European Studies*, p. 249, in the Graduate Studies section.

The Department offers Honours, Major, and Minor programs in German, and a Minor in Russian Language. For Russian and Slavic Languages and Literature, and Slavic Area Studies, see the relevant sections below.

Courses are offered in German, Scandinavian (including Swedish and Danish), Slavic (including Russian and Polish), Modern European Studies, and Central, Eastern and Northern European Studies.

The Department also collaborates with Integrated Drama; Film Studies; Medieval Studies; Modern European Studies; Religion, Literature and the Arts; and Women's Studies.

Not all courses are given every year. For current offerings, consult the departmental website (www.german.ubc.ca).

The Department provides information on study and work opportunities in Europe for students interested in furthering their language skills and subject area knowledge. Students are encouraged to participate in UBC's exchange programs as a part of their program of study.

Major, Honours and Minor in German

See *German*, p. 136.

Minor in Russian

See *Russian and Slavic Languages and Literatures*, p. 149.

CHINESE

See *Asian Studies*, p. 127.

CLASSICAL STUDIES

The Department of Classical, Near Eastern and Religious Studies offers programs leading to the Bachelor of Arts in Classical Studies (including *Archaeology and History*, p. 129, and *Myth and Literature*, p. 130). For other Bachelor programs, see the listings for *Classics*, p. 130 (including Greek and Latin), *Near Eastern Studies*, p. 145, and *Religious Studies*, p. 148. For information on graduate programs, see *Classics*, p. 240, or *Religious Studies*, p. 277, in the Graduate Studies section. The Department also collaborates in programs offered by Archaeology; Art History, Visual Art and Theory; Drama; International Relations; Italian and Italian Studies; Medieval Studies; Modern European Studies; Museum Studies; Philosophy; Religion, Literature and the Arts; Science Studies; and Women's Studies.

Classical Studies courses are designed to investigate the life, literature, and thought of the Greek and Roman world of antiquity. Knowledge of Greek or Latin is not required for Classical Studies courses. CLST 305, 310, 313, 314, 317, 318, 330, and 331 may be taken in second year.

For details concerning current courses and programs, consult the departmental website (www.cnrs.ubc.ca).

Major in Classical Studies

FIRST AND SECOND YEARS
Students take 12 credits of Classical Studies courses.

THIRD AND FOURTH YEARS
Students take 30 credits of third- and fourth-year Classical Studies courses including CLST 310, 330, and 331. CLST 305 is recommended.

Those who wish to concentrate on art and archaeology should take CLST 335, 429, 430,

and 431; on literature, CLST 313, 314, 315, 317, and 318; on history, two or more of CLST 351, 352, 353, 354, 355, and 356. Greek or Latin courses numbered 300 or above may be substituted for 12 of the 30 credits of Classical Studies. Majors in Classical Studies may take 12 credits of 100- and 200-level Greek or Latin courses as part of their required 48 credits of upper-level Arts courses. LATN 200 or GREK 200, NEST 301, 302, 303, and 304, and PHIL 310 and 311 are accepted within the Classical Studies Major.

Honours in Classical Studies¹

FIRST AND SECOND YEARS
Students take 12 credits of Classical Studies and/or Latin and/or Greek with at least a 68% average, and the permission of the Department. Students are encouraged to take courses in the ancient languages.

THIRD AND FOURTH YEARS
Students take 48 credits of Classical Studies, including CLST 310, 330, 331, and 449.

Latin or Greek courses numbered above 200 may be substituted for 6 of the 48 credits of Classical Studies.

Students in the Classical Studies Honours program may take 12 credits of 100- and 200-level Greek or Latin courses as part of their required 54 credits of upper-level Arts courses.

¹ The Honours programs in Classical Studies and Classics may be combined with other disciplines (e.g., English, French, Hispanic and Italian Studies, and Religious Studies).

Minor in Classical Studies

30 credits of CLST, which may include up to 12 credits at the 100 or 200 level.

Major in Archaeology and History of Greece, Rome, and the Near East

Students take 42 credits which normally include the courses listed below.

FIRST AND SECOND YEARS
Students take 12 credits of Classical, Near Eastern, and Religious Studies.

THIRD AND FOURTH YEARS
Students take the following:

- 18 credits of required courses in Classical and Near Eastern Archaeology and Ancient History: CLST 330 and 331, NEST 302; plus
- 12 credits chosen from CLST 306 (3), 307 (3), 308 (3), 311 (3), 312 (3), 335 (6), 351 (3), 352 (3), 353 (3), 354 (3), 355 (3), 356 (3), 360 (3–12), 429 (3/6), 430 (3), 431 (3); RELG 306 (3), 314 (6), 315 (6), 340 (3), 341 (3/6), 407 (3); NEST 301 (3), 303 (3), 304 (3).

Honours in Archaeology and History of Greece, Rome, and the Near East

Students take 60 credits which normally include the courses listed below.

FIRST AND SECOND YEARS
Students take 12 credits of Classical Studies and/or Latin and/or Greek with at least a 68% average, and the permission of the Department.

Students are encouraged to take courses in the ancient languages.

THIRD AND FOURTH YEARS

Students take the following:

- 24 credits of required courses in Archaeology and History: NEST 302; CLST 330, 331; and the Honours Essay, CLST 449 or RELG 499 (each 6 credits only); plus
- 24 credits to be chosen from the list given above for the Major.

Minor in Archaeology and History of Greece, Rome, and the Near East

Students must obtain 6 (or 12) credits of CLST 100, CLST 204, or RELG 100 and 24 (or 18) credits of 300- or 400-level courses in Classical, Near Eastern, and Religious Studies including CLST 330 and 331, and NEST 302.

Major in Myth and Literature in Greece, Rome, and the Near East

42 credits which normally include:

FIRST AND SECOND YEARS

- 12 credits: CLST 100 (6) and RELG 202 (6).

THIRD AND FOURTH YEARS

- 12 credits of required courses in Myth, chosen from: CLST 305 (6), CNRS 370 (3), and RELG 304 (3); plus
- 18 credits chosen from: CLST 310 (6), 311 (3), 312 (3), 313 (3), 314 (3), 315 (3), 317 (3), 318 (3); RELG 302 (3), 311 (3), 314 (6), 315 (6), 385 (3), 403 (3), 407 (3), 414 (3), 415 (3); CNRS 316 (6). GREK 200, LATN 200, or HEBR 405 can be counted for a maximum of 6 credits toward these 18 credits.

Honours in Myth and Literature in Greece, Rome, and the Near East

Students take 60 credits which normally include the courses listed below.

FIRST AND SECOND YEARS

Students take 12 credits, consisting of CLST 100 (6) and RELG 202 (6).

THIRD AND FOURTH YEARS

Students take the following:

- 18 credits of required courses in Myth chosen from:
CLST 305 (6), CNRS 370 (3), and RELG 304 (3), and either CLST 449 (6) or RELG 499 (6); plus
- 30 credits chosen from:
CLST 310 (6), 311 (3), 312 (3), 313 (3), 314 (3), 315 (3), 317 (3), 318 (3), 336 (3); CNRS 316 (6); RELG 302 (3), 304 (3), 311 (3), 314 (6), 315 (6), 385 (3), 403 (3), 407 (3), 414 (3), 415 (3). GREK 200, LATN 200, or HEBR 405 can be counted for a maximum of six credits toward these 30 credits.

Minor in Myth and Literature in Greece, Rome, and the Near East

30 credits as follows:

- CLST 100 (6) and/or RELG 202 (6);
- CLST 305 (6);

- From 9 to 15 credits as required from:
CLST 310 (6), 311 (3), 312 (3), 313 (3), 314 (3), 315 (3), 317 (3), 318 (3); CNRS 316 (6); RELG 302 (3), 311 (3), 314 (6), 315 (6), 385(3), 403 (3), 407 (3), 414 (3), 415 (3).

Near Eastern Studies

For information on the Major, Minor, and Honours programs in Near Eastern Studies see *Near Eastern Studies*, p. 145.

Religious Studies

For information on the Major, Minor, and Honours programs in Religious Studies see *Religious Studies*, p. 149.

CLASSICS

The Department of Classical, Near Eastern and Religious Studies offers programs in Classics leading to the Bachelor of Arts. For other Bachelor programs, see the listings for *Classical Studies*, p. 129, *Near Eastern Studies*, p. 145, and *Religious Studies*, p. 148. For information on graduate programs, see *Classics*, p. 240, or *Religious Studies*, p. 277, in the Graduate Studies section. For information on current offerings, see the departmental website (www.cnrs.ubc.ca). The Department also collaborates in programs offered by Archaeology; Art History, Visual Art and Theory; Drama; International Relations; Italian and Italian Studies; Medieval Studies; Modern European Studies; Museum Studies; Philosophy; Religion, Literature and the Arts; Science Studies; and Women's Studies.

Major in Classics

Students take 30 credits including at least 18 credits of Latin and/or Greek courses at 300-level and above, plus additional credits as necessary from Classical Studies courses at the 300-level and above, or HEBR 305.

Honours in Classics

Students take 48 credits including GREK 301 and LATN 301, at least 18 credits of Greek and Latin courses numbered 325 or above, plus additional credits as necessary from Classical Studies and Near Eastern courses at the 300-level and above, ARBC 300 or HEBR 305.

Minor in Greek

18 credits of GREK plus 12 further credits (in any combination) of GREK or LATN or CLST.

Minor in Latin

18 credits of LATN plus 12 further credits (in any combination) of LATN or GREK or CLST.

COGNITIVE SYSTEMS

The Cognitive Systems (COGS) Major program provides B.Sc. and B.A. degrees in Cognitive Systems through interdisciplinary investigation of mental functioning in humans, other animals, and artificial systems from the perspective of one of the following three disciplinary streams:

- 1) Cognition and the Brain (B.Sc. or B.A., supervised by Psychology); or

- 2) Language (B.A. only, supervised by Linguistics); or
- 3) Computational Intelligence and Design (B.Sc. only, supervised by Computer Science).

Cognitive Systems includes the study of the nature of intelligence, perception, learning, memory, knowledge, meaning, reasoning, language, attention, affect, consciousness, and the control of action. Students registered in the Faculty of Arts can enrol in either the Cognition and Brain stream (Psychology) or the Language stream (Linguistics). Faculty of Science students can enrol in the Cognition and Brain stream (Psychology) or the Computational Intelligence and Design stream (Computer Science).

Although the subject matter of Cognitive Systems is inherently interdisciplinary, the aim is to ensure that graduates of the program possess the background competence to be able to enter graduate programs in at least one of the supervisory disciplines (Computer Science, Linguistics, Psychology) or in Cognitive Systems itself. All students in the program are required to take team-taught courses at introductory (COGS 200), intermediate (COGS 300), and advanced levels (COGS 401, 402), as well as background courses in Computer Science and Philosophy.

Admission to the Cognitive Systems program depends on academic performance. Admission requires a minimum GPA of 68% overall, and a minimum grade of 68% in COGS 200. However, meeting these minimum requirements does not guarantee acceptance into the program. Students are admitted to the program at the end of either the first or second year, and must maintain at least a 68% yearly average for continuation.

For specific program and admission information about the B.A. and B.Sc. degrees in Cognitive Systems, see the Faculty of Arts entries for *Linguistics*, p. 141, and *Psychology*, p. 148, and the Faculty of Science entries for *Psychology*, p. 428, and *Computer Science*, p. 411. For current information about the people, institutions, and events associated with the Cognitive Systems program, see the Cognitive Systems website (www.cogsys.ubc.ca).

COMPARATIVE LITERATURE

See *Comparative Literature*, p. 240, under Faculty of Graduate Studies degree programs.

CRITICAL STUDIES IN SEXUALITY

Minor in Critical Studies in Sexuality
Critical Studies in Sexuality offers a multidisciplinary exploration of how lesbian, gay, bisexual, heterosexual, transgender, and other sexualities affect the many academic areas studied in the Faculty of Arts and other faculties. The CSIS Coordinating Committee maintains an approved list of courses available for credit toward the Minor. This list changes annually. Students registered in the minor must have their course selection approved by a member of the Coordinating Committee. A detailed description of the program, the approved list of courses, the names of advisors and affiliated faculty, and other information

may be obtained from the CSIS Coordinating Committee. Contact the Arts Academic Advising Office (604-822-4028) for the name, telephone number, and email address of the Chair of the Coordinating Committee, or visit the CSIS website (www.sexuality.arts.ubc.ca).

FIRST AND SECOND YEARS
Students take 12 credits formally approved by the Coordinating Committee.

THIRD AND FOURTH YEARS
Students take 18 credits of 300- and 400-level courses, including at least 3 credits of CSIS 300 and electives from the approved list:

- CSIS 300 (3/6) Introduction to Critical Studies in Sexuality;
- CSIS 450 (3–6) Topics in Critical Studies in Sexuality;
- CSIS 490 (3/6) Directed Topics;
- CSIS 500 (3/6) Critical Studies in Sexuality: Multidisciplinary Approaches.

DRAMA

The Integrated Drama Program (IDP) offers a set of courses that leads to a Bachelor of Arts in Drama. The program is designed to serve a multiplicity of purposes: it provides students with a survey of all forms and periods of drama; it enables them to compare drama to related disciplines such as film, dance, and opera; it introduces them to performative elements that correlate page and stage; and it persuades them to discover the intellectual wealth of drama and theatre studies in all its cross-disciplinary potential.

The program offers both a Major and a Minor. Students will be required to seek advising and approval before embarking in the program.

Major in Drama

Students take 42 credits. Corequisite or prerequisite: DRAM 200 and DRAM 201.

THIRD AND FOURTH YEARS
Students take DRAM 300, DRAM 400 and:

- at least 18 credits chosen from List A (see below);
- at least 6 credits from List B (see below).

Minor in Drama

Corequisite or prerequisite: DRAM 200 and DRAM 201.

THIRD AND FOURTH YEARS
Students take at least 18 credits of courses from List A and B (see below). At least 9 of these credits must be chosen from List A.

List A: Drama Concentration Courses

CLST 317, 318; DRAM 300, 301, 400, ENGL 348, 367, 405, or any of the period or genre courses in English that emphasize the drama; FREN 423; GREK 402; SCAN 411; THTR 320, 323, 325, 340, 420, 425, 440, 443, 445, 498.

List B: Cross-Media Courses

CRWR 306, 307, 404, 406, 407, 417; FILM 332, 430, 432, 434; FREN 427; LLED 333, 334, 335, 435; MUSC 135, 235, 336.

Other Courses

Other courses include courses in the performing arts, such as opera workshops or performance work in the Theatre program (by permission or audition).

Students are advised that some of these courses may have prerequisites, and that the List A and B curricula are subject to change. Majors and Minors are advised to consult with the Drama advisor about eligible courses.

ECONOMICS

The Department of Economics offers programs of study that lead to the degrees of Doctor of Philosophy, Master of Arts, and Bachelor of Arts. For information on graduate programs, see *Economics*, p. 244, in the Graduate Studies section. The Department also collaborates with Canadian Studies, International Relations, Mathematics, Modern European Studies, Philosophy, Political Science, Statistics, Urban Studies, Women's Studies, and the Faculty of Commerce and Business Administration. For details about current offerings, consult the departmental website (www.econ.ubc.ca).

Admission to the Major or Honours Program

Admission to the Major or Honours program in Economics is not automatic. To be admitted students must submit a formal application. Because there are a limited number of places, some students who satisfy the minimum prerequisites may not be admitted.

Selection for admission is based on the average standing in all credits of post-secondary coursework attempted, with the exception of 12 credits that may be excluded from the calculation. The average is calculated on at least 54 credits, including 6 credits of first-year English, 6 credits of Principles of Economics, 6 credits of first-year Calculus, and 6 credits of second- or third-year-level courses in Economics. Students not admitted to the Major in Economics who are eligible to take ECON 490 may be admitted to the final 30 credits of the program, but only if places become available, which is unlikely.

Students who are considering a Major, Combined Major, or Honours program in Economics are encouraged to seek advice on their program from department advisors upon completion of their first 54 credits (or, if possible, on completion of their first 30 credits).

Application

A written application for admission to the Major or Honours program should be received by June 15, prior to registering for the final 60 credits, to ensure that the student will be considered for admission. Application forms are available on the Economics website (www.econ.ubc.ca) or from the Undergraduate Admissions Secretary, Department of Economics, The University of British Columbia, 997–1873 East Mall, Vancouver, BC, V6T 1Z1.

The application form must be accompanied by a copy of the student's permanent record from UBC (unless application is post-marked May 20 or earlier) and official transcripts of the stu-

dent's record from all other post-secondary educational institutions attended.

Major in Economics

To be admitted to the Major program, a student must have obtained 54 credits applicable to the Bachelor of Arts, including 6 credits of first-year English, 6 credits of Principles of Economics, 6 credits of first-year Calculus, and 6 credits of second- or third-year level courses in Economics.

In addition to the above prerequisites and Faculty requirements the program must include:

- ECON 301 (or 201 or 206 or 304) and 302 (or 202 or 207 or 305);
- ECON 325 and 326;
- ECON 490;
- 6 additional credits of economics at the 400 level; at least 9 additional credits in ECON at the 300- or 400-level so that the total number of credits taken in Economics is 42.

Students should note the prerequisites for senior courses and plan their programs accordingly. Particular attention should be paid to the prerequisites for ECON 490: ECON 325 and 326 (or their equivalent) must be successfully completed before the student may enrol in ECON 490.

For guidance on the course selections that enable students to emphasize different interests within Economics (e.g., international, development and history, environment, public policy, etc.), see the departmental website (www.econ.ubc.ca). Students with over 80% average in their first-year economics and mathematics courses are strongly advised to apply for the Honours Program.

Graduate School Track

Graduate studies in Economics require a strong background in economic theory, econometrics, and mathematics. Therefore, students who intend to pursue graduate studies in Economics are strongly advised to take ECON 303 or ECON 306, ECON 307, ECON 421, ECON 425, MATH 200, and MATH 221.

Combined Major in Economics and Political Science

Admission to the program is subject to the admission restrictions and application process that pertain currently to the Majors in Economics and Political Science. In addition to Faculty requirements, the program has Economics and Political Science requirements. Students completing the Foundations Program will be exempted from the requirement of POLI 100.

ECONOMICS REQUIREMENTS

Students take an 18-credit core, plus ECON 490 and 9 credits of electives in Economics of which at least 3 credits must be at the 300/400-level. The 18-credit core consists of ECON 101, 102, 301 (or 201 or 206 or 304), 302 (or 202 or 207 or 305), 325, and 326.

POLITICAL SCIENCE REQUIREMENTS

Students take a 15-credit core plus 15 credits of electives at the 300/400-level. The 15-credit

core consists of POLI 100, 101, 240, and 350 (or 352), plus three credits chosen from POLI 220 or 260.

Combined Major in Economics and Philosophy

Admission to the program is subject to the admission restrictions and application process that pertain currently to the Major in Economics. In addition to Faculty requirements, the program has Economics and Philosophy requirements.

ECONOMICS REQUIREMENTS

Students take an 18-credit core, plus ECON 490 and 9 credits of electives in Economics of which at least 3 credits must be at the 300/400-level. The 18-credit core consists of ECON 101, 102, 301 (or 304 or 201 or 206), 302 (or 305 or 202 or 207), 325, and 326. Students are strongly advised to take ECON 318 and ECON 319.

PHILOSOPHY REQUIREMENTS

Students take an 18-credit core plus 12 credits of electives at the 300/400-level. The 18-credit core consists of PHIL 220, 230, 240, 330, and 340 plus 3 credits of history of philosophy from PHIL 310, 311, 314, or 315.

B.A. Combined Major in Economics and Mathematics

Admission to the program is subject to the admission restrictions and application process that pertain currently to the Major in Economics. For the B.Sc. Combined Major in Mathematics and Economics, see the listing under the Faculty of Science.

FIRST AND SECOND YEARS

In addition to Faculty requirements, students take the following courses:

- ECON 101 and 102¹;
- ECON 304 (or 206), and ECON 305 (or 207);
- MATH 104 (or 100 or 102 or 180 or 184 or 120);
- MATH 105 (or 101 or 103 or 121);
- MATH 200 (or 226), 215, 220, 221.

¹ Students can take ECON 307 and three additional credits of Economics numbered 300 or higher instead of ECON 101 and 102.

THIRD AND FOURTH YEARS

In addition to Faculty requirements, students take the following courses:

- ECON 306, 325², 326, 490;
- MATH 320;
- 6 additional credits of Economics numbered 300 or higher, of which at least 3 credits must be at the 400 or 500 level;
- 9 additional credits of Mathematics numbered 300 or higher. Suitable electives include MATH 302, 303, 321, 402, 403, 418, 419, and 443.

² STAT 200 can substitute for ECON 325.

B.A. Combined Major in Economics and Statistics

Admission to the program is subject to the admission restrictions and application process that pertain currently to the Major in Economics. For the B.Sc. Combined Major in Statistics and Economics, p. 429, see the listing under the Faculty of Science.

First and Second Years

In addition to Faculty requirements, students take the following courses:

ECON 101, 102 ¹	6
MATH 104 (or one of 100, 102, 120, 180, 184)	3
MATH 105 (or one of MATH 101, 103, 121)	3
CPSC 111, 211 (or MATH 210)	8 or 7
ECON 301 (or 201 or 206 or 304), 302 (or 202 or 207 or 305)	6
ECON 325 or STAT 200 ²	
MATH 200 (or 226), 220, 221 (or 223)	9
STAT 302	3

Third and Fourth Years

In addition to the Faculty requirements, students take the following courses:

ECON 303 (or 306) ³	3
ECON 326 or STAT 306 ³	3
ECON 425	3
ECON 490	3
3 additional credits of Economics numbered 300 or higher	3
MATH 303 or 307	3
STAT 305	3
STAT 404	3
3 additional credits of Statistics courses numbered 300 or higher	3
3 additional credits of Economics numbered 400 or higher	3

¹ A student can take ECON 307 and 3 additional credits of Economics numbers 300 or above instead of ECON 101 and 102.

² If STAT 200 is selected, an additional ECON elective numbered 300 or higher must be taken at some point in the program, to ensure the total number of ECON credits is at least 30.

³ If STAT 306 is selected, an additional ECON elective numbered 300 or higher must be taken at some point in the program, to ensure the total number of ECON credits is at least 30.

Honours in Economics

To be admitted to the Honours program, a student must have obtained 60 credits applicable to the Bachelor of Arts, with an overall average of 68% or better on all credits attempted and have completed successfully: 6 credits of first-year English, 6 credits of first-year Calculus, 6 credits of Principles of Economics, and 6 credits of Economics courses at the 200-level (or 300-level) (with at least a 68% average in the best 12 credits of Economics courses).

Students considering an Honours program in Economics should consult the Department's Honours advisor on completion of their first 60 credits (or, if possible, on completion of their first 30 credits).

In addition to the prerequisites the program must include:

- ECON 325 and 326;
- ECON 304 (or 206) and 305 (or 207);
- ECON 306 and 307 with at least a 68% average;
- another 12 credits in Economics courses at the 400-level;
- another 9 credits in Economics courses at the 300- or-400 level;
- ECON 495 and 499.

Graduate studies in Economics require a strong background in economic theory, econometrics, and mathematics. Students who intend to pursue graduate studies in Economics are strongly advised to take ECON 421, ECON 425, MATH 200, and MATH 221.

To proceed to the final 30 credits of the Honours program, a student must have attained at least a 68% average in all courses taken in Economics.

Minor in Economics

Students who are enrolled in a Major program other than Economics, and who obtain at least 30 credits and no more than 42 credits in Economics, with at least 18 of these credits in courses numbered 300 or above, qualify to graduate with a Minor in Economics.

None of ECON 308, 309, 310, or 311 can be included in the requirement of 18 credits in courses numbered 300 or above. Economics courses which do not have 6 credits of Principles of Economics as a prerequisite, or for which unassigned transfer credit may have been granted, may not be included in the 30 credits required for a Minor in Economics.

Courses for Students not Specializing in Economics

ECON 310 and ECON 311 are designed for upper-year students who want a survey course in Economics but who do not want to specialize in the field.

Non-specialists should also note that most 300-level courses have as prerequisites no more than 6 credits of Principles of Economics.

Students are referred to the Department of Economics (www.econ.ubc.ca) undergraduate timetable for updated information on courses to be offered each session.

ENGLISH

The Department of English offers programs of study that lead to the degrees of Doctor of Philosophy, Master of Arts, and Bachelor of Arts. The Department offers Honours and Major programs in English with emphasis in either literature or language. For information on graduate programs, see *English*, p. 248, in the Graduate Studies section. The Department also collaborates with Canadian Studies, Children's Literature, Comparative Literature, Critical Studies in Sexuality, Integrated Drama, Linguistics, Medieval Studies, Nineteenth-Century Studies, Religion, Literature and the Arts, and Women's Studies.

In March, the Department compiles detailed information about the courses to be offered in the next academic year, including course descriptions, instructors, timetabling information, and the credit value of variable credit courses. Interested students should visit the Department of English website (www.english.ubc.ca). A print copy of this information is available later in the spring in the Department office.

6 credits of first-year English, or Arts One, or Foundations, and third-year standing are prerequisite to all English courses numbered 304 or above, except as noted. The designation '(3/6)' means that the Department will offer the course at some times for one term (3 credits) and at other times for two terms (6 credits). The designation '(3-12)' means that during their complete programs of study, students may take up to 12 credits of work in any course so marked if the specific topic of that course changes from term to term.

Major in English

Admission to the Major Program is by written application. Application forms, due mid-May following completion of second year, are available at www.english.ubc.ca or from the Majors Secretary, Department of English, 397-1873 East Mall, UBC, Vancouver BC V6T 1Z1, telephone 604-822-9817. Transfer students must enclose official transcripts with their application.

MINIMUM PREREQUISITES

Prerequisites for the Major

- 6 credits of first-year English or Arts One or Foundations;
- 6 credits of second-year English;
- literature majors must take ENGL 220 and one of 221, 222, 223, or 224 (or under special conditions will be asked to take 407);
- language majors must take ENGL 229 and one of ENGL 220 to 228, 230;
- an average of at least 72% (B) in 6 credits of second-year English for Literature Majors or an average of at least 68% (B-) for Language Majors.

Applicants will be ranked by the average of their best 6 credits of 200-level English. Because space is limited, some who satisfy the minimum prerequisites may not be admitted. Students will be notified by early June whether they have been accepted, rejected, or placed on a ranked waiting list. Exceptional late applications will be added to this waiting list. Wait-listed applicants will be notified if space becomes available or can reapply the following year.

THIRD AND FOURTH YEARS

Students must choose either the literature emphasis program or the language emphasis program.

LITERATURE EMPHASIS PROGRAM

The Literature Emphasis Program requires that students complete at least 30 credits in courses numbered 304 or higher. They must take:

- 1) at least three courses from Groups A (ENGL 343 to 354) and B (ENGL 357 to 369), with at least one course from each;

- 2) one (only) Majors Seminar (490), preferably in fourth year;
- 3) one course in Canadian Studies from Group D (ENGL 470 or 476) or ENGL 202 or 222 (or any other course in which there is a large selection of Canadian literature) with the approval of a Major Advisor;
- 4) the remainder of their required 30 credits from Groups A to F with a maximum of 6 credits from Group F (ENGL 304 to 340).

Literature Emphasis Course Groups

- A. ENGL 343, 344, 346, 347, 348, 349, 354;
- B. ENGL 357, 358, 359, 362, 364, 369;
- C. ENGL 402, 405, 406, 407, 408, 409, 412, 417, 418, 419;
- D. ENGL 462, 464, 466, 468, 470, 472, 474, 476, 478;
- E. ENGL 490 (Majors Seminar);
- F. ENGL 304, 307, 308, 309, 310, 311, 320, 321, 322, 323, 326, 328, 329, 340, 352.

LANGUAGE EMPHASIS PROGRAM

At least 30 credits distributed as follows:

Category 1 (12 credits)

- ENGL 320;
- ENGL 329.

Category 2 (12 credits), with at least 3 credits in each of three of the following areas (a)-(d):

Category 2 Area	Content	Courses
a	History of the English Language	ENGL 326 ¹ , ENGL 340, ENGL 343, ENGL 344, ENGL 346, ENGL 347, ENGL 348, ENGL 352, ENGL 490 ²
b	Structure of the English Language	ENGL 321, ENGL 323, ENGL 326 ¹ , ENGL 328, ENGL 490 ²
c	Approaches to Discourse	ENGL 308, ENGL 312, ENGL 322, ENGL 326 ¹ , ENGL 490 ²
d	Rhetorical Theory	ENGL 307, ENGL 309, ENGL 310, ENGL 311, ENGL 490 ²

¹ Topics in ENGL 326 vary. Depending on the topic covered in any specific year, the course may satisfy category a, b, c, or d.

² If the content of ENGL 490 offered in a particular year is in the Language area, it may satisfy category a, b, c, or d, depending on the specific topic covered.

Category 3 (6 credits), in one or more of the following:

- courses in English literature or composition: ENGL 304, ENGL 349, ENGL 354, ENGL 357 to 364, ENGL 369 to 478;
- selected courses outside the English department: ANTH 417, AUDI 400, LING 300, LING 305, LING 311, LING 319, LING 327, LING 445, LLED 478, PHIL 425, PSYC 336;
- Category 2 (a-d).

Students should note that a total of only 18 credits outside the Faculty of Arts (including

transfer credit, elective courses, and courses permitted by the major) may count towards an Arts degree.

Students who have attained an average grade of 75% or above in LING 200 and 201 may, with the permission of an advisor, be exempted from ENGL 329 for the purposes of the English Language Major. However, students still need to complete 30 credits in English for the Major.

Note: Students considering a career in teaching English at the secondary school level should check the Faculty of Education website (www.educ.ubc.ca/teacher_ed/bachelor.html) for prerequisites.

Honours in English

Admission to the Honours program requires a grade of at least 76% in either ENGL 210 and 211; ENGL 201; or in ENGL 220 plus 3 other credits from ENGL 221 to 224. For admission requirements to ENGL 210 see course listing.

THIRD AND FOURTH YEARS

Students must observe the following requirements:

- 1) Students must take at least one course from each of the areas below (minimum 9 credits):
 - Old and Middle English Studies: ENGL 340, 343, 344, 346, 352, 356;
 - Sixteenth-Century Studies: ENGL 347, 348, 367;
 - Seventeenth-Century Studies: ENGL 349, 354, 376.
- 2) Students must take at least one course from two of the following areas (minimum 6 credits), one of which must be in Canadian Literature unless that requirement has already been met in the second year:
 - Eighteenth-Century Studies: ENGL 357, 358;
 - Nineteenth-Century Studies: ENGL 359, 362, 364, 369;
 - Twentieth-Century Studies: ENGL 462, 464, 466, 470 to 478.
- 3) Students must take at least 3 credits of language or rhetoric courses from the following: ENGL 307, 308, 309, 310, 311, 312, 320, 321, 322, 323, 326, 328, 329, 340, 352.

In addition, students are required to take 6 credits of senior seminars in each of their two senior years. One of these seminars must be a section of ENGL 491, which will focus on theory. Students are also required to take ENGL 499 (Graduating Essay) in their fourth year. 60 credits are required in the third and fourth years: at least 48 credits in English courses numbered 304 and above.

Minor in English (Literature)

FIRST YEAR

Students must take 6 credits from ENGL 110 to 121, or Arts One, or Foundations.

SECOND YEAR

Students must take 6 credits from ENGL 210 to 230; ENGL 220 is recommended.

THIRD AND FOURTH YEARS

Students must take 18 credits of senior English (ENGL 343 or higher), at least 6 of which must be in the Literature Emphasis Course Groups A and/or B, and the other 12 from Groups A through D. Courses outside the English Department or from Group F cannot be counted toward the Literature Minor.

Minor in English (Language)

FIRST YEAR

Students must take 6 credits from ENGL 110 to 121, or Arts One, or Foundations.

SECOND YEAR

Students must take 6 credits from ENGL 210 to 230; ENGL 229 (or an introductory course in language, rhetoric, or communication) is recommended.

THIRD AND FOURTH YEARS

Students must take 18 credits of senior English language courses, distributed as follows:

- ENGL 329;
- either ENGL 320 (Language emphasis) or ENGL 310 to 311 (Rhetoric emphasis);
- 6 additional credits from ENGL 307 to 328, 340 to 348, 352.

Note: Students considering a career in teaching English at the secondary level should check the Faculty of Education website (www.educ.ubc.ca/teacher_ed/bachelor.html) for prerequisites.

Suggested Courses for Intending Secondary School English Teachers

The Department of English, in collaboration with the Faculty of Education, recommends the following courses for Majors who wish to prepare themselves to teach English in secondary schools.

SECOND YEAR

Any 6 credits of second-year English. ENGL 220 is particularly recommended.

THIRD AND FOURTH YEARS

A total of 36 upper-level credits, including:

- ENGL 303 or 304 or CRWR 301 (note that ENGL 303 does not count toward the major or for upper-level credit);
- ENGL 320 or 329 or LING 420;
- 6 credits of pre-twentieth-century literature;
- 6 credits of twentieth- or twenty-first-century literature.

Students in this program must complete all the normal requirements of an English Major. For more information, see the pre-admission worksheet provided by the Faculty of Education (www.educ.ubc.ca/teacher_ed/sa-forms/english-05.pdf).

ETHNIC AND INTERCULTURAL STUDIES

Ethnic and Intercultural Studies refers to the study of ethnic groups and intercultural group relations in Canadian society and abroad. Work is normally centred on an ethnic group, on relationships between ethnic groups, or on comparisons of different ethnic group conditions across Canada and other countries. Ethnic and

Intercultural Studies involve numerous disciplines (e.g., anthropology, sociology, history, political science, language, literature, health, education) and are carried on in various departments, schools, and faculties within the University. Subjects may vary widely (e.g., from ethnomusicology to ethnopolitical conflict and conflict management, racism, multicultural policy, the social construction of ethnicity, identity maintenance, boundary negotiation, and the intersection of class and gender with 'race' and ethnicity). An interdisciplinary approach involving a variety of theoretical and methodological perspectives is emphasized.

Although there is no Department of Ethnic and Intercultural Studies and no formal program leading to a degree in this field at UBC, many departments throughout the University offer courses relevant to Ethnic and Intercultural Studies. Students who wish to concentrate on Ethnic and Intercultural Studies at the undergraduate or graduate level will normally be located in a home department where they will pursue a degree program. Undergraduate students should consult the program chair for guidance in planning their coursework by the end of their second year. They should contact Arts Academic Advising for the name and contact information for the current program chair.

FAMILY STUDIES

The School of Social Work and Family Studies offers students in the Faculty of Arts the Family Studies Major, an academic program in social science leading to the Bachelor of Arts. See the *School of Social Work and Family Studies*, p. 439. The School also offers a Master of Arts program in Family Studies, a Bachelor of Social Work, a Master of Social Work, and a Ph.D. in Social Work and Family Studies. For information on graduate programs in Family Studies, see *Family Studies*, p. 249, in the Graduate Studies section.

Major in Family Studies

The Family Studies Program (Bachelor of Arts) offers a life-course perspective to understanding families and other intimate relationships as they develop over time. This incorporates both the study of family dynamics in diverse contexts and the predictable ways families change. The program takes a research-based multidisciplinary approach that extends from the individual to interactional processes to cultural influences. Rooted in the curiosity-driven inquiry of the liberal arts, the program provides theoretical foundations and research skills for understanding relationships and families, while valuing the application of social science knowledge gained from the study of families.

FIRST AND SECOND YEARS

During the first two years of study, students should complete the general requirements of the Faculty of Arts including English composition, Science, Literature, and Language, as well as introductory courses in Family Studies.

Introductory Family Studies courses include:

- FMST 200 Contemporary Family Relationships;

- FMST 210 Family Context of Human Development;
- FMST 238 Family Resource Management;
- STAT 203 Statistical Methods.

THIRD AND FOURTH YEARS

During the third and fourth years of the Bachelor of Arts Family Studies Major program, students are required to complete:

- FMST 323 Family Research Methods;
- FMST 420 Family Theories.

The remaining 24 credits required to complete a Major in Family Studies may be selected from any Family Studies (FMST) courses. Students must earn a mark of 55% or better in all of their Family Studies courses.

Minor in Family Studies

- Students take at least 30 credits from Family Studies courses which must include 18 credits numbered 300 or above. The credits must include: FMST 200, 210, 238, and 420.

The remaining 21 credits required for the Minor may be selected from Family Studies courses.

Preparation for Certification in Family Life Education

The Family Studies program is an approved program for providing training for the Certificate in Family Life Education (CFLE) from the National Council on Family Relations. Students interested in this program should contact the Family Studies Undergraduate Coordinator for details on the appropriate choice of courses and the practicum (FMST 415).

FILM PROGRAM

The Department of Theatre, Film, and Creative Writing offers programs of study that lead to the degrees of Bachelor of Arts in Film Studies, Bachelor of Fine Arts in Film Production, and the Diploma in Film Production. For information on the Bachelor of Fine Arts program, see *Bachelor of Fine Arts*, p. 152. For information on the Diploma program, see *Diploma in Film Production*, p. 155. For information on graduate programs, see *Film Studies*, p. 250 in the Graduate Studies section. The Film Program also collaborates with Asian Studies and Canadian Studies. For details about current offerings, consult the Film Program website (www.film.ubc.ca).

Major in Film Studies

FIRST AND SECOND YEARS

Students are required to take the following courses: FILM 100, 200, 210, and 220.

THIRD AND FOURTH YEARS

Students should take at least 30 credits from the following list of courses:

FILM 331, 332, 334, 336, 338, 430, 432, 434, 436, 438; ASIA 354; ITST 432; MUSC 345; SCAN 411; SLAV 307; SPAN 404. Other courses may be approved by the Major advisor.

Minor in Film Studies

FIRST AND SECOND YEARS

As for Major.

THIRD AND FOURTH YEARS

Students should take at least 18 credits from the following list of courses: FILM 331, 332, 334, 336, 338, 430, 432, 434, 436, 438; ASIA 354; ITST 432; MUSC 345; SCAN 411; SLAV 307; SPAN 404. Other courses may be approved by the Minor advisor.

FIRST NATIONS LANGUAGES

The FNLG program is part of UBC's commitment to community-based collaboration with First Nations peoples, in recognition of the vital importance of the First Nations languages of British Columbia and of the cultural traditions they represent. In all, there are 26 extant First Nations languages in British Columbia, belonging to eight genetically distinct language families. Each of these is seriously threatened. The loss of any one of these languages, which have persisted for millennia being passed from generation to generation as rich and vibrant oral traditions, would constitute an irreplaceable loss not only to the First Nations communities whose linguistic heritage is at risk, but also to both science and humanity at large.

Through partnership with the Musqueam Indian Band, the Faculty of Arts' First Nations Languages (FNLG) program offers a four-year sequence of university-level classes in the traditional language and cultural heritage of the Musqueam (Coast Salish) people, on whose ancestral territory UBC is situated. All classes are held at the Musqueam Indian Reserve, and are taught in collaboration with members of the Musqueam community. As well, classes in Nle'kepmxcin (Thompson River Salish) and Kaska (Northern Athapaskan) are also currently offered. Through special arrangement, other First Nations languages or language credit may also be available.

FNLG courses are of particular interest to students in Anthropology, Canadian Studies, Ethnic and Intercultural Studies, First Nations Studies, Linguistics (see Major/Minor in First Nations Languages and Linguistics), Museum Studies, and the Native Indian Teacher Education Program (NITEP).

For further information, please contact:

Dr. Patricia A. Shaw, Director
First Nations Languages Program
Faculty of Arts
Tel: 604-822-6481 or 604-822-2512
Email: shawpa@interchange.ubc.ca

FIRST NATIONS STUDIES

The Interdisciplinary Major and Minor programs in First Nations Studies are available to students wishing to learn more about the histories, cultures, and contemporary circumstances of Aboriginal peoples in Canada. Students in the Major will pursue specialized courses in the program and supplement these with courses chosen from an array of relevant offerings in other departments. Majors students are strongly advised to complete a double

major or a minor in a related area of study. Students in the Minor must complete FNSP 200 (6) and a further 18 credits in approved courses from at least three departments.

Requirements for the B.A. Degree Major

Students must have their plan of course studies approved by an advisor of the First Nations Studies Program.

100- AND 200-LEVEL

It is recommended that students take FNSP 200 (6) in second year. In planning the first and second years students should take into account the prerequisites for the 300- and 400-level courses they intend to take in subsequent years as well as the general requirements for the B.A.

300- AND 400-LEVEL

- FNSP 310 (3) Theory Seminar. Prerequisite or corequisite: FNSP 200;
- FNSP 320 (3) Methods Seminar. Prerequisite or corequisite: FNSP 200;
- FNSP 400 (6) Practicum/Advanced Research Seminar. Prerequisites: FNSP 310 and FNSP 320;
- an additional 18 300- and 400-level credits from an approved list as designated for a particular year by the Director of the First Nations Studies program. FNSP 433 (3/6) Directed Studies may be counted as part of the 18. However, it is available to selected students and only as resources permit;
- at least 6 further credits from the approved list at any level (100 to 400).

Minor

Students are required to take FNSP 200 (6) and 18 credits at the 300- or 400-level selected from an approved list as designated for a particular year by the Director of the First Nations Studies program. At least 6 further credits from the approved list at any level (100 to 400) are also required. Students must take their 300- and 400-level courses from three different departments (e.g., 3 credits of History, 6 credits of Anthropology, 9 credits of Linguistics). Students in the minor will be admitted to 300- and 400-level FNSP courses only if space permits.

FRENCH

The Department of French, Hispanic, and Italian Studies offers programs of study in French that lead to the degrees of Doctor of Philosophy, Master of Arts, and Bachelor of Arts. For information on graduate programs, see *French*, p. 252, in the Graduate Studies section.

In March, the Department produces its own booklets which give detailed information about the courses to be offered in the next academic year. Interested students should contact the Department's office (BuTo 797) for a copy of the relevant booklet, or visit the Department's website (www.fhis.ubc.ca).

Major in French

FIRST AND SECOND YEARS

Students must take: FREN 122, 123, 220, 221, 222, and 223¹.

THIRD AND FOURTH YEARS STUDENTS MUST COMPLETE:

- FREN 353, 370 and one of FREN 320, 321 or 330;
- 21 additional credits of 300- and 400-level French courses (excluding 341–344, 348–349), of which at least 15 must be from the 400-level.²

Honours in French

FIRST AND SECOND YEARS

Students must take: FREN 122, 123, 220, 221, 222, and 223.¹

THIRD AND FOURTH YEARS STUDENTS MUST COMPLETE:

- FREN 353, 370, one of 320 or 321 or 330, and 499;
- 36 additional credits of 300- or 400-level French courses (excluding 341 to 349), of which at least 21 must be from the 400-level.²

Minor in French

FIRST AND SECOND YEARS

Students must take: FREN 122, 123, 220, 221, 222, and 223.¹

THIRD AND FOURTH YEARS STUDENTS MUST COMPLETE:

- FREN 353, 370 and one of FREN 320, 321, 330;
- 9 additional credits of 300- and 400-level French courses (excluding 341 to 343, 345 to 349).²

¹ Students who have earned transfer credit for IB or AP French need not take FREN 122 or 123. Students who have earned transfer credit for AP French Literature need not take FREN 220 or 221. Students who have completed French 12 (Français langue 12) with high academic standing in secondary school may take FREN 224 (3) and FREN 225 (3) in place of all of FREN 122, FREN 123, FREN 222, and FREN 223. Other students seeking advanced placement should speak with a departmental advisor and should take the appropriate placement test, available on the Department's website (www.fhis.ubc.ca).

² 300- and 400-level courses may be taken by students in any year of their program, provided that the prerequisites for individual courses have been satisfied.

GEOGRAPHY

The Department of Geography offers programs of study that lead to the degrees of Doctor of Philosophy, Master of Arts, Bachelor of Arts, Master of Science, and Bachelor of Science. See the Faculty of Science for information regarding the Bachelor of Science and Atmospheric Science, a program offered cooperatively by the Departments of Geography and Earth and Ocean Sciences. For information on graduate programs, see *Geography*, p. 253, in the Graduate Studies section. The Department also collaborates with Archaeology, Canadian Studies, Arts Studies, European Studies, International Relations, Latin

American Studies, Urban Studies, and Women's Studies.

In March, the Department circulates its own booklet, *A Guide to Geography*, which gives detailed information about the programs offered by the Department. It also produces a guide for *Geography Graduate Courses*. Interested students should contact the Department for copies. Details about current offerings and course information can also be found on the departmental website (www.geog.ubc.ca).

Major in Geography

FIRST AND SECOND YEARS

Students must take at least 6 credits from: GEOG 121, 122, 210, and 290; and at least 6 credits from GEOG 101, 102, 103, 200, 204, 205, and 207.

Students intending to major in Geography with an emphasis on environmental studies should take: GEOG 101 (or 102 and 103), 200 or 204, 205, 207, 210, and 6 credits of mathematics. Students intending to emphasize economic or urban geography should take 6 credits of mathematics.

THIRD AND FOURTH YEARS

30 credits of Geography courses numbered 300 and above, as follows:

- 6 credits from methodology and techniques courses: GEOG 345, 370, 371, 372, 373, 374, 376, 379, 471, 472, 475;
- 3 credits from courses on major world regions: GEOG 380, 391, 395, 496;
- 9 credits from courses on key themes in Geography¹: GEOG 31x, 32x, 35x, 36x;
- 3 credits from 400-level seminar courses². Must be taken in the student's fourth year; and
- 9 additional credits.

Honours in Geography

Unlike Geography departments in many other universities, the Department does not consider the Honours program the preferred route to graduate study in Geography at UBC. Students hoping to proceed to graduate studies should therefore consult a departmental advisor.

The Honours program in Geography differs from the Major in two respects: degree of specialization and standing, which must be at least 74% average of all courses taken (for entry and graduation).

Students who are interested in the Honours program should consult the Department before the end of their second year or at the beginning of their third year. Individual Honours programs require the approval of the Department. The total number of Honours students may be restricted to match available teaching resources.

FIRST AND SECOND YEARS

As for Major.

THIRD AND FOURTH YEARS

48 credits of Geography courses numbered 300 and above, as follows:

- 9 credits from methodology and techniques courses: GEOG 345, plus six credits from 370, 371, 372, 373, 374, 376, 379, 471, 472, 475;
- 3 credits from courses on major world regions: GEOG 380, 391, 395, 496;
- 9 credits from: GEOG 31x, 32x, 35x, 36x;
- 9 credits from Geography fourth-year seminar courses². Must be taken in the student's fourth year; and
- 18 additional credits.

Minor in Geography

FIRST AND SECOND YEARS

As for Major.

THIRD AND FOURTH YEARS

18 credits of Geography courses numbered 300 and above as follows:

- three credits from courses on major world regions: GEOG 380, 391, 395, 496;
- six credits from courses on key themes in geography: GEOG 31x, 32x, 35x, 36x; and
- nine additional credits.²

Undergraduate Courses

Students choose from the following courses:

- Introductory courses – GEOG 101, 102, 103, 121, 122, 200, 204, 205, 207, 210, 250, 270, 281, 290; URST 200;
- Major and Honours seminars – GEOG 345, 440, 444, 446, 447, 448;
- Technique and field courses – GEOG 270, 309, 371–374, 376, 379, 471, 472, 475;
- Regional courses³ – GEOG 380, 390, 391, 395, 481, 484, 485, 493, 494, 495, 496, 497, 499;
- Cultural-historical courses – GEOG 321, 327, 328, 329, 411, 422, 423, 424, 425, 426, 428;
- Courses on economic geography – GEOG 360, 361, 362, 363, 460, 464, 468;
- Environmental courses – GEOG 310, 311, 312, 315, 316, 317, 318, 319, 410, 411, 412, 423, 497;
- Urban courses – GEOG 321, 331, 350, 352, 357, 450, 456, 457, 464, URST 400;
- Courses on Canada – GEOG 290, 327, 328, 426, 428, 497, 499; and
- Pacific Rim courses – 380, 395, 425, 468, 481, 484, 485, 494, 495.

The following courses have Science credit:

GEOG 101, 102, 103, 200, 204, 205, 207, 270, 300, 304, 306, 307, 308, 309, 370, 372, 373, 376, 401–409, 444, 449, 471, 472. Several courses in Geography involve field expenses. Students should check with advisors.

¹ The Department recommends that the courses on key themes in Geography be chosen from more than one of the four categories. Consult the course guide and the departmental advisor.

² Each year, several 400-level courses will be run as limited-enrolment seminars, with priority in registration for Honours and Major students in Geog-

raphy up to August 15. Some of these courses will be offered only in alternate years. For the current year's seminar offerings, please consult the third- and fourth-year course guide available from the Department of Geography Office.

³ Regional focus varies. See instructor.

GERMAN

The Department of Central, Eastern, and Northern European Studies (www.german.ubc.ca/) offers Honours, Major, and Minor programs in German Language. Courses are offered in German. For further information on these programs and other programs in Slavic and Scandinavian Languages and Literatures and Modern European Studies, see *Central, Eastern, and Northern European Studies*, p. 129, or contact the Department for further details.

Major in German

FIRST AND SECOND YEARS

Students choose one of the following sequences depending upon their previous knowledge of the language:

- no previous knowledge: GERM 100, 110; 200, 210;
- with German 11 or 12, or with untutored knowledge: GERM 200, 210; or 300, 310; or 213, 313.

Students with secondary-school German or German-language background are required to contact the Department and to take a placement test before the beginning of classes. Students with a superior level of proficiency in German will replace 12 credits of language with German literature or cultural studies courses. In no case may a student take more than one German language course in the same semester as another, with the exception of GERM 314 (Business German).

THIRD AND FOURTH YEARS

Third and fourth years of the program require that students complete:

- GERM 300, 310; 400, 410;
- one of GERM 360/370; one of GERM 380/390; one of GERM 406/408;
- 3 additional credits from the above list of courses or from GERM 314, 401, 402, 405, 407, 420, 430;
- 6 credits from any of the above courses or, after consultation with the departmental advisor and from the A/B/C lists in the *Modern European Studies Undergraduate Handbook*, provided that the course(s) have a significant German component. Note: These 6 credits may, therefore, be in a language other than English.

Students with advanced proficiency in the German language may take credits towards the Major in first or second years.

FIRST AND SECOND YEARS (FOR STUDENTS WITH PREVIOUS KNOWLEDGE OF GERMAN)

Students choose one of the following sequences depending on their previous knowledge of the language:

- No previous knowledge: GERM 100, 110, 200, 210;

- With German 11 or 12, or with untutored knowledge: GERM 200, 210. Students with secondary-school German or German-language background are required to contact the Department and to take a placement test before the beginning of classes.

THIRD AND FOURTH YEARS (FOR STUDENTS WITH PREVIOUS KNOWLEDGE OF GERMAN)

Third and Fourth years of the program require that students complete:

- GERM 300, 310; 400, 410;
- one of GERM 360/370; one of 380/390; one of 406/408; and
- 9 additional credits from German courses 301 to 450 (excluding 339, 433, 434, 439, 449).

Honours in German

FIRST AND SECOND YEARS
As for Major.

THIRD AND FOURTH YEARS

Third and fourth years of the program require that students complete:

- GERM 300, 310; 400, 410;
- one of GERM 360/370; one of 380/390; one of 406/408;
- GERM 339 and 439;
- 9 additional credits from GERM 314, 401, 402, 405, 407, 420, or 430;
- students may submit a 6-credit Honours essay (GERM 449) in place of GERM 339 or any other 6 credits of senior work, aside from required courses;
- one university-level course in a language other than English or German;
- a course with significant German content chosen from lists A/B/C in the *Modern European Studies program handbook*. Note: This course may, therefore, be in a language other than English. See Honours advisor.

Students with an advanced proficiency in the German language may take credits towards the Honours in first or second years.

FIRST AND SECOND YEARS
(FOR STUDENTS WITH PREVIOUS
KNOWLEDGE OF GERMAN)
As for Major.

Minor in German

FIRST AND SECOND YEARS
As for Major.

THIRD AND FOURTH YEARS

Students must take 18 credits of senior courses in German (excluding GERM 339, 433, 434, 439, 449). Alternatively, up to 3 of these credits may be chosen, after consultation with the departmental advisor, from lists A/B/C in the *Modern European Studies Undergraduate Handbook*, provided that the course(s) have a significant German component. Note: these 3 credits may, therefore, be in a language other than English.

Students with advanced proficiency in the German language may take credits towards the Minor in first or second years.

GERMANIC STUDIES

See *Central, Eastern and Northern European Studies*, p. 129, and *German*, p. 136, for more information.

GREEK

See *Classics*, p. 130.

HEBREW

See *Religious Studies*, p. 148.

HINDI

See *Asian Studies*, p. 127.

HISPANIC STUDIES

The Department of French, Hispanic and Italian Studies offers undergraduate programs of study that lead to the Bachelor of Arts in Hispanic Studies. For information on graduate programs, see *Hispanic Studies*, p. 257, in the Graduate Studies section.

In March the Department produces its own booklets, which give detailed information about the courses to be offered in the next academic year. Interested students should contact the Department's office (Buto 797) for a copy of the relevant booklet, or should visit the French, Hispanic and Italian Studies (www.fhis.ubc.ca) website.

Major in Spanish

FIRST AND SECOND YEARS
Students intending to proceed towards a Major degree are required to take: SPAN 101, 102, 201, 202, and 220. (Students may take a placement test to determine their entry level.)

THIRD AND FOURTH YEARS

- SPAN 301, 302, 357, 358, 364 and 365; and
- 12 credits from SPAN 401 to 430, 450 to 490; PORT 392; RMST 420.

Minor in Spanish

FIRST AND SECOND YEARS
Students intending to proceed towards a Minor degree are required to take: SPAN 101, 102, 201 and 202. (Students may take a placement test to determine their entry level.)

THIRD AND FOURTH YEARS

Third and fourth years of the program require that students complete:

- SPAN 301 and 302
- at least six credits from SPAN 357, 358, 364, 365
- at least six credits from SPAN 321, 322, 401 to 430, 450 to 490, PORT 392, RMST 420.

HISTORY

The Department of History offers programs of study that lead to the degrees of Doctor of Philosophy, Master of Arts and Bachelor of Arts. For information on graduate programs, see *History*, p. 257, in the Graduate Studies section. The Department also collaborates

with Anthropology; Archaeology; Art History, Visual Art and Theory; Arts One; Canadian Studies; Critical Studies in Sexuality; Foundations; Geography; International Relations; Latin American Studies; Medieval Studies; Modern European Studies; Museum Studies; Nineteenth-Century Studies; Political Science; History and Philosophy of Science; Sociology; Women's Studies and Interdisciplinary Graduate Studies. For details about current offerings, consult the departmental website (www.history.ubc.ca).

Major in History

FIRST AND SECOND YEARS

Students must take 12 credits from any of the 100- or 200-level courses in History (which may include MDVL 200, WMST 205 and WMST 210), or the equivalent taken at other institutions.

Students who intend to Major in History are advised to include in their program some basic courses in the social sciences, and the appropriate historical surveys of:

- literature, in the various departments of language;
- thought, in the Departments of Philosophy, Classical, Near Eastern and Religious Studies, and Political Science; and
- the arts, in the departments of Art History, Visual Art and Theory; Theatre, Film and Creative Writing; and the School of Music.

THIRD AND FOURTH YEARS

Students must take 30 credits of third- and fourth-year History courses chosen in consultation with a departmental advisor. These 30 credits may include:

- up to 6 credits from CLST 311, 312, 331, 351, 353, 354, 355, 356
- and/or 6 credits from ASIA 418; ECON 334, 336, 437; GEOG 327 and 328, 426 and 428; MEDH 400 and 401.

A History Major may, in order to build a suitable program, obtain special permission from the Department to count a course other than one of those listed above. Students must take 6 credits of substantially pre-modern history. Courses at the 100- or 200-level may be used to meet this requirement. A list of courses with substantial pre-modern content is available from departmental advisors.

A 3-credit seminar (HIST 490) is open to History Majors in their fourth year. For information on the topic of the seminar, consult the *Upper-Division Course Guide* available in the Department or on the website.

Major in History and Philosophy of Science

The only requirement for admission is consultation with the advisor. In addition to Faculty requirements, the program requires the following:

FIRST AND SECOND YEARS (12 CREDITS)
Students must complete HIST/PHIL 260, and at least 9 credits of first and second year HIST or PHIL courses. The following are recommended: HIST 120, 150, 202, 215; PHIL 125, 220, 230, 240.

THIRD AND FOURTH YEARS

(30 CREDITS)

Students must complete HIST/PHIL 360. They must take an additional 18 credits from the following list, with no fewer than 6 credits in PHIL and 6 credits in HIST: HIST 423, 442, 455, 456, 487; PHIL 321, 362, 363, 427, 460, 461, 462, 464, 469. The remaining 9 credits will normally be taken from upper-division HIST or PHIL courses (excluding PHIL 400, 401). Students may substitute any of the following: BIOL 446; CLST 306; ENGL 309; GEOG 345; MATH 446; MATH 447; PHYS 340; PSYC 312.

Honours in History

The Honours program in History requires the successful completion of 132 credits, 72 of which are in History courses. Of these 72 credits, only 12 may be in 100- and 200-level courses. Students considering the Honours program should consult the History Honours advisor before the end of their first year.

FIRST AND SECOND YEARS

Students must take 12 credits from any of the 100- or 200-level courses in History (or the equivalent taken in other institutions) with an average of at least 80% in six of these credits. The 12 credits may include MDVL 200.

THIRD YEAR

Third year of the program requires that students complete:

- HIST 321, and 333
- HIST 322 or 12 credits of courses in History or related areas, chosen in consultation with the Honours advisor; and
- 6 credits outside the Department.

FOURTH YEAR

Fourth year of the program requires that students complete:

- HIST 421, 433, and 449
- 6 credits outside the Department; and
- an oral examination on the graduating essay.

Honours in History with International Relations

The History with International Relations Program requires the successful completion of 132 credits. Students considering this Honours program should consult the History Honours advisor before the end of their first year.

FIRST AND SECOND YEARS

First and second years of the program require that students complete:

- 12 credits from any of the 100- or 200-level courses in History with an average of at least 80% in 6 of these credits
- POLI 260
- prerequisites for courses to be taken in the upper years; and
- reading knowledge of French or a foreign language.

THIRD YEAR

Third year of the program requires that students complete:

- HIST 321 and 333

- 6 credits in History and
- in consultation with an advisor, 12 credits selected from courses listed in the International Relations Major program under the headings Asian Relations, International Economy and Development, International Security and Peace Studies, and Soviet and Eastern Europe.

FOURTH YEAR

Fourth year of the program requires that students complete:

- HIST 421 and 449
- HIST 432
- 6 credits elective; and
- an oral examination on the graduating essay.

Undergraduate Courses in History

- World History – HIST 101, 102, 103, 104, 105.
- Medieval, Renaissance and Reformation History – HIST 101, 102, 313, 360, 370, 372, 373, 374, 375, 376, 377, 378, 413, 470. See also *Medieval Studies*, p. 143.
- Modern European History – HIST 202, 215, 220, 306, 315, 316, 319, 334, 335, 400, 405, 406, 407, 425, 431, 432, 435, 438, 441, 442, 462, 463.
- Modern British History – HIST 310, 311, 415, 416, 417, 418, 419, 460.
- Canadian History – HIST 205, 235, 302, 303, 304, 307, 326, 329, 401, 404, 426, 427, 429, 430, 437, 442, 475, 485. For supporting courses, see *Canadian Studies*, p. 128.
- American History – HIST 201, 237, 327, 328, 330, 331, 332, 338, 428, 437, 444, 445, 446, 447.
- Asian History – HIST 170, 171, 270, 271, 380, 381, 382, 383, 384, 385, 386, 422, 423, 434, 480, 481, 482, 483, 484, 486.
- Latin American History – HIST 250, 252, 351, 352, 353, 354, 432, 450, 452, 454.
- International and Contemporary History – HIST 102, 103, 402, 403, 425, 432, 442, 448, 475, 487.
- Theory and Methodology – HIST 304, 490, 495.
- History of Science – HIST 260, 360, 455, 456, 487.
- Majors Courses¹ – HIST 490.
- Honours Courses² – HIST 321, 322, 333, 421, 433, 449.

Many of the courses classified as national or regional emphasize social themes.

Brochures are available from the Department describing in detail the courses offered each year in HIST 100 to 499 or visit the departmental website (www.history.ubc.ca).

¹ For Majors students only.

² For Honours students only.

INDONESIAN

See *Asian Studies*, p. 127.

INTERDISCIPLINARY STUDIES

The Interdisciplinary Studies (IDST) B.A. Program offers the independent, capable student a multidisciplinary alternative to the traditional, department-based Major. Students admitted to the program usually design their own cross-disciplinary course of study, and then consult with an IDST advisor to obtain approval. The Program may be appropriate as preparation for professional programs in Arts and in other faculties, including Elementary Education, Journalism, Law, Library/Information Studies, Medicine, Social Work and Architecture. The Program is distinct from departmental majors and honours programs, and students should note that further preparation may be required of candidates for Secondary Education and Graduate Studies. Students intending to apply to the Faculties of Dentistry or Medicine may also find it appropriate, but they are advised to note that these faculties require specific science courses for admission. The program may provide an appropriate route to further study in the creative and performing arts. It is administered by the IDST Board of Studies.

Admission

To be admitted to the Interdisciplinary Studies B.A. Program, students must have completed at least 54 and usually no more than 75 credits towards the Bachelor of Arts (students granted special permission to enter the program with more than 75 credits may be required to complete more than 120 credits to obtain their degree); obtained an overall average of at least 60% in all previous courses attempted towards the Bachelor of Arts; satisfied the first-year Faculty of Arts English requirement and have completed or have in progress the other Arts Faculty requirements; and obtained approval of their proposed course of study.

Applications will be evaluated three times a year, and must be received before the deadlines. Application forms and deadline information are available on the Interdisciplinary Studies website (www.interdisciplinary.arts.ubc.ca). Inquiries should be addressed to the Interdisciplinary Studies B.A. Program, Faculty of Arts, Room A201 Buchanan Building; telephone 604-822-4028.

Requirements

Acceptable disciplines and courses are classified by the Board into four categories: Humanities, Social Sciences, Creative and Performing Arts, and Sciences. Disciplines are as defined by the board and do not necessarily coincide with existing departmental divisions in the Faculty (e.g., courses in English and other “language departments” are allocated to either “Language,” or “Literature”, which constitute separate disciplines in the B.A. in Interdisciplinary Studies).

Students must complete:

- 1) at least 30 credits of 300/400-level course work in the Primary Category, including an 18-credit ‘primary concentration’ in one discipline; and

- 2) at least 12 credits of 300/400-level course work in the Secondary Category.

Students may complete no more than 18 credits of 300/400-level course work in any one discipline. However, students with at least a 75% average may, with approval, complete up to 24 credits in the Primary Category, in an individual program. Also students may include in their degrees up to 18 credits in courses outside the Faculties of Arts and Science. For IDST students, these courses may be included in Electives only. After completing 90 credits, students must consult with an assigned advisor and obtain specific approval of their remaining course work. For graduation, students must complete all Faculty of Arts requirements, including the English, literature, language, and science requirements.

Further information may be found on the Interdisciplinary Studies B.A. Program website (www.interdisciplinary.arts.ubc.ca). This program was formerly known as the General B.A. Program.

INTERNATIONAL RELATIONS

The International Relations (www.iir.ubc.ca/Programs.asp) program offers a Bachelor of Arts. Students who wish to study International Relations at UBC at the graduate level can do this as part of their program within an established department (e.g., the Departments of History or Political Science).

Students who want to go on to graduate work in International Relations after completing their Bachelor of Arts are advised to consider the special Honours programs in History (with International Relations) and in Political Science (with International Relations) or to make sure they have at least 24 credits of 300- and 400-level courses in one of the core disciplines (economics, history, political science).

Major in International Relations

Admission to the Major program in International Relations is not automatic. Students who do not have a sufficiently high average cannot be admitted to the Major.

Depending upon the number of applicants in a given year, an average of approximately 76% will be required for admission into the Major.

Admission is based on the average grade obtained for all post-secondary course work attempted. The average is calculated on at least 54 credits. To be eligible to apply to the IR program students need to have completed their first-year English requirement (6 credits) and one of the lower division required IR courses (ECON 101 or 102, ECON 255, HIST 125 or 150 or POLI 260). However, it is strongly recommended that students complete all of these courses before applying to the program. Students may complete their language requirements in their third or fourth year. Arts One and Foundations students can only count their English credits towards the IR program. They will, therefore, need to fulfil all of the lower division requirements.

Application forms will be available after January 1 from the International Relations Program Office (Buchanan C382).

Completed applications are due by May 15 prior to registration for third year. They should be handed in to the International Relations Program Office or mailed to International Relations Program, c/o Department of Political Science, C472-1866 Main Mall, University of British Columbia, Vancouver, BC, V6T 1Z1.

Applicants should arrange for transcripts from all post-secondary institutions they have attended, other than UBC, to be mailed to the above address.

Applicants will be notified by June 15 whether they have been accepted, rejected, or put on a waiting list.

All courses listed below are 6 credits unless otherwise indicated.

FIRST 60 CREDITS

The first 60 credits of the program require that students complete:

- ECON 101 and 102 (or ECON 310 or 311)
- ECON 255
- HIST 125 or 150¹
- POLI 260 (3); and
- 12 credits of one language other than English, in addition to the Faculty of Arts language requirement. The language can be the one used to satisfy the Faculty of Arts requirement carried to a higher level, or it can be an additional language.

While it is advisable to complete all of these requirements prior to the third year, it is permissible to complete some of them in the third year.

60 TO 120 CREDITS

A minimum of 33 credits in International Relations. These 33 credits must include the following:

- ECON 355² (3) or ECON 356 (3)
- HIST 425, HIST 432, or HIST 445 (3) and 446 (3)
- One of POLI 360 (3/6), 361 (3/6), 362 (3), 364 (3/6), or 367 (3/6)
- in their last 30 credits, students must take one of the required International Relations seminars. These are ECON 457 (3), HIST 402 (3), HIST 403 (3), the section of POLI 464 (3) reserved for International Relations Majors, or one of the other seminars that may be designated by the chair of the program. (A list of designated seminars for the following year will be available from the International Relations Program Office in the spring. These seminars are not available to third-year students. With permission of the chair of the International Relations Program, students are permitted to take more than one of these seminars.)
- 18 credits from the lists below. Of these 18 credits, at least either 12 credits must be from List 1 or 12 credits must be from List 2. The remaining 6 credits can be from Lists 1, 2, or 3.

¹ Arts One does not satisfy this requirement.

² The prerequisite for this course is ECON 101 and 102, or ECON 310 and 311.

For the purposes of the International Relations Major, no course can be double-counted, i.e., used to satisfy two requirements (e.g., if POLI 360 is used to satisfy the political science requirement (see above), it cannot be counted as part of these 18 credits).

- 1) International Diplomacy, Security, and Peace Studies
 - (a) ANTH 415
 - (b) ASIA 410 (3), 430 (3)
 - (c) CLST 331, 352 93), 353 (3), 354 (3), 355 (3), 356 (3)
 - (d) GEOG 316 (3), 329 (6)
 - (e) HIST 310 (3), 311 (3), 425, 430, 441 (3), 445 (3), 446 (3), 448 (3)
 - (f) POLI 329 (3), 333A (3), 334 (3), 360 (3/6), 361 (3/6), 362 (3), 363 (3/6), 364 (3/6), 367 (3/6), 369 (3/6), 370 (3/6), 373 (3), 374 (3), 460 (3/6), 461 (3), 462 (3), 465 (3)
 - (g) SOCI 360 (3/6), 461 (3/6)
- 2) International Economy and Development
 - (a) ANTH 330 (3), 360 (3)
 - (b) FRE 306(3), 340 (3), 420 (3), 475 (3)
 - (c) ECON 312 (3), 313 (3), 317 (3), 318 (3), 319, 334, 335 (3), 336, 339 (3), 341 (3), 342 (3), 343 (3), 351 (3), 355 (3) or 356 (3), 371 (3), 374 (3), 387 (3), 441 (3), 442 (3), 444 (3), 455 (3), 456 (3), 471 ((3), 472, 487 (3)
 - (d) GEOG 310 (3), 312 (3), 321 (3), 352 (3), 353 (3), 361 (3), 362 (3), 410 (3), 411 (3), 423 (3), 468 (3)
 - (e) HIST 423, 431
 - (f) FNH 355 (3)
 - (g) PHIL 335 (3), 435 (3)
 - (h) POLI 329 (3), 333A (3), 364 (3/6), 366 (3), 375 (3), 403 (3/6), 463 (3)
 - (i) SOCI 301 (3/6), 360 (3/6), 361 (3/6)
 - (j) WMST 403 (3), 405 (3)
- 3) Area Studies
 - (a) Africa – HIST 317 (3)
 - (b) Asia – ANTH 302 (3/6), 303 (3/6), 315 (3/6), 350 (3/6), 351 (3/6), 402 (3/6), 403 (3/6), 416 (3/6); ASIA 309 (3), 310 (3), 311 (3), 314 (3), 315 (3), 317 (3), 318 (3), 319 (3), 321 (3), 328 (3), 337 (3), 338 (3), 339 (3), 379, 418 (3), 422, 428 (3), 434, 438 (3), 480, 488 (3); ASIA 309 (3), 310 (3/6), 314 (3), 315 (3), 317 (3), 318 (3), 319 (3), 328 (3), 337 (3), 338 (3), 379 (6), 382 (3), 418 (3), 428 (3), 438 (3); GEOG 380 (3), 468 (3), 481 (3), 484 (3), 485 (3); HIST 342 (3), 380, 385, 389, 422, 434, 475 (3), 480, 482 (3), 483 (3), 486 (3); POLI 321 (3/6), 322 (3/6), 323 (3/6), 324 (3/6), 328 (3/6), 330 (3), 365 (3/6), 368 (3); SOCI 416 (3/6), 460 (3/6)
 - (c) Canada and the Americas – ANTH 353 (3); ECON 337 (3); GEOG 395 (3), 495 (3); HIST 328 (3), 332, 338, 351

(3), 352 (3), 353 (3), 354 (3), 437, 450 (3/6), 451 (3), 452 (3); LAST 301 93), 303 (3); POLI 320 (3/6), 332 (3/6)

- (d) Europe and Eurasia – GEOG 391 (3), 493 (3), 494 (3); HIST 324, 334, 406, 406, 407, 409 (3), 419 (3), 435, 438, 462 (3), 463 (3); POLI 325 (3), 326 (3), 327 (3)

Minor in International Relations

A Minor consists of at least 30 credits, but not more than 42 credits, selected from the courses listed as part of the International Relations Major, of which at least 18 must be numbered 300 or above. At least 9 credits of the following must be included among the courses taken: ECON 101 and 102 (or ECON 310 and 311), ECON 255, HIST 125 or 150, and POLI 260.

At least 18 credits of these International Relations courses must be outside the discipline in which the student is doing a Major. Students are also required to take at least 6 credits of a language other than English, in addition to the Faculty of Arts language requirement. The language can be the one used to satisfy the Faculty of Arts requirement carried to a higher level, or it can be an additional language. Students undertaking a Minor in International Relations do not need to submit an application or secure permission to do so. Language courses do not count toward the required 30 to 42 credits in International Relations.

Honours in International Relations

The International Relations program does not offer an Honours program. However, students wishing to do an Honours degree in International Relations can do so in conjunction with the Honours programs of the Departments of History or Political Science. Students must apply directly to one of these departments for admission into the Honours program during their second year.

Students may not count more than 60 credits of International Relations courses (i.e., required courses and those on Lists 1, 2, and 3 [see above]) toward the Bachelor of Arts. (Language courses do not count as part of these 60 credits.)

ITALIAN AND ITALIAN STUDIES

The Department of French, Hispanic and Italian Studies offers undergraduate programs of study in Italian that lead to the Bachelor of Arts.

Major in Italian

Currently the Department of French, Hispanic and Italian Studies does not offer a major in Italian.

Minor in Italian

FIRST AND SECOND YEARS
Students with Italian 11 or 12 or exposure to the Italian language or dialects must consult the Italian undergraduate advisor for placement in appropriate language courses. Students take ITAL 101–102 (or 103), 201–202 (or 203), or 342–343; ITST 231–232. RMST 220 is recommended.

THIRD AND FOURTH YEARS

Students choose at least 9 credits from List A (these must include one of ITAL 303–304) and at least 9 credits from list B.

Please check the departmental website (www.fhis.ubc.ca) and the Calendar for updated information on the Minor program.

LIST A: CORE COURSES
ITAL 301, 302, 303, 304, 401, 402, 420.

LIST B: SECONDARY CORE COURSES
ITAL 403, 404, 405, 408, 409, 430.

Note: Some 400-level ITAL courses may be cross-listed with ITST courses and be conducted in English, as follows: ITAL 403/ITST 413; ITAL 404/ITST 414; ITAL 405/ITST 415; ITAL 408/ITST 418; ITAL 409/ITST 419; ITAL 430/ITST 432.

Students who plan to minor in Italian must take these courses as ITAL and will be expected to do part of their reading and assignments in the Italian language.

Credit in ITAL will preclude credit in ITST and vice versa.

Note 2: Some 400-level ITAL courses may be cross-listed with ITST courses and be conducted in English, as follows: ITAL 403/ITST 413; ITAL 404/ITST 414; ITAL 405/ITST 415; ITAL 408/ITST 418; ITAL 409/ITST 419; ITAL 430/ITST 432. Students who plan to minor in Italian must take these courses as ITAL and will be expected to do part of their reading and assignments in Italian language.

Minor in Italian Studies

FIRST AND SECOND YEARS
Students must take at least 12 credits of Italian language, or equivalent. ITST 230 is recommended.

THIRD AND FOURTH YEARS
Students must take 18 credits of 300-level courses from the lists below. At least 6 must be chosen from List 1 and six from List 2.

- 1) ITST 310, 421, 431, 432; ITAL¹ 303, 304, 404, 405, 406, 407, 408, 420
- 2) CLST 331, 352, 353, 354; ARTH 331, 335, 336; HIST 313; MUSC 454, 455; RMST 420, 468.

¹ These courses require knowledge of Italian.

JAPANESE

See *Asian Studies*, p. 127.

KOREAN

See *Asian Studies*, p. 127.

LATIN

See *Classics*, p. 130.

LATIN AMERICAN STUDIES

Latin American Studies is an interdisciplinary undergraduate program administered by the Latin American Studies Program Committee. In consultation with a program advisor, students may complete a Major or a Minor in the program. Both the Major and the Minor allow students to construct truly interdisciplinary approaches to their programs, incorporating a

broad range of disciplines within Arts. Students who are considering pursuing graduate studies in another discipline after completion of the Bachelor of Arts are encouraged to complete at least a Minor in that discipline. Interested students should consult the more detailed booklets of current course offerings available from the Departments of Anthropology and Sociology (tel: 604-822-2878); Art History, Visual Art and Theory (tel: 604-822-2757); French, Hispanic, and Italian Studies (tel: 604-822-2879); Geography (tel: 604-822-2663); History (tel: 604-822-2561); or Political Science (tel: 604-822-2717).

Alternatively, students may take a Latin American Studies Thematic Option within the B.A. Program in Interdisciplinary Studies.

Major in Latin American Studies

The Major program is designed to give students a general knowledge of and strong interdisciplinary approach to the language, culture, society, geography, political systems and history of Latin America.

LANGUAGE REQUIREMENT

Students must complete the Faculty of Arts Language Requirement in Spanish (see *Language Requirement*, p. 121) and take SPAN 300. No 100- or 200-level Spanish language courses taken count towards the minimum of 42 credits required for the Faculty of Arts Major. Students with a previous knowledge of Spanish or Portuguese should consult a program advisor.

FIRST AND SECOND YEARS

Students take LAST 100 (3) and 9 credits from the following courses:

- ANTH 202 (3/6) or 232 (3)
- ARTH 261 (3)
- HIST 250 (3/6)
- LAST 201 (3)
- SPAN 320 (6)

THIRD AND FOURTH YEARS

SPAN 300 (6) is required. Students with a previous knowledge of Spanish for whom this requirement is waived are required to take 6 additional credits from the list below.

Students choose at least 24 credits from the list below or from other courses approved by the committee in any given year. A minimum of 3 credits must be taken in each of Anthropology, Art History, Visual Art and Theory, Geography, History, Political Science, Spanish or Portuguese literature.

The following list is not exhaustive nor will all the courses be offered in any one year. Some courses such as ANTH 332, 411 or GEOG 352 have variable course content. To make sure the content is Latin American in any given year, students are advised to consult the appropriate department.

- ANTH 323 (3), 332 (3), 353 (3), 403 (3/6), 411 (3)
- ARTH 342 (3), 370 (3), 371 (3), 372 (3), 373 (3), 463 (3), 465 (3), 440B (3)
- GEOG 395 (3), 495 (3)

- HIST 351 (3), 352 (3), 353 (3), 354 (3), 450 (3/6), 451 (3), 452 (3)
- POLI 332
- PORT 307 (6), 392 (3/6)
- SPAN 312 (3), 363 (6), 404 (3), 405 (3), 406 (3), 450 (3), 470 (3), 490 (3)

Minor in Latin American Studies

This is an interdisciplinary program intended to provide students with a broad exposure to the cultures, histories and languages of Latin America. Ideally, the Minor complements a Major in one of the participating disciplines that comprise Latin American Studies, but it can be combined with any Major program in Arts.

FIRST AND SECOND YEARS

Students take LAST 100 and 9 credits from the following courses:

- ANTH 202 or 203
- ARTH 261
- HIST 250
- LAST 201

THIRD AND FOURTH YEARS

Students take at least 18 credits of upper-level courses with Latin American content as listed for the Major (see above) in at least three of the following subjects (disciplines): Anthropology; Art History, Visual Art and Theory; Geography; History; Spanish; Portuguese. Courses selected for the Minor cannot also be counted towards the program requirements for a Major.

Thematic Option within the B.A. Program in Interdisciplinary Studies: Latin American Studies

Three distinct programs are available for a thematic option in Latin American Studies within the B.A. Program in Interdisciplinary Studies: Latin American Art; Latin American Literature; and Latin American History. Students will normally enter their Thematic Option program after completing their first 60 credits. Before entering the program they are required to complete either HIST 250 or ANTH 202 (when applicable) and 12 credits of Spanish or Portuguese.

Additional courses with Latin American content may be offered in any of the following fields: Anthropology, Art History, and Visual Art and Theory, Geography, History, Spanish and Portuguese, Political Science, and Sociology (see “Major in Latin American Studies” above).

Students interested in the Latin American Studies Thematic Option should contact the Office for the B.A. Program in Interdisciplinary Studies at 604-822-4067 for further information on the program.

LINGUISTICS

The Department of Linguistics offers programs of study that lead to the Doctor of Philosophy, Master of Arts and Bachelor of Arts, and the Diploma in Linguistics. For information on the diploma program, see *Diploma in Linguistics*, p. 155. For information on graduate programs, see *Linguistics*, p. 263, in the Graduate Studies section. The Department also collaborates with Canadian Studies, Cognitive Systems, English

(Language Emphasis), First Nations Languages and Medieval Studies. For current listings, see the Linguistics Department website (www.linguistics.ubc.ca).

Major in Linguistics

LANGUAGE REQUIREMENT

The Department of Linguistics language requirement for the Major in Linguistics is different from the general Language Requirement of the Faculty of Arts. Students who satisfy the Faculty requirement by completing a Grade 12 course in a language other than English may satisfy the Linguistics requirement either by taking an additional 6 credits in the same language or by taking 12 credits in a different language at UBC.

In addition, students may satisfy the Linguistics language requirement by demonstrating competence in a language other than those listed under the Faculty of Arts Language Requirement. In such cases, the student should contact the undergraduate advisor in the Department of Linguistics. Up to 6 credits of language courses taken toward the Linguistics language requirement may count towards the 42-credit total required for the Linguistics Major.

FIRST AND SECOND YEARS

LING 100 and/or 101 are recommended. LING 200 and 201 are required.

THIRD YEAR

All courses in List A are required.

THIRD AND FOURTH YEARS

At least 3 credits of the capstone course LING 447 “Topics”.

6 credits from List B are required.

9 additional credits chosen from List B, C or D are required. Courses from List D must be approved by the Linguistics undergraduate advisor. (Check course descriptions for prerequisites.)

List A: Core Courses

LING 300, 311, 316, 327

List B: Secondary Core Courses

LING 305, 317, 319, 431, 432, 447, 451, 452

List C: Senior-Level Courses in Linguistics

LING 430, 433, 436, 445, 448, 449

List D: Senior-Level Courses in Related Areas

ANTH 332, 401, 417

AUDI 400, 402, 403, 514

CPSC 322

EPSE 315, 399, 419, 424

ENGL 320, 321, 322, 323, 324, 326, 340

FREN 461, 462, 464, 465, 472, 473, 475

JAPN 420

LLED 478

PHIL 320, 321, 322, 323, 324, 420, 425, 426

PSYC 302, 304, 309, 315, 336, 337, 367, 368

SPAN 403

Note: Depending on the student’s program, the Linguistics undergraduate advisor may accept other courses.

Honours in Linguistics

FIRST AND SECOND YEARS

As for Major.

THIRD YEAR

Admission to third year requires at least a 76% average in the first and second years and a minimum 80% average in LING 200 and 201.

All courses in List A (above) are required.

THIRD AND FOURTH YEARS

Students take at least 3 credits of LING 447 and 15 credits from List B (above) and 18 additional credits from List B, C or D. Courses from List D must be approved by the Linguistics undergraduate advisor. (Check course descriptions for prerequisites.)

Minor in Linguistics

LANGUAGE REQUIREMENT

The Linguistics Major language requirement is not required for the Minor in Linguistics.

Courses that satisfy the language requirement for the Major in Linguistics can contribute up to 6 credits toward the 30 credits required for the Minor.

FIRST AND SECOND YEARS

LING 100 and/or 101 are recommended. LING 200 and 201 are required. (ENGL 329 is accepted as equivalent).

THIRD AND FOURTH YEARS

Students take additional courses in Linguistics and related fields to make a total of 30 credits.

These 30 credits must include:

- at least 6 credits from List A
- at least 6 additional credits from Lists A, B or C; and
- at least 6 additional credits from Lists B, C or D. Courses from List D must be approved by the Linguistics undergraduate advisor.

Major in Cognitive Systems: Language (B.A.)

For a program description and admission requirements see *Cognitive Systems (Arts)*, p. 130.

First Year

CPSC 111, 121 (or 122, 128)	8
ENGL 100-level ¹	6
MATH 100 or 102 or 104	3
PSYC 100 (or 101 and 102)	6
Electives ¹	9
Total credits	32

Second Year

COGS 200	3
LING 200, 201 ²	6
PHIL 220	3
PSYC 217, 218	6
Electives ¹	12
Total Credits	30

Third and Fourth Years

COGS 300, 401, 402	9
LING 300 or 311 or 316 or 327	3
PHIL 425, 451	6
12 credits from: LING 300, 305, 311, 316, 317, 319, 327, 431, 432, 447, 451, 452	12

Third and Fourth Years (Continued)

9 credits from: PSYC 302, 304, 315, 336, 337, 365, 367; CPSC 216 ³ , 220 ³ , 312, 322, 444; EECE 251 ³ , 253 ³ , 321, 359; PHIL 426, 441; ANTH 417	9
Electives ^{3,4}	21
Total credits	60

¹ Students enrolled in the 24-credit Foundations course should take 9 credits of the required first-year courses in their first year and the remaining 6 credits in their second year. Students enrolled in the 18-credit Arts I should take 12 credits of required courses in the first year and the remaining credits in the second year.

² ENGL 329 (6) can be substituted for LING 200 (3) and LING 201 (3).

³ At least 48 credits of 300 or above courses are required for the B.A. degree. Cognitive Systems students who take CPSC 216, 220 and/or EECE 251, 253 must design their overall program to fit these requirements.

⁴ Electives may be selected from the lists containing required courses.

Major in First Nations Languages and Linguistics

FIRST AND SECOND YEARS

Students take FNLG 100 and 200 and LING 100, 101, 200 and 201. (FNLG 100 and 200 must both be in the same language; see *First Nations Languages*, p. 135 for information.

THIRD AND FOURTH YEARS

All courses in Lists J, K and L are required. 12 credits from List M are required.

List J: Core Linguistics Courses

LING 300, 311

List K: Field Methods Courses

LING 431, 432

List L: First Nations Linguistics Courses

LING 433, 436

List M: Senior-Level Courses in Linguistics

LING 305, 319, 327, 445, 447

RECOMMENDED COURSES

The following courses in other departments are particularly recommended: ANTH 100, 220, 221, 304, 329, 401, 431; ARTH 376; FNLG 300, 448; GEOG 426; HIST 135, 302; MUSC 328; POLI 406.

Of the total of 120 credits required for a B.A. up to 18 credits of coursework may be taken outside the Faculty. Recommended options include EDUC 140, 240, 342, 441, 442.

Major in First Nations Languages and Linguistics with a Minor in Linguistics / Major or Honours in Speech Sciences with a Minor in Linguistics

Because there is substantial Linguistics content in the First Nations Languages and Linguistics and in the Speech Sciences majors, students from these programs who wish to receive a Minor in Linguistics must meet the following requirements in addition to the standard requirements for the minor.

The 30 credits presented for the Minor in Linguistics must include:

- all courses in List A and
- at least 6 credits from Lists B, C or D that are not included in the credits counted

toward the Major in First Nations Languages and Linguistics or the Major or Honours in Speech Sciences.

Minor in First Nations Languages and Linguistics

Students take 30 credits selected from the courses listed for the Major in First Nations Languages and Linguistics including FNLG 100 and 200 (in the same language), or equivalent experience with a First Nations language and 18 credits from Linguistics courses numbered 300 and above including:

- LING 300 or 311
- 3 credits from List K; and
- all of List L
- Recommended options include EDUC 140, 240, 342, 441, 442.

Major in Speech Sciences

Students majoring in Speech Sciences should be aware that North American graduate programs in Speech Pathology and Audiology have varying prerequisites, and that a Bachelor of Arts with a Major in Speech Sciences from UBC will not necessarily qualify them for immediate admission to a graduate program. Students should investigate prospective graduate schools and consult the Linguistics undergraduate advisor early in their program. See *The School of Audiology and Speech Sciences*, p. 161, for the required prerequisites for the two-year Master's program. Note that AUDI 514 is recommended and regularly open to qualified undergraduates.

FIRST AND SECOND YEARS

LING 100 is recommended. LING 200 and 201 are required; PSYC 100 or both PSYC 101 and 102 are required; and both PSYC 217 and 218 are required. PHYS 341 is recommended.

THIRD AND FOURTH YEARS

Students take all courses from List E and F, 3 credits from List G, and 12 additional credits from Lists G or H.

List E: Core Courses

LING 300, 311, 316, 317

List F: Secondary Core Linguistics Courses

LING 447

List G: Secondary Core Speech Science Courses

LING 451, 452

List H: Senior-Level Speech Science Courses

AUDI 402; LING 447; PSYC 302, 304, 309, 315, 336, 337, 367, 368.

Other Recommended Mathematics and Science Courses

BIOL 110 or 115, MATH 099 are recommended.

Honours in Speech Sciences

FIRST AND SECOND YEARS

As for the Major.

THIRD YEAR

Admission to third year requires a minimum average of 76% in the first and second years and an 80% average in LING 200 and 201.

THIRD AND FOURTH YEARS

Students take the following:

- all courses in Lists E, F and G (above)
- 15 additional credits from List H and
- 12 additional credits from List H or from Linguistics courses numbered 300 or above.

Minor in Speech Sciences

FIRST AND SECOND YEARS

LING 200 and 201 are required. PSYC 100, or 101 and 102, and 217 and 218 are recommended.

Note: These courses provide the preferred prerequisites for most upper-level Speech Sciences courses. See individual course listings for details.

THIRD AND FOURTH YEARS

Students take additional courses chosen from the Speech Sciences Major lists to make a total of 30 credits. These 30 credits must include:

- LING 316 and 317
- at least 6 credits chosen from AUDI 402, LING 451, 452; and
- at least 6 additional credits chosen from List H.

MATHEMATICS

The Department of Mathematics (www.math.ubc.ca) offers programs of study that lead to the Doctor of Philosophy, Master of Arts, Master of Science, Bachelor of Arts and Bachelor of Science. For information on the Bachelor of Science, see *The Faculty of Science*, p. 383. For information on graduate programs, see *Mathematics*, p. 264, in the Graduate Studies section.

Major in Mathematics

The Department offers a large selection of courses in various areas of pure and applied mathematics which require various levels of mathematical sophistication. B.A. programs combining Mathematics with another subject such as Economics, English, Linguistics, Music, or Philosophy, are encouraged. The student is advised to consult a Mathematics Major advisor in order to design a coherent program of study suitable to the student's interests and abilities.

FIRST AND SECOND YEARS

In addition to Faculty requirements, students complete:

- MATH 100 or 102 or 104 or 180 or 184 or 120¹;
- MATH 101 or 103 or 105 or 121;
- MATH 200 (or 226);
- MATH 220²;
- MATH 221 or 223, and 215²; and
- CPSC 111/211 or CPSC 111/MATH 210.¹⁰

THIRD AND FOURTH YEARS

In addition to Faculty requirements, students complete 24 credits of Mathematics courses numbered 300 and above, and 6 credits of Mathematics, Statistics, or Computer Science courses numbered 300 or above.

Recommendations

The Department makes the following recommendations:

- 1) Mathematically able students are encouraged to take the Honours stream MATH 120, 121, 223, 226, and 227.
- 2) Numerical analysis courses in Computer Science (CPSC 302, 303, 402, 403) require completion of CPSC 111. Other upper-level Computer Science courses useful to mathematics students require completion of CPSC 211 and 221.
- 3) In second year, MATH 221 should be taken in Term 1. It is possible to take (with appropriate prerequisites) some of MATH 307, 308, 312, 317, 340 and MATH/STAT 302, as well as MATH 300, in Term 2.
- 4) Students interested in pursuing statistics to some depth should take STAT 200 and MATH/STAT 302 in second year. This will prepare them for more advanced Statistics courses such as STAT 305, 306, 404, and 405.
- 5) Majors students should consider taking some of MATH 300, 320, 322.
- 6) MATH 302 and 307 are useful in many areas of mathematics.
- 7) Students interested in operations research should take MATH 340, 441, 442, and 443. They are also advised to take MATH 303, STAT 305 and 306, and some advanced Computer Science courses.
- 8) Students interested in teaching are advised to take MATH 308, 309, 312, 313, 414, 446.
- 9) Students interested in becoming actuaries can make substantial progress toward this career goal while majoring in mathematics or statistics. These students should consult the actuarial advisors in the Mathematics and/or Statistics Departments for detailed guidance on course selection and advice on taking the Society of Actuaries' examinations.
- 10) Students interested in the physical sciences should take MATH 317.
- 11) Students interested in economics should consider taking ECON 420 and 421, and should consult an advisor in the Economics Department for other appropriate economics courses. A Combined Major in Mathematics and Economics is available (see below).
- 12) In selecting electives, students should consider pursuing an area of application of mathematics in some depth. They should also ensure that they fulfil all the graduation requirements of the Faculty of Arts.

Combined Major in Mathematics and Economics

Admission to the program is subject to the admission restrictions and application process that pertain currently to the Major in Economics.

FIRST AND SECOND YEARS

In addition to Faculty requirements, students complete:

- ECON 101 and 102³
- MATH 104 (or 100 or 102 or 180 or 184 or 120)
- MATH 105 (or 101 or 103 or 121);
- ECON 206 and 207
- MATH 200 (or 226), 215, 220, 221 (or 223).

THIRD AND FOURTH YEARS

In addition to Faculty requirements, students take the following courses:

- ECON 306, 325⁴, 326
- MATH 320
- 9 additional credits of Economics numbered 300 or higher, of which at least 3 credits must be at the 400 or 500 level
- 9 additional credits of Mathematics numbered 300 or higher. Suitable electives include MATH 302, 303, 321, 402, 403, 418, 419 and 443.

Honours in Mathematics

FIRST AND SECOND YEARS

In addition to Faculty of Arts requirements, students complete:

- MATH 120 and 121 (or one of 100, 102, 104, 120, 180, 184 and one of 101, 103, 105, 121);
- MATH 223⁵ (or 221⁵) and 215;
- MATH 226 and 227 (or 200, 220, and 317); and
- CPSC 111/211 or CPSC 111/MATH 210.¹⁰

THIRD AND FOURTH YEARS

In addition to Faculty of Arts requirements, students complete:

- MATH 300, 320, 321, 322, and one of 412, 422 or 423;⁶
- 15 additional credits⁶ from MATH 400 to 405, 412, 416 to 429, 433 to 440, 443, 449;⁷ and
- 9 additional credits of Mathematics courses numbered 300 or above.

Students intending to enter the Honours program should consult a Honours advisor in the Department of Mathematics at the beginning of the second year. To be admitted to the Honours program, a student must obtain at least 68% in MATH 121, or 80% in MATH 101 or 103 or 105, and 80% average in MATH 100/101 or 102/103 or 104/105.

Students who intend to do graduate work in Mathematics should continue their study of French, German, or Russian beyond the level that fulfils the language requirement of the Faculty of Arts.

Combined Honours in Mathematics and Another Subject

FIRST AND SECOND YEARS

Students take mathematics courses as for Honours mathematics and other subjects as specified by the other department.

THIRD AND FOURTH YEARS

In addition to Faculty of Arts requirements, students complete:

- MATH 320 and 321⁷
- 6 credits⁷ chosen from MATH 300, 301, 316, 322, 331
- 12 credits^{7,9} chosen from MATH 400 to 405, 412, 416 to 429, 433–440, 443, 449; and
- other subjects as specified by the other department.⁸

¹ See *UBC-SFU-UVIC-UNBC Calculus Examination Certificate*, p. 16.

² One of MATH 220 or 215 may be delayed until third year. Students obtaining 68% or higher in MATH 226 are not required to take MATH 220.

³ Students can take ECON 307 and 3 additional credits of Economics numbered 300 or higher instead of ECON 101 and 102.

⁴ STAT 200 can substitute for ECON 325.

⁵ Students are advised to take these courses in first year.

⁶ A 68% overall average is required in these 30 credits to obtain an Honours degree.

⁷ A 68% overall average is required in these 24 credits to obtain this Honours degree.

⁸ See *Combined Honours Program*, p. 123, under "Program Requirements" in the Faculty of Arts.

⁹ MATH 449 is recommended.

¹⁰ MATH 210 may not be offered every year.

MEDIEVAL STUDIES

Students intending to specialize in Medieval Studies may do so either by taking an interdisciplinary Major program in Medieval Studies, or by completing a Major program in a particular department of the Faculty of Arts, with outside electives taken from the courses listed below. (For permission to arrange this program consult the Medieval Studies advisor.) The prerequisite for the interdisciplinary program is 6 credits selected from: HIST 101, MDVL 200, or CLST 100. Other first- and second-year courses applicable to this program are CLST/PHIL 211 and 212, LATN 100, ENGL 230, MUSC 120, and RELG 202. Students should also develop the appropriate language skills as soon as possible.

For further guidance on the Major program and individual course offerings, the Committee for Medieval Studies prepares an annual brochure which is available from the Departments of Classical, Near Eastern, and Religious Studies; French, Hispanic, and Italian Studies; English; and History, or visit the Medieval Studies website (medievalstudies.arts.ubc.ca). Students should consult with the departments offering these courses and plan their third and fourth years at the same time, as not every course is offered every year.

The following are courses in Medieval Studies offered in the Faculty of Arts. All courses are 6 credits unless otherwise indicated.

- ARBC 300, 400, 420A (3)
- ARTH 331 (3), 332 (3), 333 (3), 334 (3), 335 (3), 351 B, 359 (3), 366 (3), 431 (3), 432 (3),
- CLST 331, 353 (3), 354 (3), 431 (3)

- ENGL 320, 340 (3/6), 343 (3)¹, 344 (3–12), 346 (3–6), 352 (3), 417 (3/6)
 - FREN 407 (3/6), 460 (3)², 465 (3)
 - GERM 360 (3)
 - HIST 313, 370, 371 (3), 372 (3), 373 (3), 374 (3), 375 (3), 376 (3), 377 (3), 378 (3), 381 (3), 382 (3), 384 (3), 387 (3), 431 (3), 470 (3)
 - ITAL 401 (3/6), 405 (3/6)
 - ITST 413 (3), 414 (3), 415 (3), 431 (3/6)
 - LATN 300, 305 (3/6)³
 - MDVL 301 (3), 302 (3), 440 (3/6), 449 (6/12)
 - MUSC 324 (3/6), 350 (3/6)⁴, 352 (3)
 - NEST 310 (3)
 - PHIL 310 (3/4), 311 (3/4), 313 (3/4), 412 (3/4)
 - RELG 315 (3/6), 321 (3/6), 328 (3), 331 (3), 335 (3), 340, 341 (3/6), 408 (3), 448 (3)
 - RMST 220 (3), 420 (3)
 - SCAN 501 (3/6)
 - SPAN 357 (3), 410 (3)
- ¹ ENGL 340 is prerequisite.
² FREN 353 (3) is prerequisite.
³ LATN 200 or 300 is prerequisite.
⁴ MUSC 121 (3) is a prerequisite.

MODERN EUROPEAN STUDIES

Modern European Studies is an undergraduate interdisciplinary program administered by the Modern European Studies Steering Committee. For courses offered in a particular year, please consult the program brochure, website (www.german.ubc.ca), or chair Peter Petro (petro@interchange.ubc.ca).

FIRST AND SECOND YEARS

Students take one of HIST 120 (6) or 202 (6) or Arts One.

THIRD AND FOURTH YEARS

Students take at least 30 credits, including HIST 462 (3) and 463 (3) or another course in European history as designated for a particular year by the chair of the program.

At least 6 credits from each of Lists A (History), B (Social Sciences) and C (Literature and Culture) and the remainder from any of the lists are also required (see below).

LANGUAGE REQUIREMENT

Students are required to take 12 credits of a European language other than English, in addition to the Faculty of Arts language requirement. The language can be the one used to satisfy the Faculty of Arts language requirement carried to a higher level (with literature courses in that language counting as equivalent), or it can be another language. RMST 478 is also acceptable.

Students may not take more than 72 credits in courses at the 100 and 200 level. Students are advised to check course listings for prerequisites.

List A

HIST 316 (6), 324 (6), 335 (6), 400 (6), 405 (6), 406 (3), 407 (6), 408 (3), 416 (3), 417 (3), 419 (3), 438 (6), 441 (3), 461 (3)

List B

ECON 312 (3), 313 (3), 319 (3), 334 (3), 387 (3); GEOG 391 (3), 493 (3); PHIL 314 (3/4), 414 (3/6), 416 (3/6), 431 (3/4); POLI 326 (3), 327 (3), 341 (3/6), 343 (3), 346 (3); RELG 315; SOCI 302 (3/6), 350 (6), 461 (3/6).

List C

All courses in European literature since the Renaissance, including those in translation, and the following courses: ARTH 335 (3), 337 (3), 339 (3), 340 (3), 347 (3); FREN 334 (3/6); GERM 402 (3), 403 (3/6); ITST 230 (3/6), 432 (3/6); MUSC 354 (3), 430 (3/6), 450 (3/6), 455 (3); RUSS 306 (6), 410 (3/6); SCAN 411 (3); SLAV 307 (3/6); SPAN 320 (6); THTR 320 (6).

MUSEUM STUDIES

The Museum of Anthropology, in affiliation with the Department of Anthropology and Sociology, offers training in museum principles and methods for both undergraduate and graduate students. Theory is combined with practical experience provided in laboratory sessions and workshops. Core courses are ANTH 341, 431, 432, 451, 452, and 518. It is recommended that students take additional courses in museum-related subjects offered by this department or by other departments such as Asian Studies; Classical, Near Eastern, and Religious Studies; Art History, Visual Art, and Theory; History; and Archival Studies. Additional opportunities for tutorials, workshops, internships, and job training are offered to students by special arrangement.

Graduate work in Museum Studies may be pursued at the Master's or Doctor of Philosophy levels as a component of the degree programs in Anthropology or in combination with degrees in other disciplines such as Asian Studies; Classical, Near Eastern, and Religious Studies; Art History, Visual Art, and Theory; or History in accordance with the degree requirements of those departments. Students wishing to obtain a Master's Degree in *Critical Curatorial Studies*, p. 233, should apply through the Department of Art History, Visual Art, and Theory.

People already working in the museum community who wish to upgrade their knowledge and skills without entering a formal degree program or becoming full-time students should contact the Museum of Anthropology for information about course options. Admission to credit courses is subject to university regulations for admission as an unclassified student or auditor, and the permission of the instructor. For more information on the Museum Studies program, please consult the websites of the Department of Anthropology and Sociology (www.anso.ubc.ca) or the Museum of Anthropology (www.moa.ubc.ca).

MUSIC

The School of Music offers a Bachelor of Arts in Music designed for students interested in studying music as one of the liberal arts. The degree is also an alternative to the Bachelor of Music Major in Music Scholarship for students interested in graduate work in music theory, music history, or ethnomusicology. Students wishing to become professional performers, composers, or teachers should, if qualified, consider the appropriate Major in the Bachelor of Music program. The School also collaborates with Drama, Film Studies, Linguistics, Medieval Studies and Modern European Studies. For current offerings, consult the School's website (www.music.ubc.ca).

For the general course requirements of the Bachelor of Arts, see *Degree Requirements*, p. 120. For information on graduate programs, see *Music*, p. 268, in the Graduate Studies section.

There are no performance requirements for entry into the Bachelor of Arts in Music. Students who wish to register for ensembles must audition; they should contact the School of Music in mid-August to sign up for audition times.

Major in Music

FIRST YEAR

Students take MUSC 100, 101, 120, 121.

SECOND YEAR

Students take MUSC 200, 201, 220, 221.

THIRD AND FOURTH YEARS

When entering the Major program at the beginning of the third year, the student must draw up a plan of study for the last 60 credits of course work, in consultation with a School of Music advisor. Another review by an advisor must precede the final 30 credits.

Students must take a total of 60 credits, including:

- 30 credits of 300- or 400-level Music courses¹
- at least 12 credits of electives outside the subject of the Major.

Honours in Music

FIRST AND SECOND YEARS

As for Major.

THIRD AND FOURTH YEARS

Students take the following:

- 48 credits of 300- and 400-level Music courses¹ including MUSC 449 and at least 18 credits in music theory, music history, or ethnomusicology; and
- 12 credits of non-Music courses.

At least 54 credits must be at the upper level.

A minimum 68% average in each year is required.

The Honours program is open only to students who show special aptitude and the capacity to profit from working extensively in this field. The School may terminate a student's candidacy for Honours if, after a prescribed process of evaluation, it decides that an appropriate

level is not being maintained, at least a 68% average notwithstanding.

Minor in Music

FIRST AND SECOND YEARS

First and second years of the program require that students complete:

- MUSC 100, 101, and 200; and
- any two of MUSC 120, 121, 220, 221.

THIRD AND FOURTH YEARS

Students must take 18 credits at the 300 or 400 level.¹

¹ Any 300- or 400-level course in music history, music theory, ethnomusicology, or music composition, as well as MUSC 107 and 207, counts toward this requirement. Even though the ensemble courses in Music have 100 numbers, they will count as 300- or 400-level courses, and hence as part of the requirements for the Major, Honours, or Minor in Music, when taken in the third or fourth years. At most 8 credits of ensemble may be counted toward the Bachelor of Arts.

MYTH AND LITERATURE (CLASSICAL STUDIES)

See “Classical Studies” for information on *Myth and Literature in Greece, Rome, and the Near East*, p. 130.

NEAR EASTERN STUDIES

The Department of Classical, Near Eastern and Religious Studies offers programs leading to the Bachelor of Arts in Near Eastern Studies. For other Bachelor programs, see the listings for *Classical Studies*, p. 129, and *Classics*, p. 130 (including Greek and Latin) and *Religious Studies*, p. 148. For information on graduate programs, see *Classics*, p. 240, or *Religious Studies*, p. 277, in the Graduate Studies section. For information on current offerings, see the departmental website (www.cnrs.ubc.ca). The Department also collaborates in programs offered by Archaeology; Art History, Visual Art and Theory; Drama; International Relations; Italian and Italian Studies; Medieval Studies; Modern European Studies; Museum Studies; Philosophy; Religion, Literature and the Arts; Science Studies; and Women’s Studies.

Major in Near Eastern Studies

42 credits as follows:

FIRST AND SECOND YEARS

- RELG 202 (6)

THIRD AND FOURTH YEARS

(36 credits)

(A) 18 credits of the following:

- NEST 301 (3), 302 (6), 303 (3), 304 (3), 310 (3)
- RELG 304(3), 305 (3), 306 (3), 308 (3), 313 (3), 314 (6), 340 (6), 341 (3/6), 385 (3)
- CNRS 316 (6).

(B) 18 additional credits from the list above, and/or the following:

- CLST 356 (3)
- RELG 302 (3), 309 (3), 310 (3), 311 (3), 403 (3), 407 (3), 408 (3), 414 (3), 448 (3), 449 (3), 475A (3/6)*, 485 (3)
- GREK 325 (6)

- HEBR 305 (6), 405 (6), 479 (3/12)
- ARAB 300 (6), 400 (6), 420 (3/6).

*Requires approval of department.

Honours in Near Eastern Studies

60 credits as follows:

FIRST AND SECOND YEARS

RELG 202 (6)

THIRD AND FOURTH YEARS

(54 credits)

(A) 30 credits of the following:

- NEST 301 (3), 302 (6), 303 (3), 304 (3), 310 (3)
- RELG 304 (3), 305 (3), 306 (3), 308 (3), 313 (3), 314 (6), 340 (6), 341 (3/6), 385 (3)
- CNRS 316 (6).

Honours students are encouraged to take courses in Hebrew, Arabic or New Testament Greek.

(B) 24 additional credits from the list above, and/or the following:

- CLST 356 (3)
- RELG 302 (3), 309 (3), 310 (3), 311 (3), 403 (3), 407 (3), 408 (3), 414 (3), 448 (3), 449 (3), 475A (3/6)*, 485 (3)
- GREK 125 (6)
- HEBR 305 (6), 405 (6), 479 (3/12)
- ARAB 300 (6), 400 (6), 420 (3/6).

* requires approval of department.

Honours students must take RELG 370 (Concepts and Methods) if their focus is Near Eastern Religion, myth, and textual traditions. This course will count as 6 of the 24 additional credits listed in (B) above.

Minor in Near Eastern Studies

30 credits as follows:

FIRST AND SECOND YEARS

RELG 202 (6)

THIRD AND FOURTH YEARS

(24 credits)

(A) 12 credits of the following:

- NEST 301 (3), 302 (6), 303 (3), 304 (3), 310 (3)
- RELG 304 (6), 305 (3), 306 (3), 308 (3), 313 (3), 314 (6), 340 (6), 341 (3/6), 385 (3)
- CNRS 316 (6).

(B) 12 additional credits from the list above, and/or the following:

- CLST 309 (3)
- RELG 302 (3), 309 (3), 310 (3), 311 (3), 403 (3), 407 (3), 408 (3), 414 (3), 448 (3), 449 (3), 475A (3/6)*, 485 (3)
- GREK 325 (6)
- HEBR 305 (6), 405 (6), 479 (3/12),
- ARAB 300 (6), 400 (6), 420 (3/6).

*Requires approval of department.

Archaeology and History of Greece, Rome and the Near East

For information on the Major, Minor and Honours programs in Archaeology and History of Greece, Rome and the Near East see *Classical Studies*, p. 129.

Myth and Literature in Greece, Rome, and the Near East

For information on the Major, Minor and Honours programs in Myth and Literature in Greece, Rome, and the Near East see *Classical Studies*, p. 130.

NINETEENTH-CENTURY STUDIES

The Nineteenth-Century Studies Minor allows students to enrich their understanding of their Major by studying relationships among intellectual, cultural, literary, social, and political discourses of the nineteenth century. The program incorporates courses from several departments and offers an interdisciplinary approach to the study and interpretation of the nineteenth century.

Minor in Nineteenth-Century Studies

Students wishing to specialize in Nineteenth-Century Studies may take an interdisciplinary minor as part of their B.A. program. Students must take at least 18 credits of third and fourth year courses drawn from the approved lists of courses maintained by the Nineteenth-Century Studies Coordinating Committee. Relevant courses not on the approved list may be accepted with the permission of the program advisor.

The courses must reflect disciplinary breadth as well as a focus on the nineteenth century. A detailed description of the program, the lists of approved courses, and other information are available from the program’s brochure and website (www2.arts.ubc.ca/projects/nissc). Contact the Arts Academic Advising Office, telephone 604-822-4028 for the name of the current program advisor.

PHILOSOPHY

The Department of Philosophy offers programs of study that lead to the Doctor of Philosophy, Master of Arts and Bachelor of Arts. For information on graduate programs, see *Philosophy*, p. 273, in the Graduate Studies section. The Department also collaborates with Economics, Linguistics, Medieval Studies, Modern European Studies and Science Studies. Current offerings are posted on the Department’s website (www.philosophy.ubc.ca).

Major in Philosophy

Students must take at least 42 credits (and no more than 60 credits) in Philosophy, subject to the following requirements:

FIRST YEAR

6 credits from PHIL 100 (6), 120 (3), 125 (3), 211 (3), 212 (3), 260 (3) or Arts One are recommended.

SECOND, THIRD AND FOURTH YEARS

Second, third and fourth years of the program require that students complete:

- 15 credits from: PHIL 220, 230, 240, 330, 340
- 6 credits of 300-level history of Philosophy from PHIL 310, 311, 314, 315 and
- an additional 18 credits from third- and fourth-year Philosophy courses (excluding PHIL 400, 401) or ASIA 371, 372 to provide a total of at least 30 third- and fourth-year credits (including the third-year credits required above). No more than 6 credits of ASIA 371 (3), 372 (3), may be counted toward the required 30 third- and fourth-year credits, except with the permission of the Department.

Combined Major in Philosophy and Economics

For Economics course and program changes that may not appear in the Calendar, check the Department's website (www.philosophy.ubc.ca).

Admission to the program is subject to the admission restrictions and application process that pertain currently to the Major in Economics. In addition to Faculty requirements, the program has Economics and Philosophy requirements.

ECONOMICS REQUIREMENTS

Students take an 18-credit core plus ECON 490 and 9 credits of electives in Economics of which at least 3 credits must be at the 300/400-level. The 18-credit core consists of ECON 101, 102, 301 (or 304 or 201 or 206), 302 (or 305 or 202 or 207), 325 and 326. Students are strongly advised to take ECON 318 and ECON 319 (equivalent to PHIL 362 and PHIL 363).

PHILOSOPHY REQUIREMENTS

Students take an 18-credit core plus 12 credits of electives at the 300/400 level. The elective credits may not (except with departmental permission) include PHIL 400, 401, or more than 6 credits of ASIA 371, 372. The 18-credit core consists of PHIL 220, 230, 240, 330 and 340 plus 3 credits of history of philosophy from PHIL 310, 311, 314 or 315.

Combined Major in Philosophy and Political Science

Admission to the program is subject to the admission restrictions and application process that pertain currently to the Major in Political Science. In addition to Faculty requirements, the program has Philosophy and Political Science requirements.

PHILOSOPHY REQUIREMENTS

Students take an 18-credit core plus 12 credits of electives at the 300/400 level. The 18-credit core consists of PHIL 230, 240, 330, 340, and any two of the following: PHIL 335, 338, 431, and/or 461. Students may use any 300 or 400 level philosophy courses to fulfill their elective requirements excluding PHIL 400 and 401.

POLITICAL SCIENCE REQUIREMENTS:

Students take an 18-credit core plus 12 credits of electives at the 300/400 level. The 18-credit core consists of POLI 100, 101, 240, 340 (6), and 380. (Students who have completed the

Foundations Program will be exempted from the requirement of POLI 100.)

Honours in Philosophy

Students are encouraged to apply to the Department for admission to the Honours program by the end of their second year. Applicants are normally expected to have obtained a grade of at least 80% in at least two of PHIL 220, 230 or 240. A recommendation from a Philosophy instructor is also required.

For an Honours degree a student must complete at least 60 credits (and no more than 72 credits) in Philosophy, subject to the following requirements.

FIRST YEAR

3 credits from PHIL 100 (6), 120 (3), 125 (3), 211 (3), 212 (3), 260 (3) or Arts One are recommended.

SECOND, THIRD AND FOURTH YEARS

Second, third and fourth years of the program require that students complete:

- 15 credits from: PHIL 220, 230, 240, 330, 340
- 6 credits of 300-level history of Philosophy from PHIL 310, 311, 314, 315
- 12 credits from: PHIL 390, 490; and
- an additional 24 credits from third- and fourth-year Philosophy courses (excluding 400, 401) or ASIA 371, 372 to provide a total of at least 48 third- and fourth-year credits (including the third- and fourth-year credits required above). No more than 6 credits of ASIA 371 (3), 372 (3) may be counted toward the required 48 third- and fourth-year credits, except with the permission of the Department.

Minor in Philosophy

Students must take at least 30 credits (and no more than 42 credits) in Philosophy. At least 18 of these credits must be in courses numbered 300 or above.

Major in History and Philosophy of Science

See *History*, p. 137.

POLITICAL SCIENCE

The Department of Political Science offers programs of study that lead to the Doctor of Philosophy, Master of Arts and Bachelor of Arts. Students wishing to enter the Major or Honours programs must make a written application to the Department prior to registering for their third year. See *Admission and Promotion*, p. 146. For information on graduate programs, see *Political Science*, p. 276, in the Graduate Studies section. The Department also collaborates with Canadian Studies, Economics, International Relations, Latin American Studies, Modern European Studies, Urban Studies and Women's Studies. For details about current offerings, consult the departmental website (www.politics.ubc.ca).

Admission and Promotion

Admission is not automatic to either the Major program or the Honours program in Political

Science. Students must submit a written application. Because there are a limited number of spaces, some applicants who satisfy the minimum prerequisites may not be admitted.

Students contemplating a Major or Honours program in Political Science are encouraged to seek information and advice from the Department at the end of their first year. Application forms will be available after February 1 from the Department of Political Science website (www.politics.ubc.ca). Completed applications are due by May 15 prior to registering for the third year. Applicants should arrange for transcripts from all post-secondary institutions they have attended, other than UBC, to be mailed to the Department office as promptly as possible.

Major in Political Science

Selection for admission to the Major program will be based on the average grade for all post-secondary work attempted to date toward the Bachelor of Arts, with the exception of 12 credits which may be excluded from the calculation. The average will be calculated on at least 48 credits, including all courses taken in Political Science, as well as 6 credits of first-year English. Depending upon the number of applicants in a given year, an average of approximately 70% will be required for admission into the Major.

Promotion to the fourth year of the Major program will be automatic for students in the third year of the program whose work meets university standards for continuing. For students not in the third year of the program, admission to the fourth year will be allowed for transfers from colleges or other universities or students at UBC who have performed well in Political Science courses in their third year but are not in the Political Science Major program. Selection of applicants from these categories will be based on overall standing (average) of the best 72 credits earned to date toward the Bachelor of Arts. These 72 credits must include all Political Science courses and 6 credits of first-year English.

Major students must take at least 42 credits but not more than 60 credits of Political Science in their overall 120 credits for the B.A. At least 30 of these Political Science credits must be in courses numbered 300 or above.

FIRST 60 CREDITS

Prospective Major students should complete POLI 101 and 240 and at least two from POLI 100, 220, and 260. Students are encouraged to complete these courses within their first 60 credits; they must complete at least 6 credits of Political Science before applying for admission to the Major program.

60 TO 120 CREDITS

Major students are required to complete POLI 380. Students who have not completed POLI 240 may substitute POLI 340 for POLI 240 (though they are still required to complete a total of 12 credits at the 100 and 200 level). In addition to these courses, they may take any Political Science course for which they have the prerequisites, provided that:

- they take at least 42 but not more than 60

credits of Political Science; and

- at least 30 of their Political Science credits are from courses numbered 300 or above.

Combined Major in Political Science and Economics

Please see *Economics*, p. 131, for further information on this major.

Combined Major in Political Science and Philosophy

See *Philosophy*, p. 146, for further details and requirements.

Honours Programs in Political Science

Students with a grade of 80% or above in at least one Political Science course and an overall GPA of at least 75% are encouraged to discuss the Honours program with a Political Science advisor and to consider applying. Although only a limited number of students can be accepted into the Honours program, all applications will be given serious consideration.

Promotion to the fourth year of the Honours program requires an 80% grade in at least one Political Science course during the third year, a minimum grade of 75% in POLI 390, and a 75% average overall in the third year.

Occasionally outstanding students from the third-year Major program may be admitted directly to fourth-year Honours.

Graduation in the Honours program normally requires an 80% grade in at least one Political Science course during the fourth year, a minimum grade of 75% in both POLI 490 and 491, and a 75% overall average in the final two years.

Students not meeting these standards but nevertheless satisfying all other university requirements for graduation will be awarded a B.A. in the Major program.

Honours students must complete at least 60 but not more than 72 credits of Political Science in their 120 credits for the B.A. At least 48 of these credits must be in courses numbered 300 or above.

FIRST 60 CREDITS

As for Major students.

60 TO 120 CREDITS

Honours students are required to complete POLI 340, 380, two semesters of 390 (12 credits in total), 490/491, plus at least 6 additional credits of Political Science seminars at the 400 level. Otherwise, they are free to take any Political Science courses for which they have the prerequisites, so long as they take at least 60 but not more than 72 credits of Political Science, and at least 48 of their Political Science credits are from courses numbered 300 or above.

Honours in Political Science with International Relations

See *Admission and Promotion*, p. 146, and *Honours Programs in Political Science*, p. 147. A student in this program completes all the requirements for an Honours degree in Political Science plus most of the requirements of the

International Relations Major. This program leaves minimal room for electives. It is administered by the Department of Political Science (not by the International Relations Program), and students must apply directly to the Department of Political Science for admission. Because of the extensive requirements of this program, students may wish to consider the alternative of Honours in Political Science with a Minor in International Relations.

FIRST 60 CREDITS

Students take the following courses:

- POLI 101 and 260, plus one other 200-level Political Science course
- ECON 101 and 102
- HIST 125 or 150
- 12 credits of a language other than English, in addition to the Faculty of Arts language requirement. The language may be the one used to satisfy the Faculty of Arts requirement carried to a higher level, or it may be an additional language. This requirement may be completed in the third and/or fourth year.

60 TO 120 CREDITS

Students take the following courses:

- POLI 340, 380, 390, 490, 491
- 12 credits from: POLI 360–373, 460–466, of which at least 3 must be from 460–464, 466.
- ECON 355
- HIST 430 or 432

Minor in Political Science

A Minor consists of at least 30 credits, but not more than 42 credits of Political Science courses, of which at least 18 must be numbered 300 or above. POLI 101 must be included among the courses taken. Departmental permission is not required to undertake a Minor in Political Science.

Courses by Field

By late May, the Department provides detailed information concerning courses beginning the following September and January on its website www.politics.ubc.ca. Students should consult this website before choosing courses.

- Political Theory – POLI 240, 305, 340, 342, 344, 345, 346, 347, 440, 442, 444, 446, 521, 522, 523
- Public Policy – POLI 302, 350, 351, 352, 404, 531, 532, 533
- Canadian Government – POLI 101, 301, 303, 304, 305, 306, 307, 308, 401, 402, 403, 404, 405, 406, 501, 502, 503, 504
- International Relations – POLI 260, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 373, 374, 375, 460, 461, 462, 463, 464, 465, 466, 561, 562, 563, 564
- Political Behaviour – POLI 380, 381, 385, 551, 552, 553, 571, 572
- Comparative Government – POLI 220, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 420, 421, 422, 423, 424, 425, 426, 429, 511, 512, 513, 514, 515, 516

- General Courses – POLI 390, 490, 491, 549, 580, 649

PORTUGUESE

See *Hispanic Studies*, p. 257, in the Graduate Studies section or the Department of French, Hispanic and Italian Studies (www.fhis.ubc.ca).

PSYCHOLOGY

The Department of Psychology offers programs of study that lead to the Doctor of Philosophy, Master of Arts, Bachelor of Arts, and Bachelor of Science. For information about the Bachelor of Science, see *The Faculty of Science*, p. 383. For information on graduate programs, see *Psychology*, p. 276, in the Graduate Studies section. The Department also collaborates with Cognitive Systems, Linguistics (Speech Sciences), and Women's Studies. For details about current offerings, consult the Course Schedule on the Student Service Centre (www.students.ubc.ca/ssc).

Major in Psychology

Students are reminded that the Faculty of Arts requires at least 60 credits outside the Major for the Bachelor of Arts, and that the Department of Psychology requires at least 30 senior-level Psychology credits for the Psychology Major, and at least 48 senior-level Psychology credits for the Honours program. PSYC 340, 348, 440 or 448 may not be included for the minimum 30 Psychology credits required for the Major Program.

Students who are contemplating graduate studies or other research activities in psychology should consider taking PSYC 359 in addition to the above minimum requirements for the Bachelor of Arts.

FIRST AND SECOND YEARS

Students must complete:

- either PSYC 100 or PSYC 101 and PSYC 102
- PSYC 217 and 218.

THIRD AND FOURTH YEARS

Students must take a minimum of 30 credits in 300- or 400-level courses including:

1. At least 6 credits from one of the following two lists:
 - Biopsychology – PSYC 304, 306, 360, 361, 363, 364, 460, 461, 466, 467
 - Cognition/perception – PSYC 309, 333, 334, 336, 337, 365, 367, 368, 463
2. At least 6 credits from each of two of the following four lists:
 - Clinical/forensic/health – PSYC 300, 314, 350, 401, 430
 - Developmental – PSYC 302, 315, 319, 320, 322, 325, 412, 413, 414
 - Foundations/methods – PSYC 303, 312, 323, 359, 465
 - Personality/social – PSYC 305, 308, 321, 403, 407, 408, 415.

All students are encouraged to include fourth-year courses in their programs. In addition to providing greater depth, they provide an opportunity to work in smaller groups.

Honours in Psychology (B.A.)

The Honours program is designed to provide intensive and extensive preparation in psychology for outstanding students who intend to pursue graduate studies in Psychology.

Admission to the Honours program requires at least a 76% average in the second year and at least 80% in PSYC 217 and 218. Students failing to meet either of these criteria may petition for admittance into the program. All students enrolling in the Honours program must consult with the chair of the departmental Honours committee.

Graduation in the Honours program requires:

- a minimum of 120 total credits including 48 credits of Psychology courses numbered 300 or above, including several specified courses that are listed below, but no more than 6 credits total for PSYC 340, 348, 440, or 448.
- an average of at least 76% in the final 60 credits of study; and
- an average of at least 80% in at least 12 credits of Psychology courses numbered 300 or above.

FIRST AND SECOND YEARS

Students must complete:

- either PSYC 100 or 101 and 102
- PSYC 217 and 218
- BIOL 121 or BIOL 344.

THIRD AND FOURTH YEARS

Students must complete:

- a minimum of 30 credits taken concurrently in third year, including PSYC 312, 349, and 359
- a minimum of 30 credits taken concurrently in fourth year, including PSYC 449
- no more than 6 credits total from PSYC 340, 348, 440, 448; and
- at least 6 credits from four of the five content areas listed below:
 - at least 12 credits from:
 - Biopsychology – PSYC 304, 306, 360, 361, 363, 364, 460, 461, 466, 467
 - Cognition/perception – PSYC 309, 333, 334, 336, 337, 365, 367, 368, 463, 465
 - and at least 12 credits from:
 - Clinical/forensic/health – PSYC 300, 303, 314, 323, 350, 401, 430
 - Developmental – PSYC 302, 315, 319, 320, 322, 325, 412, 413, 414
 - Personality/social – PSYC 305, 308, 321, 403, 407, 408, 415.

All students are encouraged to include fourth year courses in their programs. In addition to providing greater depth, they provide an opportunity to work in smaller groups.

Minor in Psychology (BA)

FIRST AND SECOND YEARS

Students must complete:

- either PSYC 100, or 101 and 102
- PSYC 217 and 218

THIRD AND FOURTH YEARS

Students must take at least 18 but no more than 30 credits of 300- or 400-level Psychology courses, and may not count PSYC 340, 348, 440 or 448 toward the minimum requirement of 18 credits.

Major in Cognitive Systems: Cognition and Brain (B.A.)

For a program description and admission requirements, see *Cognitive Systems*, p. 130, (Arts).

First Year	
CPSC 111,121	8
ENGL 100-level	6
MATH 100 or 102 or 104	3
PSYC 100 (or 101 and 102)	6
Electives ^{1,2}	18
Total Credits	32

Second Year	
COGS 200	3
PHIL 220	3
PSYC 217, 218	6
Electives	18
Total Credits	30

Third and Fourth Years	
COGS 300	3
COGS 401, 402	6
PHIL 441, 451	6
PSYC 365	3
12 credits from: PSYC 304 ³ , 309, 333, 334, 336, 337, 360 ³ , 361, 363, 364, 367, 368, 412, 461, 463, 465; BIOL 353 ³ , 455, 458	12
Six credits from PHIL 320, 340, 440, 452, 461; CPSC 303, 312, 322, 422; LING 300, 316, 319, 327	6
Electives ^{2,3,4}	24
Total Credits	60

¹ Students enrolled in the 24 credit Foundations course should take PSYC 100 in their 1st year and MATH 100 and CPSC 111, 121 in their 2nd year. Students enrolled in the 18-credit Arts One should take PSYC 100 and 6 other credits of the required courses (CPSC 111, 121, MATH 100) in their 1st year and the remaining 3 credits in their 2nd year.

² No more than 72 credits can be in courses at the 100 or 200 level.

³ Credit will not be granted for more than one of PSYC 360, PSYC 304 and BIOL 353.

⁴ Some of these may be selected from the lists of courses from which required courses are taken.

PUNJABI

See *Major in Asian Language and Culture*, p. 128, under Asian Studies.

RELIGION, LITERATURE AND THE ARTS

To integrate many aspects of diverse religious traditions and the literary and artistic cultures in which they have functioned, the Major in Religion, Literature and the Arts is based on core courses and seminars and employs wide resources within the Faculty of Arts. The student must take the three RGLA seminars and a selection from the core list and then a

number of courses from the broader list in the program brochure, which is revised annually. The disciplines contributing to this extensive list each year could include Art History, Visual Art and Theory; Asian Studies; Central, Eastern and Northern European Studies; Classical, Near Eastern and Religious Studies; English; First Nations; French, Hispanic and Italian Studies; and Theatre, Film and Creative Writing.

Major in Religion, Literature and the Arts

Students must select their courses with the help of an advisor.

FIRST AND SECOND YEARS

First and second years of the program require that students complete:

- 6 credits from RELG 100, 202, 204 or 205 and
- 6 credits from ANTH 220; ASIA 100, 101, 200, 208, 209; CENS 201, 202; CLST 100, 211, 212; DRAM 200, 201; ENGL 220, 221, 230; ITST 230; RUSS 206, 207; THTR 120, 245.

THIRD AND FOURTH YEARS

Third and fourth years of the program require that students complete 33 credits, which must include:

- RGLA 371, 372 and 471
- 6 credits of Religious Studies courses numbered 300 and above; and
- 15 to 18 credits selected in consultation with a program advisor from the courses listed in the program brochure.

Minor in Religion, Literature and the Arts

FIRST AND SECOND YEARS

Students take the following courses:

- 6 credits from RELG 100, 202, 204 or 205; and
- 6 credits from ANTH 220; ASIA 100, 101, 200, 208, 209; CENS 201, 202; CLST 100, 210; DRAM 200, 201; ENGL 220, 221, 230; RUSS 206, 207; THTR 120, 200.

THIRD AND FOURTH YEARS

Students take 21 credits, which must include:

- 6 to 9 credits of RGLA 371, 372 and 471;
- 6 credits of Religious Studies courses numbered 300 and above; and
- 6 to 9 credits selected in consultation with a program advisor from the courses listed in the program brochure.

RELIGIOUS STUDIES

The Department of Classical, Near Eastern and Religious Studies offers programs leading to the Bachelor of Arts in Religious Studies (including *Archaeology and History*, p. 129, and *Myth and Literature*, p. 130). For other Bachelor programs, see the listings for *Near Eastern Studies*, p. 145, *Classical Studies*, p. 129, and *Classics*, p. 130 (including Greek and Latin). For information on graduate programs, see *Religious Studies*, p. 277, in the Graduate Studies section. For information on current offerings, see the departmental website

(www.cnrs.ubc.ca). The Department also collaborates in programs offered by Archaeology; Art History, Visual Art, and Theory; Philosophy; and Religion, Literature, and the Arts.

For details concerning current courses and programs, consult the departmental website (www.cnrs.ubc.ca).

Major in Religious Studies

FIRST AND SECOND YEARS

Students must take a minimum of 6 credits from RELG 100, 202, 204 or 205.

THIRD AND FOURTH YEARS

Students must take 36 credits to be selected from Religious Studies credits numbered 300 or above including NEST 310, the courses outside Religious Studies listed in the streams below, and canonical language courses (Arabic and Hebrew) or up to 12 credits of Greek and Latin from 100 and 200 levels.

Subject to the approval of the Department, a maximum of 12 credits of the following courses may be accepted for credit toward a Major in Religious Studies: ANTH 329, 415; ARTH 352, 353, 354, 355, 364, 365; ASIA 308, 379, 382, 383; CLST 305; ENGL 354, 417; HIST 372; ITST 310; MUSC 329, 350; PHIL 349.

Honours in Religious Studies

Students require a minimum of 6 credits from RELG 100, 202, 204 or 205 to be admitted to the Honours program in Religious Studies.

THIRD AND FOURTH YEARS

A program will be devised for each student, consisting of 54 credits and including a graduation essay (RELG 499). Subject to the approval of the Department, a maximum of 18 credits may be chosen from the list of courses outside the Department (see list in “Major in Religious Studies” above). NEST 310 and courses in Arabic and Hebrew, as well as up to 12 credits of 100- and 200-level Greek and Latin, may also be included.

Areas of Concentration for Majors and Honours

Students who intend to do graduate work are advised (but not required) to choose an area of concentration in the third and fourth years, and to acquire some proficiency in the appropriate canonical language(s). For languages other than Arabic, Hebrew, Greek, or Latin, see the listings of the appropriate departments.

- Asian Religions – RELG 204, 354, 364, 365, 366, 367, 368; ASIA 308, 341, 348, 352, 358, 371, 372, 378, 379, 382, 387, 388, 398, 488.
- Christianity (post-Biblical) – CNRS 316; RELG 205, 315, 320, 321, 323, 324, 325, 326, 327, 328, 385, 420, 449, 480, 485; ENGL 354; PHIL 385.
- Hebrew Bible and the Ancient Near East – RELG 202, 300, 304, 305, 306, 403; CLST 339; HEBR 305, 405, 479; NEST 301, 302, 303, 304.

- Islamic Studies – RELG 202, 340, 341, 420, 448, 449, 480, 485; ARBC 300, 400, 420; NEST 310.
- Judaic Studies – RELG 202, 309, 310, 311, 312, 313, 331, 332, 335, 336, 385, 407, 408, 409, 420, 480, 485; HEBR 305, 405, 479.
- Near Eastern Languages and Literature – RELG 202, ARBC 300, 400, 420; HEBR 305, 405, 479 and appropriate language courses from above on Hebrew Bible, Islamic Studies, and Judaic Studies.
- New Testament – RELG 202, 304, 305, 314, 414, 415, 485; GREK 325; CNRS 316

Minor in Religious Studies

FIRST AND SECOND YEARS

Students must take a minimum of six credits from RELG 100, 202, 204 or 205.

THIRD AND FOURTH YEARS

Students must take 24 credits to be selected from Religious Studies courses numbered 300 or above, NEST 310, or courses in Arabic and Hebrew.

Subject to the approval of the Department, a maximum of 6 credits from outside the Department may be accepted for credit toward a Minor in Religious Studies. The courses acceptable for such credit are listed above (see “Major in Religious Studies” above).

Archaeology and History of Greece, Rome, and the Near East

For information on the Major, Minor and Honours programs in Archaeology and History of Greece, Rome and the Near East see *Classical Studies*, p. 129.

Myth and Literature in Greece, Rome, and the Near East

For information on the Major, Minor and Honours programs in Myth and Literature in Greece, Rome, and the Near East see *Classical Studies*, p. 130.

ROMANCE STUDIES

The Department of French, Hispanic and Italian Studies (www.fhis.ubc.ca) offers a program of study in Romance Studies that leads to the Bachelor of Arts. For information on graduate programs, see *Hispanic Studies*, p. 257, in the Graduate Studies section.

Honours in Romance Studies

FIRST AND SECOND YEARS

Students must obtain a first- or high second-class standing in the courses taken in Romance languages. LATN 100 (or equivalent) is recommended.

THIRD AND FOURTH YEARS

Students must take 48 credits numbered 300 and above in at least two Romance languages, including a graduating essay.

RUSSIAN AND SLAVIC LANGUAGES AND LITERATURE

The *Department of Central, Eastern and Northern European Studies*, p. 129, offers a Minor in Russian Language. In addition, a fairly wide range of courses may be available in Russian and East European literatures and in the Ukrainian language, as well as a first-year course in Russian and Slavic cultures. Several courses are offered in Slavic literatures in translation, requiring no knowledge of a Slavic language. For the Minor in Russian, see the Department of Central, Eastern and Northern European Studies.

Courses that may be offered include:

- Language Courses – RUSS 100, 101, 102, 200, 215, 300, 315, 400, 401; UKRN 325
- Introductory Courses – Culture and Literature: SLAV 105
- Other Courses in Russian Literature – RUSS 305, 407, 408, 409
- Russian Literature in Translation – RUSS 206, 207, 306, 410, 411
- Slavic Literatures in Translation – SLAV 307

Literature courses in translation are designed for students who are interested in broadening their knowledge of literature. They are especially recommended for students majoring or honouring in language and literature departments, History, Political Science, Anthropology, Modern European Studies, Sociology, and Art History, Visual Art and Theory, but are also open to students from all other programs. These courses are of special interest to students planning to pursue literary and gender studies of a comparative nature.

Minor in Russian

FIRST AND SECOND YEARS

Students take RUSS 100 and 200 or equivalent.

THIRD AND FOURTH YEARS

Students take at least 18 credits from Russian language and literature courses numbered 300 and above.

SANSKRIT

See *Asian Studies*, p. 127.

SCANDINAVIAN LANGUAGES AND LITERATURE

Courses in Scandinavian languages, including Swedish and Danish, are offered. See *Central, Eastern and Northern European Studies*, p. 129.

SCIENCE STUDIES

Interdisciplinary Minor in Science Studies

The Interdisciplinary Minor in Science Studies is designed for students in the Faculty of Arts who would like to examine the history, philosophy, sociology, and discourse practices of the scientific disciplines.

The purpose of this program is to promote the study of scientific work and thought from a

variety of perspectives usually associated with the humanities and social sciences. Students will explore, for example, issues about the production and representation of scientific knowledge, the creation and maintenance of intellectual authority in the practices of the sciences, as well as relations between nature and culture. A background in science is not required, although curiosity about scientific matters is an asset. In consultation with an advisor, students should select 18 credits from the following courses, keeping in mind that some of them will have prerequisites. Students are advised to see a program advisor for information regarding courses offered in other faculties that will count towards the program. Also given below are a few lower division courses which are recommended but not required. Other courses may be included from year to year.

Recommended lower division courses: CLST/PHIL 211; HIST/PHIL 260; HIST 215, 216; PHIL 125, 220.

ANTH 400, 427, 432, 470; BIOL 442, 446; CLST 306; CPSC 430; ECON 318, 319; ENGL 307; GEOG 345, 440; HIST 360, 400, 442, 455, 456; MATH 446, 447; PHIL 360, 362, 363, 427, 460, 461, 462, 469; PSYC 312; SOCI 350, 400, 473, 484.

In any given year, there may be other courses appropriate for Science Studies. For a list of these, see an advisor.

Program advisors are Dr. Alan Richardson, Department of Philosophy, 604-822-3967 and Dr. Judy Segal, Department of English, 604-822-5652.

SLAVIC AREA STUDIES

Students wishing to focus on the Slavic area should major in a discipline (e.g., Economics, Geography, History, Political Science) and supplement their training by taking the *Minor in Russian Language*, p. 149, or by taking appropriate courses in Slavic languages and/or other Slavic Area Studies courses as their electives. Students planning to go on to graduate study will find it advantageous to have a strong background in a discipline.

The following courses on the Slavic area do not require knowledge of Russian or another Slavic language: RUSS 306, 410, 411; SLAV 307; ECON 387, 487¹; GEOG 493, 494; HIST 319, 324, 405, 408, 435, 438; POLI 325, 362, 460², 464.³

UBC and the Department of Central, Eastern and Northern European Studies provide opportunity for graduate work in Slavic Area Studies in the fields of geography, history (Russian, Soviet and East European), and Political Science. Students wishing to do graduate work in the area will normally be required to have completed at least 12 credits of a Slavic language (Russian, Polish, or Ukrainian) by the end of the first year of graduate work. Contact the *Department of Central, Eastern and Northern European Studies*, p. 129, for further details.

¹ If dealing with Slavic area.

² Section dealing with Russian foreign policy.

³ Section dealing with Russian-American relations.

SOCIOLOGY

The Department of Anthropology and Sociology offers programs of study that lead to the Doctor of Philosophy, Master of Arts and Bachelor of Arts. For information on graduate programs, see *Sociology*, p. 281, in the Graduate Studies section.

Undergraduate Courses

SOCI 100 is the prerequisite for most 300- and 400-level Sociology courses.

Major in Sociology

The program requires that students complete:

- SOCI 100
- 6 credits from Sociology courses at the 200 level
- SOCI 310
- SOCI 328
- 6 credits from SOCI 350, 400, 414
- 3 credits from SOCI 380, 381, 382, 383; and
- a minimum of 12 additional 300- and 400-level Sociology and Anthropology credits.

Honours in Sociology

Outstanding students registered in the third year of the Sociology Major program may apply for admission to the Honours program for their fourth year. A standing of 75% or better in SOCI 100, a minimum overall average of 68% or better in all 200-level courses, an average of 80% or better in all 300- and 400-level Sociology courses and an overall average of 75% or better in all 300- and 400-level courses are required for admission to the Honours program. In preparation for the fourth year of study in the Honours program, students are encouraged to arrange for an Honours thesis supervisor by the end of the third year or during the summer preceding the fourth year. The formal application process normally occurs at the beginning of the fourth year. Interested students should consult the Sociology Honours Advisor or the departmental undergraduate studies secretary.

The program requires that students complete:

- SOCI 100
- 6 credits from Sociology courses at the 200 level
- SOCI 310
- SOCI 328
- 6 credits from SOCI 350, 400, 414
- 3 credits from SOCI 380, 381, 382, 383
- SOCI 449
- a minimum of 24 additional 300- and 400-level Sociology and Anthropology credits, of which at least 6 credits must be at the 400 level; and
- at least 6 additional 300- and 400-level credits from another discipline.

Minor in Sociology

The program requires that students complete:

- SOCI 100
- 3 credits from Sociology courses at the 200 level

- 3 credits from SOCI 350, 400, 414
- 3 credits from SOCI 380, 381, 382, 383; and
- a minimum of 15 additional 300- and 400-level Sociology and Anthropology credits.

SOUTH ASIAN STUDIES

See *Asian Studies*, p. 127.

SPANISH

See *Hispanic Studies*, p. 137.

SPEECH SCIENCES

See *Linguistics*, p. 141.

THEATRE

The Department of Theatre, Film and Creative Writing offers undergraduate programs of study that lead to the degrees of Bachelor of Arts in Theatre (Major and Honours), Bachelor of Fine Arts in Acting, Bachelor of Fine Arts in Design and Production, and the Certificate in Theatre Design and Technology. For information on the Bachelor of Fine Arts programs, see *Bachelor of Fine Arts*, p. 152. For information on the certificate programs, see *Certificate in Theatre Design and Technology*, p. 155. For information on graduate programs, see *Theatre*, p. 285, in the Graduate Studies section.

For details about current offerings, consult the Theatre Program website (www.theatre.ubc.ca).

Major in Theatre

Theatre Majors must complete at least 42 credits in Theatre and Drama.

FIRST AND SECOND YEARS

At least 12 credits in Theatre and Drama, including DRAM 200 and DRAM 201.

THIRD AND FOURTH YEARS

At least 30 credits in Theatre, numbered 300 and above. At least 18 credits must be selected from the following: THTR 320, THTR 323, THTR 325, THTR 340, THTR 420, THTR 425, THTR 440, THTR 443, THTR 445, DRAM 300, DRAM 301, DRAM 400.

Honours in Theatre

Students are admitted to the Honours program only by application. Honours applicants must have a minimum of 76% in DRAM 200 and 201.

Honours students must complete a total of at least 60 credits in Theatre and Drama including the mandatory THTR 445 and THTR 449. At least 48 credits must be numbered 300 and above. At least 15 credits must be selected from the following: THTR 320, THTR 323, THTR 325, THTR 340, THTR 420, THTR 425, THTR 440, THTR 443, THTR 445, DRAM 300, DRAM 301, DRAM 400.

Minor In Theatre

Students must take at least 30 credits in Theatre and Drama, including:

- a minimum of 3 credits from DRAM 200, 201

- a minimum of 6 credits from THTR 320, THTR 323, THTR 325, THTR 340, THTR 420, THTR 425, THTR 440, THTR 443, THTR 445, DRAM 300, DRAM 301, DRAM 400
- a minimum of 18 credits in courses numbered 300 or above.

UNITED STATES STUDIES

United States Studies is an interdisciplinary undergraduate program administered by the United States Studies Program Committee. In consultation with a Program advisor students may complete a Major or a Minor in the program. At the present time the participating Departments are Political Science, History, and Economics. Admission to the program requires the approval of a program advisor.

Major in United States Studies

First and Second Years

ECON 101/102	6
HIST 237	6
ENGL 223	3
POLI 220	3

Third and Fourth Years

12 credits in Economics:	
ECON 301/302	6
6 credits of Economics in courses 300 or higher	6
12 credits in History (select from the following courses):	
HIST 326	6
HIST 327	3
HIST 328	3
HIST 330	3
HIST 331	3
HIST 332	6
HIST 338	6
HIST 428	6
HIST 437	6
HIST 445	3
HIST 446	3
HIST 447	3

12 credits in Political Science

POLI 320 3/6

9/12 credits in Political Science courses 300 or higher

SENIOR SEMINAR

All students must take at least one 3-credit senior seminar designated as part of the US Studies program. These seminars will usually be offered in History or Political Science. Other departments may offer seminars, from time to time, that may be counted in the Program. Please consult the United States Studies program advisor about seminar offerings in other Departments.

OTHER COURSES OUTSIDE THE PROGRAM OF INTEREST TO MAJORS
ENGL 472 (3–12), FILM 220 (3), FILM 436, and MUSC 358 (3).

Minor in United States Studies

A Minor consists of at least 30 credits, but not more than 42 credits. At least 9 credits must be selected from ECON 101/102(6), HIST 237(6), ENGL 223 (3), POLI 220(3). At least 18 credits chosen from the courses listed for the Major in United States Studies that are numbered 300 or higher. Students should make careful note of prerequisite requirements for courses numbered 300 or higher.

URBAN STUDIES

Urban Studies offers a focus for students who have a keen interest in this field. It is not a degree program.

A student will normally take URST 200, when offered, in the second year, along with the prerequisite courses for a departmental Major. In the third and fourth years, in addition to the Major requirements, 24 credits of courses focusing on urban questions (including those offered in the student's Major department) are required. In the fourth year a student will normally take URST 400.

Urban-Oriented Courses

A tentative (and not necessarily exhaustive) list of undergraduate courses that can be defined as "urban oriented" includes COMM 307, 409; ECON 374; GEOG 311, 321, 350, 352, 357, 360, 450, 453, 457, 464; PLAN 425; POLI 306; SOCI 354, 425. Some of these courses may have prerequisites. Students should discuss them with the department concerned before registering.

Students interested in Urban Studies should contact the Director of Arts Academic Advising, or the Chair of the Urban Studies Committee, Dr. Elvin Wyly (ewyly@geog.ubc.ca) (Geography), telephone 604-822-4653, or visit the Urban Studies Website (www.arts.ubc.ca/urban).

URDU

See *Asian Studies*, p. 127.

VISUAL ART

Major in Visual Art

This program is intended for, but not limited to, students contemplating a post B.A. professional program in education and normally consists of four years of study.

The first two years are normally the first two years of the Bachelor of Arts program. Upon completion of first and second-year requirements, students may register in the B.A. in Visual Art program providing they have an average grade of at least 68% in four 200 level visual art courses.

Transfer Students

Transfer students must meet the admission requirements of the University. Applications to enter UBC are made directly to Enrolment Services. Please see Admissions, *Undergraduate Admission Procedure*, p. 13, for more details.

Students normally apply to the University at the end of their first year. Transfer students may be

accepted in third year, subject to the submission of transcripts showing the completion of courses equivalent to 12 credits 200 level VISA with an average grade of at least 68%.

Transfer students must submit the following by March 31, directly to the Department of Art History, Visual Art, and Theory: Portfolio Application form, and a copy of their post-secondary transcript (original transcripts should be submitted to Enrolment Services).

Admission to the program depends upon space availability and is at the discretion of the Department.

Once admitted to the University and to the Department, transfer students are required to consult with a departmental Visual Art Advisor in order to gain information on course selection and declaring their major as B.A. or B.F.A. in Visual Art (for further B.F.A. in Visual Art information see *Visual Art*, p. 153, under Bachelor of Fine Arts).

Typical Program of Study

Requirements of the Faculty of Arts *per* the Calendar must also be met throughout the program.

FIRST YEAR

- Either VISA 180 or 182, and VISA 183, and VISA 110 with an average of at least 68% (9 credits). In special circumstances VISA 110 may be taken as a corequisite.
- 6 credits of 100 or 200 level ARTH, taken in the first two years (with a minimum average grade of 68%). This ARTH coursework is a required pre- or corequisite to registration in 200-level VISA coursework for majors.

SECOND YEAR

- 12 credits from 200 level VISA with an average of at least 68%.

THIRD AND FOURTH YEARS

- Potential Visual Art majors are required to receive departmental advising prior to beginning third-year courses.
- Students are advised to consult with an advisor in the Faculty of Arts (Buchanan A201) in order to make sure that their program of studies conforms to the requirements of the B.A. degree.
- Students must take a minimum of 30 credits in courses numbered 300 and above, including at least 12 credits in ARTH and 18 credits in VISA courses.
- A maximum of 12 credits in ARTE (Art Education 303, 305) courses may be substituted for VISA courses requirements.
- Students are not permitted to take ARTE 400-level courses as part of the B.A. Visual Art requirements.
- Students must include in the 120 credits required for the B.A. major degree at least 42 credits but not more than 60 credits in one subject (discipline) or field of specialization.
- Potential education students are advised to choose 18 credits in a single non-visual art

discipline to fulfill the requirements for a second teaching area.

Minor in Visual Art

- In first year, either VISA 180 or 182, and VISA 183 and VISA 110 are required with a minimum average of 68%
- 6 credits of 100- or 200-level ARTH, taken in the first two years, (with an average grade of at least 68%)
- 6 credits 200-level VISA with an average of at least 68%
- 6 credits from ARTH 300 level and above
- 12 credits from VISA 300 level and above.

Students pursuing a minor in Visual Art are required to receive departmental advising prior to beginning third-year courses, and are advised to plan their programs carefully as senior VISA courses have restrictive prerequisites.

WOMEN'S AND GENDER STUDIES

Students intending to specialize in Women's and Gender Studies may do so by taking an interdisciplinary Major or Minor program in Women's and Gender Studies.

Detailed descriptions of the program, courses, and other information are available from the Women's Studies Office (www.ws.arts.ubc.ca), telephone 604-822-9171.

Major in Women's and Gender Studies

Students majoring in Women's and Gender Studies must have their courses approved each year by a Women's and Gender Studies advisor. A Double Major is encouraged.

FIRST AND SECOND YEARS

Students must take WMST 100 and 6 credits from 200-level Women's and Gender Studies courses or ANTH/SOCI 213.

THIRD AND FOURTH YEARS

Third and fourth years of the program require that students complete:

- WMST 325, 326, 327 and 328
- WMST 422
- At least 15 additional credits from WMST courses numbered 301 or above, including WMST 425¹, 450¹ or from courses eligible for credit toward a Major: ANTH/SOCI 312; ASIA 329, 359, 460, 464; CLST 311, 312; CSIS 300, 450; ECON 351; FMST 442; GEOG 424; FREN 419 or 422; HIST 335; POLI 329, 345, 429; PSYC 320; RELG 380, 480; RUSS 410; SOCI 414; THTR 415.

WMST 300 may not be taken for credit toward the Major.

Minor in Women's and Gender Studies

FIRST AND SECOND YEARS

Students must take WMST 100 and 6 credits of second year Women's and Gender Studies courses or ANTH/SOCI 213.

THIRD AND FOURTH YEARS

Third and fourth years of the program require that students complete:

- 6 credits of WMST 325, 326, 327 or 328; and
- an additional 12 credits from courses eligible for credit toward the Women's and Gender Studies Major: WMST numbered 300 and above, including WMST 425¹, 450¹; ANTH/SOCI 312; ASIA 329, 359, 460, 464; CLST 311, 312; CSIS 300, 450; ECON 351; FMST 442; GEOG 424; FREN 419 or 422; HIST 335; POLI 329, 345, 429; PSYC 320; RELG 380, 480; RUSS 410; SOCI 414; THTR 415.

Students should consult the Women's and Gender Studies office for additional relevant courses in a given year.

¹ May be repeated for credit.

BACHELOR OF FINE ARTS

Admission

See *Admission*, p. 118, as listed under the Bachelor of Arts.

Academic Regulations

See *Academic Regulations*, p. 118, as listed under the Bachelor of Arts.

Faculty and Program Requirements

The Bachelor of Fine Arts is offered in Creative Writing, Film Production and Theatre (in which there are two distinct programs of study: Acting and Design and Production), and Visual Art.

Students may enter a Bachelor of Fine Arts program from the Faculty of Arts or as transfer students from another post-secondary institution. In all cases, students must complete the Faculty of Arts English requirement, language requirement, science requirement and literature requirement. See *Degree Requirements*, p. 120.

Application procedures and deadlines for each of the Bachelor of Fine Arts programs are specified in the appropriate departmental entries.

Except as noted below, all academic regulations and Faculty and program requirements applicable to the Bachelor of Arts also apply to Bachelor of Fine Arts programs. Students in, or intending to enter, a Bachelor of Fine Arts program should familiarize themselves with, and follow, the requirements in this chapter.

Bachelor of Fine Arts programs require that certain prerequisites be completed in the first 30 and first 60 credits of the student's post-secondary program; these are specified in the appropriate departmental entries.

The programs in Visual Art and Theatre are highly specialized, and require the same level of concentration in their respective fields as do Honours Bachelor of Arts programs.

The Bachelor of Fine Arts in Creative Writing may be completed as a Major, Double Major, or Honours program according to the regulations specified for these programs under *Program Requirements*, p. 122.

In addition to their B.F.A. programs, students can select a Major or Minor from the fields offered in the B.A. program. They will receive a B.F.A. in their specialty with a major or minor in the field chosen from the B.A. provided they have completed all the Faculty of Arts requirements (First Year English, Language, Literature, Science), all the requirements for the B.F.A. and all the requirements for their specialty in the B.A. Students can complete a B.F.A. with a B.A. Minor within the 120 required credits, but early and careful planning is necessary.

Note: B.F.A. students in Theatre cannot take a Major or Minor in the B.A. Theatre program.

All programs leading to the Bachelor of Fine Arts require a minimum of 120 credits.

ACTING

The Department of Theatre, Film and Creative Writing offers the program leading to the Bachelor of Fine Arts in Acting. For details about current offerings, consult the departmental website (www.tfcw.ubc.ca).

The B.F.A. in Acting Program normally consists of four years of study. In the first year, students are enrolled in the Bachelor of Arts and take courses applicable to any B.A. program, including the Theatre courses noted below. The number of places available in the program is strictly limited, hence entry into the program is by selection based on an audition. Students usually audition during their first year of study. Auditions are held in February. UBC students who are successful must fill out a Change of Faculty form to change from a BA degree program to a B.F.A. degree program. Transfer students must meet the University of British Columbia entrance requirements. Applicants who are unsuccessful in the audition process can continue in the Bachelor of Arts program.

All students enrolled in the Bachelor of Fine Arts program will be reviewed annually to determine whether they should be allowed to continue in their course of study. Students who have been admitted to the Bachelor of Fine Arts program may revert to the Bachelor of Arts program if this is advisable, at the end of their second or third year.

FIRST YEAR

Requirements of first-year Bachelor of Arts program, including at least one Theatre course.

SECOND YEAR

Requirements of second-year Bachelor of Arts program, THTR 271, 272, 273, and 274, and at least 3 credits from DRAM 200 and 201.

THIRD AND FOURTH YEARS

- THTR 371, 372, 373, 374, and 391
- THTR 471, 472, 473, 474, and 491
- at least 6 credits chosen from THTR 320, 325, 420
- For elective credits, refer to Bachelor of Arts Degree Requirements and to the Summary of Program Requirements table (Honours column). A BFA in Acting degree usually consists of 72 theatre credits and 48 elective credits.

CREATIVE WRITING

The Department of Theatre, Film and Creative Writing offers undergraduate programs of study in Creative Writing that lead to the Bachelor of Fine Arts. The Department also offers a program leading to the *Diploma in Applied Creative Non-fiction*, p. 154. For details about current offerings, consult the departmental website (www.creativewriting.ubc.ca).

Admission to courses and the Major or Honours Program

Students seeking admission to the Major or Honours program in Creative Writing should apply at the end of their second year of university by submitting to the Creative Writing program a written request accompanied by their creative writing manuscripts. Students who wish to be considered for the Major or Honours program should submit 30 to 35 pages of original writing in two or more genres. Three identical manuscripts must be submitted to the Creative Writing secretary by March 31 at 3:30 pm. Applicants will be accepted into the Major or Honours programs on the recommendation of the instructors assigned to evaluate their manuscripts. Consult the “Manuscript Guidelines for Major Applicants” at the departmental website (www.creativewriting.ubc.ca) before submitting your manuscripts.

Students who wish to be considered for a particular 400-level course, but not for a specialization in Creative Writing, should submit 20 to 25 pages of original writing relevant to that course. Applicants for Creative Writing interested in CRWR 404 (radioplay/features), 406 (screenplay), or 407 (stageplay) may submit fiction or plays. Manuscripts must be submitted to the Creative Writing Secretary before June 1. If places are still open after this date, additional manuscripts will be accepted for evaluation.

First-year students are not eligible to take a 400-level course.

All students should view the *Department's Handbook* (www.creativewriting.ubc.ca) before submitting their manuscript as specific guidelines and course descriptions are outlined in the *Handbook*.

Major in Creative Writing

FIRST AND SECOND YEARS

CRWR 202¹ and the requirements for the first two years of the B.A. program. CRWR 202 is not a prerequisite for the Major or Honours program and does not assure admission.

¹ Please contact the Department to see if CRWR 202 will be offered this year.

THIRD AND FOURTH YEARS

Students must complete 60 credits, 36 of which must be Creative Writing courses numbered 300 or above. The 36 credits will be chosen from departmental courses in consultation with an advisor and must include:

- Third year: any three of the following workshops: CRWR 306 and 307 (306 is a prerequisite for 307), 403, 404, 405, 406, 407, 408 or 409¹, 410, 415, 416 and Lyric & Libretto (proposed course to be

renamed CRWR 411, for Winter 2006/07, following approval by Senate).

- Fourth year: one or more of the following courses in areas of the student's special interest: CRWR 439, 447², 491, 492, 493, 494, 495, 496, 497, 498 and Lyric & Libretto (proposed course to be renamed CRWR 411, for Winter 2006/07, following approval by Senate).

¹ In satisfying the three-genre requirement for the Major, CRWR 408 and 409 are treated as a single genre: fiction.

² Not offered every year.

Honours in Creative Writing

FIRST AND SECOND YEARS

As for Major.

THIRD AND FOURTH YEARS

The same as the Major, with the difference that students must complete 48 credits in Creative Writing, which will be chosen from the departmental courses in consultation with an advisor and include any three of the workshops listed above. As part of the program, Honours students will be required to complete a thesis of a length and form appropriate to the genre. (Requirements for the Honours program are currently under review.)

Double Major in Creative Writing and Another Subject

Students who have completed all the degree requirements for a Double Major in Creative Writing and another subject falling within the B.A. program may choose to graduate with either a Bachelor of Fine Arts or a Bachelor of Arts.

FILM PRODUCTION

The Department of Theatre, Film and Creative Writing offers the program leading to the Bachelor of Fine Arts in Film Production, normally consisting of four years of study. The number of available places is strictly limited: application and submission of supporting materials is required. Preference will be given to students with strong evidence of creative ability. Prospective applicants should consult the Film Program website (www.film.ubc.ca) concerning admission requirements, application deadline, and current course offerings, or contact the Film Program Office. All students enrolled in the Bachelor of Fine Arts program will be reviewed annually to determine whether they should continue in their course of study.

First and Second Years

All students enrolled in the program must take FILM 100 and 200 and achieve a minimum average of 70% in those courses. Recommended courses include FILM 210, 220, and 233, and THTR 299.

Third Year

Students must take FILM 333 and 12 credits chosen from:

ASIA 354, CRWR 306, 307, 406, 494; ITST 432; FILM 331, 332, 334, 335, 336, 338, 339,

430, 432, 434, 436, 438; MUSC 345; SLAV 307; SCAN 411; SPAN 404; THTR 301, 399.

Fourth Year

Students must take FILM 433 and 12 credits chosen from:

ASIA 354; CRWR 307, 406, 494; ITST 432; FILM 331, 332, 334, 336, 338, 430, 432, 434, 436, 437, 438, 439; MUSC 345; SLAV 307; SCAN 411; SPAN 404; THTR 408, 417, 440, 499; VISA 380.

A minimum of 42 credits in Film are required for the degree, of which at least 30 must be numbered above 300.

THEATRE

The Department of Theatre, Film and Creative Writing offers the program leading to the Bachelor of Fine Arts in Theatre. For details about current offerings, consult the department and the departmental website (www.theatre.ubc.ca).

THEATRE DESIGN AND PRODUCTION

The Department of Theatre, Film and Creative Writing offers the program leading to the Bachelor of Fine Arts in Theatre Design and Production. For details about current offerings, consult the departmental website (www.tfcw.ubc.ca).

Typical Program of Study

FIRST YEAR

Requirements of first-year Bachelor of Arts program, including at least one of THTR 120 or THTR 150.

SECOND YEAR

Requirements of second-year Bachelor of Arts program and at least 6 credits chosen from: THTR 205, 254, 299.

THIRD YEAR

- At least 6 credits of THTR 399
- At least 12 credits chosen from: THTR 301, 305, 306, 307, 308, 350, 352, 354, 356.

FOURTH YEAR

- At least 9 credits of THTR 499
- At least 9 credits chosen from: THTR 405, 406, 407, 408, 450, 452, 454, 456.

A minimum of 60 credits in Theatre are required for the degree, of which 48 must be numbered above 300. Refer to the *Summary of Program Requirements*, p. 124, table (Honours column) in the Bachelor of Arts Program Requirements section.

VISUAL ART

The program leading to the Bachelor of Fine Arts in Visual Art normally consists of four years of study.

The first two years are normally the first two years of the Bachelor of Arts program. Upon completion of these first and second-year requirements, students may register in the B.F.A. in Visual Art program, providing they

have an average grade of at least 68% in the four 200 level visual art courses.

Once registered in the B.F.A. program students must maintain an average grade of at least 68% in their 300 level visual art courses.

Transfer Students

Transfer students must meet the admission requirements of the University. Applications to enter UBC are made directly to Enrolment Services. Please see Admissions/Undergraduate Admission Procedure for more details.

Students normally apply to the University at the end of their first year. Students may be accepted into third year subject to the submission of transcripts showing the completion of courses equivalent to 12 credits of 200 level VISA courses with an average grade of at least 68%.

Transfer students must submit the following by March 31, directly to the Department of Art History, Visual Art, and Theory: a Portfolio Application form and a copy of their post-secondary transcript (original transcripts should be submitted to Enrolment Services).

Admission depends upon space availability and is at the discretion of the Department

Once admitted to the University and to the Department, transfer students are required to consult with a departmental Visual Art Advisor in order to gain information on course selection and declaring their major as B.A. or B.F.A. in Visual Art (for further B.A. in Visual Art information see the Faculty of Arts/Bachelor of Arts/Visual Art).

Typical Program of Study

FIRST YEAR

- Either VISA 180 or 182 and VISA 183, and VISA 110 with an average of at least 68%
- In special circumstances VISA 110 may be taken as a corequisite
- 6 credits of 100 or 200 level ARTH, taken in the first two years (with an average grade of at least 68%). ARTH course work is a required pre- or corequisite to registration in 200-level VISA coursework for majors

SECOND YEAR

- 12 credits of 200 level VISA with an average of at least 68%

THIRD YEAR

- VISA 380 and 381 (Studio Theory) must be taken sequentially
- Additional 12 credits 300 level VISA
- 6 credits of ARTH 300 or above

FOURTH YEAR

- VISA 480 and 481 (Studio Theory) must be taken sequentially
- 12 credits of 400 level VISA
- 12 credits of elective courses (6 of them can be 200-level or above, but recommended 300 or above, while 6 of them must be 300 or above)

B.F.A. Honours program

FIRST YEAR

The same as for B.F.A.

SECOND YEAR

- 12 credits from 200-level VISA courses with an average of at least 80%

THIRD AND FOURTH YEARS

The same as for the B.F.A. major with an additional 12 credits in the following pattern:

- 6 credits additional ARTH course work at the 400 level
- 6 credits additional VISA course work at the 400 level

CO-OPERATIVE EDUCATION PROGRAMS

Undergraduate Co-op Options

The Arts Co-operative Education program provides interested and qualified students in the Bachelor of Arts, Bachelor of Music, and Bachelor of Fine Arts programs with paid employment experience relevant to their future careers. The Co-operative Education program is an optional, year-round program, supplementary to academic programs in the Faculty. Four work placement terms must be completed, including placements in both Term 1 and Term 2 of a Winter Session. The final term must be an academic term.

Students wishing to enrol in the program must apply in Winter Session, Term 1, of their second year and must meet the four Faculty of Arts breadth requirements (i.e., English, Language, Science, and Literature) prior to their first work term. Students must have selected a major and attained third-year standing (i.e., completed at least 54 credits) prior to their first work term. Academic performance and suitability for the work environment (as judged by the Arts Co-operative Education Office) will be the selection criteria used for program admission. Total enrolment is subject to the availability of appropriate work placements. Acceptance into the program does not guarantee appropriate work placements in every work term.

Students admitted into the program must register in the appropriate Co-operative Education course for each work term, once a suitable work placement is confirmed. Payment of the Co-operative Education program fees is mandatory. This includes a Co-operative Education Program fee for each work term and a one-time Co-operative Education Program workshop fee. See *Program and Course Fees*, p. 28.

Each successfully completed Co-operative Education course is assigned 3 Co-op credits on a student's academic transcript (i.e., ASTU 310, 311, 410, and 411). In order to graduate in a Co-operative Education Program, a student must complete 12 Co-op credits in addition to the normal academic requirements of the Faculty (normally 120 academic credits). The Co-operative Education Program in Arts typically necessitates an additional year to complete a bachelor's degree. Faculty advisors or Co-operative co-ordinators visit students at their places

of work and provide advice on the work term learning portfolios that are a requirement of the program. Students transferring to UBC from accredited co-operative programs at other institutions may request admission to the Arts Co-op program and may receive credit for previously completed work placement to a maximum of 6 Arts Co-op course credits.

Graduate Co-op Options

MASTER OF ARTS CO-OPERATIVE EDUCATION OPTION

Students admitted to the Master of Arts Program in a department with a Co-operative Education option may apply for admission to the Arts Co-operative Education Program. The Program helps prepare interested and qualified students for professional careers in government, the non-profit sector, and industry with at least four months of work placement supervised by practicing professionals. Faculty advisors also visit students at their place of work where feasible and provide advice on work term projects required of all students in the program.

Students who have been admitted into the Master of Arts Program in a department with the Co-op Option must apply to the Arts Co-op Office early in their first term at UBC. Selection of students will be based on academic performance and general suitability to the work environment as determined by resumé and interview. The total enrolment will be subject to the availability of appropriate work placements and faculty advisors. The work placements are arranged by mutual agreement between students and employing organizations. Co-op courses are taken in addition to the courses needed to meet normal academic requirements. These courses do not count for credit toward the degree, but their completion will be noted on a student's academic record.

Contact Information

For further information on the programs, please contact the Arts Co-operative Education Office.

DIPLOMA IN APPLIED CREATIVE NON-FICTION

Please note: Admissions to the Diploma in Applied Creative Non-Fiction have been suspended for the 2006–07 academic year. Please check the web Calendar (www.students.ubc.ca/calendar/index.cfm?tree=12,197,284,0) or the Department of Theatre, Film and Creative Writing website (www.tfcw.ubc.ca) for updated information.

The Department of Theatre, Film and Creative Writing offers the Diploma in Applied Creative Non-Fiction.

Prerequisite and Admission

A bachelor's degree or equivalent in any discipline, plus some writing experience in creative non-fiction, fiction, or translation. For applicants with significant credentials in the field of creative non-fiction writing, the bachelor's degree requirement may be waived.

Candidates for admission must submit 30 pages of original creative non-fiction (note: newspaper reports or academic essays are not acceptable). Some fiction or translation may be included in the 30 pages.

Two identical copies of the candidate's manuscript must be submitted to the creative writing secretary by March 31, 3:30 pm. Manuscript guidelines are listed on the Creative Writing website (www.creativewriting.ubc.ca). Do not send cassettes, computer discs, or submissions via email or fax as they will not be accepted. It is recommended that the candidate keep a copy of what is sent.

Course of Study

The program consists of 24 credits of work:

- CRWR 301¹ or equivalent (comprised of other writing courses or equivalent writing experience)
- CRWR 405
- CRWR 416 (405 and 416 may be taken concurrently)
- CRWR 439, and/or CRWR 492

¹ Successful completion of CRWR 301 does not automatically result in acceptance into CRWR 405 or 416, due to limited enrolment.

All requirements for the Diploma must be completed within five years of the initial registration in the program. Because of these requirements, students should not anticipate completing the program in less than two years.

Instruction

Instruction is based on the premise that promising student-authors can benefit from professional criticism and the necessity of producing regularly and meeting deadlines. Workshops, conferences and tutorials are designed to focus attention upon the student's own work. Reading assignments may be made in the Creative Writing program's magazine of literary non-fiction, *Fugue*, and in *PRISM international*, p. 72, or other relevant journals and books. There are no examinations, and marks are based on the writing done and on participation in workshops throughout the year.

DIPLOMA IN ART HISTORY

The Department of Art History, Visual Art and Theory offers the Diploma in Art History. Applicants to the program will already have a first degree in another discipline. Applications for admission should be made to Enrolment Services no later than, and preferably before, August 1 for entry in September.

The diploma program requires 30 credits of courses in art history numbered 300 or above. The inclusion of ARTH 300 plus one 400-level seminar is required. No more than 6 credits of cross listed courses offered by other depart-

ments, excepting ARTH 329, may be counted toward the requirements. Only 6 credits of 'C' standing may be credited toward the diploma requirements.

DIPLOMA IN FILM PRODUCTION

The Department of Theatre, Film and Creative Writing offers the Diploma in Film Production. Enrolment in the program is limited, and preference will be given to students with strong evidence of creative ability, either in film or in one of the other fine arts. Prospective students should inquire at the Film program office for application information.

Admission

Applicants must have completed a bachelor's degree in arts, science, or commerce.

Diploma Requirements

The program will normally take two years of study. Additional courses, above those required, may be taken on an elective basis. No longer than five years should elapse between initial enrolment in the program and attaining the Diploma. 36 credits of course work are required as follows:

FIRST YEAR STUDENTS MUST TAKE:

- FILM 100, 200, 210 or 220, 333, 335

SECOND YEAR STUDENTS MUST TAKE:

- FILM 433, 437 or 439
- 9 credits from FILM 331, 332, 334, 336, 338, 430, 432, 434, 436, 438, ASIA 354, CRWR 306, 307, 406, 494, ITST 432, MUSC 345, SCAN 411, SLAV 307, SPAN 404

DIPLOMA IN LINGUISTICS

The Department of Linguistics offers the Diploma in Linguistics. The Diploma is designed primarily for students with a limited background in linguistics who want to do the core of an undergraduate linguistics or speech sciences B.A. as preparation for entering a Master's program in linguistics or second-language teaching or speech-language pathology or audiology. The Diploma does not provide practical training in language skills; the Diploma by itself does not provide any professional credential and does not normally lead directly to employment. Admission to graduate programs is competitive, in some cases very competitive, so completing the relevant prerequisite courses in our Diploma program does not guarantee admission to any graduate program.

Students who wish to be language teachers in the BC school system must complete a program of Initial Teacher Education for elementary or secondary teaching, including teaching methodology courses appropriate to the languages to be taught.

Students who wish to practice as speech-language pathologists or audiologists in Canada or the U.S. must complete an appropriate master's program.

Admission

Prerequisites: Applicants must have completed a bachelor's degree. They must have completed LING 200 and 201 or equivalent.

Students who lack any of these prerequisite or recommended courses are encouraged to take the needed courses at the UBC Summer Session (May-August) before starting a Diploma program in September.

Recommended additional preparation for speech-science students: if possible, students preparing for graduate work in speech pathology or audiology should have coursework in psychology, research design, and statistics equivalent to UBC PSYC 100 (6 credits), 217, and 218.

Diploma Requirements

The program can be completed in one year of full-time study, but may be taken part-time. It should be finished within a period of five years. The program of study must be approved by the Linguistics Diploma advisor. The following 24 credits of course work are required:

- 6 credits from List A
- 6 credits chosen from Lists A or B and
- 12 credits chosen from Lists A, B, C or D

LIST A: CORE COURSES

LING 300, 311, 316, 327

LIST B: SECONDARY CORE COURSES

LING 305, 317, 319, 431, 432, 447, 451, 452

LIST C: SENIOR-LEVEL COURSES IN

LINGUISTICS
LING 430, 433, 436, 445, 448

LIST D^{1,2}: SENIOR-LEVEL COURSES IN

RELATED AREAS
ANTH 332, 401, 417
AUDI 400, 402, 403, 514
CPSC 322
EPSE 315, 399, 419, 424
ENGL 320, 321, 322, 323, 324, 326, 340
FREN 461, 462, 464, 465, 472, 473, 475
JAPN 420
LLED 478
PHIL 320, 321, 322, 323, 324, 420, 425, 426
PSYC 302, 304, 309, 315, 336, 337, 367, 368
SPAN 403, 407

1 Depending on the student's program, the Linguistics Diploma advisor may accept other courses.

2 Most of these List D courses have prerequisites of their own; see the UBC Calendar. In particular, students should plan to take the equivalent of UBC Psych 100, 217, and 218 before taking any of Psych 302, 304, 309, 315, 367, or 368.

CERTIFICATE IN THEATRE DESIGN AND TECHNOLOGY

The Certificate in Theatre Design and Technology program offers specialized and intensive professionally oriented study. Instruction is given on a variety of levels, concentrating on the practical aspects of theatre. The Technology Certificate allows beginning students to take introductory level courses before moving on to more specific areas of practical study and entry level professional development. The Advanced

Technology Certificate allows more experienced students to develop additional skills while encouraging a broader understanding of theatre history and dramaturgy. The Design Certificate is intended for experienced students or professionals who wish to extend their study at the senior undergraduate and graduate levels.

Courses may be taken individually, or full-time students may complete the certificate as a two-year intensive program.

Students applying to the certificate program from secondary school will have to meet the University minimum admission requirement that demands an average grade of 67% over four courses including English 12. Competition for admission usually means that applicants to degree programs actually require a much higher grade average. Certificate program applicants will not be competing with degree program applicants for admission. Therefore, students who meet the minimum academic requirements but who do not meet the requisite competitive average for admission will still be considered for the certificate program. Students who do not meet the normal requirements, but have pursued theatre-related activities that have contributed to an intellectual maturity may also be accepted on the basis of a Mature student application. In all cases, Faculty members in the Theatre program will evaluate candidates by means of a diagnostic examination and an interview. An applicant's resumé or portfolio will be of principal importance.

Certificate in Theatre (Technology)

Students take the following 60 credits:

- 30 required credits THTR 120 (3), 205 (3), 254 (3), 299 (6), 305 (3), 399 (6), 499 (6)
- 24 specialist credits chosen from THTR 350 (3)/450 (3), 307 (3)/407 (3), 352 (3)/452 (3), 306 (3)/406 (3), 354 (3)/454 (3), 356 (3), 456 (3)
- Elective or additional specialist credits (6)

Certificate in Theatre (Advanced Technology)

Students take the following 60 credits:

- 18 required credits THTR 205 (3), 305 (3), 399 (3), 499 (9)
- 12 credits chosen from courses in Theatre, Film, Creative Writing, Art History or Visual Art
- 24 specialist credits chosen from THTR 350 (3)/450 (3), 306 (3)/406 (3), 307 (3)/407 (3), 352 (3)/452 (3), 354 (3)/454 (3), 356 (3), 456 (3)
- Elective or additional specialist credits (6)

Certificate in Theatre (Design)

Students take the following 60 credits:

- 6 to 12 credits chosen from THTR 305 (3), 405 (3), 306 (3)/406 (3), 307 (3)/407 (3)
- 6 to 12 Arts credits chosen from courses in Theatre, Film, Creative Writing, Art History or Visual Art
- 12 specialist credits chosen from THTR 350 (3)/450 (3), 306 (3)/406 (3), 307 (3)/407 (3), 352 (3)/452 (3), 354 (3)/454 (3)

GRADUATE PROGRAMS

For the Faculty of Arts offerings of Graduate programs see the Faculty of Graduate Studies *Degree Programs*, p. 229.

ACADEMIC STAFF

DEPARTMENT OF ANTHROPOLOGY AND SOCIOLOGY

David Pokotylo, Head

Professors

Janice Boddy, B.A. (McG.), M.A. (Calg.), Ph.D. (Br.Col.), Anthropology; **Gillian Creese**, B.A. (S.Fraser), M.A. (Qu.), Ph.D. (Car.), Sociology; **Dawn Currie**, B.A., M.A. (Sask.), Ph.D. (Lond.), Sociology; **Brian Elliott**, M.A. (Edin.), Sociology; **Neil Guppy**, B.A., B.P.H.E. (Qu.), M.Sc., Ph.D. (Wat.), Sociology; **Graham E. Johnson**, B.Sc. (Econ.) (Ston.), M.A., Ph.D. (C'nell.), Sociology; **Ralph Matthews**, B.A. (Memorial), M.A., Ph.D. (Minn.), Sociology; **Bruce G. Miller**, A.B. (Brown), M.A. (W. Wash.), Ph.D. (Arizona State), Anthropology; **Anthony Shelton**, B.A. (Hull), M.Litt. (Oxf.), D.Phil. (Oxf.), Anthropology.

Associate Professors

John Barker, B.A. (W.Ont.), M.A. (Vic., Well.), Ph.D. (Br.Col.), Anthropology; **Michael Blake**, B.A. (Br.Col.), M.A., Ph.D. (Mich.), Anthropology; **Alexia Bloch**, B.A. (Wellesley), Ph.D. (Pitt.), Anthropology; **Millic R. Creighton**, B.A. (Minn.), M.A., Ph.D. (Wash.), Anthropology; **Thomas Kemple**, B.A. (Wesleyan), M.A., Ph.D. (York), Social and Political Thought; **Charles Menzies**, B.A. (S.Fraser), M.A. (York (Can)), Ph.D. (C.U.N.Y.), Anthropology; **David L. Pokotylo**, B.A., M.A. (Manit.), Ph.D. (Br.Col.), Anthropology; **Becki Ross**, B.A. (W.Ont.), M.A. (Qu.), Ph.D. (O.I.S.E.), Sociology; **David Tindall**, B.A., M.A. (Vic.B.C.), Ph.D. (Tor.), Sociology; **John Torpey**, B.A. (Amherst), M.A. (Calif. Berkeley), Ph.D. (Calif. Berkeley), Sociology.

Assistant Professors

Mark Collard, B.A. (Sheff.), Ph.D. (Liv.), Human Anatomy and Cell Biology; **Sylvia Fuller**, B.A. (S.Fraser), M.A. (Dal.), Ph.D. (Rutgers), Sociology; **Gaston Gordillo**, B.A. (Buenos Aires), M.A. (Tor.), Ph.D. (Tor.), Anthropology; **Amy Hanser**, M.A., Ph.D. (Calif. Berkeley), Sociology; **Zhi-chun Jing**, B.S. (Chengdu, China), M.S. (China Univ. of Geosciences), Ph.D. (Minn.), Archaeology; **Vinay Kamat**, B.A. (Bom.), M.A. (Arizona), Ph.D. (Tata Inst., Bom.), Ph.D. (Emory), Anthropology; **Jennifer Kramer**, A.B. (Brown), M.A., Ph.D. (Columbia), Anthropology; **Andrew Martindale**, B.A. (Tor.), M.A. (Trent), Ph.D. (Tor.), Archaeology; **Renisa Mawani**, B.A., M.A. (S.Fraser), Ph.D. (Tor.), Criminology; **William H. McKellin**, B.A. (Wheaton Coll.), M.A., Ph.D. (Tor.), Anthropology; **Patrick Moore**, M.A. (Mich.), M.A. (Mich.), Ph.D. (Indiana), Anthropology; **Anand Pandian**, B.A. (Amherst), Ph.D. (Calif. Berkeley), Anthropology; **Susan Rowley**, B.A. (Tor.), Ph.D. (Camb.), Archaeology; **Gerry Veenstra**, B.MATH, B.A. (Wat.), M.A., Ph.D. (McM.), Sociology; **Rima Wilkes**, B.A. (Qu.), M.A. and Ph.D. (Tor.), Sociology; **Felice Wyndham**, A.B. (Brown), Ph.D. (Georgia), Anthropology; **Daniyal Zuberi**, B.A. (Johns H.), M.Sc. (Oxf.), A.M., Ph.D. (Harv.), Sociology.

Senior Instructor

Brian Chisholm, B.A., Ph.D. (S.Fraser) Archaeology.

Lecturer

Patricia Kachuk, B.A. (York), M.A., Ph.D. (Br.Col.), Anthropology.

DEPARTMENT OF ART HISTORY, VISUAL ART AND THEORY

Rhodri Windsor-Liscombe, Head

Professors

Marvin S. Cohodas, B.A., M.A., Ph.D. (Br.Col.); **Serge Guilbaut**, L. ès L., M. ès L. (Bordeaux), Ph.D. (Calif., L.A.); **Ken Lum**, B.G.S. (S.Fraser), M.F.A. (Br.Col.); **John O'Brian**, B.A. (Tor.), B.A. (York (Can.)), M.A. (York, (Can.)), M.A., Ph.D. (Harv.); **Richard Prince**, B.A. (Br.Col.); **Scott Watson**, B.A., M.A. (Br.Col.); **Rhodri Windsor-Liscombe**, B.A. (Hons.), Ph.D. (Courtauld Inst., Lond.), F.S.A.

Associate Professors

Xiong Gu, B.F.A., M.F.A. (Sichuan Fine Arts Inst.); **Maureen P. Ryan**, B.A., M.A. (Br.Col.), Ph.D. (Chic.); **Charlotte Townsend-Gault**, B.A. (Sus.), Ph.D. (Lond.); **Barbara Ziegler**, B.F.A., M.F.A. (Ill.).

Assistant Professors

Katherine F. Hacker, B.F.A. (Ohio), M.S. (Oregon), Ph.D. (Penn.); **Carol Knicely**, B.A. (Calif., San Diego), M.A., Ph.D. (Calif., L.A.); **Nancy Nisbet**, B.Sc., B.Ed. (Alta.), M.F.A. (Calif. Inst. Arts); **Manuel Pina**, P.Eng. (Vladimir); **Marina Roy**, B.A. (Laval), B.F.A. (N.S.C.A.D.), M.F.A. (Br.Col.); **Hsiungyuan Tsao**, B.A. (Hangzhou), M.A. (Beijing), Ph.D. (Stan.); **William Wood**, B.A., M.A. (Br.Col.), M.L.S. (Tor.), D.Phil. (Sus.).

Lecturers

Barrie Jones, B.F.A. (Br.Col.), M.F.A. (York); **Phillip McCrum**, B.F.A., M.F.A. (Ulster).

DEPARTMENT OF ASIAN STUDIES

Peter Nosco, Head

Professors

Ashok N. Aklujkar, M.A. (Poona), Ph.D. (Harv.); **Michael S. Duke**, B.A. (Calif., Davis), M.A., Ph.D. (Calif., Berkeley); **Joshua S. Mostow**, B.A., M.A., Ph.D. (Penn.); **Peter Nosco**, M.A. (Camb.), Ph.D. (Columbia); **Harjot Oberoi**, M.A., M.Phil. (New Delhi), Ph.D. (A.N.U.); **Jerry D. Schmidt**, B.A. (Calif., Berkeley), M.A., Ph.D. (Br.Col.).

Associate Professors

Donald L. Baker, B.A. (Louisiana), M.A., Ph.D. (Wash.); **Kenneth E. Bryant**, M.A., Ph.D. (Calif., Berkeley); **Bruce Fulton**, M.A. (Wash.), Ph.D. (Seoul); **Tineke Hellwig**, M.A., Ph.D. (Leid.); **Nam-Lin Hur**, B.A. (Seoul), M.A., Ph.D. (Prin.); **Ross King**, B.A. (Yale), M.A., Ph.D. (Harv.); **Sharalyn Orbaugh**, M.A., Ph.D. (Mich.); **Edward Slingerland**, Ph.D. (Stan.); **Catherine Swatek**, B.A. (Car. Coll.), M.A., Ph.D. (Col.).

Assistant Professors

Stefania Burk, Ph.D. (Calif., Berkeley); **Jinhua Chen**, Ph.D. (McM.); **Christina Laffin**, B.A. (Br.Col.), M.A. (Tokyo), Ph.D. (Col.); **Duanduan Li**, M.Ed., P.Ed. (Columbia); **Laurence W. Preston**, B.A., M.A. (Br.Col.), Ph.D. (Tor.); **Adheesh Sathaye**, Ph.D. (Calif., Berkeley); **Leo K. Shin**, Ph.D. (Prin.).

Senior Instructors

Josephine Chiu-Duke, B.Ed. (Taiwan Norm.), M.Ed. (Vermont), M.A. (Wisc.-Mad.), Ph.D. (Br.Col.); **Insun Lee**, M.A. (Br.Col.).

Instructor

Rebecca Chau, M.A. (Tokyo), Ph.D. (Tsukuba).

Adjunct Professor

Robert Chen, M.A., Ph.D. (Br.Col.).

DEPARTMENT OF CENTRAL, EASTERN AND NORTHERN EUROPEAN STUDIES

Peter A. Stenberg, Head

Professors

Peter Petro, M.A. (Br.Col.), Ph.D. (Alta.), Russian;
Peter A. Stenberg, B.A. (Wesleyan), M.A., Ph.D.
(Calif., Berkeley).

Associate Professors

Gaby Pailer, M.A., Ph.D. (Karlsruhe); Thomas J.
Salumets, B.A. (Tor.), M.A., Ph.D. (Prin.); Steven
Taubeneck, B.A. (Calif., Santa Cruz), M.A., Ph.D.
(Virginia); Geoffrey Winthrop-Young, M.A.
(Freiburg), Ph.D. (Br.Col.); Karl Zaenker, Staatsexamen
(Gött.), Ph.D. (Br.Col.).

Assistant Professors

Markus Hallensleben, M.A. (Berlin), Dr.Phil. (Magna
cum laude) (Berlin); Caroline Rieger, M.A. (Essen),
Ph.D. (Alta.).

Senior Instructors

Bozena Karwowska, M.A. (Warsaw), M.A. (Br.Col.),
Ph. D. (Br.Col.); Norma Wieland, B.A., M.A. (Tor.).

DEPARTMENT OF CLASSICAL, NEAR EASTERN AND RELIGIOUS STUDIES

Roger Wilson, Head

Professors

Anthony A. Barrett, B.A. (Durh.), Dip. Class. Arch.
(Oxon.), M.A., Ph.D. (Tor.), F.S.A., F.R.S.C.; Shirley D.
Sullivan, M.A. (Br.Col.), Ph.D. (Tor.), F.R.S.C.; Robert
B. Todd, B.A. (Lond.), M.A., Ph.D. (Prin.); E. Hector
Williams, B.A. (Manit.), M.A., Ph.D. (Chic.), F.S.A.

Associate Professors

Daphna Arbel, M.A., Ph.D. (Hebrew); Robert
Cousland, B.A. (Br.Col.), Ph.D. (St. And.); Franco De
Angelis, B.A. (Ott.), M.A. (McG.), D.Phil. (Oxon.); C.
Marshall, B.A. (McG.), Ph.D. (Edin.); Richard Menkis,
B.A., M.A. (Tor.), M.A., Ph.D. (Brandeis); Paul G.
Mosca, B.A. (Fordham), A.M., Ph.D. (Harv.); Dietmar
Neufeld, B.A. (Br.Col.), M.A. (Mennonite Seminary,
Calif.), Ph.D. (McG.).

Assistant Professors

Leanne Bablitz, B.A., M.A. (Sask.), Ph.D. (N.
Carolina); Elisabeth Cooper, B.A., M.A., Ph.D. (Tor.),
M.Phil. (Cantab.); David Creese, B.A. (Vind.), M.A.
(Dal.), Ph.D. (Birm.); Robert Daum, B.A. (Tufts),
M.A., Rabbi (HUC-JIR), Ph.D. (Calif. Berkeley);
Thomas Hikade, Ph.D. (Heidel.); Maya Yazigi, B.A.
(Beruit), C. Phil., Ph.D. (Calif., L.A.).

Senior Lecturer

Carl Johnson, B.A. (Br.Col.), M.A., Ph.D. (Tor.).

Instructor I

Lynn Rae, B.A., M.A., Ph.D. (Br.Col.).

Adjunct Professor

John Stackhouse, B.A. (Qu.), M.A. (Wharton), Ph.D.
(Chic.).

Lecturers from other Departments

Ashok Aklujkar, Asian Studies; Sylvia Berryman,
Philosophy; Carol Knically, Fine Arts; Harjot Oberoi,
Asian Studies.

DEPARTMENT OF ECONOMICS

Angela Redish, Head

Professors

Paul Beaudry, B.A. (Laval), M.A. (Br.Col.), Ph.D.
(Prin.); Brian R. Copeland, B.A. (Br.Col.), M.A.
(W.Ont.), Ph.D. (Stan.); Michael B. Devereux, M.A.
(U. Coll., Dub.), Ph.D. (Qu.); W. Erwin Diewert, M.A.
(Br.Col.), Ph.D. (Calif., Berkeley), F.R.S.C.; Mukesh
Eswaran, B.Sc. (Jabalpur), M.Sc. (I.I.T.), Ph.D. (Louisiana
State), M.A., Ph.D. (Br.Col.); Robert G. Evans,
B.A. (Tor.), A.M., Ph.D. (Harv.); Nicole Fortin, B.Sc.,
M.A. (Montr.), Ph.D. (Br.Col.); David A. Green, B.A.
(Qu.), Ph.D. (Stan.); Ashok Kotwal, B.Tech, IIT, M.S.
(Idaho), Ph.D. (Boston); Thomas Lemieux, B.A.
(Laval), M.A. (Qu.), Ph.D. (Prin.); Hugh M. Neary,
M.Litt. (Dub.), Ph.D. (Calif., Berkeley); Donald G.
Paterson, M.A. (W.Ont.), D.Phil. (Sus.); Michael
Peters, B.A. (McG.), M.A., Ph.D. (Qu.); Angela
Redish, B.A. (W.Laur.), M.A., Ph.D. (W.Ont.); W.
Craig Riddell, B.A. (R.M.C.), M.A., Ph.D. (Qu.).

Associate Professors

Patrick Francois, B.A. (Hons), M.A. (Melb.), Ph.D.
(Br.Col.); Amartya Lahiri, B.A. (Hons), M.A. (Delhi),
Ph.D. (Maryland); Peter Norman, B.A. (Stockholm),
Ph.D. (Penn.).

Assistant Professors

Siwan Anderson, B.Sc., M.A., Ph.D. (Br.Col.); Matilda
Bombardini, B.A. Hons. (Bologna), Ph.D. (M.I.T.);
Gorkem Celik, B.A. (Bilkent), Ph.D. (Northwestern);
Artem Chnerov, B.Sc. (St. Petersburg Tech. U.), M.A.
(Vanderbilt), Ph.D. (Northwestern); Mauricio
Drelichman, B.A., M.A. (U. de San Andres, Argentina),
Ph.D. (Northwestern); Sergio Firpo, B.A. (U. Estadual
de Campinas, Brazil), Ph.D. (Calif., Berkeley);
Parikshit Ghosh, B.Sc. (Calc.), M.A. (Delhi), Ph.D.
(Boston); Yoram Halevy, B.A., M.A., Ph.D. (Jerusalem);
Vadim Marmar, B.A. Hons, M.A. (Hebrew),
M.A., Ph.D. (Yale); Kevin Milligan, B.Comm. (Qu.),
M.A., Ph. D. (Tor.); Nathan Nunn, B.A. Hons.
(S.Fraser), M.A., Ph.D. (Tor.); Shinishi Sakata, B.A.,
M.A. (Doshisha), M.A., Ph.D. (Calif., San Diego);
Henry Siu, B.A. Hons (Br.Col.), Ph.D. (Northwestern);
Unjy Song, B.S., M.A. (Seoul National University),
Ph.D. (Wis.); Okan Yilankaya, B.A. (Bogazici), Ph.D.
(Northwestern).

DEPARTMENT OF ENGLISH

Gernot R. Wieland, Head

Professors

Laurel J. Brinton, B.A., Ph.D. (Calif., Berkeley);
Richard Anthony Cavell, B.A., M.A. (Br.Col.), Ph.D.
(Tor.); John X. Cooper, B.A. (Sir George Williams),
M.A., Ph.D. (Br.Col.); Dennis R. Danielson, B.A.
(Vic.B.C.), M.A. (Sus.), A.M., Ph.D. (Stan.); Anthony
B. Dawson, B.A. (Loyola), A.M., Ph.D. (Harv.); Siân
Echard, B.A. (Qu.), M.A., Ph.D. (Tor.); Susanna Egan,
B.A. (Cantab.), M.A., Ph.D. (Br.Col.); Margery Fee,
B.A., M.A. (York), Ph.D. (Tor.); Janet Giltrow, B.A.,
M.A., Ph.D. (S.Fraser); Alexander V. Globe, M.A.,
Ph.D. (Tor.); Graham Good, M.A., B.Litt. (Oxon.),
Ph.D. (Prin.); Sherrill E. Grace, B.A. (W.Ont.), M.A.,
Ph.D. (McG.), F.R.S.C.; Sneja Gunew, B.A. (Melb.),
M.A. (Tor.), Ph.D. (N'cle., N.S.W.), F.R.S.C.; Nicholas
Hudson, M.A. (Warw.), D.Phil. (Oxon.); Lee M.
Johnson, B.A. (Hamline), Ph.D. (Prin.); Eva-Marie
Kröller, Staatsexamen (Freiburg), Ph.D. (Alta.); Ira B.
Nadel, M.A. (Rutgers), Ph.D. (C'nell.), F.R.S.C.;
Laurence R. Ricou, B.A. (Manit.), M.A., Ph.D. (Tor.);
Herbert J. Rosengarten, M.A., B.Litt. (Oxon.), Ph.D.
(Cantab.); Mark Vessey, B.A. (Cantab.), D.Phil.
(Oxon.); Jerry Wasserman, B.A. (Adelphi), M.A.
(Chic.), Ph.D. (C'nell.); Lorraine Weir, B.A. (McG.),
M.A., Ph.D. (Dub.); Gernot R. Wieland, B.A., M.A.,
Ph.D. (Tor.).

Associate Professors

Suzy Anger, B.A. (Calif., Berkeley), M.A., Ph.D.
(Wash.); Leslie Arnovick, A.B. (Calif., Davis), Ph.D.
(Calif., Berkeley); Patricia Badir, B.A. (McG.), M.A.
(Alta.), Ph.D. (Leeds); Miranda Burgess, B.A.
(Vic.B.C.), M.A., Ph.D. (Boston); Mary Chapman,
B.A., M.A. (Qu.), Ph.D. (C'nell); Pamela Dalziel, B.A.
(Vic.B.C.), M.A. (Tor.), D.Phil. (Oxon.); Jane M. Flick,
M.A. (Br.Col.); Stephen Guy-Bray, B.A. (Trent), M.A.,
Ph.D. (Tor.); Linc Kesler, B.A. (Yale), M.A., Ph.D.
(Tor.); Eric P. Levy, B.A. (Union Coll.), M.A., Ph.D.
(Stan.); Kevin McNeilly, B.A., M.A. (W.Ont.), Ph.D.
(Qu.); Laura Moss, B.A. (Tor.), M.A. (Guelph), Ph.D.
(Qu.); Judy Z. Segal, B.A. (McG.), M.A., Ph.D.
(Br.Col.); Sandra M. Tomc, B.A. (Guelph), M.A.,
Ph.D. (Tor.); Michael Zeitlin, B.A., M.A., Ph.D. (Tor.).

Assistant Professors

Marlene Briggs, B.A. (Car.), M.A., Ph. D. (Ott.);
Barbara Dancygier, M.A., Ph.D. (Warsaw); Glenn
Deer, B.A. (Alta.), M.A., Ph.D. (York); Jessica deVilliers,
B.A., M.A., Ph.D. (York); Alexander Dick, B.A.,
(Tor.), M.A. (McM.), Ph.D. (W.Ont.); Adam Frank,
B.A. (Brown), Ph.D. (Duke); Elizabeth Hodgson, B.A.
Hons. (Br.Col.), M.A. (Tor.), Ph.D. (Brandeis);
Christina Lupton, M.A. (Sus.), Ph.D. (Rutgers); Jisha
Menon, M.A. (J.Nehru U.), Ph.D. (Stan.); Miguel
Mota, M.A., Ph. D. (Qu.); Stephen B. Partridge, B.A.
(Yale), A.M., Ph.D. (Harv.); Robert Rouse, M.A.
(Auck.), Ph.D. (Brist.).

Senior Instructors

Judith Brown, B.A., M.A. (Br.Col.); Katherine A.
Sirluck, M.A. (Tor.), Ph.D. (Lond.).

Professor Emeritus

Jonathan L. Wisenthal, B.A. (Bishop's), B.Litt.
(Oxon.), Ph.D. (Lond.).

DEPARTMENT OF FRENCH, HISPANIC AND ITALIAN STUDIES

André Lamontagne, Head

Professors

Réjean Beaudoin, B.A. (Laval), M.A., Ph.D. (McG.),
French; Daniela Boccassini, Dott.Lett., Dottorato di
Ricerca (Milan), French and Italian; Hervé Curat, L. ès
L., M. ès L. (Strasbourg), Ph.D. (Laval), French;
Richard G. Hodgson, B.A. (Vic.B.C.), M.A., Ph.D.
(Tor.), French; André Lamontagne, B.A., M.A., Ph.D.
(Laval), French; Jo-Ann McEachern, B.A., M.A., Ph.D.
(Tor.), French; Valerie Raoul, M.A. (Cantab.),
Dip.Soc.Admin. (L.S.E.), M.A. (McM.), Ph.D. (Tor.),
French; Ralph Sarkonak, B.A. (Vic.B.C.), M.A., Ph.D.
(Tor.), French; Carlo Testa, Laurea (Milan), Ph.D.
(Calif., Berkeley), French and Italian.

Associate Professors

Derek C. Carr, B.A. (N'cle.), Ph.D. (Br.Col.), Spanish;
Rita De Grandis, M.A. (S.Fraser), Ph.D. (Montr.),
Spanish; Maria Soledad Fernández Utrera, B.A.
(Madrid), M.A., Ph.D. (S. Calif.), Spanish; Nancy M.
Frelck, B.A. (Vic.B.C.), M.A. (Alta.), Ph.D. (Ill.),
French; Sima N. Godfrey, B.A., M.A. (Tor.), Ph.D.
(C'nell.), French; Gloria Nne Onyoziri, B.A. (Jos,
Nigeria), M.A., Ph.D. (Tor.), French; David F. Rogers,
B.Ed. (Alta.), L. ès L., L. de Ling., M. ès L., Doctorat
de 3e cycle (Montpellier), French; Christine Rouget, L.
ès L., M. ès L., Doctorat (N.R.) (Provence), French;
Isaac Rubio Delgado, Lic., Dr. (Salamanca), Spanish.

Assistant Professors

Jon Beasley-Murray, B.A. (King's College, Cambridge),
M.A. (Wisconsin Milwaukee), Ph.D. (Duke), Spanish;
Rodrigo Cacho, B.A., B.A., Ph.D. (Universidad de
Santiago de Compostela), Spanish; Chantal Phan,
B.Mus., M.A., Ph.D. (Montr.), French; Alain-Michel

Rochelleau, B.A., B.Th., M.A., M.Th., M.S.W., Ph.D. (Laval), French; **William G. Winder**, B.Sc. (N. Carolina), L. ès L. (Montpellier), M. ès L. (Perpignan), D.E.A. (École des Hautes Études, Paris), Ph.D. (Tor.), French.

Senior Instructors

Jocelyne S. Baverel, L.F.A., L. ès L., M. ès L. (Besançon), D.E.A. (Bordeaux III), French; **Jacques Bodolec**, L. ès L. (Caen), M. ès L., Dipl. I.E.P. (Paris), French; **Enrique Manchón**, B.A., M.A. (Br.Col.), Spanish.

Lecturers

Margaret MacRae, B.A. (Br.Col.), M.A., Ph.D. (Tor.), French; **Robert A. Miller**, B.A. (York), M.A., Ph.D. (Tor.), French; **Michael O'Hagan**, B.A. (Tor.), M.A. (N. Carolina), M.Div. (Tor.), Ph.D. (Br.Col.), French; **Anne Scott**, L. ès L., M. ès L., Doctorat de 3e cycle (Bordeaux), Agrégée de Lettres (Fr.), French; **Stephanie Spaccante**, B.A. (Wash.), M.A. (Wash.State).

DEPARTMENT OF GEOGRAPHY

Graeme Wynn, Head

Professors

Trevor J. Barnes, B.Sc. (Lond.), M.A., Ph.D. (Minn.); **Michael Church**, B.A. (Tor.), Ph.D. (Br.Col.), P.Geo., F.R.S.C.; **Derek Gregory**, M.A., Ph.D. (Cantab.), D.Hon. (Roskilde), F.R.S.C.; **Daniel Hiebert**, B.A. (Winn.), M.A., Ph.D. (Tor.); **David Ley**, B.A. (Oxon.), M.S., Ph.D. (Penn. State) F.R.S.C. Canada Research Chair in Geography; **David M. McClung**, B.Sc. (N. Dakota State), A.M. (Roch.), Ph.D. (Wash.), P.Geo.; **Ian G. McKendry**, B.Sc., Ph.D. (Cant., N.Z.); **Timothy R. Oke**, B.Sc. (Brist.), M.A., Ph.D. (McM.), Hon.D. (Lodz); **Geraldine Pratt**, B.A. (Tor.), M.A., Ph.D. (Br.Col.); **John B. Robinson**, B.A. (Tor.), M.E.S. (York), Ph.D. (Tor.); **Graeme Wynn**, B.A. (Sheff.), M.A., Ph.D. (Tor.).

Associate Professors

David W. Edgington, B.Sc. (Lond.), M.Sc. (Edin.), M.U.P. (Melb.), Ph.D. (Monash); **Gregory H. R. Henry**, M.E.S. (Dal.), Ph.D. (Tor.); **Brian Klinkenberg**, B.Sc. (Tor.), M.Sc., Ph.D. (W.Ont.); **R. Daniel Moore**, B.Sc. (Br.Col.), Ph.D. (Cant., N.Z.), P.Geo.; **Elvin K. Wyly**, B.Sc. (Penn. State), M.A., Ph.D. (Minn., Minneapolis).

Assistant Professors

Karen J. Bakker, B.At.Sc. (McM.), D.Phil. (Oxon.); **Mike D. Buzzelli**, B.A. Hons. (York), M.A., Ph.D. (McM.); **Lori D. Daniels**, B. Sc. (Manit.), M.Sc. (Br.Col.), Ph.D. (Colorado); **Brett C. Eaton**, B.Sc. Hons. (Br.Col.), M.Sc. (McG.), Ph.D. (Br.Col.); **Matthew D. Evenden**, B.A. (Qu.), M.A., Ph.D. (York); **Jim F. Glassman**, B.A. (St. Olaf Coll.), Ph.D. (Minn., Minneapolis); **Marwan Hassan**, B.A. (Ben Gurion), M.Sc., Ph.D. (Hebrew); **Merje Kuus**, B.A. (Tartu), M.Sc. (W. Wash.), Ph.D. (Syracuse); **Phillipe Le Billon**, B.Sc. (Angers), M.B.A. (Paris I), D. Phil. (Oxon.); **Juanita R. Sundberg**, B.A. (Trinity), M.A. (New School for Social Research, N.Y.), M.A., Ph.D. (Texas); **Markus Weiler**, B.Sc., M.Sc. (Albert-Ludwigs), Ph.D. (Swiss Federal Inst. of Tech.).

Senior Instructor

Sally A. Hermansen, B.A., M.A. (Qu.).

Professors Emeriti

John D. Chapman, M.A. (Oxon.), Ph.D. (Wash.); **Albert L. Farley**, M.A. (Br.Col.), Ph.D. (Wis.); **R. Colebrook Harris**, O.C., B.A. (Br.Col.), M.A., Ph.D. (Wis.), LL.D. (York), F.R.S.C.; **J. Ross Mackay**, O.C., B.A. (Clark), M.A. (Boston), Ph.D. (Montr.), D.Sc. (Br.Col.), F.R.S.C.; **Terence G. McGee**, B.A. (N.Z.),

M.A., Ph.D. (Well.); **J. Lewis Robinson**, B.A. (W.Ont.), M.A. (Syracuse), M.A., Ph.D. (Clark); **Alfred H. Siemens**, M.A. (Br.Col.), Ph.D. (Wis.); **H. Olav Slaymaker**, M.A. (Cantab.), A.M. (Harv.), Ph.D. (Cantab.), P.Geo.; **John K. Stager**, B.A. (McM.), Ph.D. (Edin.).

Associate Professors Emeriti

Michael J. Bovis, B.A., M.Phil. (Lond.), Ph.D. (Colorado), P.Geo.; **Robert N. North**, M.A. (Cantab.), Ph.D. (Br.Col.).

Assistant Professor Emeritus

Ken Denike, M.Sc. (Br.Col.), A.M., Ph.D. (Penn.).

Senior Instructor Emerita

Margaret E.A. North, B.Sc. (Lond.), M.A. (Kansas).

Senior Instructor Emeritus

Richard Copley, B.A. (Iowa), M.A. (Calif., Berkeley).

Adjunct Professors

Robert Galois, B.A. (Exe.), M.A. (Calg.), Ph.D. (S.Fraser); **Tom Koch**, B.A. (Clark), M.A., Ph.D. (Br.Col.).

DEPARTMENT OF HISTORY

David H. Breen, Head

Professors

Keith Benson, B.A. (Whitworth College), M.A., Ph.D. (Oregon State); **David H. Breen**, B.A. (Alta.), B.Ed., M.A. (Calg.), Ph.D. (Alta.); **Timothy Brook**, B.A. (Tor.), A.M., Ph.D. (Harv.); **Christopher R. Friedrichs**, A.B. (Col.), M.A., Ph.D. (Prin.); **Diana Lary**, B.A., Ph.D. (Lond.); **Dianne Newell**, B.Sc. (Ott.), M.A. (Car.), Ph.D. (W.Ont.); **Arthur J. Ray**, B.A., M.S., Ph.D. (Wis.); **Richard W. Unger**, B.A. (Haverford), A.M. (Chic.), M.A., M.Phil., Ph.D. (Yale); **W. Peter Ward**, M.A. (Alta.), Ph.D. (Qu.).

Associate Professors

Joy Dixon, B.A. (Qu.), M.A. (Sus.), Ph.D. (Rutgers); **George W. Egerton**, B.A. (Manit.), M.A. (Minn.), Ph.D. (Tor.); **William E. French**, B.A., M.A. (Calg.), Ph.D. (Texas, Austin); **Anne Gorsuch**, A.B. (Brown), Ph.D. (Mich.); **Paul L. Krause**, B.A. (Haverford), M.A., Ph.D. (Duke); **Steven H. Lee**, B.A., M.A. (McG.), D.Phil. (Oxon.); **Tina M. Loo**, B.Sc. (Br.Col.), M.A. (Tor.), Ph.D. (Br.Col.); **Robert A. J. McDonald**, B.A., M.A. (Manit.), Ph.D. (Br.Col.); **Richard Menkis**, B.A., M.A. (Tor.), Ph.D. (Brandeis); **Glen Peterson**, B.A. (Manit.), M.A., Ph.D. (Br.Col.); **Allan Smith**, B.A. (Manit.), M.A., Ph.D. (Tor.); **William D. Wray**, B.A., M.A. (Manit.), A.M., Ph.D. (Harv.); **Henry Yu**, M.A., Ph.D. (Prin.).

Assistant Professors

Courtney Booker, B.A., M.A., C.Phil., Ph.D. (Calif., L.A.); **Robert Brain**, B.A. (Calif., Berkeley), M.A. (Wisc.-Madison), Ph.D. (Calif., L.A.); **Alejandra Bronfman**, B.A. (C'nell), M.A., Ph.D. (Prin.); **Eagle Glassheim**, B.A. (Dartmouth Coll., N.H.), M.A., M.Phil. (Col.), Ph.D. (Col.); **Leslie Paris**, B.A. (Brown), M.A., Ph.D. (Mich.); **Paige Raibmon**, B.A. (Br.Col.) M.A. (Duke), Ph.D. (Duke); **John Roosa**, B.A. (Tufts), M.A., Ph.D. (Wisc.-Madison); **Leo K. Shin**, A.B., Ph.D. (Prin.); **Coll Thrush**, B.A. (W.Wash.) Ph.D. (Wash.).

Senior Instructors

Allen Sens, B.A., M.A. (Br.Col.), Ph.D. (Qu.); **Arlene Sindclair**, M.A. (Iowa), Ph.D. (Miss.).

International Relations Program

Allen Sens, Chair.

DEPARTMENT OF LINGUISTICS

Joseph Stemberger, Head

Professors

Eric Bateson, B.A., B.Sc. (St. John's MD), M.A., Ph.D. (Indiana); **Douglas Pulleyblank**, B.A. (Ib., Nigeria), Ph.D. (M.I.T.); **Michael Rochemont**, B.A. (McG.), Ph.D. (Mass.); **Joseph Stemberger**, B.A. (Penn. State), M.A., C.Phil., Ph.D. (Calif., San Diego).

Associate Professors

Guy Carden, A.B., Ph.D. (Harv.); **Henry Davis**, B.A. (Cantab.), Ph.D. (Br.Col.); **Rose-Marie Déchaine**, B.A. (Alta.), M.A. (Queb.), Ph.D. (Mass.); **Patricia A. Shaw**, B.A. (Manit.), M.A., Ph.D. (Tor.).

Assistant Professors

Bryan Gick, B.A. (Penn.), M.A., Ph.D. (Yale); **Gunnar Hansson**, B.A. (Iceland), M.A. (Calif., Berkeley), Ph.D. (Calif., Berkeley); **Lisa Mattewson**, B.A., B.A. (Hones), M.A. (Well.), Ph.D. (Br.Col.); **Holtze Rullman**, M.A. (Gron.), Ph.D. (Mass.); **Martina Wiltschko**, Magister Phil. (Vienna), Doktor Phil. (Vienna).

DEPARTMENT OF PHILOSOPHY

Margaret Schabas, Head

Honorary Professors

Michael McDonald, B.A. (Tor.), M.A., Ph.D. (Pitt.).

Professors

John Beatty, Ph.D. (Indiana); **Andrew Irvine**, B.A. (Sask.), M.A. (W.Ont.), Ph.D. (Syd.); **Dominic Lopes**, B.A. (McG.), D.Phil. (Oxf.); **Alan Richardson**, B.A. (Penn.), M.A. (Pitt.), Ph.D. (Ill., Chic.); **J. Paul Russell**, B.A. (Qu.), M.A. (Edin.), Ph.D. (Cantab.); **Steven F. Savitt**, A.B. (Col. Coll.), Ph.D. (Brandeis); **Margaret Schabas**, B.S., A.M. (Indiana), M.A. (Mich.), Ph.D. (Tor.).

Associate Professors

Paul Bartha, B.Sc., M.A. (Tor.), Ph.D. (Pitt.).

Assistant Professors

Scott Anderson, B.A. (Indiana), Ph.D. (Chic.); **Sylvia Berryman**, B.A. (Br.Col.), M.A. (Oregon), Ph.D. (Texas); **Christina Hendricks**, B.A. (Univ. of Idaho), M.A., Ph.D. (Univ. of Texas at Austin); **Patrick Rysiew**, B.A. (S.Fraser), M.A. (Dal.), Ph.D. (Arizona); **Ori Simchen**, M.A. (Tel Aviv), Ph.D. (Harv.); **Christopher Stephens**, B.A. (Kansas), M.A., Ph.D. (Wis.).

Adjunct Professors

Peter Schouls, B.A., M.A., Ph.D. (Tor.); **John Woods**, B.A. (Tor.), M.A. (Tor.), Ph.D. (Mich.).

Senior Instructor

Leslie Burkholder, Ph.D. (M.I.T.).

Lecturers from Other Departments

Ashok N. Aklujkar, Asian Studies; **Robert Brain**, History; **Shirley D. Sullivan**, Classical, Near Eastern and Religious Studies; **Steven Taubeneck**, Classical, Near Eastern and Religious Studies.

DEPARTMENT OF POLITICAL SCIENCE

Richard Johnston, Head

Professors

Michael Byers, B.A. (Sask.), LL.B., B.C.L. (McG), Ph.D. (Camb.), D.Phil. (Oxf.); **Maxwell A. Cameron**, B.A. (Br.Col.), M.A., Ph.D. (Calif., Berkeley); **Edwin Colin Campbell**, B.A. (Gonzaga), M.A. (Alta.), Ph.D. (Duke); **R. Kenneth Carty**, B.Sc.F. (New Br.), M.A. (Oxon.), Ph.D. (Qu.); **Brian L. Job**, B.A., M.A. (Alta.),

Ph.D. (Indiana); **Richard G. C. Johnston**, B.A. (Br.Col.), M.A., Ph.D. (Stan.); **Samuel V. Laselva**, B.A., M.A. (W.Ont.), D.Phil. (Oxon.); **Paul J. Marantz**, B.A. (C'nell.), M.A., Ph.D. (Harv.); **Diane K. Mauzy**, B.A., M.A. (San José), Ph.D. (Br.Col.); **Paul J. Quirk**, B.A. (Marquette), Ph.D. (Harv.); **Philip Resnick**, B.A., M.A. (McG.), Ph.D. (Tor.); **Allan Tupper**, B.A., M.A. (Car.), Ph.D. (Qu.); **Michael D. Wallace**, B.A., M.A. (McG.), Ph.D. (Mich.); **Mark Warren**, B.A. (Lewis and Clark), Post Bacc. (Oregon), M.A., Ph.D. (Tor.).

Associate Professors

Barbara Arneil, B.A. (Vic.B.C.), M.Sc. (Lond. School of Econ.), Ph.D. (Lond.); **Peter A. Busch**, B.A. (Harv.), M.A. (Wis.), Ph.D. (Yale); **Peter Dauvergne**, B.A., M.A. (Car.), Ph.D. (Br.Col.); **Kathryn Harrison**, B.E.Sc. (W.Ont.), S.M., S.M. (M.I.T.), Ph.D. (Br.Col.); **Richard Price**, B.A. (Alta.), M.A. (Car.), Ph.D. (C'nell).

Assistant Professors

Gerald Baier, B.A. (Calg.), M.A. (Sask.), Ph.D. (Dal.); **Bruce Baum**, B.A. (Vanderbilt), Ph.D. (Minn.); **Katharina Coleman**, B.A. (Oxf.), M.A. (Cape T.), Ph.D. (Prin.); **Fred Cutler**, B.A. (Tor.), Ph.D. (Mich.); **Antje Ellermann**, B.Sc. (Bath), M.A., Ph.D. (Brandeis); **Kenneth Foster**, B.S. (C'nell.), M.A. (Indiana), M.A., Ph.D. (Calif., Berkeley); **Alan Jacobs**, B.A. (Yale), M.Sc. (Bath, Engl.), A.M., Ph.D. (Harv.); **Laura Janara**, B.A. (Alta.), M.A. (Dal.), Ph.D. (Minn.); **Christopher J. Kam**, B.A. (Hons) (Carleton), M.A. (S.Fraser), Ph.D. (Roch.); **Lisa McIntosh Sundstrom**, B.A. (Vic.B.C.), Ph.D. (Stan.); **Angela O'Mahony**, B.A. (Calif., L.A.), Ph.D. (Calif., San Diego); **Yves Tiberghien**, M.B.A. (HEC, France), M.A. (Stan.), Ph.D. (Stan.).

Adjunct Professor

Robert H. Jackson, B.A., M.A. (Br.Col.), Ph.D. (Calif., Berkeley).

Senior Instructor

Allen Sens, B.A., M.A. (Br.Col.), Ph.D. (Qu.), International Relations Program Chair.

Honorary Associate Professor

Campbell Sharman, B.A. (Adel.), M.Sc. (Lond. School of Econ.), M.A., Ph.D. (Qu.).

Associate Members

Paul Evans, B.A., M.A. (Alta.), Ph.D. (Dal.), Institute of Asian Research; **George Hoberg, Jr.**, B.Sc. (Calif. Berkeley), Ph.D. (M.I.T.), Forestry.

DEPARTMENT OF PSYCHOLOGY

Eric Eich, Head

Professors

Lynn Alden, B.Sc. (Iowa), M.A., Ph.D. (Ill.); **Stanley Coren**, A.B. (Penn.), Ph.D. (Stan.); **Donald G. Dutton**, B.A., M.A., Ph.D. (Tor.); **Eric Eich**, B.A. (Maryland), M.A., Ph.D. (Tor.); **James T. Enns**, B.A. (Winn.), M.A., Ph.D. (Prin.); **Boris Gorzalka**, B.Sc. (McG.), Ph.D. (Calif., Irvine); **Peter Graf**, B.Sc. (Tor.), Ph.D. (McM.); **A. Ralph Hakstian**, B.A. (Br.Col.), M.A., Ph.D. (Colorado); **Geoffrey Hall**, B.A. (McG.), A.M., Ph.D. (Harv.); **Paul Hewitt**, B.A. (Manit.), M.A., Ph.D. (Sask.); **Charlotte Johnston**, B.A., M.Sc. (Calg.), Ph.D. (Flor.); **Alan Kingstone**, B.Sc. (Trent), Ph.D. (Mich.); **Darrin R. Lehman**, B.A. (Calif., Santa Cruz), M.A., Ph.D. (Mich.); **Wolfgang Linden**, Dipl. Psychology (Münster), Ph.D. (McG.); **Delroy L. Paulhus**, B.A. (Car.), M.S., Ph.D. (Col.); **John P. J. Pinel**, B.A., M.A. (Calg.), Ph.D. (McG.); **Catherine Rankin**, B.A., M.A. (Guelph), B.Ed. (W.Ont.), Ph.D. (C.U.N.Y.); **Mark Schaller**, B.A. (N. Carolina, Chapel Hill), M.A., Ph.D. (Arizona State); **Jonathan Schooler**, B.A. (Hamilton College), M.S., Ph.D. (U. Wash.); **Richard C. Tees**,

B.A. (McG.), Ph.D. (Chic.); **Lawrence J. Walker**, B.A. (New Br.), Ph.D. (Tor.); **Lawrence M. Ward**, A.B. (Harv.), Ph.D. (Duke); **Janet Werker**, B.A. (Harv.), M.A., Ph.D. (Br.Col.); **Donald M. Wilkie**, B.A. (Bran.), M.A., Ph.D. (Manit.); **John Yuille**, B.A., M.A., Ph.D. (W.Ont.).

Associate Professors

Edith Chen, B.A. (Harv.), M.A., Ph.D. (Calif., L.A.); **Anita Delongis**, B.A., Ph.D. (Calif., Berkeley); **Liisa Galea**, B.Sc. (Qu.), M.A., Ph.D. (W.Ont.); **Steve Heine**, B.A. (Alta.), M.A., Ph.D. (Br.Col.); **Tannis MacBeth**, B.A. (Br.Col.), M.S., Ph.D. (Purdue); **Gregory Miller**, B.A., M.A., Ph.D. (Calif., L.A.); **Ron Rensink**, B.Sc. (Wat.), M.Sc., M.Sc., Ph.D. (Br.Col.); **Sheila Woody**, A.B. (Georgia), M.A., Ph.D. (American); **Fei Xu**, B.A. (Smith Coll.), Ph.D. (M.I.T.).

Assistant Professors

Jeremy C. Biesanz, A.B. (C'nell.), M.A., Ph.D. (Arizona State U.); **Susan A. J. Birch**, B.Sc. (St.FX.), M.Sc., Ph.D. (Yale); **Scott R. Carlson**, B.A., Ph.D. (Minn.); **Brian Christie**, B.Sc., M.Sc. (Calg.), Ph.D. (Otago); **Kalina Christoff**, B.Sc., M.Sc. (New Bulgarian U.), Ph.D. (Stan.); **Elizabeth W. Dunn**, B.A. (Harv.), M.A., Ph.D. (Virginia); **Stanley Floresco**, B.Sc., M.A., Ph.D. (Br.Col.); **Todd Handy**, B.Sc. (Calif., Davis), M.A. (Vanderbilt), Ph.D. (Calif., Davis); **Ara Norenzayan**, B.A. (Calif., Fresno), Ph.D. (Mich.); **Kiran Soma**, B.A. (Stan.), Ph.D. (Wash.); **Jessica Tracy**, B.A. (Amherst Coll.), Ph.D. (Calif., Davis).

Professor Emeritus

Fred P. Valle, A.B. (Calif., Riverside), Ph.D. (Mich.).

DEPARTMENT OF THEATRE, FILM AND CREATIVE WRITING

Robert Gardiner, Head

Professors

Sue Ann Alderson, B.A. (Antioch), M.A. (Ohio), Creative Writing; **Errol Durbach**, M.A. (Rhodes), M.A. (Cantab.), Ph.D. (Lond.), Theatre; **Robert Gardiner**, B.A. (Calif.), M.F.A. (Wash.), Theatre; **Keith Maillard**, Creative Writing; **Brian McLroy**, B.A. (Sheff.), M.A. (Leeds), Ph.D. (Br.Col.), Film; **Linda Svendsen**, B.A. (Br.Col.), M.F.A. (Col.), Creative Writing; **Jerry Wasserman**, B.A. (Adelphi), M.A. (Chic.), Ph.D. (C'nell.), Theatre/English.

Associate Professors

Cathy Burnett, B.A. (Utah), M.F.A. (Boston), Theatre; **Robert Eberle**, Theatre; **Ronald Fedoruk**, B.F.A. (Calg.), M.F.A. (Vic.B.C.), Theatre; **Neil Freeman**, B.A., M.A. (Nott.), Theatre; **Chris Gallagher**, B.F.A. (Br.Col.), Film; **Alison Green**, B.F.A., M.F.A. (Br.Col.), Theatre; **Stephen Heatley**, B.A. (Brock), M.F.A. (Alta.), Theatre; **Kirsty Johnston**, B.A. (Qu.), M.A. (Tor.), Ph.D. (Tor.), Theatre; **Stephen Malloy**, B.A. (Ott.), M.F.A. (Vic.B.C.), Theatre; **Sharon McGowan**, M.F.A. (Br.Col.), Film; **Gayle Murphy**, B.F.A. (Calg.), M.F.A. (York), Theatre; **Peggy Thompson**, Creative Writing; **Bryan Wade**, B.A. (Vic.B.C.), M.F.A. (Calif., L.A.), Creative Writing.

Assistant Professors

Meryn Cadell, Creative Writing; **Lisa Coulthard**, B.A. (Br.Col.), M.A. (Br.Col.), Ph.D. (Toronto), Film; **Kirsty Johnston**, B.A. (Qu.), M.A. (Tor.), Theatre; **Maureen Medved**, B.A. (Manit.), M.F.A. (Br.Col.); **Tom Scholte**, B.F.A., M.F.A. (Br.Col.), Theatre; **Rhea Tregobov**, B.A. (Manit.), M.A. (Boston).

Senior Lecturers

Lynne Bowen, B.Sc. (Alta.), R.N. (Alta.), M.A. (Vic.B.C.); **Andreas Schroeder**, B.A. (Br.Col.), M.A. (Br.Col.).

Lecturers

Alison Acheson, B.A. (Br.Col.), M.F.A. (Br.Col.); **Lisa Beley**, B.F.A. (Br.Col.); **Frank Borg**, M.F.A. (Br.Col.); **Diane Burgess**, M.A., M.F.A. (Br.Col.); **Najat Dajani**, M.A. (Bath., U.K.), M.F.A. (Br.Col.); **Jean Driscoll-Bell**, Theatre; **Sandra Ferens**, B.A. (Manit.), M.A. (Br.Col.); **Steven Galloway**, B.F.A., M.F.A. (Br.Col.); **Mark Harris**, M.A., Ph.D. (Br.Col.); **Martin Kinch**, B.A. (Hons.) (Ont.); **Elia Kirby**, B.A. (S.Fraser), M.A. (Br.Col.); **Patsy Kotsopoulos**, B.A. (Ont.), M.A., Ph.D. (Br.Col.); **Sheila Langston**, B.F.A. (Concordia); **Don Mowatt**, B.A. (Br.Col.); **Gennie Senior**, B.A. (Br.Col.); **Annie Smith**, B.A. (Br.Col.); **Shannon Stewart**, B.A. (Hons.) (Concordia), M.F.A. (Br.Col.); **Richard Van Camp**, M.F.A. (Br.Col.); **Christine Willes**, B.Ed. (Br.Col.), B.F.A. (Alta.), M.A. (Br.Col.), Theatre; **Jill Wyness**, B.F.A. (Hons.) (Vic.B.C.).

Adjunct Professors

Gail Anderson-Dargatz, **Susan Bertoia**, B.F.A. (Br.Col.); **Alan Brodie**, B.F.A. (Br.Col.), Theatre; **John Cooper**, B.A. (Hons.) (Guelph), M.F.A. (Br.Col.); **Rachel Ditor**, B.Eng. (McG.), M.F.A. (Br.Col.); **Zsuzsi Gartner**; **Gary Geddes**; **Terry Glavin**; **Eileen Hoeter**; **Craig Holzschuh**, B.A. (Hons.) (Ott.), M.F.A. (Br.Col.); **Andreas Kahre**, B.F.A. (Br.Col.); **Karin Konoval**, B.A. (Alta.), M.A. (Br.Col.); **Byron Lamarque**, B.A. (Br.Col.), M.F.A. (Br.Col.); **Colleen Lanki**, B.F.A. (Ont.), M.F.A. (Hawaii); **Catherine Lee**; **David Mackay**, B.F.A. (Br.Col.); **Jayson McLean**; **Bill Millerd**, B.A. (Br.Col.); **Susan Musgrave**; **David Roberts**; **Cathryn Robertson**; **Sarah Rodgers**, B.F.A. (Br.Col.), M.F.A. (Br.Col.); **K.J. Sanchez**, B.A. (Calif.), M.F.A. (Calif.); **Marguerite Witvoet**; **Richard Wolfe**, B.A., B.Ed. (Sask.), M.F.A. (Br.Col.); **John Zaritsky**.

WOMEN'S STUDIES PROGRAM

Wendy Frisby, Chair

L. Angeles, cross-appointed to Community and Regional Planning; **S. Gunew**, cross-appointed to English; **S. Orbaugh**, cross-appointed to Asian Studies; **V. Raoul**, cross-appointed to French, Hispanic, and Italian Studies; **B. Ross**, cross-appointed to Anthropology and Sociology; **V. Strong-Boag**, cross-appointed to Educational Studies; **S. Thobani**, cross-appointed to Centre for Research in Women's Studies and Gender Relations.

2006-07

4 The School of Audiology and Speech Sciences

A SCHOOL WITHIN THE FACULTY OF MEDICINE

Director's Office

David R. Stapells, Director

5804 Fairview Avenue
Vancouver, BC, V6T 1Z3
Telephone: 604-822-5591
Fax: 604-822-6569

Web: Audiology and Speech Sciences Website
(www.audiospeech.ubc.ca)

The School of Audiology and Speech Sciences endeavours to advance knowledge of human communication and its disorders by actively engaging in research, and by educating individuals to become audiologists, speech-language pathologists, and researchers. In its teaching and research programs, the School emphasizes both the importance of basic science to the understanding of communication disorders and the relevance of clinical data to theories of human communication.

The study of human communication forms the basis of, and unifies, the scientific and professional fields of Audiology and Speech-Language Pathology. This study is concerned with hearing and speech function, and with the understanding and use of language at all levels of physiological, linguistic, psychological, and sociocultural organization. It is framed by theories and empirical evidence from acoustics, psychology, physiology, linguistics, and related disciplines, and embraces a continuum of endeavour from basic research to clinical practice.

The School's Master of Science and Doctor of Philosophy programs are designed to insure that graduates are grounded in the basic and applied sciences, can address complex communication problems within an interdisciplinary framework, and understand the relevance of theory in research as well as practical endeavours.

MASTER OF SCIENCE

The School of Audiology and Speech Sciences offers a graduate program leading to the Master of Science. This program is designed to provide the scientific and clinical education necessary for the professions of Audiology and Speech-Language Pathology. Students must designate a Major in one of these two fields at the time of admission. The Master of Science program will require 24 to 36 months to complete, depending on the student's undergraduate preparation.

As well as providing opportunities for graduate research on human communication and its disorders, the Master of Science program enables graduates to complete the academic and practical requirements for professional certification. The curriculum alternates periods of university-based study with periods of supervised clinical practice in the community. During these externships the student gradually assumes clinical responsibility for clients, under supervision. The clinical education program strives to provide each student with experience in all aspects of the Major professional area as well as a foundation of clinical experience in the Minor. Graduates will have completed at least the minimum number of hours of clinical practice required for certification by Canadian professional associations.

ACADEMIC ADVISING

Students are assigned to a faculty advisor prior to the beginning of their first term. This assignment may change as the student's research interests mature.

ADMISSION

Admission is on a competitive basis. At a minimum, applicants must have a cumulative average of at least 76% over the last two years of a four-year undergraduate degree, and at least 12 credits with a minimum grade of 80% in courses at the 300 level or above. Applicants must also have appropriate undergraduate preparation as defined below.

Most students seeking to specialize in Speech-Language Pathology find that degree programs in Linguistics or Psychology are the best route to achieving the necessary undergraduate preparation for the M.Sc. degree program.

For students seeking to specialize in Audiology, the routes for preparation are diverse and could include an undergraduate degree in, for example, engineering, psychology, biology, or physics.

Students with other academic backgrounds who have outstanding academic records and who are interested in applying to either Speech-Language Pathology or Audiology should write to the Chair of the School's Admissions Committee with the details of their academic preparation.

Prerequisite Courses

Background coursework in the specific content areas listed below is considered to be essential preparation for specialization in either Audiology or Speech-Language Pathology in the Master of Science curriculum. Coursework in at least five of these areas must be completed prior to applying for admission. An extended study program is available to a small number of students of exceptional merit. Students in this track complete the prerequisite courses during the first year of their Master of Science program. The number and combination of courses available to them during this year depends upon the requirements, and upon the course scheduling of the UBC department offering the course.

Completion of the M.Sc. degree in Audiology or Speech-Language Pathology will require courses in ALL of the prerequisite content areas listed for the chosen specialization. To ensure that the graduate degree can be completed within 24–36 months and to avoid problems related to schedules and prerequisites, students are strongly advised to complete as much of this preparation as is possible prior to entry.

Note that the list of prerequisite content areas differs depending on whether the student intends to specialize in Speech-Language Pathology or Audiology, and also that admission to the M.Sc. Program is competitive and takes into consideration the overall program of study. All things equal, students who complete a coherent degree program in a field fundamental to human communication will have the advantage.

Note the prerequisites below for Speech-Language Pathology and Audiology, respectively:

SPEECH-LANGUAGE PATHOLOGY:
MINIMUM PREREQUISITES FOR ADMISSION TO
THE SPEECH-LANGUAGE PATHOLOGY MAJOR

Course Content	Minimum Credits ¹
Phonology	3
Syntax	3
Speech Science	3
Language Acquisition	3
Phonetics ²	evidence of competency
Developmental Psychology	3
Cognitive Psychology or Psycholinguistics	3
Research Methods ³	3

Course Content (Continued)	Minimum Credits ¹
Neuroanatomy	1.5
Neurolinguistics	1.5

¹ Courses are to be at the upper level (300 or 400) when possible. Note that most upper-level courses have prerequisites at the 100 or 200 level. A 3 credit course is equivalent to a one term course which meets 3 hours per week.

² Students are required to provide evidence of transcription competencies when they apply.

³ Must include Research Design

Additional Coursework Recommended for Speech-Language Pathology Applicants: For students majoring in Speech Sciences or Linguistics, undergraduate preparation could include additional coursework in Psychology such as Cognitive Psychology, Development, Psycholinguistics, Adulthood and Aging, and Counselling as well as Linguistics.

For students majoring in Psychology, additional undergraduate preparation could include, for example, further courses in Linguistics such as Speech Science, Semantics, Syntax, Morphology, Discourse, Sociolinguistics, and/or courses in Psychology such as those listed in the previous paragraph.

AUDIOLOGY: MINIMUM PREREQUISITES FOR ADMISSION TO THE AUDIOLOGY MAJOR:

Course Content	Minimum Credits ¹
Introduction to Physics (energy and waves)	3
Developmental Psychology	3
Sensation/Perception	3
Research Methods ²	3
Introduction to Linguistics	3
Neuroanatomy	1.5

¹ A 3 credit course is equivalent to a one term course which meets 3 hours per week.

² Must include Research Design

ADDITIONAL COURSEWORK RECOMMENDED FOR AUDIOLOGY APPLICANTS

For students who plan to specialize in Audiology, additional undergraduate preparation could include, for example, Brain and Behaviour, Adulthood and Aging, additional Developmental Psychology, Cognitive Psychology, Counselling, Biology, Phonology, Syntax, Acoustic Phonetics, Discourse, and Statistics.

Application for Admission

Persons interested in applying to the School's Master of Science program should apply online (grad.ubc.ca/apply/online). The School reviews applications at two points, late January and early March. Applicants who wish to be considered for financial support should submit their applications before mid-January. All other applicants should submit their applications before February 28. Ordinarily, the second review of applications fills the class, but if spaces remain, further offers of admission will be made in April. Applicants of exceptional merit may receive offers of early admission upon receipt of their application materials. Further questions should be directed to the

Chair of the Admissions Committee in the School of Audiology and Speech Sciences.

The following materials must be submitted in order for the Admissions Committee to consider an applicant:

1) An online application grad.ubc.ca/apply/online/, including a list of completed prerequisite courses.

The following should be sent directly to the School of Audiology and Speech Sciences:

2) A written statement by the applicant of up to 500 words (typewritten, double-spaced) indicating the reason for wishing to study Audiology or Speech-Language Pathology, the aspects of the field which are of particular interest to the applicant and any other relevant facts. At the end of the statement, a list should be given with the names of the professionals (at least one audiologist and one speech-language pathologist) with whom the applicant has met to discuss their respective professions and/or whom she or he has observed in the course of their practice.

3) Two official transcript(s) of all post-secondary institutions attended. If still attending university at the time of application, the applicant should send the most recent transcript available from that institution, as well as a list of the courses in which the applicant is currently enrolled, including the standing at the time. An official and complete transcript should also be sent as soon as available, even if past the application deadline. If any transcript is not in English or French, an official translation must be provided.

4) Three letters of reference, two of which must be academic references. Where possible, at least two of the letters should be written by professors who taught the applicant in the last two years of university work. These letters must be mailed directly to the School by the referees.

5) Proof of proficiency in the English language is required if English is not the applicant's native language AND the applicant is not a graduate of a Canadian university. No offer of admission to the University will be made until we receive one of the following: TOEFL, including TSE, (minimum acceptable score for admission is 600 paper form, 250 computer form); IELTS (minimum acceptable score is 7).

6) Applicants who are non-native speakers of English must also provide a five to ten minute recording of their speech (cassette or CD). This speech sample can be on any topic, as long as it is neither read nor recited. A telephone interview may follow.

It is the applicant's responsibility to ensure that all of these documents are received by the School. No application will be processed until all of the materials listed above have been received.

Scholarships and Financial Support

Due to changes in the University's policies, the School has only limited funding for first-year graduate students. Whenever possible, students should apply for NSERC, SSHRC, or CIHR scholarships in the October prior to their application to the School. The School will assist outstanding students to apply for support for their second year of study. Other students may qualify for Canada Student Loans, or other awards and financial assistance programs. The School is pleased to document admissions status for students who may be applying for financial assistance.

DEGREE REQUIREMENTS

The M.Sc. program is designed to span 24–36 consecutive months. Note, however, that the prerequisite courses listed above are considered to be an integral part of the School's curriculum. Students who have not completed these foundation courses at the time of admission will be required to do so, or to demonstrate equivalent knowledge, prior to receiving the M.Sc. degree. Please refer to the School of Audiology and Speech Sciences website (www.audiospeech.ubc.ca) for details on the program of study for both Audiology and Speech-Language Pathology.

Completion of the Master of Science requires fulfillment of the prerequisite requirements, completion of a minimum of 30 credits of graduate coursework, and grades of 68% (B-) or higher in at least three of the clinical externship courses. In addition to course-related requirements, all students must complete either a thesis or a graduation paper. These requirements are most commonly met in the course of study described on the School's website.

Electives Students in the M.Sc. program are required to take elective credits, and the School encourages students to take electives outside their discipline, either within the School or in other Departments at the University as their schedule permits. Suitable electives may be offered, for example, by The College of Health Disciplines, Educational Psychology/ Special Education/Counseling Psychology, Nursing, Neuroscience and Psychology. A list of approved electives will be provided during the program.

Clinical Externships

In their practicum experiences, students provide supervised clinical service to persons with communication disorders. Professional ethics mandate that the School avoid assigning students to clinical work if their level of knowledge, clinical skill or language competencies might lead to errors in judgment that could adversely affect their clients/patients. For this reason, student performance is evaluated by the faculty members as a whole prior to the initial externship. To qualify for clinical externship placement, a student must:

1) complete the laboratory portions of clinical courses with a grade of at least 68%;

- 2) meet the Faculty of Graduate Studies requirements for continuation in the degree program; and
- 3) demonstrate competency in oral English, both comprehension and production, which is adequate for clinical practice in English. This judgment is made by faculty members teaching courses with clinical content.

The School is very aware of the need to prepare audiologists and speech-language pathologists who can provide service to a linguistic and culturally diverse population. To this end, we will help non-native speakers of English to find assistance in meeting the third criterion. This may, however, lead to delays in obtaining the Master of Science degree. Prospective students who wish further advice on this matter should arrange for an interview.

As noted above, to complete the Master of Science degree, all students are required to achieve 68% (B-) or higher in at least three clinical externship courses. Students who initially fail to meet this requirement may apply to retake one or more of these courses. The decision on this application will be made by the School's faculty based upon such criteria as the likelihood of improved performance and the availability of an appropriate practicum site. Finally, students should also note that one of their externship placements is likely to require temporary relocation outside the Vancouver area, e.g., to Kelowna. This may entail some additional expense.

DOCTOR OF PHILOSOPHY

An applicant to the doctoral program should have completed a Master's degree, typically in Audiology and Speech Science, Psychology, Linguistics, or a related discipline. Eligibility for admission will be decided by the Doctoral Studies Committee. The committee will consist of the Graduate Advisor and a minimum of three other full members of the graduate faculty who are full-time faculty at the School. The decision of the committee will be based on the following criteria:

- **Academic Standing:** A first-class (A) average based on relevant graduate and senior undergraduate courses, with first-class standing in at least 18 credits of graduate work.
- **Research Potential:** Evidence of research ability as shown by a Master's thesis or equivalent, and positive evaluations of research potential by three referees, who are themselves researchers.
- **Research Plan:** A detailed statement of research interests and reasons for pursuing advanced study, which is used to match applicant and faculty research interests.
- **Supervisor:** In order for a student to be accepted, a full member of graduate faculty holding an appointment in the School must agree to chair the student's Program Advisory Committee and to supervise the student's dissertation.

DEGREE REQUIREMENTS

The student normally will be recommended for advancement to candidacy when he/she has:

- 1) completed the residency period required by the Faculty of Graduate Studies;
- 2) completed all coursework and research training as required by the Faculty of Graduate Studies and according to the plan set out by the program advisory committee;
- 3) passed the comprehensive examination; and
- 4) had a dissertation proposal approved by the Dissertation Committee.

Completion of the degree also requires that the student write a dissertation passed by an examination committee according to the requirements of the Faculty of Graduate Studies.

A brochure giving details of this program is available from the School's office, as well as the School's website (www.audiospeech.ubc.ca).

ACADEMIC STAFF

Professors

Judith R. Johnston, B.A., M.A. (Stan.), Ph.D. (Calif., Berkeley); David R. Stapells, B.A. (S.Fraser), Ph.D. (Ott.).

Associate Professor

Barbara M. Bernhardt, B.A., M.Sc., Ph.D. (Br.Col.); Jeff A. Small, B.A. (Cent. Wash.), M.A. (New Mex.), Ph.D. (Calif., L.A.).

Assistant Professors

Lorienne Jenstad, B.A. (Qu.), M.A. (W.Ont.), Ph.D. (Wash.); Stefka Marinova-Todd, B.A. (Tor.), Ed.M., Ph.D. (Harv.); Sandra McCoy, B.A. (Mass.), M.A. (Maryland U.), Ph.D. (Brandeis); Navid Shahnav, B.Sc. (Tehran), M.Sc., Ph.D. (McG.).

Senior Instructor

Elizabeth D. Macleod, B.A., M.Sc. (Br.Col.).

Instructor

Cynthia B. Bruce, B.A. (Manit.), M.A. (N. Dakota).

Research Associate

Linda Rammage, B.A. (Alta.), M.Sc. (Br.Col.), Ph.D. (Wis., Madison).

Clinical Professor

Barbara A. Purves, B.A. (S.Fraser), M.Sc. (Br.Col.).

Clinical Associate Professors

Brent McNeill, B.A., M.A. (W.Wash.); Carol Woodworth, B.A., M.Sc. (Br.Col.).

Clinical Assistant Professors

Sharon Adelman, B.Sc. (McG.), M.Sc. (Br.Col.); Lisa Avery, B.A. (Ott.), M.H.Sc. (Tor.); Suzanne E. Barry, B.A. (Mt. St. Vin.), M.Sc. (Br.Col.); Terry Batt, B.A. (Calif., Berkeley), M.Sc. (Br.Col.); Susan Blockberger, B.A. (Vic.B.C.), M.A. (Northwestern); Sandi Bojm, B.A. (Tor.), M.Sc. (McG.); Marie Bremner, B.Sc. (Tor.), M.Sc. (McG.); Elizabeth Brooks, B.A. (W.Ont.), M.Sc. (Br.Col.); Daniel J. Carlson, B.A. (S.Fraser), M.Sc. (Br.Col.); Marilou Carrillo, B.Sc. (Northwestern), M.S.P.A. (Wash.); Marcia Choi, B.A., M.Sc. (Br.Col.); Susan M. Clarke, B.A., M.A. (W.Wash.); Dina Y. Collins, B.A. (Br.Col.), M.A. (W.Wash.); Barbara Cotter, B.A., M.A. (Mich.); Lori Davies, B.Sc. (Alta.), M.A. (W.Wash.); Wendy Duke, B.A., M.Sc. (Br.Col.);

Dorothy Fairholm, B.A., M.Sc. (Br.Col.); Patrick Greenwood, B.A., M.A. (W.Wash.); Cindy L. Gustin, B.A., M.Sc. (Br.Col.); Wilma C. Haig, L.C.S.T. (Glas.); Sheila Kearney, B.A., M.Sc. (Br.Col.); Anne MacCallum, B.A., M.Sc. (Br.Col.); Catherine Manning, B.A., M.Sc. (Br.Col.); Colette Massie, L.C.S.T. (Glas.), M.Sc. (Lond.); Marianne McCormick, B.A. (Alta.), M.Phil. (Cantab.), M.Sc. (Br.Col.); Christina Moes, B.A. (McG.), M.Sc. (Br.Col.); Christina Mortimore, B.A., M.Sc. (Br.Col.); George M. Muller, B.A. (H.K.), M.A. (Wash.); Ann Marie Newroth, B.Sc., M.Sc. (Br.Col.); Jo Nussbaum, B.A. (Austin), M.A. (Indiana); Sijke Pijl, B.Ed. (Br.Col.), M.A. (W.Wash.); David Platt, B.A. (York, Can.), M.Sc. (Br.Col.); Elizabeth Porteous, B.A., M.S.L.P. (Alta.); Cynthia Reynolds, B.A. (Guelph), M.H.Sc. (Tor.); Susan Robbins, B.A., M.Sc. (Br.Col.); Sue Scott, B.A. (Qu.), M.Sc. (Br.Col.); Mae Seto Quan, B.A. (Sask.), B.A. (N.Dakota), M.A. (W.Wash.); Grace Shyng, B.A., M.Sc. (Br.Col.); Sandra Taylor, B.A., M.Sc. (Br.Col.); Suzanne Thom, B.A. (Regina), M.Sc. (Br.Col.); Margaret Thompson, B.Sc.Ed. (N.Dakota), M.Sc. (Dal.); M. Lynn Tissington, B.A., B.Sc., M.C.Sc., (W.Ont.); Laurie Usher, B.S. (N.Arizona), M.S. (Idaho); Ellen van Heerden, Dip. Logoped. (Netherlands); Anna Van Maanen, B.A., M.S. (Minot.); Sue Wastie, L.C.S.T. (Leic.).

Clinical Instructors

Sandra Akres, B.A. (S.Africa), M.S.L.P. (Alta.); Sandra Aristizabal, B.A. (Rosario), Master (ECR/INTESEG); Nicole Armstrong, B.A. (S.Fraser), M.Sc. (Br.Col.); Kathleen D. Barker, B.A., M.Sc. (Br.Col.); Annabel Barlow, B.A. (McG.), M.Sc. (Br.Col.); Bonnie Baxter, B.A., M.Sc. (Minot.); Lori Bell, B.A., M.Sc. (Br.Col.); Leslie Bennett, B.A. (Ott.), M.Sc. (Syr.); Monika Bernauer, B.Sc. (Vic.B.C.), M.Sc. (Br.Col.); Randa Bloom, B.A. (Wash.), M.A. (W.Wash.); Karen Bopp, B.A., M.Sc. (Br.Col.); Tom Braasch, B.S. (Calif.), M.S. (Gallaudet); Alison Bullock, L.C.S.T. (Lond.), M.S.L.P. (Alta.); Barbara Burnet, B.Ed. (Vic.B.C.), M.A. (W.Wash.); Marie-Louise Carignan, B.A. (McG.), M.Sc. (Br.Col.); Tara Chen, B.A., M.Sc. (Br.Col.); Christine Cheung, B.A. (Wat.), M.Ed. (Manc.); Margaret Choinski, B.A. (Br.Col.), M.A. (Tor.), M.Sc. (McG.); Caroline Chow, B.A., M.Sc. (Br.Col.); Jennifer Clark, B.Sc. (Vic.B.C.), M.Sc. (Br.Col.); Laurie Cole, B.Sc., M.Sc. (Arizona); Heather Cowan, B.A. (Winn.), M.Sc. (Manit.); Helen Cowan, B.A., M.Sc. (Br.Col.); Lori Cunningham, B.Sc. (Br.Col.), M.A. (W.Wash.); Shelagh Davies, B.A. (Qu.), M.Sc. (Br.Col.); Susan Davies, B.A. (McG.), M.Sc. (Br.Col.); Petulla Deddish, B.A., M.Sc. (Br.Col.); Karen Derry, B.A., M.Sc. (Br.Col.); Gwen Dixon, B.Sc. (Alta.), M.A. (Maine); Petrea Drew, B.A., M.Sc. (Minot State); Miriam Durbach, B.A. (Cape T.), M.A. (Oregon); Susan Edmison, B.Sc. (Alta.), M.Cl.Sc. (W.Ont.); Kimberley Eggert, B.A. (Car.), M.H.Sc. (Tor.); Jennifer Ellwood, B.Sc. (McG.), M.Sc. (Br.Col.); Christy Faraher-Amidon, B.A., M.A. (N. Ill.); Phyllis Ferguson, B.A. (Bran.), M.Sc. (McG.); Tracy Findlay, B.A. (Vic.B.C.), M.A. (W.Wash.); Amy Olive Fleming, B.A., M.Sc. (Br.Col.); Hester Flewin, B.Sc. (Alta.), M.Sc. (Wash.); Janice Forsey, B.A. (Memorial), M.Sc. (Dal.); Dave Gordey, B.A. (Sask.), M.A. (N. Dakota); Deborah Gwynn, B.Sc. (Alta.), M.S. (Ithaca); Kelli Hansen, B.A. (Alta.), M.A. (Wash.); Mark Hansen, B.A., M.Sc. (Minot.); Phil Harmuth, B.A. (San Fran.), M.A. (Denver); Elizabeth J. Haynes, B.A. (W.Wash.), M.A. (Wash.); Darlene Hicks, B.A., M.Sc. (Manit.); Shelley Hughes, B.A. (Winn.), M.S.L.P. (Alta.); Jacqueline Hummelbrunner, B.A. (Minot), M.Sc. (Louisville); Mary Lou Icton, B.Sc. (W.Mich.), M.Sc. (Mich.); Nancy Johnson, B.Sc. (Guelph), M.A. (Mich.); Catherine Kennedy, B.A., M.Sc. (Br.Col.); Nora Kennet, B.A., M.Sc. (Br.Col.); Vera Kinach, B.Sc. (W.Ont.), M.A. (W.Wash.); Dianne Klingensmith, B.Sc., M.Sc. (Br.Col.); Meredith Land, B.A. (W.Wash.), M.Cl.Sc. (W.Ont.); Susan Lane, B.A. (W.Wash.), M.A. (Montana); Barbara Lang, B.A. (Tor.), M.Sc. (Br.Col.);

Tracy Larson, B.A. (Vic.B.C.), M.Sc. (S. Conn.); **Rhea Lazar**, B.Sc., M.Cl.Sc. (W.Ont.); **Lesley Lee**, B.A. (Vic.B.C.), LL.B. (Tor.), M.Sc.(A) (McG.); **Jacqueline Leong**, B.Sc. (Vic.B.C.), M.Sc. (Br.Col.); **Sarah Lowe**, B.Sc. (Wales), M.Sc. (Lond.); **Mardi Lowe-Heistad**, B.Sc. (W.Ont.), M.A. (W.Wash.); **Marian MacDougall**, B.A. (S.Fraser), M.A. (W.Wash.); **Dorothy Mathews-Dana**, LCST (Lond.), M.Ed. (Vic.B.C.); **Daniel McDougald**, B.Sc.(CD), M.Cl.Sc., (W.Ont.); **Jean McFarlane**, B.A. (Qu.), M.A. (N.Mich.); **Tasha McGimpsey**, B.A., (Manit.), M.Sc., (Alta.); **Alison Miller**, B.Sc. (Br.Col.), M.Sc. (Wash.); **Todd Mitchell**, B.Sc. (Car.), M.Sc. (Br.Col.); **Frances Monro**, L.C.S.T., M.Sc. (Lond.); **Katherine Munro**, B.A. (Calg.), M.Sc. (Br.Col.); **Keely Murray**, B.Sc., M.A. (N.Ill.); **Mahchid Namazi**, B.Sc., M.Sc. (Br.Col.); **Hava Neeman**, B.A. (Tel-Aviv), M.Sc. (Lond.); **Betsy Neily**, B.Sc., M.Ed. (W.Ont.); **Susan Nelson-Oxford**, B.Sc. (Vic.B.C.), M.Sc. (Dal.); **Joseph Newsted**, B.A. (W.Wash.), M.A. (N. Col.); **Anne Nicklewicz**, B.Sc., M.Sc. (McG.); **Marilyn Noort**, B.A., M.Sc. (Br.Col.); **Margaret Orme**, B.Sc. (Vic.B.C.), M.Sc. (McG.); **Daniel Paccioretti**, B.S. (San Jose), M.S. (San Fran.); **Carmen Parsons**, B.Sc. (W.Ont.), M.Sc. (Br.Col.); **Elizabeth Payne**, B.Sc. (Vic.B.C.), M.Sc. (Br.Col.); **Patsy Pearce**, B.S. (E. Carolina), M.S. (Penn.); **Lauren Pegg**, B.A. (W.Ont.), M.Sc. (Br.Col.); **Melissa Pehudoff**, B.A., M.Sc. (Br.Col.); **Caren Carlaw Phillips**, B.A., M.A. (W.Wash.); **Indershini Pillay**, B.A. (Alta.), M.S. (Oregon); **Todd Pribilsky**, B.Sc., M.Sc. (W.Wash.); **Lisa Prokopowich**, B.A. (Man.), M.S. (N. Dakota); **Karin Rennert**, B.A., M.Sc. (Br.Col.); **Janet Reynolds**, B.A. (S.Fraser), M.Sc. (Br.Col.); **Kristin Roodenburg**, M.A. (Antwerp), M.Sc. (Br.Col.); **Andrea Rowan**, B.A. (Qu.), M.Sc. (McG.); **Kathryn Ryan**, B.A. (W.Laur.), M.C.Sc. (W.Ont.); **Andriana Scuka**, B.S. (Walla Walla), M.A. (Wash.); **Donna J. Seedorf-Harmuth**, B.S. (S.Methodist), M.A. (Denver); **Cathy Silversides**, B.A., M.Sc. (Br.Col.); **Jason Sirianni**, B.A. (McG.), M.Sc. (Br.Col.); **Kari Smilsky**, B.Sc. (McM.), M.Cl. Sc. (W.Ont.); **Patricia Smith**, B.Sc. (N.Dakota), M.Sc. (Minot.); **Michelle Smits**, B.A., M.Sc. (Br.Col.); **Catherine Spack**, B.A. (Manit.), M.A. (N.Dakota); **Uta Stewart**, B.Sc., M.Sc. (Dal.); **Danielle Tessier**, B.Sc. (Alta.), M.Sc. (Arizona); **Sheila Threndyle**, B.A. (Br.Col.), M.A. (Wash.); **Erane van Blommestein**, B.A. (Calg.), M.Sc. (Br.Col.); **Anna van Maanen**, B.A., M.S. (Minot.); **Sylvia Vidas**, B.Sc., Cl.Sc. (W.Ont.); **Marcia Waller**, B.A., M.Sc. (Br.Col.); **Neil Walton**, B.Sc. (W.Ont.), M.Sc. (Br.Col.); **Theresa Ward**, M.Sc. (Idaho), M.Sc. (Minot.); **Stacey Weber**, B.A. (Man.), M.Sc. (Br.Col.); **Susan Widera**, B.A. (Man.), B.Sc., M.S. (Moorehead); **Dian Wirth**, B.A., M.Sc. (Br.Col.); **Kathryn M. Wishart**, L.C.S.T. (Lond.); **Madeleine Wong**, B.Sc. (Vic.B.C.), M.A. (W.Wash.); **Maureen Young**, B.A. (S.Fraser), M.Sc. (Br.Col.).

Associate Members

Graham Bryce, Surgery; **Guy Carden**, Linguistics; **Bryan Gick**, Linguistics; **Darlene Redenbach**, School of Rehabilitation Medicine; **Joseph Stemberger**, Linguistics; **Janet Werker**, Psychology; **Brian Westerberg**, Surgery.

Commerce and Business Administration
Website (www.sauder.ubc.ca)

The Faculty of Commerce and Business Administration, also known as the Sauder School of Business, offers an undergraduate program leading to the degree of Bachelor of Commerce. Through the Real Estate Division, the Faculty offers a post-diploma degree completion program that leads to the Bachelor of Business in Real Estate. The Faculty also offers a Diploma in Accounting program. At the graduate level, programs leading to the degrees of Master of Business Administration, International M.B.A., Master of Management, Master of Science in Business Administration, and Doctor of Philosophy are offered. For information on research oriented graduate programs (M.Sc.B. and Ph.D.) see *Business Administration*, p. 237, in the Faculty of Graduate Studies section, and for professional master's programs see *Professional Master's Degrees*, p. 170.

BACHELOR OF COMMERCE

The Bachelor of Commerce is a four-year specialized program and is intended for students interested in one of ten specialized fields of administrative practice. The first two and a half years are devoted to building a foundation in the related sciences and the humanities and to learning the fundamentals of business issues, principles, and practices.

The professional and specialized aspects of the curriculum are largely concentrated in the last one and a half years. Because of the breadth and variety of topics covered, all students must take a specified "core" of courses and then arrange a series of carefully selected and integrated courses to complete an option. For necessary core courses, see *Degree Requirements*, p. 167. Students may contact the Commerce Undergraduate Program Office for more details concerning each option in the program.

ACADEMIC ADVISING

The Undergraduate Program Office offers drop-in advising from 12:30 pm to 3:30 pm, Mondays through Wednesdays, or by appointment 10:00 am to 12:00 pm, Mondays through Fridays. Faculty advisors can assist in program planning, answer admission inquiries, and administer regulations governing the Bachelor of Commerce program. Advisors can also evaluate and approve requests for course changes, withdrawals, and academic concessions, and produce letters of permission for study elsewhere. Students experiencing academic difficulty are encouraged to contact an advisor as soon as possible. To schedule an appointment, call 604-822-8333.

ADMISSION

The Faculty of Commerce and Business Administration (also known as The Sauder School of Business) has a Broad-Based Admission policy that incorporates the use of academic performance and overall records of leadership and accomplishment in the selection of all students entering the Bachelor of Commerce program. As part of this process, all applicants are required to submit the BCOM Supplemental Application Form.

Detailed information on admission requirements for all applicants is available on the Sauder School of Business website (www.sauder.ubc.ca/bcom/admissions/index.cfm).

Secondary School Applicants

Admission of secondary school students into Year 1 of the Bachelor of Commerce program is based on academic performance and overall records of leadership and accomplishment. Successful applicants are motivated and focused, actively participate in extracurricular

activities, and demonstrate leadership potential and teamwork skills.

College/University Transfer Students (including UBC students transferring faculties)

Students who have completed 27 transferable credits (with a minimum grade point average of 2.00 on a 4-point scale) at an accredited post-secondary institution are eligible to be considered for admission to second year of the Bachelor of Commerce program. Students must have completed the following UBC courses (or their equivalents): ENGL 112 plus one of ENGL 110, 111, 120, 121 (Arts One or a minimum of 16 credits of the Foundations program is acceptable) with a minimum grade of 60% on each English course; ECON 101 and 102; MATH 104 and MATH 105; and 9–12 credits of electives. Electives must not include any business courses. Statistics courses will be included in the admission average; however, they will not count toward the Bachelor of Commerce program. Applicants to the Bachelor of Commerce program are required to complete all core courses in English, Economics, and Mathematics, as these are prerequisites to most second year courses. Students must complete all core courses by the document deadline of June 30.

Admission to Year 2 of the Bachelor of Commerce program is based on academic performance and overall records of leadership and accomplishment. Successful applicants are motivated and focused, actively participate in extracurricular activities, and demonstrate leadership potential and teamwork skills.

BC College Commerce Transfer Programs

Students who have completed second-year Commerce at a college offering a transfer program to UBC's Bachelor of Commerce program are eligible to be considered for admission to third-year. Students must have completed 54 transferable credits with a minimum grade point average of 2.00 on a 4-point scale. Attainment of the minimum prescribed requirement means only that the applicant is eligible for selection but does not provide assurance of admission.

Admission to Year 3 of the Bachelor of Commerce program will be based on academic per-

formance and overall records of leadership and accomplishment. Successful applicants are motivated and focused, actively participate in extracurricular activities, and demonstrate leadership potential and teamwork skills.

Business Programs at Other Universities

Business students attending other universities and wishing to transfer to the Faculty of Commerce and Business Administration (Sauder School of Business) at UBC will be considered on an individual basis. Students may be admitted with advanced standing as approved by the Undergraduate Program Office. Transfer credit will be assessed only after a formal application for admission to the program has been made. A grade point average of 2.00 on a 4-point scale is required to be considered for admission.

Admission will be based on the criteria as outlined above depending on the year level the student is eligible for.

A student with unsatisfactory standing from another post-secondary institution will not be admitted.

Chinook Business Diploma

Students who have completed the Chinook Business Diploma offered at one of BC's community colleges in partnership with UBC are eligible to be considered for admission to third year in the Chinook option. Students may also be eligible for admission to other options if they meet the specific requirements for those options. Students must have completed 60 credits with a minimum grade point average of 2.00 overall. Attainment of the minimum prescribed requirements means only that the applicant is eligible for selection but does not provide assurance of admission.

ACADEMIC REGULATIONS

The following regulations regarding Commerce courses apply:

- 1) Students are admitted to the Bachelor of Commerce program, not to particular fields of concentration (options); enrolment in required option courses may be limited. Students may select their option in the summer registration period prior to third year but must make their choice no later than the end of Term 1 of Winter Session of the third year in the program. While it may be possible to change options at the end of Term 1, there may not be sufficient space in all of the required courses. Because registration access is based on GPA, students with lower marks will register later and may be unable to gain admission to the option of their first choice. For this reason students are encouraged to plan for a second and third choice. Changes to options made at the end of Term 1 require the approval of the Undergraduate Program Office.
- 2) Each option program assumes that there is a normal sequence of courses, as listed on the Sauder School of Business website

(www.sauder.ubc.ca). Students are expected to recognize these normal sequences in planning their program. Any exceptions must be approved by the director or associate director of the undergraduate program.

- 3) Students may be required to undertake field work in the business community.
- 4) A charge may be made for material supplied by the Faculty for use in classes.
- 5) Courses in Commerce generally are reserved for students registered in a degree program in Commerce. However, there are exceptions to this regulation. Special arrangements have been made for students registered in other faculties in programs, as approved by Senate, which specifically require Commerce courses. Non-Commerce students should consult their faculty to see if such arrangements have been made for their program of study.
- 6) Students who have obtained a First Class average (80% or higher) in their third year may elect to register for up to 6 credits of 500-level courses chosen in consultation with the chair of the division, the instructor, and the director or associate director of the undergraduate program.

Dean's Honour Roll

The words "Dean's Honour Roll" will be placed on a student's transcript if they have achieved an average of 80% or better in an academic year of at least 27 credits for first year students, at least 30 credits for second year, and 27 credits for third and fourth years. Students in a co-operative education program who are registered at UBC for only one term in Winter Session because of a co-op placement must be in a program of 15 credits for that term. Grades obtained by students registered in a study abroad or exchange program during the Winter Session will be considered. To qualify, a student must pass all courses.

Degree Completion

Students must complete their degree requirements within six years of their original admission into the Faculty of Commerce and Business Administration.

Degree with Honours

The words "with Honours" will be placed on the transcript of record and the degree certificate of a student graduating with the Bachelor of Commerce where the average is 80% or better in all upper-level Commerce courses. Grades obtained by students registered in a study abroad or exchange program during their final two years will be considered. As well, the student must be enrolled in a 27-credit course load in at least one of the two final years.

Program Approval

Students are responsible for the completeness and accuracy of registration as it relates to the regulations of the program they are enrolled in. Any variation from a full load must be approved by an academic advisor in the Undergraduate Program Office.

Unsatisfactory Performance

Students whose performance in the Faculty of Commerce and Business Administration is unsatisfactory will be required to discontinue study in the Faculty for at least one year. Students who have failed to meet the promotion requirements of the University will be considered to have failed the year and will be required to discontinue study in the University for at least one year. Continuation requirements are listed in the table Summary of Continuation Requirements below and are subject to the following:

- 1) Student performance is considered unsatisfactory when the average taken in all courses in second, third, or fourth year, including failed courses, is below 60%.
- 2) Students admitted to the first-year in Commerce through Direct Entry will be required to discontinue study in the Faculty for at least one year if:
 - The average in all courses taken in any year, including any failed courses, is below 60%, or
 - The grade in the required first-year English course is below 60%, or
 - The average in the required first-year English, Economics, and Math courses is below 65%, or
 - There is a deficiency in any of the first year Economics, English, or Math courses.
- 3) Students who fail the year or are required to discontinue study in the Faculty may apply for readmission only after 12 months.
- 4) Students who are readmitted after being required to discontinue study in the Faculty or after a failed year will receive credit towards the Bachelor of Commerce only for those courses in that year in which a grade of at least 65% was obtained.
- 5) Students at any level of university study who are required for a second time to discontinue studies in the Faculty, whether in repeating a year or in a later year, will be required to withdraw from the University. Readmission to Commerce in such cases is normally not granted.
- 6) Any students whose academic records, as determined by the tests and examinations of Term 1, are found to be unsatisfactory may be required to discontinue attendance in Commerce for the remainder of the session.

SUMMARY OF CONTINUATION REQUIREMENTS

Year Level	Winter Session Average	Core Average ¹	Sessional Standing	Continuation Status
1	60% or more	65% or more	Pass	Eligible to continue
1	60% or more	less than 65%	Pass	Not eligible to continue
1	55%–59%		Pass	Not eligible to continue
1	50%–54.9%		Academic Probation	Not eligible to continue
1	Less than 50%		Fail	Required to discontinue
2–4	60% or more		Pass	Eligible to continue
2–4	Less than 60%		Fail	Required to discontinue

¹ Core average is calculated on all required Economics, English, and Math courses.

Advancement Requirements

The UBC Bachelor of Commerce (B.Com.) is a full-time four-year program. Students are expected to register in a full load of courses unless they have been granted advanced standing.

- To earn a promotion from first to second year, a student must have completed a minimum of 27 credits including all required English, Math, and Economics courses.
- To earn a promotion from second to third year, a student must have completed 54 credits including five of the seven following second-year required core courses: COMM 290, 291, 292, 293, 294, 295, 298; no more than one of Commerce 391, 392, and 396 may substitute for one of the second-year Commerce courses.
- To earn a promotion from third to fourth year, a student must have completed 84 credits including two option core courses and four of the following six third year core courses: COMM 391, 392, 394, 396, 393, or 399.

CO-OP AND MINOR OPTIONS

Co-operative Education Program

The Commerce Co-operative Education Program (www.sauder.ubc.ca/cc/undergraduate/coop_education.cfm) is intended to provide interested and qualified students in the Faculty of Commerce and Business Administration with work experience relevant to their future careers. The program is optional and is currently available only to students who register in certain academic options. As new programs are being added, students should check with the Undergraduate Program Office concerning the options in which co-operative education is available. The Co-operative Education Program entails three or four work term placements of four months' duration each, starting as early as Term 2 of the third year. Work terms may occur in the fall, winter, or summer terms. The particulars of each specific academic option's co-op program will depend

on the targeted employer group's staffing needs. The work term experience requirement in co-operative education requires up to an extra year to complete the Bachelor of Commerce requirements. Faculty advisors or coordinators visit students at their places of work and provide advice on the work term reports that are a requirement of the program. Students intending to enter this program may apply as early as Term 1 of their second year; transfer students should apply in the summer between their second and third years. Mandatory pre-employment training workshops start in September of the third year.

Students who wish to be considered for the program must meet all of the requirements of the Faculty and will be selected on the basis of academic performance and suitability for the work environment. The total enrolment is subject to the availability of appropriate work placements. An accepted student will register in the appropriate Co-operative Education course for each work term once a suitable position is confirmed, and will be required to pay a Co-operative Education Program fee (see *Special Fees*, p. 29). Completion of each of these courses, including a work term report, will be recorded on the student's transcript.

In order to graduate in the Co-operative Education program, a student must have satisfactorily completed the required number of work placements, in addition to the normal academic requirements.

Minor in Arts

Students may apply to have the completion of the requirements for a Minor in the Faculty of Arts noted on their transcript. Students are encouraged to consult a departmental advisor in Arts, preferably before taking the necessary courses.

Minor in Science

Students may, with approval of a departmental advisor in Science, a senior faculty advisor in the Faculty of Science Dean's Office, and a senior advisor in their home faculty, undertake a Minor in Science program in conjunction with their degree program. Students are strongly encouraged to consult with advisors in both faculties before taking the necessary courses. Space in Science courses is limited. Admission to a Science Minor does not guarantee access to courses agreed upon for the minor. Once students complete the required courses, they will have the minor recognized on their transcript.

DEGREE REQUIREMENTS

Effective September 1, 2006, the following requirements represent the core courses of the Bachelor of Commerce program. In addition, students in third year must select an option and complete the specific option program requirements set out below. Students who were initially registered in the Bachelor of Commerce program prior to September 1, 2006 should consult the Undergraduate Program Office regarding the requirements to complete the program.

BACHELOR OF COMMERCE

First Year Pre-Commerce	
(For students completing first year in another faculty prior to applying for admission to second-year B.Com.)	
ENGL 112	3
ECON 101/102	6
MATH 104 or 184 ¹	3/4
Non-Commerce Electives ²	18
Total Credits	30/31

First Year	
(For students admitted directly into first-year B.Com. from secondary school.)	
ENGL 112	3
ECON 101/102	6
MATH 104 or 184 ¹	3/4
COMM 292	3
COMM 293	3
COMM 299	1
Non-Commerce Electives ²	12
Total Credits	31/32

Second Year	
(For students admitted to B.Com. after completing a pre-Commerce year)	
COMM 290, 291, 292, 293, 294, 298, 299	19
COMM 295 ³	3
One of COMM 391 ⁴ , 392, or 396, and 6 credits of Non-Commerce Electives ² OR 9 credits from COMM 391 ⁴ , 392, 396, and Non-Commerce Electives ²	9
Total Credits	31

Second Year	
(For students admitted directly into first year B.Com. from secondary school)	
COMM 290, 291, 294, 298	12
COMM 295 ³	3
COMM 391, 392, and 396	9
Non-Commerce Electives ²	6
Total Credits	30

Third Year	
(For students admitted to B.Com. after completing a pre-Commerce year)	
One of COMM 393 or 399	3
COMM 394	3
Two of COMM 391, 392, 396 ⁵ OR 6 credits from COMM 391, 392, 396 and Non-Commerce Electives ^{5,2}	6
Electives ²	9
Option Requirements (as specified below)	6
Business Writing	3

Third Year	
(For students admitted directly into first year B.Com from secondary school)	
One of COMM 393 or 399	3
COMM 394	3
Electives ²	15
Option Requirements (as specified below)	6
Business Writing	3
Total Credits	30

Fourth Year

One of COMM 393 or 399 ⁶	3
One of COMM 491, 492, 497, or 498 ⁷	3
Electives ²	15
Option Requirements (as specified below)	9
Total Credits	30

¹ Acceptable alternatives are MATH 100 or 180 or 102 or 120.

² At least 30 of the 48 credits of electives in the Bachelor of Commerce program must be non-Commerce with at least 12 credits at the senior level. Additional electives in third and fourth years may be either Commerce or Non-Commerce courses. See Electives for more information.

³ Students completing a Commerce and Economics Option may not take economics courses as their non-Commerce electives. Students in this option should take ECON 301 and 303 instead of COMM 295. Students planning to take fourth year economics courses should be aware that these courses require ECON 301 (or ECON 304), and for certain courses, ECON 302 (or ECON 305). Students who have COMM 295 and MATH 105 may be admitted to courses requiring ECON 301/304 with permission of the Economics Department. ECON 302 is highly recommended as an elective.

⁴ Students intending to take the MIS Option should complete COMM 391 in second year.

⁵ Whichever courses were not taken in second year.

⁶ Whichever course not taken in third year.

⁷ Students must take one course from COMM 491, 492, 497 and 498 as part of the core requirements in the fourth year. The 49X series of courses can only be taken in the fourth year.

CHINOOK OPTION

Third Year

Three of COMM 290, 295, 298, 392, 393, 394, and 399 ¹	9
Electives, including at least 6 credits of non-Commerce Electives ²	12
Option Requirements (as specified below)	9
Total Credits	30

Fourth Year

COMM 497	3
COMM 491 or COMM 498	3
Electives, including at least 6 credits of non-Commerce electives ²	15
Option Requirements (as specified below)	9
Total Credits	30

¹ Whichever courses were not taken in first and second year of the Chinook Business Diploma.

² The Bachelor of Commerce requires a minimum of 12 credits of non-Commerce electives in third and fourth years combined. Additional electives in third and fourth years may be either Commerce or non-Commerce courses. See *Electives*, p. 168, for more information.

Third and Fourth Year Option Requirements

Students who complete the course of studies in any one of the following options will receive the Bachelor of Commerce: Accounting, Commerce and Economics, Finance, General Business Management, Human Resources Management, International Business (must be combined with another option), Management Information Systems, Marketing, Transporta-

tion and Logistics, or Real Estate. Option requirements are listed below.

Electives

The Bachelor of Commerce program elective requirements are as outlined below:

Option	Total Required Electives	Requirements
Accounting	48 credits	At least 18 credits, whether Commerce or non-Commerce, must be at the 300-level or higher.
Finance		At least 30 credits must be non-Commerce. 12 or more credits of these electives must be at the 300- or 400-level
Human Resources Management		
Management Information Systems		
Marketing		
Real Estate		
General Business Management	51 credits	At least 21 credits, whether Commerce or non-Commerce, must be at the 300-level or higher.
Transportation & Logistics		At least 30 credits must be non-Commerce. 12 or more credits of these electives must be at the 300- or 400-level
Commerce & Economics	39 credits	At least 15 credits, whether Commerce or non-Commerce, must be at the 300-level or higher. At least 27 credits must be non-Commerce. 9 or more credits of these electives must be at the 300- or 400-level ¹
International Business	See above	International Business students should complete elective requirements of their first declared option as outlined above. Elective credits are also used to satisfy the option requirements for International Business ²

¹ Students in Commerce and Economics may not take economics courses as their non-Commerce electives.

² See *International Business*, p. 169, for more information.

Many senior-level courses require lower-level prerequisites so students should select lower-level electives carefully. Students should refer to the Sauder School of Business website (www.sauder.ubc.ca) to verify electives that can be used to fulfill program requirements.

English Requirements

To qualify for the Bachelor of Commerce, students must satisfy the English requirement of the Faculty of Commerce and Business Administration. To do this, students must obtain credit for ENGL 112 (Arts One or a minimum of 16 credits of the Foundations Program is acceptable) and Business Writing with a minimum grade of 60% for each of the

two required English courses. Satisfactory completion of the Language Proficiency Index (LPI) examination is prerequisite to all first-year English courses at UBC. (See *Language Proficiency Index Requirement for First-Year English*, p. 120.)

Prerequisites

The required 200-level Commerce courses generally are prerequisite to 300- and 400-level courses, and in each option it is assumed that the required 300-level courses will be taken prior to the 400-level courses. Specific prerequisites are listed in "Course Descriptions" in the Calendar.

Any student not registering for a normal sequence of courses must consult an academic advisor in the Undergraduate Program Office. Non-Commerce students taking Commerce courses as a part of a program should contact the Undergraduate Program Office for information.

ACCOUNTING

Third Year

Third year of this option requires that students complete:

- COMM 353, 354

Fourth Year

Fourth year of this option requires that students complete:

- COMM 450 and
- 6 credits from 452, 453, 454, 455, 459

CHINOOK OPTION

Third Year

Third year of this option requires that students complete:

- COMM 384
- 6 credits of 300- or 400- level Commerce

Fourth Year

Fourth year of this option requires that students complete:

- COMM 385
- 6 credits of 300- or 400-level Commerce

COMMERCE AND ECONOMICS

Second Year

Students should take ECON 301 or 304.

Third and Fourth Years Combined

Third and fourth years of this option require that students complete:

- ECON 303
- 6 credits of 300- or 400-level economics
- 9 credits of 400-level economics
- 6 credits of 300- or 400-level Commerce

Students completing a Commerce and Economics Option may not take economics courses as their non-Commerce electives. Students in this option should take ECON 301 and 303 instead of COMM 295. Students planning to take fourth-year economics courses should be aware

that these courses require ECON 301 (or ECON 304), and for certain courses, ECON 302 (or ECON 305). Students who have COMM 295 and MATH 105 may be admitted to courses requiring ECON 301/304 with permission of the Economics Department. ECON 302 is highly recommended as an elective.

FINANCE

Third Year

Third year of this option requires that students complete:

- COMM 371, 374; and
- 3 credits from COMM 307, 376, 377, 378, 379

Fourth Year

Fourth year of this option requires that students complete:

- 6 credits from COMM 379, 405, 471, 472, 474, 475, 478

GENERAL BUSINESS MANAGEMENT

Third Year

Third year of this option requires that students complete:

- COMM 393, 399¹
- 3 credits from: COMM 307, 320, 335, 349, 353, 354, 362, 363, 365, 371, 374²

Fourth Year

Fourth year of this option requires that students complete:

- 9 credits from COMM 491, 492, 493, 494, 497, and 498, including at least three credits from COMM 497 or 498; and
- at least 3 credits of 400-level course work built on COMM 307, 320, 335, 349, 353, 354, 362, 363, 365, 371, 374²

¹ One of COMM 393 or 399 may be taken in fourth year.

² General Business Management students are restricted to taking no more than 9 credits of course work beyond the core in any specific option area.

HUMAN RESOURCES MANAGEMENT

Third Year

Third year of this option requires that students complete:

- COMM 327, 328

Fourth Year

Fourth year of this option requires that students complete:

- COMM 421, 425, 428

INTERNATIONAL BUSINESS

Third and Fourth Years Combined

The IB option is completed as a double option. IB students are required to declare a first option in any other area and complete the required 15 credit option core. Students are required to submit an application form and have an IB study plan approved by an advisor. Applications and

study plans must be received by the Commerce Undergraduate Program Office no later than February 28. Upon approval of your study plan, the Undergraduate Program Office will add the IB designation to your academic record. By the end of the program students must have completed in addition to their declared option:

- 12 credits of language study (in one language) with a minimum of 6 credits at the 300- or 400-level or 18 credits of 100- or 200-level language study (in one language)
- 6 credits of approved internationally related courses
- participation in an approved international exchange/study abroad program
- COMM 498

MANAGEMENT INFORMATION SYSTEMS

Third Year

- COMM 335, 436, 437

Fourth Year

- COMM 438, 439

Recommended non-Commerce electives include: CPSC 111, 121, 211, 213, and 310. Students should take note of the prerequisites required for the above Computer Science courses.

MARKETING

Third Year

Third year of this option requires that students complete:

- COMM 362, 363

Fourth Year

Fourth year of this option requires that students complete:

- COMM 365¹, 468; and
- 3 credits from COMM 460, 461, 462, 463, 464, 466, 467, 469

¹ COMM 365 may be taken in third year, in which case COMM 362 must be taken in fourth year.

REAL ESTATE

Third Year

Third year of this option requires that students complete:

- COMM 306, 307

Fourth Year

Fourth year of this option requires that students complete:

- COMM 405, 408; and
- COMM 407 or 409

Recommended electives: COMM 434, 471, ECON 447 or PLAN 425; one of COMM 376 or ECON 345.

TRANSPORTATION AND LOGISTICS

Third Year

Third year of this option requires that students complete:

- COMM 349, 399¹

Fourth Year

- COMM 441, 449
- 3 credits from COMM 442, 444, 445, 447; and

Students are encouraged to take COMM 446.

¹ COMM 399 must be taken in third year, as it is a prerequisite for COMM 441, required in fourth year.

BACHELOR OF BUSINESS IN REAL ESTATE

The Faculty of Commerce and Business Administration, through its Real Estate Division (RED), offers a post-diploma degree completion program that leads to the Bachelor of Business in Real Estate (B.B.R.E.). The program requires the completion of the *Diploma in Urban Land Economics*, p. 172, or equivalent plus additional real estate, general education, and business courses. The real estate courses are delivered by the RED, which is located in the Michael A. Goldberg Centre for Real Estate and Distance Education, while an agreement with Thompson Rivers University will enable students to obtain the required general education and business courses.

The Bachelor of Business in Real Estate is a part-time program, delivered by distance education methods. This will allow industry professionals to continue their careers while simultaneously advancing their formal education beyond the diploma level in order that they may prepare to meet the challenges and opportunities of an increasingly complex and dynamic industry. The curriculum has been developed in consultation with the real estate industry to ensure it meets the accreditation requirements of the various professional associations.

For further information regarding the B.B.R.E., please contact the Real Estate Division at 604-822-8444 or visit the Real Estate Division website (www.realestate.ubc.ca).

ADMISSION

Admission to the program will require graduation from the Diploma in Urban Land Economics or equivalent with a grade point average of 2.0 (60%) or greater. Students will also be required to demonstrate proficiency in English skills through the completion of 6 credits of university English courses or other standards as outlined in *English Language Admission Standard*, p. 15. The Faculty, through the RED, reserves the right to select students for the program from those who meet the general admission requirements of the University.

ACADEMIC REGULATIONS

Students are subject to Faculty policies on advancement and examinations as outlined in *Academic Regulations*, p. 166, under the Bachelor of Commerce degree. At least 50% (60 credits) of the course work must be completed at UBC in order to receive a UBC credential.

DEGREE REQUIREMENTS

Requirements for the B.B.R.E. (120 credits) include the following:

BACHELOR OF BUSINESS IN REAL ESTATE

General Education Requirements

First-year English	6
Introductory Probability and Statistics	3
Finite Mathematics	3
Calculus for Business and Management Sciences	3
Introductory Microeconomics or BUSI 100 ¹	3
Introductory Macroeconomics or BUSI 101 ¹	3
Total Credits	21

General Business Courses

Business and Technical Writing	3
Business/Commercial Law	3
Computer Applications in Business	3
Organizational Behaviour	3
Industrial Relations	3
Introductory Finance	3
Introductory Marketing	3
Introductory Financial Accounting	3
Introductory Managerial Accounting	3
Business Statistics	3
Managerial Economics	3
Business Ethics	3
Business Policy	3
Total Credits	39

Real Estate Courses

BUSI 111 ¹	3
BUSI 121 ¹	3
BUSI 221 ²	3
BUSI 300 ¹	3
BUSI 330 ¹	3
BUSI 331 ¹	3
BUSI 400 ²	3
BUSI 401	3
BUSI 425 ³	3
Total Credits	27

Plus at least 15 credits from the following specialty courses:

BUSI 441 ²	3
BUSI 442 ²	3
BUSI 443 ²	6
BUSI 444 ²	6
BUSI 445 ²	3
BUSI 446 ²	3
BUSI 451 ²	3
BUSI 452 ²	3
BUSI 460 ²	3
BUSI 499	6

GEOG 350 or URST 400	3
Total Credits	15

Unspecified Electives

Plus at least 18 credits of elective courses, which can be General Education, General Business, or Real Estate Specialty/Elective Courses.

Total Credits	18
----------------------	-----------

- ¹ Required course for the Urban Land Economics Diploma.
- ² Elective course for the Urban Land Economics Diploma.
- ³ Under development; an approved substitute, normally an additional Real Estate Specialty/Elective course, may be taken in lieu of BUSI 425 until it is available.

PROFESSIONAL MASTER'S DEGREES

INTRODUCTION

For information on the Master of Science in Business (M.Sc.B.) and Doctor of Philosophy, see *Business Administration*, p. 237, in the Faculty of Graduate Studies section, Degree Programs.

MASTER OF BUSINESS ADMINISTRATION

The Master of Business Administration (M.B.A.) provides an integrated course of study designed to prepare graduates to analyze problems, make decisions, and to manage, motivate, and lead people and organizations. Principal program components include an integrated core, a post-core consisting of a specialization, an internship/project and electives, and career development. A pre-core provides fundamentals for students who lack adequate academic preparation for the program.

The program is available in either a 15-month or 28-month format. In determining the admissibility of a candidate to the Master of Business Administration program, no distinction is made between 15-month and 28-month program students.

For further updates and detailed admission information, please check the Faculty Website (www.sauder.ubc.ca/mba). At the time of acceptance of an offer of admission to the M.B.A. program, students will be required to pay a non-refundable deposit, which is applied to the first installment of tuition fees.

Pre-Core

Students with limited management background or who lack adequate preparation in prerequisite courses will be required to participate in the pre-core program. The pre-core provides three weeks of non-credit basic business education immediately preceding the program orientation. Topics in the pre-core include accounting, computing, economics, quantitative methods, business statistics, case preparation, and major project development skills. Since backgrounds vary, the extent of a student's required participation should be determined in consultation with a M.B.A. program advisor.

Core (15-month)

The 15-month M.B.A. core consists of the 18-credit required course, BA 500. This course is offered from September to December in the first year of studies.

Core (28-month)

The M.B.A. core for the 28-month program will be offered at times suitable for this program of study. The schedule for the upcoming academic year is available from the M.B.A. Programs Office. All M.B.A. students in the 28-month program must complete the core in their first year of study.

Post-Core

The post-core consists of 30 graduate credits plus an internship/project. The Faculty of Commerce offers post-core courses in six-week 1.5 credit modules between January and December following completion of the core. 28-month program students will normally complete the post-core within an 18-month period.

Specializations

Specializations are available as part of the post-core. Each student in the M.B.A. program may choose one of the specializations offered or opt to do a general program of study. Specializations require in-depth study in a specific area of management. Requirements vary between specializations; however, each consists of a set of required modules. Available specializations vary from year to year; a list of current specializations and requirements may be obtained from the M.B.A. Programs Office.

Internship/Project

The Internship/Project, BA 510, is an integral part of the M.B.A. program and will normally be taken during June, July, and August. This component of the M.B.A. program enables a student to apply acquired skills to management problems under direct faculty supervision.

Career Development

This component, designated as BA 520, begins with orientation and runs throughout the program. Its aim is to foster team work and to develop career, leadership, and interpersonal skills. It also provides a forum for discussion of current events and contemporary business problems.

Study Abroad and Exchange

Study abroad and exchange programs are available at several international partner universities. Students who are selected to participate in this program will be enrolled in BA 530 by the M.B.A. Programs Office. See the International Exchange website (www.sauder.ubc.ca/mba/international) for further details.

When students accept their offer of admission to the M.B.A. program, they will be required to pay a non-refundable deposit that will be applied to tuition.

INTERNATIONAL MASTER OF BUSINESS ADMINISTRATION

The International Master of Business Administration (I.M.B.A.) is an international delivery of a modified M.B.A. degree. The program may be delivered primarily or entirely outside of Canada and is intended for international students residing in the host country. The curriculum includes a core that covers the fundamental areas of business, a post-core or more advanced study in business, and may include an internship/project. The delivery may be on a part-time schedule suitable to accommodate students working during the program and the custom and culture of the host country. Details of the program are available at www.sauder.ubc.ca.

MASTER OF MANAGEMENT

The Master of Management (M.M.) provides a professional course of study designed to prepare graduates with advanced applied knowledge focused in a specific functional area of business. The program includes a minimum of 30 credits of specialized coursework that may include an applied project but lacks the Integrated Core and breadth provided in the M.B.A. program. The course work consists of at least 24 credits at the 500-level or above, and no more than 6 credits at the 300- or 400-levels.

The program is available for either full-time or part-time study. The program will generally be completed in 12 to 16 months of full-time study, or approximately 24 months of part-time study. Admission requirements include all the minimum admission requirements for the Faculty of Graduate Studies, plus GMAT or GRE, and a minimum TOEFL score of 600 (or equivalent) for international students. More specific, higher admissions requirements may be established for some areas of specialization in the M.M. program. For further information on the areas of specialization, full-time and part-time programs currently offered, and admissions requirements, please check the Commerce website (www.sauder.ubc.ca). At the time of accepting an offer of admission to the M.M. program, students will be required to pay a non-refundable deposit, which is applied to the first instalment of tuition fees.

JOINT LL.B./M.B.A.

Except as stated below, the ordinary requirements of the LL.B. and M.B.A. apply to students in the combined program. Students in the Combined Program are required to take 89 credits in Law and 45 credits in the M.B.A. program in four years as specified below.

LL.B./M.B.A. COMBINED PROGRAM

Year 1

First-Year Law	35
----------------	----

Year 2

First-Year M.B.A. Core (September to December); 12 M.B.A. Post-Core graduate modules (January to June); Internship (June to August); Career Development Program as per the 15-month M.B.A. program	39
--	----

Years 3 and 4

Law Courses	54
M.B.A. Credits	6
Total Credits	134

Second, Third, and Fourth Years

Program requirements are as follows:

- 1) Commerce M.B.A. requirements. Students will be required to take the full-time core course, BA 500, and to take 24 post-core Commerce graduate credits in accordance with the normal rules applicable to the M.B.A. program, but subject in all cases to the final approval of the Joint Degrees Committee. 6 credits of upper-year Law courses will count as credit toward the M.B.A. In addition, students are required to complete the Internship/Project BA 510 and the Career Development program BA 520.
- 2) Law requirements. All the requirements of the regular LL.B. program, including compulsory courses, apply to each student in the combined program with only the following changes:
 - (a) A total of 54 credits of 200-, 300-, 400- or 500-level Law courses must be taken over the two upper years. The student is not eligible for the Faculty of Law non-Law option.
 - (b) Law 220 (Taxation I) must be taken. If the student has already received credit for Commerce 355 (Income Taxation) or its equivalent, another 3 credits of Law courses must be taken in substitution for Law 220. Commerce 355 will be deemed equivalent to Law 220 for prerequisite purposes.
 - (c) In addition, a minimum of 20 credits of elective Law courses must be chosen from a set of courses in the corporate, commercial, or taxation areas that will be designed from year to year by the Joint Degrees Committee.
 - (d) The student's program of courses must be approved by the Joint Degrees Committee.

Transitional Provisions: Students who have completed the first-year compulsory Law curriculum prior to Winter Session 2006 will follow the former requirements for upper-year progression. These are described in detail under LL.B. requirements, transitional provisions.

Special Arrangements

Subject to the approval of the Joint Degrees Committee, the first years of the LL.B. and M.B.A. program may be exchanged upon petition.

Promotion Requirements

Continuance in the LL.B./M.B.A. program is conditional upon achieving a high standard of performance as determined in an annual review by the Joint Degrees Committee. A student may be permitted to complete either an M.B.A. or LL.B. alone.

Conferring of Degrees

The LL.B. and M.B.A. will be conferred at the completion of the combined program after all requirements for both degrees have been met. Students who choose to receive either the M.B.A. or the LL.B. prior to completion of the combined program may apply for one of the degrees provided all requirements for that degree have been satisfied. Students selecting this option must simultaneously withdraw from the combined program.

JOINT M.B.A./M.A.P.P.S.

This program permits students to obtain a combined M.B.A./M.A.P.P.S. (Asia Pacific Policy Studies) degree. Students may apply to the Faculty of Commerce and Business Administration and the Institute of Asian Research to pursue an enriched curriculum of business and Asia Pacific policy studies.

Admission

Students wishing to pursue the combined M.B.A./M.A.P.P.S. degree program must be admitted separately to the Faculty of Commerce for the M.B.A. degree and the Institute of Asian Research for the M.A.P.P.S. degree. In their application submissions to the Faculty of Commerce and the Institute of Asian Research, students must indicate in writing their desire to enrol in the combined program and the desired area of specialization within the M.A.P.P.S. program. Enrolment in the combined degree program requires the consent of the Dean of the Faculty of Commerce and the Director of the Institute of Asian Research.

Requirements

Students enrolled in the M.B.A./M.A.P.P.S. Combined Degree Program are required to complete all course requirements for graduation in each of the M.B.A. and M.A.P.P.S. Programs, subject to the following adjustments:

- 1) Students enrolled in the combined degree program who complete the M.A.P.P.S. core course (IAR 500) required for the M.A.P.P.S. degree will also receive 6 credits toward completion of their M.B.A.
- 2) Students enrolled in the combined degree program who complete 6 credits of Commerce course work acceptable to their respective M.B.A. and M.A.P.P.S. program supervisors will receive credit for these courses toward both the M.B.A. and the M.A.P.P.S. degrees.

Combined Degree Program Committee

The combined degree program is administered by a Combined Degree Program Committee comprised of a representative from the Faculty of Commerce designated by the Dean of Commerce and a representative from the Institute of Asian Research designated by the Institute Director. The Combined Degree Program Committee is responsible for admissions, coordinating graduate student supervision, and program approval. The Graduate Program Advisor from the Faculty of

Commerce serves as Graduate Program Advisor for the combined degree program.

Model Curriculum Schedule

Normally the curriculum schedule is as follows:

Year One

(September–December)

M.B.A. Core Program (BA 500) 18

(January–August)

Elective Requirements for M.B.A. 21

Year Two

(September–December)

M.A.P.P.S. Core Course (IAR 500) 6

Course requirements for M.B.A. 6

(January–August)

M.A.P.P.S. Core Course (IAR 500) 6

M.A.P.P.S. Elective Requirements 6

Thesis or Practicum Requirements for M.A.P.P.S. 12

Total Credits 75 (M.B.A. 45/
M.A.P.P.S. 30)

Conferring of Degrees

The M.A.P.P.S. and M.B.A. will be conferred at the completion of the combined program after all requirements for both degrees have been met. Students who choose to receive either the M.A.P.P.S. or the M.B.A. prior to completing the combined program may apply for one of the degrees provided all requirements for that degree have been satisfied. Students selecting this option must simultaneously withdraw from the combined program.

DIPLOMA IN ACCOUNTING

The Diploma in Accounting program (D.A.P.) is offered through the Professional Programs Division of the Faculty of Commerce and Business Administration (Sauder School of Business). D.A.P. is a program designed primarily to prepare university graduates who have limited education in accounting for entry into a professional accounting designation program. For individuals wishing to broaden their business skills, the program also represents an excellent opportunity for professional development.

The D.A.P. curriculum satisfies many of the course requirements for both the Certified Management Accountant (CMA) and Certified General Accountant (CGA) programs. The program also provides the necessary prerequisites for entrance into the Institute of Chartered

Accountants of BC (ICABC) Chartered Accountants School of Business (CASB) professional program, which leads to the Chartered Accountant (CA) designation.

For more information regarding the Diploma in Accounting Program, please contact the Diploma in Accounting Program Office by telephone at 604-822-8412, by email dap@sauder.ubc.ca or visit the DAP website (www.sauder.ubc.ca/dap/index.cfm).

ADMISSION

In order to be granted admission to the program, all applicants must be able to demonstrate proficiency in English language skills at the university level by either successful completion of two university-level English courses (6 credits), or satisfactory results from a recognized test of English that meets the English Language Admission Standard. See the D.A.P. website (www.sauder.ubc.ca/dap/index.cfm) for more information.

With the exception of mature students, applicants must have completed an undergraduate degree with a minimum overall average of 65% in the last two years (60 credits) of a recognized university program.

- Mature student applicants will be required to achieve a minimum score of 600 on the Graduate Management Admission Test (GMAT).
- The D.A.P. program accepts new students twice a year in May and September.
- Deadline for admission applications for courses beginning in May: March 31.
- Deadline for admission applications for courses beginning in September: July 7.

DIPLOMA REQUIREMENTS

D.A.P. consists of eleven 3-credit courses (33 credits in total). The courses are designed to be equivalent in terms of workload, academic rigor, and student assessment methods (e.g., assignments and examinations) to the courses offered in the Accounting option of the Bachelor of Commerce program. Each 3-credit course provides for 39 hours of classroom instruction.

The D.A.P. program offers courses throughout the year. In the Summer Session, courses are offered on an accelerated basis and students have the opportunity to complete up to six courses between May and August. The summer program is organized to correspond with the business cycle of most accounting firms and thus for the convenience of articling students and their sponsors. In the Winter Session, students may take the program on either a full-time or part-time basis. Many of the courses are offered in the evenings to accommodate those students who are working. In most cases, the D.A.P. program can be completed within one year.

¹ Must be completed through D.A.P. with a minimum overall average of 60% in order to receive the Diploma in Accounting.

PROFESSIONAL AND DIPLOMA COURSES

The Faculty operates a number of programs in the professional and managerial fields. Most programs require detailed study over a period of several years on a part-time or distance-education basis. Completion of assignments and examinations is required in most subjects.

Admission requirements vary from program to program. In some cases, registration is limited to residents of British Columbia. For additional information regarding these programs, please call 604-822-8412.

- The Certified General Accountants of British Columbia. A six-level evening lecture and distance education program designed to meet the academic requirements of the Certified General Accountants Association of British Columbia. For further information, visit the CGA-BC website (www.cga-online.org/bc).
- Sales and Marketing Management Program. A three-year, evening lecture program sponsored by the Sales and Marketing Executives of Vancouver, leading to a diploma in Marketing and Sales Management. For additional information, visit the SME of Vancouver website (www.smevancouver.com).

REAL ESTATE COURSES AND PROGRAMS

Additional information regarding Real Estate courses can be obtained from the Real Estate Division website (www.realestate.ubc.ca) or by telephone at 604-822-8444.

- Real Estate Trading Services Licensing Course. A distance education course meeting the academic requirements for licensing as a real estate representative (salesperson) in British Columbia.
- Property Management Licensing Course. A distance education course meeting the academic requirements for licensing as a property manager in British Columbia.
- Brokers Licensing Course. A distance education course meeting the educational requirements for licensing as a real estate brokerage, managing broker, or associate broker in the Province of British Columbia.
- Mortgages: A Real Estate Financing Course. A distance education course

meeting the requirements for licensing under the British Columbia Mortgage Brokers Act.

- The Diploma Program in Urban Land Economics. An eleven course distance education program in advanced real estate studies.
- Certificate Program in Real Property Assessment. A four course distance education program dealing with assessment-specific topics with a focus on computer assisted mass appraisal techniques.
- Appraisal Institute of Canada Education Program. Distance education courses leading to both the CRA and AACI designations.
- UBC/AIC Post-Graduate Certificate in Real Property Valuation. A six course distance education program developed for business degree graduates working towards attaining AIC's AACI designation.
- Bachelor of Business in Real Estate. A post-diploma degree completion program which is offered by distance education.

EXECUTIVE EDUCATION

Connect. Inform. Transform.

Executive Education offers a wide array of non-credit business education programs that combine leading-edge research with practical management training. Individuals can choose from dozens of top-calibre business seminars, while organizations can customize a program to meet their specific management development needs. Programs include:

- Business Seminars: two- to six-day public enrolment programs for those who wish to expand their managerial skills and add relevant, applied knowledge to their business experience. Non-residential seminars are held at UBC Robson Square; residential programs take place at the UBC Point Grey campus.
- Corporate Partnership Programs: management training programs tailored to an organization's specific needs, delivered at a time and location of the organization's choosing.
- Certificates: non-credit certificates awarded to participants upon successful completion of six designated "core courses" per certificate, taken within a 6 year period.
- Breakfast Briefings: presented by distinguished faculty and business practitioners, breakfast briefings explore topics of relevant, up-to-the-minute interest.
- Forums and Specialized Seminars: programs providing training and development for specific audiences, i.e., corporate directors; entrepreneurs.

For more information, call 604-822-8400 or visit the Executive Education website (www.sauder.ubc.ca/exec_ed).

CERTIFIED GENERAL ACCOUNTANTS ASSOCIATION OF BC

Graduates from the Bachelor of Commerce program with options other than accounting may be granted certain exemptions on the CGA program.

Graduates from the Diploma in Accounting Program may be given advanced standing toward the CGA designation.

Graduates from the Bachelor of Commerce Accounting Option may be granted additional advanced standing toward the CGA designation.

For additional information, visit the CGA-BC website (www.cga-online.org/bc).

INSTITUTE OF CHARTERED ACCOUNTANTS OF BC

After obtaining employment with an approved firm of Chartered Accountants:

- 1) Graduates of the Accounting option are required to complete no less than 30 months of registered employment in the program of the School of Chartered Accountancy conducted by the Institute in order to obtain the CA designation.
- 2) Graduates, other than those mentioned above, are required to complete the prerequisite courses before being admitted to the Chartered Accountants School of Business (CASB). These prerequisite courses are available through the Diploma in Accounting program for candidates.

For additional information, visit the ICABC website (www.ica.bc.ca) or the CASB website (www.casb.ca).

REAL ESTATE INSTITUTE OF BC

Graduates of the Bachelor of Commerce Real Estate option and the diploma program in Urban Land Economics will have satisfied the educational requirements for membership in the Real Estate Institute of British Columbia. Full membership in the Real Estate Institute of BC will require a minimum of three years continuous employment experience in a real estate-related activity. Acceptance into the Real Estate Institute of BC entitles members to use the distinguishing letters R.I.(B.C.) after their names.

All students enrolled in the Bachelor of Commerce Real Estate option and the diploma program in Urban Land Economics are entitled to apply for student membership in the Real Estate Institute of BC. Enquiries may be directed to the Executive Officer.

For additional information, visit the REIBC website (www.reibc.org).

SOCIETY OF MANAGEMENT ACCOUNTANTS OF BC

Graduates of the Bachelor of Commerce Accounting option will be granted maximum exemptions toward the CMA designation.

Graduates of the Diploma Accounting Program will be granted exemptions toward the CMA designation.

Graduates of the Bachelor of Commerce program, in any option other than Accounting, will be granted exemptions to the extent that comparable courses have been completed at the University.

A period of practical experience is required to qualify as a registered member of the Society and at a minimum this will be two years.

For additional information, visit the CMABC website (www.cmabc.com).

ACADEMIC STAFF

Professors

Derek R. Atkins, B.A. (Oxf.), M.Sc. (Lanc.), Ph.D. (Warw.), E.D. MacPhee Chair of Management; **Brian Bemmels**, B.A., Ph.D. (Minn.), William Hamilton Chair of Industrial Relations; **Izak Benbasat**, B.A. (Robert Col., Istanbul), M.Sc., Ph.D. (Minn.), Canada Research Chair in Information Technology Management; **Joseph Berechman**, B.A. (Hebrew U. of Jerusalem), M.B.A., Ph.D. (Wharton, Pennsylvania); **Anthony E. Boardman**, B.A. (Kent), Ph.D. (Carnegie-Mellon), Van Dusen Professor of Business Administration; **James A. Brander**, B.A. (Br.Col.), M.A., Ph.D. (Stan.), Asia Pacific Professor of International Business and Public Policy; **Hong Chen**, B.S. (Xi'an, Jiaotong), M.A., Ph.D. (Stan.); **Gerald A. Feltham**, B.Com. (Sask.), Ph.D. (Calif., Berkeley), Deloitte & Touche Emeritus Professor of Accounting; **Ronald M. Giammarino**, B.A. (St.F.X.), M.A., Ph.D. (Qu.), PHN Professor of Corporate Finance; **David Gillen**, Ph.D. (Tor.), Vancouver International Airport Authority Professor of Transportation Policy; **Daniel Granot**, B.Sc., M.Sc. (Technion, Israel), Ph.D. (Texas), Affiliates Professor of Management; **Frieda Granot**, B.Sc., M.Sc. (Technion, Israel), Ph.D. (Texas), Advisory Council Chair of Management Science; **Dale Griffin**, B.A. (Br.Col.), M.A., Ph.D. (Stan.) Advisory Council Chair of Consumer Behaviour; **Stanley W. Hamilton**, B.Com. (Sask.), M.B.A. (Br.Col.), Ph.D. (Calif., Berkeley), Philip H. White Emeritus Professor of Urban Land Economics; **Keith Head**, B.A. (Swarthmore Coll.), Ph.D. (M.I.T.), HSBC Professor of Asian Commerce; **Robert L. Heinkel**, B.S. (Calif., Hayward), M.B.A., Ph.D. (Calif., Berkeley), Portfolio Management Foundation Professor of Finance; **Robert Helsley**, B.S. (Oregon), M.A., Ph.D. (Prin.), Watkinson Professor of Environmental and Land Management; **Alan Kraus**, B.A. (C'nell), M.B.A. (Stan.), Ph.D. (C'nell.), Perigee Emeritus Professor of Finance; **Maurice D. Levi**, B.A. (Manc.), M.A., Ph.D. (Chic.), Bank of Montreal Chair of International Finance; **S. Thomas McCormick**, A.B. (Penn.), Ph.D. (Stan.), W.J. Van Dusen Professor of Management; **Daniel F. Muzyka**, B.A. (Williamstown), M.B.A. (Penn.), D.B.A. (Harv.), RBC Financial Group Professor of Entrepreneurship; **Masao Nakamura**, B.S., M.S. (Keio, Tokyo), Ph.D. (Johns H.), Konwakai Professor of Japanese Research; **Peter N. Nemetz**, B.A. (Br.Col.), A.M., Ph.D. (Harv.); **Tae Hoon Oum**, B.Com. (Sung Kyun Kwan, Seoul), M.B.A., Ph.D. (Br.Col.), UPS Foundation Chair of Transportation; **Martin L. Puterman**, A.B. (C'nell.), M.S., Ph.D. (Stan.), Advisory Board Professor of Operations;

Maurice Queyranne, M.Sc., Ph.D. (Grenoble); **John C. Ries**, B.A. (Calif., Berkeley), M.A., Ph.D. (Mich.), HSBC Professor of Asian Business; **Sandra Robinson**, B.A., M.Sc. (Br.Col.), Ph.D. (Northwestern), Distinguished University Scholar; **Thomas W. Ross**, B.A. (W.Ont.), M.A., Ph.D. (Penn.), UPS Foundation Professor of Regulation and Competition Policy; **Dan A. Simunic**, B.S., M.B.A. (DePaul), M.B.A., Ph.D. (Chic.), C.P.A. (Ill.), C.G.A. (Br.Col.), C.G.A. Chair of Accounting; **Daniel Skarlicki**, B.Com., M.B.A. (Alta.), Ph.D. (Tor.), Edger F. Kaiser Chair of Organizational Behaviour; **Barbara Spencer**, B.Ec. (A.N.U.), M.Ec. (Monash), Ph.D. (Carnegie-Mellon), Asia Pacific Chair of International Trade Policy; **James A. Vercammen**, B.Sc., M.Sc. (Sask.), Ph.D. (Calif., Berkeley); **Ilan Vertinsky**, B.A. (Hebrew), Ph.D. (Calif., Berkeley), Vinod Sood Professor of International Business Studies; **Yair Wand**, B.Sc. (Hebrew), M.Sc. (Weizmann Inst. for Sc.), D.Sc. (Technion, Israel), CANFOR Professor of MIS; **Tan Wang**, B.Sc. (Beijing Inst. of Econ.), M.Sc. (Chinese Acad.), M.A., Ph.D. (Tor.), Peter Lusztig Professor of Finance; **Donald Wehrung**, A.B. (Dart.), M.Sc., Ph.D. (Stan.); **Charles B. Weinberg**, Sc.B. (Brown), M.B.A. (Harv.), Ph.D. (Col.), SMEV Presidents Professor of Marketing; **Ralph Winter**, B.Sc. (Br.Col.), M.A., Ph.D. (Calif., Berkeley), Canada Research Chair in Business Economics and Policy; **Anming Zhang**, B.Sc. (Shanghai Jiao-Tong), M.Sc., Ph.D. (Br.Col.), Vancouver International Airport Authority Professor of Air Transportation.

Associate Professors

Werner Antweiler, Dipl.-Volksw. (Köln), Ph.D. (Tor.), Professor of International Trade Policy; **Karl Aquino**, B.Sc., (Urbana-Champaign Ill.), M.Sc., Ph.D. (Northwestern); **Joy Begley**, B.Com. (Otago), M.S., Ph.D. (Roch.), Ronald Cliff Professor of Accounting; **Jonathan Berkowitz**, B.Sc., M.Sc. (Alta.), Ph.D. (Tor.); **Sandra Chamberlain**, B.S. (Calif. Berkeley), M.B.A., Ph.D. (Chic.), Deloitte and Touche Professor of Accounting; **Garland Chow**, B.Sc., M.B.A. (Maryland), D.B.A. (Indiana); **Darren Dahl**, B.Com. (Alta.), Ph.D. (Br.Col.), Fred H. Siller Professor of Applied Marketing; **Peter R. Darke**, B.Sc. (McM.), M.A., Ph.D. (Tor.), Finning Ltd. Professor of Marketing; **R. Glen Donaldson**, B.A. (Br.Col.), A.M., Ph.D. (Brown), Finning Ltd. Professor of Finance; **Robert C. Goldstein**, B.S. (M.I.T.), D.B.A. (Harv.); **Thomas Hellmann**, B.A. (LSE) Ph.D. (Stan.); **Thomas Knight**, B.A. (Hampshire Coll.), M.S., Ph.D. (C'nell); **Nancy Langton**, B.A., M.A. (Lehigh), M.A., Ph.D. (Stan.); **Kai Li**, B.Sc. (Jiatong), M.A. (Concordia), Ph.D. (Tor.), W.M. Young Professor of Finance; **Daniel Putler**, A.A. (Modesto), B.Sc., Ph.D., (Berkeley); **Martin Schulz**, M.A., Ph.D. (Stan.); **C. Tsuriel Somerville**, B.A. (Hebrew), Ph.D. (Harv.), Real Estate Foundation of BC Professor of Real Estate Finance; **Carson Woo**, B.Sc., M.Sc., Ph.D. (Tor.), Stanley Kwok Professor of Business.

Assistant Professors

Harjoat Bhamra, M.A. (Camb.), Ph.D. (London Bus. Sch.); **Andrew Burton-Jones**, B.Com., M.A. (Q'ld., Australia), Ph.D. (Georgia State); **Murray D. Carlson**, B.Sc. (Qu.), M.B.A., Ph.D. (Br.Col.); **Hasan Cavusoglu**, B.S. (Bogazici, Istanbul), M.S., Ph.D. (Texas, Dallas); **Ronald Cenfetelli**, B.S.A.A.E. (Purdue), M.B.A. (Indiana), Ph.D. (Br.Col.); **Huafeng (Jason) Chen**, B.A. (Hons.) (Beijing), M.A. (Wash.), M.B.A., Ph.D. (Chic.); **Xia Chen**, B.E., M.S. (Tsinghua, China), M.B.A., Ph.D. (Chic.); **Xinlei (Jack) Chen**, B.E. (Beijing), Ph.D. (Minn.); **Qiang Cheng**, B.E., B.S. (Tsinghua, China), Ph.D. (Wisc.-Madison); **Paul Chwelos**, B.Sc. (Vic.B.C.), Ph.D. (Br.Col.); **Eric Cope**, B.A., M.A., M.S., Ph.D. (Stan.); **Srabana Dasgupta**, B.A. (Jadavpur U., India), M.A. (Delhi Sc. Of Ec., India), M.S. (Florida), Ph.D. (S. Calif.); **Jean-Etienne de Bettignies**, B.Sc. (Lond.), M.A. (Louvain-la-Neuve, Bel.), M.B.A., Ph.D. (Chic.); **Tirtha Dhar**, B.A., M.A. (Delhi), M.Sc., Ph.D. (Conn.); **Adlai Fisher**, B.A.

(Macalester Coll.), M.A., M.Phil, Ph.D. (Yale); **Joey JoAndrea Hoegg**, B.A., B.Ed. (Br.Col.), M.B.A. (San Diego), Ph.D. (Flor.); **Marcin Kacperczyk**, B.A., M.A. (Warsaw Sc. of Econ.), Ph.D. (Michigan); **Harish Krishnan**, B.Sc. (Delhi), M.Sc. (Alabama), Ph.D. (Mich.); **Cornelia Kullmann**, B.S. (Cologne), M.Phil. (Columbia), Ph.D. (Columbia); **Ali Lazrak**, M.Sc. (Paris), Ph.D. (Toulouse); **Sanghoon (Conan) Lee**, B.A. (Seoul), Ph.D. (Minn.); **Kin Lo**, B.Com. (Calg.), M.S. (Northwestern), CA Professor of Accounting; **Sally Maitlis**, B.Sc. (Lond.), Ph.D. (Sheff.); **Mahesh Nagaranjan**, M.Sc. (I.T.T. Bombay), M.A. (S.Calif.), Ph.D. (S.Calif.); **Hernan Ortiz-Molina**, B.S. (Buenos Aires), M.A. (Argentina), Ph.D. (Maryland Coll. Park); **Marc David Seidel**, B.A., M.B.A. (C'nell), M.S., Ph.D. (Calif., Berkeley); **Tim Silk**, B.B.A. (Wat.), Ph.D. (Flor.); **Jai-Yeol Son**, B.Sc. (Ohio), M.Sc., Ph.D. (Georgia Tech.); **James Tansey**, B.Sc., Ph.D. (E. Anglia); **Danielle van Jaarsveld**, A.B. (Prin.), M.S., Ph.D. (C'nell); **Yoshio Yanadori**, B.A. (Waseda, Japan), M.S., Ph.D. (C'nell); **Rui (Juliet) Zhu**, B.A. (Beijing), Ph.D. (Minn.).

Senior Instructors

Steve S. Alisharan, B.A., C.A., C.M.A. (Br.Col.); **Daniel F. Gardiner**, B.A. (W.Ont.), M.A. (Qu.), M.B.A. (Br.Col.), Ph.D. (W.Ont.).

Lecturers

Yau-Man Cheung, M.B.A. (Warw.); **Paul Cubbon**, B.A. (Hons.) (Oxford), Exec. M.B.A. (Simon Fraser); **Johan P. de Rooy**, B.Ed. (Br.Col.), M.B.A. (Qu.), C.A., C.M.A. (Br.Col.); **Ruth J. Freedman**, B.Com., M.Sc. (Br.Col.), Ph.D. (Stan.); **Brian C. Graham**, B.Ed., M.B.A. (Br.Col.); **Jeff Kroeker**, B.A. (Trin. W.), M.B.A. (Qu.), C.M.A. (Br.Col.); **Mike Le-Roy**, B.Com. (Br.Col.); **Mari-Ann Linde**, B.A. (Tor.), M.B.A. (Br.Col.); **Donald B. Lockwood**, B.Com., M.B.A. (Br.Col.), M.B.A. (Chic.), C.A.; **Ellen J. McIntosh**, LL.B. (Br.Col.), LL.M. (Alta.); **Deborah J. Meredith**, B.A. (McG.), LL.B., LL.M. (Br.Col.); **William Tan**, B.Com., M.Sc.B. (Br.Col.); **Larry Wosk**, Dipl. ULE, B.Com. (Br.Col.), M.B.A. (Harv.).

Adjunct Professors

Howard Balloch, B.A., M.A. (McG.); **Brian Fisher**, B.A. (Hiram), Ph.D. (Calif., Santa Cruz); **Helen Michelson**, B.A., M.A., Ph.D. (Ill.); **Michael Phelps**, B.A., B.Laws (Manit.), M. Laws (Lond. School of Econ.), D. Laws, hon. (Winn.; S.Fraser); **Yaaco (Jacob) Steif**, B.Sc., M.A. (Jerusalem), Ph.D. (Lond.); **Michael W. Tretheway**, B.A., M.A., Ph.D. (Wis.); **Van Lierop**, M.A., Ph.D. (Amsterdam).

Divisions

Division of Accounting: D.A. Simunic (Chair), S. Alisharan, J. Begley, Sandra Chamberlain, X. Chen, Q. Cheng, J. de Rooy, G.A. Feltham, J. Kroeker, K. Lo, D.B. Lockwood; **Division of Finance**: G. Donaldson (Chair), H. Bhamra, M. Carlson, H.J. Chen, A. Fisher, R. Freedman, R.M. Giammarino, S. Hamilton, R.L. Heinkel, M. Kacperczyk, A. Kraus, C. Kullmann, A. Lazrak, M.D. Levi, K. Li, H. Ortiz-Molina, T. Wang; **Law Group**: D. Griffin (Chair), E. McIntosh, D. Meredith; **Division of Management Information Systems**: Y. Wand (Chair), I. Benbasat, A. Burton-Jones, H. Cavusoglu, R. Cenfetelli, Y.M. Cheung, P. Chwelos, R.C. Goldstein, J.Y. Son, W. Tan, C. Woo; **Division of Marketing**: C. Weinberg (Chair), X.J. Chen, P. Cubbon, D. Dahl, P.R. Darke, S. Dasgupta, T. Dhar, D.F. Gardiner, D. Griffin, J. Hoegg, M. Le Roy, D.S. Putler, T. Silk, R.J. Zhu; **Division of Operations and Logistics**: H. Chen (Chair), D.R. Atkins, J. Berechman, J. Berkowitz, G. Chow, E. Cope, D. Gillen, B. Graham, D. Granot, F. Granot, H. Krishnan, S.T. McCormick, M. Nagarajan, T. Oum, M.L. Puterman, M. Queyranne, I. Vertinsky, A. Zhang; **Division of Organizational Behaviour and Human Resources**:

S. Robinson (Chair), K. Aquino, B. Bemmels, T. Knight, N. Langton, S. Maitlis, M. Schulz, M. Seidel, D. Skarlicki, D. van Jaarsveld, Y. Yanadori; **Division of Strategy and Business Economics**: J. Ries (Chair), W. Antweiler, A.E. Boardman, J.A. Brander, J.E. de Bettignies, K. Head, T. Hellmann, R. Helsley, S.C. Lee, M. Linde, M. Nakamura, P.N. Nemetz, T. Ross, T. Somerville, B. Spencer, J. Vercammen, I. Vertinsky, R. Winter, L. Wosk; **Faculty Wide Appointments**: D. Muzyka, D. Wehrung.

6 The School of Community and Regional Planning

A SCHOOL WITHIN THE FACULTY OF GRADUATE STUDIES

Director's Office

Anthony H. J. Dorcey, Director

433–6333 Memorial Road
Vancouver, BC, V6T 1Z2
Telephone: 604-822-3276
Fax: 604-822-3787

Community and Regional Planning Website
(www.scarp.ubc.ca)

The School of Community and Regional Planning seeks to advance the transition to sustainability through excellence in integrated policy and planning research, professional education and community service. The School offers two-year professionally oriented master's degree programs and a research-oriented doctoral program.

The School graduated its first students in 1953 and has continuously offered a two-year Master's Degree in Planning, longer than any other Canadian school. Over 900 graduates are employed throughout Canada and abroad in a wide variety of teaching, research, planning, policy analysis, and administrative positions in universities, municipal, provincial and federal governments, public and private corporations, consulting practices, and non-governmental organizations. Many graduates are employed as generalists, particularly in municipal and regional planning agencies, but an increasing number are found in more specialized fields such as housing, parks, transportation, social planning, urban design, urban planning; environmental protection, water and land management, northern and First Nations planning, regional development, and natural resources planning; and in international development planning at all levels.

MASTER'S DEGREES

The master's degree will be either a *Master of Arts (Planning)*, or a *Master of Science (Planning)*, whichever best describes the prerequisites offered by the candidate and the courses chosen. The programs are described in further detail within the Faculty of Graduate Studies *Degree Programs*, "Degrees Offered: Ph.D., M.A.P., M.Sc.P." on page 275.

ADMISSION

How to Apply

There are two methods of applying to the Master's program for September 2007:

- Online applications can be filled out at: grad.ubc.ca/application.
- Paper applications are available at the SCARP office.

A complete application for admission includes:

- 1) A completed Faculty of Graduate Studies (FoGS) application form (online or paper, available at the Faculty of Graduate Studies website (grad.ubc.ca/apply/online)).
- 2) Application fee: for Canadian citizens and Permanent residents (CAD\$90.00, or US\$56.00); for International applicants (CAD\$150.00 or US\$115.00).
- 3) Three official confidential letters of reference, sent directly to the School of Community and Regional Planning by the writer, on a FoGS referee form or letterhead. Alternatively, the applicant can submit the letters directly to the School of Community and Regional Planning, as long as they have been signed and sealed by the referees.
- 4) Two official copies of all post-secondary academic transcripts, sent directly to the School of Community and Regional Planning from the institution. Alternatively, the applicant can submit the transcripts directly to the School of Community and Regional Planning as long as they have been signed and sealed by the institution(s).
- 5) A 500-word statement of interest (equivalent to one page single-spaced) indicating why the applicant wishes to study planning, the proposed study focus and how the School will help to meet the candidates objectives (the statement is part of the online application).
- 6) A biographical form – a list of your work, volunteer and travel experience (this is part of the online application).
- 7) An official TOEFL (minimum 600 paper based test or 250 for the computer based test), if required.
- 8) Graduate Record Exam (GRE) – recommended but not mandatory.
- 9) Record of Landing form (Canadian permanent residents).

We encourage applicants to submit their supporting documents before they apply to the program. A file is started as soon as we receive the first document. When you apply your supporting documents will be put with your application.

For detailed information on applying to our program see the School of Community and Regional Planning website (www.scarp.ubc.ca).

Application Review Process and Timeframe

The School of Community and Regional Planning accepts applications once a year for programs commencing in September. We have a firm application deadline of December 1 (application and all supporting documentation) to ensure that all applicants' files are reviewed together using a three-step process. The application deadline may be earlier for 2007 admissions (see www.scarp.ubc.ca for details).

- The first step involves compiling the applications and evaluating the transcripts to make sure they meet the minimum academic requirements set by the University of British Columbia's Faculty of Graduate Studies. The information is entered into the School's database.
- The second step involves reviewing the applications based on the applicant's first and second preferences. A committee, including appropriate faculty members, is formed for each concentration.
- The third step involves the faculty committee chairs reviewing the lists together and deciding who will be admitted. The acceptance letters are sent by mid-March to late-May. Each year we receive up to 200 Master's applications with only 30 spaces to fill. In order to give as many applicants the best possible chance at admission, we put approximately 20 people on a wait list. We usually make our final decisions by the end of May.

Those students whose native language is not English, and whose previous degree was not earned in an English-speaking university, who are accepted by the Faculty of Graduate Studies must complete the Test of English as a Foreign Language (TOEFL). For further information visit TOEFL (www.toefl.org). Make special note of instructions on the graduate application form under the "Special Examinations" section.

For more information, visit the School's website (www.scarp.ubc.ca). Please note the school is revising its curriculum. Check our school's website for the latest information. All documents and the appropriate application fee should be returned to the address below. The deadline for submitting complete applications is December 1 (deadline may change for 2007 admissions).

Graduate Advisor–Master's Program
School of Community & Regional Planning
The University of British Columbia
433–6333 Memorial Road
Vancouver, BC, V6T 1Z2

Prerequisites for Admission

Admission to a master's degree program requires a four-year bachelor's degree with high academic standing. Students are accepted from both the social sciences and the natural sciences, the humanities, and from such fields as commerce, architecture, engineering, agriculture and forestry. Students from other fields are accepted but may be required to fulfil additional prerequisites.

Prospective students are encouraged to follow an honours or major program in their own discipline and develop some breadth of knowledge during their undergraduate program by selecting from courses in ecology, economics, geography, political science, history, sociology, and organizational development and behaviour.

A candidate who has taken graduate courses equivalent to those described for the master's degree may be given credit not to exceed 12 credits for courses completed in the year prior to commencing their program in the School.

About 30 students are admitted annually. The School seeks highly motivated applicants who can communicate effectively, who are challenged by a field marked by complexity, who are creative, and have the potential to provide leadership.

Orientation

All entering students are required to attend orientation sessions at the commencement of Term 1 of Winter Session to become acquainted with faculty members and fellow students and to examine typical urban, regional and resource planning problems in BC and abroad.

ACADEMIC REGULATIONS

Students who do not make satisfactory progress in the program may be asked to withdraw at any time, and the status of all students who have not completed the program within the prescribed two-year period will be reviewed annually thereafter.

DEGREE REQUIREMENTS

The master's degree is awarded upon satisfactory completion of a program consisting of 60 credits, including a thesis or project, over two academic years. Those students who wish to develop a strong specialization may satisfy a significant proportion (up to 12 credits) of this requirement through courses in other departments.

The thesis is valued at 12 credits but several regular courses may be used to develop the thesis proposal, research method, and data analysis. The professional project is valued at 6 credits.

The School takes an integrated approach to planning for development. Students may concentrate their studies in Urban Spatial Planning, Urban Policy and Community Development Planning, Environmental and Natural Resources Planning, International Development Planning, or a combination of these, but may take courses in other concentrations, other departments, or at other universities.

Urban Spatial Planning programs focus on physical and transportation planning and design, real property development and planning, and small town planning. Urban Policy and Community Development Planning programs focus on community development, urban policy planning, urban social issues, and housing policy planning. Environmental and Natural Resources Planning programs focus on natural resources planning and management, ecological theory for sustainable development, ecological economics, environmental policy and decision-making, and resource conflict resolution. International Development Planning programs focus on human settlements and development planning in the developing world. Students in all streams participate in hands-on workshops that focus on current planning and development issues.

A program of studies will normally be comprised as shown below:

- Foundation courses. These courses provide a breadth of knowledge covering: the social, economic, and ecological context for urbanization, regional development, and resource planning; the institutional arrangements for planning; and theories of the planning process.
- Methods courses. Planners have a major responsibility for generating, analyzing and presenting information for the decision-making process. All students require basic skills in planning analysis. Appropriate courses outside the School may be substituted.
- Substantive courses. These courses provide depth of knowledge within the concentrations offered by the School. Courses taken in other departments should be complementary and choices should be related to thesis research interests.

- Workshops. These courses provide an opportunity for students to apply their knowledge and skills to planning problems under circumstances that simulate professional practice.
- Thesis or project research. Students are required to prepare a thesis or project in their second year on a subject of their choice. The fullest benefit of this research is derived by those students who relate their overall program of studies to their research subject area.

Teaching, Learning and Research

The School's program of teaching and research strikes a balance between developing the competence required to enter professional practice today, and the intellectual preparation needed to continue to function adequately in increasingly responsible positions in a rapidly changing world. The program covers the substance and methods of urban, community, environmental and natural resources planning, as well as the process and institutional arrangements for planning, its ideological basis, and the role and ethical responsibility of the planner. The School is interested in the solutions to today's problems as well as in anticipating and shaping the future through policy-relevant scholarly research. From the student's point of view, the program has the following salient characteristics:

- opportunities for students with narrow disciplinary training to broaden their knowledge, the better to assume responsibilities in planning and management;
- opportunities for students with a generalist background to acquire greater disciplinary rigour in a planning-related field of their choice;
- flexibility within a structured format to design a program of studies to satisfy individual needs;
- an emphasis on formal course work, balanced with directed studies, an internship, and original thesis or project research; and
- opportunities for joint student-faculty research and publication.

Students are encouraged to become involved in the activities of the University's several research institutes and to enrol in relevant graduate courses in other departments. For example, in resource management there is the *Institute for Resources, Environment and Sustainability*, p. 82; and in developing countries' issues, the *Institute of Asian Research*, p. 80.

The School's *Centre for Human Settlements (CHS)*, p. 75, designated a "Centre for Excellence" in 1991/92 by the Canadian International Development Agency, further strengthens the School's research capability in urban and regional development, housing, urban governance, and community development planning in both the developed and developing world. The Centre also houses the Disaster Preparedness Resources Centre and the Eco-Risk Research Unit.

DOCTOR OF PHILOSOPHY

The School offers a Doctor of Philosophy program for advanced study and research in the areas of its competence. The Doctor of Philosophy is primarily a research degree, so that students should enter with a good background in their field of study. After two years of course work and examinations, candidates devote their efforts toward thesis research.

Applicants for admission must have a Master's Degree in Planning, or its equivalent, with high academic standing. To ascertain the School's ability to fulfil potential candidates' objectives, a statement of about 1000 words is required describing their research interests and objectives which should be submitted at least one month before the application deadline.

For more information, visit the SCARP website (www.scarp.ubc.ca). All documents and the appropriate application fee should be returned to the Director's Office. The deadline for submitting complete applications is December 1.

ADVISORY COMMITTEES

Committees consist of a prospective research supervisor and three other faculty members to advise students and approve their programs of study. At least one member of each committee is from a discipline other than planning. Membership in the committee may change as the student's program evolves, but it is formalized on final approval of the thesis proposal.

PROGRAM

Each doctoral candidate's program is designed by the candidate's advisory committee in consultation with the student to reflect individual requirements. The program of studies will normally include:

- 1) course work;
- 2) qualifying examination in the form of two research essays;
- 3) language requirement, at the discretion of the faculty, appropriate to the student's objectives;
- 4) approval of thesis prospectus;
- 5) research and preparation of thesis; and
- 6) oral presentation of thesis and final examination of the candidate.

The first year of the doctoral program usually involves course work in preparation for the qualifying examination and development of the research prospectus. Additional courses may be necessary in the second year, in support of the proposed thesis research. Specific requirements are left to the discretion of the candidate's committee in consultation with the candidate.

Doctoral candidates normally write their qualifying essays in the second year. These essays focus on planning theory, and issues and methods in the student's area of specialization. Course requirements should be completed by this time.

Students who successfully complete their qualifying essays will then finalize their thesis research prospectus in consultation with their advisory committee. After the prospectus has been approved the candidate's efforts are devoted to research and preparation of the thesis.

DISSERTATION REQUIREMENTS

The Faculty of Graduate Studies requires the thesis to be submitted to an external examiner or examiners approved by the Dean and at the completion of the research the candidate must take an oral examination in defence of the dissertation.

ACADEMIC STAFF

Professors

Joseph Berechman, B.A. (Jerusalem), M.B.A. (Penn., Wharton), Ph.D. (Penn.); **Peter Boothroyd**, B.A. (Tor.), M.A. (Alta.); **Anthony H. J. Dorsey**, M.A. (Aberd.), M.S. (Wis.); **Penelope C. Gurstein**, B.A. (York), B.Arch. (Br.Col.), M. Arch., Ph.D. (Calif., Berkeley); **Timothy McDaniels**, B.A. (Minn.), M.A. (S.Fraser), Ph.D. (Carnegie-Mellon); **William E. Rees**, B.Sc., Ph.D. (Tor.); **Leonie Sandercock**, B.A. (Adel.), Ph.D. (Aust.), M.F.A. (Calif., L.A.); **Hans Schreier**, B.A. (Colorado), M.Sc. (Sheff.), Ph.D. (Br.Col.), Professor in Land and Food Systems.

Associate Professors

Leonora C. Angeles, B.A. (Philippines), Dip. Women and Development Planning (Nott.), M.A. (Philippines), Ph.D. (Qu.); **Stephanie E. Chang**, B.S.E. (Prin.), M.S., Ph.D. (C'nell.); **Lawrence D. Frank**, B.L.A. (Arizona), M.Sc. (Wash.), Ph.D. (Wash.); **Thomas Hutton**, B.A. (Br.Col.), B. Litt., Ph.D. (Oxon.); **Michael Leaf**, B.Sc. (M.I.T.), M.Arch., M.C.P. (Calif., Berkeley), Ph.D. (Calif., Berkeley).

Assistant Professor

Michael A. Larice, B.A., M.A. (Calif. L.A.), Ph.D. (Calif., Berkeley).

Adjunct Professors

Mike Carr, B.A., M.A. (Toronto), M.E.S. (York), Ph.D. (Br.Col.); **Doug Aberley**, B.A. (Sonoma), M.A. (Br.Col.), Ph.D. (Edin.); **Larry Beasley**, B.A. (S.Fraser), M.A. (Br.Col.); **Pat Carney**, B.A., M.A. (Br.Col.); **John Friedmann**, M.A., Ph.D. (Chic.), Honorary Professor; **Julia Gardner**, B.A. (Trent), M.A. (Wat.), Ph.D. (Cant.); **Michael Gordon**, B.E.S. (Wat.), M.Sc. (Br.Col.); **Wayne Greene**, B.Sc. (New Hamp.), M.Sc., Ph.D. (Iowa); **Robin Gregory**, B.A. (Yale), M.A., Ph.D. (Br.Col.); **Kari Huhtala**, B.A. (S.Fraser), M.A. (Br.Col.); **Norma-Jean McLaren**, B.A. (Vic.B.C.), M.A. (Br.Col.); **Jon O'Riordan**, M.A. (Edin.), Ph.D. (Br.Col.); **Freda Pagani**, B.A. Architecture (Glas., Strathclyde), M.A. Environmental Studies (York), Ph.D. Resources Management and Environmental Studies (Br.Col.); **Gordon Price**; **Paul Rosenau**, B.A. (Alta.), M.Sc. (Br.Col.); **Eric Vance**, B.A., M.A. (Br.Col.); **Jay Wollenberg**, B.A., M.A. (M.I.T.); **Raymond E. Young**, B.A., M.A., L.L.B. (Br.Col.).

Dentistry Website (www.dentistry.ubc.ca)

The Faculty of Dentistry offers programs of study leading to the Doctor of Dental Medicine, Master of Science in Dental Science, Doctor of Philosophy in Oral Biology and Bachelor of Dental Science in Dental Hygiene. The Faculty also offers the International Dental Degree Completion Program. Graduate and postgraduate clinical specialty training programs are offered in Periodontics, Oral Medicine, Oral Pathology, Oral Radiology, and General Practice Residency. For information on graduate programs, see *Dental Science*, p. 235, in the Graduate Studies section. In addition to graduate and postgraduate programs, there is strong emphasis on continuing dental education for the dental and allied professions, under the jurisdiction of the College of Health Disciplines.

The teaching, research, and clinical facilities of the Faculty of Dentistry are housed in the Dental Health Sciences (John Barfoot Macdonald) Building as part of the Health Sciences Centre to promote integrated teaching of the health services team. Instruction in the basic biomedical sciences is provided by basic science departments of the Faculty of Dentistry and the Faculty of Medicine. Library facilities are provided in the Woodward Biomedical Library.

DOCTOR OF DENTAL MEDICINE

The Doctor of Dental Medicine program is designed to prepare students to practice dentistry with a sound knowledge of the related biological, clinical, and behavioural sciences, and to emphasize the role of the dentist as a health professional in the community.

ACADEMIC ADVISING

The Faculty provides academic advising to students. A structured advisor program is in place along with additional support through the Dean's Office.

ADMISSION

Admission to the Faculty of Dentistry is based on academic performance and personal qualities as evidenced by aptitude tests, confidential letters of recommendation, letter of intent, and personal interviews. Since facilities for pre-clinical and clinical instruction are limited, enrolment is restricted. Applicants must be Canadian citizens or permanent residents of Canada. Completion of three academic years in the Faculty of Arts or Science including pre-dental requirements at UBC or the equivalent, with a minimum scholastic average of 70%, (based on the system of grading used at UBC), is required.

Fulfillment of the minimum requirements for admission does not guarantee acceptance. The number of qualified applicants significantly exceeds the number of available positions. Not every qualified applicant will be offered admission. Candidates who meet admission requirements but who are not successful in gaining a place with their initial application may reapply for admission in a subsequent year, although the number of interviews is normally limited to two.

Application forms and information regarding the admissions process and pre-dental requirements, are available on the Dentistry website (www.dentistry.ubc.ca). Applications and supporting documents must be submitted by the November 10, 2005 deadline for admission to the following Winter academic session. Applicants must submit the required non-refundable application fee to cover the costs of evaluating application documents. Applicants to the Faculty of Dentistry who have been required to withdraw from a dental program will not normally be granted admission.

Prerequisites

Successful completion of the following courses in the Faculty of Arts or Science at UBC (or evidence of successfully completing equivalent courses elsewhere) is required:

- 1) ENGL 112 and one elective chosen from: ENGL 110, ENGL 111, ENGL 120, or ENGL 121. Satisfactory completion of the Language Proficiency Index (LPI) is a pre-requisite to all first-year English courses at UBC. (See *Language Proficiency Index Requirement for First-Year English*, p. 120.)
- 2) MATH 100 and 101; or MATH 102 and 103; MATH 104 and 105; or MATH 120 and 121; MATH 180 and one of MATH 101, 103 or 105; or MATH 184 and one of MATH 101, 103 or 105; or MATH 111; or the former MATH 130.
- 3) CHEM 121 and 123; or CHEM 111 and 113; or the former CHEM 111 and 112; or CHEM 121 and 122.
- 4) PHYS 12 and PHYS 101; or PHYS 100 and 101; or PHYS 101 and 102; or PHYS 107 and 108; or PHYS 153; or the former PHYS 121 and 122 or one of the former PHYS 110, 115, or 120.
- 5) BIOL 12 or BIOL 111 and BIOL 121 or equivalent.
- 6) CHEM 203 and 204; or CHEM 233, 235 and 205; or the former CHEM 231 and 232.
- 7) BIOC 300 or 303; or BIOL 201 and BIOC 302.

Students completing the Science One program will likely have completed the science requirements of points 2, 3, 4 and 5 above.

Aptitude Testing

Applicants must have completed the Canadian Dental Association Dental Aptitude Test (DAT) within the previous five years before the Faculty's application deadline of November 10, 2005. Information and application forms are available from the Student Development Library, the Dentistry Student Services Office, or may be downloaded from the Canadian Dental Association website (www.cda-adc.ca). At the time of the test the student must request that the scores be sent to the Dentistry Student Services Office.

Acceptance

Successful applicants must submit a deposit within two weeks of notification of acceptance by the University. This deposit is non-refundable and will be applied towards the clinic fees of the first term.

A health record which evidences immunizations (Tetanus/Diphtheria-Toxoid, Polio, MMR, Chickenpox, Hepatitis B) and a negative TB skin test (if the test is positive, a chest x-ray is required) must be submitted to the Student Health Service. Immunizations are available from your family doctor, public health department, and from the Student Health Service. Being a carrier of any serious communicable disease may restrict students' educational opportunity to attain competency for graduation and subsequent practice as a dentist. Counselling is available to individuals who have, or are carriers of, communicable diseases.

A disability may result from practising dentistry. Exposure to infectious diseases such as HIV, Hepatitis B, Hepatitis C, other infectious diseases, and the possibility of physical assault are all possible. Injury during training may preclude a student from continuing and from practising dentistry. While the Faculty of Dentistry makes efforts to minimize such risks, it does not provide any insurance to protect students from loss of future income. The Faculty recommends that students purchase disability insurance and continue coverage during postgraduate training and practice.

Admission of Students with Advanced Standing

There are no arrangements for considering advanced standing for applicants from other dental schools.

International Dental Degree Completion Program

The Faculty will consider applications to the D.M.D. degree completion program from graduates of international dental programs which are not accredited by the Commission on Dental Accreditation of Canada. This program will commence in Term 3 of second year (lasts four weeks and occurs in June each year) and will lead to the degree of Doctor of Dental Medicine. In addition to tuition fees, the costs of the program include clinic fees, course material costs, and student fees. Further information and online application forms are available on the Dentistry website (www.dentistry.ubc.ca).

The Faculty of Dentistry receives applications from many more students than it can accept; therefore, compliance with the admission requirements does not guarantee admission. Vacancies as a result of student withdrawal in any class will not be filled, except in extraordinary circumstances, beyond the first four weeks of first term in any academic year.

The admission process will be in two phases.

PHASE 1: ACADEMIC CREDENTIALS

EVALUATION

Applicants must:

- 1) submit original records (transcripts) of

their entire post-secondary and university studies (if transcripts are in a language other than English, applicants must also submit a certified translation in English);

- 2) submit their original dental degree (it will be returned);
- 3) demonstrate an acceptable working knowledge of English by achieving an overall score of at least 6.5 on the International English Language Testing System (IELTS) (www.ielts.org) exam and at least 6 on each component;
- 4) submit proof of Permanent Resident status;
- 5) submit the required non-refundable application fee;
- 6) make application by June 3, 2005 for admission in June of the next year;
- 7) submit three confidential letters of reference, which must be sent directly from their referees;
- 8) submit a letter of good standing from the licensing authority, or its equivalent, of the region in which the applicant last practised; and
- 9) undertake the Association of Canadian Faculties of Dentistry Eligibility Examination (www.acfd.ca). Information and application forms are available from the Association of Canadian Faculties of Dentistry, 401-359 Kent Street, Ottawa, ON, K2P 0R7. The applicant must request that the scores of the examination be sent to the Student Services Office in the Faculty of Dentistry.

Applicants will be evaluated on their educational credentials, work experience, letters of reference, letter of intent, results of the Eligibility Examination and their proficiency in English in Phase 1. Applicants will be shortlisted for participation in Phase 2 of the admissions process. Due to space limitations, not all applicants will be invited to Phase 2.

PHASE 2: ASSESSMENT AND INTERVIEW

Applicants invited to Phase 2 must:

- 1) undertake an interview to demonstrate competence in verbal communication skills in English by reaching level 5 or better on the Placement Interview Test Rating Scale of the English Language Institute at UBC, or its equivalent. English is the medium of instruction in Dentistry and communication skills are necessary to function effectively in the clinical setting. This requirement in English communication skills is in addition to the English Language Admissions Standard requirement of Phase 1;
- 2) undergo a psychomotor skills assessment on dental mannequins at UBC;
- 3) undertake a personal interview at UBC;
- 4) participate in a problem based learning exercise; and
- 5) submit a non-refundable assessment fee.

Phase 2 normally occurs in October and lasts three days. During this time the interview, the psychomotor skills assessment, the English fluency test, an assessment of participation in a

problem-based learning exercise, a Faculty tour, and an orientation to the clinic will occur.

More detailed information on Phase 2 of the admissions process will be provided to applicants selected for Phase 2.

As spaces are limited, successful completion of Phase 2 does not guarantee admission. Candidates will be competing with other applicants from which the final selection will be made.

Deposit

Successful applicants must submit a deposit within two weeks of notification of acceptance by the University. This deposit is non-refundable and will be applied towards the clinic fees of the first term of third year. See *Acceptance*, p. 180; the information on immunizations and disability also apply to this program.

Registration and Orientation

Students register through the Student Service Centre (www.students.ubc.ca/ssc) (SSC).

Candidates who have been accepted for admission to the Faculty of Dentistry will be notified by email concerning registration and orientation. Classes begin in August. No student will be admitted to any class after its first meeting, except by permission of the Dean.

ACADEMIC REGULATIONS

Advancement

The Faculty will determine the student's fitness for promotion at the end of each session (see the *Faculty of Dentistry Academic Policies and Procedures Manual*). No student with deficient standing will be promoted.

A student whose academic standing is unsatisfactory may be required either to withdraw from the Faculty or to repeat the entire work of the year.

If the progress of a student has been unsatisfactory in any given session, the Faculty may permit a supplemental examination in the subject(s) failed provided an average of at least 60% in the work of the year, including the failed courses, has been attained. The Module Coordinator(s)/Course Director(s) concerned may direct such work as will be necessary to prepare for the supplemental examination. It is the responsibility of the student to consult with the Module Coordinator(s)/Course Director(s) concerned about such arrangements. A student who satisfies the requirements of the modules/courses concerned and passes each supplemental examination with a mark of at least 65% will be promoted. All supplemental examinations must be taken at the University.

A student in the first year who fails to be promoted will not normally be permitted to repeat the year except under special circumstances.

Although satisfactory academic performance is prerequisite to advancement, it is not the sole criterion in consideration of the suitability of a student for promotion or graduation. The Faculty reserves the right to require a student to withdraw from the Faculty if considered to be unsuited to proceed with the study, or enter the practice, of dentistry.

Attendance

Regular attendance is expected of students in all their classes (including lectures, laboratories, tutorials, seminars and clinics). Students who neglect their academic work and assignments may be excluded from the final examinations. Students who are unavoidably absent because of illness or disability must report this to the Dean's Office and to their instructors as soon as is practicable.

Students who, because of illness, are absent from an end-of-term examination, must inform the Manager of Admissions and Academic Progress and then submit a physician's certificate to the Associate Dean Academic and Student Affairs as promptly as possible.

All unavoidable absences for reasons other than sickness must be reported and explained to the Dean's Office through the Student Services Office and to the instructor(s) concerned when the student returns to classes.

A student planning to be absent from classes for any reason must obtain prior permission from the Associate Dean Academic and Student Affairs.

For a detailed description of the Faculty's Excused Absence Policy, see the Dentistry *Academic Policies and Procedures Manual*.

Examinations

Examinations in the Faculty of Dentistry may be held at various times throughout the year. These examinations are obligatory for all students.

Should students find that they will be unavoidably absent from a sessional examination, they, or someone familiar with the situation, must notify the Dean's Office of the facts in the case before the end of the period during which the examination is scheduled. Non-observance of this rule may result in a failing grade for the course.

When a sessional examination has been missed through illness or some other justifiable cause, application for deferred examination or special consideration must be made in writing to the Associate Dean Academic and Student Affairs as soon as possible. If the absence was for reasons of health, a physician's certificate indicating the nature and duration of the illness must be submitted to the Dean's Office.

Students may be denied the privilege of writing a sessional examination in any subject because of unsatisfactory work or attendance, and in this case they will be considered to have failed in the course.

In any module/course which involves assessment of professionalism and/or clinical skills and/or knowledge, a student is required to achieve satisfactory standing in each part. If the module/course is repeated, no exemption will ordinarily be granted from the work in any part.

Term essays and examination papers may be refused a passing mark if they are illegible or noticeably deficient in English.

The passing mark in the Faculty of Dentistry is 60%. (See *Grading Practices*, p. 47.)

All final module/course grades will be reviewed by the Dentistry Promotions Committee. Examination results may be posted at the discretion of the Module/Course Coordinator. Grades are not final until received by the Promotions Committee. Release of module/course grades will be done by the Dean's Office; final Course grades will be released by Enrolment Services. Final module/course grades will not be communicated through any other channel.

Graduation

A candidate for the Doctor of Dental Medicine must have fulfilled all the requirements for entrance to the Faculty of Dentistry and have attended the courses of instruction which comprise the dental curriculum. No one will be admitted to candidacy for the Doctor of Dental Medicine who has not been in attendance for at least two years in the Faculty of Dentistry at the University of British Columbia.

Each candidate for graduation must have passed all examinations in subjects comprising the dental modules/courses or must have received satisfactory standing in modules/courses where specific marks are not assigned.

The Faculty will recommend to Senate the granting of the Doctor of Dental Medicine to a student who has completed satisfactorily the academic requirements and who, in addition, is recommended by the Faculty to be a suitable person to practice dentistry.

Every candidate for the Doctor of Dental Medicine must make formal application for graduation. Application for graduation must be made not later than February 28. Special forms for this purpose are provided by Enrolment Services.

DEGREE REQUIREMENTS

First Year

In first year, students take the following courses:

- 1) three longitudinal courses: Clinical Skills (Term 1, Communication Skills), Doctor/Dentist Patient and Society (DPAS), DENT 410 (Dentistry I)
 - (a) Phase I: Orientation
 - (b) Phase II, Part I: Principles of Human Biology
 - (c) Phase II, Part II: Host Defences and Infection; Cardiovascular; Pulmonary; Fluids, Electrolytes, Renal and GU.

Second Year

In second year, students take the following courses:

- 1) three longitudinal courses: Clinical Skills, Doctor/Dentist Patient and Society (DPAS), DENT 420 (Dentistry II)
- 2) Phase II, Part II: Musculoskeletal and Locomotor; Blood and Lymphatics; Gastrointestinal; Endocrine and Metabolism; Integument; Brain and Behaviour; Reproduction; Growth and Development.

Third Year

In third year, students take the DENT 430 (Dentistry III).

Fourth Year

In fourth year, students take DENT 440 (Dentistry IV).

Curriculum

The DMD curriculum at UBC is an innovative hybrid of problem-based learning (PBL) and more traditional lectures and clinical experiences, with an emphasis on self-directed student learning and problem solving in small group settings. Lectures occupy a smaller amount of curriculum time than traditional curricula. The knowledge, attitudes, and skills required of a UBC graduate entering general dental practice are outlined in the UBC *Faculty of Dentistry Competency Document* (www.dentistry.ubc.ca/academic_programs/dmd/competency_document.asp).

Interprofessional Electives

Under the auspices of the Council, the *College of Health Disciplines*, p. 291, is responsible for the administration of interprofessional courses (IHHS), which are available as electives to students in Dentistry.

For more information see Courses (www.students.ubc.ca/calendar/courses.cfm) for IHHS, or visit their website (www.health-disciplines.ubc.ca).

Instruments and Supplies

Check with the Dentistry Student Services Office for information regarding costs for instruments and supplies.

DENTAL HYGIENE DEGREE PROGRAM

The Faculty of Dentistry offers three admission options to the Dental Hygiene Degree Program:

- 1) Direct Entry;
- 2) Degree Completion; and
- 3) International Degree Completion.

In the Direct Entry option, secondary school graduates can undertake a full-time, four-year program leading to the degree of Bachelor of Dental Science in Dental Hygiene (B.D.Sc.). Graduates of a dental hygiene diploma program from accredited North American programs can complete the Degree Completion option, either full-time or part-time, leading to the B.D.Sc. degree. Graduates from dental hygiene programs outside of North America may access the Program through the International Degree Completion option leading to the B.D.Sc. degree.

Dental hygienists who have been awarded a baccalaureate degree and wish to undertake post-baccalaureate education in the field of Dentistry may apply to the Master of Science (Dental Science) Program as a full-time or part-time student. Qualified dental hygienists interested in pursuing a doctoral degree may apply to the Doctor of Philosophy (Oral Biology) Program. Study in the Ph.D. Program requires full-time attendance. See *Graduate Studies*, p. 242.

The possession of a Bachelor of Dental Science degree in Dental Hygiene does not automatically confer the right to practice dental hygiene in any province in Canada. Each province has a

regulatory authority that grants the privilege to practice dental hygiene. For more information, contact the College of Dental Hygienists of BC (www.cdhbc.com).

1. DIRECT ENTRY OPTION

Students entering the Program will complete the degree requirements through a partnership between the UBC Faculty of Dentistry and the dental hygiene programs of Camosun College, College of New Caledonia, and Vancouver Community College. The Faculty expects students to register in a full course load in order to complete their degree requirements in 4 years. The first year of the Direct Entry option is taken at UBC and consists of 33 credits of course work. Students who have successfully completed the first year of the program will advance to one of the three Colleges for the second and third years (September to June each year). Assignment to one of the three partner Colleges will be made by the University. Student preferences for College location will be considered but cannot be guaranteed. The fourth year of the program is taken at UBC through on-campus, distributed learning and community outreach instructional delivery.

First Year

The first year of the Direct Entry Option consists of the following arts and science courses taken at UBC:

English 100-level ¹	6
Biology 153	7
Chemistry 100-level	8
Psychology 100 or 200	6
Statistics 203	3
Electives	3
Total Credits	33

¹ ENGL 112 (3 credits, plus 3 additional first year English credits)

Second and Third Year

A combination of academic and clinical studies in the following subjects taken at one of the partner community colleges.

- Behavioural Sciences
- Immunology and Microbiology
- Embryology and Histology
- Oral Anatomy and Physiology
- Dental Anatomy
- General Pathology
- Oral Pathology
- Pharmacology
- Radiology
- Periodontics
- Dental Hygiene Theory and Practice
- Local Anesthesia
- Dental Materials
- Ethics and Jurisprudence
- Community Health
- Health Promotion and Preventive Dentistry
- Literature Review and Interpretation of Research

- Interpersonal Skills and Advanced Communication
- Dental Specialties
- Practice Management

Fourth Year

The fourth year of the direct entry option includes advanced studies at UBC through on-campus, distributed learning and community outreach instructional delivery modes. The fourth year builds upon concepts introduced previously. Coursework includes core and elective courses:

DHYG 401	Oral Epidemiology	2/5
DHYG 404	Dental Hygiene Practice II	6
DHYG 405	Oral Microbiology and Immunology	3
DHYG 435	Oral Medicine & Pathology	3
DHYG 462	Literature Review II	4
EPSE 482/ HCEP 400 ¹	Statistics	3
Electives ^{2,3,4}		9
Total Credits		30

¹ If DHYG 401 (5) not taken.

² Electives must be UBC courses (transfer credit is not permitted) and may be taken in areas of interest such as health promotion, residential care, geriatrics, community health, adult education, health care ethics, inter-professional education, behavioural sciences, economics, etc. Electives may be taken on campus or through distance education at UBC.

³ Faculty of Dentistry courses subject to sufficient enrolment include: DHYG 400 (6) Current Issues in Oral Health Sciences; DHYG 433 (3) Assessment & Treatment Planning for Advanced Periodontal Diseases; DENT 407 (6) Oral Health Care in Residential Care Settings.

⁴ Interprofessional courses are highly recommended. For a complete list of IHHS courses offered by the College of Health Disciplines, please see their website (www.health-disciplines.ubc.ca).

Admission from Secondary School

For secondary school applicants entering in September 2007, admission into the Direct Entry option of the Dental Hygiene Degree Program will be based upon academic performance and broad-based criteria. Among the factors considered in the application review are academic performance in the courses required for admission, demonstrated leadership skills, active participation in extracurricular activities, significant awards and achievements, personal statement, and references.

Information on application procedures and admission policies requirements for UBC (www.welcome.ubc.ca) and the Dental Hygiene degree are specified in the chapter *Admissions*, p. 13. All applicants must complete the Dental Hygiene Degree Program on-line supplemental application at the Dentistry website (secure.dentistry.ubc.ca/application/instructions.asp). Incomplete and late applications will not be accepted.

All inquiries relating to admission and the supplemental application should be addressed to the Student Services offices of the Faculty of Dentistry at fodadms@interchange.ubc.ca.

ABORIGINAL APPLICANTS

The Faculty of Dentistry welcomes applications from qualified Aboriginal applicants. Please visit the UBC website (www.students.ubc.ca/welcome/aboriginal.cfm) for more information.

2. DEGREE COMPLETION

There are two categories of students in the Degree Completion option: Category 1 and Category 2. See Admission to Dental Hygiene Degree Completion (Category 1 and 2) or visit the Dentistry website (www.dentistry.ubc.ca) to determine eligibility for the appropriate admission category. Students in either category may undertake studies on a full or part-time basis. Part-time students will have up to five years to complete the program.

Category 1—Students Who Have Completed 30 Credits of University Transfer Prerequisites.

Graduates of dental hygiene diploma programs accredited by the Commission of Dental Accreditation of Canada (CDAC) or the Commission of Dental Accreditation (CODA) of the American Dental Association (ADA) with a minimum overall average of 70% are eligible for admission to the fourth year of the Program. Current registration, in good standing, with a regulatory authority where the applicant has practiced most recently and a Canadian National Dental Hygiene Certification Board Examination Certificate or the American National Board Certificate are required. If an applicant is a recent graduate of a dental hygiene diploma program seeking to enter the Dental Hygiene Program directly and has not yet practiced, then a recommendation letter from the director of the dental hygiene diploma program is required.

Students must complete the following courses to be eligible to apply for graduation. Coursework includes core and elective courses:

DHYG 401	Oral Epidemiology	2/5
DHYG 404	Dental Hygiene Practice II	6
DHYG 405	Oral Microbiology and Immunology	3
DHYG 435	Oral Medicine & Pathology	3
DHYG 462	Literature Review II	4
EPSE 482/ HCEP 400 ¹	Statistics	3
Electives ^{2,3,4}		9
Total Credits		30

¹ If DHYG 401 (5) not taken

² Electives must be UBC courses (transfer credit is not permitted) and may be taken in areas of interest such as health promotion, residential care, geriatrics, community health, adult education, health care ethics, inter-professional education, behavioural sciences, economics, etc. Electives may be taken on campus or through distance education at UBC.

³ Faculty of Dentistry courses subject to sufficient enrolment include: DHYG 400 (6) Current Issues in Oral Health Sciences; DHYG 433 (3) Assessment & Treatment Planning for Advanced Periodontal Diseases; DENT 407 (6) Oral Health Care in Residential Care Settings.

⁴ Interprofessional courses are highly recommended. For a complete list of IHHS courses offered by the College of Health Disciplines, please see their website (www.health-disciplines.ubc.ca).

Note: Students currently enrolled in the final year of an accredited dental hygiene diploma program (with 30 credits of university transfer prerequisites) who wish to transfer directly into the fourth year of the Dental Hygiene Program immediately following diploma graduation, can make application. Applicants may be given a conditional acceptance under the provisions of Category 1. Official acceptance will be granted only upon successful completion of the requirements for dental hygiene diploma graduation and the admission requirements of the Faculty of Dentistry (refer to www.dentistry.ubc.ca). Acceptance also depends on available space.

Category 2—Students Who Have Not Completed 30 Credits of University Transfer Prerequisites.

Graduates of dental hygiene diploma programs accredited by the Commission of Dental Accreditation of Canada (CDAC) or the Commission of Dental Accreditation (CODA) of the American Dental Association (ADA) with a minimum overall average of 70% are eligible for admission to third year of the Program. Current registration, in good standing, with a regulatory authority where the applicant has practiced most recently, and a Canadian National Dental Hygiene Certification Board Examination Certificate or the American National Board Certificate are required. If an applicant is a recent graduate of a dental hygiene diploma seeking to enter the Dental Hygiene Program directly and has not yet practiced, then a recommendation letter from the director of the dental hygiene diploma program is required.

Students must complete the following courses to be eligible to apply for graduation. Course work includes core and elective courses.

DHYG 400	Current Issues in Oral Health Sciences	6
DHYG 401	Oral Epidemiology	2/5
DHYG 402	Dental Hygiene Practice I	6
DHYG 404	Dental Hygiene Practice II	6
DHYG 405	Oral Microbiology and Immunology	3
DHYG 433	Assessment and Treatment Planning for Advanced Periodontal Diseases	3
DHYG 435	Oral Medicine & Pathology	3
DHYG 461	Literature Review I	4
DHYG 462	Literature Review II	4
ENGL 301	Technical and Business Writing or equivalent	3
EPSE 482/ HCEP 400 ¹	Statistics or equivalent	3
IHHS 401	Biomedical Ethics or equivalent	3
Electives ^{2,3,4}		15
Total Credits		61

¹ If DHYG 401 (5) not taken.

² Electives may be taken in areas of interest such as health promotion, residential care, geriatrics, community health, adult education, health care ethics, inter-professional education, behavioural sciences, economics, etc. Some core courses and electives may be taken on campus or through distance education at UBC, BC Open University, or other recognized universities. Permission of the

Program Director is required for all non-UBC courses.

³ Faculty of Dentistry courses subject to sufficient enrolment include: DENT 407 (6)—Oral Health Care in Residential Care Settings.

⁴ Interprofessional courses are highly recommended. For a complete list of IHHS courses offered by the College of Health Disciplines, please see their website (www.health-disciplines.ubc.ca).

Note: Students currently enrolled in the final year of an accredited dental hygiene diploma program (without 30 credits of university transfer prerequisites) who wish to transfer directly into the third year of the Dental Hygiene Program immediately following diploma graduation can make application. Applicants may be given a conditional acceptance subject to successful completion of the requirements for dental hygiene diploma graduation and the admission requirements of the Faculty of Dentistry (refer to www.dentistry.ubc.ca). Acceptance also depends on available space.

Admission to Degree Completion (Category 1 and 2)

Applicants must meet the general admission requirements of the University as specified in the chapter *Admissions*, p. 13, or at www.students.ubc.ca/welcome/apply.cfm. No specific courses at the secondary school level are mandatory.

Applicants seeking to enter Category 1 must have completed 30 credits of university transfer courses including:

- 6 credits of first-year Biology (Anatomy and Physiology)
- 6 credits of first-year Chemistry
- 6 credits of first-year English
- 6 credits of first or second-year Psychology
- 6 credits of electives.

All other applicants are eligible to apply under Category 2. Application must be made online to the Faculty of Dentistry. Deadlines for application are April 15 for admission the following September. Eligible applicants may be invited to participate in a structured interview. Detailed information regarding the admissions process and application forms are available on the Dentistry website (www.dentistry.ubc.ca). The electronic application, required non-refundable application fee and all supporting documents must be submitted to the Manager, Admissions and Academic Progress, Faculty of Dentistry by the April 15 deadline.

3. INTERNATIONAL DEGREE COMPLETION

Graduates of programs that are not accredited by the Commission on Dental Accreditation of Canada (CDAC) but who hold the Canadian National Dental Hygiene Certification Board Examination Certificate may be admitted to the third year of the Program. No specific courses at the secondary school level are mandatory. Applicants are required to have, or be eligible to have, current registration, in good standing, with a regulatory authority where the applicant has practiced most recently. If the applicant has not practiced, then a letter of support from an

instructor from their dental hygiene program is required. All applicants must demonstrate an acceptable working knowledge of English by achieving an overall score of at least 6.5 on the IELTS (www.ielts.org) and at least 6 on each component of the exam.

Registration to practice in BC is not required for admission to the Program. However, international applicants who wish to practice dental hygiene in British Columbia must satisfy the requirements of the College of Dental Hygienists of BC, the provincial dental hygiene regulatory authority. For information, refer to the CDHBC website (www.cdhbc.com).

Students must complete the following courses to be eligible to apply for graduation. Coursework includes core and elective courses.

DHYG 400	Current Issues in Oral Health	6
DHYG 401	Oral Epidemiology	2/5
DHYG 402	Dental Hygiene Practice I	6
DHYG 404	Dental Hygiene Practice II	6
DHYG 405	Oral Microbiology and Immunology	3
DHYG 433	Assessment and Treatment Planning for Advanced Periodontal Diseases	3
DHYG 435	Oral Medicine & Pathology	3
DHYG 461	Literature Review I	4
DHYG 462	Literature Review II	4
ENGL 301	Technical and Business Writing	3
EPSE 482/ HCEP 400 ¹	Statistics	3
IHHS 401	Biomedical Ethics	3
Electives ^{2,3,4}		15
Total Credits		61

¹ If DHYG 401 (5) not taken.

² Electives may be taken in areas of interest such as health promotion, residential care, geriatrics, community health, adult education, health care ethics, inter-professional education, behavioural sciences, economics, etc. Some core courses and electives may be taken on campus or through distance education at UBC, BC Open University, or other recognized universities. Permission of the Program Director is required for all non-UBC courses.

³ Available Faculty of Dentistry courses include: DENT 407 (6) Oral Health Care in Residential Care Settings.

⁴ Interprofessional courses are highly recommended. For a complete list of IHHS courses offered by the College of Health Disciplines, please see their website (www.health-disciplines.ubc.ca).

Admission to International Degree Completion

Application must be made online to the Faculty of Dentistry. The deadline for application is April 15 for the following September. Eligible applicants may be invited to participate in a structured interview and may be required to undertake an interview to demonstrate competence in verbal communication skills in English by reaching level 5 or better on the Placement Interview and Test Rating Scale of the English Language Institute (ELI) at UBC, or its equivalent. This requirement in English communication skills is in addition to the English Language Admission Standard as

demonstrated by the applicant's IELTS exam score. Detailed information regarding the admissions process and application forms are available on the Dentistry website (www.dentistry.ubc.ca). The electronic application, required non-refundable application fee and all supporting documents must be submitted to the Manager, Admissions and Academic Progress, Faculty of Dentistry by the April 15 deadline.

ACCEPTANCE

1. Direct Entry Applicants

The Dental Hygiene Degree Program has limited enrolment. Since the number of qualified applicants typically exceeds the number of places available, fulfillment of the minimum requirements is not a guarantee of admission. The Faculty reserves the right of selection of all students for admission to the Program.

A health record that evidences immunizations (Tetanus/Diphtheria-Toxoid, Polio, MMR, Chickenpox, and Hepatitis B) and a negative TB skin test (if the test is positive, a chest x-ray is required) must be submitted to the UBC Student Health Service. Immunizations are available from your family doctor, community health department, and from the UBC Student Health Service. Being a carrier of any one of the conditions may restrict students' educational opportunity to fulfil requirements for graduation and subsequent practice as a dental hygienist. Counselling is available to individuals who have, or are carriers, of communicable diseases. Applicants should be aware that dental hygiene practice might be very difficult for people with back problems or latex allergies.

Disability may result from practicing dental hygiene. Included are exposure to infectious diseases such as HIV, Hepatitis, musculo-skeletal injuries and the possibility of physical assault. Injury during training may preclude a student from continuing and from practicing dental hygiene. While the Faculty of Dentistry makes efforts to minimize such risks it does not provide any insurance to protect students from loss of future income. The Faculty recommends that students purchase disability insurance and continue coverage during training and practice.

2. Degree Completion Applicants

Selection for admission is based on academic performance as evidenced by scholastic records (transcripts), interview results, and letter of intent. Applicants who meet minimum admission requirements are not guaranteed acceptance. Enrolment is limited. Successful applicants must submit a deposit by the date specified in the letter of offer from the Faculty of Dentistry. This deposit is non-refundable and will be applied towards tuition fees. If an applicant does not register for the term specified in the acceptance letter, the acceptance and the deposit will be forfeited.

3. International Degree Completion Applicants

Selection for admission is based on interview results, letter of intent, and ELI verbal communication test results. Applicants who meet minimum admission requirements are not guaranteed acceptance. Enrolment is limited. Successful applicants must submit a deposit by the date specified in the letter of offer from the Faculty of Dentistry. This deposit is non-refundable and will be applied towards tuition fees. If an applicant does not register at UBC for the term specified in the acceptance letter, the acceptance and the deposit will be forfeited.

READMISSION

The Faculty of Dentistry reserves the right to readmit students and to stipulate conditions attached to readmission. Readmission to the Program may necessitate repetition of courses previously completed if, in the judgment of the Faculty, curriculum changes and/or length of interruption are sufficient to render the applicant inadequately prepared to continue studies.

ACADEMIC REGULATIONS

Students are subject to Faculty policies on advancement, attendance, and examinations as outlined in the Faculty of Dentistry calendar entry (see *Academic Regulations*, p. 180).

Part-time students will be expected to complete the program within five years of initial course registration.

GRADUATION REQUIREMENTS

Candidates for the Bachelor of Dental Science (Degree in Dental Hygiene) must have fulfilled all the requirements for entrance to the Faculty of Dentistry and have completed the courses of instruction which comprise the Dental Hygiene Program.

Candidates must have met the academic requirements of the program as defined by the Faculty.

The Faculty will recommend to Senate the granting of the Bachelor of Dental Science (Degree in Dental Hygiene) to students who have satisfactorily completed the academic requirements.

Candidates for the Bachelor of Dental Science (Degree in Dental Hygiene) must make formal application for graduation. Candidates planning to graduate in May must apply by the February deadline and candidates planning to graduate in November must apply by the August deadline. See the Academic Year (www.students.ubc.ca/calendar/academic-year.cfm). Special forms for this purpose are provided by Enrolment Services.

PROGRAM INQUIRIES

All inquiries relating to the Dental Hygiene Degree Program should be addressed to: Student Services Office
Faculty of Dentistry
The University of British Columbia
278-2199 Wesbrook Mall
Vancouver, BC, V6T 1Z3
Tel: 604-822-3416
Fax: 604-822-8279
Email: fodadms@interchange.ubc.ca (Faculty of Dentistry Admissions)

GRADUATE AND POST-GRADUATE PROGRAMS

DOCTOR OF PHILOSOPHY

The Faculty of Dentistry offers the opportunity for advanced study in a number of areas related to oral biology including basic and applied biology of the cells and extracellular matrix of the periodontium, oral microbiology, cellular immunology, biomaterials, craniofacial growth and development, teratology, oral sensorimotor function, craniofacial biomechanics, and microbiological and biochemical assessment of caries and periodontal disease activity. The Faculty has good research funding and is well equipped to carry out advanced research. Students will normally be required to take DENT 540 (Research Methods and Seminars in Oral Biology), and either DENT 541 (Craniofacial Biology) or DENT 542 (Biology of Oral Tissues), and an additional six credits during their first year. In addition, students will be required to pass a comprehensive examination. The program will be open to those who have completed a D.D.S., D.M.D., M.D., D.V.M. or their equivalents, or an M.Sc. in Dental Science or a related discipline.

MASTER OF SCIENCE

The Faculty of Dentistry offers facilities and opportunities for advanced study leading to the Master of Science. Candidates will be accepted under the general regulations of the Faculty of Graduate Studies to study in one of the major recognized fields of dentistry. The program will ordinarily require two full academic years. A program of part-time graduate studies is also available.

COMBINED MASTER OF SCIENCE/ DIPLOMA IN PERIODONTICS

The program provides an opportunity for qualified students to enter a combined program leading to an M.Sc. in Dental Science and a Diploma in Periodontics. The program provides education and training for potential clinicians, research workers, and teachers. The Diploma is not offered without successful completion of the master's degree. Graduates will be eligible to take the examinations for specialty certification in periodontics of the Royal College of Dentists of Canada and the American Board of Periodontology.

The application deadline for the combined program is October 1. Admission to the program is subject to the evidence of the capacity for grad-

uate study and applicants must satisfy the requirements for admission to the Faculty of Graduate Studies. Applicants must hold a Doctor of Medicine or its equivalent from a recognized university. Registration is dependent upon the availability of adequate faculty members and facilities. Consent of the Faculty of Dentistry is required prior to registration.

CERTIFICATE IN ORAL MEDICINE AND ORAL PATHOLOGY

The Faculty of Dentistry offers a Certificate in Oral Medicine and Oral Pathology. This accredited program is a three-year, hospital-based clinical residency for students seeking specialty recognition by the Royal College of Dentists of Canada and/or provincial licensure in the specialty of oral medicine and oral pathology. It offers alternative paths for residents specializing in either or both disciplines.

Applicants must have a dental degree from a recognized dental school. Admission requirements include at least five years of prior, full-time education in English in Canada (or the equivalent in another country). Alternatively, a score of at least 600 (paper-based) or 250 (computer-based) in the Test of English as a Foreign Language (TOEFL) is required.

CONTACT INFORMATION

For more information and application forms, please contact Mrs. V. Beretanos Koulouris (vickybk@interchange.ubc.ca), Office of Graduate Studies, Faculty of Dentistry, The University of British Columbia, 2199 Wesbrook Mall, Vancouver, BC, V6T 1Z3; telephone 604-822-4486, fax 604-822-3562.

GENERAL PRACTICE RESIDENCY TRAINING PROGRAM

The Faculty of Dentistry and the departments of Dentistry of the Vancouver Hospital and Health Sciences Centre (12th and Oak site and UBC site), the BC Cancer Agency and British Columbia's Children's Hospital, offer a one-year General Practice Residency training program commencing each June and July. The residents selected must be registered as students of the Faculty of Dentistry and with the College of Dental Surgeons of British Columbia for which separate fees are paid.

ADMISSION

Graduates of any accredited North American dental school are eligible for admission. All candidates must satisfy the requirements for registration of the College of Dental Surgeons of BC. Graduates of foreign dental schools must possess a current and valid certificate from the National Dental Examining Board of Canada.

APPLICATION

Application forms and descriptive literature on the program may be obtained from the Dentistry website (www.dentistry.ubc.ca). Inquiries may also be made of the heads of dental departments of the individual teaching

hospitals. There is an application fee of CAD\$100.00 which must accompany the completed application. The completed application must be submitted before November 1 for entry to the program the following year.

PROFESSIONAL ASSOCIATION

The possession of a Doctor of Dental Medicine does not automatically confer the right to practise dentistry in any province in Canada. Each province has a licensing body which grants a licence to practice dentistry within its own borders. Inquiries concerning registration and licensing should be directed to the Registrar, College of Dental Surgeons of BC, 1765 West 8th Avenue, Vancouver, BC, V6J 5C6 or to their counterparts in other provinces.

For clarification of their ability to obtain a license to practice dentistry in British Columbia, persons convicted of a criminal offense, including a conviction for an offense which resulted in a conditional or absolute discharge, who are considering a career in dentistry, should write to the Registrar of the College before beginning their studies. Most provinces will accept for registration the certificate issued by the National Dental Examining Board of Canada, for which there is a fee.

Information concerning National Dental Examining Board certificates may be obtained from The National Dental Examining Board of Canada, 203-100 Bronson Street, Ottawa, Ontario, K1R 6G8; website (www.ndeb.ca).

ACADEMIC STAFF

DEPARTMENT OF ORAL BIOLOGICAL AND MEDICAL SCIENCES

Donald M. Brunette, Acting Head

Professors

Dieter Bromme, M.Sc., Ph.D. (Halle), D.Sc.; Donald M. Brunette, B.Sc., M.Sc., Ph.D. (Tor.); David Donaldson, B.D.S., (St.And.), F.D.S., R.C.S. (Edin.) M.D.S. (Dund.); Markus Haapasalo, D.D.S., Ph.D. (Helsinki); Hannu S. Larjava, D.D.S., Ph.D., Dipl.Perio. (Finland); Barry C. McBride, B.Sc., M.Sc. (Br.Col.), Ph.D. (Ill.); Christopher M. Overall, B.D.S., B.Sc., M.D.S. (Adel.), Ph.D. (Tor.); Lewei Zhang, B.D.S. (W.China), Dip. Oral Path., Ph.D. (Tor.), F.R.C.D. (C).

Professors Emeriti

George Beagrie, D.D.S. (Edin.), F.D.S.R.C.S. (Edin.), F.R.C.D. (C), F.I.C.D.; Bruce Blasberg, D.M.D. (Penn.), Cert. Oral Medicine; Pierre Dow, B.A.Sc., D.D.S. (Wash.), M.Sc. (Br.Col.); Gary Gibson, D.D.S. (Alta.); Alfred Ogilvie, D.D.S. (Tor.), M.S. (Calif.); Colin Price, B.D.S., M.D.S. (Birm.), F.D.S., R.C.S. (Eng.), F.R.C.D.(C); John D. Spouge, M.D.S. (Sheff.), F.D.S., R.C.S. (Eng.), M.R.C.S. (Eng.), L.R.C.P. (Lond.), F.R.C.S.(C); Alva E. Swanson, D.D.S. (Tor.), M.S. (Mich.), F.R.C.D.(C); V. V. Jukka Uitto, D.D.S., Ph.D., Dip. Perio. (Helsinki).

Associate Professors

Bonnie J. Craig, Dip.D.H. (Manit.), M.Ed. (S.Fraser), R.D.H.; David MacDonald, B.D.S., B.Sc. (Glas.), M.Sc. (Lond.), LL.B., F.D.S.R.C.P.S. (Glas.), D.D.R.R.C.R.; Edward E. Putnins, D.M.D.,

Dipl.Perio., M.Sc. (Manit.), Ph.D. (Br.Col.); Clive Roberts, B.A., M.A. (Cantab.), Ph.D. (Brunel); N. Dorin Ruse, B.Sc., M.Sc. (Cluj), Ph.D. (Tor.); Ravindra M. Shah, B.D.S. (Bom.), M.S. (Buffalo), Ph.D. (Qu.); David Sweet, D.M.D. (Br.Col.), Ph.D.(Granada), D.A.B.F.O.; J. Douglas Waterfield, B.Sc., M.Sc. (Br.Col.), Fil.dr. (Karolinska).

Assistant Professors

Jeffrey Coil, B.Sc., D.M.D. (Br.Col.), Cert. Endo. (Wash.); Lari Hakkinen, D.D.S., Ph.D. (Turku); Ian Matthew, B.D.S. (Liv.), M.Dent.Sc., Ph.D. (Birm.), F.D.S.R.C.S. (Lond.; Edin.); William R. McDonald, D.M.D., M.D. (Br.Col.); Robert W. Priddy, D.D.S., M.Sc. (Tor.), F.R.C.D.(C); Eli Whitney, B.Sc., D.D.S. (Alta.).

Clinical Professors

Eugene C. Cameron, M.D. (Br.Col.), F.R.C.P.C.; Andrew Chalmers, B.Sc. (Cape T.), M.D. (Br.Col.), F.R.C.P.C.; Joel B. Epstein, D.M.D. (Sask.), M.S.D. (Wash.); David V. Godin, B.Sc., Ph.D. (Ott.); Gershon H. Grove, M.D. (Tor.), F.R.C.P.C.; Victor F. Hucknell, B.Sc., M.D. (Br.Col.); Ronald A. Kleinknecht, B.A., M.A., Ph.D. (Wash.); Gerardo Maupomé, D.M.D. (Mexico), M.Sc. (Lond.), Ph.D. (Lond.); John H. McNeill, B.Sc., M.Sc., Ph.D.; David Ostrow, B.Sc., M.D. (Manit.), F.R.C.P.C., M.A. (Mich.); Neil E. Reiner, A.B. (Oberlin), M.D. (Case Western), F.R.C.P.C., F.A.C.P.; Grant H. Stiver, B.Sc. (Med.), M.D. (Manit.), F.R.C.P.C.; Ken Yaegaki, D.D.S., Ph.D. (Japan).

Clinical Associate Professors

Robert J. Conklin, B.Sc., M.D. (Manit), F.R.C.P.(C)(Derm.); Burton Goldstein, B.A., D.M.D. (Penn.); Timothy Gould, B.D.S., L.D.S., R.C.S. Dip. Perio., Ph.D., M.R.C.D.C.; Christopher Peck, B.D.S., M.Sc. Dent. (Syd.); John G. Silver, B.D.S. (Lond.), L.D.S., R.C.S. (Eng.), Dipl. Periodont. (Penn.), F.R.C.D.(C); Peter Stevenson-Moore, B.D.S., L.D.S., R.C.S. (Eng.), M.S.D. (Wash.); Malcolm F. Williamson, B.D.S. (Eng.), L.D.S., R.C.S. (Eng.), D.D.M.P.H. (Tor.).

Clinical Assistant Professors

Martin Aidelbaum, D.D.S., Dip. Oral Surgery; Clive Bethel, B.Sc., D.M.D.; Martin P. Braverman, B.Sc., D.M.D. (Br.Col.); Blaine Cairns, B.Sc. (Guelph), D.M.D. (Br.Col.); Brian Changpong, D.D.S. (U.S.C.); Babak Chehroudi, D.M.D. (Iran), Ph.D. (Br.Col.); Ken Chow, B.Sc. (Br.Col.), D.D.S. (S.Calif.), Cert. Oral Surgery (Ill., Chic.); Lee Colfer, Dipl. Dental Hygiene, DDS, Dip. Peric, M.Sc; Sheilesh Davé, D.M.D., M.S.D.; Shafiq Dharamsi, B.A., B.Ed. (York), B.Sc. (Med. College of Georgia), M.Sc., Ph.D. (Br.Col.); John S. Diggins, B.Sc., D.M.D. (Br.Col.), M.S.D. (Wash.); Brad Forster, D.D.S. (Tor.), Dip. OMFSS (Tor.); Dennis Frazer, DMD, MSc; Curtis Gill, D.M.D. (Sask.), M.D. (Sask.); Larry Goldstein, D.M.D., Dip. Oral Surgery; Donald Habijanac, B.Sc., D.D.S. (Alta.), Cert. Perio (S.Calif.); Askkan Hafezi, D.M.D., Cert. (Endo.); Earl Hall, B.Sc. (Guelph); Tassos Irinakis, D.D.S. (Athens), Dip. Perio. (Br.Col.); Brian Lahiffe, B.D.S. (Dub.), M.S. (Mich.); Robert C. Leung, D.M.D. (Br.Col.), M.P.H. (Loma Linda), Dip. Perio. (Br.Col.); Sonia Leziy, D.D.S. (McG.), Dip. Perio. (Br.Col.); William MacDonald, Bryce McDougall, D.H.D., Dip. Perio; Peter M. Munns, B.D.S. (Lond.), M.Sc.D. (Boston); Nazanin Naranji, D.D.S (Iran), Dip. Perio/ M.Sc; David Nerman, D.M.D. (Manit.), Cert. Endo. (Virginia); Carol Oakley, D.M.D. (Alta.), Dip. Perio., Ph.D. (Br.Col.); Elaine Orpe, B.Sc., D.M.D. (Manit.), Dip. Oral Radiol. (Tor.); Natanya Padachey, D.D.S. (Tor.); Catherine Poh, D.D.S. (Taiwan), Ph.D. (Br.Col.); Mark Reichman, B.Sc. (Tor.), D.D.S. (Tor.), Clinical Assistant Professor; Thomas Routledge, ; Helen Scott, D.M.D., Dip. Perio; Virendra K. Seth,

B.Sc., B.D.S., D.D.S. (Tor.), M.S. (Chic.); James Severs, David Sheilesh, BSc (Alberta), DDS (Alberta), MSD; Kenji K. Shimizu, D.M.D. (Br.Col.); Sharma K. Sinanon, B.A., D.M.D. (Br.Col.), Cert. Endo. (Oregon), F.R.C.D.(C); Ron Slemko, B.Sc., D.D.S. (Alta.); David Sowden, D.M.D., Cert. (O.M.F.S.); Michelle Tang, B.Sc., D.D.S., M.Sc. (Tor.); Perry Trester, D.M.D. (Manit.); Priscilla Walsh, D.D.S. (Alta.), Dip. Perio (Br.Col.); Colin Wiebe, B.Sc., D.D.S. (Alta.), Dip. Perio, M.Sc. (Br.Col.); Michael Wilby, D.D.S. (McG.), Dip. Perio (Oregon); Michele Williams, B.Sc., D.M.D. (Br.Col.), Cert. Oral Medicine (Penn.); Earl Winestock, D.M.D. (Manit.), Cert. Endo. (Oregon); Gerald Wittenberg, M.Sc. (Minn.), D.M.D. (Br.Col.); Jane M. Wong, Dip. D.H., B.A.

Clinical Instructors

Houman Abtin, B.D.S. (India); Mohsen Assadollahi, D.D.S.; Shirley Bassett, Dip.D.H. (Manit.), B.Sc.D. (Tor.), R.D.H.; Denise Beerwald, Dip. D.H.; Howard Bittner, D.M.D., C.D.S.B.C. (Endo.), C.A.G.S. (Endo.); Shelley Ann Chaisson, Dental Hygiene Degree; Doug Conn, B.S.F., B.Sc., D.M.D., Cert. (Endo.); Ron Corber, B.Sc., D.M.D., Cert. (Endo.); Donald Cronin; Margaret Dennett, B.Ed. (Alta.), C.D.A.; Harinder Dhanju, B.D.S. (Guru Nanak); Ashifa Dharamsi, Assoc. Degree Dental Hygiene (Georgia, U.S.A.), Dip. Dental Assisting (Career Canada College); Leanne Donnelly, Dip. D.H.; Mahmoud Ektefaie, B.Sc., D.M.D. (Br.Col.); Lisa Enns, Dip. D.H.; Catherine Fairfield, Dip.D.H. (Alta.); Heather Fay, M.B.Ch.B. (Aberd.); Kostantinos Georgas, B.Sc., D.M.D. (Br.Col.), Cert. Perio, M.S.D. (Wash.); Ladan Ghanipoor, D.D.S.; Lynn Guest, Dip. D.H., B.H.E., M.Sc. (Br.Col.); Pamela Hancock, D.M.D. (Br.Col.); Chris Hardy, Dip. DH (Dalhousie); Penny Hatzimanolakis, B.D.Sc. (Br.Col.); Hans Heilmann, D.M.D. (McG.); Bonnie Hoath, Dip. D.H. (Alta.); Cathy Jackson, B.A.; Suzette Jestin, B.Ed. (Alta.); Rebecca Kan, Dip. DH (UBC); Carolyn King, B.D.S. (Br.Col.); Salmé Lavigne, Dip.D.H., M.Sc. (Missouri); Rosemary Lear, B.D.S., M.D.S. (Belfast); James Lin, D.D.S. (Tor.); James MacDonald, B.Sc. (Wis.), D.M.D., M.Sc., Cert. Perio. (Br.Col.); Robert MacDonald, B.Sc. (Acad.), M.Sc. (Detroit), D.D.S. (Dal.); Ektefaie Mahmoud, D.M.D. (Br.Col.); Joel Marcoe, B.Sc., D.M.D. (Br.Col.); Alexis Martin, B.Sc., M.Sc; Debbie McCloy, Dip.D.H., B.D.Sc. (Br.Col.), R.D.H.; Mary-Ann McKinnon, B.A., Dip.D.H.; Sujay Mehta, D.M.D. (Tufts); Daljit Nagra, D.M.D. (Br.Col.); Gregory Nelson, BSc (Br.Col.), DMD (Br.Col.); Carter Ng, B.Sc. (S.Fraser), D.D.S. (U. of Pacific School of Dentistry, San Francisco); Nathalie Paulto, D.D.S. (Montr.), Dip.Perio (Br.Col.); Cheri Porth, D.M.D. (Br.Col.); Lovdeep Randhawa, B.D.S. (India), D.M.D. (Br.Col.); Alexander Rosenczweig, D.M.D. (Br.Col.); Carolle Sauro, B.Sc. (Nursing), RN, MSN; Pour Rostmanian Sharifabad, D.D.S. (Iran); Majid Sherkat, D.M.D. (Br.Col.), G.P.R. (McG.); Stephanie Song, BSc (UBC), DMD (UBC); Lisa Supene, B.D.Sc. (Br.Col.); Linda Talbot, B.D.Sc. (Br.Col.); Mark Wang, B.Sc. (Tor.), D.M.D. (Br.Col.).

Honorary Clinical Instructors

Michael Sretavan, B.Sc., D.D.S. (McG.); Division of Endodontics: J. Coil (Chair), D. Donaldson; Division of Hospital Dentistry: D. Donaldson (Chair), P. Stevenson-Moore, P. Trester; Division of Oral Biology: (Chair), D. Brunette, B. McBride, C. Overall, R. Shah, D. Waterfield; Division of Oral Diagnosis and Oral Medicine: D. Sweet, C. Peck; Division of Oral and Maxillofacial Surgery: I. Matthew (Chair), W. McDonald; Division of Oral Pathology: R. W. Priddy (Chair), L. Zhang; Division of Oral Radiology: D. MacDonald (Chair), E. Orpe; Division of Pain and Anxiety: D. Donaldson (Chair); Division of Periodontics and Dental Hygiene: H. Larjaja (Chair), B. J. Craig, L. Hakkinen, E. E. Putnins, I. Sy; Division of Continuing Dental Education: J. M. Wong (Director);

B.D.Sc. Program: B. J. Craig (Director); General Practice Residency: C. Zed. (Director).

DEPARTMENT OF ORAL HEALTH SCIENCES

Virginia M. Diewert, Head

Professors

D. Christopher Clark, B.S., D.D.S., M.P.H. (Mich.); Virginia M. Diewert, D.D.S. (Alta.), M.Sc. (Northwestern); Alan A. Lowe, D.M.D. (Br.Col.), Dip. Ortho., Ph.D. (Tor.), F.R.C.D.(C); Michael I. MacEntee, L.D.S. (R.C.S.I.), Dipl. Prosth. (S. Carolina), Ph.D. (Dub.), F.R.C.D.(C); Joanne N. Walton, D.D.S. (Alta.), Cert. Pros. (Walter Reed), F.R.C.D.(C); Edwin H. K. Yen, D.D.S. (McG.), Dip. Ortho., Ph.D. (Tor.).

Professors Emeriti

Marcia A. Boyd, D.D.S. (Alta.), M.A. (Br.Col.); Gary D. Derkson, D.M.D. (Manit.); Norman Ferguson, D.M.D. (N. Pacific Col., Oregon), F.R.C.D. (C) (Hon.), F.A.C.D., F.I.C.D., F.A.D.I.; Alan G. Hannam, B.D.S. (Adel.), F.D.S., R.C.S. (Engl.), Ph.D. (Brist.); Trevor J. Harrop, L.D.S. (Glas.), D.D.S. (Dal.), M.S., Ph.D. (Iowa); S. L. Khanna, B.A., B.D.S. (Punj.), D.M.D. (Manit.), M.S. (Roch.); Clement S. C. Lear, B.D.S. (N.Z.), Dip. Ortho., D.M.D. (Harv.); Lyndon Martin, B.Sc. (Lough.), Ph.D. (Oxf.); Alan S. Richardson, D.D.S., M.Sc. (Alta.); William A. Richter, D.M.D., M.S. (Oregon); Douglas J. Yeo, D.D.S. (Tor.), M.P.H. (Mich.).

Associate Professors

Rosamund L. Harrison, D.M.D. (Sask.), M.Sc. (Roch.), M.R.C.D.(C); M. A. J. Lex MacNeil, D.D.S. (Dal.); Joy Richman, D.M.D. (Manit.), M.S.D., Ph.D. (Lond.); Lance M. Rucker, A.B. (Calif., Berkeley), B.Sc.D., D.D.S. (Calif., San Francisco); N. Dorin Ruse, B.Sc., M.Sc. (Cluj), Ph.D. (Tor.); Christopher C. L. Wyatt, B.Sc., D.M.D. (Br.Col.).

Assistant Professor

Jolanta Aleksejuniene, D.D.S. (Lithuania), M.Sc., Ph.D. (Norway); S. Ross Bryant, B.Sc., D.D.S. (Alta.), M.Sc. (Br.Col.), Dipl. Pros., Ph.D. (Tor.), F.R.C.D. (C.).

Clinical Professor

Ian Bennett, D.D.S. (Tor.), M.Sc. (Wash.).

Clinical Associate Professor

Michael Belenky, D.D.S., M.P.H., F.A.C.D.; Gary Derkson, D.M.D. (Manit.); Sandra Fastlicht, D.D.S., Cert. Ortho., Masters Ortho. (Mexico).

Clinical Assistant Professors

Colleen Adams, B.Sc. (Br.Col.), D.M.D. (Br.Col.); Barbara J. Bradey, D.D.S. (Alta.); William Brymer, D.D.S. (Dal.); Peter Chan, H.B.Sc. (Tor), D.D.S. (W.Ont.), Dip. Ped. Dent. (Wash.); Hui Chen, D.M.D. (CUMS), Dip. Ortho (CUMS); W. Sam Cheung, B.A. (Calif. State, Fresno), D.D.S. (Northwestern); Jack Chu, Clinical Assistant Professor; Lisa Covey, D.M.D. (Br.Col.); Suzanne Cziraki, B.Sc. (Wat.), B.Ed. (Tor.), D.D.S. (Tor.), M.Sc. (Wat.), M.Sc. Ortho. (Tor.); Nicki DeFrancesco, D.M.D. (Manit.), M.Sc. (Manit.); Hasnain Dewji, D.D.S.; Brent Douglas, BSc (U of A), DMD (UBC); Andrea Esteves, C.D. (U.E. Londrina), M.Sc. (Br.Col.); Maryam Farbood, D.D.S. (Tehran), Dip. Ortho (Ytehran); Leo Fung, D.M.D. (Manit.), M.S.D. (Indiana); Michael Fung, D.M.D. (Br.Col.); Karen Gardner, D.M.D. (Br.Col.); Murray A. Good, D.M.D. (Manit.); Masoud Haghi, D.M.D. (Germany), Cert. Ortho (S.Fran); Felicity Hardwick, B.D.S. (Pret.), M.S.D. (Witw.); Alexa Herberston, D.M.D. (Br.Col.), Dipl. Ortho., Ph.D. (Tor.); Bryan Hicks, Cert. Ortho. (Wash.), D.M.D. (Northwestern); Tricia Hughes,

C.D.A. B.Ed. (Alta.), M.Ed. (Vic.B.C.); T.W. John Hung, B.Sc. (Wis.), D.M.D. (Wash.; St. Louis); Robin Jackson, D.D.S. (McG.), M.S. (Buffalo); Simon Jacobson, Clinical Assistant Professor; David Kennedy, B.D.S., M.S.D. (Wash.); Terrance S. Kline, B.Sc., D.D.S. (Alta.); Kenneth Lee, D.D.S., Cert. Perio. (Wash.); Joyce Ling, B.Sc., D.M.D. (Br.Col.); Angie Loo, D.M.D. (Br.Col.), M.Sc., (Manit.); Daniel Ma, D.M.D. (Boston); Sandra Maduke, D.M.D. (Boston), Cert. Ortho. (Oregon); Ritchie Mah, D.D.S., M.Sc. (Alta.); Nathan Maltz, B.Sc., D.D.S. (McG.); Robert Mann, D.D.S. (Alta.), M.S. (Montr.); Cathy McGregor, D.M.D. (Br.Col.); Louis Metzner, B.Sc. (Pharm.), D.M.D. (Br.Col.), M.S.D. (Wash.); Brahm Miller, B.Sc., (Montr.), M.Sc. (Concordia, Alta.), D.D.S. (McG.); Thomas J. Moonen, D.M.D. (Br.Col.); Mathew Ng, B.Sc. (Manit.), D.M.D. (Manit.), Cert. Ortho. (St.Louis); Reza Nouri, D.M.D. (Br.Col.), M.Sc. (Tor.); Gerry Pochynok, D.D.S. (Alta.), Dip. Pediatric Dent. (Eastman Dental Center); Ron Regan, B.Sc. (Alta.), D.D.S. (Alta); Trudy Rey, B.Sc. (Vic.B.C.), D.M.D. (Br.Col.); William J. Rosebush, B.Sc., Dip.Ed., D.M.D. (Br.Col.); Mel Sawyer, D.M.D. (Manit.); Mel Schneider, B.Sc., D.D.S. (McG.); Kenji Shimizu, D.M.D. (Br.Col.); Charity Siu, D.M.D. (Br.Col.), Cert. Ortho. (Roch.); Sharlene Tabata, D.M.D. (Br.Col.); Sandra Tai, B.D.S. (Malaysia), M.S. (Minn.); Linda Taylor, B.Sc., D.M.D. (Br.Col.), Dip. Ortho., Ph.D. (Tor.); David Tobias, D.M.D. (Br.Col.); Hiroki Ueda, D.D.S. (Japan); Carol A. Wishart, B.Sc., D.D.S. (McG.), M.S.D. (Wash.); Paul A. Witt, D.D.S., Dip. Ortho. (Tor.); Brian Wong, D.M.D. (Br.Col.); Theresa Wong, D.M.D. (Br.Col.); Tracy Wong, D.M.D. (Br.Col.); Stephen Yuen.,

Clinical Instructors

Maryam Amin, D.M.D. (Iran); Zohreh Ansari, D.D.S. (Iran); Koushan Azad, D.M.D. (Montr.); Reza Azinfar; David Buckles, D.M.D. (Manit.); Denise Carswell, D.M.D. (Br.Col.); William Catalano, D.D.S. (Alta.); Suman Chand, D.M.D.; Alec Cheng, D.D.S. (Tor.), Cert. Pros. (Iowa); Samuel Chiang, D.M.D. (Br.Col.), M.Sc. (Manit.); Edward Chin, D.D.S., Cert. Pedo, M.Sc; Gordon Chisholm, B.Sc., D.D.S.; Gail Chow, B.Sc. (Br.Col.), D.D.S. (W.Ont.); Christopher Chung, D.M.D. (Br.Col.); Josephine Chung, B.D.S. (H.K.), N.D.E.B.; Carl Cramer, B.Sc. Education Website (educ.ubc.ca)

The Faculty of Education offers initial Teacher Education leading to the degree of Bachelor of Education. Following completion of all requirements, students normally qualify for the British Columbia Professional Teaching Certificate. The program options integrate pedagogical studies and school experience. Within the program options, students extend their liberal education by exploring educational theory and practice, applying their understanding in carefully graduated teaching practice and building a foundation for leadership in the classroom and the community.

Opportunities for continuing professional education leading to the Diploma in Education are also offered. The Diploma in Education indicating the field of specialization will be awarded on successful completion of an approved program of study. Most programs, if desired, can be planned to incorporate prerequisites for admission to a master's program. Detailed admission, application, and registration information are posted at educ.ubc.ca/teacher_ed.

Graduate programs in education are offered by various units in the Faculty. Complete program descriptions can be found in the appropriate departmental listing in *The Faculty of Graduate Studies*, p. 217, chapter of the Calendar. This chapter also offers overviews of the academic units that house the Faculty's various graduate programs.

BACHELOR OF EDUCATION

The Faculty of Education offers the Bachelor of Education to persons interested in a career in teaching. Qualified applicants who wish to prepare as elementary teachers may select either a 12-month or a two-year option. Those interested in preparing to teach students in the middle years or in secondary schools undertake studies over a 12-month period.

ACADEMIC ADVISING

There are group advising sessions on pre-admission requirements and some follow-up sessions if necessary. Sessions are offered at specific times and for specific teaching options (Elementary or Middle Years and Secondary). Before sending inquiries or making appointments, please review your transcript in relation to the admission requirements for the option of your choice (and, in Secondary and Middle Years, for the subject[s] to which you plan to apply) and complete the self-assessment form (and Secondary worksheets, as applicable). For detailed admission requirements and group advising schedule, visit our website (educ.ubc.ca/teacher_ed). Please contact the Teacher Education Office by email (teacher.ed@ubc.ca) to register for advising sessions.

ADMISSION

The Faculty admits students on the basis of merit and is committed to admitting qualified candidates who reflect the ethnic, cultural, and social diversity of British Columbia. Applications are encouraged from persons of Aboriginal ancestry (see *Canadian Aboriginal Students*, p. 14), visible minorities, differently-abled persons, women in subject areas in which they are under-represented, and men interested in primary school teaching. All qualified applicants are encouraged to apply.

Elementary Teacher Education

The Elementary Teacher Education option prepares students to teach Kindergarten to Grade 7. While it is recommended that applicants have a bachelor's degree, candidates are eligible for admission to the two-year option with a minimum of 90 UBC-equivalent credits acceptable to the Faculty of Education. Applicants to the 12-month option must have

completed a four-year degree (120 UBC-equivalent credits), including a minimum of 90 UBC equivalent credits acceptable to the Faculty of Education. Both options require full-time study.

ADMISSIONS REQUIREMENTS

Part I

- 1) 6 credits of English Literature and composition or UBC Arts One, Foundations, or equivalent
- 2) 3 credits (minimum) of a laboratory science (laboratory science courses are normally selected from the Life Sciences, Chemistry, Physical Geography, Earth and Ocean Studies, Geology, Astronomy, or Physics)
- 3) 3 credits (minimum) of Mathematics (not statistics or business mathematics)
- 4) 3 credits of Canadian History or Canadian Geography
- 5) 3 credits of Canadian Studies (additional courses in Canadian History/Geography or a course in Canadian Literature, Canadian Society, or any Social Studies course with specific Canadian content)

Part II

- 1) 18 senior credits (third- or fourth-year level) from one of, or any combination of: Art, Biology, Chemistry, Earth/Geological Sciences, English, French, Geography, History, Mathematics, Music, Physics
- 2) 18 senior credits (third- or fourth-year level) from any combination of the following disciplines with no more than 12 credits from any one discipline: Anthropology, Asian Studies, Astronomy, Biochemistry, Botany, Canadian Studies, Chinese, Classical Studies, Creative Writing, Dance, Drama, Economics, Family Studies, First Nations Studies, German, Italian, Japanese, Kinesiology, Linguistics, Microbiology, Oceanography, Philosophy, Physical Education, Physiology, Political Science, Psychology, Punjabi, Russian, Sociology, Spanish, Statistics, Women's Studies, Zoology
- 3) Any combination of courses from List 1 or 2 (Part II), totalling 18 credits with no more than 12 credits from List 2

A minimum average of 65% is required on the pre-admission studies specified in Part I and Part II.

Applicants to the 12-month French Immersion or French as a Second Language program

options must have completed, in addition to, or as part of, the above requirements, a minimum of nine credits in French at least at the second-year level. These credits should include three credits in each of French literature, French grammar, and French composition. Applicants must also pass the oral and written French test at an appropriate level prior to admission.

Part III

- 1) Applicants to both the 12-month and the two-year elementary options are required to have completed at least 90 credits (including the above) from the Humanities, Social Sciences, Sciences, Visual and Performing Arts, Art History, Theatre, Dance, Human Kinetics, Physical Education, or Music.
- 2) Applicants to the 12-month option are required to have completed a fourth-year (120 credits) degree, or equivalent.

In addition, applicants to all program options must have volunteer or other experience in working with young people, preferably at the age range they are proposing to teach.

Middle Years Teacher Education

Applicants must have completed a four-year bachelor's degree (or equivalent), normally in subject fields within Arts, Science, and Human Kinetics (Physical Education).

Pre-admission studies must include the following:

- 1) 6 credits of English Literature and Composition or equivalent;
- 2) at least 3 (preferably 6) credits in each of a laboratory science (laboratory science courses are normally selected from the Life Sciences, Chemistry, Physical Geography, Geology, Astronomy, or Physics), Mathematics (not Statistics), and Social Studies (History or Geography);
- 3) Specialization: Applicants must choose one from English, Physical Education, Science (one of or any combination of Biological Sciences, Chemistry, Earth Science and Physics) and Social Studies (History or Geography or the combination of the two). Applicants should see Secondary Teaching Field Requirements for these subject areas and must complete first-/second-year courses as prescribed therein and a minimum of 18 credits (24 credits in English) of third-/fourth-year courses specified for their chosen specialization;
- 4) Students wishing to teach subject areas other than the above listed should apply for the secondary option;
- 5) 6 credits of courses in the Humanities and/or Social Sciences with significant Canadian content applicable to teaching the middle years curriculum; and
- 6) A minimum average of 65% on the pre-admission studies specified in points 1 to 3 above.

In addition, applicants must have volunteer or other experience in working with young people, preferably at the age range they are proposing to teach.

Middle years teachers normally teach more than one subject area. Therefore, preference will be given to persons whose prior preparation includes two teaching concentrations.

Secondary Teacher Education

Applicants must have completed a four-year bachelor's degree (or equivalent), normally in subject fields within Arts, Fine Arts, Science, Commerce or Business Administration, Music, and Human Kinetics (Physical Education), or in other secondary teaching fields. To increase the breadth of their experience and improve their opportunities for employment, applicants to Secondary Teacher Education are strongly advised to have completed subject-matter preparation for two teaching fields. Prospective teachers of technology education should see "Technology Education Program Options" for admission information and program requirements. Pre-admission studies must include the following:

- 1) 6 credits of English Literature and Composition or equivalent;
- 2) One of the following:
 - (a) one teaching major and one teaching concentration,
 - (b) two teaching concentrations, or
 - (c) one teaching major
- 3) An average of 65% on the senior courses, normally numbered 300 and above, is required for each teaching field.

Applicants to the French Immersion Option must have completed, in addition to the above requirements, a minimum of 9 credits (or equivalent) of French at the second-year level, including 3 credits in each of French literature, French grammar, and French composition. Applicants to the French Immersion Option and applicants presenting French as their teaching subject must also pass the oral and written French test at an appropriate level prior to admission.

In addition, applicants must have volunteer or other experience in working with young people, preferably at the age range they are proposing to teach.

Secondary Teaching Field Requirements

In the following list of secondary teaching fields, "C" indicates that the subject may be presented as a teaching concentration and "M" indicates that it may be presented as a teaching major. At least one teaching field must be a subject widely taught in BC secondary schools. Because certain subjects are not widely taught in BC secondary schools, students preparing to teach a subject marked with an asterisk (*) must prepare to teach at least one not so marked.

SECONDARY TEACHING FIELD REQUIREMENTS

Field	Concentration	Major
Art	C	M
Biological Sciences	C	M
Business Education	C	M
Career Preparation (CHEF Education)	C	
Chemistry	C	M

Field (Continued)	Concentration	Major
Chinese*	C	
Computer Science	C	M ¹
Earth Science	C	M
English	C	M
English as a Second Language*	C	
French	C	M
Geography	C	M
German*	C	
History	C	M
Home Economics	C	M
Italian*	C	
Japanese*	C	
Mathematics	C	M
Music		M
Physical Education	C	M ¹
Physics	C	M
Punjabi*	C	
Russian*	C	
Social Science* ²	C	
Spanish*	C	
Technology Education		M
Theatre*	C	

¹ Students presenting a major in this field must prepare in a second teaching subject.

² A social science other than history or geography.

The teaching field requirements for admission to the B.Ed. (Secondary) are listed below. A teaching concentration normally consists of 18 credits of senior courses (numbered 300 or higher and taken in years three and four) in addition to specified junior courses (numbered below 300); a teaching major normally consists of 30 credits of senior courses in addition to specified junior courses. Students preparing for secondary teaching should have completed all junior and senior requirements for their intended teaching field(s) before seeking admission to the teacher education program.

As indicated below, a number of schools and departments of the University have designed undergraduate degree programs for prospective secondary teachers; the detailed requirements of such programs are listed in the faculty and school entries. Graduates of equivalent programs at other recognized universities are, of course, eligible for consideration.

ART CONCENTRATION AND MAJOR

For an Art Concentration, students must have completed a course in Art History and 12 credits of first- and second-year Studio Art in at least three Studio Art areas; 18 credits of third- and fourth-year art, including a minimum of 12 credits of Studio Art in at least two different areas. Six of these 12 credits must be in traditional studio art areas such as drawing, painting, sculpture, printmaking, graphic/communication design, ceramics, and textiles. The remaining 6 credits may include courses in areas such as digital arts, photography, animation, film/video/TV production, etc.

For an Art Major, students must have completed the concentration requirements and an additional 12 credits of third- and fourth-year art, 6 of which must be in Studio Art. Of these 6 credits, 3 must be in a traditional Studio Art area (as mentioned above).

BUSINESS CONCENTRATION AND MAJOR
For the Business Concentration, students must take introductory courses in Computer Science, Economics, and Mathematics as a foundation for 18 credits of specialized courses in Accounting, Marketing, Commercial Law, and Management Information Systems.

For the Business Major, students must take an additional 12 credits of senior courses in Finance, Marketing, and Management Information Systems.

Along with the application for the Secondary Business Education Program, applicants are required to submit evidence of the ability to keyboard at a rate of 30 net words per minute.

COMPUTER SCIENCE CONCENTRATION AND MAJOR

For a Computer Science Concentration, students must have completed first- and second-year courses in computing and mathematics; 18 credits of third- and/or fourth-year level courses in Computer Science and/or Computing or computer-related topics such as programming, computer applications, computer information systems/technology, and/or the impact of technology on society.

For a major in Computer Science, students must have completed the concentration requirements and an additional 12 credits of third- and/or fourth-year level courses in computer science and/or computing or computer related courses. Applicants with a major in computer science must also prepare in a second teaching subject.

ENGLISH CONCENTRATION AND MAJOR
For the English Concentration, students must take first- and second-year English; 24 credits of third- and fourth-year English including 6 credits from each of: English Language, English Composition or Creative Writing, Pre-twentieth Century Literature, and Twentieth Century Literature. Prospective applicants are advised to complete courses in both Shakespeare and Canadian literature.

For the English Major, students must take an additional 12 credits of senior English.

ENGLISH AS A SECOND LANGUAGE CONCENTRATION

For the English as a Second Language Concentration, students must take a minimum of 6 credits in Linguistics at the third- and fourth-year level or English Linguistics, and 12 credits in the study of language and/or the study of culture at the third- and fourth-year level.

HOME ECONOMICS CONCENTRATION AND MAJOR

Applicants normally hold one of the following degrees: a Bachelor of Applied Design, a Bachelor of Arts in Family Studies, a Bachelor of Home Economics, a Bachelor of Science in Food, Nutrition and Health with a major in

Human Ecology, or a degree equivalent to one of the first three. Students holding other degrees will also be considered if they have met the following admission requirements.

Concentration: Applicants must have completed 12 and preferably 18 credits of first- and second-year level courses in Family Studies and Food Studies and/or Textiles Studies. In addition, applicants must have completed a minimum of 18 credits at third- and/or fourth-year level. These 18 credits must include: 1) 9 credits in Family Studies and 2) 9 credits in Food Studies or 9 credits in Textiles Studies or 9 credits in a combination of Food Studies and Textiles Studies.

Major: Applicants must have completed requirements for a concentration and an additional 12 credits at third- and/or fourth-year level in one, or any combination of, Family Studies, Food Studies, and Textile Studies.

Family Studies must include courses in family resource management, family relationships, and human development. Food Studies must include courses in food and nutrition. Textiles Studies must include courses in textiles, apparel construction, and social/cultural aspects of clothing.

Applicants may, at the discretion of the Faculty, be required to provide a statement indicating what they have done in formal and informal settings which has contributed to enhancing their skill levels in apparel construction or food preparation or both.

MATHEMATICS CONCENTRATION AND MAJOR

For the Mathematics Concentration, students must take 30 credits of mathematics (at least 18 credits of which must be at the third- and fourth-year level) including at least one course in three of four areas: Algebra, Probability and Statistics, Geometry, and Number Theory.

For the Mathematics Major, students must take an additional 12 credits of Mathematics at the third- and fourth-year level.

MODERN LANGUAGES CONCENTRATION AND MAJOR

Languages include Chinese, French, German, Italian, Japanese, Punjabi, Russian, and Spanish. Students will be required to demonstrate oral and written proficiency in their selected language(s) either prior to admission or early in the program.

For the Concentrations, students must take first- and second-year courses in both the language and the literature of the selected language; 18 credits in the selected language at the third- and fourth-year level, at least 6 of which must be language study (French Grammar and French Composition for those presenting French) and must be completed with second class or higher standing. Applicants who present a language other than French as one teaching field must present a second teaching field which is not one of these languages; French and one such language is an acceptable combination as is English and one such language.

For the Major in French, students must take an additional 12 credits of French at the third- and fourth-year level.

MUSIC MAJOR

Applicants normally hold a Bachelor of Music with a Major in General Studies (Secondary Education). Applicants must have completed 4 credits of classroom instrumental techniques in two of the following areas: brass, woodwinds, and bowed string instruments taught in a group situation. A minimum of 3 credits in instrumental or choral ensembles or comparable experience is also required.

PHYSICAL EDUCATION CONCENTRATION AND MAJOR

Applicants will normally have completed the Physical and Health Education Option within the Bachelor of Human Kinetics program.

Concentration must include:

- 1) 12 credits of Human Kinetics core courses or equivalent, including anatomy; physiology; physical growth and development; and human motor behaviour and six credits from human kinetics courses in the following areas: active health (fitness); biomechanics; sport and exercise psychology; and exercise physiology.
- 2) 12 credits of third- and/or fourth-year level Human Kinetics courses, including 4 from the following five areas; adapted physical education; instructional analysis and design in sport and physical activity programs; games education; planning physical education, sport and exercise programs; and athletic injuries.
- 3) 6 credits of third- and fourth-year level courses from the following areas: physical education fieldwork; foundations of coaching; high performance conditioning in physical activity and sport; coaching effectiveness in selected sports and activities; exercise prescription; and health promotion.
- 4) Seven performance areas. Must include aquatics, gymnastics, dance, active health (fitness), and at least one team game.

Major:

Must have completed the requirements for the concentration and 12 additional credits of third- and/or fourth-year level courses in Human Kinetics. Students holding a Bachelor of Human Kinetics, a Bachelor of Physical Education or an equivalent degree from other institutions, who have completed courses equivalent, or similar to, the above may also apply for a major or concentration.

Applicants with a major in physical education must also prepare in a second teaching subject.

SCIENCE CONCENTRATIONS AND MAJORS
Areas include Biological Sciences, Chemistry, Earth Science, and Physics.

All science applicants must have completed 6 credits of introductory courses in each of Chemistry (at least one course with a lab component), Mathematics (one or preferably two courses in Calculus), Physics (at least one course with a lab component), Biology, and Geology. Applicants presenting a science other

than a Biological Science or an Earth Science may complete an appropriate course to satisfy the biology requirement and the geology requirement respectively within the program.

Applicants must have completed an additional 6 to 12 credits of first- and second-year level courses and 18 credits of third- and fourth-year level courses in the selected science. The set of courses for each selected science must include both lecture and laboratory studies.

Concentration Requirements

- **Biological Sciences:** Preference will be given to applicants who have completed courses covering all of the following areas: ecology, genetics, human physiology, evolutionary biology, invertebrate and vertebrate zoology, non-vascular and vascular plant biology, and microbiology. Courses in these areas must be completed at the second, third, or fourth year level. No introductory biology course will be accepted as satisfying any of these areas.
- **Chemistry:** Preference will be given to applicants who have completed courses covering all of the following areas: organic, inorganic, physical, and analytical chemistry.
- **Earth Science:** Courses must include geology, covering mineralogy and petrology. Geophysics, physical geography, atmospheric science, and oceanography are also recommended. Astronomy is strongly recommended; students will be required to complete an appropriate course within the program if they have not completed astronomy prior to admission.
- **Physics:** Preference will be given to applicants who have completed courses in all of the following areas: mechanics, thermodynamics, electricity and magnetism, optics, acoustics, quantum mechanics, and atomic and nuclear physics.

Major Requirements

Applicants must have completed concentration requirements and an additional 12 credits of courses in the selected science (Biological Sciences, Chemistry, Earth Science, or Physics) at the third- and fourth-year level. Applicants are not admitted as a major in Agricultural Science.

SOCIAL STUDIES CONCENTRATIONS AND MAJORS

Emphasis on Geography, History, or a Social Science. Applicants may present more than one social studies teaching field. Social Science applicants must present a second teaching field (either Geography, History, or another subject widely taught in BC secondary schools).

For the Social Studies Concentrations, students must take 6 credits of introductory or survey courses in each of Geography, History, and a Social Science; a further 6 credits of first- and second-year courses and 18 credits of third- and fourth-year level courses in the discipline of emphasis. The total program must include 6 credits with a significant Canadian content. An applicant's program should satisfy the following conditions for the chosen discipline of emphasis:

- **Geography:** Both physical and cultural geography with courses in regional and environmental studies.
- **History:** Canadian, European, and history of any region other than Canada or Europe.
- **Social Science:** An appropriate grouping of courses within a single, acceptable social science discipline (Anthropology, Economics, Political Science, Regional Studies, Sociology, or Women's Studies).

For the Social Studies Majors, students must take an additional 12 credits of third- and fourth-year level courses in the discipline of emphasis (Geography or History only).

TECHNOLOGY EDUCATION MAJOR

For the Technology Education Major, students must take 60 credits of recognized technical courses¹, including:

- 30 credits Arts and/or Science, including 6 credits of English Literature and Composition.
- Normally an applicant has completed the two year BCIT Technology Teacher Education diploma or equivalent.

Please see *Technology Education Program Option*, p. 197.

¹ The University does not itself offer these technical courses but recognizes certain courses offered by the British Columbia Institute of Technology and by other technical institutes where these meet the transfer standards of the University.

THEATRE CONCENTRATION

For the Theatre Concentration, students must take a minimum of 12 credits of junior theatre courses and 18 credits at the third and fourth-year level. The total program must cover acting, directing, theatrical production, and history of theatre.

CAREER PREPARATION (CHEF EDUCATION)

See *Path 1—The Concurrent Path for Career Education CHEF Teachers*, p. 197.

APPLICATION

For details of application deadlines, see Application Deadlines (www.students.ubc.ca/calendar/index.cfm?page=deadlines) in chapter 1. For information regarding tuition and student fees, please see the *Fees, Financial Assistance and Scholarships*, p. 25, chapter.

Application forms and additional admission information may be downloaded from the Faculty of Education website (educ.ubc.ca).

Admission Selection Process

Applicants to the teacher education program are evaluated on both academic and non-academic criteria. Each application is reviewed in comparison to other applications to the same program option and teaching subject (secondary and middle years). The evaluations of an applicant's academic requirements and non-academic requirements are normally undertaken concurrently, not consecutively. Because the number of qualified applicants significantly exceeds the number of available places, not every qualified applicant will be

admitted. Applicants are evaluated on the following criteria:

I. ACADEMIC REQUIREMENTS

All applicants must have completed academic admission requirements prescribed by the Faculty of Education, including a four-year degree (or 90 credits for the elementary two-year option), 6 credits of English and various subjects specified for the elementary option, the middle years option or the secondary option. For details, applicants must review academic requirements for individual options (please see the appropriate section under "Admission"). Language test scores may also be part of academic requirements for some applicants or for specific options or subjects.

Admission average

- The admission average for elementary option is calculated on 36 credits including: 6 credits of English, 3 credits of Mathematics, 3 credits of Laboratory Science, 3 credits of Canadian History or Canadian Geography, 3 credits of Canadian Studies and 18 credits of senior coursework in a teachable subject area. The admission average for the middle years option is calculated on 33 credits including: 6 credits of English, 3 credits of Mathematics, 3 credits of Laboratory Science, 3 credits of History/Geography, and 18 credits of senior coursework in a teachable subject area. The admission average for the secondary option is calculated on the senior courses for each teaching field. A minimum admission average of 65% is required; however, competition for the available seats is high and the admission average of successful applicants is normally higher than the 65% minimum required for application.

Overall Academic History

- The range of an applicant's courses covering subject areas relevant to teaching the selected grade levels and subject area(s) (particularly secondary applicants), is also taken into consideration in making admission decisions.
- An applicant's overall academic performance, including failures, is also considered in admissions decisions.

2. NON-ACADEMIC REQUIREMENTS

All applicants must submit:

- 1) a summary of experience working with school age children and/or youth;
- 2) a one-page essay indicating what they have learned from their experience with school age children and/or youth that will help them in their teaching career; and
- 3) two confidential reference reports.

The evaluation of the information provided on the above materials is an integral part of the Faculty's selection process. Applicants' experience with children/youth and their personal character and qualities as reflected in the reference reports are essential selection criteria. Qualities appropriate to the profession of teaching that referees are asked to judge include: motivation for teaching; enthusiasm;

leadership potential; dependability; initiative; flexibility and adaptability, including the ability to deal with change and/or stressful situations; oral and written communication skills; ability to interact appropriately with children and/or youth and with adults; ability to identify problems and pose possible solutions; and ability to accept feedback and respond to suggestions.

Normally an applicant without experience with school age children and/or youth is not admitted to the program.

The Faculty may require an applicant to have an interview with the Admissions Committee.

3. EVALUATION OF AN APPLICATION IN COMPARISON WITH OTHER APPLICANTS

When an applicant is deemed to have satisfied academic requirements and his/her non-academic requirements are accepted as satisfactory, his/her application will be compared with applications of other applicants who have applied to the same option or the same subject area(s). Normally applicants with higher admission averages will be offered admission earlier than those with lower admission averages.

If there are more qualified applicants than there are spaces in an option(s) or a subject area(s) for the secondary option, not all applicants who have met our admission requirements will be offered admission to the program.

THE OFFER OF ADMISSION

An applicant will have a maximum of four weeks to respond to an offer of admission.

REGISTRATION

Students will be notified of registration procedures upon acceptance to the program.

After August 15, registration may be done through the Teacher Education Office and only if space permits. No student will be permitted to register after the first day of instruction in the term, nor will they be admitted to any class after its first session, except by permission of the Dean.

The academic year of the Faculty of Education normally begins on the Tuesday following Labour Day.

ACADEMIC REGULATIONS

Material in this section is supplementary to that given in the chapter Academic Regulations in this Calendar and applies specifically to students enrolled in the Faculty of Education.

Written English Requirement

All students admitted to a program leading to teacher certification must provide evidence of a satisfactory standard of written English prior to registering for the program. Those who have had all their post-secondary study at an English-language institution(s) are presumed to have achieved a satisfactory standard of writing. All other students will be required to provide evidence of satisfactory achievement by means of an acceptable English language test.

Students who do not provide evidence of an acceptable standard of English during the

program may be required to sit a test of written English. On the basis of the results of this test, students may be required by the Faculty:

- 1) to improve their standard of written English before proceeding to the Extended Practicum and/or before being recommended for the Bachelor of Education and a teaching certificate, or
- 2) to withdraw from the Faculty.

Oral English Requirement

Competence in spoken English is a requirement for teaching within the British Columbia School system. Students admitted to the teacher education program must demonstrate competency in oral English. All students in the teacher education program enrol in a communication class where their oral English will be evaluated on an ongoing basis. If questions arise regarding oral English competency students may be asked to undergo an evaluation of their spoken English. The results of both oral proficiency in the communication class and the subsequent oral evaluation will be used to determine whether the student will be required:

- 1) to improve their standard of oral English before proceeding to the Extended Practicum and/or before being recommended for the Bachelor of Education and a teaching certificate, or
- 2) to withdraw from the Faculty.

Students will not be permitted to begin the Extended Practicum (EDUC 329, 418, 419, 495, or 496) until they have passed this test.

Advancement

Students who do not meet the expected standard in course work may be required to revise, or do supplemental work, or to repeat a course in order to meet expected standards (see also *Supplemental Examinations*, p. 193). A student whose academic standing is unsatisfactory in one or more courses may be required to repeat courses, or to discontinue, or to withdraw from the Faculty.

Students who are unable to meet expected standards in practica (EDUC 315, 319, 321, 323, 329, 418, 419, 495, 496) may be required to do supplemental practica, or to discontinue, or to withdraw from the Faculty. (See also *Termination, Withdrawal, and Readmission*, p. 194, regarding supplemental practica and withdrawal from practica).

Students who fail or withdraw from a practicum are granted only one more opportunity to repeat that practicum.

A student must have passed all courses prescribed to precede the Extended Practicum before advancing to this part of the program. Similarly, a student must have completed the Extended Practicum successfully before taking any courses prescribed to follow it. Only in exceptional cases will these requirements be waived.

Entry into the profession of teaching is not a right but a privilege. Suitability to teach includes satisfactory academic performance, teaching performance, and professional

conduct (see *Professional Conduct*, p. 193).

Although satisfactory academic performance is prerequisite to advancement, it is not the sole criterion in the consideration of the suitability of a student for promotion or graduation. The Faculty reserves the right to require a student to withdraw from the Faculty if the student is considered to be unsuited to proceed with the study or practice of teaching.

Professional Conduct

Students in the Faculty of Education are expected to adhere to standards of professional practice and ethics in their interactions with faculty and peers and with teachers, staff, and students in the schools. During practica, students are subject to The School Act and they are expected to comply with standards of professional conduct followed by school personnel and act in accordance with guidelines published in the *Members' Guide to the BCTE*.

Teaching Practica

Practicum placements are in Lower Mainland School districts and in selected locations throughout the province. The availability of placements in some areas may be limited and students must be prepared to accept placement for the two- and thirteen-week practica anywhere within 125 km of the UBC campus. Students make their own arrangements for and bear the cost of personal transportation and accommodation during practica.

Grading in the B.Ed. Program

All teaching practica and most courses in the B.Ed. will be graded on a Pass/Fail basis. Determination of standing is criterion-based. In order to pass a course students are expected to produce work that is of high quality and that meets criteria provided by instructors (see *Advancement*, p. 193).

Supplemental Examinations

In any session a student may be granted the privilege of writing supplemental examinations in not more than 6 credits of course work provided that the student:

- 1) wrote the scheduled final examination and achieved an overall grade of at least 40% in the course in question, and
- 2) achieved credit in at least 60% of a course load of over 12 credits or in at least 50% of a course load of 12 or fewer credits.

The Promotions Committee, at its discretion, may grant supplemental privileges in a further 6 credits to a student whose course load during a regular Winter Session is in excess of 30 credits.

The committee may also prescribe a supplemental Practicum, not to exceed six weeks, for students who at the conclusion of the Extended Practicum have made significant progress but who have not attained the required standard of teaching performance.

For the 12-month teaching programs, supplemental examinations for Term 1 courses will be scheduled during the first week of Term 2.

Termination, Withdrawal, and Readmission

Students who are granted a 'W' on the Extended Practicum (EDUC 329, 418, 419, 495, or 496) must wait until the next time the Extended Practicum is scheduled in their program to re-enrol. Students will not normally be granted two withdrawals from an Extended Practicum. When, in the judgment of the Faculty of Education and the schools hosting their practica, students do not make satisfactory progress, their practica may be terminated. Those whose practica are terminated or who do not complete their practica satisfactorily, and who qualify for neither a supplemental practicum (see Supplemental Examinations above) nor a deferred practicum (see *Academic Assessment*, p. 46, in the chapter "Academic Regulations" of this Calendar) will be assigned a failing grade and will be required to discontinue or to withdraw from the program.

After one year, students required to discontinue may appeal to the Faculty for permission to re-enrol. Their appeal must include evidence of their having satisfied any conditions set at the time they were required to discontinue.

Those required to withdraw are not normally readmitted to a teacher education program. In exceptional circumstances a student may, after at least one year, submit a formal appeal for permission to re-enrol. Such an appeal will be granted only after review by the Dean and approval by the Senate Admissions Committee.

Students who withdraw from the program voluntarily will not be entitled automatically to return; each request for reinstatement will be considered along with other applications at the time.

Students who for any reason fail to complete all requirements of the program within a four year period will not be allowed readmission; they may, however, submit a new application for admission and, if admitted, will receive no advance credit for courses completed previously.

Part-time Students

A limited number of students may be admitted to undertake the program on a part-time basis. The Extended Practicum must be completed on a full-time basis. A student may seek permission to complete the balance of the program on a part-time basis. Such a request will be granted only if an acceptable plan for program completion is presented; completion must be within four years of initial registration.

Because of the tightly integrated character of the program students are normally expected to pursue studies on a full-time basis until all requirements are satisfied.

Credit From Other Institutions

Except as provided in *Prior Programs*, p. 194, and *Programs for the Improvement and Recertification of Teaching Qualification*, p. 194, credit may not normally be transferred from other institutions for courses prescribed for the first three terms of the elementary two-year option, the first two terms of the elementary 12-month option, the middle years 12-month option or the secondary 12-month

option. In special circumstances students may be granted permission to complete some or all of the courses prescribed for the final term at another institution if:

- 1) permission is sought in advance,
- 2) the courses to be transferred are taken after all requirements of preceding terms have been satisfied, and,
- 3) these courses are appropriate to the UBC program.

Duplicate Credit

Because courses in the Faculty of Education change significantly over time, certain advanced curriculum and instruction courses and other second-level courses may be re-taken for credit, but only five or more years after they were taken previously and only with the prior permission of the Faculty. Two versions of the same course may not both be used for credit towards the same degree or diploma, though one may be used towards one program (e.g., a Bachelor of Education or one diploma specialization) and a more recent version towards another program (e.g., a different diploma specialization). Basic curriculum and instruction courses and introductory courses without prerequisites may not be repeated.

Students should consult a program advisor in the Teacher Education Office to determine whether a specific course may be retaken.

Academic Appeal

An appeal generally falls into one of two categories:

- 1) request for review of the standing assigned in a course, or
- 2) protest of a decision relating to academic studies or practica.

For information concerning the procedures for initiating either of these, a student should see *Review of Assigned Standing*, p. 50, and *Senate Appeals on Academic Standing*, p. 51, in the chapter "Academic Regulations" in this Calendar.

In the Faculty of Education, appeals to the Dean related to initial and continuing professional education should be addressed first to the course instructor or, in the case of practica, the practicum coordinator. Students should refer to the *Bachelor of Education Student Handbook* for specific procedures.

Unclassified Students

Unclassified students are normally persons who hold degrees and are enrolled in course work not intended to lead to a particular degree or diploma.

Prior Programs

Students who previously qualified for a teaching certificate but who did not complete all degree requirements by 1993 and who wish to qualify for the Bachelor of Education (Elementary) may follow the two-year Bachelor of Education requirements (see *Elementary – Two-Year Option*, p. 196, under Degree Requirements for Elementary Teacher Education) as follows:

- 1) they must qualify for admission according to the current minimum admission requirements, with appropriate completed courses counted towards such requirements;
- 2) credit will be granted towards the requirements of the two-year program for appropriate completed courses and practica; and
- 3) those who have not taught within the previous 10 years may require updating courses and practica in addition to the minimum requirements of the program.

NITEP students who have not completed the previous four-year program may transfer to the current five-year NITEP program (see *Native Indian Teacher Education Program (NITEP) Option*, p. 195, Degree Requirements for Elementary Teacher Education) under similar arrangements.

Students preparing as technology education (industrial education) teachers who did not complete their five-year B.Ed. (Secondary) by 1993 may transfer to the current program (see *Technology Education Program Options*, p. 197, under Degree Requirements for Secondary Teacher Education) under similar arrangements.

Programs for the Improvement and Recertification of Teaching Qualification

Individuals who qualified for teaching certificates in BC or elsewhere but who do not currently hold valid BC certificates should first consult the BC College of Teachers for a ruling concerning their eligibility for a BC Certificate.

Persons who have a program of 18 or fewer credits of pedagogical courses plus practicum requirements of nine or fewer weeks duration prescribed as a condition of qualifying for a BC Teaching Certificate may be admitted as unclassified students (see *Unclassified Students*, p. 194). Normal program and course (including practicum) prerequisites will apply.

Those without a degree who hold a valid BC Teaching Certificate issued on the basis of preparation completed elsewhere (or on the basis of such studies plus the work indicated in point 2 of Prior Programs above), may pursue studies according to the two-year B.Ed. (Elementary) requirements (see point 1 of Prior Programs). A maximum of 36 advance credits will be allowed towards the 73 credits required for the two-year B.Ed. (Elementary).

Those who qualified as teachers outside BC but who do not qualify for a BC Teaching Certificate, as provided in point 2 of Prior Programs above, must normally proceed as new applicants to the program of Initial Teacher Education.

DEGREE REQUIREMENTS FOR NATIVE INDIAN TEACHER EDUCATION

Native Indian Teacher Education Program (NITEP) Elementary and Secondary Options

These program options are for persons of Aboriginal ancestry. They are designed to

incorporate Aboriginal personal and cultural resources and knowledge in preparation for teaching positions in BC elementary and secondary schools.

Both the NITEP Elementary and the NITEP Secondary Options are five-year concurrent programs. They include similar requirements for both liberal education and pedagogical preparation to those prescribed for students in the Elementary two-year option or the Secondary 12-month option but offer them in a different sequence. Persons of Aboriginal ancestry who qualify for university admission complete two years of studies at one of the NITEP field centres where the program consists of arts and science courses, pedagogical courses, and structured education placements. Students attend the UBC campus to complete remaining degree requirements.

NITEP ELEMENTARY OPTION

NITEP elementary education students qualify for the Bachelor of Education (Elementary) degree and the British Columbia Professional Teaching Certificate after completing all prescribed courses and practica. Students may qualify for a British Columbia Standard Teaching Certificate after completing a minimum of 128 credits.¹

¹ Students should consult with NITEP regarding course planning. All courses must be university level. Courses should be 400-level.

² English and Mathematics must be completed in order to advance to third year.

³ SCED 190 fulfills this requirement.

⁴ EDUC 345 is a field experience, normally scheduled in May, following Winter Term 2.

In order to be promoted to fourth year, students must have completed at least 81 credits (including six credits of first year English and other required courses) and have achieved an average of 65% on their best 60 credits.

NITEP SECONDARY OPTION

NITEP secondary education students complete all required education courses offered in the field centres. The academic portion of the NITEP Secondary Option, however, differs significantly from that of the NITEP Elementary Option. During the program, NITEP secondary students must complete the course requirements necessary to present a Major, two Concentrations, or a Major and a Concentration as outlined for the admission requirements for the Secondary 12-month option. See *Secondary Teaching Field Requirements*, p. 190. In fifth year, NITEP Secondary Option students complete remaining degree requirements with students in the Secondary 12-month option.

Upon successful completion of the NITEP Secondary Option, students will graduate with a Bachelor of Education (Secondary) degree from the University of British Columbia and may apply for a Professional teaching certificate from the BC College of Teachers. (Students may also graduate with a second degree if they decide to work with other faculties to fulfil degree requirements within the academic portion of the program.)

To qualify for the Bachelor of Education degree, a student must normally complete all requirements within ten years of initial registration in the program. Although the total program may be completed in five academic years, many students find it convenient to take some courses during the summer sessions: up to 12 credits may normally be completed during a summer session. NITEP Secondary Option students are required to take summer session (term 3) in their fifth year.

DEGREE REQUIREMENTS FOR ELEMENTARY TEACHER EDUCATION

The elementary teaching program options allow candidates to focus their preparation on either Primary or Intermediate school teaching during their practica.

Specific program options include:

- 1) The 12-month option which extends over three consecutive university terms

(September to August) and is open to graduates holding acceptable four-year degrees (120 credits);

- 2) The two-year option which extends over two regular Winter Sessions (September to April) and is open to applicants who have completed a minimum of three years (90 credits) of appropriate post-secondary studies or who are degree holders;
- 3) Le programme en langue française which operates on the 12-month pattern and which is open to graduates holding acceptable four-year degrees (120 credits) and having satisfactory competence in oral and written French; and
- 4) The Native Indian Teacher Education Program Option which is a five-year concurrent program of liberal and pedagogical studies and which is open to persons of First Nations ancestry who qualify for University admission at the first year level.

Elementary: 12-Month Option

WINTER SESSION

Prospective teachers are introduced to the theoretical bases of modern educational practice and to strategies and methods of teaching, both in general and in relation to the subjects they are preparing to teach. Studies include analysis of the nature and objectives of education and of the developmental characteristics of learners. Attention is given to students' own interpersonal and communication skills and to strategies and methods of teaching. Structured classroom observations and teaching experiences (such as tutoring, peer teaching, and microteaching) are provided. Elementary students will prepare to teach all subjects at specific grade levels through curriculum and instruction courses in subjects offered as part of the elementary curriculum. Included are an intensive two-week practicum and a thirteen week practicum in a selected BC elementary school where students work with experienced teachers who have specially prepared for this supervisory and instructional responsibility. Faculty support, advice, and assessment are provided on a regular basis.

DEGREE REQUIREMENTS FOR MIDDLE YEARS TEACHER EDUCATION

The Middle Years Teacher Education Program Option allows candidates to focus their preparation on teaching students from the ages of 10 to 14 years.

The total program includes the equivalent of two full academic years of courses and student teaching. The program is scheduled within a 12-month period (September to August), thus enabling students to qualify for a teaching certificate within one calendar year.

Middle Years Option

WINTER SESSION

After completing all program requirements, students are awarded the Bachelor of Education (Middle Years) degree and are normally eligible for a British Columbia Professional Teaching Certificate.

Prospective teachers are introduced to the theoretical bases of modern educational practice and to strategies and methods of teaching, both in general and in relation to the subjects they are preparing to teach. Studies include analysis of the nature and objectives of education and of the developmental characteristics of learners. Attention is given to students' own interpersonal and communication skills and to strategies and methods of teaching. Structured classroom observations and teaching experiences (such as tutoring, peer teaching, and microteaching) are provided. Students enrol in curriculum and instruction courses in other subject areas offered as part of the elementary curriculum. Included are an intensive two-week practicum and a thirteen week practicum in a selected BC school where students work with experienced teachers who have specially prepared for this supervisory and instructional responsibility. Faculty support, advice, and assessment are provided on a regular basis.

SUMMER SESSION

Following completion of the extended practicum, students return to the campus for studies designed to put their teaching competence in a

more comprehensive framework of knowledge and understanding. Students attend during July and August to complete final degree and certification requirements.

DEGREE REQUIREMENTS FOR SECONDARY TEACHER EDUCATION

The secondary teaching program prepares students to teach one or two subjects, depending on their prior background, in BC secondary schools.

The total program includes the equivalent of two full academic years of courses and student teaching. The program is scheduled within a 12-month period (September to August), thus enabling students to qualify for a teaching certificate within one calendar year.

After completing all program requirements, students are awarded the Bachelor of Education (Secondary) and are normally eligible for a British Columbia Professional Teaching Certificate. (See also *Technology Education Program Options*, p. 197, below.)

Winter Session

Prospective teachers are introduced to the theoretical bases of modern educational practice and to strategies and methods of teaching, both in general and in relation to the subject(s) they are preparing to teach. Studies include analysis of the nature and objectives of education and of the developmental characteristics of learners. Attention is given to students' own interpersonal and communication skills and to strategies and methods of teaching. Structured classroom observations and teaching experiences (such as tutoring, peer teaching, and microteaching) are provided. Students

prepare to teach in their teaching field with Curriculum and Instruction courses including four credits related to first teaching subject, and two to four credits related to second teaching subject. Included are an intensive two-week practicum and a thirteen-week practicum in a selected BC secondary school where students work with experienced teachers who have specially prepared for this supervisory and instructional responsibility. Faculty support, advice, and assessment are provided on a regular basis.

Technology Education Program Option

The Faculty of Education, in co-operation with the British Columbia Institute of Technology, offers a program option to prepare secondary school technology education teachers. The full post-secondary preparation for teachers of technology education consists of the equivalent of five academic years (150-152 credits) of liberal, technical, and pedagogical courses and school experiences.

- 1) 30 credits of Arts and/or Science
 - 6 credits of English Literature and Composition: all applicants must have completed 6 credits of English Literature and Composition prior to admission to the UBC Technology Education Program Option.
 - 24 additional credits of Arts and/or Science: the Faculty strongly recommends that all applicants have completed the remaining 24 credits in Arts/Science prior to admission to the UBC Technology Education program. However, those

who have completed the two year BCIT technology teacher education diploma, but who have not completed the remaining 24 credits of Arts/Science may also be considered for admission to UBC. Students who are admitted to the UBC Technology Education Program Option without completion of 24 credits in Arts/Science will **not** be recommended for conferral of the Bachelor of Education degree on completion of the program at the Faculty. (The students are recommended to the British Columbia College of Teachers for a standard certificate.) They must have completed all 24 remaining credits in Arts/Science before they become eligible for the B.Ed.

- Students who have completed academic requirements for a concentration or a major in another subject prescribed by the UBC Faculty of Education may also be admitted to both a major in technology education and a concentration or a major in the second subject and prepare to teach both subjects.

- 2) The two-year BCIT technology teacher education diploma or equivalent. Courses must include all of the following: information technology; materials and process technology; and systems integration technology.
- 3) The pedagogical studies component for a Technology Education major includes the same 60-62 credits that are required of all students in the secondary program option. This program is outlined in the Degree Requirements for Secondary Teacher Education (see above).

CAREER EDUCATION PROGRAM OPTION: CHEF EDUCATION SPECIALIZATION

The Faculty of Education offers two paths to a Bachelor of Education for the preparation of Career Education Teachers (CHEF Education) and subsequent certification. One path is via a concurrent program for holders of Letters of Permission issued by the British Columbia College of Teachers. The other is the post-degree path.

Path 1-The Concurrent Path for Career Education (CHEF Education)

FOUNDATIONS OF THE PROGRAM
The following program sequence is designed to lead to the B.Ed. (Secondary) degree and, in consequence, to Professional Teacher Certification. The program is designed to:

- Build upon trades qualifications and experience;
- Add a broad liberal education in Arts and Science subjects;
- Provide the professional pedagogical courses and practica required for secondary school teaching certification; and
- Provide the academic background for a second teaching subject at the secondary level.

Although the prior relevant trades preparation courses and practical work fall outside the range of normal university credit studies, the BC College of Teachers will recognize this work as equivalent to a Certification. Similarly, although the University does not grant formal credit for this work, it is taken into account. The B.Ed. degree is granted on the basis of a minimum of 121 credits (just over four standard years of university credit), consisting of 60 credits in Arts and/or Science subjects, 46 credits of professional pedagogical courses, and 15 credits of teaching practica. In summary, the preparation includes:

Interprovincial Trades Qualifications 'Red Seal'	30 credits
Arts and Science course work	60 credits
Pedagogical course work	46 credits
Teaching Practica	15 credits
Total	151 credits

Students are required to develop a second teaching subject by fulfilling the requirements as set out under "Secondary Teaching Field Requirements" in the Calendar or at the Teacher Education website (educ.ubc.ca/teacher_ed). The Arts and Science electives must be selected to fulfil the course work required for the second teachable subject.

ADMISSION REQUIREMENTS AND PREREQUISITES

Applicants seeking admission to UBC as a candidate in the Secondary Program of Initial Teacher Education: Career Education must have completed:

- 1) Interprovincial Trades Qualification "Red Seal" (Cook) or equivalent
- 2) A minimum of 30 credits of Arts and Science university transfer courses, including 6 credits of English Composition and Literature, and
- 3) 6 credits of Mathematics and/or Laboratory Science.

ARTS AND SCIENCE COURSES

It is expected that students in this program will complete their Arts and Science courses through a variety of means. University courses (including university transfer courses) completed at other post-secondary institutions (regional colleges or universities) either through face-to-face instruction or through distance education means will be recognized. Consistent with practice for other teacher education programs, such courses will not, however, be formally transferred to UBC and students will not receive a B.A. or B.Sc. degree from UBC. The program leads to the B.Ed. (Secondary) degree, and only the 61 credits of pedagogical courses and practica are actually incorporated into the degree program itself. Other specified requirements are, as for other candidates in the B.Ed. program, requirements for admission to the program or for re-admission to the continuing stages of the program.

PROGRAM SEQUENCE (SEQUENCE AND COURSE MAY VARY)

EDUC 420	2
Curriculum and Instruction in Second Subject: Secondary	4
EDUC 496, Part 2 ¹	6
Total credits	21
Credits needed to fulfil requirements for B.Ed. (Secondary)	21
Candidates who complete this full program (a–g) are eligible to apply for the B.Ed. (Secondary) and for the BC Professional Teaching Certificate.	

¹ The EDUC 496, Part 2, practicum will normally be completed on an internship basis by those in reg-

ular employ as teachers in the Career Preparation program in BC Secondary schools. The internship will be in both this teaching field and in the individual's selected second teaching subject. To qualify for such an internship, the individual must be teaching at least one-third of a full time-table in this second subject and must have classes in this subject at two or more grade levels.

Path 2—The Post Degree Path for Career Education Teachers (CHEF Education)

The foundation and goals are the same as the concurrent path.

Pre-admission requirements:

Interprovincial Trades Qualification 'Red Seal'	30
Arts/Science credits, to include:	
6 credits English Literature and composition	6
6 credits Mathematics and/or laboratory science	6
Additional Arts and Science courses including 18 senior credits (300–400 level) (24 if English) for a second teachable subject (see 'Secondary Teaching Field Requirements' indicated in Path 1, above)	48
Of these additional credits, a minimum of 18 credits at the third- and fourth-year level (24 credits if English) are required for a second teachable subject (see 'Secondary Teaching Field Requirements' indicated in Path 1 above)	

Pedagogical requirements:

See Degree Requirements for Secondary Teacher Education	60–62
Total Credits	150–152

PROGRAM SEQUENCE

Students first complete the 90 credit pre-admission requirements and then undertake the pedagogical requirements, which are the same as the regular degree requirements set out for Secondary Teacher Education, following the standard 12-month schedule.

CERTIFICATE OF QUALIFICATION

Students preparing to enter the teaching profession should inform themselves concerning teacher certification levels and teacher qualification levels.

TEACHER CERTIFICATION

Possession of a certificate of qualification to teach is mandatory for teaching within public elementary or secondary schools of British Columbia. The Teaching Profession Act has assigned the authority to the British Columbia College of Teachers to issue teaching certificates and to determine the classes of certificates of qualification issued. Persons convicted of, or given an absolute or conditional discharge on, a criminal offence and considering a teaching career, should write the Registrar, BC College of Teachers for clarification of their status before undertaking a teacher education program.

The Faculty reports to the BC College of Teachers at the end of each session the names of students who have satisfied requirements for BC

teacher certification. This report includes a copy of each student's UBC transcript but does not include copies of transcripts from any other institutions. Those not wishing to have their status reported and their transcripts forwarded to the college should inform the Associate Dean, Teacher Education, in writing at least one month before they complete teacher certification requirements.

Current information concerning the membership and certification requirements of the College can be obtained by writing directly to the British Columbia College of Teachers, #400–2025 West Broadway, Vancouver, BC, V6J 1Z6, tel: (604) 731-8170, fax: (604) 731-9142. Information is also available from the Teacher Education Office, Faculty of Education, Scarfe 103.

SUPERINTENDENTS' LISTING

The Faculty reports to each public School District Superintendent the names and addresses of students expected to qualify for initial teacher certification. This report includes program information but does not include birth date; copies of students' permanent records are not forwarded with this report. Those wishing to be excluded from this report should inform the Associate Dean, Teacher Education, in writing before January 15.

QUALIFICATION CATEGORIES

The Teacher Qualification Service (T.Q.S.), sponsored jointly by the BC Teachers' Federation and the BC School Trustees' Association, is an advisory service to teachers and school boards. The Service acts only on application by a teacher and only after the individual has been granted a British Columbia teaching certificate.

Qualifications are evaluated in categories assigned on the basis of years of professional preparation and programs completed. At present the Service recognizes six categories, each corresponding to the number of years of preparation acceptable to the Teacher Qualification Board. One of the years must be a professional year.

The Faculty reports to the BC Teacher Qualification Service at the end of each session the names of students who have satisfied requirements for BC teacher certification. This report does not include copies of any transcripts. Those not wishing to have their status reported to T.Q.S. should inform the Associate Dean, Teacher Education, in writing at least one month before they complete teacher certification requirements.

Request for evaluation forms are available from the Teacher Education Office, Faculty of Education and from the Teacher Qualification Service office at: 106–1525 West 8th Avenue, Vancouver, BC, V6J 1T5, telephone 604-736-5484, fax: (604) 736-6591, or on the Teacher Qualification Service website (www.tqs.bc.ca).

DIPLOMA IN EDUCATION

The Faculty of Education offers a diploma program with several fields of specialization within educational theory and practice. The

program provides structured sequences of academic and professional studies for teachers and others working in educational or instructional settings. Elementary teachers holding four-year degrees may take the program as a fifth year either to enhance their existing area of professional specialty or to develop a further one. For teachers who have already completed five years of recognized academic and professional studies, the program provides an opportunity to develop an additional area of professional competence. Most programs, if desired, can be planned to incorporate prerequisites for admission to a master's program. The Diploma in Education indicating the field of specialization will be awarded on successful completion of an approved program of study.

ADMISSION

Except for designated specializations, admission to the Diploma in Education normally requires a bachelor's degree or equivalent. Certain fields of specialization are open only to qualified and experienced teachers, and some have specific course prerequisites. Detailed information is available from the Teacher Education Office, Faculty of Education, the relevant departmental offices, and at the Teacher Education website (educ.ubc.ca/teacher_ed/diplomas_intro.html).

ACADEMIC REGULATIONS

See *Academic Regulations*, p. 193, as listed under the Bachelor of Education.

DIPLOMA REQUIREMENTS

The diploma requires the completion of 30 credits of courses numbered 300 or above with an average of 65% or higher. In most specializations 12 to 18 credits of course work are designated as core requirements, while 12 to 18 credits may be selected from approved supporting or related courses. A maximum of 18 credits of appropriate courses completed at UBC previously and not credited towards the requirements of any other degree, diploma, or teacher certification program may be applied to a diploma program.

In order to qualify for the Diploma in Education, a student must complete all requirements for the selected specialization within five years. Completion of a diploma program does not satisfy any of the requirements for a BC teaching certificate.

RESIDENCE REQUIREMENTS AND TRANSFER OF CREDIT

In general there are no residence requirements for the Diploma in Education. In most specialization fields a diploma program may be completed on either a full-time basis over one academic year or on a part-time basis, either on or off campus. However, in certain designated fields the program may be completed only by full-time study during a regular Winter Session. A maximum of 12 credits of approved credit may be transferred from other institutions towards the requirements of the Diploma in Education.

FIELDS OF SPECIALIZATION

Fields of specialization include adult education, art education, business education, computing studies education, curriculum and instructional studies, early years education, teaching English as a second language, guidance studies, health education, home economics education, infant development and supported child care, language and literacy education, mathematics education, mathematics and science education, outdoor environmental education, physical education, science education, social studies, special education, teacher librarianship, technology studies education, and visual and performing arts in education.

CONTINUING PROFESSIONAL EDUCATION

The Faculty of Education makes credit and non-credit professional development programs available to practising teachers. These programs are often offered in conjunction with School Districts and Teachers' Associations. For further information, contact the Faculty's Office of External Programs and Learning Technologies (EPLT). Telephone 604-822-2013 or visit the Office of External Programs & Learning Technologies website (eplt.educ.ubc.ca).

GRADUATE PROGRAMS

Graduate programs in education are offered by various units in the Faculty of Education, as well as by the Faculty as a whole. For specific education graduate program descriptions and admission requirements, please see the specific program listing in the Faculty of Graduate Studies section of the calendar, or visit the website of the Education unit offering the program:

- Dept. of Curriculum Studies (cust.educ.ubc.ca)
- Dept. of Educational & Counselling Psychology, and Special Education (ecps.educ.ubc.ca)
- Dept. of Educational Studies (edst.educ.ubc.ca)
- Dept. of Language and Literacy Education (lled.educ.ubc.ca)
- School of Human Kinetics (hkin.educ.ubc.ca/School)
- Centre for Cross-Faculty Inquiry in Education (cfi.educ.ubc.ca)
- Master of Educational Technology (met.ubc.ca)

General information on graduate programs in education may also be obtained from the Office of Graduate Programs and Research (ogpr@interchange.ubc.ca) in the Faculty of Education; telephone 604-822-5512, fax 604-822-8971. Information is also posted to the Education graduate programs website: ogpr.educ.ubc.ca

MASTER'S DEGREES

Master's students are admitted to UBC by the Faculty of Graduate Studies on recommendation of the home department. The following policies and procedures govern all students registered in master's programs. Students are advised to check with their appropriate units regarding specific departmental policies and additional requirements relating to their graduate program.

The Master of Educational Technology (M.E.T.) is a Faculty of Education joint degree program offered online in partnership with *Tec de Monterrey*, p. 444, a Mexican University that specializes in online education. See *Educational Technology*, p. 247, under the Faculty of Graduate Studies section in this Calendar.

GRADUATE CERTIFICATES

Graduate Certificate in Technology-Based Distributed Learning (TBDL)

Networked multimedia technologies are impacting on both conventional classroom-based teaching and distance education. Technology-based teaching is being used more and more for distributed learning which makes flexible access possible for both on-campus and off-campus students. The Graduate Certificate in Technology-Based Distributed Learning (TBDL) is designed for professionals and educators responsible for managing, designing, or instructing technology-based courses for post-secondary or adult learners.

Admission, including language proficiency requirements, will be the same as for the Master of Educational Technology (met.ubc.ca) (M.E.T.).

Students in the TBDL certificate program may apply for admission to the M.E.T. and transfer up to five certificate courses towards completion of the degree program.

CERTIFICATE REQUIREMENTS

A student must complete five courses (15 credits) from the M.E.T. program. At least two must be core courses (EDUC 500, ETEC 510, 511, 512). Three courses will be selected from the remaining core courses and electives that address issues relevant to technology for post-secondary and adult learners (ETEC 520, 521, 522, 530, 531). All courses will be delivered online. Satisfactory progress as defined by the Faculty of Graduate Studies for master's programs must be maintained.

Graduate Certificate in Technology-Based Learning for Schools (TBLS)

Educational technologies are impacting on both conventional classroom-based teaching and distance education. The Graduate Certificate in Technology-Based Learning for Schools (TBLS) is directed at anyone concerned with managing, designing, or instructing technology-based courses for school-age students.

Admission, including language proficiency requirements, will be the same as for the Master of Educational Technology (met.ubc.ca) (M.E.T.).

Students in the TBLS certificate program may apply for admission to the M.E.T. and transfer up to five certificate courses towards completion of the degree.

CERTIFICATE REQUIREMENTS

A student must complete five courses (15 credits) from the M.E.T. program. At least two must be core courses (EDUC 500, ETEC 510, 511, 512). Three courses will be selected from the remaining core courses and electives that address issues relevant to technology for school-age students (ETEC 512, 522, 530, 531, 532, 533, 540). All courses will be delivered online. Satisfactory progress as defined by the Faculty of Graduate Studies for masters' programs must be maintained.

Tuition Fees

There will be a course-based tuition fee. Fees will be the same as for the M.E.T. For more information, please see the MET website (met.ubc.ca).

OFF-CAMPUS GRADUATE PROGRAMS

It may be possible for the Faculty of Education to organize graduate programs which have off-campus components offered at locations throughout BC. For further information, contact the Office of External Programs & Learning Technologies (oepl.educ@ubc.ca); telephone: 604-822-2013.

ACADEMIC UNITS

For specific education graduate program descriptions and admission requirements, please see the specific program listing in the Faculty of Graduate Studies section of the calendar, under *Degree Programs*, p. 229.

CENTRE FOR CROSS-FACULTY INQUIRY IN EDUCATION

Degrees Offered: *M.A., M.Ed., Ph.D.*

Program Overview

The Centre for Cross-Faculty Inquiry in Education (CCFI) offers M.Ed., M.A., and Ph.D. programs (EDCI) focused on themes that cut across areas of interest in the Faculty of Education. More information about these EDCI programs can be found on the CCFI website (ccfi.educ.ubc.ca). Master's-level programs (M.Ed. and M.A.) are also offered in Early Childhood Education (ECED), in coordination with the Institute for Early Childhood Education and Research (earlychildhood.educ.ubc.ca). Off-campus M.Ed. cohort programs (eplt.educ.ubc.ca/grad/) are also offered for both the ECED and EDCI programs.

Doctor of Philosophy

Candidates require a master's degree with high standing in a relevant discipline, a sample of scholarly work, a letter of intent describing the proposed focus of their cross-faculty program and the support of three academic referees. For students possessing a thesis-based master's degree from other than a relevant discipline, it

may be possible to proceed into the Ph.D. by taking, and achieving a high standing in, the core course requirements of an appropriate Master's Degree in Education at UBC.

Master of Arts and Master of Education

The M.A. (thesis) and M.Ed. (non-thesis, but with a graduating project capstone experience) programs can be completed on a part-time basis. In addition to the regular materials requested in the University's application, students should include a statement of their educational interests.

DEPARTMENT OF CURRICULUM STUDIES

Degrees Offered: *M.A., M.Ed., Ph.D.*

Program Overview

The Department of Curriculum Studies (cust.educ.ubc.ca) is one of four departments in the Faculty of Education. It offers M.Ed. and M.A. courses in specialized areas of art education, business education, curriculum studies, home economics education, mathematics education, music education, physical education, science education, social studies education, and technology studies education. It offers a Ph.D. in Curriculum Studies with a focus on the Department's areas of specialization.

Master's programs can be completed through part-time or full-time study. Both the M.Ed. and M.A. programs consist of at least 30 credits of course work at the 300 level or above with at least 24 credits of course work selected from courses numbered 500 or above. In addition, the M.Ed. program may include a graduating project (3 credits). The M.A. programs include completion of a thesis (9 credits).

Faculty members in the Department have research interests in assessment, constructivist approaches to teaching and learning, critical thinking and problem solving; curriculum development, change, implementation, and evaluation; environmental and outdoor education, family life education, gender theory and schooling, global and multicultural education, historical and social analysis of curriculum, cultural influences and issues in education, learning in informal environments; mathematical, scientific, technological and visual literacy; school-based collaborative research, health education, teacher education, and computer applications across the curriculum.

Applicants to master's programs are normally required to have two years of teaching experi-

ence. All applicants must submit with their applications a statement of intent clearly outlining their areas of interest and focus for study. Doctoral applicants are required to submit a sample of their writing.

Joint M.Ed. in Curriculum Studies and Educational Administration & Leadership

Please see the Department of Educational Studies (edst.educ.ubc.ca) for further details.

DEPARTMENT OF EDUCATIONAL AND COUNSELLING PSYCHOLOGY, AND SPECIAL EDUCATION

Degrees Offered: *M.A., M.Ed., Ph.D.*

Doctor of Philosophy

The Department of Educational and Counselling Psychology, and Special Education (ecps.educ.ubc.ca) offers programs of study leading to Ph.D. degrees in the following areas:

- Counselling Psychology
- Development, Learning, and Culture
- Measurement, Evaluation, and Research Methodology
- School Psychology
- Special Education

The Ph.D. in the Counselling Psychology program is accredited by the Canadian Psychological Association (CPA) and American Psychological Association (APA).

Academic performance is not the sole criterion for promotion to graduation or continuation in programs in the Department of Educational and Counselling Psychology, and Special Education. All program areas also require that candidates demonstrate interpersonal and ethical qualities commensurate with working in educational or counselling settings.

Master of Arts and Master of Education

The Department offers programs of study leading to master's degrees in the following areas:

- Counselling Psychology (CNPS): M.A. and M.Ed.
- Development, Learning, and Culture (DLAC): M.A. and M.Ed.
- Measurement, Evaluation, and Research Methodology (MERM): M.A. and M.Ed.
- School Psychology (SCPS): M.A. and M.Ed.
- Special Education (SPED): M.A. and M.Ed.

With the exception of School Psychology, all master's programs in the Department are available on a full-time or part-time basis.

Additional information about the master's programs is provided in the brochures related to the area of specialization.

Academic performance is not the sole criterion for promotion to graduation or continuation in programs in the Department. All program areas also require that candidates demonstrate interpersonal and ethical qualities commensurate with working in educational or counselling settings.

Prospective applicants are encouraged to visit the Educational and Counselling Psychology, and Special Education website (ecps.educ.ubc.ca).

Course descriptions for Counselling Psychology courses are listed with the CNPS subject code in the course description section of this Calendar. Courses for the Vocational Rehabilitation Counselling Program are listed with the VRHC subject code. Courses for all other program areas are listed with the EPSE subject code.

DEPARTMENT OF EDUCATIONAL STUDIES

Degrees Offered: *M.A., M.Ed., Ed.D., Ph.D.*

Program Overview

The Department of Educational Studies (edst.educ.ubc.ca) is concerned with the study of education in a broad sense. It presents a combination of programs in adult and higher education and in educational administration and an interdisciplinary program in society, culture, and politics in education. The department is committed both to meeting traditional program needs and to developing innovative and integrated approaches to emerging issues in education. The M.A./M.Ed. programs in Adult and Higher Education develop scholars and reflective practitioners able to shape society and its institutions in ways that promote lifelong education and learning for all. The M.A./M.Ed. programs in Educational Administration prepare students for leadership positions in K-12 education administrative and teaching roles. The Society, Culture, and Politics in Education (SCPE) M.A./M.Ed. programs offer opportunities for interdisciplinary study of social justice issues through core themes of gender and feminist perspectives, multiculturalism and anti-racism, First Nations Studies and class.

The Department also offers a specialization in First Nations education for students of aborigi-

nal descent who register in the Ts"Kel program. The Department also offers a joint M.Ed. in Curriculum Studies and Educational Administration & Leadership, a joint M.Ed. in Educational Administration and Special Education, and an online M.Ed. in Adult Learning and Global Change. The master's programs can be taken on a part- or full-time basis. The Ed.D. in Educational Leadership and Policy is designed for experienced educators with leadership or policy responsibilities in a wide variety of educational settings. The Ph.D. in Educational Studies offers the opportunity to study a wide range of educational issues from perspectives represented in the Department's specializations. Graduates of the department are well qualified for leadership positions in their chosen fields. A high proportion of the graduates from the doctoral programs occupy teaching and research positions in post-secondary institutions or other agencies in Canada and elsewhere, or senior positions in school systems.

Students admitted to the Department's programs have a wide range of undergraduate qualifications and often will have some years of professional experience in education or a related field. Applicants are asked to provide (in addition to the forms, references, transcripts, and other material required by the Faculty of Graduate Studies) a statement of their scholarly and professional interests and aspirations. These are considered carefully in admissions decisions.

Course work in the M.Ed. and M.A. programs is a minimum of 30 credits, consisting of core and elective courses, depending on the specialization chosen. Some of the Department's M.Ed. programs require a graduating paper in which the student explores concepts, previous research, or the application of his or her knowledge to the field of practice. All M.A. programs require a thesis reporting the results of the student's original research. The Ed.D. is designed for working professionals and includes 24 credits of required and elective courses, a comprehensive examination and a thesis. The Department's Ph.D. program requires a doctoral seminar, a comprehensive examination and such courses as are decided in consultation with one's advisor. These are tailored to each student's particular interests and to the development of his or her doctoral research.

Master of Education in Adult Learning and Global Change

An intercontinental, web-based, coursework-only professional master's degree focusing on adult learning within the context of global change. This is a collaborative program involving, in addition to UBC, Linköping University (Sweden), University of the Western Cape (South Africa), and University of Technology, Sydney (Australia). The curriculum covers forms of adult learning found in different cultural contexts and the role of learning in understanding and responding to globalizing forces and their impacts on workplaces, communities, economies, and the environment. Students proceed through the two-year, 30-

credit program as a cohort drawn from the four participating institutions.

Admission and other requirements: UBC applicants must meet the admission requirements of the Faculty of Graduate Studies. They must supply a writing sample, letters of reference and a letter of intent, and demonstrate English proficiency. When required, the minimum TOEFL score is 600 (paper based) or 250 (computer based), or the equivalent for other tests of English proficiency. Applicants are reminded that reliable and regular email and Internet access are essential in the program.

Joint Master of Education in Curriculum Studies and Educational Administration and Leadership

This program combines requirements of the M.Ed. in Educational Administration and Leadership and the M.Ed. in Curriculum Studies in equal proportions. Core courses are CUST 562 and 566 and EADM 581 and 582. Other requirements include 3 credits from curriculum leadership (CUST 563, 564 or approved elective), 3 credits from curriculum issues (CUST 565, 568, or approved elective) 3 credits from policy (EADM 554, EDST 500, 531, 570, 576, 577, 578 or approved elective), 3 credits from clinical applications (EADM 502, 561 or 598), 3 credits from research (EDUC 500, 503, 504, CUST 510, 512, EADM 501, 508 or EDST 513, 514), and 3 credits for a portfolio, graduating paper, or the equivalent for a total of 30 credits.

Applicants are reviewed by the Departments of Curriculum Studies and Educational Studies; both sets of admission criteria apply. If accepted, students are admitted to the department of first contact and application. A co-advisor is appointed from each department to oversee each student; all courses are approved by both co-advisors. The dual designation CUST/EADM appears on students' transcripts.

Ts"kel Graduate Studies in Education

Ts"kel is a Halq'emeylem word for Golden Eagle. Ts"kel facilitates Aboriginal participation and Indigenous perspectives in UBC masters and doctoral programs through 1) a concentration of courses in First Nations/Indigenous education, and 2) research supervision from First Nations/Indigenous faculty. Students must be admitted to a masters or doctoral program at UBC in order to take the Ts"kel concentration. Ts"kel is primarily for Aboriginal students enrolled in the Faculty of Education; however, Aboriginal students from other faculties may complete the Ts"kel concentration.

Ts"kel offers academic, social, cultural, and emotional support in collaboration with the First Nations House of Learning. Students who complete the Ts"kel concentration receive a silver pin at the Longhouse Graduation Ceremony.

CONCENTRATION OF COURSES

Students complete two core courses and two electives for the Ts"kel concentration. The courses include:

- Core course, EADM 508a, Introduction to

First Nations Research and Methodology

- Core course, EADM 508b, Indigenous Research and Epistemology
- Two elective courses of First Nations/Indigenous content. These courses are chosen in consultation with the student's supervisory committee.

Research Supervision:

Dr. Michael Marker and Dr. Jo-ann Archibald serve as primary supervisors for many First Nations students. Professor Graham Smith (Distinguished Maori Scholar) is presently connected with Ts"kel. Additionally, an expanding number of Indigenous faculty are affiliated with Ts"kel and serve on graduate research committees.

Satisfactory progress as defined by the Faculty of Graduate Studies for Master's programs must be maintained.

DEPARTMENT OF LANGUAGE AND LITERACY EDUCATION

Degrees Offered: *M.A., M.Ed., Ph.D.*

Program Overview

The Department of Language and Literacy Education (www.lled.educ.ubc.ca) offers programs and courses leading to the Master of Education, Master of Arts, and Ph.D. in Language and Literacy Education (LLED). Program areas within LLED are Literacy Education (LITR), which includes English, Drama and Reading Education, Teaching English as a Second Language (TESL), Modern Language Education (MLED), and Teacher Librarianship (LIBE). The department also offers a Certificate Program in TESL. They also participate in the cross-departmental Masters of Arts Degree in Children's Literature (MACL).

The Department of Language and Literacy Education includes scholars in a comprehensive range of language and literacy-education related fields. These fields relate to the teaching of the following subjects:

- Literacy Education (LITR) – composition, early literacy, content area literacy, drama, adult literacy, family literacy, children's and young adult literature, oral language, poetry, Aboriginal literacy, and multimodal approaches to literacy learning
- English as a Second Language (TESL) – TESL methods, applied linguistics, UBC/Ritsumeikan Joint Academic Exchange Program

- Teacher Librarianship (LIBE) – cooperative program planning, school library organization and management, school library automation
- Modern Languages (MLED) – French Immersion, French as a First and Second Language, Asia Pacific language and curriculum study, and other modern languages

The Department of Language and Literacy Education is committed to excellence in scholarship, teaching, and professional leadership and is responsive to Canada's multicultural, multilingual context. Its goal is to advance the study of language learning, and the teaching and learning of language, literacy, and literature in their broadest frames of reference including perspectives from poststructuralism, socio-cultural theory, and curriculum theory.

Graduate courses in research in the various subject matter fields as well as departmental doctoral seminars are offered on a rotating basis. Department members are actively involved with graduate students in local, provincial, national, and international research. A complete listing of individual faculty research interests may be found on the LLED website (lled.educ.ubc.ca). A limited number of teaching assistantships and research assistantships are available to exceptionally qualified students.

The Department of Language and Literacy Education operates a state-of-the-art computer integrated language laboratory in *UBC Ritsumeikan House*, p. 445, and a Language Education Research Centre, in Ponderosa Annex F, with multimedia facilities, special book collections, and language and literacy education curriculum materials. Video production facilities are also available for faculty and graduate students.

ACADEMIC STAFF

DEPARTMENT OF EDUCATIONAL AND COUNSELLING PSYCHOLOGY, AND SPECIAL EDUCATION

Cay Holbrook, Interim Head

Professors

Norman E. Amundson, B.A., M.A. (Sask.), Ph.D. (Alta.); Marshall N. Arlin, B.A. (Maryknoll), M.A. (Fordham), Ph.D. (Chic.); William A. Borgen, B.Sc., M.Ed., Ph.D. (Alta.); Judith C. Daniluk, B.A. (Windsor), M.Sc., Ph.D. (Calg.); Hillel Goelman, B.A. (Rutgers), M.A. (Tufts), Ph.D. (Tor.); Shelley Hymel, B.S., M.A., Ph.D. (Ill.); Sharon E. Kahn, B.A. (Wash.), M.Ed. (Boston), Ph.D. (Arizona State); Bonita C. Long, B.Ed., M.A., Ph.D. (Br.Col.); Sandra Mathison, B.A. (Alta.), M.A., Ph.D. (Ill., Urbana-Champaign); Pat Miranda, R.N. (Mass.), M.A., Ph.D. (Wisc.); Marion Porath, B.Ed., M.A. (Br.Col.), Ph.D. (O.I.S.E., Tor.); Linda Siegel, B.A. (Qu.), M.S., Ph.D. (Yale); Marvin J. Westwood, B.Ed., M.Ed., Ph.D. (Alta.); Richard A. Young, B.A. (Loyola), B.Ed. (Montr.), M.Ed., Ed.D. (McG.); Bruno Zumbo, B.Sc. (Alta.), M.A. (Car.), Ph.D. (Car.).

Associate Professors

Mary Bryson, B.A. (Tor.), M.Ed. (Tulane), Ph.D. (O.I.S.E., Tor.); Marla Buchanan, B.A. (Mc.M.), M.A. (Lesley Coll.), M.A., Ph.D. (Vic.B.C.); Deborah L. Butler, B.A. (Calif., San Diego), M.A. (Br.Col.), Ph.D. (S. Fraser); Kadriye Ercikan, B.A. (Hon.) (Essex), M.S., Ph.D. (Stan.); Ruth A. Ervin, Ph.D., M.Ed., B.A. (Lehigh, Pa.); Laurie Ford, B.Sc., M.Sc. (Oklahoma, Stillwater), Ph.D. (Kansas, Lawrence); Beth E. Haverkamp, B.A. (Wooster), Ph.D. (Minn.); Cay Holbrook, B.A., M.A., Ph.D. (Flor. State); Anita Hubley, B.A. (Car.), M.A. (Vic.B.C.), Ph.D. (Car.); F. Ishu Ishiyama, B.A. (Concordia, Alta.), M.Ed. (McG.), Ph.D. (Vic.B.C.); Janet R. Jamieson, B.A. (New Br.), M.A. (Gallaudet), Ph.D. (McG.); Nand Kishor, B.Ed., M.A. (S.Pacific), Ph.D. (Br.Col.); Rod McCormick, B.A. (Car.), B.Ed. (Qu.), M.A. (Vic.B.C.), Ph.D. (Br.Col.); Nancy E. Perry, B.A., M.A. (S.Fraser), Ph.D. (Mich.); Kimberly Schonert-Reichl, B.S. (Ill. State), B.A. (Chic.), Ph.D. (Iowa); Izabela Schultz, B.A., M.A., Ph.D. (Warsaw).

Assistant Professors

Susan James, B.A., (Hons.) (Wat.), Ph.D. (Ott.); Joseph Lucyshyn, B.S. (Ill.), M.S. (Oregon), Ph.D. (Oregon); William McKee, B.A., M.A. (Br.Col.), Ph.D. (L.S.U.); Lynn D. Miller, B.A. (Colorado), M.A. (Arizona), M.A. Counselling, Ph.D. (Colorado); Jennifer Shapka, B.B.A. (S.Fraser), M.A., Ph.D. (O.I.S.E., Tor.); Jennifer Vadeboncoeur, Ph.D. (C.-Boulder), M.A. (C.-Boulder), B.S. (N.-Tennessee).

Lecturers

Colleen Haney, B.Ed., M.P.E., Ed.D. (Br.Col.); Elizabeth Jordan, B.A. (Mass. State Coll.), M.Ed. (Maine), Ed.D. (Br.Col.).

DEPARTMENT OF CURRICULUM STUDIES

Linda Peterat, Interim Head

Professors

F. Graeme Chalmers, Dip. Fine Arts (Auck.), M.A. (Indiana), Ph.D. (Oregon); Gaalen Erickson, B.Ed., M.Sc. (Alta.), Ed.D. (Br.Col.); P. James Gaskell, B.A. (Swarthmore), Ed.D. (Harv.); Rita Irwin, B.Ed., D.P.Ed. (Leth.), M.Ed. (Vic.B.C.), Ed.D. (Br.Col.); Anna M. Kindler, M.A. (Warsaw), M.A., Ed.D. (Ill.); Linda B. Peterat, B.Sc., B.Ed., M.Ed., Ph.D. (Alta.); William Pinar, B.S., M.A. Ph.D. (Ohio); Susan Pirie,

B.A., M.A. (Oxf.), Ph.D. (Nott.); Wayne Ross, A.B., M.A.T. (N.Carolina), Ph.D. (Ohio); Peter Seixas, B.A. (Swarthmore), M.A. (Br.Col.), Ph.D. (Calif., L.A.).

Associate Professors

Ann Anderson, B.S., B.Ed., M.Ed. (Nfld.), Ph.D. (Alta.); Anthony Clarke, Dip. Physical Education (Melb.), H.D.T.S. (Math), B.Ed. (Melb. State Coll.), M.A., Ph.D. (Br.Col.); Linda Farr Darling, B.A., M.Ed. (New Hampshire), Ph.D. (Br.Col.); Peter Gouzouasis, B.Mus., M.M.E., Ph.D. (Temple); Kit Grauer, B.Ed., M.A. (Br.Col.), M.A. (Stan.), Ph.D. (S.Fraser); Harry Hubbard, B.Sc. (Brighton), M.A., Ph.D. (Br.Col.); Don Krug, B.Sc., M.A., Ph.D. (Wisc.); Jolie Mayer-Smith, B.Sc., M.A. (Stan.), Ph.D. (Br.Col.); Karen A. Meyer, B.A., M.S. (Calif., San Diego), Ph.D. (Br.Col.); Cynthia Nicol, B.Sc., Prof. Tch. Cert. (Vic.B.C.), Ph.D. (Br.Col.); Stephen Petrina, B.Sc. (Calif.), M.A., Ph.D. (Maryland); Ann Phelan, B.Ed. Hons. (N.U.I.), M.A.Ed., Ed.D. (Virginia); Walter Werner, M.Ed. (Calg.), Ph.D. (Alta.).

Assistant Professors

David Anderson, B.A. (Q'ld.U.T.), M.Ed., Ph.D. (Q'ld.U.T.); Joy Butler, Cert.Ed. (Nonington College), B.Ed. (Lond.), CMS (South East Kent College), M.Ed., Ph.D. (Boston); Penney Clark, B.A. (S.Fraser), M.Ed. (Alta.), Ph.D. (Br.Col.); Susan Gerofsky, B.A. (Tor), M.A. (Durham), Tch. Cert., Ph.D. (S.Fraser); Scott Goble, B.A. (Seattle), M.M. (Wash.), Ph.D. (Mich.); Samia Khan, BSc., B.Ed., (Alta.), M.Ed., Ph.D. (Mass.); Lisa Loutzenheiser, B.A. (Calif.), M.A., Ph.D. (Wis.); Samson Nashon, B.Ed. (Nairobi), Dip. Ed., M.Ed. (Leeds), Ed.D. (O.I.S.E., Tor.).

Instructor

Charlene Morton, B.Mus. (Acad.), M.Ed. (W.Ont.), Ed.D. (Tor.).

DEPARTMENT OF EDUCATIONAL STUDIES

Kjell Rubenson, Acting Head

Professors

Kogila Adam-Moodley, B.A. (Natal), M.A. (Mich. State), Ph.D. (Br.Col.); Roger Boshier, B.A., Ph.D. (Well.); Daniel J. Brown, B.Sc., M.A. (Br.Col.), A.M., Ph.D. (Chic.); Donald Fisher, B.Soc.Sc. (Birm.), Ph.D. (Calif., Berkeley); Deirdre Kelly, B.A. (Calif., Santa Clara), M.A. (Tufts), Ph.D. (Stan.); Dan Pratt, M.S. (St. Cloud State Coll.), Ph.D. (Wash.); Kjell Rubenson, B.A., Ph.D. (Gothenburg); Carolyn M. Shields, B.A., M.A. (Qu.), Ph.D. (Sask.); Graham H. Smith, B.A., M.A., Ph.D. (Auck.); Thomas J. Sork, B.S., M.Ed. (Colorado), Ph.D. (Flor.); Veronica Strong-Boag, B.A. (Tor.), M.A. (Car.), Ph.D. (Tor.); Charles S. Ungerleider, B.A. (Calif., San Francisco), M.A. (Col.), Ed.D. (Mass.).

Associate Professors

Lesley Andres, B.Sc.N., B.Ed., M.Ed. (Lakehead), Ed.D. (Br.Col.); Jo-ann Archibald, B.Ed. (Br.Col.), M.Ed., Ph.D. (S.Fraser); Shauna Butterwick, B.Sc., M.A., Ph.D. (Br.Col.); David Coulter, M.A., M.Ed. (McG.), Ph.D. (S.Fraser); Jo-Anne Dillabough, B.A. (W.Ont.), M.A. (Br.Col.), Ph.D. (McG.); Frank H. Echols, B.S. (Flor. State), M.A., Ph.D. (Georgia); Mona Gleason, B.A. (W.Ont.), M.A. (Windsor), Ph.D. (Wat.); Michael Marker, B.A. (E. Wash.), M.Ed. (W. Wash.), Ph.D. (Br.Col.); Andre Mazawi, B.A., M.A., Ph.D. (Tel Aviv); Wendy Poole, B.A. (Mt. All.), B.Ed. (Acadia), M.Ed. (Mt.St. Vin.), Ph.D. (Syr.); Leslie Roman, B.A. (Texas), M.S., Ph.D. (Wis.); Allison R. Tom, B.A. (Wesleyan), M.A., Ph.D. (Stan.); Daniel Vokey, B.A. (Concordia), M.A. (Car.), M.Ed. (Qu.), Ph.D. (Tor.); Pierre Walter, M.A., Ph.D. (Wis.); Handel Wright, B.A. (Sierra Leone U.), M.A. (Windsor), M.Ed.(Qu.), Ph.D. (Tor.,O.I.S.E.).

Assistant Professors

Jennifer Chan-Tiberghien, B.Soc.Sc. (H.K.), M.B.A. (HEC), M.A., Ph.D. (Stan.); Amy Metcalfe, B.A., M.A., Ph.D. (Arizona); Claudia Ruitenber, B.A. (Rotterdam Polytechnic), M.Ed. (Nott.), Ph.D. (S.Fraser); Michelle Stack, B.A. (Alta.), M.A. (Car.), M.A., Ph.D. (Toronto, OISE).

DEPARTMENT OF LANGUAGE AND LITERACY EDUCATION

Geoff Williams, Head

Professors

James Anderson, B.A., B.Ed., M.Ed. (Nfld.), Ph.D. (Alta.); Stephen Carey, B.A. (Br.Col.), M.Sc. (Mich.), M.A., Ph.D. (Tor.); Marilyn Chapman, B.Ed. (Br.Col.), M.Ed. (W. Wash.), Ph.D. (Vic.B.C.); Patricia Duff, B.A. (Calg.), M.A. (Hawaii-Manoa), Ph.D. (Calif., L.A.); Lee Gunderson, M.A. (San Francisco State), Ph.D. (Calif., Berkeley); Ronald Jobe, B.Ed. (Alta.), M.A., Ph.D. (Minn.); Carl Leggo, B.A., B.Ed. (Nfld.), M.A., M.Ed. (New Br.), Ph.D. (Alta.); Bonny Norton, B.A. (Witw.), M.A. (R'dg.), Ph.D. (O.I.S.E., Tor.); Victoria Purcell-Gates, B.S. (Northern Arizona), M.A., Ph.D. (Berkeley); Kenneth Reeder, B.A. (Br.Col.), M.A. (Essex), Ph.D. (Birm.); Jon Shapiro, B.A., M.S. (N.Y. State), Ph.D. (Syr.); Robert J. Tierney, Dip. Teaching (William Balmain Teachers Coll. Aust.), B.Sc. (Education) (Jacksonville State), M.Ed., Ph.D. (Georgia); Geoffrey Williams, B.Ed. (Syd.), M.A. (Syd.), Ph.D. (Macquarrie); John Willinsky, B.A. (Laurentian), M.Ed. (Tor.), Ph.D. (Dal.).

Associate Professors

Marlene Asselin, B.A. (Northwestern), M.A., Ph.D. (Br.Col.); Margaret M. Early, B.Ed., M.A. (Br.Col.), Ph.D. (Calif., L.A.); Maureen Kendrick, B.Ed., M.Ed., Ph.D. (Alta.); Theresa Rogers, B.A. (William Smith, N.Y.), M.A. (Harv.), Ph.D. (Ill., Urbana-Champaign); Ling Shi, B.A. (E. China Normal), M.A. (Lanc.), Ph.D. (Tor.); Gloria Tang, B.A., M.Ed. (H.K.), Ed.D. (Br.Col.).

Assistant Professors

George Belliveau, B.A. (Dal.), B.Ed. (Mt.All.), M.A. (Tor.), Ph.D. (Br.Col.); Monique Bournot-Trites, B.A., M.A., Ph.D. (Br.Col.); Teresa Dobson, B.A., M.A., Ph.D. (Alta.); Jan Hare, B.A., Sc. (Guelph), D.Ed. (Nipissing), M.Ed. (W.Ont.), Ph.D. (Br.Col.); Carmen L. Medina, B.A. (Puerto Rico-Cayey), M.A., Ph.D. (Ohio State); Steven Talmy, B.A. (Wesleyan), M.A. (Wash.), Ph.D. (Hawaii-Manoa).

Instructor

Margot Filipenko, B.Ed., M.Ed., Ph.D. (Br.Col.).

TEACHER EDUCATION

Sydney Craig, B.A., M.A. (Alta.), Ed.D. (Br.Col.), Director of Teacher Education; Rita L. Irwin, B.Ed, Dip.Ed. (Leth.), M.Ed. (Vic.B.C.), Ed.D. (Br.Col.), Associate Dean, Teacher Education, Professor of Art Education & Curriculum Studies; Gary Rupert, B.A., M.Ed., (Vic.B.C.) Program Coordinator, Student Services; Robert Shoofey, B.Sc. (Concordia), Dip.Ed. (McG.), M.Ed. (Br.Col.), Program Coordinator (Elementary and Middle Years Practica); Sheila TeHennepe, B.Ed., M.Ed. (S.Fraser), Program Coordinator, Student Services; Gail Wynston, B.A., (York), M.A. (Br.Col.), Special Projects Coordinator; John Yamamoto, B.Ed., Program Coordinator (Secondary Practica).

Forestry Website (www.forestry.ubc.ca)

The Faculty of Forestry offers four-year degree programs leading to the Bachelor of Science in Forestry with Forest Resources Management and Forest Operations Majors, Bachelor of Science in Natural Resources Conservation, Bachelor of Science in Wood Products Processing, and the Bachelor of Science (Forestry) in Forest Science. The Faculty offers elective Co-operative Education Programs to students in these programs. The Faculty also offers the Diploma in Forestry (Advanced Silviculture) and the Diploma in Forest Engineering. An international specialization option is available in the Forest Resources Management and Forest Science programs. The Faculty's graduate degrees include the *Master of Forestry*, p. 251, *Master of Science*, *Master of Applied Science*, and *Doctor of Philosophy*. Information on Forestry's graduate programs can be found under "Degree Programs" within the *Faculty of Graduate Studies*, p. 229, section of this Calendar.

The Faculty of Forestry is favourably situated for educating men and women as foresters, wood scientists, forest business administrators, renewable resources managers, and forest biologists. It enjoys the benefits of a large university with good libraries and other facilities for study. The Faculty is based in a state-of-the-art 15,000 square metre building. In addition to the lecture and laboratory classrooms, the Faculty supports three research forests in the southcoast, north and central interior regions, totalling almost 25,000 hectares. Formal field classes, special studies, and professional exercises are conducted by students at all of these forests. The Faculty of Forestry also supports the *Centre for Applied Conservation Research*, p. 74, a specialized research centre. The Forest Engineering Research Institute of Canada, *Pulp and Paper Research Institute of Canada*, p. 82, and the Western Laboratory of Forintek Canada

Corporation are on-campus facilities which cooperate in teaching and research in engineering and forest products. The Centre for Advanced Wood Processing, located adjacent to the Forest Sciences Centre, provides a direct link between the wood processing industry and the University.

BACHELOR OF SCIENCE IN FORESTRY (B.S.F.)

The Bachelor of Science in Forestry program is designed to prepare students for entry into the profession of forestry. Education within the Faculty of Forestry can also serve as a foundation for entry into other professions such as teaching, law, engineering, and biology.

The B.S.F. program contains several integrated courses and labs requiring fieldwork and two extra-session field courses. Students must be prepared to participate in field trips off-campus (including some weekends and evenings) and to pay the extra costs associated with these field trips. It is each student's responsibility to make the necessary arrangements regarding employment, extra-curricular activities, personal commitments, and so on, so that they are able to participate fully in required field trips.

With the changing demands on foresters and the importance of articulating positions on social/forestry issues, orally and in writing, emphasis will be placed on developing students' communication skills. Opportunities to develop written and oral skills will be integrated into courses throughout the program.

PROGRAM APPROVAL AND ADVISING

As part of the registration procedure each student must select a program of courses within the limitations of the requirements for the degree and course schedules. All new students are advised to contact the Director of Student Services (candace.parsons@ubc.ca) at 604-822-3547 for program advising. Returning students should contact their program advisor for program approval. In case of conflicts between individual students and their faculty advisors, the student may appeal to the Associate Dean, Undergraduate Studies. It is the student's responsibility to select a schedule that allows attendance of all regularly scheduled lectures and laboratories.

ADMISSION

Students may apply to enter the B.S.F. program with varying educational preparation:

- 1) directly from secondary school graduation;
- 2) following completion of university-level work at UBC or the equivalent at another post-secondary institution;
- 3) after the completion of a two-year forestry diploma program at a recognized college or institute of technology; or
- 4) from an approved one- or two-year forestry transfer program at a BC college.

The majority of applicants from secondary school will be admitted on the basis of admission average, calculated as the average of four specified Grade 12 subjects. Students entering from secondary school must have met the general University entrance requirements including Mathematics 12, and one of Chemistry 12 or Physics 12 (see *Admissions*, p. 13).

Meeting the minimum academic requirements outlined in this chapter and in *Admissions*, p. 13, does not guarantee admission to these programs. Due to limited enrolment, the admission of applicants will be determined competitively on the basis of admission average; however, preference may be given to those applicants who have indicated the Faculty of Forestry as their Faculty of first choice.

Broader Based Admission

Up to ten applicants from secondary school who meet minimum academic requirements, but who do not meet the required competitive average for admission, may be selected for admission by the admissions committee of the Faculty of Forestry on the basis of additional information provided on a supplementary application form. Such applicants may also be interviewed. All applicants who do not meet the admission-average cutoff for early admission will be sent a copy of this form, with an invitation to submit it for possible consideration by the Admission Committee. Submission is optional. The Admission Committee will consider all applicants who submit a supplementary application form and who have a final grade minimum average equal to or above the minimum average for admission to the University (67%). The Admissions committee will consider the following information when making their decision:

- program-related work, community or volunteer experience
- field experience
- completion of high school courses related to program (if offered)
- recent awards, honours or recognition
- participation in school clubs and organizations
- two reference letters from people who can give further information about your academic performance, extra-curricular activities, or work/volunteer experience
- your reasons for choosing the Faculty of Forestry (as outlined in a brief essay)
- extenuating circumstances that may have affected your GPA.

Application for admission by students or graduates of other universities, colleges, or other faculties will be reviewed individually. It may be possible to design study programs for such applicants that meet Forestry degree requirements in less than the full four years. Transfer students may be required to validate advanced standing in a given subject by passing an examination.

Students who enter the B.S.F. program following the completion of at least 24 credits of work at UBC, or its equivalent at another post-secondary institution, must have attained an overall average of at least 60% in all credits attempted. Students entering with less than 24 credits of university-level work must also meet the secondary school requirements outlined above.

Applicants graduating from a two-year forestry technology diploma program must have achieved an overall average of at least 65% in their program, plus have the required secondary school courses as outlined above. Consideration will be given to individual cases of study in determining the exemptions that may be applied to the B.S.F. program.

Students must select one of two Major programs: Forest Resources Management or Forest Operations. Applicants who are uncertain about the selection of a Major, and those who lack some of the required courses but may have other advance credit, are urged to consult the Director of Student Services in the Faculty of Forestry.

To be eligible for the second year of Forest Resources Management or Forest Operations majors, students must have completed 30 credits or more of university-level work, including BIOL 120; MATH 100 and 101 (or [102 or 180] and 103 for the Forest Resources Management Major); and 18 credits selected from the following courses: three credits from 100-level English (ENGL 112 recommended); either CHEM (111 or 112) or PHYS (100 or 101) or an equivalent; ECON 101 and 102; FRST 231; FRST 232; SOIL 200; AGRO 244 (or GEOG 204); PHYS 170 (Forest Operations Major only) or up to six credits of social science electives.

Students who complete the above courses will be placed in second year. Students who enter

with less than 30 credits will normally take two additional years to reach third year.

ACADEMIC REGULATIONS

Graduation Requirements

In order to graduate, students must meet the course requirements for their major. This requires a minimum of four years of university study.

Examinations and Advancement

The University regulations concerning examination and advancement apply. See *Academic Assessment*, p. 46, and *Advancement Regulations*, p. 48. In addition, the Faculty of Forestry sets the following requirements:

- 1) Only those students who have completed at least 27 credits towards the required in-session program will be considered for awards. The standing of students taking more than 27 credits will be determined on the basis of 27 credits required, chosen in a manner most advantageous to the student.
- 2) Students who wish to drop courses may do so within two weeks of the start of the course for one-term courses and three weeks for two-term courses, by obtaining permission from the appropriate undergraduate advisor. After this deadline courses may only be dropped under exceptional circumstances and with the approval of the Associate Dean. Those who fail to write the final examination or who do not complete other course requirements and when circumstances do not warrant deferred standing, will be assigned an 'F' standing. Supplemental privileges will not be granted in such instances.
- 3) Honours standing upon graduation will be granted to those students who have obtained at least an overall average of 82% in all 300- and 400-level credits taken within their program, with no failures or supplementals. 'With Honours' will be noted on their transcript and degree certificate.
- 4) The passing mark in Forestry is 50%. In subjects comprising both lecture and laboratory or problem sessions, the candidate must pass both. If a candidate fails to obtain 50% the faculty may, at its discretion, award a pass in that subject on the basis of a good aggregate standing. Such a pass will be entered on the record of the candidate as an adjudicated pass.
- 5) If a student fails a course and is required to take it again, exemption from the laboratory or problem session portion of such a course may be granted.
- 6) First year students must pass at least 60% of credits undertaken and achieve an overall average grade of at least 60% or be required to withdraw from the Faculty for at least one year. Completion of at least 30 credits is required for promotion to second year. In subsequent years, students who do not pass at least 60% of the credits undertaken and achieve an overall average of 55%, will be required to withdraw from the Faculty for at least one year. Students who do not complete all required courses for their program year will not be promoted to the next program year, but may register in a subsequent session.
- 7) Students registered in first year that attain a Winter Session average of at least 55% but less than 60% may, at the discretion of the Adjudication, Advancement and Scholarship Committee, be placed on Academic Probation. Students registered in subsequent years that attain a Winter Session average of at least 50% but less than 55% may, at the discretion of the Adjudication, Advancement and Scholarship Committee, be placed on Academic Probation. Students assigned Academic Probation in one session will be removed from Academic Probation if, in a following Winter Session, they pass all courses and attain an average of at least 60% on a minimum of 24 credits.
- 8) A candidate who does not complete requirements for graduation in May following fourth year, will be required to register for all incomplete courses, in a subsequent session (summer or winter), and will be assessed the prescribed fees for these courses. Students who do not complete FRST 497 (B.S.F. Essay), FRST 498 (B.Sc. Thesis), WOOD 493 (Wood Processing Project), CONS 498 (Thesis or Special Project) in their fourth year must complete these requirements in time for graduation in the fall of the following year. Students who do not complete these requirements within the specified period of time must formally register in a subsequent session and may be required to take additional courses related to the thesis or project topic.
- 9) Students who have not achieved a Language Proficiency Index (LPI) score of 5 or 6 prior to completing 30 credits of Forestry-eligible courses taken at UBC, will normally be required to withdraw from the Faculty of Forestry. See *Exemptions*, p. 120, under LPI Requirements for First-Year English in the Faculty of Arts section.

Dean's Honour Roll

Any student who achieves 82% on their best 27 credits in the current session with no fails or supplementals on any courses taken will receive the notation 'Dean's Honour Roll' on their transcript. Students must have taken a minimum of 27 credits in the current session to qualify. Grades obtained by students registered in a Study Abroad and Exchange Program during the Winter Session will be considered. Students in a Cooperative Education program, who are registered at UBC for only one term in Winter Session because of a co-op placement, are eligible if they take at least 15 credits, with no fails or supplementals, for that term.

Supplemental Examinations

In addition to University regulations governing supplemental examinations (see *Deferred and*

Supplemental Examinations, p. 47, the Faculty of Forestry will apply the following guidelines for the granting of supplemental examinations:

- 1) Supplemental examination privileges will be granted in a course provided:
- 2) the normal final exam has been written and a grade submitted;
- 3) the grade attained is at least 40%; and
- 4) the overall average for the year including the failed courses is at least 60%.
- 5) Notwithstanding eligibility under point 1, supplemental examination will not be granted if:
- 6) the failure is due to a substandard performance in the laboratory part of a course.
- 7) In departments outside the Faculty of Forestry, supplementals are not offered.
- 8) In no case shall supplemental examination privileges be granted in more than two courses or more than nine credits, whichever is the lower.

Courses

Students from other faculties may take the courses offered in Forestry provided they have the necessary prerequisites, but in all such cases permission of the instructor must be obtained.

Courses for Graduate Students

Formal lecture courses or seminars are indicated by a single credit value assigned to them. In all problem and research courses, as indicated by a variable number of credits, individual laboratory or field investigations or reviews of literature are usually planned to serve the special interests of individual students. When several students have a similar interest in advanced study, formal lectures or seminars may be given. Staff members other than those directing graduate programs may direct studies in specialized topics for interested students, on the recommendation of the students' program supervisors.

Undergraduate students with the necessary background and permission of the instructor may be allowed by the Dean to register in a regularly-scheduled graduate lecture course in Forestry.

FOREST RESOURCES MANAGEMENT MAJOR

The Forest Resources Management major is designed to educate adaptable professionals with a comprehensive understanding of the discipline, an ability to acquire specific knowledge and skills as required, and the confidence to play a decision-making role in a wide variety of resource management situations. Graduates, after appropriate work experience and examination, may be eligible for registration as professional foresters in various Canadian provinces.

Students are provided with an introduction to the biological, physical, and social sciences upon which forest resource management is based, and a working knowledge of the characteristics of forest resources, their interactions, and the ways in which they can be managed to yield a socially desirable mix of goods and

services. Students will also gain an understanding of the political and socio-economic environment in which forestry is practised; and an appreciation for the historical and ethical foundations of the profession. Throughout the program, emphasis is placed on encouraging communication skills, both oral and written, creative thinking, critical analysis, and professional pride.

For students entering the Faculty of Forestry from secondary school, the program consists of 131 or 132 credits of in-session courses. For those students entering the Faculty of Forestry from first-year university (or its equivalent), the program consists of a minimum of 97 credits of in-session courses normally taken over a three-year period. For students entering the Faculty of Forestry with a two-year Forestry Technical Diploma from a BC college or institute of technology, the program consists of 93 or 94 credits normally taken over a three-year period.

¹ Students with Biology 12 should replace BIOL 111 with three credits of electives.

² CHEM 111 and PHYS 100 are intended for students without CHEM 12 and PHYS 12, respectively. If students do not have Grade 12 level in both sciences, they are encouraged to select a science not taken at the Grade 12 level.

³ Students who had less than a C+ average in Math 12 must take the non-credit MATH 099 prior to Mathematics courses. Students may enrol in MATH 180 (4 credits) instead of MATH 100 or 102 (3 credits), but the credit difference cannot be applied towards program electives requirement.

⁴ Electives taken in Second Year must include 3 credits of social science or a course chosen in consultation with a program advisor.

⁵ The remaining course may be taken as an elective if so desired.

⁶ Electives chosen from courses numbered 200 and above.

Transfer Students

Students entering from first-year university or equivalent must complete all required first and second year courses that were not completed at their previous institution(s) before entering third year. The third and fourth year requirements are the same as listed above.

BC Forestry Technology Graduates

Students entering after graduating with a two-year Forestry Technical Diploma from an approved BC college or institute of technology will receive a one-year exemption. They will enter a special second year program before proceeding to the regular program in Years Three and Four.

³ Students who had less than a C+ average in Math 12 must take the non-credit MATH 098 prior to Mathematics courses. Students may enrol in MATH 180 (4 credits) instead of MATH 100 or 102 (3 credits), but the credit difference cannot be applied towards program electives.

⁴ The remaining course may be taken as an elective if so desired.

⁵ Electives chosen from courses numbered 200 and above.

FOREST RESOURCES MANAGEMENT (SPECIALIZATION IN INTERNATIONAL FORESTRY)

The Forest Resources Management (Specialization in International Forestry) program combines aspects of forest resources biology and management with developing a global perspective of forest management issues increasingly required for careers in Forestry both in Canada and abroad. The objective of this program is to produce graduates who have a good science foundation, a second language, cultural sensitivity, and both academic and first-hand knowledge of forestry abroad.

The program includes core courses in forest ecology, stand management, silvicultural systems, forest protection, fisheries, hydrology and integrated resource management that are common to the Forest Resources Management program. In addition, to fulfil the International Forestry component, students must select a regional specialization. Students choose from either Asia Pacific, Europe, the Americas, or other region with the approval of a program advisor.

Within the regional specialization, the program requires 12 credits of relevant language other than English, a pre-approved study abroad exchange for a minimum of one term or work experience for a minimum of 13 weeks and relevant course work in the economic, cultural, and political/historical situation of the region selected.

Enrolment in the Forest Resources Management (Specialization in International Forestry) program is limited. To apply for admission, students are required to have a minimum academic standing of 70%. Students can apply to the program after completing 21 credits from the first-year courses (or their equivalent). Graduates receive a Bachelor of Science in Forestry (B.S.F.) and may be eligible for registration as a professional forester. The program consists of a minimum of 146 or 147 credits. Application forms are available after January 15 from the Faculty of Forestry's International Programs Office. Completed application forms and transcripts from all post-secondary institutions attended must be received by the International Programs office by May 15. Applicants will be notified by June 30 whether they have been accepted into the program.

¹ Students with Biology 12 should replace BIOL 111 with three credits of electives.

² Select the subject not taken at the Grade 12 level.

³ Students who had less than a C+ average in Math 12 must take the non-credit MATH 012 prior to Mathematics courses. Students may enrol in MATH 180 (4 credits) instead of MATH 100 or 102 (3 credits), but the credit difference cannot be applied towards program electives.

⁴ Students who pass an oral proficiency test for a language relevant to their regional specialization are required to choose 12 additional credits of program electives approved by a program advisor.

⁵ Students may choose Asia Pacific, America or Europe as their region of specialization. Other regions can be considered with the approval of an advisor.

⁶ Electives must be approved by a program advisor.

⁷ Met by participation in one of the following: UBC's Education Abroad Program or a study abroad or work internship abroad designed by the student with pre-approval by a program advisor. The Faculty of Forestry cannot guarantee the placement of any student in a study abroad exchange.

FOREST OPERATIONS MAJOR

The Forest Operations Major prepares the graduate for a full range of professional responsibilities associated with forest land use. The program includes core courses in forest ecology, stand management, silvicultural systems, forest protection, fisheries, hydrology, wildlife, and integrated resource management that are common to the Forest Resources Management Major. Graduates are eligible for registration as registered professional foresters (RPF) after appropriate work experience and examination.

The major is divided into two main specialization options:

- 1) Harvest Planning & Engineering
- 2) Commerce (Minor in Commerce)

For students entering the Faculty of Forestry from secondary school, this program major consists of 134 credits. For those students entering the Faculty of Forestry from first-year university (or its equivalent), transfer credits are assigned to equivalent UBC courses. For students entering the Faculty of Forestry with a two-year Forestry Technical Diploma from a BC college or institute of technology, the

program consists of 99 credits normally taken over a three-year period.

¹ Students with Biology 12 are exempt from BIOL 111. Substitute PHYS 100 if needed (exempt with PHYS 12) or CHEM 111 (exempt with CHEM 12). If none of these courses are needed, an elective may be substituted.

² Students who had less than a C+ average in Math 12 must take the non-credit MATH 098 prior to Mathematics courses. Students may enrol in MATH 180 (4 credits) instead of MATH 100 (3 credits), but the credit difference cannot be

applied towards program electives. Students planning to obtain a PEng after graduating require MATH 100 & 101.

³ Students taking the Commerce Minor should take FRST 318 in second year in place of 3 elective credits. The three credits in third year are then moved to the specialization option credits.

Note: Some elective or specialization courses may carry credits in addition to the above table.

Transfer Students

Students entering from first year university or equivalent must complete all first and second year courses not completed during their previous studies before entering third year. The third and fourth year requirements are the same as listed above.

BC Forestry Technology Graduates

Students entering after graduating with a two year Forestry Technical Diploma from an approved BC college or institute of technology receive exemptions from several first, second, and third year courses. Students enter directly into second year and follow a modified second and third year program. The fourth year program is identical to that specified for students entering directly from secondary school.

¹ Select a science subject not taken at the Grade 12 level. Students that require PHYS 170 for their specialization who do not have Physics 12 or its equivalent must complete PHYS 100 prior to completing PHYS 170. If none of these courses are needed, an elective may be substituted.

² Students who had less than a C+ average in Math 12 must take the non-credit MATH 098 prior to Mathematics courses. Students may enrol in MATH 180 (4 credits) instead of MATH 100 or 102 (3 credits), but the credit difference cannot be applied towards program electives. Students planning to pursue registration as a professional engineer (PEng) require MATH 100 and 101.

Specialization Options

The following courses are required for the specialization option chosen by the student. One of the two options is required for graduation. The following tables correlate to the four-year degree program. Students in a three-year degree program (BC Forestry Technology Graduates) should adjust the elective credits (add or delete) as needed.

HARVEST PLANNING AND ENGINEERING OPTION

The Harvest Planning and Engineering Option offers specialized courses in geotechnical engineering, forest road design and location, planning of forest operations at the stand and landscape levels, engineering and economic analysis of logging systems, and forest transportation systems. In addition, graduates of this specialty have the unique skills that are needed to analyze, plan, and implement a wide range of silviculture, logging, and transportation systems which are key elements in forest management. Some graduates of this specialty choose to take additional courses in mathematics and applied science to obtain eligibility for registration as a professional engineer (P.Eng.) in addition to a professional forester (RPF).

¹ Students in the three-year program may take PHYS 170 in third year.

² Students planning to pursue registration as a professional engineer (P.Eng.) require MATH 101.

Commerce Option (Minor in Commerce)

Students who desire a stronger foundation in business may consider the Minor in Commerce. Upon successful completion of this minor

program, the notation 'Minor in Commerce' will be placed on the student's transcript.

Enrolment in this program is limited. Applications for admission can be obtained from the Faculty of Forestry Student Services and must be submitted by May 15. For an application to be considered, the student must be eligible for at least third-year standing in the Faculty of Forestry (Operations Major) with a cumulative average of at least 68% in the previous two years. Completion of ECON 101 (or ECON 310) and ECON 102 (or ECON 311) is required. Meeting the stated minimum requirement does not guarantee admission into the Minor.

Students may require an additional term to complete the Minor in Commerce.

² PHYS 170 is required for some recommended electives in third and fourth year.

BACHELOR OF SCIENCE IN NATURAL RESOURCES CONSERVATION

The B.Sc. (Natural Resources Conservation) is an interdisciplinary program designed to prepare students for careers in the conservation of renewable natural resources, the management of protected areas, and landscape and regional level planning for the integrated use of terrestrial and aquatic ecosystems. The program provides students with a solid foundation across several disciplines that reflect the multi-faceted character of conservation issues and conservation research. These include the natural and social sciences underlying the conservation and management of natural resources, an appreciation for the political and socioeconomic contexts that affect the design and outcomes of conservation and management strategies, and a working knowledge of technologically advanced tools and quantitative techniques available to renewable resources

planners and managers. Throughout the program, emphasis is placed on developing communication skills, both oral and written, including approaches to public participation in natural resources planning and the techniques of conflict resolution.

ADMISSION

The Faculty of Forestry will accept applications from students with varying educational preparation:

- directly from secondary school graduation, or
- following completion of at least 24 credits at UBC or its equivalent at another post-secondary institution.

Students entering from secondary school must have met the general University entrance requirements (see the chapter *Admissions*, p. 13, in this Calendar) and have completed Mathematics 12 and Chemistry 12. Students who enter following completion of at least 24 credits of work at UBC or its equivalent at another post-secondary institution, must have attained an overall average of at least 60% in all credits attempted. In the case of transfer students,

consideration will be given to individual cases of study in determining the transfer credit that may be applied to the natural resources conservation program. Graduates of a one- or two-year diploma program in a related discipline may be considered for course exemptions that may be applied towards the degree. Such students must have achieved an overall average of at least 65% in their diploma program, plus have the entrance requirements listed above. Further details can be obtained from the Director of Student Services in the Faculty of Forestry.

See also *Broader Based Admission*, p. 205, as listed under "Admission" under Bachelor of Science in Forestry (B.S.F.).

See also *Program Approval and Advising*, p. 205, as listed under Bachelor of Science in Forestry (B.S.F.).

ACADEMIC REGULATIONS

See *Academic Regulations*, p. 206, as listed under Bachelor of Science in Forestry (B.S.F.).

DEGREE REQUIREMENTS

For students entering the Faculty of Forestry from senior secondary school, the program consists of a minimum of 123 in-session credits, normally taken over a four-year period.

¹ Students with Biology 12 should replace BIOL 111 with three credits of electives. BIOL 140 (2) may be taken in place of BIOL 141 (1); however, the extra credit may not be used towards meeting the total elective requirements for the program.

² Students who had less than a C+ average in Math 12 must take the non-credit MATH 012 prior to Mathematics courses. Students may enrol in MATH 180 (4 credits) instead of MATH 100 or 102 (3 credits), but the credit difference cannot be applied towards program electives.

³ Students may take a 200-level SOCI (three credits) and another social science course (three credits) in place of SOCI 100. The latter course must be chosen in consultation with the program director.

⁴ Could be replaced with BIOL 300.

⁵ Could be replaced with ECON 371 or 374 (3 credits).

⁶ An integrated course taught in the Term 1. Registration is restricted to this course only during Term 1 and only to students in fourth year of NRC program.

⁷ Elective must be a course numbered 300 or above.

⁸ Elective must be a course numbered 300 or above. To be chosen in consultation with the program advisor.

Courses Toward Registration as a Professional Forester in British Columbia

Students in the B.Sc. (Natural Resources Conservation) program who wish to work towards membership in the Association of BC Forest Professionals are advised to contact the Director of Student Services in the Faculty of Forestry for information on appropriate courses to add to their program.

Courses Toward Registration as a Professional Biologist in British Columbia

Students in the B.Sc. (Natural Resources Conservation) program who wish to work towards membership in the College of Applied Biology of BC (CABBC) are advised to include the following courses in their program: MATH 101 or 103, PHYS 100-level (6), CHEM 100-level (6) BIOL 200 and 201 or BIOL 204 and 205, FRST 302, and one of BIOL 322, 336, 414, 415, 418, or 430. Students wishing to take these courses must complete the necessary prerequisites or have permission of the instructor. Students should contact the CABBC directly for information on their individual requirements. Course requirements are subject to change without notice.

BACHELOR OF SCIENCE IN FORESTRY (B.SC. [FORESTRY])

Forest Science is an academically challenging program for students interested in the biology and dynamics of forest ecosystems. The objective of the program is to develop professionals who understand the dynamics of, and conduct research in, forested ecosystems. The program provides a strong foundation for careers involving the biological and environmental aspects of forestry, forest conservation, research, and teaching.

The program consists of a minimum of 131 credits of course work.

The first two years of the program have a strong core of foundation courses to ensure scientific breadth. No later than the start of third year, students must select an area of concentration, such as forest ecology, forest entomology or pathology, forest fire science, forest genetics or biotechnology, forest hydrology and aquatic sciences, forest soils, tree physiology, silviculture, conservation biology, or wildlife ecology. Each area of concentration consists of 12 credits of course work. It is expected that the 6 credit thesis be in the area of concentration. Students must also select 18 credits from a pool of Forestry Electives. Specific academic packages to suit the interests and needs of individual students can be designed. All Forest Science Majors must have their program of study approved by the Forest Sciences Program Director.

The recommended program of studies is given below. Part-time students or students with advanced credit should consult the Forest Sciences Program Director before registering in an amended program

ADMISSION

General admission requirements to the Bachelor of Science (Forestry) Forest Science Major are the same as those for the Bachelor of Science in Forestry (B.S.F.). See *Admission*, p. 205, as listed under Bachelor of Science in Forestry (B.S.F.).

To be eligible for second year of the Forest Science Major, students must have completed six

credits of first-year English; BIOL 121 and 140 and one of BIOL 111 or Biology 12; MATH 100 and 101 (or 102 or 103); and CHEM 111 and 113 or 123 and 122. The program is designed to allow completion in three years following at least one year (30 credits) of university-level work.

See also *Broader Based Admission*, p. 205, under "Admission" as listed under Bachelor of Science in Forestry (B.S.F.).

See also *Program Approval and Advising*, p. 205, as listed under Bachelor of Science in Forestry (B.S.F.).

² Students who had less than a C+ average in Math 12 must take the non-credit MATH 012 prior to Mathematics courses. Students may enrol in MATH 180 (4 credits) instead of MATH 100 or 102 (3 credits), but the credit difference cannot be applied towards program electives.

³ PHYS 100 is suggested for students who do not have credit for Physics 12.

⁴ The first term of third year will be immediately preceded by a one-week field school near Williams Lake.

⁵ A 6-credit B.Sc. thesis will be completed in fourth year.

⁶ An area of concentration must be declared before the start of third year. Courses should be selected in consultation with the Forest Science Program Director.

⁷ Eligible 300- and 400-level courses include FRST 305, 306, 311, 352, 385, 386, AGRO 402, 403, 444, CONS 330, 486.

Courses Toward Registration as a Professional Forester in British Columbia

Students who wish to work towards membership in the Association of BC Forest Professionals are advised to contact the Director of Student Services in the Faculty of Forestry for information on appropriate courses to add to their program.

Courses Toward Registration as a Professional Biologist in British Columbia

Students in the B.Sc. (Forestry) program who wish to work towards membership in the College of Applied Biology of BC (CABBC) are advised to include the following courses in their program: PHYS 100-level (6) and one of BIOL 322, 336, 414, 415, 418, or 430.

Students wishing to take these courses must complete the required prerequisites or have permission of the instructor. Students should contact the CABBC directly for information on their individual requirements. Course requirements are subject to change without notice.

FOREST SCIENCE (SPECIALIZATION IN INTERNATIONAL FORESTRY)

The Forest Science (Specialization in International Forestry) program combines the biology and dynamics of forest ecosystems with developing a global perspective of forest issues increasingly required for careers in Forestry both in Canada and abroad. The objective of this program is to produce graduates who have a good science foundation, a second language, cultural sensitivity, and both academic and first hand knowledge of forestry abroad.

The emphasis of the Forest Science component is to provide education in the basic biological and environmental sciences, particularly with regard to the components and functioning of ecosystems. In addition, to fulfil the International Forestry Major, students must select a regional specialization. Students choose from either Asia Pacific, Europe, the Americas, or other regional specialization with the approval of a program advisor.

The first two years of the program have a strong core of basic sciences to ensure scientific breadth. After the completion of their first year, students would select International Forestry as their area of concentration. Within the regional specialization, the program requires 12 credits of relevant language other than English, a pre-approved study abroad exchange for a minimum of one term, or work experience for a minimum of 13 weeks and relevant course

work in the economic, cultural, and political environment of the region selected.

Enrolment in the Forest Science (Specialization in International Forestry) program is restricted. To be considered for admission, students are required to have a minimum academic standing of 70%. Students can apply to the program after completing 21 credits from the first-year courses (or their equivalent). The program consists of a minimum of 134 credits of in-session and seven credits of extra-sessional course work. Students receive a B.Sc. (Forestry) upon completion of the requirements. Application forms are available after January 15 from the Faculty of Forestry's International Programs Office. Completed application forms and transcripts from all post-secondary institutions attended must be received by the International Programs office by May 15. Applicants will be notified by June 30 whether they have been accepted into the program.

- Students with Biology 12 should replace BIOL 111 with three credits of electives.
- Students who had less than a C+ average in Math 12 must take the non-credit MATH 012 prior to Mathematics courses. Students may enrol in MATH 180 (4 credits) instead of MATH 100 or 102 (3 credits), but the credit difference cannot be applied towards program electives.
- Students who pass an oral proficiency test for a language relevant to their regional specialization are exempt, and must choose 12 credits of program electives approved by a program advisor.
- Students may choose Asia Pacific, Americas or Europe as their region of specialization. Other regions can be considered with the approval of an advisor.
- Electives must be approved by a program advisor.
- Three credits in each of Anthropology or Sociology; Economics or Commerce or Law; Geography or History or Political Science.
- Met by participation in one of the following: UBC's Education Abroad Program or Study abroad or work internship abroad designed by the student with pre-approval by a program advisor. The Faculty of Forestry cannot guarantee the placement of any student in a study abroad exchange program or an international work internship program. Selection is competitive and based on academic standing, merit and availability.

BACHELOR OF SCIENCE IN WOOD PRODUCTS PROCESSING

The B.Sc. (Wood Products Processing) program will provide graduates with an understanding of wood as a material. Emphasis is placed on a basic understanding of engineering concepts, business, communication, and problem solving skills to produce graduates capable of managing a wood products manufacturing facility. Graduates will be expected to plan and construct production facilities, develop new methods and processes, and manage production control and co-ordinate personnel.

The program consists of a minimum of 134 credits in-session for all students. An additional 15 credits of extra-sessional work is required by students in the five-year co-operative Major.

Students interested in the program should contact the Department of Wood Science, Room 2900, Forest Sciences Centre, The University of British Columbia, Vancouver, BC, Canada, V6T 1Z4; Tel: 604-827-5195.

ADMISSION

The Faculty of Forestry will accept applications from students with varying educational preparation:

- directly from secondary school graduation;
- following completion of university-level work at UBC or the equivalent at another post-secondary institution; or
- after the completion of a two-year wood products or engineering diploma program at a recognized college or institute of technology.

Achievement of the minimum academic requirements does not guarantee admission in the event that the number of applicants exceeds the number of available spaces. Students entering from secondary school must have met the general University entrance requirements (see the chapter *Admissions*, p. 13, in this Calendar), including Mathematics 12, Chemistry 11, and Physics 12. Students applying following the completion of at least 30 credits of university-level work must have attained an overall average of at least 60% in all credits attempted. Students applying with less than 30 credits must also meet the secondary school requirements listed above. Students applying from a completed two-year wood products or engineering diploma program must have attained an overall average of at least 65% on their completed diploma, plus have the required secondary school courses as outlined above.

See also *Program Approval and Advising*, p. 205, as listed under Bachelor of Science in Forestry (B.S.F.).

¹ Students who had less than a C+ average in Math 12 must take the non-credit MATH 099 prior to Mathematics courses. Students may enrol in MATH 180 (4 credits) instead of MATH 100 or 102 (3 credits), but the credit difference cannot be applied towards program electives.

² Practical woodworking course taken at the end of second year.

³ Electives must be courses numbered 300 or above. To be chosen in consultation with the Program Director.

MINOR IN COMMERCE

Enrolment in this program is limited. An application form may be obtained from the Dean's Office. The completed form must be returned no later than October 15. At the time of application, students must be eligible for fourth-year standing in the Wood Products Processing program with a cumulative average of at least 68% in the previous two years. Meeting the stated requirements does not guarantee admission to the program.

The program consists of ECON 101 and 102 (6), COMM 457 (3), and nine credits selected from COMM 329 (3), COMM 458 (3), COMM 465 (3), COMM 473 (3), and COMM 493 (3). Upon successful completion of this Minor program, the notation 'Minor in Commerce' will appear on the student's transcript.

CO-OPERATIVE EDUCATION PROGRAM

In addition to the four-year B.Sc. (Wood Products Processing) program, students can elect a five-year Co-operative Education Program with work placements in industry. The Wood Products Processing Co-operative Education Program is designed to provide students with work experience integrated with their academic programs. The year-round program normally requires completion of five work terms of targeted employment in four-month co-operative placement sessions including one Winter and one Fall placement. The five sessions are WOOD 300, 311, 312, 411 and 412. Completion of each of these

courses including a technical report and oral presentation will be recorded on the student's transcript. The Co-op program requires an additional year to complete the B.Sc. (Wood Products Processing) requirements.

Students in the program will register in and pay for the appropriate three-credit Co-operative Education placement course for each work term once a suitable position is confirmed. See Special Fees, under Ch. 3, "Fees, Financial Assistance and Scholarships."

Students in the B.Sc. (Wood Products Processing) who wish to be considered for the Co-operative Education Program must apply in the fall term of their second year. To be able to participate in the placement process for the first co-op term, the student needs to have a 64% minimum cumulative average in required Wood Products Processing courses taken at UBC in first and second year, complete the required application, and have a successful interview with the Co-op coordinator. Specific deadlines are available from the co-op office. In addition, students must attend Co-operative education program workshops and a practical wood-working course. Acceptance into the co-op program does not guarantee work term placements. To be accepted into WOOD 311, students must have an average of 68% minimum in required Wood Products Processing courses taken at UBC in first and second year and maintain that average to stay in the Co-op program.

To graduate from the Co-operative Education Program a student must complete the required number of work placements along with the normal academic requirements.

DIPLOMA IN FOREST ENGINEERING

The Faculty of Forestry, in co-operation with the Forest Management Institute of British Columbia and the Faculty of Applied Science (Department of Civil Engineering), offers the Diploma in Forest Engineering.

The program is designed for professional foresters, engineers, and geoscientists (including professionals-in-training) specializing in forest engineering practice in BC who wish to improve their job-related knowledge, work performance, and business opportunities. It focuses on advanced engineering principles, recent research, and current practices.

The Diploma in Forest Engineering will be awarded upon successful completion of the program.

ADMISSION

Admission to the Diploma program requires a combination of academic and work experience qualifications. Applicants must be a Registered Professional Forester (R.P.F.) and/or a registered Professional Engineer (P.Eng.) and/or a Registered Professional Geoscientist (P.Geo.), or a professional-in-training or equivalent.

Applicants are expected to have relevant work experience. Applicants normally are practicing forest engineers employed with government, industry, or a consulting firm who are engaged in forest engineering or related forest management work.

DIPLOMA REQUIREMENTS

The Diploma requires the completion of six course modules. Extensive pre-course reading assignments are also required prior to each course module. The program normally takes three years to complete. In order to qualify for the Diploma, the student must complete all requirements within a reasonable time frame.

RESIDENCE REQUIREMENTS AND TRANSFER OF CREDIT

Students are required to attend full-time day and evening sessions for each course module. Classroom sessions are held on campus and in several off-campus locations in British Columbia. There is no transfer of credit available either to or from the Diploma program.

DIPLOMA IN FORESTRY (ADVANCED SILVICULTURE)

The Faculty of Forestry, in co-operation with the Forest Management Institute of British Columbia, offers the Diploma in Forestry (Advanced Silviculture).

The diploma program is designed for foresters specializing in silvicultural practice, and focuses on silvicultural theory and principles relevant to silviculture prescriptions. The Diploma in Forestry (Advanced Silviculture) will be awarded upon successful completion of the program.

ADMISSION

Admission to the diploma program requires a combination of academic and work experience qualifications. Applicants must be Registered Professional Foresters (R.P.F.) or Foresters-in-Training (F.I.T.) or equivalent. Applicants must also have a minimum of five years of forest management work experience. Applicants are normally practising foresters, employed with government, industry, or a consulting firm, who are engaged in silviculture or related forest management work.

DIPLOMA REQUIREMENTS

The Diploma in Forestry (Advanced Silviculture) concentrates on improving the student's awareness and understanding of those subjects that encompass the broad field of silviculture.

The diploma requires the completion of six course modules. Extensive pre-course reading assignments are also required prior to each course module. The program normally takes three years to complete. In order to qualify for the Diploma, the student must complete all requirements within a reasonable time frame.

RESIDENCE REQUIREMENTS AND TRANSFER OF CREDIT

Students are required to attend full-time day and evening sessions for each course module. Classroom sessions are held on campus and in several off-campus locations in British Columbia. There is no transfer of credit available either to or from this diploma program.

CO-OPERATIVE EDUCATION PROGRAM

Students can elect a five-year Co-operative Education Program. This program provides interested and qualified students with paid employment experience, which is directly related to their academic program and future career. It is an optional, year-round program. Apart from the normal academic requirements, a minimum of four work terms must be completed. The co-op program requires an additional year to complete the bachelor's degree.

Work placements are graded Pass or Fail. Students must attend co-operative education program workshops. A technical report is required at the end of each work term. A minimum of four work terms is needed to graduate with a co-op designation on the transcript. Students wishing to enrol in the program must apply in the fall term of their second year. Selection criteria for admission vary for each program, but are based on academic performance and employment suitability. Total enrolment is subject to the availability of appropriate work placements. Acceptance into the co-op program does not guarantee work placements in every work term. Once a suitable work placement is confirmed, students must register in and pay for the appropriate session. See "Program and Course Fees" in Chapter 3.

Contact the Cooperative Education Coordinator for the Faculty of Forestry for further information, including special application forms, specific deadlines, and the appropriate sequence of academic and work terms.

EXCHANGE PROGRAMS

The Faculty of Forestry actively participates in the formal university-wide exchange programs. Undergraduate students who earn a 70% average over 27 credits in the year prior to their exchange are eligible to travel to one of the international or Canadian exchange partner institutions to study for up to one year. Graduate students are also eligible and can transfer up to 12 credits towards their UBC degree. Interested students should see the chapter *Alternative Study Options*, p. 443, for further information or contact the Faculty directly.

CANADIAN EXCHANGES

Opportunities for students exist at the University of Alberta, the University of Quebec, the University of Toronto, and Université Laval. These universities participate with UBC in the Canadian Scholars Exchange Program (CANEX). There are also opportunities for exchange with the University of New Brunswick, which has an exchange agreement with the Faculty of Forestry.

INTERNATIONAL EXCHANGES

The University of British Columbia's Student Exchange Program offers eligible students the opportunity to spend one or two semesters at a variety of partner universities throughout the

world. Partner universities with programs specific to UBC's Faculty of Forestry include the Universities of the Philippines; Melbourne (Australia); Canterbury (New Zealand); Maine (USA); Wales (UK); Aberdeen (UK), Australia National University; Oregon State University (USA); Swedish University of Agricultural Sciences; Albert-Ludwig University Freiburg (Germany); the Instituto Tecnológico de Costa Rica; and the University of Chile.

AWARDS AND FINANCIAL ASSISTANCE

Undergraduate Forestry students are eligible for a range of assistance including prizes, scholarships, bursaries, and loans. Prizes and scholarships are awarded on the basis of academic standing although other factors may also be considered. Many scholarships are awarded on the recommendation of the Faculty, while others are assigned by Student Financial Assistance and Awards. The University also offers bursaries to students demonstrating financial need. These awards are assigned by the Awards Office and students are required to submit a detailed application outlining their financial circumstances. Bursaries to Forestry students amount to about half the value of scholarships and prizes. The major source of financial assistance is available through the British Columbia Student Assistance Program, which combines a Canada Student Loan and a BC Student Loan. Details on these programs and information on financial assistance can be found on the Student Financial Assistance and Awards website (www.students.ubc.ca/finance).

T.E. BURGESS AND D.E. LANE MEMORIAL LECTURESHIP IN FORESTRY

In memory of Thomas E. Burgess and David E. Lane, vice-presidents of long standing with British Columbia Forest Products Limited, a fund has been established by Mrs. Dorothy Burgess and Mrs. Evelyn Lane and Fletcher Challenge Canada Limited, to provide for the presentation and publication of special lectures in forestry by outstanding authorities in forestry or the forest industry.

LESLIE L. SCHAFFER LECTURESHIP IN FOREST SCIENCE

In memory of Leslie L. Schaffer, D.Sc., former executive vice-president of Western Plywood Co. Ltd., a fund has been established by Mrs. Leslie L. Schaffer to finance lectures and publications by visiting forest scientists.

THE NAMKOONG FAMILY LECTURESHIP

This endowed lectureship was established by the late professor Gene Namkoong, former Head of Forest Sciences at UBC, and his wife Carol, to promote the study and development of science or philosophy pertaining to the sustainability and conservation of forests.

ACADEMIC STAFF

DEPARTMENT OF FOREST RESOURCES MANAGEMENT

George Hoberg, Head

Professors

R. Jonathan Fannin, B.Sc. (Belf.), Ph.D. (Oxf.), P.Eng. (joint with Civil Engineering); **George Hoberg**, B.Sc. (Calif., Berkeley), Ph.D. (M.I.T.) (joint with Political Science); **John L. Innes**, B.A., M.A., Ph.D. (Cantab.); **Peter L. Marshall**, B.Sc.F., M.Sc.F. (Tor.), Ph.D. (Br.Col.), R.P.F.

Associate Professors

Younes Alila, B.A.Sc., M.A.Sc., Ph.D. (Ott.), P.Eng.; **Nicholas Coops**, B.A.Sc., Ph.D. (R.Melbourne I.T.); **Valerie LeMay**, B.Sc., M.Sc. (Alta.), Ph.D. (Br.Col.), R.P.F.; **Thomas C. Maness**, B.S.F. (W. Virginia), M.S. (Virginia Polytech.), Ph.D. (Wash.); **R. Daniel Moore**, B.Sc. (Hons.) (Br.Col.), Ph.D. (Cantab.), P.Geo. (joint with Geography); **John D. Nelson**, B.S.F., M.B.A. (Br.Col.), Ph.D. (Oregon), R.P.F.; **Stephen Sheppard**, B.A. (Oxon.), M.Sc. (Br.Col.), M.A. (Oxon.), Ph.D. (Calif., Berkeley), ASLA. (joint with Landscape Architecture); **David Tindall**, B.A., M.A. (Vic.B.C.), Ph.D. (Tor.) (joint with Sociology); **Ronald L. Trospert**, B.A., M.A., Ph.D. (Harv.); **Paul M. Wood**, B.Sc., Ph.D. (Br.Col.), R.P.F., R.P.Bio.

Assistant Professors

Gary Bull, B.S.F., M.F. (Br.Col.), Ph.D. (Tor.); **Sumeet Gulati**, B.A. (Mumbai), M.A. (Delhi), M.Sc., Ph.D. (Maryland) (joint with Land and Food Systems); **Kevin Lyons**, B.S.F., M.S.F. (Br.Col.), Ph.D. (Oregon State); **Michael Meitner**, B.A., M.A., Ph.D. (Arizona); **David E. N. Tait**, B.Sc., M.Sc., Ph.D. (Br.Col.); **Marcus Weiler**, B.Sc., M.Sc. (Freiburg), Ph.D. (Zurich).

Senior Instructor

Dennis Bendickson, B.S.F. (Br.Col.), R.P.F.

Adjunct Professors

Robert D'Eon, HBSc.F. (Lake.), M.Sc.F. (New Br.), Ph.D. (Br.Col.), R.P.F.; **Dan Hogan**, B.A., M.Sc. (Br.Col.); **Robert Hudson**, B.Sc., M.Sc. (Calg.), Ph.D. (Br.Col.); **Kimberley Iles**, B.S., M.Sc. (Oregon), Ph.D. (Br.Col.); **Don Leckie**, B.Sc. (Manit.), Ph.D. (Br.Col.); **Patrick Matakala**, B.Sc., M.Sc. (Lakehead), Ph.D. (Br.Col.); **Guillaume Therien**, B.A.Sc. (Laval), Ph.D. (Br.Col.); **Clifford White**, B.Sc. (Mont.), M.Sc. (Col.Str.), Ph.D. (Br.Col.); **Bill Wilson**, B.A. (Car.), M.Sc., Ph.D. (Alta.); **Rita Winkler**, B.S.F. (Br.Col.), M.Sc. (Alta.), Ph.D. (Br.Col.); **Mike Wulder**, B.Sc. (Calg.), M.Sc., Ph.D. (Wat.).

DEPARTMENT OF FOREST SCIENCES

Robert D. Guy, Head

Professors

Sally N. Aitken, B.Sc. (Br.Col.), M.Sc., Ph.D. (Calif., Berkeley); **Peter Arcese**, B.A. (Wash.), M.Sc., Ph.D. (Br.Col.); **Frederick L. Bunnell**, B.S.F. (Br.Col.), Ph.D. (Calif., Berkeley), R.P. Bio; **Christopher P. Chanway**,

B.Sc. (Winn.), B.S.Ag. (Manit.), M.Sc., Ph.D. (Br.Col.); **Yousry A. El-Kassaby**, B.Sc. (Alexandria), M.Sc. (Tanta), Ph.D. (Br.Col.), R.P.F.; **Robert D. Guy**, B.Sc., Ph.D. (Calg.); **Scott G. Hinch**, B.Sc., M.Sc. (W.Ont.), Ph.D. (Tor.); **James P. Kimmins**, B.Sc. (N. Wales), M.Sc. (Calif., Berkeley), M.Phil., Ph.D. (Yale), R.P.F. (Hon.); **Bruce C. Larson**, A.B. (Harv.), M.F.S. (Yale), Ph.D. (Wash.); **Katherine M. Martin**, B.Sc. (P.E.I.), M.Sc. (Alta.), Ph.D. (Qu.); **John A. McLean**, B.Sc., M.Sc. (Auck.), Ph.D. (S.Fraser), F.R.E.S., R.P.Bio; **Cindy E. Prescott**, B.Sc. (Brock), M.Sc., Ph.D. (Calg.); **Kermit Ritland**, B.Sc. (Wash.), Ph.D. (Calif., Davis); **Thomas Sullivan**, B.Sc., M.Sc., Ph.D. (Br.Col.).

Associate Professors

Joerg Bohlmann, B.Sc., M.Sc., Ph.D. (Braunschweig); **Michael C. Feller**, B.Sc., M.Sc. (Melb.), Ph.D. (Br.Col.), R.P.Bio; **Susan Grayston**, B.Sc., Ph.D. (Sheff.); **Steve Mitchell**, B.S.F., Ph.D. (Br.Col.), R.P.F.; **John S. Richardson**, B.Sc. (Tor.), M.Sc. (Alta.), Ph.D. (Br.Col.); **Suzanne Simard**, B.S.F. (Br.Col.), M.S., Ph.D. (Oregon).

Assistant Professors

Sarah Gergel, B.Sc. (Flor.), M.Sc., Ph.D. (Wisc.); **Maja Krzic**, B.Sc., M.Sc. (Belgrade), Ph.D. (Br.Col.).

Lecturer

Susan B. Watts, B.Sc. (N. Wales), M.F., Ph.D. (Br.Col.), R.P.F.

Sessional Instructor

Suzie Lavallee, B.Sc., M.Sc., Ph.D. Candidate (Br.Col.).

Adjunct Professors

Christine A. Bishop, B.Sc. (Guelph), M.Sc. (York), Ph.D. (McM.); **Max Bothwell**, B.A., M.A., (Calif., Santa Barbara), Ph.D. (Wis., Madison); **Charles E. Bulmer**, B.S.F. (Br.Col.), M.Sc. (Oregon), Ph.D. (Br.Col.); **Philip J. Burton**, B.Sc. (Sask.), M.Sc. (Hawaii), Ph.D. (Ill.); **David K. Coates**, B.Sc., M.Sc. (Alta.), Ph.D. (Br.Col.), R.P.F.; **Brad C. Hawkes**, B.S.F. (Br.Col.), M.Sc. (Alta.), Ph.D. (Montana); **Leland Humble**, B.Sc., Ph.D. (Vic.B.C.); **Walt Klenner**, B.Sc., M.Sc. (Manit.), Ph.D. (Br.Col.), R.P.Bio; **Werner A. Kurz**, Diplom Holzwirt (Hamburg), Ph.D. (Br.Col.); **Duncan J. Morrison**, B.S.F., M.Sc. (Br.Col.), Ph.D. (Cantab.); **Reg F. Newman**, B.Sc., B.S.F. (Br.Col.), Ph.D. (Alta.); **Simon Shamoun**, B.Sc. (Iraq), M.Sc. (Raleigh), Ph.D. (Arkansas); **Terrence Shore**, B.Sc. (Br.Col.), Ph.D. (Br.Col.); **Michael Stoehr**, B.Sc., M.Sc. (Lakehead), Ph.D. (Tor.); **Alvin Yanchuk**, B.Sc., M.Sc., Ph.D. (Alta.).

Faculty Associates

Dan, Durall, B.Sc. (Calif.), Ph.D. (Calg.).

DEPARTMENT OF WOOD SCIENCE

Paul McFarlane, Head

Professors

Stavros Avramidis, B.S.F. (Thessaloniki), M.S., Ph.D. (N.Y. State, Syracuse), F.I.W.Sc.; **Colette Breuil**, B.Sc. (Lyon), M.Sc. (Ott.), Ph.D. (Lyon); **David H. Cohen**, Dipl. For. Tech. (Selkirk), B.S. (Idaho), Ph.D. (Virginia); **Philip Evans**, B.Sc. (Hons.), Ph.D. (Wales); **Frank Lam**, B.A.Sc., M.A.Sc., Ph.D. (Br.Col.), F.I.W.Sc., P.Eng; **Shawn Mansfield**, B.Sc. (Mt. All.), M.Sc. (Dal.), Ph.D. (Br.Col.); **Paul McFarlane**, B.Tech. (Hons.), Ph.D. (Massey); **John N. R. Ruddick**, B.Sc., M.Sc. (N'cle., U.K.), Ph.D. (Lond.); **John N. Saddler**, B.Sc. (Edin.), Ph.D. (Glas.).

Associate Professors

Simon C. Ellis, B.Sc. (N. Wales), M.Sc., Ph.D. (Br.Col.), F.I.W.Sc; **John Kadla**, B.Sc. (Br.Col), Ph.D.

(N.Car.); **Robert Kozak**, B.Sc., Ph.D. (Br.Col.); **Helmut Prion**, B.Eng. (Stell.), Ph.D. (Tor.), P. Eng.

Assistant Professors

Gregory Smith, B.A.Sc. (Br.Col.), D.Sc.T. (E.P.F.L., Switzerland); **Taraneh Sowlati**, B.Sc. (Sharif U. Tech.), M.A.Sc. (Tarbiat Modares), Ph.D. (Tor.).

Senior Instructor

Patrick Cramond, B.A.Sc. (Br.Col.).

Instructor

Robert Furst, Instructor.

Adjunct Professors

Rodger Beatson, B.Sc. (Exeter), Ph.D. (Ont.); **Chunping Dai**, B.Sc., M.Sc. (Nanjing Forestry), Ph.D. (Br.Col.); **Christopher Gaston**, B.Sc. (Br.Col.), M.Sc. (Guelph), Ph.D. (Br.Col.); **Paul Morris**, B.Sc., Ph.D. (Lond.); **Luiz Oliveira**, B.Sc., (Mackenzie U., Brazil), M.Sc. (V.A Tech.), Ph.D. (V.A .Tech.).

STUDENT SERVICES

Geoff Anderson, B.Comm. (M.U.N), Co-operative Education Coordinator; **Samantha Berdej**, Recruitment Officer; **Barbara Bremner**, B.A. (Vic., B.C.), Cooperative Education Coordinator; **Lesley Fettes**, B.S.F. (Br.Col.); **Warren Fortier**, B.Sc. (Kam., B.C.); **Chiara Longhi**, B.A., M.A. (Pisa), International Programs and Recruitment Officer; **Candace Parsons**, B.S.F. (Br.Col.), Director of Student Services; **Sandra Schinnerl**, B.Com. (Br.Col.), Associate Director, International Programs.

UNIVERSITY RESEARCH FORESTS

Ken Day, B.Sc.F. (Lake.), M.F. (Br.Col.), R.P.F., Manager, Alex Fraser Research Forest, Williams Lake; **Michael Jull**, B.S.F., M.Sc. (Br. Col.), R.P.F., Manager, Aleza Lake Research Forest, Prince George; **Paul Lawson**, B.S.F., M.B.A. (Br.Col.), R.P.F., Manager, Malcolm Knapp Research Forest, Maple Ridge.

Graduate Studies Website (grad.ubc.ca)

The Faculty of Graduate Studies works in conjunction with departments, schools, and other faculties to coordinate and maintain the quality of all master's and doctoral programs at UBC. Among its functions with respect to graduate students and graduate programs are the following: approving new graduate programs, curriculum changes and graduate-level (500 to 699) courses; determining or verifying the admissibility of students applying for graduate programs; maintaining records of the academic performance of all graduate students; approving requests for transfer between programs, leaves of absence, reinstatements after interruptions of study, extensions after the maximum time-in-program has been exhausted; coordinating scholarships, fellowships and awards for graduate students across the entire University; assuring uniformity of practices and standards for doctoral orals; assisting departments and other units with recruitment of new graduate students; helping individual graduate students who encounter problems during their programs; determining whether graduate students are eligible to graduate. For more information about the role of Graduate Studies and to view the Faculty's policies and procedures manual, visit the Graduate Studies website (grad.ubc.ca).

In addition to the above functions, the Faculty of Graduate Studies is responsible for the Individual Interdisciplinary Studies Graduate Program and a number of other interdisciplinary programs: Genetics, Neuroscience, and

Resource Management and Environmental Studies. Details of these, as well as graduate programs which operate within other faculties, are provided below. The Faculty of Graduate Studies also acts as the administering faculty for the School of Community and Regional Planning, the School of Occupational and Environmental Hygiene, Green College, St. John's College and a number of interdisciplinary centres, institutes, committees and journals. The titles of the degrees are given under the headings in the following pages. Where no degrees are listed under these headings, graduate research leading to a degree may be coordinated by the institutes, centres, or committees described.

ADMISSION

DOCTORAL DEGREES

A student may apply for admission to the degree program by writing directly to the graduate program (grad.ubc.ca/apply/programs) in which the degree is offered. Up-to-date information on admission is available on the Faculty of Graduate Studies website (grad.ubc.ca). Students are normally admitted to study only in fields that are formally authorized by Senate to offer doctoral programs. All applications must be accompanied by an application fee at the time of submission. Consult the Faculty of Graduate Studies website (grad.ubc.ca) for information on current application fees.

The number of candidates that can be accommodated is limited and graduate programs will accept the best qualified students as vacancies occur. Most students begin their program of study at the start of the Winter Session (the beginning of September) but other start dates may be available, depending on the specific program. Limitations on the number of students that can be accommodated require that applicants be selected well before the start date. Students are encouraged to submit applications for admission as early as possible.

Applicants for the Doctor of Philosophy (Ph.D.), Doctor of Musical Arts (D.M.A.) and Doctor of Education (Ed.D.) must have completed one of the following requirements prior to admission:

1) In the case of the Ph.D., a master's degree

(or equivalent) from an approved institution with clear evidence of research ability or potential, or in the case of the D.M.A., a master's degree (or equivalent) from an approved institution with outstanding ability in performance or composition.

- 2) In the case of the Ed.D., a master's degree in Education (or equivalent degree) from an approved institution.
- 3) A bachelor's degree with one year of study in a master's program with 12 credits of first class average, of which nine credits must be at the 500-level or above and at least nine credits must be of first class standing. Also:
 - (a) (for Ph.D.) clear evidence of research ability or potential;
 - (b) (for Ph.D., Elementary Education) first class standing in Teacher Training or a B.Ed.;
 - (c) (for Ed.D.) first class standing and first class standing in such prerequisite work as may have been required, and five years professional experience; or
 - (d) (for D.M.A.) outstanding ability in performance or composition. Transfer directly into a doctoral program is normally accomplished after completion of the first year of study at the master's level and will not be permitted after completion of the second year.
- 4) In exceptional cases, applicants who hold an honours bachelor's degree with an overall average in the 'A' grade range and who demonstrate advanced research ability may be granted direct admission to a doctoral degree program on recommendation of the admitting graduate program and approval of the Dean of the Faculty of Graduate Studies. Students entering directly from a bachelor's degree must, during the first year of study, complete 12 credits with a first class average, of which at least nine credits must be at the 500-level or above and at least nine credits must be of first class standing, to maintain registration as a doctoral student.

International Students

Applications for admission to doctoral programs at UBC are welcomed and encouraged from international students who hold a

credential deemed comparable to a Canadian master's degree and who demonstrate superior academic standing. Specific minimum admission requirements established by the Faculty of Graduate Studies for graduates of different countries may be found on the Graduate Studies Admission website (grad.ubc.ca/apply/how). These are minimum requirements; specific programs may have higher requirements.

ENGLISH LANGUAGE PROFICIENCY REQUIREMENT

Applicants from a university outside Canada in which English is not the primary language of instruction must present evidence of competency to pursue studies in the English language prior to being extended an offer of admission. Minimum acceptable English language proficiency scores for applicants to graduate studies are:

- TOEFL (Test of English as a Foreign Language): minimum score of 550 (paper version); 213 (computer version); 80 (Internet version, effective September 2005)
- IELTS (International English Language Testing Service): minimum overall band score of 6.5 with no other component score less than 6.0
- MELAB (Michigan English Language Assessment Battery): minimum overall score of 81

Graduate programs may set higher English language proficiency scores than those listed above. See the chart *TOEFL and GRE Requirements*, p. 220.

Required Documentation

The following information is required in support of an application to the Faculty of Graduate Studies:

- Graduate Studies Application Form (online or paper form);
- Application fee;
- Three confidential reference reports (must contain original signature and be received in sealed envelopes endorsed by referees);
- Two sets of all official post-secondary academic records in original language and certified translation (if originals cannot be attained by applicant, then attested, certified copies of originals are acceptable). To be considered official, academic records must be received in official university envelopes, sealed and endorsed by the issuing institution
- Evidence of adequate English proficiency where applicable (TOEFL, IELTS, or MELAB are all acceptable); and
- Supplementary information as may be required by admitting graduate program (e.g. GRE, statement of intent, research proposal, etc.).

Admission

Admission to the Ph.D., D.M.A. or Ed.D. program will be in one of the following categories:

- 1) **Unconditional admission.** Granted when the applicant meets all admission requirements and all final official documentation has been received. Applicants who have a bachelor's degree, or its academic equivalent, which does not meet the requirements stated above, but who have had significant formal training and relevant professional experience to offset such deficiencies, may be granted admission on the recommendation of the appropriate graduate program or faculty and approval of the Dean of the Faculty of Graduate Studies.
- 2) **Conditional admission.** Contains condition(s) that must be met before an offer can be considered final. Such conditions may include final documentation showing degree conferred, or submission of academic records from previous institutions. The Letter of Admission stipulates deadline dates as to when the conditions must be met. Failure to comply with a condition will normally result in a student being required to withdraw from the program.

INTERNATIONAL STUDENTS

Students who are not Canadian citizens or permanent residents must apply for a study permit (student visa) to enter Canada. Applications can be made at any Canadian Consulate or High Commission.

MASTER'S DEGREES

A student may apply for admission to a master's degree program by writing directly to the graduate program (grad.ubc.ca/apply/ programs) in which the program is offered. Up-to-date information on admission is available on the Faculty of Graduate Studies website (grad.ubc.ca). Students are admitted to study only in fields that are authorized by Senate to offer master's-level programs. All applications must be accompanied by an application fee at the time of submission. Consult the Faculty of Graduate Studies website for more information. The number of candidates that can be accommodated is limited, and graduate programs with limited facilities will accept the best-qualified students as vacancies occur.

Most students begin their program of study in September, but limitations on the number of students that can be accommodated require that applicants be selected well before this date. Students are encouraged to submit applications for admission as early as possible.

Students with a Baccalaureate Degree from a Canadian or American University or College

Applicants for a master's degree program must hold the academic equivalent of a four-year baccalaureate degree from UBC with:

- A minimum overall average in the 'B+' range (at UBC 76%) in third- and fourth-year courses; or
- Academic standing with at least 12 credits of third- or fourth-year courses in the 'A' grade range (at UBC 80% or higher) in the field of study; or

- Applicants who have a four-year baccalaureate degree or its academic equivalent, which does not meet the requirements stated above, but who have had significant formal training and relevant professional experience to offset such deficiencies, may be granted admission on the recommendation of the appropriate graduate program or faculty and approval of the Dean of the Faculty of Graduate Studies.

These are the minimum requirements for admission to the Faculty of Graduate Studies. Graduate programs may have additional admission requirements. Consult the graduate program listings in the Calendar to confirm the admission requirements for specific degree programs.

International Students

Applications for admission to the Faculty of Graduate Studies are welcomed and encouraged from international students who hold a credential deemed comparable to an approved Canadian four-year baccalaureate degree and who demonstrate superior academic standing. Specific minimum admission requirements established by the Faculty of Graduate Studies for graduates of different countries may be found on the Graduate Studies Admission website (grad.ubc.ca/apply/how). These are minimum requirements; specific programs may have higher requirements.

ENGLISH LANGUAGE PROFICIENCY REQUIREMENT

Applicants from a university outside Canada in which English is not the primary language of instruction must present evidence of competency to pursue studies in the English language prior to being extended an offer of admission. Acceptable English language proficiency tests for applicants to graduate studies are:

- TOEFL (Test of English as a Foreign Language): minimum score of 550 (paper version); 213 (computer version); 80 (Internet version, effective September 2005);
- IELTS (International English Language Testing Service): minimum overall band score of 6.5 with no other component score less than 6.0;
- MELAB (Michigan English Language Assessment Battery): minimum overall score of 81.

Graduate programs may set higher English language proficiency scores than those listed above. See the chart *TOEFL and GRE Requirements*, p. 220.

Required Documentation

The following information is required in support of an application to the Faculty of Graduate Studies:

- Graduate Studies Application (online or paper form);
- Application fee;
- Three confidential reference reports (must contain original signature and be received in sealed envelopes endorsed by referees);

- Two sets of all official post-secondary academic records in original language and certified translation (if originals cannot be attained by applicant, then attested, certified copies of originals are acceptable). To be considered official, academic records must be received in official university envelopes, sealed and endorsed by the issuing institution.
- Evidence of adequate English proficiency where applicable (TOEFL, IELTS, or MELAB are all acceptable); and
- Supplementary information as may be required by admitting graduate program (e.g. GRE, statement of intent, research proposal, etc.).

Admission

Admission to the master's program will be in one of the following categories:

- 1) **Unconditional admission.** Granted when the applicant meets all admission requirements and all final official documentation has been received. Applicants who have a bachelor's degree, or its academic equivalent, which does not meet the requirements stated above, but who have significant formal training and relevant professional experience to offset such deficiencies, may be granted admission on the recommendation of the appropriate graduate program or faculty and approval of the Dean of the Faculty of Graduate Studies.
- 2) **Conditional admission.** Contains condition(s) that must be met before an offer can be considered final. Such conditions may include final documentation showing degree conferred, or submission of academic records from previous institutions. The Letter of Admission stipulates deadline dates as to when the conditions must be met. Failure to comply with a condition will normally result in a student having to withdraw from the program.

On the recommendation of the graduate program, a student with a bachelor's degree who lacks prerequisites for a chosen field of graduate study may be allowed to register as a "qualifying" student for a period of no more than one year. Satisfactory completion of a qualifying term or year does not guarantee admission to a graduate program. Qualifying status is granted to students only at the recommendation of the graduate program. Qualifying students are not considered graduate students.

INTERNATIONAL STUDENTS

Students who are not Canadian citizens or permanent residents must apply for a study permit (student visa) to enter Canada. Applications can be made at any Canadian Consulate or High Commission.

STUDENTS TRANSFERRING TO UBC WITH FACULTY SUPERVISORS

Students who transfer to UBC with newly hired faculty members may choose one of the following:

- Transfer to UBC in order to complete a UBC degree. In this case, students should apply for admission in the usual way by submitting the application form, application fee, transcripts, letters of reference and any other supporting documentation required by the graduate program. It is expected that fees will be assessed as if the years spent by the student at the previous university were paid at UBC for that period. The maximum time to complete the program will be calculated on the same basis. Eligibility for awards will be as if the years spent by the student at the previous university were spent at UBC.

or

- Apply to become a visiting student in order to complete their work and graduate from their original university. Students may spend up to a year at UBC as a visiting graduate student. Credits completed while a visiting student may not subsequently be credited toward completion of a degree at the University of British Columbia.

VISITING STUDENTS

A visiting graduate student is one who is attending UBC to complete course work and/or research toward the requirements of a graduate degree at the home university. To be eligible for admission as a visiting student to UBC, the student must be currently registered in a graduate program with good standing at another recognized university. Normally, students may hold visiting status at UBC for a maximum of 12 months.

Applicants for regular visiting student status (other than those applying under the Western Deans Agreement or the Graduate Exchange Agreement) must submit the following documentation:

- Graduate Studies Application (online or paper form) and the application fee;
- Two sets of official transcripts of the graduate program for which the applicant is currently registered;
- Evidence of English proficiency, where applicable, in the form of an official TOEFL, IELTS or MELAB score; and
- Letter of permission from the home university's registrar or department head confirming that the course work and/or research undertaken at UBC while a visiting student is for the purpose of completing the graduate degree requirements at the home university.

At the recommendation of the graduate program, the Dean of the Faculty of Graduate Studies will issue a formal offer of admission to the visiting student. Visiting students cannot use the Student Service Centre on the web to register; they must be registered in course work

or non-credit activity (if doing research only) by the Faculty of Graduate Studies.

STAFF AS GRADUATE STUDENTS

Staff at the University of British Columbia are permitted to register for degree programs in the Faculty of Graduate Studies provided standard admission requirements are met. See UBC Policies website, Policy #45 (www.university-counsel.ubc.ca/policies/policy45.pdf).

FACULTY AS GRADUATE STUDENTS

Full-time faculty are not normally allowed to register for programs leading to University of British Columbia degrees or diplomas. See UBC Policies website, Policy #46 (www.university-counsel.ubc.ca/policies/policy46.pdf).

AUTHENTICITY OF DOCUMENTS

Every student who applies to the Faculty of Graduate Studies must confirm that all statements made and all documentation submitted in support of their application are true, complete and valid. Students are responsible for the authenticity of the documentation submitted in support of their application for admission to the University of British Columbia.

The Faculty of Graduate Studies reserves the right to return transcripts, degree certificates and/or reference letters to the originator for verification. The Dean of the Faculty of Graduate Studies reserves the right to rescind a letter of admission or to require that a student withdraw if it is determined that a student has submitted falsified documents in support of their application for admission.

TOEFL AND GRE REQUIREMENTS

Note: A new, Internet-based version of the TOEFL is now available. It is intended to replace both the paper and computer versions. Paper or computer test results will still be valid for two years after the date the test is taken. The minimum total score for all applicants to the Faculty of Graduate Studies is 550 for paper-based TOEFL and 213 for computer-based TOEFL.

The minimum total score on the new Internet-based TOEFL for all applicants to the Faculty of Graduate Studies is 80, effective September 2005.

Many graduate programs will require higher minimum total scores, and may require minimum scores on individual components of the test. The chart TOEFL and GRE Requirements on the online version of this Calendar will have updated information on minimum TOEFL scores for individual graduate programs throughout the year.

CLASSIFICATION OF STUDENTS

DOCTORAL STUDENT

Full-time students are expected to engage in their studies on a full-time basis. All doctoral students are considered full-time students and are assessed fees according to Schedule A. (See *Graduate Student Fees*, p. 31, in the “Fees, Financial Assistance and Scholarships” chapter.) Full-time students are eligible for graduate scholarships and fellowships. Normally, teaching assistantships (TAs) and research assistantships (RAs) are limited to full-time students.

Graduate programs may articulate specific limitations regarding concurrent paid employment as consistent with the definition of full-time study. Recipients of teaching assistantships (TAs) must adhere to the TA union's regulations governing number of hours worked while holding a teaching assistantship.

MASTER'S STUDENT

Full-Time Classification

Students classified as full-time are expected to engage in their studies on a full-time basis. Master's students are normally considered full-time and are assessed tuition fees according to Schedule A. Full-time students are eligible for graduate scholarships and fellowships. Normally, teaching assistantships (TAs) and research assistantships (RAs) are limited to full-time students.

Graduate programs may articulate specific limitations regarding concurrent paid employment as consistent with the definition of full-time study. Recipients of Teaching Assistantships (TAs) must adhere to the TA union's regulations governing number of hours worked while holding a Teaching Assistantship.

Part-Time Classification

In some programs, master's students have the option of pursuing the degree through part-time study. The expected academic workload of students classified as part-time is determined by the graduate program. Students classified as part-time are assessed tuition fees according to Schedule B.

Students who wish to be classified as part-time must obtain approval from their graduate program advisor and the Faculty of Graduate Studies prior to the beginning of the first term of the program (i.e., prior to the commencement of the degree program) in which fees are first assessed.

Students classified as part-time are advised that:

- they are not eligible to receive interest-free status government loans, University fellowships or scholarships;
- they are not eligible for teaching assistantships, research assistantships, student housing, or assigned desk space at the University; and
- the five-year maximum time allowed for the master's program also applies to part-time students.

Students who pay tuition fees according to Schedule B are not permitted to revert back to Schedule A after the initial payment of the tuition fees in the first term of the program.

QUALIFYING STUDENT

A student whose academic background entitles him or her to serious consideration for admission to graduate studies but who is considered to be inadequately prepared to enter a graduate program in the specific discipline (e.g., three-year degree holders from other Canadian universities, a student changing from one field of study to another, or a student upgrading academic standing) may be admitted as a qualifying student. Qualifying students are not considered graduate students.

If, at the end of a qualifying term or year, the graduate program and the Faculty of Graduate Studies are satisfied with the calibre of the student's work, the student may apply for admission to a graduate degree program.

Courses taken during a qualifying year or term that are necessary in order to meet the requirements for full admission to Graduate Studies cannot be transferred to a subsequent graduate program. However, other courses may be transferred upon the recommendation of the department and with the approval of the Dean of Graduate Studies.

Qualifying student status is available only to applicants who do not require a study permit to enter Canada.

VISITING GRADUATE STUDENT

A visiting graduate student is one who is attending UBC to complete course work and/or research toward the requirements of a graduate degree at another recognized university. To be eligible for admission as a visiting student to UBC, the student must be currently registered in a graduate program with good standing at the home university. Normally, students may hold visiting status at UBC for a maximum of 12 months. Prior approval of the home university, the UBC graduate program, and the Dean of the Faculty of Graduate Studies is required.

Visiting students, with the exception of those governed by the Western Deans' Agreement, Graduate Exchange Agreement, and other

special agreements, pay tuition fees on a per-credit basis.

Visiting Students under the Western Deans' Agreement

The Western Deans' Agreement provides an automatic tuition fee waiver for visiting students from participating universities. Under the terms of this agreement, graduate students in good standing from UBC can register in any of the universities listed below without paying tuition or student fees. The same is also true for students of other participating institutions who wish to attend classes or conduct research at UBC.

The Western Deans' Agreement is supported by the Universities of: Alberta, Athabasca, Brandon, British Columbia, Calgary, Lethbridge, Manitoba, Northern British Columbia, Regina, Saskatchewan, Simon Fraser, and Victoria.

Visiting Students under the Graduate Exchange Agreement

The Graduate Exchange Agreement allows graduate students in good standing at UBC, McGill University, the University of Toronto, and the University of Montreal to take courses at each other's universities without having to pay tuition fees to the host institution.

Students wishing to apply for visiting student status under either of these special agreements should consult the Graduate Studies website (grad.ubc.ca/policy/) for more information.

Other Exchange Agreements

Graduate programs may have exchange agreements with similar programs at other institutions. Students should consult their Graduate Advisor or UBC's *Go Global Student Mobility programs office*, p. 62, for more information.

ON-LEAVE STATUS

Students who find it necessary to interrupt their graduate studies may apply to the Dean of the Faculty of Graduate Studies for on-leave status. Leave is granted when a student is best advised for personal, health or other reasons to have time completely away from his/her academic responsibilities. Leave, not including parental leave or leave to pursue concurrent programs, for master's or doctoral students is limited to one year. A leave will normally begin on the first day of a term, for a period of four, eight or twelve months. Students granted leave-of-absence or parental leave retain the full value of any University graduate fellowship or other award whose terms and conditions are established by the Faculty of Graduate Studies. Awards will be suspended at the onset of the leave, and reinstated at the termination of the leave period, provided the student returns to full-time study at that time. Other awards will be paid according to the conditions established by the donor or granting agency. Leaves of absence must be approved by the student's home graduate program. Requests for leaves for medical reasons must be accompanied by a doctor's note recommending the leave.

It is understood that students with on-leave status will not undertake any academic or research work, or use any of the University's facilities during the period of leave. Students must inform the University immediately upon return.

The time spent on-leave is not counted as part of the allowed time to completion for the degree. On-leave students continue to be registered and must pay a reduced fee for the leave period.

Parental Leave

A graduate student who is bearing a child or who has primary responsibility for the care of an infant or young child is eligible for parental leave. A request for parental leave should be made through the student's graduate program for a minimum leave of four months to a maximum of 12 months. Where possible, students enrolled in course work should coordinate their leave to coincide with the beginning of an academic term.

Leave to pursue a second program of study

Following academic consultation, graduate students may apply for leave of absence from one program to pursue a second program of study. In this case, the student is responsible for both on-leave tuition fees as well as the tuition fees associated with the second program. A leave of absence for these reasons may exceed one year. Time to completion of the first degree program would be extended by the span of time on the leave of absence.

ACADEMIC REGULATIONS

PROGRAM OF STUDY

Doctoral Students

All doctoral students admitted to the Faculty of Graduate Studies must register when they begin their studies. Students must remain continuously registered until the degree is completed, except for periods of time for which the student is away on an approved leave of absence. Failure to register for two consecutive terms may result in the student being required to withdraw.

Each doctoral student is supervised by a committee of not less than three faculty members, which may include faculty members from graduate programs other than the student's home graduate program. With the approval of the Dean of the Faculty of Graduate Studies, the committee may also include qualified persons who are not faculty members. The supervisory committee is responsible for guiding the student in planning research and preparing the thesis.

In some graduate programs, the student is responsible for securing the chair of the supervisory committee; in others, the department will assign the chair. Students should consult with their graduate program advisor in this respect. Changes may be made to the student's committee with the approval of his or her home department. Students who are unable to secure a chair should ask either the graduate program

advisor or the department head for assistance. In very exceptional circumstances, the head may ask the Dean of the Faculty of Graduate Studies to appoint a chair. In some instances and for a brief period of time only, a student may be assigned an interim committee until such time as a more permanent committee can be established.

Upon registration, the doctoral student will consult with his or her supervisor(s) to develop a program of study, subject to the approval of the home program. The program of study will consist of seminars, directed readings, consultations and such formal courses as may be deemed essential for the fulfilment of the requirements for the degree. Some graduate programs require competence in languages other than English. The graduate program in which the student intends to write the thesis shall determine the number of such languages and a satisfactory level of competence. A major part of the doctoral student's work will consist of a thesis embodying the results of original research.

Changes in the program of study may be required during the period of study. These changes must be reviewed and approved by the student's supervisory committee and the home graduate program.

Note: courses listed in the Calendar may not all be offered annually. Students should apply to the department concerned for detailed information about course offerings in any given year.

TRANSFER CREDIT

Doctoral students are not normally eligible for transfer credit. In doctoral programs where there is a prescribed amount of course work, students may be eligible for course exemptions on the basis of previous courses taken.

Master's Degree Students

All master's degree students admitted to the Faculty of Graduate Studies must register when they begin their studies. Students must remain continuously registered until the degree is completed, except for periods of time for which the student is away on an approved leave of absence. Failure to register for two consecutive terms may result in the student being required to withdraw.

Each student's program of study must be approved by the home graduate program.

Some graduate programs require competence in languages other than English. The graduate program in which the student intends to write the thesis shall determine the number of such languages and a satisfactory level of competence.

Faculty of Graduate Studies regulations for master's degrees provide for full- or part-time studies, as well as for programs with thesis and programs without thesis. The choice of these options lies with the individual graduate program and student. Graduate programs are also free to prescribe work beyond the minimum requirements described below. Students should contact graduate programs directly for more information on program options.

PROGRAM REQUIREMENTS (THESIS AND NON-THESIS PROGRAMS)

The minimum course requirements are 30 course credits, of which at least 24 must be numbered 500 to 699. A maximum of 6 credits at the undergraduate level in courses numbered 300 to 499 may be counted toward the requirements of a master's degree. A comprehensive examination in the form of a final written and/or oral examination is at the discretion of the graduate program.

In specific programs, minimum requirements may be higher than 30 course credits. Students should consult the graduate program listing in the Calendar for more information.

Note: courses listed in the Calendar under graduate programs may not all be offered annually. Students should consult the graduate program listing in the Calendar for more information.

TRANSFER CREDIT

- 1) Students registered in a master's program may be permitted to take up to 12 credits or up to 40% of the total number of credits needed for degree completion (whichever is more) at another university to be counted toward a University of British Columbia graduate degree. These credits cannot have been counted toward the completion of another credential, nor have been used to upgrade an applicant's academic standing to justify admission. Only courses in which at least a 'B' standing (UBC 74%) is obtained will be considered for transfer.
- 2) Undergraduate students who have maintained an overall 'B+' (76%) average in their completed third- and fourth-year courses, and who have completed at least 75% of the third- and fourth-year requirements for their undergraduate degree, may be eligible to register in graduate courses. Upon admission to the Faculty of Graduate Studies, these credits, to a maximum of 12 credits or 40% of the total number of credits needed for degree completion (whichever is more), may be applied towards a graduate degree.
- 3) The 12-credit (40%) restriction does not apply to students in UBC approved Exchange Agreements established by the UBC Go Global Office.
- 4) Requests for transfer credit must be accompanied by a letter from the home graduate program addressed to the Dean of the Faculty of Graduate Studies. The letter must provide an academic justification for allowing the transfer credit on a course by course basis.

EXEMPTIONS

Students may be exempted from specific course requirements if the graduate program is satisfied that the student has acquired the knowledge from courses previously taken or from experience. Exemptions do not reduce the total credits required for a degree. In such cases, the graduate program should substitute a more appropriate course. The exemption from the specific requirement must be recorded on the student's academic record.

ACADEMIC PROGRESS

Doctoral Students

The progress of all students working toward the Ph.D., D.M.A. and Ed.D. will be reviewed regularly and at least once each year in June by the home graduate program and the Dean of the Faculty of Graduate Studies. A student may be required to withdraw if progress has not been satisfactory as shown by course work, the comprehensive examination, advancing to candidacy, progress on the thesis, or other requirements of the graduate program or the faculty.

DEFINITION OF SATISFACTORY PROGRESS

A minimum of 68% (B-) must be achieved in all course work taken for credit. Where a grade of less than 68% (B-) is obtained in a course, and on the recommendation of the graduate program and the approval of the Dean of the Faculty of Graduate Studies, the student may repeat the course for higher standing or take an alternate course. If the graduate program advisor does not make such a recommendation, or if the recommendation is not approved by the Dean of the Faculty of Graduate Studies, the student will be required to withdraw. A student who obtains a grade of less than 68% in more than one course will normally be required to withdraw. If progress in research is unsatisfactory, a student will be required to withdraw. **The student will be informed of unsatisfactory academic progress in writing before any action regarding withdrawal (grad.ubc.ca/forms/?formID=FST) is taken.**

A minimum mark of 68% must be obtained in all courses taken as part of a qualifying year for a doctoral program. When repeating a failed required course, a minimum mark of 74% must be obtained. Higher minimum marks may be required by the graduate program or the Faculty of Graduate Studies.

If a course is repeated, both marks will appear on the transcript. The higher mark will be used to determine promotion in a program and in any decision to admit or withdraw a student from a program. For all other purposes, averages will be calculated using both marks.

It is required that all doctoral students be admitted to candidacy within 36 months from the date of initial registration. A student who is not admitted to candidacy within this time period will be required to withdraw from the program. Extensions may be granted under exceptional circumstances and with the permission of the Dean of the Faculty of Graduate Studies.

Master's Students

The progress of all students working toward the master's degree will be reviewed regularly and at least once each year in June by the home graduate program and the Dean of the Faculty of Graduate Studies. A candidate may be required to withdraw if progress has not been satisfactory as shown by course work, the comprehensive examination, progress on the

thesis, or other requirements of the graduate program or the faculty.

DEFINITION OF SATISFACTORY PROGRESS

A minimum of 60% must be obtained in any course taken by a student enrolled in a master's program for the student to be granted pass standing. However, only 6 credits of pass standing may be counted towards a master's program. For all other courses, a minimum of 68% must be obtained.

On the recommendation of the graduate program and the approval of the Dean of the Faculty of Graduate Studies, the student may repeat a course for higher standing or take an alternate course. If the graduate program does not make such a recommendation, or if the recommendation is not approved by the Dean of the Faculty of Graduate Studies, the student will be required to withdraw. A student who obtains a grade of less than 68% in an excessive number of courses will normally be required to withdraw. **The student will be informed of unsatisfactory academic progress in writing before any action regarding withdrawal is taken.**

A minimum mark of 68% must be obtained in all courses taken as part of a qualifying year. When repeating a failed required course, a minimum mark of 74% must be obtained. Higher minimum grades may be required.

If a course is repeated, both marks will appear on the transcript. The higher mark will be used to determine promotion in a program and in any decision to admit or withdraw a student from a program. For all other purposes, averages will be calculated using both marks.

DURATION OF PROGRAM

Doctoral Students

Students admitted to a doctoral program will normally be expected to spend the equivalent of at least two consecutive years of full-time study at the University. With the approval of the Dean of the Faculty of Graduate Studies, graduate programs may make different regulations concerning duration of study, sequence of study and location of full-time study.

Students must maintain continuous registration throughout all years until graduation by keeping up with tuition fee payments.

If the degree is not awarded within a period of six years from initial registration, the student's eligibility for the degree will be terminated and the student will be required to withdraw from the program. Under exceptional circumstances, extensions may be granted by the Dean of the Faculty of Graduate Studies.

Students who, for health or personal reasons including childbirth and having primary responsibility for the care of a child, must interrupt their studies should apply for a leave. See *On-Leave Status*, p. 223, under Classification of Students. The period of leave is not counted toward time to completion.

Master's Students

Students in a master's program are expected to spend the equivalent of at least one year in full-time study. Some programs may be of longer minimum duration. Students must maintain continuous registration throughout all years until graduation by keeping up with fee payments.

If a degree is not awarded within a period of five years from initial registration, the student's eligibility for the degree will be terminated and the student will be required to withdraw from the program. Under exceptional circumstances, extensions may be granted by the Dean of the Faculty of Graduate Studies. This restriction applies equally to full-time and part-time students.

Students who, for health or personal reasons including childbirth and having primary responsibility for the care of a child, must interrupt their studies should apply for a leave. See *On-Leave Status*, p. 223, under Classification of Students. The period of leave is not counted toward time to completion.

EXAMINATIONS AND THESIS

Doctoral Students

The doctoral student will take the following examinations:

- 1) Course examinations where applicable; a minimum of 68% must be obtained unless otherwise specified;
- 2) Tests of the student's ability to read languages other than English where program regulations require it;
- 3) A comprehensive examination normally held after completion of all required coursework and intended to test the student's grasp of the chosen field of study as a whole, and the student's ability to communicate his or her understanding of it in English or in French. The candidate's committee will set and judge this examination in a manner compatible with the policy of the graduate program concerned. Programs should make available to students a written statement of examination policy and procedures. The comprehensive examination is separate and distinct from the evaluation of the thesis prospectus;
- 4) A graduate program may require a formal examination of the thesis before it is transmitted to the Faculty of Graduate Studies for final oral examination.

Students should consult their respective graduate program advisors for information about program requirements.

All doctoral candidates are required to complete a thesis. A candidate's thesis must be presented according to procedures described at Master's and Doctoral Thesis Submission (grad.ubc.ca/students/thesis). Students should refer to the current year's Calendar or check the Faculty of Graduate Studies website (grad.ubc.ca) for information regarding deadlines for submission of doctoral theses.

All doctoral students will take a final oral examination or thesis defence:

- 1) All doctoral theses must be assessed by an examiner external to the University, as well as by internal examiners. The external examiner is chosen by the Dean of the Faculty of Graduate Studies in consultation with the graduate program concerned. Procedures for choosing a suitable external examiner must be initiated at least three months before completion of the thesis. The external examiner's written report must be received before the final examination can take place.
- 2) Final oral examinations can be scheduled no sooner than eight weeks after submission of the approved thesis to the Faculty of Graduate Studies. All other degree requirements must also have been completed.
- 3) The final oral examination is open to all members of the University and to the public. Notice of the examination will be available on the Faculty of Graduate Studies website (grad.ubc.ca).
- 4) The Dean of the Faculty of Graduate Studies must approve the membership of the examining committee. The Dean or the Dean's designate chairs the examination. The examining committee judges the candidate's success and makes a recommendation to the Dean of the Faculty of Graduate Studies.

More information on oral examination procedures is available on the Faculty of Graduate Studies website (grad.ubc.ca/students/oralexams). Students registered in a doctoral program are not permitted supplemental examinations.

Master's Students

There is no general requirement for a comprehensive examination at the master's level. Graduate programs may, at their own discretion, require a comprehensive examination in the student's field of study as part of the degree requirements.

Where a comprehensive examination is required, programs must make available to students a written statement of examination procedures such as the purpose, form, length, subject area(s) and scope of the examination, as well as information on the criteria for evaluation.

In the creative and performing arts, a thesis may consist of creative work (e.g., paintings, writing) or of a performance. Programs may, at their discretion, require additional supporting documentation.

In programs requiring a thesis, the thesis must be presented according to procedures described at Thesis Submission (grad.ubc.ca/students/thesis).

WITHDRAWAL, REINSTATEMENT AND READMISSION

Students will normally be required to withdraw if they do not make adequate academic progress according to the timelines and policies set by their home graduate program and/or the Faculty of Graduate Studies. When a student is

required to withdraw, the academic record will indicate “required to withdraw.”

A student in any graduate program who is required to withdraw will not normally be eligible to apply for readmission to the University of British Columbia for at least one year. After one year, students who have been required to withdraw from a graduate program may be admitted to a different program in the Faculty of Graduate Studies provided they meet all admission requirements in effect for that program at the time they apply. Such applications must be accompanied by a statement from the graduate program which recommended withdrawal outlining the reasons for which the student was required to withdraw. Students who have been required to withdraw from a graduate program may also apply to be readmitted to the same program after at least one year has passed from the effective date of withdrawal. Compelling evidence must be presented that a more successful outcome is likely if the student is to be readmitted. All cases for readmission must be reviewed and approved by the Dean of Graduate Studies. Students required to withdraw from a graduate program more than once are not eligible to be considered for admission to any program in the Faculty of Graduate Studies.

A student wishing voluntarily to withdraw from the University must obtain the approval of the dean, director or department head, and the graduate advisor in the home graduate program on the *Change of Registration* form. When the withdrawal is approved, the academic record will indicate “voluntary withdrawal,” the date of withdrawal and a standing of ‘W’ in all courses not completed on that date.

If withdrawal is not approved, the student will remain registered in all courses and a final grade and/or standing will be assigned at the end of the term or session. A student who fails to register and/or becomes absent without leave from their program for two or more consecutive terms will normally be withdrawn from the program. The academic record will indicate “withdrawal—did not register.” Graduate programs must document that an attempt was made to contact a missing student when recommending a withdrawal for non-registration.

A student who does not complete formal withdrawal procedures will be liable for all assessed fees until such procedures are completed.

Request to Withdraw for Non-Academic Reasons

The Faculty of Graduate Studies reserves the right to require a student to withdraw from a program of study if the Faculty, in consultation with the graduate program, considers the student to be unsuited to proceed with the study or practice of the chosen discipline or field of study. Request to withdraw for non-academic reasons would not prevent the student from immediately applying for entry into a different program of study.

Reinstatement

This applies when a student’s registration has lapsed but the student is permitted to resume

the program. Normally, if the student is reinstated, courses that have been completed will be credited to the degree, and only outstanding degree requirements must be completed. The student’s start date remains the date of initial entry to the program and the time limit for completion of the degree is not affected.

A student may be reinstated on the recommendation of the graduate program if:

- The student is in good academic standing.
- Any delinquent fees or charges are paid including tuition and continuing fees owing for the period during which the student did not register.
- The time limit for degree completion, including the sessions in which the student was not registered, has not expired.

Sometimes, even if the student is reinstated, he or she does not have enough time left to complete the outstanding degree requirements. A decision, based on the academic merits of the case, will determine whether the student should be readmitted as a new student or reinstated. In the latter case, an extension of the time limit may be requested. In addition, if more than two years have elapsed since the student last registered, the Faculty of Graduate Studies may impose additional requirements to ensure that the student is current in the field and is academically prepared to complete the degree requirements.

A student who is required to withdraw for academic reasons is not eligible for reinstatement.

Readmission

This applies when it is appropriate to admit a student who was previously registered, as if for the first time. An application for admission, whether to the same or a different program, will be evaluated as a new application. A new application form and application fee must be submitted.

A maximum of 12 credits or up to 40% of the total number of degree credits of previously completed course work may be applied toward the new degree program requirements, provided the courses were completed no longer than five years from the date of readmission. Courses eligible for transfer must have been awarded a grade of at least ‘B’ (74%). Normal program requirements apply, as does the standard time allowed for degree completion: five years for a master’s student; six years for a doctoral student.

Readmitted doctoral students are not eligible for a Ph.D. Tuition Fee Award.

ACADEMIC RECORD

Transcript of Academic Record

The transcript is a student’s official academic record and includes the student’s complete record at the University of British Columbia. Student records and transcripts are confidential and transcripts will be issued only at the request of the student or appropriate agencies or officials.

Apply for a transcript online (www.students.ubc.ca/ssc) or in person at Brock Hall. Please allow at least one week from the date the application is made. Transcripts will not be issued to students who have any outstanding fees, including library and other charges, to the University. Fees for transcripts are payable in advance; transcripts will not be provided until payment is received.

Students are encouraged to order transcripts as early as possible. Transcripts may be requested up to six months in advance of a due date.

Retention of Student Records

UBC academic records, including all information appearing on a Transcript of Academic Record, are retained indefinitely. Notations of student discipline are retained according to the terms of the penalty imposed. Materials supporting applications for admission, correspondence and transcripts from other institutions and similar material may be destroyed five years after a student’s last registration, except for doctoral students, where materials may be destroyed after two years from the date of graduation. Other material may be destroyed sooner.

Students who submit irreplaceable material may request the return of that material. Such requests must be submitted with the original material. The office to which the material is submitted will return the material as soon as possible, and not later than six months after the student’s graduation or last registration.

Senate Appeals on Academic Standing

Students may protest decisions relating to their academic standing. Students should protest a decision first with the faculty member directly involved in the decision and then, if necessary, with the department head, the dean of the faculty involved, and finally with the Dean of the Faculty of Graduate Studies.

The Committee on Appeals on Academic Standing is a standing committee of the University Senate, which is the senior academic authority in the University. Information on the policies and procedures of this committee can be found in the Calendar (see *Senate Appeals on Academic Standing*, p. 51, in the chapter Academic Regulations).

Student Discipline

The President of the University has the right under the *University Act* (section 61) to take whatever disciplinary action is deemed to be warranted by a student’s misconduct. The specific provisions as to Offences, Penalties and Procedures are in the Calendar (see *Student Discipline*, p. 52, in the chapter Academic Regulations).

AWARDS AND SCHOLARSHIPS

The University offers a wide range of programs to recognize students with high academic achievement and to provide financial assistance to those who cannot meet basic education costs. Academic merit-based awards for graduate study (grad.ubc.ca/awards) are administered by the Dean's Office, Faculty of Graduate Studies. Financial need-based awards are administered by Student Financial Assistance & Awards (www.students.ubc.ca/finance), The University of British Columbia, 1036-1874 East Mall, Vancouver, BC, Canada, V6T 1Z1; telephone 604-822-5111.

Financial support for graduate students usually comes from the following sources:

- Merit-based awards, scholarships and fellowships administered by the Faculty of Graduate Studies, including University Graduate Fellowships, Izaak Walton Killam Predoctoral Fellowships, endowed awards and annual donors.
- External funding agencies including Natural Science and Engineering Research Council (NSERC), Social Science and Humanities Research Council (SSHRC), the Canadian Institutes of Health Research (CIHR), the Michael Smith Foundation for Health Research, and others.
- Ph.D. Tuition Fee Award administered by the Faculty of Graduate Studies.
- International Partial Tuition Scholarships administered by the Faculty of Graduate Studies.
- UBC teaching and research assistantships administered by individual graduate programs.
- Need-based awards and financial assistance including loans, bursaries, work/study program and emergency assistance.

MERIT-BASED AWARDS

University Graduate Fellowships (UGF)

The Faculty of Graduate Studies administers an annual competition that provides approximately 300 graduate fellowships to students who are engaged in full-time study or research leading to a graduate degree. The funds for these awards are made available from the University budget.

Awards are made on the basis of merit, and are open to any graduate student regardless of citizenship or visa status. The value of these awards is reviewed annually. Each award covers a twelve-month period beginning September 1, and is offered for either one or two years.

Awards are made on the basis of nominations provided by graduate programs to the Faculty of Graduate Studies. Students must contact their graduate programs for deadline dates. Recipients are notified in late April. Only current UBC graduate students are eligible for nomination.

Izaak Walton Killam Predoctoral Fellowships

The Izaak Walton Killam Predoctoral Fellowships are the most prestigious awards available to graduate students at UBC. The awards are funded from an endowment to the University from the I.W. Killam Trust. Awards are made each year to the top doctoral candidates in the University Graduate Fellowship (UGF) competition. The value of the awards is reviewed annually. No special application is required since all UGF nominations are automatically considered for Killam Predoctoral Fellowships.

Endowed Awards

There are several endowed awards that are adjudicated as part of the University Graduate Fellowship (UGF) competition. These include several fellowships with a stipend equivalent to that of a UGF. There are some restrictions with respect to field of study as specified by the donor. Students wishing to be considered for these affiliated awards should indicate those awards for which they are eligible on their UGF Application Form. Detailed descriptions of these awards are available on the Awards, Fees and Finances website (www.students.ubc.ca/finance). For application procedures students should consult their graduate programs.

University Awards

There are a limited number of awards available to graduate students in specific fields of study. These awards are provided by external donors. Details can be found at the Awards, Fees and Finances website (www.students.ubc.ca/finance). Awards are normally made on the recommendation of graduate programs. Nominations for these awards are normally submitted to the Faculty of Graduate Studies prior to June 15 for distribution in the upcoming academic year.

Graduate Entrance Scholarships

Graduate Entrance Scholarships are offered by graduate programs to the best and brightest incoming master's and doctoral students for full-time graduate study or research at UBC. Inquiries about this scholarship should be addressed to the graduate program advisor.

Deferral of Awards

University Graduate Fellowship (UGF) awards can be deferred within the academic year (i.e., students can take up their awards in September or January) but cannot be deferred to the following academic year. Students who are unable to access their UGF award within the academic year must re-apply to the UGF competition.

AWARDS FROM EXTERNAL FUNDING AGENCIES

Natural Sciences and Engineering Research Council (NSERC)

NSERC administers Canada-wide scholarship competitions for graduate students. The competitions are open only to Canadian

citizens or permanent residents. Awards are made on the basis of academic excellence.

Students should discuss eligibility and application procedures with their graduate program. The deadline for submission of NSERC scholarship nominations by graduate programs to the Faculty of Graduate Studies is early October. Files are reviewed by a University-wide committee that selects UBC's quota of ranked nominations. These nominations are forwarded to NSERC in time to meet the late November national deadline. Competition results are announced in April. For more information visit the NSERC website (www.nserc.gc.ca).

Social Sciences and Humanities Research Council (SSHRC)

SSHRC administers a national competition for doctoral and master's students in the social sciences and humanities. The Faculty of Graduate Studies solicits nominations for SSHRC doctoral and master's fellowships from graduate programs in early October. Files are reviewed and ranked by a University-wide committee. In accordance with quotas established by SSHRC, UBC sends lists of the highest-ranking candidates to the Council in January. SSHRC competition results are announced in April. For more information visit the SSHRC website (www.sshrc.ca/web/home_e.asp).

Canadian Institutes of Health Research (CIHR)

CIHR administers Canada-wide scholarship competitions for graduate students. The Faculty of Graduate Studies solicits nominations for CIHR master's awards from graduate programs in early October. The competitions are open only to Canadian citizens or permanent residents. Awards are made on the basis of academic excellence. The value of the awards is reviewed annually. For more information visit the CIHR website (www.cihr-irsc.gc.ca/).

Michael Smith Foundation for Health Research

The Michael Smith Foundation for Health Research was established in March 2001 with the mandate to provide leadership and to implement core funding programs to build BC's capacity for excellence in health research. To improve BC's ability to attract, support and retain outstanding health researchers and trainees, the Foundation provides awards to support researchers' development from trainee through to the scholar, senior scholar and distinguished scholar levels.

Fellowship guides and application forms for the national research council awards are available from their websites early in the Winter Session. Information about all research awards administered by the Faculty of Graduate Studies can be found on the Graduate Studies website (grad.ubc.ca/awards).

The Bridge Program

The Program provides fellowship funding, and brings together graduate students, post-doctoral fellows, faculty members, visiting

scholars, and practitioners from the public health sciences, engineering, and policy arenas in an innovative milieu that:

The Bridge Program is a graduate research training program whose goal is to develop creative evidence-based primary prevention strategies to solve the complex public, environmental and occupational health problems facing Canadians.

- promotes the application of their combined knowledge and methodologies to the identification and prevention of disease and injury;
- promotes practice-relevant research and evidence-based practice; and
- cultivates interchange and the development of productive partnerships.

The Bridge Program is a scholarship-funding program, **not a degree-granting program**. Its academic requirements sit as a superstructure over existing master's and doctoral programs in the following nine participating units in UBC's Faculties of Medicine, Graduate Studies, and Applied Science:

- Dept. of Health Care and Epidemiology
- School of Occupational and Environmental Hygiene
- Institute for Resources, Environment and Sustainability
- Institute for Health Promotion Research
- Dept. of Civil Engineering
- Dept. of Chemical and Biological Engineering
- Dept. of Mechanical Engineering
- Dept. of Mining Engineering
- UBC Centre for Disease Control

Admitted M.Sc. and Ph.D. students receive fellowships and must fulfill the academic requirements of their underlying degree program and of the Bridge Program. For more information, visit the Bridge Program website (www.bridge.ubc.ca).

ADMISSION

After graduate students are accepted for admission to a graduate degree program in one of the nine participating academic units (see above), their applications will be screened by the Bridge Admissions Committee. Admission will be based on excellence as demonstrated by academic standing, the candidate's letter of interest and goals, and potential for integration of the Bridge themes. The committee will attempt to ensure there is equal representation of the core areas among entering students.

For detailed admissions information, please see the Bridge Program website (www.bridge.ubc.ca).

PH.D. TUITION AWARD

Effective September 2003, all Ph.D. and D.M.A. students in the first four years of their doctoral programs are eligible for a Ph.D. Tuition Fee Award, except in cases when Ph.D. tuition fees are directly billed to a third party. The Ph.D. Tuition Fee Award is equivalent to the tuition fee assessment.

INTERNATIONAL PARTIAL TUITION SCHOLARSHIPS

International graduate students are eligible for an International Partial Tuition Scholarship of up to \$3,488.00, which is applied to assist with their tuition fees if they are registered full-time in master's programs or in fifth or later years of doctoral programs that assess tuition fees of \$7,200.00 per year. Students in the following master's programs in the Faculty of Education are eligible for the following amounts: Master of Arts in Education, \$1,893.00, Master of Education \$1,893.00, and Master of Human Kinetics \$2,992.00. Students are eligible as long as they are not recipients of external scholarships or external funding that pays their tuition. Some graduate programs may offer additional money toward the International Partial Tuition Scholarship. More information is available from graduate program offices and in the chapter *Fees, Financial Support, and Scholarships*, p. 39.

International students in eligible programs are automatically considered for this scholarship by the Faculty of Graduate Studies in August of each year and do not need to apply.

TEACHING AND RESEARCH ASSISTANTSHIPS

Student service appointments are intended to help qualified graduate students meet the cost of their studies at the University. Student appointments may involve part-time duties in teaching, research or other academic activities. Normally, only those students registered full-time in the Faculty of Graduate Studies are eligible. Appointments offered to students prior to their admission to the Faculty are contingent upon admission.

Teaching Assistantships (TAs)

Most graduate programs have a limited number of TAs available for registered full-time graduate students. Full teaching assistantships involve 12 hours work per week in preparation, lecturing or laboratory instruction although many graduate programs offer partial TA appointments at less than 12 hours per week. Teaching assistantship rates are set by collective bargaining between the University and the teaching assistants Union, a local of the Canadian Union of Public Employees.

Since 1996/97, ten Teaching Prizes that include a Certificate and \$1,000.00 are offered to UBC teaching assistants.

Research Assistantships (RAs)

Many professors are able to provide RAs from their research grants to support full-time graduate students under their supervision. The duties constitute part of the student's graduate degree requirements. Research assistantships are coordinated and administered at the program level. Stipends vary widely and are dependent on the field of study and the type of research grant from which the assistantship is being funded.

The entire stipend of a research assistantship is considered a scholarship, the conditions of

which may be specified by the granting agency. For tax purposes, the stipend is considered an award rather than payment for work. Appointments may be for any specified period satisfactory to the grantee, and conditions of appointment may be specified by the granting agency. A research assistantship is a form of financial support for a period of graduate study and is therefore not covered by a collective agreement.

Note: Research assistantships are less common in the humanities and social sciences.

NEED-BASED AWARDS FOR GRADUATE STUDENTS

Need-based awards are administered by Student Financial Assistance & Awards, The University of British Columbia, 1036-1874 East Mall, Vancouver, BC, Canada, V6T 1Z1. For more information, telephone 604-822-5111 or visit the Awards, Fees and Finances website (www.students.ubc.ca/finance).

DEGREES OFFERED

Doctor of Education	Ed.D.
Doctor of Musical Arts	D.M.A.
Doctor of Philosophy	Ph.D.
Doctor of Medicine with Doctor of Philosophy	M.D./Ph.D.
Master of Advanced Studies in Architecture	M.A.S.A.
Master of Advanced Studies in Landscape Architecture	M.A.S.L.A.
Master of Applied Science	M.A.Sc.
Master of Architecture	M.Arch.
Master of Archival Studies	M.A.S.
Master of Archival Studies with Master of Library and Information Studies	M.A.S./M.L.I.S.
Master of Arts	M.A.
Master of Arts in Asia Pacific Policy Studies	M.A.P.P.S.
Master of Arts in Planning	M.A.P.
Master of Education	M.Ed.
Master of Educational Technology	M.E.T.
Master of Fine Arts	M.F.A.
Master of Forestry	M.F.
Master of Health Administration	M.H.A.
Master of Health Science	M.H.Sc.
Master of Human Kinetics	M.H.K.
Master of Journalism	M.J.
Master of Jurisprudence in Common Law	M.Jur.
Master of Landscape Architecture	M.L.A.
Master of Laws	LL.M.
Master of Library and Information Studies	M.L.I.S.
Master of Music	M.Mus.
Master of Occupational Therapy	M.O.T.
Master of Physical Therapy	M.P.T.
Master of Rehabilitation Science	M.R.Sc.
Master of Science	M.Sc.
Master of Science in Business Administration	M.Sc.B.

Master of Science in Nursing	M.S.N.
Master of Science in Planning	M.Sc.P.
Master of Social Work	M.S.W.
Master of Software Systems	M.S.S.

DEGREE PROGRAMS

UBC's Faculty of Graduate Studies is one of Canada's largest graduate communities with more than 7,000 students working towards 36 graduate degrees in 132 different fields of study.

ADULT EDUCATION

Degrees Offered: M.A., M.Ed.

Members

PROFESSORS

R. Boshier, D. Pratt, K. Rubenson, T. Sork.

ASSOCIATE PROFESSORS

L. Andres, S. Butterwick, P. Walter

ASSISTANT PROFESSORS

A. Metcalfe, J. Chan-Tiberghien.

Program Overview

The mission of the Adult Education graduate program at UBC is to contribute to the creation, elaboration, exchange and application of knowledge concerning the education and learning of adults wherever they occur. This includes the development of scholars and reflective practitioners who will shape society and its institutions in ways that promote lifelong education and learning for all.

All on-campus master's students take a "core" of 12 credits of adult education courses. These are supplemented with electives that allow students to go deeper into the study of adult education or to explore topics and issues addressed elsewhere in the department and the university that have implications for adult education.

Students wishing to pursue doctoral studies in the field of adult education should apply to the Doctor of Philosophy program in *Educational Studies*, p. 246, or the Doctor of Education program in *Educational Leadership and Policy*, p. 246.

Degree Requirements

MASTER OF ARTS

The M.A. is a research-oriented program for students who wish to develop skills as researchers or who may go on to doctoral-level study. It is a 30-credit program with required and elective courses and a six-credit thesis. Detailed information about course requirements for the M.A. are available online (www.edst.educ.ubc.ca/programs/adult_ed).

MASTER OF EDUCATION

The M.Ed. program is considered a professional degree for people who wish to work as practitioners in any adult education setting, most often as instructors, program planners, consultants or administrators. It is a 30-credit program with required and elective courses and a three-credit graduating paper. Detailed information about course requirements for

the M.Ed. are available online (www.edst.educ.ubc.ca/programs/adult_ed).

ADULT LEARNING AND GLOBAL CHANGE

Degree Offered: M.Ed.

Members

PROFESSORS

R. Boshier, D. Pratt, K. Rubenson, T. Sork.

ASSOCIATE PROFESSORS

L. Andres, S. Butterwick.

ASSISTANT PROFESSORS

J. Chan-Tiberghien, P. Walter.

Program Overview

UBC, in cooperation with partner universities in Australia (University of Technology, Sydney), South Africa (University of the Western Cape) and Sweden (Linköping University), offers an innovative online, coursework-only, professional graduate program in Adult Learning and Global Change. Instructors in required courses are drawn from these four universities, so students benefit from a truly international instructional staff.

This program is for those seeking multiple, critical perspectives on the central role adult learning plays as individuals and communities engage with the positive and negative effects of globalization. The program attracts those interested in international development work, cross-cultural education and training, the role of education in addressing various global health and environmental issues, promoting social justice in the face of economic globalization, and learning more about adult education around the world.

Degree Requirements

MASTER OF EDUCATION

Students proceed through the two-year, 30-credit M.Ed. program as a cohort drawn from the four participating institutions and will get to know one another well, working together in various groupings throughout the program.

Required courses are sequenced so that, with careful planning of electives, all requirements can be completed in 24 months. The 9 credits of electives may be taken at any time and are usually selected from on-campus courses (for those in the Vancouver area), from various distance-mode courses at UBC and elsewhere, and from directed studies courses tailored to student interests. For detailed information about admission and course requirements, please see the website (www.edst.educ.ubc.ca/programs/algc.html).

Students who complete the UBC Certificate in Intercultural Studies through the UBC Centre for Intercultural Communication within 5 years of being admitted to the M.Ed. in Adult Learning and Global Change will receive 6 credits toward elective requirements in the M.Ed.

AGRICULTURAL ECONOMICS

Degree Offered: M.Sc.

Members

PROFESSOR

J. A. Vercammen.

ASSOCIATE PROFESSOR

R. Barichello.

ASSISTANT PROFESSORS

K. Baylis, T. Beatty, S. Gulati.

Program Overview

The Food and Resource Economics (FRE) Group offers the Master of Science (M.Sc.) degree in Agricultural Economics through the Faculty of Graduate Studies.

The coursework provides students with rigorous training in applied economics and quantitative methods. Students develop specialized research skills by working with faculty throughout UBC on important real-world issues.

FRE faculty members have been involved with projects in a variety of countries throughout Asia and other parts of the world (e.g., Dr. Barichello has extensive experience with food security issues in Indonesia). Formal educational linkages exist that allow FRE graduate students to study and research abroad.

FRE does not have its own Ph.D. program. However, FRE is working toward a joint Ph.D. program with the Department of Agricultural Economics at the University of Saskatchewan. Currently, students must apply, be accepted and will ultimately graduate with a doctorate issued by the U of S.

Degree Requirements

MASTER OF SCIENCE

The M.Sc. program can normally be completed in 18 to 20 months. After completing 18 credits of coursework, a thesis is written under the guidance of a UBC-wide committee that is chaired by a FRE faculty member. M.Sc. students generally elect the thesis option, but on occasion a non-thesis option is pursued. With the thesis option, students with an adequate undergraduate background in economic theory, mathematical economics and quantitative methods must complete AGEC 501, ECON 500, ECON 526, ECON 527 and two field

courses, which may be at the senior undergraduate level. Students without an adequate background must take additional preparatory courses.

The thesis normally involves identifying a research topic mutually agreed upon by the student and supervising faculty, undertaking an extensive review of the literature, developing the appropriate theoretical framework and then performing some form of empirical analysis.

ANATOMY AND CELL BIOLOGY

Degrees Offered: Ph.D., M.Sc.

Members

PROFESSORS

J. Church, B. J. Crawford, J. T. Emerman, I. R. Nabi, C. C. G. Naus, W. K. Ovalle, A. W. Vogl, J. Weinberg.

ASSOCIATE PROFESSORS

T. O'Connor, C. Roskelley, T. M. Underhill.

ASSISTANT PROFESSORS

K. Haas, H. Moukhles, V. Viau.

Program Overview

The Division of Anatomy and Cell Biology offers opportunities and facilities for advanced studies in anatomy, cellular biology and neurobiology leading to the Master of Science and Doctor of Philosophy. Members of the division undertake research programs in a wide range of basic and clinically relevant areas. Special research areas include cell and developmental biology, neurobiology, oncology, immunology, muscular dystrophy, muscle and membrane biophysics, and morphological aspects of cell structure and function at the light and electron microscopic levels.

The division is well equipped and has the following: transmission electron microscopes, fluorescence and photo-microscopes, confocal microscope, video image analysis, freeze-fracturing equipment, ultramicrotomes, molecular biology facilities and equipment, tissue culture facilities, spectro-photometric and radioisotope equipment, electrophysiological instrumentation, laser diffraction equipment and ultracentrifuges.

The division is well equipped and has the following: transmission electron microscopes, fluorescence and photo-microscopes, confocal microscope, video image analysis, freeze-fracturing equipment, ultramicrotomes, molecular biology facilities and equipment, tissue culture facilities, spectro-photometric and radioisotope equipment, electrophysiological instrumentation, laser diffraction equipment and ultracentrifuges.

Degree Requirements

DOCTOR OF PHILOSOPHY

Admission requirements include:

- 1) A bachelor's degree with First class honours (or equivalent). These students may be granted direct admission to a doctoral degree program on recommendation of the program and approval of the Dean of the Faculty of Graduate Studies;

or

- 2) A bachelor's degree with one year of study in a master's program with 18 credits of First class average, of which normally 10 credits must be at the graduate level or above and at least 10 credits must be of First class standing, and clear evidence of research ability or potential. Students in the M.Sc. program may transfer into the Ph.D. program at the end of their first year provided they meet the transfer requirements of the Faculty of Graduate Studies and the graduate program; or
- 3) A master's degree (or equivalent) with clear evidence of research ability or potential.

MASTER OF SCIENCE

Admission requirements include:

- 1) Honours in a field related to the proposed master's program with at least 12 credits of third- and fourth-year courses in the 'A-' grade range (at UBC, 80%) or higher in the field of study; or
- 2) A minimum overall average in the 'B+' range (at UBC, 76%) in third- and fourth-year courses prescribed by the program concerned as prerequisite to the master's program.

Alan Jay, Graduate Secretary

ANCIENT CULTURE, RELIGION AND ETHNICITY

Degree Offered: M.A.

Members

PROFESSORS

A. A. Barrett, S. D. Sullivan, R. Todd, E. H. Williams.

ASSOCIATE PROFESSORS

D. Arbel, P. C. Burns, R. Cousland, F. De Angelis, C. Marshall, R. Menkis, P. G. Mosca, D. Neufeld.

ASSISTANT PROFESSORS

L. Bablitz, E. Cooper, D. Creese, R. Daum, T. Hikade, C. Johnson, C. Marshall, M. Yazigi.

Program Overview

The graduate program in Ancient Culture, Religion, and Ethnicity offers a course of instruction leading to the Master of Arts (M.A.). For detailed information about the program, please consult the program's website (cnrs.arts.ubc.ca/index.php?id=3747).

Degree Requirements

MASTER OF ARTS

The M.A. program requires 30 credits of coursework and two comprehensive examinations. Of the 30 credits, 24 must be numbered

500 or above (graduate courses) and must include CNRS 500 (3), 501 (3), and 579 (3-credit graduating paper). The remaining 6 credits may, at the discretion of the program, be at the 300- or 400-level (undergraduate).

Prerequisites for the M.A. program include a Bachelor of Arts in Classics (Greek and Latin), Classical Studies (non-language program), Near Eastern Studies, Religious Studies, or a related discipline.

For details on the language prerequisites and requirements, see the program's website (cnrs.arts.ubc.ca/index.php?id=3747).

ANIMAL SCIENCE

Degrees Offered: Ph.D., M.Sc.

Members

PROFESSORS

K. M. Cheng, D. G. Fraser, S. McKinley, R. Rajamahendran, J. R. Thompson, D. M. Shackleton, D. Weary, A. Farrell.

ASSOCIATE PROFESSOR

S. E. Samuels.

ASSISTANT PROFESSOR

M. Von Keyserlingk.

Program Overview

Animal Science offers opportunities for advanced study and research leading to M.Sc. and Ph.D. degrees in the areas of physiology, nutrition, biochemistry, behaviour, welfare, genetics, and management of livestock, poultry, aquaculture, and wildlife species. Graduate training in Animal Science normally involves a combination of courses in both basic and applied sciences, with research leading to a thesis. Students are expected to publish their research results in refereed journals.

The program is enriched through collaboration with colleagues in other graduate programs such as Food Science, Human Nutrition, Obstetrics & Gynaecology and Zoology, and in agencies such as Agriculture and Agri-Food Canada, Canada Department of Fisheries and Ocean, Canadian Wildlife Service, the SPCA and various government agencies.

Coursework selected in consultation with the student's supervisory committee includes graduate courses in animal science and from other areas relevant to each student's research.

On-campus facilities include laboratories in the MacMillan Building. Off-campus research facilities available to students include: the UBC Dairy Education and Research Centre in Agassiz; shared research facilities at the Department of Fisheries and Oceans at West Vancouver; Agri-

culture and Agri-Food Canada, the Agassiz Poultry Centre including unique poultry and quail stocks for biomedical and genetic research. Field research facilities for studies in range and wildlife productivity are also available.

Degree Requirements

DOCTOR OF PHILOSOPHY

Appropriate coursework will be selected in consultation with the student's supervisory committee. All students are required to take a comprehensive examination. The major requirement for the Ph.D. is completion of a research thesis demonstrating ability to conduct significant and original scientific research.

MASTER OF SCIENCE

Completion of the M.Sc. program requires a minimum of 18 credits of coursework plus 12 credits of thesis research.

Contact Information

Faculty of Land and Food Systems

Alina Yuhymets, Graduate Programs Manager

ANTHROPOLOGY

Degrees Offered: Ph.D., M.A.

Members

PROFESSORS

J. Boddy, B. G. Miller, A. Shelton.

ASSOCIATE PROFESSORS

J. Barker, A. Bloch, T. M. Blake, M. Creighton, C. Menzies, D. L. Pokotylo.

ASSISTANT PROFESSORS

M. Collard, G. Gordillo, Z. Jing, V. Kamat, J. Kramer, W. McKellin, A. Martindale, P. Moore, A. Pandian, S. Rowley, F. Wyndham.

Program Overview

UBC offers graduate study in the fields of socio-cultural anthropology (including political anthropology, medical anthropology, environmental anthropology, oral and aesthetic traditions, contemporary theory and applied anthropology), anthropological archaeology, physical anthropology, and museum studies. Area interests include North America, East Asia, Mesoamerica, South America, Oceania and Europe. The program provides training in quantitative, qualitative, archaeological and museum methods. Extensive research facilities are available in the Museum of Anthropology, and in the Laboratory of Archaeology. The UBC Library has excellent collections to support program interests, as well as a large collection of microform theses, and the Human Relations Area files. Anthropology has a dedicated graduate computer lab with a wide range of software to support quantitative and qualitative research. Interdisciplinary contacts are encouraged, and links are maintained with departments and programs such as Asian

Studies (which has major library collections), Linguistics, History, Comparative Literature, Geography and Sociology.

Degree Requirements

DOCTOR OF PHILOSOPHY

Applicants for the Ph.D. program must be in the final year or have completed an M.A. as well as a B.A. in Anthropology (for details, see the M.A. admission requirements below). The Ph.D. degree proceeds in two stages. A student first gains full standing as a doctoral candidate within the program by completing: (1) a 24 months residency, (2) 18 credits of coursework, (3) an acceptable research proposal, and (4) satisfactory performance in a comprehensive examination. Candidates then undertake a substantive independent research project normally based in large part on field research which forms the basis for their dissertation. Students are expected to attain their degrees within a maximum of six years.

MASTER OF ARTS

The M.A. is based upon a combination of coursework, research and a thesis. Most students attain their degree within two years of starting the program; it is possible for a well-organized person to complete degree requirements during the first 12 to 18 months of study. Compared to the Ph.D., the M.A. is a structured course of study. Students must successfully complete 30 credits: (1) Anthropology 500 (History of Anthropology, six credits); (2) an advanced methods course in ethnographic, archaeological or museum studies (three credits); (3) coursework in a specific culture area or region (three credits); (4) at least 12 credits of elective courses; and (5) after submitting an approved thesis proposal, a six-credit thesis.

APPLIED ETHICS

The field of applied ethics is not taught by a single department and there is no formal program leading to a degree in this area. However, the W. Maurice Young Centre for Applied Ethics offers facilities and opportunities for graduate study in applied ethics through the academic departments of its faculty members. For more information, see the *W. Maurice Young Centre for Applied Ethics*, p. 79, in the chapter Research Units, Centres, and Institutes.

APPLIED MATHEMATICS

The field of applied mathematics is not taught by a single department and there is no formal program leading to a degree in this area. However, the Institute of Applied Mathematics offers facilities and opportunities for graduate study in applied mathematics through the

academic departments of its faculty members. For more information, see the *Institute of Applied Mathematics*, p. 79, in the chapter Research Units, Centres, and Institutes.

ARCHITECTURE

Degrees Offered: M.Arch., M.A.S.A.

Members

PROFESSORS

R. J. Cole, C. Macdonald, P. Patkau, J. Wojtowicz.

ASSOCIATE PROFESSORS

L. Brock, S. McKay, G. S. Wagner, D. Weiner.

ASSISTANT PROFESSORS

J. Bass, M. Fujita, O. Lang, O. Neumann, I. Roecker.

Program Overview

Architecture offers graduate education in both professional and research degree programs: the Master of Architecture (M.Arch.) and the Master of Advanced Studies in Architecture (M.A.S.A.) respectively. While Architecture does not at present have a Ph.D. program, it does support advanced Ph.D. study in architecture through the Ph.D. program in *Interdisciplinary Studies*, p. 259.

Degree Requirements

MASTER OF ARCHITECTURE

The M.Arch. program is an accredited professional graduate program for those with an undergraduate degree who wish to pursue professional studies in architecture as a prerequisite to becoming a registered architect. While an undergraduate degree in a field related to architecture may be advantageous in reducing the length of the program, it is not a necessary prerequisite as the demonstration of interest and aptitude in the field occurs as a component of the application process of the program. The full program is 119 credits, requiring three and a half years of full-time study.

For detailed information, please see *Architecture*, p. 112, as well as the Architecture website (www.arch.ubc.ca).

MASTER OF ADVANCED STUDIES IN ARCHITECTURE

The M.A.S.A. program is a post-professional graduate program primarily for those with a professional degree in architecture or a related field who wish to expand their knowledge in a particular branch of architectural studies. Major research thrusts within the M.A.S.A. program include environmental imperatives, history and cultural studies, advanced design research, urban design and community activism, advanced research in digital applications. It is a 30-credit program culminating in a thesis. The degree can be completed in 16 months with two terms of full-time residency required. The program is not accredited and therefore does not fulfil the educational requirements for architectural registration.

For detailed information, please see *Architecture*, p. 114, as well as the Architecture website (www.arch.ubc.ca).

ARCHIVAL STUDIES

Degree Offered: M.A.S.

Members

PROFESSOR
L. Duranti.

ASSOCIATE PROFESSORS
T. Eastwood, H. McNeil.

ASSISTANT PROFESSOR
F. Marini.

Program Overview

The Master of Archival Studies (M.A.S.) program is a professional degree program, open to those holding a bachelor's degree considered suitable by the admissions committee and which meets the minimum admission requirements of the Faculty of Graduate Studies. Archival work is related to that of many other disciplines, including history, political science, business administration, and sociology. The program is unique in North America as the only separate graduate degree program in the field. Graduates obtain positions as archivists and records managers across Canada in businesses, government agencies, religious bodies, and institutions; some engage in freelance work.

Degree Requirements

MASTER OF ARCHIVAL STUDIES
The program comprises 48 credits including an optional thesis and an optional internship. Students must begin the program in September of a year and normally cannot complete it before April of the second year following. The full-time core of required courses occupies the first Winter Session. The internship, if taken, can be expected to occupy much of a summer. University, public, and other archives within easy reach provide models of archival practice. The application of archival theory is also demonstrated through field trips in courses.

Helen Chang, Grad Admissions Secretary

ARCHIVAL STUDIES AND LIBRARY AND INFORMATION STUDIES

Degrees Offered: M.A.S./M.L.I.S.

Members

PROFESSORS

L. Duranti, E. Rasmussen.

ASSOCIATE PROFESSORS

A. Curry, T. Eastwood, H. McNeil, J. Saltman.

ASSISTANT PROFESSORS

M. Dowding, R. Kopak, F. Marin, J. Tennis.

Program Overview

The Joint Degree Program is designed to allow students to earn both a Master of Archival Studies and a Master of Library and Information Studies within a reasonable period of time (generally between three and five years). Students considering this option should carefully read the descriptions for each of the two individual degrees. Students who wish to complete the Joint Degree Program should indicate this as early as possible, preferably on their application submitted to the School prior to admission, or following admission by speaking to a faculty advisor.

Degree Requirements

MASTER OF ARCHIVAL STUDIES WITH MASTER OF LIBRARY AND INFORMATION STUDIES

The two master's degrees, M.A.S. and M.L.I.S., are awarded on the completion of 81 credits of work approved by the School plus required non-credit studies such as the practicum in the M.L.I.S. program. Students must complete the following:

- 1) the required courses in the M.L.I.S. program: LIBR 500, 510, 540, 560, 570, 590, and two three-credit LIBR elective courses (21 credits);
- 2) the required courses in the M.A.S. program: ARST 510, 515, 516, 520, 530, 540, and 587 (21 credits);
- 3) either LIBR 500 or ARST 593B (3 credits);
- 4) 15 credits in the M.L.I.S. program;
- 5) 15 credits in the M.A.S. program; and
- 6) 6 additional credits in either program.

Students in the two degrees should not take courses outside those offered in the M.A.S. and M.L.I.S. programs.

Practicum: A required non-credit practicum provides direct library experience under actual library operating conditions. In addition, some field experience in an archival repository is highly desirable for a student who has had limited prior contact with the work of the practising archivist. These two work experiences will be scheduled in consultation with the student's advisors.

Thesis: A student with research interests may elect to write a thesis in one of the two fields, but not both. Consultation with the appropriate faculty advisor should begin before the student has completed one-half of the required courses.

ART EDUCATION

Degrees Offered: M.A., M.Ed.

Members

PROFESSORS

R. Irwin, G. Chalmers, A. Kindler.

ASSOCIATE PROFESSORS

K. Grauer, D. Krug.

Program Overview

The graduate programs (M.Ed. and M.A.) in Art Education are part of the graduate offerings in the Department of Curriculum Studies. The research interests of faculty in Art Education are diverse. They encourage a wide spectrum of student inquiry: art curriculum, early childhood, teacher education, First Nations art and education, histories of art education, multiculturalism, museum and gallery education, perception and cognition, studio practices, technology and visual culture, theory/practice relationships, and gender studies.

Degree Requirements

MASTER OF ARTS

Admission Requirements: In addition to the Faculty of Graduate Studies requirements, the program requires:

- 1) Normally, 18 credits of senior coursework or a professional concentration in the area of interest.
- 2) Normally, two years of teaching experience or other relevant professional experience.

Degree Requirements: The program consists of 30 credits. At least 15 credits must be at 500 level or above. A total of six credits may be taken at the 300 or 400 level. A thesis, normally nine credits, is included.

Part-time and full-time study options are offered.

MASTER OF EDUCATION

Admission Requirements: Same as M.A.

Degree Requirements: The program consists of a minimum of 30 credits, of which 24 must be courses numbered at the 500 level. A total of six credits may be taken at the 300 or 400 level. Students select either a program consisting entirely of courses (for example, ten three-credit courses) or 27 credits of coursework plus a graduating project (3 credits).

Part-time and full-time study options are offered.

ART HISTORY (CRITICAL AND CURATORIAL STUDIES)

Degree Offered: M.A.

Members

PROFESSORS

M. S. Cohodas, S. Guilbaut, K. Lum, J. O'Brian, R. Prince, S. Watson, R. Windsor-Liscombe.

ASSOCIATE PROFESSORS

M. P. Ryan, C. Townsend-Gault.

ASSISTANT PROFESSORS

H. Tsao, W. Wood.

Program Overview

The Department of Art History, Visual Art, and Theory offers the Critical and Curatorial Studies graduate program, a stream leading to the Master of Arts (M.A.) in Art History (Critical Curatorial Studies). Critical and Curatorial Studies aims to address the growing need for curators and critics who have theoretical knowledge and practical experience in analyzing institutions, preparing displays and communicating about contemporary art.

For information on additional graduate programs in the Department of Art History, Visual Art, and Theory, please see *Fine Arts*, p. 250.

Degree Requirements

MASTER OF ARTS

Critical and Curatorial Studies is a stream within the Department of Art History, Visual Art, and Theory; students will receive a Master of Arts in Art History (Critical Curatorial Studies). The degree requires 30 credits of which 15 credits are in Critical and Curatorial Studies courses, plus a major paper worth three credits. A minimum of 6 credits must be selected from the graduate-level courses in the Department of Art History, Visual Art, and Theory with the ARTH course designation. Up to 6 elective credits may be graduate courses selected from outside of the program. Students wishing to apply for this concentration must specify Critical and Curatorial Studies in a written application to the Department of Art History, Visual Art, and Theory.

Program Courses:

- CCST 500: Seminar in Historical Frameworks for Critical Curatorial Studies (3 credits)
- CCST 501: Seminar in Contemporary Contextual Issues for Critical and Curatorial Practice (3 credits)
- CCST 502: Case Studies in Exhibitions and Institutions (3 credits)
- CCST 503: Graduate Practicum (6 credits)
- CCST 504: Major Paper (3 credits)

ASIA PACIFIC POLICY STUDIES

Degrees Offered: M.A.P.P.S., M.A.P.P.S./LL.B., M.A.P.P.S./M.B.A.

Members

PROFESSORS

T. Cheek, P. Evans, M. Nakamura, P. Potter, I. Vertinsky.

ASSOCIATE PROFESSORS

M. Kandlikar, A. Kusno, K. A. Park.

ASSISTANT PROFESSORS

J. Dierkes, H. G. Lynn.

Program Overview

The Institute of Asian Research's Master of Arts in Asia Pacific Policy Studies program provides advanced training in research and analysis on policy issues relevant to the Asia and Pacific regions, to graduate students preparing for positions in government departments, non-profit organizations, private sector enterprises, and as preparation for academic doctoral programs.

The M.A.P.P.S. program is organized into five thematic streams that structure and guide students in their program element selections. The five thematic streams are:

- 1) Economic and Social Change
- 2) Security
- 3) Women and Development
- 4) Governance and Human Rights
- 5) Infrastructure Policy

Degree Requirements

MASTER OF ARTS IN ASIA PACIFIC POLICY STUDIES

Applicants to the program must satisfy the admission requirements of the Faculty of Graduate Studies. Applicants also must have a sufficient background in area studies and/or social sciences to permit advanced research and analysis of policy issues relevant to the Asia and Pacific regions and should include methodological training (esp. basic knowledge of statistical

analysis). Preference will be given to applicants who have received formal training in one or more languages (other than English) of the Asia and Pacific region. Applicants must satisfy the English language admission standard set by the Faculty of Graduate Studies and the Institute of Asian Research (see *TOEFL and GRE Requirements*, p. 219). The Graduate Record Examination (GRE) is not required but is highly recommended. Admission of the applicant is not complete until the application has been accepted and the course of study has been approved by the Institute of Asian Research and the Faculty of Graduate Studies. For more details on the admission process, see *Admission for Master's Degrees*, p. 218, or visit the Faculty of Graduate Studies website (grad.ubc.ca).

The program consists of three distinct elements:

- Core courses (6 credits)
- Elective courses (18 credits)
- Master's thesis (12 credits) or practicum (12 credits)

MASTER OF ARTS IN ASIA PACIFIC POLICY STUDIES WITH BACHELOR OF LAWS

The M.A.P.P.S./LL.B. program allows students to obtain the degrees of Bachelor of Laws (LL.B.) and Master of Arts (Asia Pacific Policy Studies) (M.A.P.P.S.) through combined enrolment in the Faculty of Law and the Institute of Asian Research.

Students wishing to pursue the combined LL.B./M.A.P.P.S. degree program must be admitted separately by the Faculty of Law for the LL.B. and the Institute of Asian Research for the M.A.P.P.S. The graduate program advisor from the Institute of Asian Research serves as graduate program advisor for the combined degree program.

For detailed information about admission and requirements for the M.A.P.P.S. and LL.B., please see the Institute of Asian Research (www.iar.ubc.ca) and the Faculty of Law (www.law.ubc.ca) websites respectively.

MASTER OF ARTS IN ASIA PACIFIC POLICY STUDIES WITH MASTER OF BUSINESS ADMINISTRATION

The M.A.P.P.S./M.B.A. degree program permits students to obtain the degrees of M.B.A. and M.A. in Asia Pacific Policy Studies (M.A.P.P.S.) through combined enrolment in the Sauder School of Business and the Institute of Asian Research. Interested applicants are required to apply directly to both the Sauder School of Business and the Institute of Asian Research indicating their desire to be considered for the combined M.A.P.P.S./M.B.A. program.

Enrolment is limited to students who have demonstrated academic excellence. Students are required to complete 30 credits in Asia Pacific Policy Studies and 45 credits in the M.B.A. program.

For detailed information about admission and requirements for the M.A.P.P.S. and M.B.A., please see the Institute of Asian Research (www.iar.ubc.ca) and Sauder School of Business (www.sauder.ubc.ca) websites respectively.

ASIAN STUDIES

Degrees Offered: Ph.D., M.A.

Members

PROFESSORS

A. Aklujkar, J. Mostow, P. Nosco, H. Oberoi, J. Schmidt.

ASSOCIATE PROFESSORS

D. Baker, K. Bryant, B. Fulton, T. Hellwig, N. Hur, R. King, S. Orbaugh, E. Slingerland, C. Swatek.

ASSISTANT PROFESSORS

S. Burk, J. Chen, C. Laffin, D. D. Li, L. Preston, A. Sathaye, L. Shin.

Program Overview

University of British Columbia's Asian Studies Department is the flagship Asian Studies department in Canada and is widely acknowledged as one of the very finest in North America.

In many ways, UBC Asian Studies is a representative department within the Faculty of Arts. It has over 20 regular faculty, as well as an exceptionally well-qualified pool of instructors and sessional instructors.

In other ways, the program is in a league all its own. It has grown since its inception, but this growth became explosive during the 1980s and 1990s, reflecting the demographic shifts of Greater Vancouver. Where most of its counterparts at leading universities might offer instruction in Chinese and Japanese, and perhaps Korean, UBC-Asian Studies adds Hindi, Urdu, Sanskrit, Punjabi and Indonesian to this list and it is hoping to offer a term of Tibetan. We have by far the largest and—in terms of issues related to heritage language learning—most complex programs in Chinese and Japanese language in North America, with thousands of registrations between just these two.

Degree Requirements

DOCTOR OF PHILOSOPHY

The program in Asian Studies offers the Doctor of Philosophy, focusing on the fields of language, literature, and pre-modern history, linguistics, religion and thought and cultural studies. It also provides language training for those doing graduate work relating to China, Japan, and South Asia in other departments. Those interested in graduate studies relating to Asia in fields such as modern history, political science, economics, sociology, geography, anthropology, fine arts, etc., should apply to the departments concerned.

Admission to the Ph.D. program in Asian Studies normally requires an M.A. in Asian Studies

or its equivalent. Candidates for the Ph.D. must have, prior to admittance, an adequate command of Chinese, Japanese, Hindi/Urdu, Punjabi, Sanskrit, Korean or Indonesian. In the case of Chinese, this will normally mean a competent reading knowledge of both modern and classical forms of the language.

MASTER OF ARTS

Admission to the M.A. program in Asian Studies normally requires a Bachelor of Arts with First class standing in Chinese, Japanese, Korean or South Asian languages. This implies a minimum of four years of language study prior to undertaking the M.A. The program is prepared to accept a limited number of students who are otherwise well-qualified and show linguistic aptitude but have less than this amount of preparation in language. Such students will be required to spend one or two extra years in their M.A. program making up this deficiency.

Program Overview

The Department of Physics and Astronomy is a broadly based department with a wide range of research interests that cover most of the key topics in contemporary physics and astronomy. These activities are supported by several computing and experimental facilities within the Department, and excellent electronics and machine shops.

UBC research in astronomy and astrophysics covers most areas of current interest in this broad field, including a wide range of theoretical and observational studies in astronomy, and also experimental and theoretical studies in cosmology. Research at optical wavelengths includes photometric studies of stellar populations, particularly globular clusters, studies of distant galaxies and active galactic nuclei, and time-resolved spectroscopy of variable stars and active binary star systems. Studies at microwave frequencies include research on variable radio sources, the early stages of star formation, relativistic jets, and balloon-borne measurements of the cosmic microwave background radiation. A variety of theoretical

work complements this research, with topics that range from the structure and dynamics of hot and cool stellar atmospheres to theoretical studies of structure formation in the early universe. Development of astronomical instrumentation is also supported. These and many other possibilities are available through UBC researchers' involvement in facilities such as the Dominion Astrophysical Observatory (near Victoria), the Canada-France-Hawaii telescope and the James Clerk Maxwell mm-wave telescope on Mauna Kea, the MOST Telescope, the Hubble Space Telescope, the Very Large Array in New Mexico and the Very Long Baseline Array. Faculty are also involved in upcoming projects such as the Gemini telescopes in Chile and Hawaii, a new six-metre liquid mirror telescope developed at UBC, and a number of future space missions.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Department of Physics and Astronomy offers Ph.D. programs in Astronomy. Students can be admitted to the Ph.D. program after obtaining a Master of Science. A minimum of 12 credits in graduate-level courses in any Science or Applied Science departments are required for the Ph.D., with details of the course load determined in consultation with the thesis advisor and supervisory committee but must conform to the Department's quantum mechanics requirements. Alternatively, well-qualified students admitted to the M.Sc. program may transfer to the Ph.D. program after a year's residence at UBC if they have at least 18 credits in M.Sc. coursework with an overall average of at least 85%, clear evidence of research ability, and approval of the thesis supervisor. Direct transfer students require a further 12 credits in graduate-level coursework in any Science or Applied Science departments for the Ph.D.

MASTER OF SCIENCE

Master of Science programs are offered in Astronomy. The prerequisite for the program is a B.Sc. in Physics, Mathematics or Astronomy (single or combined). An overall average of 'A-' or better in third- and fourth-year courses is expected for entry into the program. The M.Sc. program requires a minimum of 30 credits with the thesis counting for 12 credits. The remaining 18 credits must include at least 12 credits in relevant graduate courses in the Faculties of Science or Applied Science and may include up to a maximum of 6 300- or 400-level credits in undergraduate courses. All Astronomy M.Sc. students are required to satisfy the program's quantum physics course requirements and the Astronomy Journal Club requirement.

ATMOSPHERIC SCIENCE

Degrees Offered: Ph.D., M.Sc.

Members

PROFESSORS

N. Balmforth, A. Black, W. Hsieh, I. McKendry,
T. Oke, D. Steyn, R. Stull.

ASSOCIATE PROFESSORS

S. Allen, P. Austin, M. Novak, R. Pawlowicz.

ASSISTANT PROFESSORS

A. Bertram, L. Pandolfo, A. Ridgwell.

Program Overview

Programs leading to the M.Sc. and Ph.D. are offered by the Atmospheric Science program under joint sponsorship of the Department of Earth and Ocean Sciences and the Department of Geography. Biometeorology students in Soil Science also have the option to work toward the Atmospheric Science graduate degrees.

Areas of graduate research are:

- Boundary layer and micrometeorology, including turbulence and urban meteorology;
- Weather, including mesoscale meteorology, numerical weather prediction and weather disasters;
- Air pollution and atmospheric chemistry;
- Climate, including climatology, climate variability and prediction, earth system modelling, climate change, remote sensing of clouds;
- Ocean-atmosphere interactions;
- Biometeorology, including agricultural and forest meteorology; and
- Geophysical fluid dynamics.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Ph.D. consists of either EOSC 571 or GEOG 500, independent study, a spring review at the end of the first year, a comprehensive examination (oral and written components) during the second year, and research leading to a written dissertation that is defended in an oral final examination.

MASTER OF SCIENCE

The M.Sc. program consists of 12 credits of thesis with an oral thesis defence, and 18 credits of coursework, or 30 credits of coursework and an essay.

AUDIOLOGY AND SPEECH SCIENCES

Degrees Offered: Ph.D., M.Sc.

Members

PROFESSORS

J. R. Johnston, D. R. Stapells.

ASSOCIATE PROFESSORS

B. M. Bernhardt, J. A. Small.

ASSISTANT PROFESSORS

L. Jenstad, A. McCoy, S. Marinova-Todd, N. Shahnaz.

Program Overview

The School of Audiology and Speech Sciences endeavours to advance knowledge of human communication and its disorders by actively engaging in research, and by educating individuals to become audiologists, speech-language pathologists, and researchers. In its teaching and research programs, the School emphasizes both the importance of basic science to the understanding of communication disorders and the relevance of clinical data to theories of human communication.

The School's Master of Science and Doctor of Philosophy programs are designed to ensure that graduates are grounded in the basic and applied sciences, can address complex communication problems within an interdisciplinary framework, and understand the relevance of theory in research as well as practical endeavours. The School's Master of Science graduates meet the requirements for professional practice in audiology or speech-language pathology in Canada.

Degree Requirements

DOCTOR OF PHILOSOPHY

The School of Audiology and Speech Sciences offers a program leading to the Doctor of Philosophy with specialization in one of the following areas: neurolinguistics/linguistic aphasiology, developmental phonetics and phonology, language acquisition, developmental language disorders, discourse analysis, phonological and phonetic disorders, speech understanding in the elderly, electrophysiology and otoacoustic emissions diagnosis, and hearing science. A brochure giving details of this program is available from the School's office.

MASTER OF SCIENCE

The School of Audiology and Speech Sciences offers a post-graduate program leading to the Master of Science. This program is primarily designed to provide the scientific and clinical education necessary for the professions of audiology and speech-language pathology.

These professional fields require a thorough understanding of human communication and its disorders. The Master of Science program thus builds upon background studies in linguistics, psychology, acoustics, physiology and other related disciplines, and incorporates both basic and applied science. After completing basic level courses, students pursue advanced work in a professional specialty, i.e., either audiology or speech-language pathology. Supervised clinical externships are provided in hospitals, schools, rehabilitation centres, and other service settings throughout British Columbia. Graduates of the clinical education program will have completed the academic and practical requirements for professional certification. This program will usually require 24 to 36 months to complete, depending upon the student's academic preparation.

F. Duong, L. Eltis, N. Strynadka.

ASSISTANT PROFESSORS

E. Conibear, L. Foster, L. Howe, A. Mui, M.
Murphy, M. Numata.

Program Overview

Facilities are available for original investigations in many fields of biochemistry and molecular biology. Possible areas of research include: control of gene expression in eucaryotes and bacteria; structure and function of genes; systems biology; blood proteins; the mechanism of the action of insulin; membrane and membrane protein structure and function; protein trafficking; cell-surface receptors, signal transduction, and cell-growth control; neural and retinal photoreceptor membranes; lipid-based targeted delivery systems; macromolecular crystallography and X-ray diffraction techniques for the characterization of enzymes and protein complexes; metalloprotein structure and function; mechanisms of enzyme activity; mechanism of hemoprotein electron transfer; structural analysis of proteins by nuclear magnetic resonance; mechanisms of multi-drug resistance; and cancer.

Degree Requirements

DOCTOR OF PHILOSOPHY

Students must hold an honours bachelor's degree in Biochemistry with high standing or a master's degree in Biochemistry, or the equivalent, and are required to complete courses in biochemistry and related fields in accordance with the recommendations of the program and the candidate's committee.

MASTER OF SCIENCE

Students with a degree in Biochemistry or in related disciplines can be accepted providing they have graduated with high standing from university programs giving a strong background in science. The M.Sc. program includes a thesis (12 credits) and courses approved by the program in Biochemistry and related fields (18 credits). BIOC 303 and 301, or the equivalent, are prerequisites to all graduate courses in Biochemistry and Molecular Biology.

BIOMEDICAL ENGINEERING

Degrees Offered: Ph.D., M.A.Sc.

Members

This is an interdisciplinary program. Professors come from a number of departments including, but not limited to, Chemical and Biological Engineering, Electrical and Computer Engineering, Materials Engineering, and Mechanical Engineering. The program website provides a link to all faculty members associated with the program.

PROFESSORS

G.A. Dumont, C.A. Hayes, M. Hodgson, V. Krishnamurthy, P.D. Lawrence, J.M. Piret, A. Poursartip, T. Salcudean, T. Troczynski, R. Ward.

ASSOCIATE PROFESSORS

S.A. Baldwin, S.S. Fels, G. Fernlund, A.J. Hodgson, E. Kwok (Director), T.R. Oxland, D.P. Romilly, R.F.B. Turner.

ASSISTANT PROFESSORS

M. Chiao, L. Chrowstowski, P.A. Crompton, C. Hansen, J. Madden, R.N. Rohling, B. Stoeber, R. Wang, Z.J. Wang, D. Wilson, J. Yan.

Program Overview

Biomedical Engineering is a multidisciplinary field that involves the application of engineering techniques and technologies to medical and healthcare areas. The Biomedical Engineering Program, administered by the Faculty of Applied Science, offers advanced study and research leading to the M.A.Sc. and Ph.D. degrees in Biomedical Engineering. The program is designed to provide graduates with

a balance of materials in life science, clinical practice, and bio-engineering. Opportunities for interdisciplinary education and research exist in areas such as biomechanics, biomaterials, biochemical processing, cellular engineering, imaging, medical devices, micro-electromechanical implantation systems, physiological modeling, simulation, monitoring and control, as well as medical robotics.

Doctor of Philosophy

ADMISSION REQUIREMENTS

Doctoral degree applicants must hold a Master's degree in Biomedical Engineering from an institution recognized by UBC, or hold a Bachelor's degree with course credits equivalent to that of the UBC M.A.Sc. degree in Biomedical Engineering. Transfer from the Master's to the Ph.D. program is permitted under regulations set by the Faculty of Graduate Studies and the Program.

PROGRAM REQUIREMENTS

The program is based on the satisfactory completion of a doctoral dissertation thesis and selected courses suitable to the student's research interests as determined by the supervisory committee. A qualifying examination is usually held within 18 months of commencement. All students must satisfy coursework requirements equivalent to UBC's M.A.Sc. in BME prior to graduation. Those students with a graduate degree in BME from another institution may fulfill coursework requirements with their previous credits as long as the course content is equivalent to the ones offered by UBC.

All doctoral students are required to complete a comprehensive examination successfully. The major requirement for the Ph.D. is completion of a research thesis meeting the requirements of the Faculty of Graduate Studies.

Master of Applied Science

ADMISSION REQUIREMENTS

The program is open to those holding a Bachelor's degree in engineering, science, or medical science, or a graduate degree in medicine. Prospective students must make application for admission to one of the four engineering departments in the Faculty of Applied Science: Chemical and Biological Engineering, Electrical and Computer Engineering, Materials Engineering, or Mechanical Engineering. A student will be admitted to the degree program upon the recommendation of a faculty member associated with the Biomedical Engineering Program and the approval of the Program Director and the Faculty of Graduate Studies.

PROGRAM REQUIREMENTS

The Master of Applied Science program requires a minimum of 30 credits, including a thesis of 12 credits. It usually requires two years of study. The program is based on a thesis and selected courses. The common course requirements for all students are three credits in clinical and industrial practice of biomedical engineering and one credit of Graduate Seminar. All candidates must also select a minimum of six credits from a list of core

biomedical engineering courses and six credits of life science courses, including physiology and anatomy. The remaining credits, upon approval by the research supervisor, can be used for courses related to the student's research project.

Graduation from this program, with an M.A.Sc. or Ph.D. degree, does not form an acceptable basis alone for application to associations of Professional Engineers in Canada. Please refer to the "Professional Associations" section of the UBC Calendar, under the Faculty of Applied Science.

Dr. Ezra Kwok, Director and Graduate Advisor

BIOTECHNOLOGY

The field of biotechnology is not taught by a single department and there is no formal program leading to a degree in this area. However, the Michael Smith Laboratories offer facilities and opportunities for graduate study in biotechnology through the academic departments of its faculty members. For more information, see *Michael Smith Laboratories*, p. 84, in the chapter Research Units, Centres, and Institutes.

BOTANY

Degrees Offered: Ph.D., M.Sc.

Members

PROFESSORS

C. J. Douglas, F. R. Ganders, G. W. Haughn, W. Maddison, L. Rieseberg, F. Sack, C. Suttle, R. A. Turkington, G. Wasteneys.

ASSOCIATE PROFESSORS

M. Berbee, J. Bohlmann, G. E. Bradfield, P. G. Harrison, R. Jetter, P. Keeling, L. Kunst, L. A. F. Oliveira, J. Whitton.

ASSISTANT PROFESSORS

K. Adams, J.-G. Chen, N. M. Fast, S. Graham, B. S. Leander, X. Li, A. L. Samuels, P. Tortell, M. Vellend.

Program Overview

Research in Botany extends from genomics, molecular genetics, biochemistry and physiology of plants and eukaryotic microorganisms (e.g., fungi and protists) through their cytology and development to systematics, ecology and phytogeography. Such a broad spectrum of activities provides for dynamic interactions between subdisciplines. In addition, opportunities for interdisciplinary research projects exist with colleagues in other departments and units on campus, such as Forest Science, Botanical Garden/Centre for Plant Research, Zoology, Chemistry, Microbiology, Physics, the Michael Smith Laboratories, and the Centre for Biodiversity Research. Several of our faculty apply their strengths in the basic sciences to

problems relevant to forestry, agriculture, marine biology, and medicine.

The broad areas of research possible within the program are cell biology and biochemistry; genomics and genetics, plant molecular biology; plant and algal physiology; terrestrial and marine ecology; biosystematics and evolution; development and ultrastructure; protistology; and mycology.

Faculty members supervise students in projects funded by NSERC, CIHR, Genome Canada, and other agencies.

Degree Requirements

DOCTOR OF PHILOSOPHY

Students who are admitted to the Master of Science program may, subject to the regulations of the Faculty of Graduate Studies, be granted permission to transfer to a Ph.D. program provided a First class performance has been obtained in coursework and there is clear evidence of research prowess. Exceptional students may be admitted straight to the Ph.D. program from the bachelor's level. Students with a Master of Science apply directly for the Ph.D. program. Although there are few formal course requirements, courses are selected in accordance with the recommendation of the graduate program and the candidate's Ph.D. committee.

MASTER OF SCIENCE

The Master of Science program requires a minimum of 30 credits with the thesis counting for 12 credits. Courses may be selected from Botany and a wide range of related programs on campus, in consultation with the research supervisor and the student's committee. A non-thesis M.Sc. option is also available.

Program Overview

The Sauder School of Business is considered the top research business school in Canada and one of the top schools in North America. It offers courses of instruction leading to both the Master of Science in Business Administration (M.Sc.B.) and Doctor of Philosophy (Ph.D.).

The areas of study for the Ph.D. program include the fields of accounting, finance, management information systems, management science, marketing, organizational behaviour and human resources, strategy and business economics, and urban land economics. In addition, a student may pursue a cross-field program within the Sauder School of Business in such areas as transportation and logistics or international business.

The areas of study for the M.Sc.B. program include finance, management information systems, management science and transportation and logistics.

Degree Requirements

DOCTOR OF PHILOSOPHY

The objectives of the Ph.D. program in Business Administration are to prepare appropriately qualified individuals for careers in academic research and teaching and for research positions in business and government. Since each student enters the program with a unique academic background and pursues a course of study which reflects the student's own special interests, it is possible to give only very approximate estimates of the time which may be necessary to complete the major phases of the program. However, doctoral work beyond the master's degree in business administration or its equivalent ordinarily involves about two years of formal coursework. The thesis research normally requires about two years of additional work.

Students with limited financial resources should not be discouraged from applying for admission to the Ph.D. programs, since all students who are admitted, but who have not obtained financial assistance from an external source, will normally receive financial support for the first four years in the program.

MASTER OF SCIENCE IN BUSINESS ADMINISTRATION

The Master of Science in Business Administration (M.Sc.B.) is intended primarily for graduate students who plan to pursue, at a later stage, a Ph.D. program in business administration.

The program normally requires two years of study. It is designed by an advisor and a com-

mittee so as to best prepare the student for advanced study and research in the chosen area of specialization.

For information on Master of Business Administration (M.B.A.) or Master of Management (M.M.) programs, please see *the Faculty of Commerce and Business Administration (Sauder School of Business)*, p. 170 in the Calendar or visit the program websites for the M.B.A. (www.sauder.ubc.ca/mba) and M.M. (www.sauder.ubc.ca/mm)

ASSISTANT PROFESSORS

N. Ellis, E. Gyenge, M. Mohseni, F. Taghipour.

Program Overview

The Department of Chemical and Biological Engineering offers graduate programs leading to research degrees of Doctor of Philosophy, Master of Applied Science (M.A.Sc.) and Master of Science (M.Sc.). Thesis topics are available in the fields of faculty research. Joint research is carried out at the master's and doctoral levels with the Pulp and Paper Research Institute of Canada (Paprican) and with *Michael Smith Laboratories*, p. 84, in areas of common interest. Graduates from other branches of engineering or from science may also be accepted, but may be required to successfully complete selected undergraduate courses in chemical and biological engineering before receiving a degree. A list of undergraduate course requirements may be obtained from the Department of Chemical and Biological Engineering.

A list of faculty members and their research interests is available from the Department.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy is for superior students who wish to acquire the knowledge, techniques and skills required for advanced research. The program is based on a thesis and selected courses suitable to the student's

research interests. The program must also include the seminar course (CHBE 598).

MASTER OF APPLIED SCIENCE

The Master of Applied Science requires a thesis (12 credits) and advanced coursework (18 credits). Normally, the required 18 credits will consist of 12 credits chosen from graduate courses in Chemical and Biological Engineering and 6 credits of relevant courses outside the program. The program must also include CHBE 598. Part-time students may enrol in the Master of Applied Science program.

MASTER OF SCIENCE

The Master of Science is offered for qualified graduates from the Faculties of Land and Food Systems, Forestry and Science. The program requires a thesis (12 credits) and 18 credits of advanced coursework, of which 12 credits must be selected from courses in Chemical and Biological Engineering. The program must also include CHBE 598. Part-time students may enrol in the Master of Science program.

For information about the professional Master of Engineering (M.Eng.) program, please see *the Faculty of Applied Science*, p. 107, or visit the program website (www.chml.ubc.ca).

Program Overview

The graduate program in Chemistry offers a wide variety of research programs leading to degrees of M.Sc. and Ph.D. across the full breadth of chemistry including inorganic, organic, analytical, biological, physical, theoretical, nuclear, environmental and materials chemistry.

These programs are supported by an extensive in-house service infrastructure, the TRIUMF cyclotron and radioactive beams facility (ISAC), as well as support personnel and cutting-edge research equipment.

Research facilities are available for accommodation of over 300 graduate students, postdoctoral fellows and academic staff.

Degree Requirements

DOCTOR OF PHILOSOPHY

Applicants are required to hold a Master of Science or equivalent in chemistry, biochemistry, physics or related fields or a Bachelor of Science with an 'A' average in an honours or combined honours chemistry program or equivalent. Students in the Master of Science program may transfer into the Ph.D. program at the end of their first year provided they meet the transfer requirements of the Faculty of Graduate Studies and the graduate program.

Coursework in the Ph.D. program is assigned in accordance with the recommendation of the graduate program and the student's Ph.D. committee.

MASTER OF SCIENCE

Applicants are required to hold an honours degree in chemistry or biochemistry or physics, or combined honours in chemistry and physics, chemistry and mathematics, chemistry and biochemistry, chemistry and oceanography, or chemistry and biology; or a bachelor's degree in chemical engineering with at least Second class standing; or a single major in chemistry with at least Second class standing; or the equivalent to any of the above is prerequisite.

The program requires a thesis and 12 additional credits in graduate or advanced courses in chemistry and/or related subjects.

CHILDREN'S LITERATURE

Degrees Offered: M.A.

Members

PROFESSOR

R. Jobe.

ASSOCIATE PROFESSORS

M. Asselin, A. Curry, J. Flick, J. K. Kealy, T. Rogers, J. Saltman.

Program Overview

The School of Library, Archival and Information Studies, with the participation of the Departments of English, Language and Literacy Education, and Theatre, Film and Creative Writing, offers a multi-disciplinary Master of Arts program in Children's Literature. The program provides specialized education for

graduate students in the study of children's literature using a multi-disciplinary approach. The program is designed to provide each student with the opportunity to study the creative writing and publishing of this literature, examine models of sharing its rich heritage with the young, and also facilitate the literary, social, historic, and psychological analyses of children's literature as literature. This multi-disciplinary approach will expose students to many schools of literary criticism, educational theory, and professional and creative practice. It will acquaint students with the broad literary canon of children's literature across a spectrum of languages and cultures and with a variety of critical perspectives and professional application.

An undergraduate student considering working in the field of children's literature should consult the School about useful preparatory classes. An interview may be arranged at any time.

A broad cultural background is expected of M.A. applicants. The prospective student should select courses which will give some acquaintance with the humanities and social sciences during their undergraduate studies. Particular attention should be paid in undergraduate or graduate studies to courses in children's literature, English, writing for children, child psychology, and the history of childhood.

Degree Requirements

MASTER OF ARTS

The Master of Arts in Children's Literature is awarded on the completion of 30 credits of work, including 24 credits of coursework and a 6-credit thesis. The coursework will be selected in consultation with the supervisory committee to support the multi-disciplinary nature of the program. Six credits of coursework may be taken at the 300 or 400 level; the remainder must be at the 500 level and above.

Of the 24 credits of coursework, 3 credits are required from each of the following categories, including at least 6 credits at the 500 level:

- Historical Overview: LLED 441, ENGL 468, LIBR 522A, LIBR 522B
- Contemporary Children's/Young Adult Literature: LLED 442, LLED 449, LIBR 522A, LIBR 522B, LIBR 524, LLED 540, LLED 541
- Research Methodology: EDUC 500, LIBR 590

The remaining 15 credits of courses may be chosen from the wide range of offerings available in the Departments of English, French, Language and Literacy Education, Theatre, Film and Creative Writing, and the School of Library, Archival, and Information Studies; from relevant courses, not specific to children's literature, offered elsewhere at UBC; and from approved courses offered by other institutions.

A maximum of 12 credits earned no more than five years prior to entry into the program may be transferred from another institution or another program at UBC. Transfer credit will not be accepted for a course that has been applied to another degree. The degree may be

taken on a full-time or part-time basis. Students may begin the program in either term of Winter or Summer Session. The application dates are:

- for September admission: February 1
- for January admission: May 1
- for May admission: September 15

Thesis: The supervisory committee will advise on, monitor, and evaluate the six-credit thesis.

CIVIL ENGINEERING

Degrees Offered: Ph.D., M.A.Sc.

Members

PROFESSORS

P. E. Adebar, N. Banthia, S. Chieng, R. J. Fannin, E. R. Hall, M. Isaacson, G. A. Lawrence, B. J. Lence, K. V. Lo, D. S. Mavinic, A. D. Russell, S. F. Stiemer, T. A. Sayed, R. Vaziri, C. E. Ventura.

ASSOCIATE PROFESSORS

J. W. Atwater, T. M. Froese, J. A. Howie, L. Li, R. G. Millar, H. G. L. Prion, D. A. Shuttle, D. Wijewickreme.

ASSISTANT PROFESSORS

P. Bérubé, K. Elwood, T. Haukaas, J. Jenkins, B. Laval, S. Staub-French.

Program Overview

Civil Engineering offers two graduate degree programs under the Faculty of Graduate Studies: Master of Applied Science (M.A.Sc.), and Doctor of Philosophy (Ph.D.). In each of these programs, students may select one of the following areas of specialization:

- civil engineering materials
- environmental engineering (environmental fluid mechanics, geo-environmental engineering, pollution control and waste management, agricultural waste management)
- geotechnical engineering
- hydrotechnical engineering
- project and construction management
- structural and earthquake engineering
- transportation engineering

Persons interested in taking advanced graduate courses, but who do not wish to undertake a full graduate degree program, may apply on an Unclassified (i.e., non-degree) basis through Enrolment Services. Permission of the instructor is required before an Unclassified student can register in a course.

English Language requirements: TOEFL minimum score of 100 starting September 2005; IELTS minimum overall band of 7 with nothing less than 6.5 per individual test.

Doctor of Philosophy

ADMISSION REQUIREMENTS

Students admitted to the Ph.D. degree will normally possess a master's degree in civil engineering or a related area with a minimum GPA of B+ (76%–79%).

PROGRAM REQUIREMENTS

This research degree is offered in each of the areas of specialization listed above. The Ph.D. program is based on individual objectives with close supervision and consultation with a faculty advisor. The minimum number of course credits required beyond the bachelor's degree is 36; however, students generally need about one full year of coursework beyond a master's degree. A doctoral dissertation, including coursework, normally takes three to five years.

Master of Applied Science

ADMISSION REQUIREMENTS

Students admitted to the M.A.Sc. degree will normally possess a bachelor's degree in civil engineering or a related area with a minimum GPA of B+ (76%–79%).

PROGRAM REQUIREMENTS

This degree requires a minimum of 30 credits made up of at least 18 credits of coursework in addition to the research necessary for a master's thesis. At least 12 credits in graduate courses in civil engineering subjects are required.

Full-time students can complete the coursework requirements for the M.A.Sc. in two terms (Term 1: September to December; Term 2: January to April). Students in the M.A.Sc. program spend full time on directed research following completion of their coursework requirements. It usually takes 16 to 24 months of full-time study to complete the coursework and thesis requirements of the M.A.Sc. program.

Engineering Management Subspecialization:

The subspecialization is intended for all graduate engineering students seeking a more balanced education in both technical and management related subjects. The subspecialization requires students complete 12 credits in management-related courses while satisfying the requirements of their graduate engineering program. For more information, refer to the program website (www.civil.ubc.ca/ems).

Professional Partnership Program: Students may complete all or part of the work for their graduate degrees in a joint industry-university partnership program. Students spend part of their time working for industry or government and the rest at University, with joint supervision from faculty members and industry representatives. Details may be obtained from the department office.

Part-time Students: Students may complete the Master of Applied Science (M.A.Sc.) program on a part-time basis; however, part-time students may spread their program over not more than five years.

Master of Engineering

For information about the professional Master of Engineering (M.Eng.) program, please see

the Faculty of Applied Science, p. 107, or visit the program website (www.civil.ubc.ca).

CLASSICAL AND NEAR EASTERN ARCHAEOLOGY

Degree Offered: M.A.

Members

PROFESSORS

A. A. Barrett, S. D. Sullivan, R. Todd, E. H. Williams, R. J. A. Wilson.

ASSOCIATE PROFESSORS

D. Arbel, P. C. Burns, R. Cousland, F. De Angelis, C. Marshall, R. Menkis, P. G. Mosca, D. Neufeld.

ASSISTANT PROFESSORS

L. Bablitz, E. Cooper, D. Creese, R. Daum, F. De Angelis, T. Hikade, C. Johnson, C. Marshall, M. Yazigi.

Program Overview

The graduate program in Classical and Near Eastern Archaeology offers a course of instruction leading to the Master of Arts (M.A.). For detailed information about the program, please consult the program's website (www.cnrs.ubc.ca).

Degree Requirements

MASTER OF ARTS

The M.A. program requires a minimum of 30 credits of coursework and two comprehensive examinations. Of the 30 credits, 24 must be numbered 500 or above (graduate courses), while the remaining six may, at the discretion of the program, be at the 300- or 400-level (undergraduate). Students are also required to have completed a course in archaeological field training with high standing.

Prerequisites for the M.A. program include a Bachelor of Arts in Classics (Greek and Latin), Classical Studies (non-language program), Near Eastern Studies, Religious Studies, or a related discipline.

For details on the language prerequisites and requirements, see the program's website (cnrs.arts.ubc.ca/index.php?id=3745).

CLASSICS

Degrees Offered: Ph.D., M.A.

Members

PROFESSORS

A. A. Barrett, S. D. Sullivan, R. Todd, E. H. Williams, R. J. A. Wilson.

ASSOCIATE PROFESSORS

D. Arbel, P. C. Burns, R. Cousland, F. De Angelis, C. Marshall, R. Menkis, P. G. Mosca, D. Neufeld.

ASSISTANT PROFESSORS

H. Bablitz, E. Cooper, D. Creese, R. Daum, T. Hikade, C. Johnson, C. Marshall, M. Yazigi.

Program Overview

The Classics graduate program offers courses of instruction leading to both the Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.).

The M.A. in Classics is taken by concentrating on one of three fields: (1) Latin and Greek; (2) Latin; (3) Greek.

The Ph.D. in Classics offers a core program in Latin and Greek language and literature, and also less language-intensive options in Classical Archaeology and Ancient History.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy program consists of coursework, preliminary examinations, and research leading to a dissertation that is defended in an oral final examination.

Prerequisites for the Ph.D. include either (1) an M.A. in Classics or equivalent, or (2) in exceptional cases, an honours B.A. with First class standing and clear demonstration of advanced research ability.

For details on the prerequisites and the Graduate Regulations (including language prerequisites and requirements), see the program's website (cnrs.arts.ubc.ca/index.php?id=3746).

MASTER OF ARTS

There are two options for the Master of Arts:

- 1) Non-thesis Option. The degree will normally be attained by 30 credits of coursework in Latin and Greek, reading examination(s), and a major essay. Of the 30 credits, 24 must be numbered 500 or above (graduate courses), while the remaining 6 may, at the discretion of the program, be at the undergraduate level.
- 2) Thesis Option. In exceptional cases students who have completed 24 credits of Latin and/or Greek at the 400 level before entering the program will be allowed to attain the degree by coursework and thesis. Under this option the thesis counts for 12 credits. The remaining 18 credits must be in Latin and Greek courses numbered 500 or above.

Prerequisites for the M.A. program include a Bachelor of Arts in Classics or equivalent.

For details on the language prerequisites and requirements, see the program's website (cnrs.arts.ubc.ca/index.php?id=3746).

COMPARATIVE LITERATURE

Degrees Offered: Ph.D., M.A.

Members

PROFESSORS

J. X. Cooper, M. S. Duke, E. Durbach, M. Fee, A. V. Globe, G. Good, D. J. Gregory, S. E. Grace, E.-M. Kröller, J. O'Brian, G. J. Pratt, V. A. Raoul, R. Sarkonak, M. L. Weir.

ASSOCIATE PROFESSORS

V. D. Arbel, D. Boccassini, P. C. Burns, R. A. Cavell, R. F. De Grandis, N. S. N. Godfrey, N. Frelick, C. M. S. Hellwig, A. Lamontagne, T. M. Kemple, B. S. McLroy, J. S. Mostow, D. Neufeld, P. Petro, T. Salumets, A. Smith, S. Taubeneck, C. Testa, M. Vessey, G. H. Winthrop-Young.

ASSISTANT PROFESSORS

G. Onyeoziri-Miller, W. G. Winder.

Program Overview

While retaining a primary focus in the study of literary texts, the Program in Comparative Literature attempts to bridge the gaps which have arisen as a result of the institutional compartmentalization of knowledge, and thus to arrive at a more productive understanding of literature in global contexts. Through courses in the history of literary theory and in current developments in this rapidly expanding field, the program seeks to provide a foundation for the study of interrelationships among discourse systems in the humanities and social sciences. Students select from a range of courses in Comparative Literature, in the national literatures studied in their original languages, and in other related disciplines in order to develop a coherent program of individual study which will have its own logic and lead to interdisciplinary work of a high order.

Comparative Literature studies at the University of British Columbia may be grouped under four major headings. (Note that in each case texts in at least two different languages must be involved.)

- Comparisons across linguistic and cultural groups
- Comparisons among the Arts
- Comparisons across discourse systems
- Comparisons involving Western poetics and literary theory

For detailed information about the program and its requirements, please see the Comparative Literature website (complit.arts.ubc.ca).

Degree Requirements

DOCTOR OF PHILOSOPHY

The Ph.D. represents the culmination of training in the discipline of Comparative Literature.

Applicants must have fluency in three different languages including English and knowledge of literary texts studied in the three original languages. Normally an M.A. degree with First class standing is the prerequisite for admission. Applicants from certain countries outside North America, Great Britain, and Europe may be required to enrol in the M.A. program even if they already possess an M.A. degree. Students with a high 'A' standing and fluency in three languages who have passed the Qualifying Examination have the option of transferring into the Ph.D. program after one year of master's study. The languages studied must be available (taught) at the graduate level at UBC.

For detailed information, please consult the program's website (complit.arts.ubc.ca).

MASTER OF ARTS

Applicants to the M.A. in Comparative Literature at UBC must have academic training in the literature of three languages (English may be chosen) and have studied in the original three languages during their final two years as undergraduates. Language competence will be established by obtaining at least a high Second class grade in a fourth-year course (6 credits) in that language. Senior courses with a literary or theoretical focus will be accepted for entrance into Comparative Literature, but senior level courses in composition, reading knowledge, the translation of technical documents, and the like, will not be accepted. The languages studied must be available (taught) at the graduate level at UBC.

For detailed information, please consult the program's website (complit.arts.ubc.ca).

COMPUTER SCIENCE

Degrees Offered: Ph.D., M.Sc.

Members

PROFESSORS

B. Aiello, U. M. Ascher, K. S. Booth, A. Condon, J. Friedman, M. Greenstreet, G. Kiczales, D. G. Kirkpatrick, L. Lakshmanan, J. J. Little, D. Lowe, A. K. Mackworth, R. T. Ng, D. Pai, D. Poole, R. J. Woodham.

ASSOCIATE PROFESSORS

C. Conati, A. Doucet, W. Evans, M. J. Feeley, W. Heinrich, H. Hoos, A. Hu, N. Hutchinson, K. McLean, G. C. Murphy, R. Rensink, M. Van de Panne, S. T. Vuong, A. Wagner.

ASSISTANT PROFESSORS

R. Bridson, N. de Freitas, K. De Volder, G. Carenini, M. P. Friedlander, C. Greif, C. Krasic, K. Leyton-Brown, J. McGrenere, I. Mitchell, T. Munzner, K. Murphy, R. A. Pottinger, A. Sheffer, E. A. Wohlstadter.

Program Overview

The graduate program in Computer Science offers opportunities for advanced study leading to the Doctor of Philosophy and Master of Science. Fields of study include computational intelligence (computational vision, automated reasoning, multi-agent systems, intelligent user interfaces and machine learning), computer communications, databases, integrated systems design, computer graphics, distributed and parallel systems, integrated systems, human-computer interaction, scientific computational visualization, theoretical aspects of computer science (computational complexity, computational geometry, empirical algorithms and parallel processing), operating systems, networks, robotics, software engineering, programming languages, educational technologies, bioinformatics, and social issues in computing.

Degree Requirements

DOCTOR OF PHILOSOPHY

Applicants to the Doctor of Philosophy (Ph.D.) program must meet the minimum admission requirements of the Faculty of Graduate Studies.

All students enrolled in the Ph.D. program in Computer Science must satisfy a breadth requirement that covers a wide-range of fields of study within computer science. However, the primary focus of the Ph.D. program is the doctoral thesis. The thesis must demonstrate original knowledge in the student's field of study and must be defended at an oral final examination set up by the Faculty of Graduate Studies.

For detailed information about Ph.D. program requirements, please see the Computer Science website (www.cs.ubc.ca/prospective/grad).

MASTER OF SCIENCE

There are three options available to the M.Sc. student, as follows:

- 1) 18 credits of coursework plus a 12-credit M.Sc. thesis;
- 2) 24 credits of coursework plus a 6-credit M.Sc. thesis; or
- 3) 27 credits of coursework satisfying a breadth requirement plus a 3-credit master's essay plus an oral examination.

For detailed information about M.Sc. program requirements, please see the Computer Science website (www.cs.ubc.ca/prospective/grad).

Joyce Poon, Graduate Program Administrator

COUNSELLING PSYCHOLOGY

Degrees Offered: Ph.D., M.A., M.Ed.

Members

PROFESSORS

N. Amundson, W. Borgen, J. Daniluk, S. Kahn, B. Long, M. Westwood, R. Young.

ASSOCIATE PROFESSORS

M. Arvay, B. Haverkamp, I. Ishiyama, R. McCormick, I. Schultz.

ASSISTANT PROFESSORS

S. James, L. Miller.

Program Overview

The Counselling Psychology (CNPS) program offers the Ph.D., M.A., and M.Ed. degrees. The Ph.D. program is accredited by the Canadian and American Psychological Associations, and the master's programs are being reviewed for accreditation by the CCA Council on Accreditation of Counsellor Education Programs. Faculty members are involved in a wide range of research activities including intercultural counselling, First Nations counselling, career development and counselling, stress and coping, sexuality and reproductive health, disabilities, trauma, working with families and children in school settings, prevention of anxiety disorders, and empirically supported approaches utilizing both quantitative and qualitative methodologies.

Degree Requirements

DOCTOR OF PHILOSOPHY

Admission Requirements: Applicants must satisfy the general academic standards of the Faculty of Graduate Studies, and have completed a thesis-based master's degree equivalent to the CNPS M.A. in counselling (or its equivalent) with an overall average of at least 80%. Applicants are also required to write the Graduate Record Examination (GRE) general test, and, if applicable, the TOEFL test.

Program Requirements: The Ph.D. program is designed to educate counselling psychologists as researchers, practitioners, and educators. The focus of the program is on developing doctoral level competence in research, counselling theory and counselling skills. The program involves completion of 51 credits of coursework, theory and specialty comprehensive examinations, a 1,600 hour internship and a dissertation. In order for students to meet deadlines for comprehensive examinations and candidacy, the program requires students to be engaged in full-time study for a minimum of two calendar years.

MASTER OF ARTS

Admission Requirements: Applicants must satisfy the general academic standards of the Faculty of Graduate Studies. In addition, applicants should have completed a senior undergraduate course in abnormal psychology or behaviour disorders, learning, and statistics. CNPS 362, 363 and 365 also are required prerequisites. Applicants should have a minimum of three years work/volunteer experience that involves helping children, adolescents and/or adults. Applicants are required to write the Graduate Record Examination (GRE) general test, and, if applicable, the TOEFL test.

Program Requirements: The program requires completion of 48 credits of coursework and a 6-credit thesis. In addition to offering core courses in research, counselling theory and skill acquisition/practica, the program provides the opportunity for students to focus on one of the three areas recognized by the organization that accredits the program (CACEP). These areas of focus are School Counselling, Counselling in Higher Education, Community and Agency Counselling. The program may be completed on a full- or part-time basis.

MASTER OF EDUCATION

Admissions Requirements: Applicants must satisfy the general academic standards of the Faculty of Graduate Studies. In addition, applicants should have completed a senior undergraduate course in abnormal psychology or behaviour disorders, and learning. CNPS 362 and 365 also are required prerequisites. Applicants should have a minimum of three years work/volunteer experience that involves helping children, adolescents and/or adults. If applicable, applicants are required to write the TOEFL test.

Program Requirements: The program requires completion of 48 credits of coursework. In addition to offering core courses in counselling theory, skill acquisition/practica and research the program provides the opportunity for students to focus on one of the three areas recognized by the organization that accredits the program (CACEP). These areas of focus are School Counselling, Counselling in Higher Education, Community and Agency Counselling. The program may be completed on a full- or part-time basis.

CREATIVE WRITING

Degree Offered: M.F.A.

Members

PROFESSORS

S. Alderson, K. Maillard, L. Svendsen.

ASSOCIATE PROFESSORS
P. Thompson, B. Wade.

ASSISTANT PROFESSORS
M. Cadell, R. Tregobov, M. Medved.

Program Overview

The Creative Writing Program offers two streams of study leading to the Master of Fine Arts (M.F.A.). The first is a two year resident program. The second is an online distance program with part-time and residency options (see website for genres). All candidates may choose to take the M.F.A. in creative writing. Candidates in the resident program only may also concentrate in playwriting in conjunction with the Theatre Program (CRWR/Theatre) or in the joint Creative Writing & Film (CRWR/Film) program. The joint Creative Writing & Film (CRWR/Film) program requires that the candidate must be accepted by the Film program first before applying to the CRWR/Film program. Consult the film program website.

The Creative Writing Program publishes *PRISM international* (prism.arts.ubc.ca) and *FUGUE*; resident graduate students participate in the editing and production of the magazines.

Applicants to the Creative Writing Program should submit work in two or more of the genres listed in the Creative Writing brochure, specifying which is their major area of interest. Short and long fiction are considered one genre. Applicants who intend to focus on translation should submit translated material in any of the above genres and a sample of their own original creative writing. Consult the Creative Writing Program website or email for more information.

The deadline for receiving (not postmarked) manuscripts is November 3, 2006 for a September 2007 entrance date. Late manuscripts will not be considered. Length of the manuscripts accompanying the application depends on choice of genres. Guidelines are available from the Creative Writing Program Office or on the program's website (www.creativewriting.ubc.ca).

Degree Requirements

MASTER OF FINE ARTS
During the program, a minimum of 36 credits of work must be completed, including a thesis. (A reduction of the second-year residency requirement for resident students will be considered in exceptional circumstances.) The Creative Writing Program consists of work in three genres, chosen in consultation with the program advisor, as described in the program brochure.

In their final year, students will complete a 6-credit thesis consisting of a full-length work in the area(s) of their special interest. The thesis may be a substantial revision and extension of work done during the first year. A work of translation may be used to fulfil the thesis requirement by students with the required ability and linguistic knowledge. (M.A. candidates in the Comparative Literature Program who have their advisor's permission and are accepted by the instructor of the course in

translation may include a translation in partial satisfaction of their thesis requirements.)

Students may be required to take advanced creative writing undergraduate courses as part of their programs.

CREATIVE WRITING/FILM

Degree Offered: M.F.A.

Members

ASSOCIATE PROFESSORS
S. McGowan, P. Thompson.

Program Overview

The Creative Writing and Film Studies Programs of the Department of Theatre, Film, and Creative Writing offer a joint two-year course of resident study leading to the Master of Fine Arts (M.F.A.) in Creative Writing and Film. Please consult both the Film Program website (www.film.ubc.ca) and the Creative Writing Program website (www.creativewriting.ubc.ca) for additional information.

Degree Requirements

MASTER OF FINE ARTS
The joint Creative Writing and Film Studies Program requires that the applicant be accepted by the *Film Program*, p. 250, before applying to the Creative Writing/Film Program.

Only applicants with an undergraduate degree in 16/35mm Film Production and verifiable completion of a course in digital editing or the equivalent in professional experience and an undergraduate degree will be considered for admission.

CREATIVE WRITING/THEATRE

Degree Offered: M.F.A.

Members

ASSOCIATE PROFESSORS
S. Heatley, S. Malloy, B. Wade.

Program Overview

The Creative Writing and Theatre Programs of the Department of Theatre, Film, and Creative

Writing offer a joint two-year course of resident study leading to the Master of Fine Arts (M.F.A.) in Stage Playwriting. Applicants must be accepted by both the *Creative Writing*, p. 241, and *Theatre*, p. 285, Programs.

Degree Requirements

MASTER OF FINE ARTS
Admission to the M.F.A. in Stage Playwriting is on the basis of a script submission, including some work in another writing genre, and also relevant coursework in theatre at the undergraduate level or equivalent. Inquiries should be directed to the Creative Writing Program. Please consult the Creative Writing Program website (www.creativewriting.ubc.ca) for additional information regarding manuscript submission and deadlines.

Students are required to take appropriate coursework in Creative Writing and Theatre, as described in their respective brochures. They must also be involved in the staging or production of some of their own work and, in fulfillment of the six-credit thesis requirement, write the equivalent of a full-length stageplay acceptable to both programs. The thesis requirement must be met in the second year and may be a substantial revision and extension of work done during the first year.

CURRICULUM STUDIES

Degrees Offered: Ph.D., M.A., M.Ed.

Members

PROFESSORS
F. G. Chalmers, G. L. Erickson, P. J. Gaskell, R. Irwin, A. Kindler, L. Peterat, W. Pinar, S. Pirie, W. Ross, P. Seixas.

ASSOCIATE PROFESSORS
A. Anderson, J. Butler, A. Clarke, L. Farr Darling, P. Gouzouasis, K. Grauer, H. Hubball, D. Krug, J. Mayer-Smith, K. Meyer, C. Nicol, S. Petrina, A. Phelan, W. H. Werner.

ASSISTANT PROFESSORS
D. Anderson, J. Butler, P. Clark, S. Gerofsky, J. S. Goble, H. Hubball, S. Khan, L. Loutzenheiser, S. Nashon, C. Nicol.

Program Overview

Graduate programs in the field of Curriculum Studies encompass but are not limited to investigations into: the teacher education, the social construction of knowledge, the curriculum as culturally and politically situated, contemporary curriculum and instructional discourses, and the role of curriculum and curricular reform in K-12 and other learning environments. Students learn about issues

around planning and development, program implementation, and evaluation, and pre-service and in-service teacher education. Inquiry in the field is multi-disciplinary and includes numerous perspectives and orientations such as: cultural studies, historical consciousness, post structuralism, feminism, multicultural education, semiotics, and critical theory.

Degree Requirements

DOCTOR OF PHILOSOPHY

Admission Requirements: In addition to the Faculty of Graduate Study requirements, the program requires: a master's degree with high standing in a relevant educational discipline and evidence of potential to carry out research.

Degree Requirements: The Doctor of Philosophy program combines coursework with a research thesis. Students select their courses in consultation with faculty to suit their research needs. The doctoral program in Curriculum Studies is not based on the mastery of a specific body of knowledge covered in a set of courses. Rather, the program invites students at this advanced stage of study to work with their advisors in designing programs of course-work that provide a focus to their studies, along with supporting breadth. The common core to the program are two doctoral seminars (an introductory and an advanced). Subject areas establish additional requirements for their doctoral students. A student's coursework typically takes the form of 18 to 24 credits, with additional courses audited, over a one to two year period. The coursework, as it relates to the dissertation topic and proposed research method, may be drawn from both within and outside of the Faculty of Education.

MASTER OF ARTS

Admission Requirements: In addition to the Faculty of Graduate Study requirements, the program requires:

- 1) Normally, 18 credits of senior coursework or a professional concentration in the area of interest.
- 2) Normally, two years of teaching experience or other relevant professional experience.

Degree Requirements: The program consists of 30 credits. At least 15 credits must be at 500 level or above. A maximum of 6 credits may be taken at the 300 or 400 level. A thesis, normally 9 credits, is included.

Part-time and full-time study options are offered.

MASTER OF EDUCATION

Admission Requirements: Same as M.A.

Degree Requirements: The M.Ed. program consists of a minimum of 30 credits, of which 24 must be courses numbered at the 500 level. A maximum of 6 credits may be taken at the 300 or 400 level. Students select either a program consisting entirely of courses (for example, ten 3-credit courses) or 27 credits of coursework plus a graduating project (3 credits).

Part-time and full-time study options are offered.

CURRICULUM STUDIES AND EDUCATIONAL ADMINISTRATION AND LEADERSHIP

Degree Offered: M.Ed.

Members

PROFESSORS

D. Brown, C. Shields.

ASSOCIATE PROFESSORS

D. Coulter, W. Poole, A. Mazawi.

ASSISTANT PROFESSORS

M. Stack.

Program Overview

This program allows students to complete a joint master's program in Curriculum Studies and in Educational administration and Leadership. The focus of the program is K-12 schooling contexts.

Degree Requirements

MASTER OF EDUCATION

The 30-credit M.Ed. program includes 27 hours of coursework and a three-credit graduating paper, portfolio or capstone course. Students are expected to complete a minimum of 12 credits in EADM and 12 credits in CUST. For details on required and elective courses see the program's website (www.edst.educ.ubc.ca/programs/EADM_CUST.htm).

DENTAL SCIENCE

Degrees Offered: Ph.D., M.Sc., M.Sc./P.D.T.

Members

PROFESSORS

D. Bromme, D. M. Brunette, D. C. Clark, V. M. Diewert, D. Donaldson, M. P. Haapasalo, H. S. Larjava, A. A. Lowe, M. I. MacEntee, C. M. Overall, E. H. K. Yen.

ASSOCIATE PROFESSORS

B. J. Craig, R. L. Harrison, D. MacDonald, E. Putnins, J. M. Richman, C. R. Roberts, N. D. Ruse, R. M. Shah, D. Sweet, J. N. Walton, J. D. Waterfield, C. Wyatt, L. Zhang.

ASSISTANT PROFESSORS

J. M. Coil, L. Hakkinen, I. Matthew, R. W. Priddy, E. M. Whitney.

Program Overview

The M.Sc. program ordinarily requires two full academic years of study. There is also the option to enrol in the M.Sc. program as a part-time student. The Ph.D. program ordinarily requires at least three full academic years of study. Both M.Sc. and Ph.D. programs are research-oriented, consisting of didactic courses and original research carried out under supervision. Both the M.Sc. and Ph.D. programs are not clinical programs leading to clinical specialization and are unrelated to licensure.

The combined M.Sc. (Dental Science)/Diploma in Periodontics Program is a clinical specialty program. Normal course of study is three full academic years. Successful graduates are eligible to take the examination for the Fellowship Examination of The Royal College of Dentists of Canada and Diploma Exam of the American Board of Periodontology. Upon completion of the program graduates receive a Master of Science Degree in Dental Science and a Diploma in Periodontics.

Degree Requirements

DOCTOR OF PHILOSOPHY

Students in the Ph.D. in Dental Science are accepted under the general regulations of the Faculty of Graduate Studies to study in one of the major recognized fields of dentistry and dental hygiene. Applicants for a Ph.D. degree must hold a D.D.S., D.M.D., M.D., D.V.M. or their equivalents, or an M.Sc. in Dental Science or a related discipline.

MASTER OF SCIENCE

Applicants for a master's degree must hold a bachelor's degree with honours in the field of the proposed master's courses with First class standing in at least 12 credits of third- and fourth-year coursework in that field, or First class standing in at least 12 credits of the coursework and at least upper Second class standing in the remaining coursework at the third- and fourth-year level prescribed by the program concerned as prerequisite to the master's program.

MASTER OF SCIENCE WITH DIPLOMA IN PERIODONTICS

The Faculty, through its Division of Periodontics and Dental Hygiene, offers graduate training in Periodontics as a 3-year program aimed at producing clinical specialists. Applicants must satisfy the requirements for admission to the Faculty of Graduate Studies, and hold a D.M.D. or its equivalent from a recognized university.

H. Goelman, S. Hymel, M. Porath.

ASSOCIATE PROFESSORS

M. Bryson, L. Ford, A. Hubley, N. Perry, K. Schonert-Reichl.

ASSISTANT PROFESSOR

J. Shapka.

Program Overview

The graduate program in Development, Learning and Culture (DLAC) is concerned with key factors (cognitive, linguistic, social-emotional and cultural) that inform models of typical and atypical learning and development across the life span and how best to support learners and learning in formal educational and other settings. DLAC courses and research weave together theoretical models and concepts in their application to real world educational issues. Investigations of learning and development are applied to a wide range of contexts including classroom, work and technological environments, and are interpreted through a variety of theoretical lenses (e.g., constructivist, cognitive, socio-cultural, social-developmental). Students are encouraged to participate in educational research throughout their program. Coursework emphasizes four primary areas: 1) life span development and education, 2) design of learning environments, 3) culture and diversity, and 4) research methods, both qualitative and quantitative, experimental and developmental. DLAC graduates have found careers in a variety of settings including university teaching and research, social policy analysis, curriculum and program evaluation, community and business.

Degree Requirements

DOCTOR OF PHILOSOPHY

Doctoral students are expected to acquire a broad background within the field of educational psychology including a basic knowledge of theories, principles and models of learning/development, an understanding of developmental processes in the cognitive, social-emotional and cultural domains, an understanding of individual differences, atypical development, and individuals with exceptionalities, and familiarity with current approaches to research. Coursework is determined on an individual, case-by-case basis

in an individualized program of graduate studies developed by the student in consultation with his/her faculty advisory committee. Assuming an appropriate background at the master's level, students are required to take two to four DLAC content area courses at the advanced level (500 and 600 level), and at least one course (3 credits) from outside DLAC that is relevant to one's primary area of specialization. Students must also participate in a year-long, department-wide doctoral seminar (EPSE 601), complete at least two advanced courses in research methodology (qualitative and/or quantitative), pass a comprehensive examination to demonstrate breadth and depth of knowledge in the field, and complete and defend a doctoral thesis.

MASTER OF ARTS

Students in the 30-credit DLAC Master of Arts (M.A.) program are required to take three core courses: Human Development in Education (EPSE 505), Applications of Educational Psychology (EPSE 501), and Cultural Perspectives on Learning, Development and Media (EPSE 503), plus three elective courses either within the DLAC area (EPSE 584 on motivation, EPSE 585 on social-emotional development, EPSE 503 on cognition language and literacy processes, or 511 on a special topic) or outside the area, selected in consultation with the student's advisory committee. Two methodology courses, one in quantitative methods (e.g., EPSE 592), and one in qualitative methods (e.g., EPSE 595) are also required. In addition, students participate in a research seminar (EPSE 571) which is designed to facilitate progress toward completion of their master's thesis (6 credits).

MASTER OF EDUCATION

Students in the 30-credit DLAC M.Ed. program are required to take three core courses: Human Development in Education (EPSE 505), Applications of Educational Psychology (EPSE 501), and Cultural Perspectives on Learning, Development and Media (EPSE 503), plus four elective courses either within the DLAC area (EPSE 584 on motivation, EPSE 585 on social-emotional development, 503 on cognition language and literacy processes, or EPSE 511 on a special topic) or outside the area, selected in consultation with your advisory committee. Two additional elective courses are also required, selected in consultation with the student's program advisor. At the end of their program, students participate in a required Graduating Seminar (EPSE 590), which is designed as a "capstone experience" that brings together their goals and objectives as well as their accomplishments and experiences throughout the program in the development of a professional portfolio.

EARLY CHILDHOOD EDUCATION

Degrees Offered: M.A., M.Ed.

Members

PROFESSORS

M. Chapman, P. Crocker, K. Reeder, J. Shapiro.

ASSOCIATE PROFESSORS

A. Anderson, J. Anderson.

ASSISTANT PROFESSORS

L. Ford, M. Gleason, M. Kenrick.

Program Overview

Graduate programs in Early Childhood Education, offered through the Centre for Cross-Faculty Inquiry in Education (CCFI), are interdisciplinary, cross-departmental programs that consist of core courses in early childhood and related courses in departments. For example, approved elective courses might be found in child development, and special education (Department of Educational and Counselling Psychology & Special Education), in early literacy (Language and Literacy Education), in early numeracy (Curriculum Studies) or in the history of childhood (Educational Studies).

Degree Requirements

MASTER OF ARTS

The M.A. program is a thesis degree and consists of eight or nine courses plus the thesis/research study (ECED 599).

MASTER OF EDUCATION

The M.Ed. program consists of nine courses and a capstone experience (ECED 590: Graduating Paper).

ASSISTANT PROFESSORS
K. S. Anderson, M. Bombardier, G. Celik, A. Chneerov, M. Drelichman, S. Firpo, P. Ghosh, Y. Halevy, V. Marmer, K. Milligan, N. Nunn, S. Sakata, H. Siu, U. Song, O. Yilankaya.

Program Overview

The Department of Economics ranks as one of the top economics departments in Canada and graduates of the Ph.D. and M.A. programs have been offered jobs at prestigious institutions around the globe. The Department has internationally recognized expertise in many fields including: macroeconomics, labour economics, international trade and finance, environmental economics, industrial organization, information and incentives, economic theory, health economics, development economics and economic history. Programs are small enough to provide detailed supervision of dissertations, but large enough to offer expertise in a wide range of theoretical, applied and policy areas.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Ph.D. program is designed to equip students to design and implement an economic research program, with a view toward a career as an academic, or in the private or public sectors. Students take two years of coursework in the core areas of microeconomics, macroeconomics and econometrics in the first year and, in the second year, in fields of their choice. Students then write a dissertation (typically this takes two to three years) in their chosen field. Recent graduates have been offered tenure track positions at leading departments in Canada, the US, the UK, and Australia, as well as non-academic positions at consulting companies in Canada and the US, and in a variety of government departments.

MASTER OF ARTS

The M.A. program is a 12-month program designed to prepare students for employment in the private or public sectors, or to enter a Ph.D. program. Students take microeconomics, macroeconomics and econometrics courses, and then pursue fields of their choice. The program is capped off by an applied economics course and major paper intended to showcase the skills the students have mastered. Recent graduates have entered Ph.D. programs at Princeton, Stanford, and Michigan, as well as UBC's own Ph.D. program, and have taken positions at the Bank of Canada, Statistics Canada, KPMG and other consulting companies. For the placements of the most recent graduating class, see the Economics Graduates website (www.econ.ubc.ca).

Maureen Chin, Graduate Secretary

EDUCATION, CURRICULUM AND INSTRUCTION

Degrees Offered: Ph.D., M.A., M.Ed.

Members

This is an interdisciplinary program. Members of the Faculty of Graduate Studies in other Education programs are eligible to serve as supervisors of students in the CCFI programme. Faculty currently associated with the Centre for Cross-Faculty Inquiry in Education (as members of the Advisory Committee) include:

PROFESSORS

F. G. Chalmers, M. Chapman, M. Westwood.

ASSOCIATE PROFESSORS

M. Arvay, D. Butler, L. Farr-Darling, A. Phelan, T. Rogers, H. Wright.

Program Overview

G. Chalmers, Acting Director
Located in the Centre for Cross-Faculty Inquiry in Education (CCFI), two core courses "Living Inquiry in Learning Communities" and "Theorizing Knowing in Education" are at the theoretical heart of the M.Ed., M.A. and Ph.D. programs. In addition students are introduced to a broad spectrum of research methodologies and ways of (re)presenting research in education. Each year a variety of cross-faculty courses are offered to complement the programs and are also open to students from across the Faculty of Education. In addition EDCI students are encouraged to enrol in courses offered in other programs and faculties which may inform or enrich their work. Opportunities for individual flexibility, collaborative investigations, and a variety of communal experiences are built in to the program. As the Centre for Cross-Faculty Inquiry in Education has no permanent faculty, advisors and course instructors are selected from among members of the Faculty of Education, and occasionally from other faculties.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy program combines coursework (doctoral seminars, the two core courses "Living Inquiry in Learning Communities" and "Theorizing Knowing in Education," advanced courses in research methodology and (re)presenting research, and electives) with a research thesis. This small cross-faculty program is a response to the challenges of the twenty-first century offering educators dialogical, experiential and proactive spaces that

foster intercultural explorations and shared communication.

MASTER OF ARTS

The M.A. program is a thesis/research degree consisting of two core courses "Living Inquiry in Learning Communities" and "Theorizing Knowing in Education;" 6 credits in research methodologies/ways of representing research; elective opportunities (12 credits selected in consultation with an advisor); and a 6-credit thesis.

MASTER OF EDUCATION

The 30 credit M.Ed. program consists of nine courses and a capstone experience: EDCI 590 (Graduating Paper). Students complete two core courses "Living Inquiry in Learning Communities" and "Theorizing Knowing in Education;" six credits in research methodologies/ways of representing research; and elective opportunities (15 credits) are selected in consultation with an advisor.

EDUCATIONAL ADMINISTRATION

Degrees Offered: M.A., M.Ed.

Members

PROFESSOR
D. Brown.

ASSOCIATE PROFESSORS

D. Coulter, A. Mazawi, W. Poole.

ASSISTANT PROFESSOR

M. Stack.

Program Overview

The Master of Education program in Educational Administration attracts those who are interested in leadership positions in K-12 education. The program aims to engage students in learning that will help them to understand, critique, and thereby improve their practice to better serve children, communities, and the wider society. Graduates will be prepared to assume administrative roles as well as to provide leadership as teachers. The master's program is known for its ability to generate student professional growth. It challenges assumptions, offers new perspectives on organizational life, develops thinking skills, and has a distinctive Canadian content. A focus on education rather than training gives it a special character. This program has been operating for over 36 years and has over 800 graduates, many of whom occupy strategic roles such as superintendents, central office personnel, and principals in BC schools and districts.

Degree Requirements

MASTER OF ARTS

The M.A. in Educational Administration is for students wishing a more academic focus and the opportunity to complete a more in-depth research based thesis. Students must complete 30 credits of coursework which includes 24 credits of coursework plus a six-credit thesis. Course requirements are similar to the M.Ed. with the exception that M.A. student must complete six credits of research methods courses, rather than 3 credits for the M.Ed. For details on required and elective courses see the program website (www.edst.educ.ubc.ca/programs/mea.html).

MASTER OF EDUCATION

The M.Ed. program is considered a professional degree for people working in educational administration. Students must complete 30 credits of coursework which includes 27 credits of coursework plus a three-credit graduating paper or capstone course. For details on required and elective courses see the program website (www.edst.educ.ubc.ca/programs/mea.html). Students proceed at their own pace but start with a group whose members tend to share classes. Students can also pursue courses from other recognized universities. Completion may be as short as two and a half years but most students take three years to finish. Another way to take the program is in a cohort format on Saturdays for 24 months. There are cohorts in the Fraser Valley, on the North Shore and in Boundary Bay with others being planned.

EDUCATIONAL LEADERSHIP AND POLICY

Degrees Offered: Ed.D.

Members

PROFESSORS

K. Adam-Moodley, R. Boshier, D. Brown, D. Fisher, D. Kelly, D. Pratt, K. Rubenson, T. Sork, V. Strong-Boag, C. Ungerleider.

ASSOCIATE PROFESSORS

L. Andres, J.-A. Archibald, S. Butterwick, D. Coulter, J.-A. Dillabough, F. Echols, M. Gleason, M. Marker, A. Mazawi, W. Poole, L. Roman, A. Tom, D. Vokey, P. Walter.

ASSISTANT PROFESSORS

J. Chan-Tiberghien, M. Stack.

Program Overview

The Ed.D. in Educational Leadership and Policy provides advanced preparation for education practitioners with leadership and policy responsibilities in both formal and

nonformal settings. These settings include, among many others, the post-secondary sector, business and health organizations, unions, and community groups, as well as the K-12 school system.

The program is grounded in the belief that it is important for participants to engage in scholarly discourse about understanding, critiquing, and improving practice in educational settings. It consists of six required seminars, two elective courses, a comprehensive examination, and a thesis. While the program addresses Canadian educational issues and perspectives in a global context, it is the particular settings and leadership or policy responsibilities of the participants that are the starting points of seminars. The expertise of qualified adjunct faculty from related professional fields supplements that of the regular faculty members.

Degree Requirements

DOCTOR OF EDUCATION

Students are admitted to the Ed.D. in cohorts of 10 to 15 and proceed through the program as a group. It is possible to complete program requirements in three years but most students take somewhat longer. Each cohort attends classes on campus for two consecutive Summer Sessions (July to mid-August) and two consecutive Winter Sessions (on weekends from September to early April). Coursework consists of 18 credits of required seminars and six credits of elective courses. In addition, a comprehensive examination, and research leading to a Ed.D. thesis that is defended in an oral final examination are required.

For detailed information about requirements for the Ed.D. program, please see the Graduate Programs website (www.edst.educ.ubc.ca/programs/Ed-D/structure.html).

EDUCATIONAL STUDIES

Degrees Offered: Ph.D., M.A., M.Ed.

Members

PROFESSORS

K. Adam-Moodley, R. Boshier, D. Brown, D. Fisher, D. Kelly, D. Pratt, K. Rubenson, C. Shields, T. Sork, V. Strong-Boag, C. Ungerleider.

ASSOCIATE PROFESSORS

L. Andres, J.-A. Archibald, S. Butterwick, D. Coulter, J.-A. Dillabough, F. Echols, M. Gleason, M. Marker, A. Mazawi, W. Poole, L. Roman, A. Tom, D. Vokey, P. Walter.

ASSISTANT PROFESSORS

J. Chan-Tiberghien, M. Stack.

Program Overview

The Ph.D. in Educational Studies is a flexible, research-oriented doctoral program that can be pursued by students interested in any of the fields of study offered in Educational Studies.

These include: Adult Education (www.edst.educ.ubc.ca/programs/adult_ed.html), Educational Administration (www.edst.educ.ubc.ca/programs/mea.html), Higher Education (www.edst.educ.ubc.ca/programs/higher_ed.html), and Society, Culture and Politics in Education (www.edst.educ.ubc.ca/programs/SCPE.htm).

The only course that is required of all students is the first-year doctoral seminar. All other courses in a student's program are determined in consultation with a faculty advisor or program advisory committee and are based on the student's prior academic work and research interests. Students in the Ph.D. program typically devote two years to coursework, and two to four years to carrying out a research project designed to make an original contribution to knowledge in the area of specialization. The university allows doctoral students up to six years to complete program requirements. There is no set number of credits required for Ph.D. programs at UBC.

Degree Requirements

DOCTOR OF PHILOSOPHY

The first-year doctoral seminar (EDST 601) is required of all Ph.D. students in the program. Students are expected to take courses in their specialization and also typically take courses to give them the breadth and depth of understanding of contemporary educational theories, issues and debates expected of those pursuing the highest degree awarded by the university. All students in the Ph.D. program are required to successfully complete a comprehensive examination after most of their coursework is completed and before they present their research proposal.

The Ph.D. thesis is an original piece of research that contributes to knowledge in the student's area of specialization. Students develop research proposals which must be presented to and approved by a research supervisory committee made up of a research supervisor and at least two other committee members. Research supervisory committees provide direction to the student, read and critique drafts of the thesis, and, when the thesis is complete, participate in the oral final examination.

MASTER OF ARTS

Program Overview

The Master of Educational Technology (M.E.T.) (met.ubc.ca) is a Faculty of Education joint degree program offered online in partnership with *Tec de Monterrey*, p. 444, a Mexican University that has a special collaborative relationship with UBC. The program provides students with an opportunity to participate with a culturally diverse student population.

Degree Requirements

MASTER OF EDUCATIONAL TECHNOLOGY Admission Requirements: Students are required to meet the general requirements for admission to the Faculty of Graduate Studies at UBC. Students who started a *Technology Based Distributed Learning (TBDL)*, p. 200, or a *Technology Based Learning for Schools (TBLS) Certificate program*, p. 200, in 2002 or later may transfer their courses to the M.E.T degree program.

Program Requirements: The M.E.T. degree supports a professional development, course-based program (non-thesis) consisting of a minimum of 30 credits of coursework with at least 12 credits of core coursework and 18 credits of electives. An option of an independent project, integrating work across the program is available for students who wish to meet British Columbia's TQS Level 6 criteria or other similar qualification standards. Fees are on a per course basis. Further information can be obtained at met.ubc.ca or email info@met.ubc.ca.

V. Wong, J. Yan.

Program Overview

Graduation in electrical or computer engineering, engineering physics, physics, computer science, or other related subjects is a prerequisite. Some students may be required to supplement their graduate studies by taking specific undergraduate courses in electrical or computer engineering. Alternatively, interdisciplinary degrees may be appropriate and can be arranged.

Facilities are provided for research in: communications and signal processing; computers and computer applications; digital system design, VLSI design and software engineering; electromagnetics; power systems and power electronics; solid state devices; microelectronics, nanoelectronics and optoelectronics; robotics and telerobotics; and systems and control.

Collaboration with other departments is facilitated by membership in the *Advanced Materials and Process Engineering Laboratories (AMPEL)*, p. 83, *The Institute for Computing, Information and Cognitive Systems (ICICS)*, p. 80, and the *Pulp and Paper Centre*, p. 82.

Students should consult the Department of Electrical and Computer Engineering for information regarding courses to be offered. For details describing current research projects visit the Electrical and Computer Engineering website (www.ece.ubc.ca).

Degree Requirements

DOCTOR OF PHILOSOPHY

The program includes a thesis and 24 credits of approved courses. For those holding a master's degree or transferring from a master's program, appropriate credit will be given for courses completed.

MASTER OF APPLIED SCIENCE

The program includes a thesis plus (as a minimum) the University requirement of 18 credits of approved courses, 12 of which must be at the 500 level. Normally at least 6 of the

18 credits will be taken in Electrical and Computer Engineering, 12 credits for students with degrees in subjects other than electrical or computer engineering.

Qualified students are admissible to programs leading to the M.A.Sc. on a part-time basis.

For information about the professional Master of Engineering (M.Eng.) program, please see the *Faculty of Applied Science*, p. 107, or visit the program website (www.ece.ubc.ca).

Program Overview

The Department of Physics and Astronomy is comprised of over 50 faculty members with a wide range of research interests that cover most of the key topics in contemporary physics, applied physics, and astronomy. These activities are supported by computing and experimental facilities within the Department, and excellent electronics and machine shops. Research is enhanced by local facilities such as the TRIUMF National Laboratory, the Advanced Materials and Process Engineering Laboratory (AMPEL), and the BC Cancer Agency, UBC and Vancouver General Hospitals, in addition to many specialized research laboratories housed within the Department. Over the years, applied research within UBC's Department of Physics and Astronomy has spawned a number of spin-off companies such as Dynapro, MoLi Energy, Vortek, Quartz Imaging, Xillix, TIR Systems, Sonigistics, Techware Systems, Corona

Vacuum Coaters, and Brooks Automation. Although there is a great deal of collaboration and overlap of interests among the various groups, the research topics presently available to incoming students with specific interest in applied physics can be roughly grouped into the following areas:

- Applied Physics
- Medical Physics
- Applied Biophysics
- Nuclear and Particle Physics
- Astronomy and Astrophysics
- Atomic, Molecular, and Optical Physics
- Condensed Matter Physics
- Structured Surface Physics

Full details on research programs and facilities are available on the departmental website (www.physics.ubc.ca) and the AMPEL website (www.ampel.ubc.ca).

Degree Requirements

DOCTOR OF PHILOSOPHY

The Department offers Ph.D. programs in Engineering Physics. Students can be admitted to the Ph.D. program after obtaining a Master of Science, or Master of Applied Science. A minimum of 12 credits in graduate level courses in any Science or Applied Science (or Medicine for Medical Physics students) departments are required for the Ph.D., with details of the course load determined in consultation with the thesis advisor and supervisory committee, but must conform to the department's quantum mechanics requirements. Students who do not already have credit for the required master's degree courses for their program or the equivalent graduate-level courses from another university (approved by Graduate Chair) must take these courses in the Ph.D. program. Alternatively, well-qualified students admitted to the M.A.Sc. program may transfer to the Ph.D. program after a year's residence at UBC if they have at least 18 credits in M.A.Sc. coursework with an overall average of at least 85%, clear evidence of research ability, and approval of the thesis supervisor. Direct transfer students require a further 12 credits of graduate level coursework in any Science or Applied Science departments for the Ph.D.

MASTER OF APPLIED SCIENCE

A B.A.Sc. in Engineering Physics or Electrical Engineering is a prerequisite. An overall average of 'A-' or better in third- and fourth-year courses is expected for entry into the program. The M.A.Sc. program requires a minimum of 30 credits with the thesis counting 12 credits. The remaining 18 credits must include at least 12 credits from graduate courses in any Science or Applied Science departments, and may include up to 6 300 or 400 level credits in undergraduate courses. All M.A.Sc. students are required to satisfy the Department's quantum mechanics course requirements.

L. K. Arnovick, P. Badir, M. Burgess, M. Chapman, P. Dalziel, S. Echard, J. Flick, R. B. Hatch, L. Kesler, E. P. Levy, K. McNeilly, J. Z. Segal, S. M. Tomc, M. Vessey, M. Zeitlin.

ASSISTANT PROFESSORS

S. Anger, M. Briggs, B. Dancygier, J. de Villiers, G. Deer, A. Dick, A. Frank, S. Guy-Bray, E. Hodgson, J. K. Kealy, C. Lupton, J. Menon, L. Moss, M. Mota, S. B. Partridge.

Program Overview

The Department of English has awarded the M.A. degree since 1919 and the Ph.D. degree since 1962. In 2003-2004, approximately 100 students from Canada, the United States, and other countries were enrolled in graduate studies in English at UBC.

The department offers the following degrees:

- Master of Arts (M.A.): English literature or language, with or without thesis, full-time or part-time
- Doctor of Philosophy (Ph.D.): English literature or language, full-time only

Degree Requirements

DOCTOR OF PHILOSOPHY

The program limits Ph.D. admissions to students with at least First class standing in the M.A. degree, and also advises that entry to the program is very competitive: First class standing at the M.A. is not enough in itself to guarantee admission.

Students undertaking Ph.D. studies in English, with either a language or literature emphasis, will complete 18 credits of coursework in their first year of study, prepare for and write their Qualifying Papers in Year 2, write their thesis prospectus for approval at the beginning of Year 3, and research into their theses in Years 3 and 4.

In their first year of Ph.D. study, students take 18 credits of coursework (six graduate seminars). Coursework enables students to prepare for research, as well as to broaden their knowl-

edge of the discipline and fulfil the breadth expectations.

Students consult with the Ph.D. advisor and their qualifying supervisor in planning their coursework. Students of contemporary areas of English will be reminded of the value of advanced study of historical periods and topics in professional preparation. Serious study in a range of areas gets students ready for their own projects, and for the job market.

Normally, students select courses from the rich variety of graduate seminars (www.english.ubc.ca/grad/sem2005.htm) offered by the program each year.

MASTER OF ARTS

Non-thesis option: M.A. in Literature or Language. Thirty credits of coursework, of which not more than 6 credits may be 300 or 400 level courses.

Thesis option: M.A. in Literature or Language. Twenty-one credits of coursework, of which not more than 6 may be 300 or 400 level courses and a 9-credit thesis and oral examination.

M.A. applicants must normally hold a bachelor's degree with a minimum of high Second class standing (76% or better) or a grade point average of at least 3.33 on a four-point scale based upon all academic courses taken during the two senior undergraduate years. While upper-year English grades are the most important feature of a record, applicants should note that a First class record overall is preferred.

While applicants who have minimum requirements and grade point averages are eligible to be considered for admission, spaces in the M.A. program are very limited and lower grade averages are usually not competitive.

For detailed information on M.A. admission and program requirements, please see the graduate program website (www.english.ubc.ca/Grad/Grad.htm).

EUROPEAN STUDIES

Degree Offered: M.A.

Members

ASSOCIATE PROFESSORS

S. Godfrey, J. Torpey.

ASSISTANT PROFESSORS

S. Gaenzle, M. Kuus, L. Biukovic.

Program Overview

The *Institute for European Studies*, p. 80, offers a Master of Arts program in European Studies. The M.A. program in European Studies is a two-year, full-time, interdisciplinary course of study that addresses the need for students to meet and understand the complex and changing realities of European politics, economics and culture in the twenty-first century. With the enlargement of the European Community, Europe represents a major political and cultural force as well as a major trading partner for Canadians. Students trained in the M.A. program will be well equipped to go on to academic research interests centring on Europe or professional career opportunities with a European focus.

Degree Requirements

MASTER OF ARTS

- The Master of Arts in European Studies is awarded on the completion of 30 credits of coursework or 21 credits of coursework plus a 9-credit thesis.
- A prerequisite or corequisite for the program is HIST 463: Europe in the Twentieth Century: Europe since 1945, or equivalent.
- Students must take five core courses and write either a master's thesis or take a total of 30 credits.
- First-year students in the M.A. program will be expected to take a 1-credit pro-seminar in European Studies to be offered every two weeks for one year. The seminar is designed to ensure a sense of community among European Studies students by bringing them together as a group on a regular basis.
- Elective courses will be selected in consultation with the program's graduate advisor to support the interdisciplinary nature of the program. Electives should constitute a coherent field of study and should include at least one humanities course.

R. Armstrong, J. Dutz, J. Fitzgerald, S. Hayashi, R. Hegele, A. Karsan, N. Khalil, T. Oxland, T. Podor, D. Reid, C. Roberts, W. P. Robinson, C. Seow, C. Shaw, E. Skarsgard, P. Sorensen, R. Stokes, H. Ward, P. Wilcox.

ASSISTANT PROFESSORS

C. Helgason, F. Rossi, Y. Av-Gay, A. Cherkasov, M. Cox, D. Dorscheid, S. Dunn, M. Grigg, Z. Hmama, J. Kast, K. Khan, M. Levings, G. Li, H. McKay, K. McNagny, A. Mui, D. Nandan, C. Nelson, D. Redenbach, B. Salh, S. Spacey, T. Steiner, B. Vallance, P. von Dadelszen, Y. Zhou.

Program Overview

The Experimental Medicine Program is intended for individuals seeking a career in medical research. It furnishes the opportunity for students to work toward both the Master of Science and Doctor of Philosophy in the following specialties: cardiology, cancer biology, dermatology, gastroenterology, hematology/oncology, infectious diseases, molecular medicine, nephrology, neurology, and respiratory medicine. All these fields can involve patients and/or experimental animal models.

The Experimental Medicine Program accepts students with career goals compatible with the training the program provides. The requirements of the Faculty of Graduate Studies must also be met. A suitable research supervisor must agree to accept a potential student prior to an offer of admission to the program.

Please note that a TOEFL score of 590 or greater is required for international students applying to this program.

Students should contact the Experimental Medicine Program Office for further information. A brochure is available on request.

Degree Requirements

DOCTOR OF PHILOSOPHY

Normally, applicants for the Ph.D. program will have a M.Sc. in life sciences, biology, zoology or biochemistry. Students with equivalent degrees may also apply for admission.

MASTER OF SCIENCE

Normally, applicants for the Master of Science program will have a Bachelor of Science in life sciences, biology, zoology or biochemistry, or have a M.D., D.M.D. or D.V.M. Students with

equivalent degrees may also apply for admission.

FAMILY STUDIES

Degree Offered: M.A.

Members

PROFESSORS

A. Martin-Matthews, D. Perlman, J. M. White.

ASSOCIATE PROFESSORS

P. J. Johnson, J. Ponzetti.

ASSISTANT PROFESSORS

S. Marshall, C. Yodanis.

Program Overview

The Master of Arts in Family Studies program is an interdisciplinary program that stresses behavioral sciences relevant to family development, life span human development in the family context, and family resource management. In addition to satisfying the normal admission requirements of the Faculty of Graduate Studies, the applicant must have an undergraduate degree in Family Studies or in a relevant behavioral or social sciences program.

For information on the Ph.D. Program see *Social Work and Family Studies*, p. 275.

Degree Requirements

MASTER OF ARTS

The master's program requires a minimum of 30 credits including 18 credits of coursework and a 12-credit thesis. At least 12 credits of coursework must be at the 500 level including the three required courses: FMST 520, 522, and 523. Elective courses which form a coherent plan of study compose the remainder of the coursework. In addition to the formal coursework, as evidence of research and scholarly capability, a thesis (12 credits) is required.

FILM STUDIES

Degrees Offered: M.A., M.F.A.

Members

PROFESSOR
B. McLroy.

ASSOCIATE PROFESSORS
C. Gallagher, S. McGowan.

ASSISTANT PROFESSOR
L. Coulthard.

Program Overview

The Film Program offers the Master of Arts (M.A.) in history/theory/criticism and the Master of Fine Arts (M.F.A.) in Film Production. Each is a two-year course of study and requires, as a prerequisite, an undergraduate degree in film or the equivalent.

The Film Program and Creative Writing Program offer a Joint M.F.A. in Film and Creative Writing. The successful applicant must first be accepted into the Film Production M.F.A. For details of this joint program, please see the Film Program website (www.film.ubc.ca) or the Creative Writing website (www.creativewriting.ubc.ca).

The UBC Library has an extensive holding of film studies literature, and the program provides film production and post-production equipment.

Further information may be obtained from the program's website (www.film.ubc.ca). The Film Program is part of the Department of Theatre, Film and Creative Writing.

Degree Requirements

MASTER OF ARTS

For detailed information about specific application and program requirements for the Master of Arts in the Film Program program, please visit the Film Studies website (www.film.ubc.ca/programs/studies/film_studies_ma.htm).

MASTER OF FINE ARTS

For detailed information about specific application and program requirements for the Master of Fine Arts in Film Production program, please visit the Film Production website (www.film.ubc.ca/programs/production/film_production_mfa.htm).

Please see *Creative Writing/Film*, p. 242, for information about the joint Creative Writing and Film M.F.A. program.

FINE ARTS

Degrees Offered: Ph.D., M.A., M.F.A.

Members

PROFESSORS
M. S. Cohodas, S. Guilbaut, K. Lum, J. O'Brien, R. Prince, S. Watson, R. Windsor-Liscombe.

ASSOCIATE PROFESSORS
M. P. Ryan, C. Townsend-Gault, B. Zeigler.

ASSISTANT PROFESSORS
X. Gu, K. Hacker, C. Knicely, N. Nisbet, M. Pina, M. Roy, H. Tsao, W. Wood.

Program Overview

The Department of Art History, Visual Art, and Theory offers opportunities for advanced study of art history in the major periods of European and North American art, in certain areas of Asian art and in the indigenous arts of the Americas leading to the Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.). It also offers advanced studies in visual art, leading to the Master of Fine Arts (M.F.A.). For information about the Critical and Curatorial Studies option, leading to the Master of Arts in Art History (Critical Curatorial Studies), please see *Art History (Critical Curatorial Studies)*, p. 233.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Ph.D. in Art History encourages high scholastic achievement, original research, and firm theoretical grounding. Normally, admission to the Ph.D. requires the completion of an M.A. in Art History, including reading knowledge of one language other than English. Students with master's degrees in related fields may be required to complete additional art history courses for their Ph.D. program.

The program involves coursework, a language requirement, two comprehensive examinations, a thesis proposal, a round table presentation and a Ph.D. thesis. Students are normally required to take coursework at the 500 level, including ARTH 571, the methodology seminar, unless it has been taken within the previous five years. Exams require students to be proficient in both a major and a minor field, in order to qualify them for both doctoral thesis research and university teaching. Reading knowledge of a second language, other than English, (the first language having been required for the M.A.), relevant to the field of study is also required. Students are admitted to candidacy once they have completed the residency period, all required coursework, the language requirement, and passed the candidacy examinations.

MASTER OF ARTS

The M.A. in Art History is a two-year program with thesis, designed to instruct students in methods of research and presentation of scholarly materials. It qualifies them for professional work in the discipline. Applicants for the M.A. program in Art History should have preparation in the discipline equivalent to the undergraduate major at UBC.

The M.A. degree requires 30 credits of which 24 credits must be in courses numbered 500 or above. These will include the methodology seminar (ARTH 571, 6 credits) and the master's thesis (ARTH 599, 6 credits). Reading knowledge of one language other than English and relevant to the field of study is required.

MASTER OF FINE ARTS (VISUAL ART)

The program provides a period of intensive conceptual and technical development for those students wishing to pursue a professional career in advanced contemporary art. The M.F.A. degree is also the standard qualifying degree for teaching visual arts at the post-secondary level. The M.F.A. program is dedicated to helping students understand both the making and theorizing of the art object against the background of the diverse intellectual environment of a major university.

Students in the program may work in any area of contemporary art production including painting, drawing, printmaking, three-dimensional and installation work, photography, digital, multimedia, or in any interdisciplinary form. The program does not include training in applied art, commercial art and design, film or television.

Applications will be considered from persons who hold a bachelor's degree and satisfy the requirements for admission to Graduate Studies. Applicants normally hold a B.F.A., B.A. or B.Ed. degree with a major in Visual Art. It is strongly advised that, at a minimum, an applicant have 18 academic credits (i.e., non-visual art courses) at the 300 level or above, with at least a 'B-' (68%) standing in each. This is to ensure that, if admitted, the student will benefit from the academic components of the program.

Important consideration governing the admission process is the assessment of the portfolio submitted as evidence of artistic standing. Assessment is also based on the statement of intent, letters of reference, academic record, published writing or other evidence of achievement.

The M.F.A. program requires two academic years of coursework and completion within two years (24 months) minimum and five years (60 months) maximum after initial registration. The specific requirements are as follows:

- 1) VISA 581 (12 credits) and VISA 582 (12 credits). These seminars constitute an integrated, two-year Visual Art program worked out in consultation with the student, leading to the final major paper and exhibition.
- 2) Academic courses, numbered 400 or above, carrying a total of 12 credits.

The M.F.A. degree is awarded after the successful completion of all coursework, the round-table presentation, a final exhibition of art work and completion of a major paper. The final exhibition of work must demonstrate to the satisfaction of the faculty the candidate's capacity for independent creative work. The major paper should focus on a topic related to the student's own interests and artistic practice placing the creative work in the context of both

the intellectual interests of the candidate and a wider field of study. At least one external examiner will be involved in the examination of the final presentation and major paper.

Leah Buchan, Graduate Secretary

FOOD SCIENCE

Degrees Offered: Ph.D., M.Sc.

Members

PROFESSORS

T. Durance, D. D. Kitts, E. Li-Chan, H. Van Vuuren.

ASSOCIATE PROFESSORS

C. Scaman, B. J. Skura.

ASSISTANT PROFESSOR

S. Lund., V. Measday.

Program Overview

The Food Science graduate program offers opportunities for advanced study and research leading to M.Sc. and Ph.D. degrees in the areas of Food Chemistry and Biochemistry, Food Process Science, Food Microbiology, Food Safety and Toxicology, Food Biotechnology, Food Quality Evaluation and Wine Biotechnology. The Food Science graduate program also offers a Master of Food Science (M.F.S.) degree, with a focus on professional rather than research skills. The M.F.S. program is designed for food professionals in government, industry, or private practice, who are looking to expand their knowledge and skills in the food science discipline.

Research areas of faculty members in the Food Science graduate program are described in the Faculty section of the website (www.agsci.ubc.ca/grad/food_sc.htm). Students may also be involved in research projects in collaboration with adjunct faculty and researchers from other university departments, Agriculture and Agri-Food Canada, Fisheries and Oceans Canada, or other research centres.

Applicants to the graduate program in Food Science are expected to have completed prerequisite fundamental undergraduate courses in organic chemistry, biochemistry, calculus, physics, statistics, and microbiology. Applicants who lack some of these prerequisites and/or who do not have previous undergraduate background courses in the field of food science (food process science, food chemistry, food analysis, food laws, regulations and quality assurance, micro-organisms in food systems, and principles in food engineering) may be required to take additional coursework for their program. Applicants who have completed a degree in which English is not the primary language of instruction must present evidence of sufficient

competency to pursue studies in the English language prior to admission. Specific requirements can be found at the Graduate Studies TOEFL and GRE Requirements page (www.students.ubc.ca/calendar/index.cfm?tree=12,204,345,0).

Degree Requirements

PH.D. ADMISSION REQUIREMENTS

Students admitted to the Ph.D. degree program will normally possess an M.Sc. degree in Food Science or a related area, with clear evidence of research ability of potential. Transfer from the M.Sc. to the Ph.D. program is permitted under regulations set by the Faculty of Graduate Studies.

PH.D. PROGRAM REQUIREMENTS

Students admitted to the Ph.D. degree will normally possess an M.Sc. in Food Science or a related area. Transfer from the M.Sc. to the Ph.D. program is permitted under regulations set forth by the Faculty of Graduate Studies.

All Ph.D. students are required to take FOOD 600 (Graduate Seminar). Students are also required to complete 6 credits of graduate level Food Science courses, but courses completed during an M.Sc. program may be used to satisfy this requirement. Additional coursework may be selected in consultation with the student's supervisory committee. All Ph.D. students are required to take a comprehensive examination. The major requirement for the Ph.D. is completion of a research thesis demonstrating ability to conduct significant and original scientific research.

M.SC. ADMISSION REQUIREMENTS

Students admitted to the M.Sc. degree program will possess a B.Sc. degree in Food Science or a related area, and must meet the general requirements for master's degree programs set by the Faculty of Graduate Studies.

M.SC. PROGRAM REQUIREMENTS

The M.Sc. degree requires successful completion of 12 credits of thesis research plus a minimum of 18 credits of coursework. The coursework includes FOOD 500 (Graduate Seminar), a minimum of 6 credits of graduate-level Food Science courses, and other courses that may include a maximum of 6 credits of senior-undergraduate level courses. Additional coursework may be recommended upon consultation with the student's supervisory committee.

Program Overview

The graduate program in Forestry offers advanced study in natural and social science, management, and economic aspects of forestry and wood science, in an interdisciplinary setting. Detailed information about specific areas of research can be found on the Faculty of Forestry website (www.forestry.ubc.ca).

The program offers opportunities for advanced study in a broad array of topics in forest resources management, forest sciences, and wood science. Topics include: Forest resource management (forest operations, forest economics, terrain stability, forest policy, sustainable forest management, biometrics and mensuration, forest engineering, growth and yield, remote sensing, environmental perception, hydrology, timber supply planning, visualization, environmental sociology, conservation policy, systems analysis, and environmental ethics); Forest sciences (forest genetics, population ecology, genomics and biochemistry of trees, conservation biology, quantitative genetics, fire science, water quality, landscape ecology, soil ecology, plant physiology, aquatic ecology and fish conservation, modeling forest ecosystems, research methods, soil quality, silviculture, avian ecology, forest entomology, forest nutrition, stream-riparian ecosystems, forest ecology, silvics, and forest pathology); Wood science (wood physics and drying, wood products engineering, forest products biotechnology, forest products marketing, wood products processing, wood anatomy and quality, photoprotection and modification of wood, advanced biomaterials, forest products business management, wood mechanics, biotechnology and chemistry of wood fibres, engineered timber structures design, wood preservation, wood composites, and operational research and performance).

The *Centre for Applied Conservation Research (CACR)*, p. 74, investigates science-based solutions to complex problems within managed and natural landscapes. The Centre for Advanced

Wood Processing (CAWP) is a national centre for education, extension and research for the advanced wood products industries. A graduate program in *Soil Science*, p. 282, is offered jointly with the Faculty of Land and Food Systems.

The Faculty operates three research forests near Vancouver, Williams Lake, and Prince George (with UNBC), which support many research and education activities.

The Faculty encourages international and First Nations students to be involved in our research.

Degree Requirements

DOCTOR OF PHILOSOPHY

A research-based master's degree in an appropriate area is a prerequisite. Any coursework is selected in consultation with the student's supervisory committee.

MASTER OF APPLIED SCIENCE

A Bachelor of Applied Science (B.A.Sc.) or higher degree in engineering is a prerequisite.

The Master of Applied Science in Forestry program includes a thesis (6 to 18 credits), a Forestry communications course FRST 544 (or approved alternate), and other approved courses for a total of 30 credits. The program may also be taken without thesis.

MASTER OF FORESTRY

A bachelor's degree equivalent to the B.S.F., or B.A.Sc. in forest engineering is a prerequisite.

The Master of Forestry program includes a thesis (6 to 18 credits), a Forestry communications course FRST 544 (or approved alternate), and other approved courses for a total of 30 credits. The program may also be taken without thesis.

MASTER OF SCIENCE

A bachelor's degree in science, applied science, agricultural sciences, social science or forestry is a prerequisite.

The Master of Science in Forestry program includes a thesis (6 to 18 credits), a Forestry communications course FRST 544 (or approved alternate), and other approved courses for a total of 30 credits. The program may also be taken without thesis.

FRENCH

Degrees Offered: Ph.D., M.A.

Members

PROFESSORS

R. Beaudoin, D. Boccassini, H. Curat, R. Hodgson, A. Lamontagne, J.-A. McEachern, V. Raoul, R. Sarkonak, C. Testa.

ASSOCIATE PROFESSORS

N. Frelick, S. N. Godfrey, G. Onyeoziri-Miller, D. Rogers, C. Rouget.

ASSISTANT PROFESSORS

C. Phan, A.-M. Rocheleau, W. G. Winder.

Program Overview

The graduate program in French offers opportunities for advanced study in the language and literatures of France and Québec, as well as African and Caribbean literatures in French, leading to the Ph.D. and to the M.A. with or without thesis.

The UBC Library and the Departmental Reading Room have extensive holdings in French.

The program makes available a list of courses to be offered as early as possible, usually in February of the preceding academic year.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy program consists of coursework, a qualifying examination, candidacy examinations, and research leading to a dissertation that is defended in a final oral examination. See the graduate regulations located on the website (www.fhis.ubc.ca) for details.

MASTER OF ARTS

There are two options for the Master of Arts:

- 1) **M.A. without Thesis.** This option requires 30 credits of coursework, up to 6 of which may be drawn from 400-level undergraduate courses in literature or linguistics given in French, and a graduating essay followed by an oral examination.
- 2) **M.A. with Thesis.** This option requires 24 credits of coursework, up to 6 of which may be drawn from 400-level undergraduate courses in literature or linguistics given in French, and a 6-credit thesis followed by an oral thesis defence.

GENETIC COUNSELLING

Degree Offered: M.Sc.

Members

PROFESSOR

A. D. Sadovnick.

ASSOCIATE PROFESSOR

L. A. Clarke, S. F. Langlois.

ASSISTANT PROFESSOR

L. Arbour.

PROGRAM DIRECTOR

A. Dircks

Program Overview

The Department of Medical Genetics, through the Faculty of Graduate Studies, offers a two-year graduate program leading to a M.Sc. degree in Genetic Counselling. Students entering the Program will be eligible to apply for "Active Candidate" status for both the American Board of Genetic Counseling (ABGC) and the Canadian Association of Genetic Counsellors (CAGC) certification exams.

The Program is a non-thesis program that consists of coursework in basic, molecular, and clinical genetics; counselling techniques; and bioethics as well as practical experience through clinical and laboratory rotations. Students also attend and participate in educational sessions offered by the Department of Medical Genetics and other departments within the Hospital and University.

Degree Requirements

MASTER OF SCIENCE

Applicants for the Program come with a wide range of life experiences and communication skills. These are evaluated along with the individual's academic transcript. Applicants are expected to have a minimum of a B.Sc. or equivalent degree. Previous coursework needs to include a strong genetics component as well as biochemistry and basic statistics. Coursework in embryology, human anatomy/physiology, and psychology/counselling is an asset. It is essential that applicants have one-on-one counselling experience (either paid or volunteer) in a setting such as a Distress Line, Peer Counselling, Hospice, Rape Relief Centre etc. It is also important that candidates have knowledge of the profession and, if possible, experience in a clinical genetics unit. This may be obtained through volunteer work, a Work Study position or a Directed Study project.

Please contact the Program Secretary for an application package or visit the program's website (www.medgen.ubc.ca/programs/mast-gen.htm) for further information.

Program Overview

Studies leading to the Master of Science and Doctor of Philosophy in Genetics and Genomics are available through the Genetics Graduate Program in the Faculty of Graduate Studies.

The Genetics Graduate Program is flexible and is intended to accommodate the diverse background of students and the broad nature of genetic research. Students who apply for entrance must satisfy the general regulations of the Faculty of Graduate Studies, and must be acceptable to the Genetics graduate program admissions committee and to the head of the department in which they will work.

The student's graduate program will be decided by the student, thesis supervisor, and the thesis committee. All students must complete 18 credits of coursework in their first year, including GENE 502, and meet the formal requirements of the Faculty of Graduate Studies. In addition, students are strongly advised to take a seminar course if possible. The supervisor and thesis committee will ensure that the student takes courses that remedy any deficiencies in the student's undergraduate preparation.

Degree Requirements

DOCTOR OF PHILOSOPHY

Each student proceeding towards a Ph.D. must pass an oral qualifying examination within the first 18 months of study. All students are expected to attend seminars regularly during all years of their registration in the program. All students are required to present a Genetics Program seminar upon completion of their program, and before the thesis defense.

A student's committee for the doctorate will consist of the supervisor and three others. The supervisor and at least one other member must be members of the Genetics graduate program. For detailed information about application and program requirements, please visit the program's website (www.genetics.ubc.ca).

MASTER OF SCIENCE

A student's committee for the Master of Science will consist of the supervisor and two others. The supervisor and at least one other member must be members of the Genetics graduate program.

For detailed information about application and program requirements, please visit the program's website (www.genetics.ubc.ca).

GEOGRAPHY

Degrees Offered: Ph.D., M.A., M.Sc.

Members

PROFESSORS

T. J. Barnes, M. A. Church, D. J. Gregory, D. J. Hiebert, D. F. Ley, D. M. McClung, I. G. McKendry, T. R. Oke, G. J. Pratt, J. B. Robinson, D. G. Steyn, R. B. Stull, G. C. Wynn.

ASSOCIATE PROFESSORS

P. H. Austin, D. W. C. Edgington, G. H. R. Henry, B. Klinkenberg, R. D. Moore, E. K. Wyly.

ASSISTANT PROFESSORS

K. J. Bakker, M. D. Buzzelli, L. D. Daniels, B. C. Eaton, M. D. Evenden, J. F. Glassman, M. Hassan, M. Kuus, P. Le Billon, J. R. Sundberg, M. Weiler.

Program Overview

Programs in physical geography have a strong natural science emphasis. They focus on physical and ecological systems at or close to the earth's surface, and the interaction of these systems with people. The major substantive specializations are biogeography (plant ecology, arctic environments); climatology (air pollution meteorology; mesoscale modelling; urban climatology); GIS and remote sensing (accuracy, fractals, integrated systems); geomorphology (alpine hydrology and geomorphology, avalanche prediction, hillslope geomorphology and mass movements); fluvial sediment transport and the interpretation of river channel changes in BC; hydrology (surface water, snow and land use hydrology); sediment yield and quality; and energy and mass balance studies in the Coast Mountains and Lower Fraser Valley of BC.

Programs in human geography are more pluralistic. Many projects explore the connections between human geography and political economy, social theory, and cultural studies and pursue their substantive implications for interpreting changes in past and present landscapes. Other work focuses on the political and policy aspects of these changes (especially in North America and Asia). Major areas of specialization are development geography (espe-

cially East and South-East Asia); economic geography (Marxist and post-Marxist theories of the space-economy; analytical modelling; development theory; industrial restructuring and technological change); feminist geography (gender, sexuality, and geography); historical geography (environmental history, colonialism and imperialism, urbanization, with a particular focus on North America (especially Canada), Europe, Latin America, and the British Empire); and social and cultural geography (theories of modernity and postmodernity; popular culture and the geography of everyday life; ethnicity, race, class, and gender; consumption, place, and landscape). Work in these fields often feeds into a strong general interest in urban geography (urban systems, urban growth and restructuring, and social and economic change, with a particular focus on North America and Asia) and intersects with work in environmental geography (environmental sustainability, environmental policy, and community development).

Programs in regional geography focus upon the following regions: Canada (especially Western Canada); Asia and the Pacific Rim (especially China, Japan and Southeast Asia); Russia and Eastern Europe; and Latin America.

The Department participates actively in many interdisciplinary programs: Polar and Alpine, Asian Studies, Canadian Studies, Community and Regional Planning, Comparative Literature, Global Studies, Hydrology, International Relations, Latin American Studies, Liu Centre for the Study of Global Issues, Remote Sensing, Resource Management and Environmental Studies, Sustainable Development, Transportation Studies, Urban Studies, Women's Studies, and the UBC-Ritsumeikan University Academic Exchange Program. Field studies include ongoing projects in the Western Arctic and Cordilleran regions of Canada and special projects in Asia.

A detailed guide to graduate studies in Geography is available from the Department or on the Department's website (www.geog.ubc.ca).

Degree Requirements

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy program consists of one course (either GEOG 500 or GEOG 520), additional coursework if recommended by the research supervisor and/or doctoral committee, independent study, a spring review, comprehensive examination (both written and oral), and research leading to a dissertation that is defended in an oral final examination.

MASTER OF ARTS

There are two options for the Master of Arts:

- 1) **Thesis Option.** This option requires 15 credits of coursework, which must include GEOG 520 or GEOG 500 (3 credits) and a 15-credit thesis.
- 2) **Non-thesis Option.** This option requires 30 credits of coursework (including a major essay) and a comprehensive examination.

MASTER OF SCIENCE

There are two options for the Master of Science:

- 1) **Thesis Option.** This option requires 15 credits of Science credit coursework of which at least 9 credits must be at the graduate level, which must include GEOG 500 (3 credits) and a 15-credit thesis.
- 2) **Non-thesis Option.** This option requires 30 credits of coursework (including a major essay) and a comprehensive examination.

GEOLOGICAL ENGINEERING

Degrees Offered: Ph.D., M.A.Sc., M.Eng.

Members

PROFESSORS

O. Hungr, L. Smith.

ASSOCIATE PROFESSOR

R. Beckie.

ASSISTANT PROFESSORS

E. Eberhardt, U. Mayer.

Program Overview

The Geological Engineering Program is intended for students interested in the application of earth sciences principles to engineering problems. While most geological engineering degree programs are based in the Department of Earth and Ocean Sciences, students may also base their studies in allied Applied Science departments such as Civil or Mining Engineering. The program is highly interdisciplinary and draws upon courses, laboratories and faculty members from the departments of Earth and Ocean Sciences, Civil Engineering, Mining Engineering, Forestry, Geography, and others. Graduate students are often co-supervised by faculty members from different departments.

Geological engineering faculty members in the Department of Earth and Ocean Sciences have research interests in the following general areas:

- Landslides, debris flows, engineering geology, slope stability;
- Groundwater hydrology, groundwater contamination and remediation, reactive transport modeling, environmental geochemistry; and
- Rock engineering, rock slopes and tunneling.

Other research areas include geotechnical engineering, environmental geology, engineering geology, economic geology, and applied geophysics. The specific fields of study may involve geomorphology and terrain analysis, groundwater hydrology, natural hazards, slope stability, petroleum and coal geology, coalbed methane, mineral prospecting and valuation,

and other similar subjects. Students are encouraged to consult individual faculty members for information about current research areas.

Admission to graduate studies in geological engineering is only open to students with an undergraduate degree in engineering or, at the discretion of the program director, to students with sufficient engineering work experience.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Ph.D. degree typically requires four to five years to complete. There are no course requirements for the Ph.D. program.

MASTER OF APPLIED SCIENCE

The M.A.Sc. degree typically requires two years to complete. It consists of a 12-credit thesis and 18 credits in graduate or advanced courses in geological engineering and related fields selected in consultation with the candidate's committee.

MASTER OF ENGINEERING

This professional degree requires 27 credits of coursework plus a 3-credit major essay. Upon admission, students are assigned to an advisor who approves courses, typically from Earth and Ocean Sciences and Applied Sciences, and supervises the major essay research project. It is possible for full-time students commencing in September to complete the coursework requirements in one year. The M.Eng. in Geological Engineering can be completed on a part-time basis.

ASSISTANT PROFESSORS

E. Eberhardt, M. Jellinek, M. Kopylova, U. Mayer, S. Rowins.

Program Overview

UBC and the Province of British Columbia offer exceptional opportunity for combined field and laboratory research. The Canadian Cordillera offers research opportunities in the petrology of intrusive and volcanic rocks of many kinds, and of metamorphic rocks of all grades; in structural studies of complex metamorphic terrains exposed in three dimensions; in metalliferous deposits of varied genetic types; in

mineral exploration methods; in mineralogy associated with many different environments; in complexly folded and faulted successions of bedded rocks in the mountain belts and plateaus, and in virtually undisturbed coal- and gas-bearing strata of the north-eastern part of the province; and in numerous problems of engineering and environmental geology related to water, slope stability, natural geological hazards, and hydrogeology. The lakes, fjords, deltas, tidal flats, continental shelf, and oceanic depths provide a wide range of aquatic environments for students interested in sedimentology, geochemistry, biostratigraphy, and geological oceanography.

The Department of Earth and Ocean Sciences maintains excellent provisions for research and study. The Department hosts the Pacific Centre for Isotopic and Geochemical Research (PCIGR), a regional facility providing state-of-the-art laboratories for isotopic and geochemical analyses of rocks and fluids. Facilities include: a Nu Instruments multi-collector inductively coupled plasma mass spectrometer; a Finnigan Triton thermo-ionization mass spectrometer; an automated VG solid source mass spectrometer for U-Pb geochronology; a micro-mass 5400 noble gas mass spectrometer; a Finnigan Delta Plus XL stable isotope mass spectrometer; a Finnigan Element2 high resolution CIP-MS; Class 100 clean laboratory; a CAMECA SX-50 electron microprobe and scanning electron microscope; equipment for x-ray diffraction, including a modern single-crystal camera and powder diffractometer; analytical geochemical equipment for atomic absorption, colorimetry, wet chemistry, chromatography, and spectrography; a rock deformation laboratory, including three triaxial rock deformation presses; a physical properties laboratory; rock and mineral preparation equipment; microscopes and computer imaging laboratories; hydrogeology and palaeontology laboratories; and a machine shop. The Mineral Deposit Research Unit conducts industry-sponsored research.

Degree Requirements

DOCTOR OF PHILOSOPHY

Courses in Geology and related fields will be selected in consultation with the candidate's committee.

MASTER OF SCIENCE

The Master of Science (with thesis) program consists of a 12-credit thesis and 18 credits in graduate or advanced courses in geology and related fields selected in consultation with the candidate's committee.

The Master of Science (without thesis) program includes 27 credits in graduate or advanced courses in geology and related subjects and a three-credit graduating paper, selected in consultation with the candidate's committee.

GEOPHYSICS

Degrees Offered: Ph.D., M.Sc., M.A.Sc.

Members

PROFESSORS

N. Balmforth, M. Bostock, G. Clarke, R. Clowes, D. Oldenburg.

ASSISTANT PROFESSORS

E. Hearn, F. Herrmann, M. Jellinek.

Program Overview

Theoretically and experimentally oriented Master of Science (M.Sc.), Master of Applied Science (M.A.Sc.), and Doctor of Philosophy (Ph.D.) programs are offered in a number of key areas of geophysics. Current fields of interest are: glaciology with studies in glacier physics; geodynamics of the crust and upper mantle with an emphasis on numerically modeling lithosphere deformation and earthquakes; reflection seismology with the goal to make inferences on the geological and rock-physical processes responsible for seismic discontinuities; time-series analysis and wavelet processing; inversion methodologies with application to reflection seismology, mineral exploration and environmental studies; seismology with observational programs in crustal and upper mantle studies; reflection, refraction, and earthquake studies focused on understanding past and current tectonic processes in western Canada; and theoretical model studies to investigate wave propagation in laterally heterogeneous media.

Degree Requirements

DOCTOR OF PHILOSOPHY

Applicants are expected to have a master's degree in science or engineering, with a firm background of mathematics and physics up to fourth-year level. While some undergraduate instruction in geophysics or geology is an advantage, it is not a prerequisite for entry into geophysics graduate programs of the Department of Earth and Ocean Sciences. Geophysics students who have not completed a course in physics of the Earth at either the senior undergraduate or graduate level will be required to register for EOSC 453.

MASTER OF SCIENCE

Applicants are expected to have the equivalent of an honours degree in science, with a firm background of mathematics and physics up to fourth-year level. While some undergraduate instruction in geophysics or geology is an advantage, it is not a prerequisite for entry into geophysics graduate programs of the Department of Earth and Ocean Sciences. Geophysics students who have not completed a course in

physics of the Earth at either the senior undergraduate or graduate level will be required to register for EOSC 453. The M.Sc. program consists of 12 credits of thesis and 18 credits of coursework.

MASTER OF APPLIED SCIENCE

GERMANIC STUDIES

Degrees Offered: Ph.D., M.A.

Members

PROFESSOR

P. A. Stenberg.

ASSOCIATE PROFESSORS

G. Pailer, T. Salumets, S. Taubeneck, G. H. Winthrop-Young, K. A. Zaenker.

ASSISTANT PROFESSORS

M. Hallensleben, C. Rieger.

Program Overview

Our graduate program provides excellent opportunities to cross and join boundaries by participating in the continued construction of new disciplinary configurations. In order to facilitate research and development of unique scholarly projects, students are free to draw on a broad range of faculty both on and off campus. They are encouraged to explore canonical and non-canonical texts, and to take advantage of the many interdisciplinary, intercultural and other dimensions which presently give shape to the Program in German at UBC.

For details please visit our website (www.german.ubc.ca).

Degree Requirements

DOCTOR OF PHILOSOPHY

It is expected that students who enter the Ph.D. program will have a general knowledge of the broad outlines of German language and literature and of German political, cultural, and social history, and that they are familiar with both the basic tools of study and the basic methods of critical analysis.

With this as a foundation, the Ph.D. program will focus on the application of the major critical theories and the development of discipline-related expertise. The methods by which the students develop this expertise may vary from one-to-one discussions and small tutorial groups to formal seminars and lectures. Students will also participate in departmental colloquia.

Whatever the format, students should be mindful of the general goal, which, in addition to their expertise in German language and literary study, is to develop their capacity for critical thinking and their ability to express their thoughts and ideas independently.

For details please visit the program's website (www.german.ubc.ca).

MASTER OF ARTS

Students entering the M.A. program are expected to have a high level of linguistic proficiency and a working familiarity with German literary, cultural, social, political, and intellectual history.

Students are required to complete 30 credits and to take a comprehensive examination. The program of study intended as preparation for a career in teaching and/or research in German literature and provides a possible foundation for doctoral study in Germanic Studies.

Since the emphasis is on the study of literature and literary historiography, students have the opportunity to develop a comprehensive knowledge and critical judgement of German literary history, acquire an understanding of literary texts in their aesthetic, social, political, (inter)cultural, and historical dimensions, apply a variety of critical methods and theories to the study of literary texts, and refine literary sensibilities, analytical skills, and conceptual abilities.

For details please visit the program's website (www.german.ubc.ca).

HEALTH ADMINISTRATION

Degree Offered: M.H.A.

Members

PROFESSORS

A. Anis, A. Boardman, R. Evans, R. Giammarino, R. Hogg, J. Ries, T. Ross, J. Singer, D. Skarlicki.

ASSOCIATE PROFESSOR

J. Kopec.

ASSISTANT PROFESSORS

P. Chwelos, R. Hanvelt, S. Morgan, N. Shaw, H. Wong.

Program Overview

The Master of Health Administration (M.H.A.) is offered by the Department of Health Care and Epidemiology, in conjunction with the Faculty of Commerce and Business Administration (Sauder School of Business).

The M.H.A. curriculum provides the educational and professional foundations for leadership in the health services field. It emphasizes analytical thinking and aims to provide graduates who are skilled professionals with in-depth applied administrative research tools. Graduates are expected to be capable of identifying and solving complex organizational and assessment problems in the health services sector.

The M.H.A. has a professional executive focus and is taught in modular (1.5 credit) format: Friday afternoon through to Sunday afternoon, approximately one weekend per month. The full program takes two calendar years to complete. All 24 courses are required, in addition to a major Research Project (HCEC 590) worth six credits. The program is cohort-based and delivered at UBC Robson Square, and is therefore not available as a distance education or online option.

Degree Requirements

MASTER OF HEALTH ADMINISTRATION
Applications for admission to the M.H.A. program will be evaluated based on a combination of academic achievement, GMAT/GRE results, and/or relevant work experience. If the applicant does not already have GMAT or GRE results, the GMAT should be written prior to submission of the application or shortly thereafter. In addition to the minimum requirements, applicants are required to include a letter of intent that outlines their motivation for completing the M.H.A. program, as well as a current resumé.

Professional experience and publications may be considered for those who do not meet the minimum GPA requirements. Applicants who have limited relevant work experience may be required to complete a Residency/Internship placement in addition to the regular graduation requirements.

Ideally, the three letters of reference should indicate how the referee has come to know the applicant and why they feel the applicant will succeed in the M.H.A. program. Where feasible, the selection of referees should be made so that two of the letters relate primarily to work experience and career progression including community service, while the third deals with academic performance.

Program Overview

Research-oriented graduate programs in Health Care and Epidemiology are offered leading to the Doctor of Philosophy and to the Master of Science, both with thesis. These may be focused on any of the areas of strength of the faculty, with particular examples being clinical epidemiology, community health, health services management and planning, health-care policy, occupational and environmental health, and preventive medicine and health promotion.

Degree Requirements

DOCTOR OF PHILOSOPHY

For Ph.D. students the requirements are nine required courses and any additional courses defined by the student and/or their Ph.D. committee. Individuals with a basic degree in the health or related sciences will be considered eligible to apply for admission, but the number of positions is limited. Application deadline is February 1 for entry in September. For additional information see the program's website (www.healthcare.ubc.ca).

MASTER OF SCIENCE

The minimum requirement for a Master of Science (including thesis) is 30 credits. However the actual courses required are at the discretion of program supervisors and often the number of credits required is 36 to 42. For additional information see the program's website (www.healthcare.ubc.ca).

Program Overview

The Master of Health Science (M.H.Sc.) program is designed to provide graduate education for physicians in the areas of Clinical Epidemiology, Occupational Health or Community Health.

Degree Requirements

MASTER OF HEALTH SCIENCE
Minimum admission requirements for this 30 credit program include an academic record that meets Faculty of Graduate Studies requirements and a Doctor of Medicine (M.D.) or equivalent. For additional information see the Department's website (www.healthcare.ubc.ca).

All application materials must be received by February 1 for international applicants and March 1 for Canadian applicants.

Program Overview

The Higher Education graduate program at the University of British Columbia focuses on the study of institutions of higher education and their members, activities, and policies. The program draws on such disciplines and fields as

history, philosophy, sociology, economics, political science, psychology, sociology, law, and administrative studies.

The Higher Education graduate program offers two master's level degrees: Master of Arts (M.A.) and Master of Education (M.Ed.). Part-time study is possible in the M.Ed. and M.A. programs.

Students wishing to pursue doctoral research in the field of Higher Education can do so as part of a Doctor of Philosophy (Ph.D.) in *Educational Studies*, p. 246, or a Doctor of Education (Ed.D.) in *Educational Leadership and Policy*, p. 246.

Degree Requirements

MASTER OF ARTS

The M.A. is a 30-credit program that involves advanced academic study and the preparation of an original thesis. Students enrolled in the M.A. program must complete 6 credits of required coursework, 6 credits of research methods coursework, 12 credits of electives, and a 6-credit master's thesis.

MASTER OF EDUCATION

The M.Ed. is a 30-credit program designed for professionals in education whose primary focus is understanding and improving educational practice. Students enrolled in the M.Ed. program must complete 6 credits of required coursework, 3 credits of research methods coursework, 18 credits of electives, and a 3-credit graduating project/paper.

HISPANIC STUDIES

Degrees Offered: Ph.D., M.A.

Members

ASSOCIATE PROFESSORS

D. C. Carr, R. De Grandis, M. S. Fernández Utrera, I. Rubio.

ASSISTANT PROFESSORS

J. Beasley-Murray, R. Cacho.

Program Overview

The graduate program in Hispanic Studies offers opportunities for advanced study in the literatures of Spain and Spanish America, leading to the Ph.D. and to the M.A. with or without a thesis.

The UBC Library has extensive holdings in all Hispanic areas, especially in periodicals and Latin-American studies, both in Spanish and Portuguese. There is also a Departmental reading room for graduate students, containing basic texts, scholarly collections, and reference works.

The program makes available a list of courses to be offered as early as possible, usually in February of the preceding academic year.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy program consists of coursework, a qualifying examination, candidacy examinations, and research leading to a dissertation that is defended in an oral final examination. See the graduate regulations located on the program's website (www.fhis.ubc.ca) for details.

MASTER OF ARTS

There are two options for the Master of Arts:

- **M.A. without Thesis.** This option requires 30 credits of coursework, up to 6 of which may be drawn from 400-level undergraduate courses in Spanish, a graduating essay followed by an oral examination, and regular participation in SPAN 500: Seminar in Hispanic Studies.
- **M.A. with Thesis.** This option requires 24 credits of coursework, up to 6 of which may be drawn from 400-level undergraduate courses in Spanish, a 6-credit thesis followed by an oral thesis defence, and regular participation in SPAN 500: Seminar in Hispanic Studies.

HISTORY

Degrees Offered: Ph.D., M.A.

Members

PROFESSORS

K. Benson, D. Breen, T. Brook, C. Friedrichs, D. Lary, P. Moogk, D. Newell, A. Ray, R. Unger, P. Ward.

ASSOCIATE PROFESSORS

J. Dixon, G. Egerton, W. French, A. Gorsuch, P. Kojevnikov, P. Krause, S. Lee, T. Loo, R. McDonald, R. Menkis, G. Peterson, A. Smith, J. Wang, W. Wray, H. Yu.

ASSISTANT PROFESSORS

C. Booker, R. Brain, A. Bronfman, M. Ducharme, E. Glassenheim, T. Myers, L. Paris, P. Raibmon, J. Roosa, L. Shin, C. Thrush.

Program Overview

The Department of History offers M.A. and Ph.D. programs, each requiring a thesis, in the fields of Asian, Canadian, First Nations, British and European (early modern and modern), international relations, U.S., and Latin American history. At the Ph.D. level, the Department stresses Asian, Canadian, and European history. The Department especially emphasizes comparative and interdisciplinary

approaches to the study of the past. Within these areas the program offers graduate reading courses and research seminars in the main varieties of social, cultural, political, intellectual, economic, diplomatic, and international relations history. Research in all these fields is facilitated by extensive library holdings including government publications, state papers, newspapers, and extensive collections of early modern European pamphlets and literature. UBC is home to one of the leading research libraries for East Asian Studies in North America. There are also notable collections of books in the history of the American West, of Canada (one of the best in Canada, with especially large sections on British Columbia and the Prairie West), international relations, Germany (the best in Canada), radical movements in Europe and North America, and medicine, science, and technology (Woodward Library). For detailed information describing the Ph.D. and M.A. programs in History at UBC, please visit the History website (www.history.ubc.ca).

Degree Requirements

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy program consists of coursework, comprehensive examinations in one major and two minor fields, and a dissertation that is defended in an oral final examination.

Prerequisites for admission to the PhD program include a master's degree (or equivalent) in History. In certain cases others may also be eligible to apply. Consult the History website (www.history.ubc.ca) for details.

MASTER OF ARTS

The Master of Arts program consists of coursework and a 40-page thesis.

Prerequisites for admission to the M.A. program include a four-year B.A. with History honours or History Major. Consult the History website (www.history.ubc.ca) for details.

HOME ECONOMICS EDUCATION

Degrees Offered: M.A., M.Ed.

Member

PROFESSOR
L. Peterat.

Program Overview

Graduate study in Home Economics Education is a small but lively program in Curriculum Studies, and works closely in areas of shared interest in research and practice with colleagues throughout the Faculty of Education and in

related units across campus. Graduates of our programs have moved into positions in school administration, college and university teaching, and leadership in home economics and school districts in a variety of special areas.

Degree Requirements

MASTER OF ARTS

Admission Requirements: In addition to the Faculty of Graduate Studies requirements, the program requires:

- 1) Normally, 18 credits of senior coursework or a professional concentration in the area of interest.
- 2) Normally, two years of teaching experience or other relevant professional experience.

Degree Requirements: The program consists of 30 credits. At least 15 credits must be at 500 level or above. A total of 6 credits may be taken at the 300 or 400 level. A thesis, normally 9 credits, is included.

Part-time and full-time study options are offered.

MASTER OF EDUCATION

Admission Requirements: Same as M.A.

Degree Requirements: M.Ed. program consists of a minimum of 30 credits, of which 24 must be courses numbered at the 500 level. A total of 6 credits may be taken at the 300 or 400 level. Students select either a program consisting entirely of courses (for example, ten 3-credit courses) or 27 credits of coursework plus a graduating project (3 credits).

Part-time and full-time study options are offered.

HUMAN KINETICS

Degrees Offered: Ph.D., M.A., M.Sc., M.H.K.

Members

PROFESSORS

P. Crocker, I. Franks, T. Inglis, D. McKenzie, E. Rhodes, D. Sanderson, J. Taunton, P. Vertinsky.

ASSOCIATE PROFESSORS

R. Chua, W. Frisby, R. Mosher, W. Sheel, R. Sparks, B. Wilson.

ASSISTANT PROFESSORS

M. Beauchamp, S. Bredin, M. Carpenter, N. Hodges, L. Hurd Clarke, K. Khan, T. Lam, J. Rupert, D. Warburton.

Program Overview

The School of Human Kinetics offers graduate students original investigations (M.A., M.Sc., Ph.D.) and advanced study (M.H.K.) in biological, behavioural, and socio-cultural research in

Human Kinetics. Students work in excellent research facilities alongside some of the top researchers in the field of Human Kinetics. The School's graduate program follows a mentorship model and admission to the graduate program requires a faculty member to agree to act as a research supervisor. Applications meeting the minimum eligibility requirements are forwarded to potential supervisors identified by the applicant, and the recommendation for admission is made by individual faculty members.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Ph.D. program is governed by the general requirements set out by the Faculty of Graduate Studies. Admission to the program normally requires a thesis-based master's degree in Human Kinetics, Physical Education, Kinesiology, or other related field of study, along with appropriate undergraduate and graduate coursework. Applicants with an undergraduate or graduate degree in a non-Human Kinetics program may be considered for admission, particularly if they have a strong background in Human Kinetics. There is no required coursework.

MASTER OF ARTS

The Master of Arts (M.A.) program in Human Kinetics consists of a minimum of 30 credits (including a 12-credit thesis). A maximum of 6 of the required 18 course credits may be taken at the 300 and 400 level. Admission to the program requires a First class standing (80% or above) in at least 12 credits of coursework relevant to the chosen program of study, and at least an upper Second Class standing (76% or above) in all third- and fourth-year level courses.

MASTER OF SCIENCE

The Master of Science (M.Sc.) program in Human Kinetics consists of a minimum of 30 credits, (including a 12 credit thesis). A maximum of 6 of the required 18 course credits may be taken at the 300 and 400 level. Admission to the program requires a First class standing (80% or above) in at least 12 credits of coursework relevant to the chosen program of study, and at least an upper Second Class standing (76% or above) in all third- and fourth-year level courses.

MASTER OF HUMAN KINETICS

The Master of Human Kinetics (M.H.K.) non-thesis program consists of a minimum of 30 course credits (including a 3-credit major paper). A maximum of 6 of the required 27 course credits may be taken at the 300 and 400 level. Applicants are normally expected to have a Bachelor of Human Kinetics or its equivalent. Admission to the program requires a First class standing (80% or above) in at least 12 credits of coursework relevant to the chosen program of study, and at least an upper Second Class standing (76% or above) in all third- and fourth-year level courses.

Contact Information

HUMAN NUTRITION

Degrees Offered: Ph.D., M.Sc.

Members

PROFESSORS

S. I. Barr, S. Innis.

ASSOCIATE PROFESSORS

G. E. Chapman, Z. Xu.

ASSISTANT PROFESSORS

K. Keiver, R. Levy Milne.

Program Overview

The graduate program in Human Nutrition offers opportunities for advanced study and original investigations in basic applied human nutrition at both the master's and doctoral levels. The curriculum includes coursework and thesis research through laboratory or field work in a variety of areas relevant to human nutrition, including nutrient metabolism, diet and disease, nutrition through the life cycle, and nutrition behaviours.

The program is enriched through collaboration with colleagues in graduate programs such as Animal Science, Food Science, Pediatrics, and Pharmaceutical Sciences.

Coursework selected in consultation with the student's supervisory committee includes graduate courses in human nutrition and from other areas relevant to each student's research.

Research facilities are housed both within the Family and Nutritional Sciences (FNS) Building and, on a shared basis, in other buildings on campus. Within the FNS Building, the research facilities include various modern analytical laboratories and other equipment for conduction biochemical and basic molecular biological research, and computers for conducting dietary and qualitative data analysis.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy program does not require a fixed number of courses but appropriate coursework will be selected in consultation with the candidate's committee. All candidates are required to take a comprehensive examination, ordinarily at the end of the first year. The major requirement for the Ph.D. is completion of a research thesis demonstrating ability to conduct significant and original scientific research.

Applicants to the Ph.D. program will be expected to meet the requirements of the *Faculty of Graduate Studies*, p. 217.

MASTER OF SCIENCE

The Master of Science program requires completion of a minimum of 30 credits,

including a 12-credit research thesis and at least 18 credits of coursework. HUNU 500, 531 (an advanced statistics or research methods course), and two of HUNU 503, 505, 507 and 509 are required of all students in the M.Sc. program. A student's committee may require more than the minimum credits.

For admission with full standing into the M.Sc. program, applicants must meet minimum academic requirements as specified on the Faculty of Graduate Studies website (grad.ubc.ca/apply/how/require.asp). In addition, required prerequisite courses include biochemistry, human or vertebrate physiology, and advanced nutrition. A minimum of 6 credits (three hours per week for two academic terms or one academic year) is required in each of these areas, preferably at the third- or fourth-year level. Students deficient in one of these areas may apply to the program, but if admitted will be required to take the appropriate courses early in the graduate program, in addition to the usual M.Sc. course requirements. Applicants deficient in more than one area will have to complete the required courses as unclassified students before they can be considered for admission to the graduate program.

Alina Yuhymets, Graduate Programs Manager

INTERDISCIPLINARY STUDIES

Degrees Offered: Ph.D., M.A., M.Sc.

Members

Due to the interdisciplinary nature of this program, a list of faculty is not available. Members of the Faculty of Graduate Studies in other programs are eligible to serve as supervisors of students in the Interdisciplinary Studies graduate program, based on the student's chosen area of research.

Program Overview

The Faculty of Graduate Studies encourages the realignment of traditional disciplines into new patterns, and crossing departmental and faculty boundaries to foster the development of new areas of research.

A major function of the various centres and institutes of the Faculty of Graduate Studies is to promote interdisciplinary research; the associated interdepartmental and inter-faculty groupings are usually able to guide students in setting up disciplinary programs. Where no established degree program exists, a student may request admission into a special individual interdisciplinary program administered by a supervisory committee representing the various disciplines involved.

In the program as it now exists, the prospective student has to bring together three or four qual-

ified faculty from different departments or units. Because there are no constraints on which fields are brought together, there are virtually no two students in the same subfield.

Research topics in this program have included, for example:

- Nisga'a Architecture and Landscapes: Ecological Wisdom and Community-led Design (involving the Schools/Departments of Architecture, Landscape Architecture, Forest Ecology, Environmental Studies, Ethnobotany, and Nisga'a House of Wisdom)
- Matters of Life and Death in the Neonatal Intensive Care Nursery: Decision Making for the Not Yet Competent (involving the Departments of Pediatrics, Comparative Religion, Medical Anthropology, and Bioethics)
- Red Rhetorics: Politics, Polemics and the Marx-Machine (involving the Departments of English, Germanic Studies, and Philosophy)
- Multicultural Practices of Canadian Immigrant Youth: "A Work in Progress" (involving the Departments of Educational Studies, English, and Anthropology).

Interdisciplinary Studies, in collaboration with the *Media and Graphics Interdisciplinary Centre*, p. 76, offers a specialization in Human-Computer Interaction.

Degree Requirements

DOCTOR OF PHILOSOPHY

The student is strongly advised to form their supervisory committee by the end of their second term, after enrolling in the degree. The Committee must be approved by the fourth term of study. Annual progress reports are required from the supervisory committee and from the student. Comprehensive exams are mandatory for Ph.D. programs. In order to advance to candidacy, students must also defend a thesis prospectus. Finally, a doctoral thesis must be prepared and defended at a final oral examination.

Full details of the application process and program information are available on the program's website (www.iisgp.ubc.ca).

MASTER OF ARTS

Coursework is decided in consultation between the student and their supervisory committee. Course enrolment requires formal approval. 30 credits of coursework are required to complete the Master of Arts degree, including a 6-credit master's thesis. There is no oral examination required for the master's thesis.

Full details of the application process and program information are available on the program's website (www.iisgp.ubc.ca).

Janice Matautia, Graduate Program Assistant

JOURNALISM

Degree Offered: M.J.

Members

PROFESSOR
D. Logan.

ASSOCIATE PROFESSOR
S. J. A. Ward.

ASSISTANT PROFESSOR
M. L. Young.

Program Overview

The School of Journalism is part of the Faculty of Arts, but is governed by the admissions and curriculum requirements of the Faculty of Graduate Studies. Graduates of the program in journalism will receive a Master of Journalism (M.J.) degree.

The mission of the School of Journalism is to achieve the highest professional standards in journalism through instruction in journalistic practice and the scholarly understanding of journalism, critical thinking, and teaching of ethical responsibility. By combining advanced journalism practice and theory with academic studies at the graduate level, the program not only enhances advanced journalism, but also improves the information base and scholarly preparation of students for journalistic writing in their specialty subject areas. The program serves the profession of journalism and brings developments in many areas of academic investigation to a wider reading public. Workshops, seminars, tutorials, conferences, and publications deal with reportage as well as major issues, theories, and developments in the field of journalism. Emphasis is placed on the writing of journalism, on the historic evolution of journalism as a profession, ethics and journalism, journalism and the legal system, and the role and character of journalism in a changing society.

For more information, please visit the Journalism website (www.journalism.ubc.ca) and our online magazine *The Thunderbird* (www.tojr.ca/).

Degree Requirements

MASTER OF JOURNALISM

Applicants with journalism experience must submit an extensive sample of their professional work; those without such experience will be selected on the basis of a manuscript of original writing that meets the standard of the peer group selected for entry into the program. The admissions panel will assess the applicant's potential for satisfactory performance in the

program and for potential creative and constructive contribution to the profession.

Candidates for admission to the M.J. program must possess a four-year honours baccalaureate degree in a discipline or interdisciplinary area regarded as appropriate by the admissions committee for the program. Only applicants with superior performance at the baccalaureate level and appropriate journalism knowledge and experience will be admitted. Applicants will be required to indicate their intended academic specialty at the time they apply. Because the number of applicants greatly exceeds the number of places available, a record that satisfies basic entrance requirements does not guarantee admission to the program. Registration in graduate seminars in the academic specialty will be subject to the approval of the Director.

Applicants must meet the admission requirements of the Faculty of Graduate Studies. International applicants will require a score of 600 (or computer-based equivalent, i.e., 250) or more on the Test of English as a Foreign Language (TOEFL).

Students will be required to spend two Winter Sessions (i.e., eight months from September to April) on campus as full-time students. In exceptional circumstances, the School and the program will accommodate the needs of working journalists and others who may find it difficult to take more than eight or 12 months away from regular employment. A non-credit Internship will be required as part of the newsroom practice for students with no professional experience. It will consist of at least three months of full-time work, after the Winter Session of residence, in any media establishment approved by the Director for this purpose. Internship performance will be graded on a pass/fail basis by the Director in consultation with the establishment.

LAND AND FOOD SYSTEMS, INTEGRATED STUDIES

Degrees Offered: M.Sc., Ph.D.

Program Overview

The challenge to provide sufficient, safe, and economically accessible food for the world requires researchers and managers able to seek solutions that rely on integrating the traditional agricultural disciplines with those of related areas of knowledge and inquiry.

The objective of the graduate program in Integrated Studies in Land and Food Systems is to aid students in developing the knowledge base and integrative skills necessary to evaluate food production systems and develop sustainable solutions based on agroecological, economic, and social dimensions.

The Integrated Studies in Land and Food Systems program offers opportunities for advanced study and research leading to M.Sc. and Ph.D. degrees. Most students entering the program are expected to have an academic background in agriculture and/or food, but applicants from other academic disciplines will be considered.

Acceptance into the program depends on meeting the admission requirements of the Faculty of Graduate Studies, and acceptance by a faculty member willing to act as the student's supervisor.

Doctor of Philosophy

For the Doctor of Philosophy, all candidates must complete AGSC 501 or 504, and LFS 500, 501, 502, and 649. Any other courses deemed necessary for the academic program are determined by the candidate and the supervisory committee.

Master of Science

For the master's degree, all candidates must complete AGSC 501 or 504, and LFS 500, 501, and 502. An additional 6 credits of coursework are required along with a 12-credit research thesis (LFS 549).

LANDSCAPE ARCHITECTURE

Degrees Offered: M.L.A., M.A.S.L.A.

Members

PROFESSORS
P. M. Condon, R. Kellet, M. Quayle.

ASSOCIATE PROFESSORS
C. Girling, S. Herrington, P. F. Mooney, D. Paterson, S. Sheppard.

Program Overview

Landscape Architecture is concerned with the design, planning, and management of the land. It involves the physical design of sites or places with particular emphasis on resource conservation, sustainability, social responsiveness, and aesthetics. It is one of several professions concerned with both the natural and human environments, with both nature and culture and, as such, places heavy emphasis on interdisciplinary knowledge and cooperation. As an academic discipline, landscape architecture encompasses the fields of the humanities, sciences, technology, and the creative arts; it is also concerned with design as an act of critical inquiry, design criticism, and issues of critical regionalism.

Degree Requirements

MASTER OF LANDSCAPE ARCHITECTURE
The Master of Landscape Architecture (M.L.A.) degree is designed for candidates seeking admission to the profession. Full-time students normally complete this program in three years. Students with a UBC-recognized undergraduate degree in Architecture, Environmental Design, or Landscape Architecture may apply for admission to a two-year 72-credit variant of the professional M.L.A. Program, comprised of the final two years of M.L.A. design studio courses, as well as courses required for professional degree accreditation by the Canadian Society of Landscape Architects. The particular course requirements will be determined by the graduate advisor for each student upon acceptance and entry into the program, based on prior experience and a portfolio review.

Admission: Applicants for admission to the program must have a strong academic record and demonstrate potential for creative problem solving. The Landscape Architecture Program selects students from a variety of disciplines on which to build landscape architectural understanding, competence, and the sharing of knowledge. Students entering the program should demonstrate interest and potential in the broad fields of environment, the creative arts, and landscape architecture.

Students are accepted into the three-year M.L.A. from all disciplines; applicants seeking admission into the two-year M.L.A. variant must be in possession of a four-year undergraduate degree in Architecture, Environmental Design, or Landscape Architecture. Certain students may be expected to fulfill additional requirements in order to adequately prepare them for design and environmental studies. In addition, students are required to submit examples of their creative abilities in the form of an application portfolio, and demonstrate, in writing, their understanding of the profession. Please contact us for detailed admission information. Approximately 18 students will be admitted each year.

Course of Study: The master's degree is awarded upon the completion of 109 credits of work, including a major graduating project. The core curriculum includes a structured first year of 38 credits and 56 additional required credits in years two and three. All students must declare a study stream and take 9 required, and 6 elective credits in the chosen area. Study streams are: site design; urban design; and regional design. Detailed information on specific, yearly course requirements are available on the program's website (www.agsci.ubc.ca/landscape_architecture).

A grade of 68% is required as a passing grade for all design studio courses (LARC 501, 502, 503, 504, or any substituting classes). The faculty will conduct a year-end evaluation at the conclusion of Year one. Students who, in a consensus opinion of the regular faculty, are not making satisfactory progress will be asked to leave the program.

MASTER OF ADVANCED STUDIES IN LANDSCAPE ARCHITECTURE

The Master of Advanced Studies in Landscape Architecture (M.A.S.L.A.) is a 31-credit program. Part-time study is allowed with prior approval from the Graduate Program Committee. Full-time students normally complete this program within two academic years. The program provides students an opportunity to examine and research specific issues relating to landscape, place, and environment. This post-professional program is not intended to fulfill the requirements for membership as established by the British Columbia Society of Landscape Architects or similar organizations in other provinces of Canada. Those wishing professional credentials should enrol in the Master of Landscape Architecture (M.L.A.) program.

Admission: Applicants for admission to the M.A.S.L.A. program must have a four-year bachelor's degree in a design discipline as well as some experience in a design practice. All candidates must also meet the basic academic requirements of the Faculty of Graduate Studies. In addition, all applicants must submit a design portfolio. The minimum TOEFL score required of international applicants is 560. For additional information, please visit the program's website (www.agsci.ubc.ca/landscape_architecture) or see Contact Information below.

Course of Study: The course of study is comprised of LARC 500, 520, 541, 599, 6 credits of 500-level electives, and 6 credits of 300-level and above electives. At least one of the elective courses must focus on design-research methodologies. Research activities and thesis development will be focused within the two broad areas of advanced design, design theory and design education, and environmental design, planning and management at the site-specific scale.

LANGUAGE AND LITERACY EDUCATION

Degree Offered: Ph.D.

Members

PROFESSORS

J. Anderson, S. Carey, M. Chapman, P. Duff, L. Gunderson, R. Jobe, C. Leggo, B. Norton, V. Purcell-Gates, K. Reeder, J. Shapiro, R. Tierney, G. Williams, J. Willinsky.

ASSOCIATE PROFESSORS

M. Asselin, P. Duff, M. Early, M. Kendrick, T. Rogers, L. Shi, G. Tang.

ASSISTANT PROFESSORS

G. Belliveau, M. Bournot-Trites, T. Dobson, J. Hare, C. Medina, S. Talmay.

Program Overview

The Department of Language and Literacy Education offers a program leading to a Ph.D. in Language and Literacy Education (LLED). Students can study in the areas of: Literacy Education, Teacher Librarianship, Teaching English as a Second Language, and Modern Language Education.

The Department of Language and Literacy is committed to excellence in scholarship, teaching, and professional leadership and is responsive to Canada's multicultural, multilingual context. Its goal is to advance the study of language learning, and the teaching and learning of language, literacy, and literature in their broadest frames of reference.

Graduate courses in research in the various subject matter fields, as well as doctoral seminars are offered on a rotating basis. Department members are actively involved with graduate students in local, provincial, national, and international research.

Degree Requirements

DOCTOR OF PHILOSOPHY

Admission Requirements: In addition to the Faculty of Graduate Studies requirements, the program requires:

- a master's degree with high standing in a relevant educational discipline;
- a sample of work demonstrating an ability to undertake research and scholarly writing;
- a letter of intent describing the proposed focus and how it fits with the research programs of two or three faculty members as well as benefits to the applicant of the program;
- the support of three referees including an assessment by at least two university instructors, preferably one of whom is the supervisor of the master's thesis; and
- equivalent of at least two years of successful teaching experience.

Program Requirements:

- 18 to 24 credits (including the LLED doctoral seminar, LLED 601).
- Comprehensive exams. Following the completion of coursework, and within three years, students will complete a written comprehensive examination which may be followed by an oral examination. The examination will cover three areas:
 - (a) the student's area of specialization within Language and Literacy Education
 - (b) one additional area or group of areas of special interest
 - (c) appropriate research methodology
- Dissertation proposal: The proposal for the dissertation outlines the research problem and methodology, sets the context for the work, and summarizes the scope of each chapter.
- Ph.D. dissertation.

Program Overview

Please be advised that this is a general overview of the graduate programs offered at the Faculty of Law. For more comprehensive information please refer to the program's website (www.law.ubc.ca).

The UBC Faculty of Law is one of the world's leading law schools and one of Canada's oldest university faculties of law. Graduates have assumed leadership positions in a broad range of spheres, both nationally and internationally, in the legal profession, the judiciary, government, public interest organizations, business, and academia.

There are many reasons for choosing graduate studies in law at UBC. The outstanding faculty are respected worldwide for their innovative and interdisciplinary research. Students are offered one of the largest and most diverse course lists in Canada so students can pursue their academic interests, whatever their focus.

The deadline for application to all graduate programs in the Faculty of Law is February 15. Early application is strongly encouraged.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Ph.D. program is designed to provide advanced training for outstanding graduate students who have already obtained a Master of Laws (LL.M.) degree or equivalent. Through the program, highly accomplished graduate students will be trained to carry out advanced research under supervision by members of the UBC Law Faculty.

The Ph.D. curriculum consists of a one-year, two-part seminar and other coursework as required by a student's supervisory committee.

Students must complete all requirements for the Ph.D. within six years of the date of first registration in the program. Each student will have a faculty supervisor drawn from the UBC Faculty of Law. The selection of faculty supervisors will be administered by the Graduate Committee of the Faculty of Law, subject to approval by the Dean of the Faculty of Law and the Dean of the Faculty of Graduate Studies.

For more information please refer to the Faculty of Law website (www.law.ubc.ca).

MASTER OF LAWS

The Master of Laws (LL.M.) is a rigorous thesis-based degree program. It provides excellent preparation for academic research and policy work and enables graduates to pursue careers in law teaching, legal research, policy development, public and governmental service, and the practice of law. This is an intense research-based degree which has both coursework and thesis requirements. The research produced for the thesis is expected to be of publishable quality.

Curriculum: The program is of one year's duration, and combines coursework with the preparation of a thesis of acceptable quality. Students are required to complete successfully 36 credits of work, of which 20 credits are allocated to the thesis, 12 credits to coursework (usually comprising four one-term courses or seminars), and 4 credits to the required master's seminar.

Admission Information: For more comprehensive information please refer to the program's website (www.law.ubc.ca).

MASTER OF JURISPRUDENCE IN COMMON LAW

The new Master of Jurisprudence in Common Law is a one-year professional program that provides international law graduates from non-common law countries with an in-depth understanding of the theory and practice of common law. The M.Jur. (Common Law) degree is designed to introduce accomplished lawyers from other legal systems to common law concepts and methods. It is not intended to serve as a professional qualification for the practice of law in British Columbia or elsewhere.

Curriculum: This program is of one year's duration and combines course and seminar work with a year-long Seminar in Common Law Theory and Practice. Students are required to successfully complete 30 credits of work, of which 6 credits comprise the above seminar, 18 comprise graduate-level courses and seminars and the remaining six comprise 300- or 400-level LL.B. courses or seminars.

Admission Information: For more comprehensive information please refer to the program's website (www.law.ubc.ca).

LIBRARY AND INFORMATION STUDIES

Degree Offered: M.L.I.S.

Members

PROFESSORS
E. Rasmussen.

ASSOCIATE PROFESSORS
M. Dowding, R. Kopak, J. Tennis.

ASSISTANT PROFESSORS
R. Hopkins.

Program Overview

Program Chair: M. S. Stephenson
The Master of Library and Information Studies (M.L.I.S.) is a professional degree program open to those holding a bachelor's degree considered suitable by the admissions committee, and which meets the minimum admission requirements of the Faculty of Graduate Studies. Those applying to enter the program are expected to have a strong foundation in some specialist studies, as well as an enthusiasm for information and its uses in the wider sense. The program, accredited by the American Library Association, is one of some 50 in North America, including seven in Canada, which gives its graduates professional stature. Graduates employed in academic, public, school, special libraries, or other information agencies combine work with information and its users with some aspects of supervision knowledge management services. Graduates not working in libraries as such are to be found in a wide variety of positions involving the uses of information in their broadest context, and many are self-employed.

The required practicum and field trips in courses, the option of formal professional experience, and the use of some practitioners as adjunct professors assure a practical orientation to the theory of information management.

Degree Requirements

MASTER OF LIBRARY AND INFORMATION STUDIES

The degree is awarded on successful completion of 48 credits including an optional thesis, plus a non-credit practicum. Much of the program, which can include Summer Session courses, may be taken on a part-time basis (i.e., taking less than a full load of courses). Students may begin the program in either September or January, but part-time studies are best begun in September. The required practicum and field trips in courses, the option of formal professional experience, and the use of some practitioners as adjunct professors assure a practical

orientation to the theory of information management.

LIBRARY, ARCHIVAL AND INFORMATION STUDIES

Degree Offered: Ph.D.

Members

PROFESSORS
L. Duranti, E. Rasmussen.

ASSOCIATE PROFESSORS
A. Curry, T. Eastwood, H. McNeil.

ASSISTANT PROFESSORS
M. Dowding, R. Kopak, J. Tennis.

Program Overview

The School of Library, Archival and Information Studies (SLAIS) offers a program leading to the Doctor of Philosophy. The Ph.D. program is designed to provide advanced research training for outstanding students who have already obtained a Master of Archival Studies (M.A.S.) degree or a Master of Library and Information Studies (M.L.I.S.).

Upon entering the doctoral program, a student will be assigned an advisor who will work with the student to develop an appropriate set of courses relevant to the student's research plan. All incoming students will take the advanced research methods course. Advanced study in the major area will normally be taken with the faculty member most interested in the student's research topic. In many cases this faculty member will become the thesis supervisor at a later stage. The courses in the minor area may be directed studies courses, courses from other departments at the university, or master's-level courses at SLAIS, depending on the research interests of individual students. Additional courses may be required as appropriate.

Upon successful completion of the comprehensive examinations, the student will enter the thesis stage of the program. A thesis supervisor will be appointed by the Doctoral Studies Committee at the request of the student and with agreement of the faculty member. The thesis supervisor, after discussion with the student and other faculty members, will suggest other members of the thesis committee to be approved by the doctoral studies committee. The student, working with the thesis supervisor and other members of the thesis committee, will prepare a thesis proposal to be presented to the Doctoral Studies Committee for approval. When the thesis proposal has been approved, the student enters the thesis stage of the program. The thesis will be prepared following the Guidelines of the Faculty of Graduate Studies.

Degree Requirements

DOCTOR OF PHILOSOPHY

Students entering the doctoral program with an approved master's degree will be required to take four 6-credit (two-term) courses. In most cases, courses additional to these four courses will be recommended to students. In consultation with the student's advisor, the student may be required to take courses in the SLAIS Master of Library Studies program or the Master of Archival Studies program to enhance the knowledge acquired in the student's master's degree and to provide sufficient background for the doctoral courses. Doctoral students will be strongly encouraged to take graduate level courses from other UBC departments that will increase their knowledge in their chosen area of research. These courses are chosen in consultation with the student's advisor, and are additional to those required for ARST 621 or LIBR 621.

The five required courses for students in the Archival stream are:

- ARST 600 Advanced Research Methods;
- ARST 610 Theoretical and Research Foundations of Archival Studies;
- ARST 620 Advanced Study in Major Area. Directed studies course normally taught by the student's research advisor;
- ARST 621 Advanced Study in Minor Area. Each student must take 6 credits in a minor area. These credits may be taken outside of SLAIS; and
- ARST 699 Dissertation.

The five required courses for students in the Library and Information Science stream are:

- LIBR 600 Advanced Research Methods;
- LIBR 610 Theoretical and Research Foundations of Library and Information Science;
- LIBR 620 Advanced Study in Major Area. Directed studies course normally taught by the student's research advisor;
- LIBR 621 Advanced Study in Minor Area. Each student must take 6 credits in a minor area. These credits may be taken outside of SLAIS; and
- LIBR 699 dissertation.

LINGUISTICS

Degrees Offered: Ph.D., M.A.

Members

PROFESSORS

D. Pulleyblank, M. S. Rochemont, J. P. Stemberger, E. Vatikiotis-Bateson.

ASSOCIATE PROFESSORS

G. Carden, H. Davis, R.-M. Déchaine, B. Gick, P.A. Shaw.

ASSISTANT PROFESSORS

G. Hansson, L. Matthewson, H. Rullmann, M. Wiltschko.

Program Overview

The Department of Linguistics offers degree programs leading to both the Master of Arts (M.A.) and the Doctor of Philosophy (Ph.D.). Training is offered in the core areas of theoretical linguistics (phonetics, phonology, semantics, syntax), with the possibility of specialising in the following areas: First Nations languages, African languages, first language acquisition.

Detailed information about both degree programs may be obtained in the Graduate Handbook at the Department's website (www.linguistics.ubc.ca/grad.htm).

Degree Requirements

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy program in Linguistics consists of course work, two qualifying papers, and a dissertation.

Prerequisites for the Ph.D. include either an M.A. or an honours B.A. with First Class Standing or equivalent.

MASTER OF ARTS

A Master of Arts in Linguistics may be obtained through full-time or part-time studies. Both thesis and non-thesis options are possible.

The prerequisite for the M.A. is an undergraduate degree. Applicants are normally expected to have substantial preparation in linguistics and linguistic theory, although it is possible to apply for the graduate program with an undergraduate degree in another subject area.

LITERACY EDUCATION

Degrees Offered: M.A., M.Ed.

Members

PROFESSORS

J. Anderson, M. Chapman, L. Gunderson, C. Leggo, R. Jobe, B. Norton, V. Purcell-Gates, K. Reeder, J. Shapiro, R. Tierney, G. Williams, J. Willinsky.

ASSOCIATE PROFESSORS

M. Early, M. Kendrick, T. Rogers.

ASSISTANT PROFESSORS

G. Belliveau, T. Dobson, J. Hare, C. Medina.

Program Overview

The graduate program in Literacy Education (LITR) in the Department of Language and Literacy Education offers opportunities to

study in the areas of English Education, Drama Education, and Reading from cognitive, social, cultural and poststructuralist perspectives. Research areas within the program include: child language development in education, composition (writing); early, intermediate, adolescent and adult literacy; family literacy; children's and young adult literature; Aboriginal literacy; and arts-based and multi-modal approaches to literacy learning.

Students who would like to undertake a Ph.D. specializing in Literacy Education can do so through the program in *Language and Literacy Education*, p. 261.

Degree Requirements

MASTER OF ARTS

Admission Requirements: In addition to the Faculty of Graduate Studies requirements, the Department of Language and Literacy Education requires:

- 1) at least an 18-credit concentration in the subject area (see the website (www.lled.educ.ubc.ca) for specifics)
- 2) normally two years of formal teaching experience.

Program Requirements: The program consists of 30 credits. At least 15 credits must be at 500 level or above. A total of 6 credits may be taken at the 300 or 400 level. A thesis, either 6 or 9 credits, is included.

Full-time and part-time study options are offered.

MASTER OF EDUCATION

Admission Requirements: Same as M.A.

Program Requirements: The program consists of 30 credits of which 24 must be at the 500 level or above. A total of 6 credits may be taken at the 300 or 400 level. Students may opt for a program consisting entirely of courses, or may elect to do 27 credits of coursework plus a graduating paper.

Full-time and part-time study options are offered.

M.D./PH.D. (COMBINED PROGRAM)

Degrees Offered: M.D./Ph.D.

Members

PROFESSORS

A. Chow, L. Raymond.

Program Overview

This is an integrated program jointly offered by the Faculty of Medicine and the Faculty of Graduate Studies. Its purpose is to provide

selected and highly qualified students the opportunity to combine their medical school experience with intensive scientific training in pursuing a career as clinician-scientists in a chosen field. The program is designed such that students can receive the dual Doctor of Medicine (M.D.) and the Doctor of Philosophy (Ph.D.) degrees after successful completion of six to seven years of enrolment. The program is built upon the regular M.D. curriculum, but is further customized to meet the unique career goals of individual students based on their background, previous research experience, and their chosen medical field of expertise. Thus, graduates of the M.D./Ph.D. program are trained as competent physicians as well as skilled scientists who can sustain a successful and competitive clinical investigative career.

Degree Requirements

DOCTOR OF MEDICINE WITH DOCTOR OF PHILOSOPHY

To be eligible for admission, the student must have a Bachelor of Science with First class standing (or equivalent), and have fulfilled all the requirements of acceptance into the four-year medical curriculum of the Faculty of Medicine, and the doctoral requirements of the Faculty of Graduate Studies. All candidates are required to take the Medical College Admission Test (MCAT), but the Graduate Record Examination (GRE) is optional. Students already enrolled in the first year of Medicine at UBC are also eligible for admission. Students must demonstrate proficiency in all required coursework by examination. They must also successfully complete a comprehensive examination based on their proposed research, and defend their thesis by oral examination. Additionally, each student will be evaluated at least annually by the research supervisory committee; continuation in the combined degree program is contingent upon satisfactory scholastic and research progress.

Jane Lee, Program Coordinator

MATERIALS AND PROCESS ENGINEERING

The field of materials engineering is not taught by a single department and there is no formal program leading to a degree in this area. However, the Advanced Materials and Process Engineering Laboratory (AMPEL) offers facilities and opportunities for graduate study in materials engineering through the academic departments of its faculty members. For more information, see *Advanced Materials and Process Engineering Laboratory (AMPEL)*, p. 83, in the chapter Research Units, Centres, and Institutes.

MATERIALS ENGINEERING

Degrees Offered: Ph.D., M.A.Sc., M.Sc.

Members

PROFESSORS

S. L. Cockcroft, D. B. Dreisinger, W. J. Poole, A. Poursartip, T. Troczynski, R. Vaziri.

ASSOCIATE PROFESSORS

P. V. Barr, D. G. Dixon, G. Fernlund, M. Militzer, M. A. Wells.

ASSISTANT PROFESSORS

A. Alfantazi, D. M. Maijer, C. W. Sinclair, R. Wang.

Program Overview

The Department of Materials Engineering offers opportunities for study in the following fields: casting and solidification of metals; ceramic processing and properties; refractories; corrosion; composites; high temperature coatings, biomaterials; extractive metallurgy including hydrometallurgy, bio-hydrometallurgy, electrometallurgy, and pyrometallurgy; physical metallurgy; thermo-mechanical processing related to materials production and environmental issues related to materials productions.

Students must satisfy the admission requirements of the Faculty of Graduate Studies including, for international students whose first language is not English, a minimum TOEFL score of 550.

Students should note that not all courses listed are offered every year.

Degree Requirements

DOCTOR OF PHILOSOPHY

A Master of Science (M.Sc.) or Master of Applied Science (M.A.Sc.) in a suitable discipline is prerequisite. Outstanding M.A.Sc. and M.Sc. candidates who have demonstrated clear evidence of research ability may be transferred to a Ph.D. program after one year's residence at UBC, subject to the regulations of the Faculty of Graduate Studies.

MASTER OF APPLIED SCIENCE

Graduation in materials engineering, metallurgical engineering, mechanical engineering, chemical engineering or engineering physics with at least upper second class standing (76%) is prerequisite for admission to the program leading to the Master of Applied Science (M.A.Sc.).

MASTER OF SCIENCE

Graduation in physics, chemistry, mathematics and physics with at least upper second class standing is prerequisite for admission to the program leading to the Master of Science (M.Sc.).

For information about the professional Master of Engineering (M.Eng.) program, please see the *Faculty of Applied Science*, p. 107, or the program website (www.mmat.ubc.ca).

MATHEMATICS EDUCATION

Degrees Offered: M.A., M.Ed.

Members

PROFESSOR

S. Pirie.

ASSOCIATE PROFESSOR

A. Anderson, C. Nicol.

ASSISTANT PROFESSOR

S. Gerofsky.

Program Overview

The graduate programs (M.Ed. and M.A.) in Math Education are part of the graduate offerings in the Department of Curriculum Studies. Students can pursue a wide variety of research and professional interests in mathematics teaching and learning. Large scale research projects such as the Early Numeracy Project can bring students into a number of regional, national, and international studies on mathematics.

Degree Requirements

MASTER OF ARTS

Admission Requirements: In addition to the Faculty of Graduate Studies requirements, the program requires:

- 1) Normally, 18 credits of senior coursework or a professional concentration in the area of interest.
- 2) Normally, two years of teaching experience or other relevant professional experience.

Degree Requirements: The program consists of 30 credits. At least 15 credits must be at 500 level or above. A maximum of 6 credits may be taken at the 300 or 400 level. A thesis, normally 9 credits, is included.

Part-time and full-time study options are offered.

MASTER OF EDUCATION

Admission Requirements: Same as M.A.

Degree Requirements: The program consists of a minimum of 30 credits, of which 24 must be courses numbered at the 500 level. A maximum of 6 credits may be taken at the 300 or 400 level. Students select either a program consisting entirely of courses (e.g., ten 3-credit courses) or 27 credits of coursework plus a graduating project (3 credits).

Part-time and full-time study options are offered.

MEASUREMENT EVALUATION AND RESEARCH METHODOLOGY

Degrees Offered: Ph.D., M.A., M.Ed.

Members

PROFESSORS

M. Arlin, S. Mathison, B. Zumbo.

ASSOCIATE PROFESSORS

K. Erickan, A. Hubley, N. Kishor.

Program Overview

The graduate program in Measurement, Evaluation, and Research Methodology (MERM) offers Ph.D., M.A., and M.Ed. degrees. MERM area focuses on the preparation of graduate students as methodological and measurement specialists. We strive to promote in our research, student supervision, and teaching the highest standards of measurement and research methodology in our discipline. Upon completion, our master's and Ph.D. students are employed as university faculty, data analysts, research scientists, test developers, directors of research in school districts or government, research consultants, assessment and testing specialists in business, industry, and education, certification and credentialing professionals, and psychometricians at research and testing organizations.

MERM students generally fit into one of three categories:

- 1) Students who have an applied interest in educational and psychological measurement, program evaluation, or data analysis. Although they often have some preparation in measurement and data analysis in their undergraduate studies, this is not always the case. These students are more oriented toward the use of measurement, program evaluation, or data analysis techniques in substantive research in the areas of test development, personality assessment, clinical measurement, computer applications, program planning or evaluation, and so on.
- 2) Students possessing strong theoretical interests in technical problems in test theory, item response theory, assessment, statistics, factor analysis, multi-level modeling, and the like. Although some of these students come to the Program with some statistical and/or mathematical background, often obtained while studying in another social science discipline such as Psychology or Sociology, sometimes students arrive with degrees in statistics or mathematics as well.
- 3) Some students find it compatible with their career goals to give equal attention to both

these major aspects (i.e., applied and theoretical) of this program.

Degree Requirements

DOCTOR OF PHILOSOPHY

Specific coursework requirements for the MERM doctoral program are determined on a case-by-case basis, as outlined in an individualized Program of Graduate Studies (PGS) developed for each student, in consultation with their academic advisor and a Faculty Advisory Committee. The PGS specifies the kind and number of courses to be taken by the student for their degree, with consideration of the their own background, research interests, and preparation at the master's level. It is assumed that the student will have taken all required MERM M.A. courses (or their equivalents). A representative program would normally include coursework, seminars, consultations, directed readings and, where appropriate, practical and field work related to the student's major area of interest and selected to prepare the student for their comprehensive examination and thesis.

MASTER OF ARTS

The M.A. in MERM is a 30-credit program. The core coursework includes 12 credits in research designs and measurement, 6 to 9 credits of which are in approved methodology electives, and 3 to 6 credits of which are in non-MERM areas. The master's thesis is 6 credits. Specific coursework enables an individualized Program of Graduate Studies (PGS) to be developed for each student, in consultation with their academic advisor and a Faculty Advisory Committee.

MASTER OF EDUCATION

The M.Ed. in MERM is a 30 credit program. It is entirely based on core MERM courses, methodology electives, and approved non-MERM courses. The coursework enables an individualized Program of Graduate Studies (PGS) to be developed for each student, in consultation with their Academic Advisor and a Faculty Advisory Committee.

MECHANICAL ENGINEERING

Degrees Offered: Ph.D., M.A.Sc.

Members

PROFESSORS

Y. Altinas, S. M. Calisal, C. W. de Silva, R. L. Evans, M. S. Gadala, S. I. Green, M. R. Hodgson, N. Rajapakse, F. Sassani, G. S. Schajer, I. Yellowley.

ASSOCIATE PROFESSORS

E. A. Croft, B. Dunwoody, I. Frigaard, A. J. Hodgson, C. F. Ollivier-Gooch, J. A. Olson, T. R. Oxland, S. Rogak, D. Romilly.

ASSISTANT PROFESSORS

W. K. Bushe, M. Chiao, P. Crompton, M. Davy, O. E. Kesler, W. Mérida, R. N. Rohling, D. Yip-Hoi.

Program Overview

Fields of research include: acoustics; aerodynamics and fluid mechanics; automatic controls; robotics and industrial automation; energy conversion, combustion, thermodynamics and heat transfer; vibrations and space dynamics; solid mechanics; bioengineering and biomechanics; design and manufacturing processes; industrial engineering, fuel cells, micro-electromechanical systems, mechatronics and CAD; and naval architecture.

Applicants for graduate degrees may be considered for appointment as research assistants, teaching assistants or markers in the Department. Students' courses are selected in consultation with faculty to suit their research or career needs. Not all courses listed in the Course Descriptions (www.students.ubc.ca/calendar/courses.cfm?code=MECH) section of the Calendar, are offered every year.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Ph.D. is an advanced graduate-level study degree that includes a major research investigation and the writing of a thesis. Requirements for the Ph.D. include satisfactory completion of 36 credits of courses beyond the bachelor's level, original research under the supervision of a faculty member, and a thesis. A typical completion time for a Ph.D. is four to five years' work beyond the bachelor's degree level. It is normal departmental practice to register students initially for the M.A.Sc. Transfer to the Ph.D. program can take place either on completion of the M.A.Sc. or, if the student's performance is of sufficiently high quality, may be recommended by supervising faculty before completion of the M.A.Sc. An applicant holding a master's degree from another institution will have the course requirements for the Ph.D. assessed on an individual basis.

MASTER OF APPLIED SCIENCE

The Master of Applied Science (M.A.Sc.) is a graduate-level study program that includes a research investigation and the writing of a thesis. Requirements for the M.A.Sc. include satisfactory completion of 30 credits of graduate-level courses, original research under the supervision of a faculty member, and a thesis. The thesis is assigned 6 to 12 credits and is counted as part of the coursework requirement. A typical completion time for the M.A.Sc. is 24 months. Subject to satisfactory progress and acceptance by a faculty supervisor, a successful M.A.Sc. graduate may transfer to a course of studies leading to the Ph.D.

Electro-Mechanical Design Engineering: A specialization in Electro-Mechanical Design Engineering is available. The program provides

interdisciplinary education in mechanical engineering, machine design, digital and analogue instrumentation, and software engineering fields.

For information about the professional Master of Engineering (M.Eng.) program, please see the *Faculty of Applied Science*, p. 107, or visit the program website (www.mech.ubc.ca).

MEDICAL GENETICS

Degrees Offered: Ph.D., M.Sc.

Members

PROFESSORS

C. J. Brown, M. Burgess, C. J. Eaves, L. Field, J. M. Friedman, M. R. Hayden, P. A. Hieter, W. Jefferies, D. M. Juriloff, R. J. Kay, D. L. Mager, B. C. McGillivray, W. R. McMaster, W. P. Robinson, A. M. Rose, A. D. Sadovnick, M. I. Van Allen.

ASSOCIATE PROFESSORS

L. A. Clarke, M. J. Harris, S. Jones, S. F. Langlois, M. Marra, K. M. McNagny, F. Ouellette, E. M. Simpson, W. Wasserman.

ASSISTANT PROFESSORS

L. Arbour, A. Brooks-Wilson, E. Conibear, W. Gibson, P. Hoodless, X. Jiang, S. Jones, M. Kobor, B. Leavitt, L. Lefebvre, M. Lorincz, F. Rossi, S. Townsend, M. Wilkinson.

Program Overview

The Department of Medical Genetics offers advanced study and research in a variety of areas of human and medical genetics. The Department has particular strength in human molecular genetics, genome analysis, developmental genetics, gene therapy, cytogenetics, oncogenetics, immunogenetics, genetic epidemiology, genetics of common disorders, and clinical genetics.

Research facilities are located on and off the UBC campus at various locations in Vancouver.

Degree Requirements

DOCTOR OF PHILOSOPHY

Students entering the Ph.D. program in Medical Genetics will normally have a background in upper-level genetics, biochemistry, and statistics (biometrics) with a First class standing in their previous degree. Eligibility is determined on the basis of academic standing, research experience, and letters of recommendation. Academically acceptable applicants must also obtain the commitment of a research supervisor from the Department of Medical Genetics before receiving final acceptance from the Program and the Faculty of Graduate Studies.

Ph.D. students are required to take 12 credits of core courses and 6 credits of electives in their first year. For course details see the Medical Genetics Graduate Program (www.medgen.ubc.ca/courses/mggp/course-req.htm) and Medical Genetics course information (www.medgen.ubc.ca/courses/courses.htm).

In addition, Ph.D. students must successfully complete a comprehensive examination and their thesis.

MASTER OF SCIENCE

Students entering the M.Sc. program in Medical Genetics will normally have a background in upper-level genetics, biochemistry and statistics (biometrics) with a First class standing in their previous degree. Eligibility is determined on the basis of academic standing, research experience and letters of recommendation. Academically acceptable applicants must also obtain the commitment of a research supervisor from the Department of Medical Genetics before receiving final acceptance from the Program and the Faculty of Graduate Studies.

M.Sc. students are required to take 12 credits of core courses and 6 credits of electives in their first year. For course details see the Medical Genetics Graduate Program (www.medgen.ubc.ca/courses/mggp/course-req.htm) and Medical Genetics course information (www.medgen.ubc.ca/courses/courses.htm).

In addition, M.Sc. students must successfully complete their thesis.

Cheryl Bishop, Graduate Secretary

MICROBIOLOGY AND IMMUNOLOGY

Degrees Offered: Ph.D., M.Sc.

Members

PROFESSORS

J. T. Beatty, L. Eltis, B. Finlay, R. E. M. R. Gold, W. Hancock, W. Jefferies, P. Johnson, J. Kronstad, W. W. Mohn, J. K. Smit, G. B. Spiegelman, C. Suttle, H. S. Teh, C. Thompson, G. Weeks.

ASSOCIATE PROFESSORS

R. Fernandez, F. Jean, M. E. Murphy.

ASSISTANT PROFESSORS

N. Abraham, E. Gaynor, S. Hallam, M. Horwitz.

Program Overview

The Department of Microbiology and Immunology offers opportunities for original research in the areas of molecular and applied microbiology,

biotechnology, cell and developmental biology, molecular biology, molecular genetics, molecular immunology, microbial pathogenicity, and virology. The Department has excellent research funding and a commitment to high quality, modern research. A list of faculty and associate members and their research interests is available from the Department.

Students must satisfy the admission requirements of the Faculty of Graduate Studies including, for international students whose first language is not English, a minimum TOEFL score of 590. International students are required to take the Graduate Record Examination (GRE). For an application to be competitive, a score in the 600 range in both the quantitative and analytical sections is recommended. The GRE is optional for North American students.

Degree Requirements

DOCTOR OF PHILOSOPHY

Students may be accepted into the Doctor of Philosophy program based on a First-Class standing in their undergraduate degree. During their first year, they will be required to complete 18 credits of course work with a First class standing, including Molecular Microbiology Techniques (MICB 506) and a seminar (MICB 530). Students entering the Ph.D. program with an advanced degree (such as a Master of Science) will be required to take the seminar (MICB 530) during their first term in the program. Course requirements in addition to MICB 530 will be at the discretion of the thesis supervisory committee. All Ph.D. students will be required to pass a comprehensive examination on topics related to their research area of interest within 18 months of starting their program.

MASTER OF SCIENCE

Students will enrol in Molecular Microbiology Techniques (MICB 506) and a seminar (MICB 530) in addition to at least 9 credits in other courses in their first year. In addition, the student must perform research work under a research supervisor and write and defend a thesis based on this research. Master's students who have completed one year of study in the program may be eligible to transfer to a doctoral program without completing the master's degree.

MINING ENGINEERING

Degrees Offered: Ph.D., M.A.Sc.

Members

PROFESSORS

J. A. Meech, M. Scoble, W. Ward.

ASSOCIATE PROFESSORS

S. W. Dunbar, B. Klein, R. Pakalnis, M. Veiga.

ASSISTANT PROFESSORS

R. Hall, M. Morin, M. Pawlik.

Program Overview

The graduate program in Mining Engineering offers opportunity for study in the fields of mining and mineral processing, including mine environment and coal preparation. Areas of research interest are indicated below.

- Mining. Mine economics and valuation, mine design, drilling and blasting methods, rock mechanics and slope stability, optimization and simulation of mining operations, advanced mining methods, mine services (particularly mine ventilation), and climatic control.
- Mineral processing. Unit operations, comminution, process modelling and optimization, expert systems, instrumentation and computer control, flotation, surface chemistry, fines recovery, coal recovery, treatment of fine and oxidized coal, and precious metals recovery.
- Mining Environment. Acid rock drainage, environmental protection, effluent control and treatment.

Students must satisfy the admission requirements of the Faculty of Graduate Studies including, for international students whose first language is not English, a minimum TOEFL score of 550.

Students should note that not all courses listed are offered every year.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy program combines coursework with a research thesis. Students select their courses in consultation with faculty to suit their research needs. Part-time students are actively encouraged by the program and interested applicants should contact the program for further information. Students who wish to be considered for financial assistance should apply for admission as early as possible.

MASTER OF APPLIED SCIENCE

The Master of Applied Science (M.A.Sc.) program combines research and coursework and requires a total of 30 credits. A research thesis is assigned between 6 to 12 credits by the head of the program in consultation with the research supervisor.

For information about the professional Master of Engineering (M.Eng.) program, please see the *Faculty of Applied Science*, p. 107, or visit the program website (www.mining.ubc.ca).

MODERN LANGUAGE EDUCATION

Degrees Offered: M.A., M.Ed.

Members

PROFESSORS

S. Carey, P. Duff.

ASSISTANT PROFESSOR

M. Bournot-Trites.

Program Overview

The graduate program in Modern Language Education (MLED) examines the social, linguistic, educational, cognitive, and political processes affecting the teaching, learning, assessment, and use of languages other than English, whether learned as a first, second/additional, or heritage language. The program Faculty have special expertise in MLED teaching methods, language assessment, bilingualism, French as a Second Language, French immersion education, multilingual literacies, Asia-Pacific languages in education, heritage language education, technology in language education, language policy, and research on classroom teaching/learning of modern languages.

Students who would like to undertake a Ph.D. specializing in Modern Language Education can do so through the program in *Language and Literacy Education*, p. 261.

Degree Requirements

MASTER OF ARTS

Admission Requirements: In addition to the Faculty of Graduate Studies requirements, the Department of Language and Literacy Education requires:

- 1) at least an 18-credit concentration in the subject area (see the website (www.lled.educ.ubc.ca) for specifics)
- 2) normally two years of formal teaching experience.

Program Requirements: The program consists of 30 credits. At least 15 credits must be at 500 level or above. A total of 6 credits may be taken at the 300 or 400 level. A thesis, either 6 or 9 credits, is included.

Full-time and part-time study options are offered.

MASTER OF EDUCATION

Admission Requirements: Same as M.A.

Program Requirements: The program consists of 30 credits, of which 24 must be at the 500 level or above. A total of 6 credits may be taken at the 300 or 400 level. Students may opt for a program consisting entirely of courses, or may elect to do 27 credits of coursework plus a graduating paper.

Full-time and part-time study options are offered.

MUSIC

Degrees Offered: Ph.D., D.M.A., M.A., M.Mus.

Members

PROFESSORS

W. E. Benjamin, M. C. Berinbaum, G. G. Butler, S. G. Chatman, J. A. Coop, K. A. Hamel, N. J. Hermiston, J. E. Kreider, D. J. Metzger, J. Read, J. B. Roeder, R. Sharon, M. Tenzer.

ASSOCIATE PROFESSORS

R. B. Kurth, V. G. Micznik, B. Pullan, E. J. Wilson.

ASSISTANT PROFESSORS

S. Buechner, D. Chang, E. Choi, A. Dodson, A. Fisher, C. Hamm, D. Harding, N. Hesselink, R. Oostwoud, J. Wood.

Program Overview

The School of Music offers graduate programs and degrees in three broad fields of specialization: performance, composition, and music scholarship. The Master of Music (M.Mus.) is offered in composition and performance concentration in piano, organ, harpsichord, guitar, orchestral instruments, voice, choral conducting, or opera. The Doctor of Musical Arts (D.M.A.) is offered in composition and performance concentration in piano, voice, or orchestral instruments. The Master of Arts (M.A.) and the Doctor of Philosophy (Ph.D.) in Music are offered with emphases on theory, historical musicology, and ethnomusicology.

The School occupies a well-equipped building, which includes a fine recital hall (300 seats). The Chan Centre for the Performing Arts, containing the 1,400-seat Chan Shun Concert Hall, opened in March 1997. The Music Library houses the second largest collection in Canada, including over 70,000 books and scores. The School owns a growing collection of instruments, including 125 pianos, several important violins, a 64-rank organ by Casavant (1969), many historical wind and string instruments (including two harpsichords and a forte piano), and instruments representing several Asian traditions, including Javanese and Balinese gamelans and numerous Chinese and Japanese stringed and wind instruments.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Ph.D. program admits superior candidates for scholarly studies in musicology (historical or ethnographic studies and theoretical studies,

with individual programs subject to explicit orientation and certification in one of these two major directions). The program is designed to provide thorough training in the techniques and applications of musical research and analysis. The dissertation is expected to demonstrate a capacity for doing research that enhances or qualifies existing bodies of knowledge, or that presents important new interpretations of prevailing materials and methods.

Credit requirements for the Ph.D. are: 21 credits of coursework, comprehensive examinations, and a thesis. For language requirements, a Graduate Programs brochure is available from the School of Music.

DOCTOR OF MUSICAL ARTS

The D.M.A. program is designed for performers and composers who have already reached a high level of proficiency and artistry in their fields and who may wish to teach at the university level. This program offers an opportunity to bring creative and performance achievement to a high level while enriching individual backgrounds with cognitive studies. Students in music performance are expected to pursue supplementary individual projects in performance practice and music literature. Studies in music theory and music history are included. Graduate student composers work closely with faculty in composition and music theory, and are expected to compose major works for public performance in addition to fulfilling course requirements.

Credit requirements for the D.M.A. in composition are: 33 credits of coursework (15 of which are in the major field), a completed portfolio of works, demonstrated proficiency in one foreign language, comprehensive examinations, and a thesis comprising a major work and accompanying document. The D.M.A. in performance requires: 42 to 44 credits (of which 60% are in the major field), comprehensive examinations, and a thesis comprised of four recitals and a written document.

MASTER OF ARTS

The M.A. program, offered in the fields of historical musicology, music theory, and ethnomusicology, is designed to acquaint the student with methods of scholarly research. It provides broad general training in addition to opportunities for specialized research in particular areas of inquiry. Prescribed curricula are flexible, providing latitude to meet diverse individual needs. A thesis is required and the program is normally of two years' duration.

Credit requirements for the M.A. are: 30 to 32 credits, typically including a 6-credit thesis, and 14 to 18 credits of required courses. Proficiency in one appropriate language must be demonstrated.

MASTER OF MUSIC

The M.Mus. degree in performance and composition is offered to candidates who have achieved necessary levels of attainment and productivity at the undergraduate level, and who give reasonable promise of further significant accomplishment. This degree is often a final academic step for the musician who wishes

to enter the professional world, although it may prove to be an intermediate step for those wishing to prepare for university teaching. Performance candidates present a recital or opera performance in lieu of thesis, while the graduate composition student presents a program of original works. A two year residency is the norm.

Credit requirements for the M.Mus. are: 33 to 39 credits (including a 6-credit thesis comprised of one or more required recitals), and 18 to 25 credits of required courses (including private study).

MUSIC EDUCATION

Degrees Offered: M.A., M.Ed.

Members

ASSOCIATE PROFESSOR
P. Gouzouasis.

ASSISTANT PROFESSOR
S. Goble.

Program Overview

The graduate programs (M.Ed. and M.A.) in Music Education are part of the graduate offerings in the Department of Curriculum Studies. Cross-faculty involvement (e.g., with the School of Music) is actively encouraged. Specializations include conducting (choral and instrumental), pedagogy, curriculum development, distance education and distributive learning, early childhood music, cultural studies, music and media studies, evaluation and assessment, music psychology, new media and music technologies, and teacher education. Research approaches include ethnography, experimental and correlational research, historical research, narrative inquiry and other forms of arts-based educational research, and philosophical and critical analysis.

Degree Requirements

MASTER OF ARTS

Admission Requirements: In addition to the Faculty of Graduate Study requirements, the program requires:

- 1) Normally, 18 credits of senior coursework or a professional concentration in the area of interest.
- 2) Normally, two years of teaching experience or other relevant professional experience.

Degree Requirements: The program consists of 30 credits. At least 15 credits must be at 500 level or above. A maximum of 6 credits may be taken at the 300 or 400 level. A thesis, normally 9 credits, is included.

Part-time and full-time study options are offered.

MASTER OF EDUCATION

Admission Requirements: Same as M.A.

Degree Requirements: The program consists of a minimum of 30 credits, of which 24 must be courses numbered at the 500 level. A maximum of 6 credits may be taken at the 300 or 400 level. Students select either a program consisting entirely of courses (for example, ten 3-credit courses) or 27 credits of coursework plus a graduating project (3 credits).

Part-time and full-time study options are offered.

Program Overview

The Neuroscience program is administered by the Neuroscience Advisory Committee which is responsible to the Dean of the Faculty of Graduate Studies. The Neuroscience program is flexible and is intended to accommodate the diverse background of students wishing to enter it, and also takes into account the broad nature of neuroscience research. The program will accept for advanced degrees applicants with

undergraduate majors in a variety of disciplines including, but not restricted to, biology, biochemistry, computer sciences, engineering, mathematics, neurosciences, pharmacology, physics, physiology, psychology, and zoology. Applicants who are not graduates of a Canadian or American university are required to take the Graduate Records Examination (GRE). Students whose first language is not English are required to take the test of English as a foreign language (TOEFL). Graduates with a professional degree (M.D., D.M.D., D.V.M.) may also be accepted into the program. Acceptance into the program is dependent upon:

- 1) meeting the general entrance requirements of the Faculty of Graduate Studies;
- 2) acceptance by the Neuroscience Admissions Committee; and
- 3) acceptance from a faculty member willing to act as the student's supervisor in a graduate program in Neuroscience.

The student's graduate program will be decided upon by the student and the student's supervisory committee. The program aims for flexibility so that the individual needs of students with different interests in neuroscience can, as far as possible, be accommodated.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Ph.D. program consists of coursework usually taken in the first year, a comprehensive examination, and a research dissertation defended in a final oral examination. Courses taken at other universities or in their undergraduate program will be taken into consideration in planning the student's core course curriculum.

Prerequisites include either a master's or an honours bachelor's degree with First class standing or equivalent.

MASTER OF SCIENCE

The M.Sc. program consists of at least 18 credits of coursework usually taken in the first year (no more than 6 credits at the 300 level or above plus at least 12 credits at the 500 level) and a 12-credit research thesis for a total of 30 credits.

Prerequisites include a bachelor's degree or its academic equivalent in a related subject.

NURSING

Degrees Offered: Ph.D., M.S.N.

Members

PROFESSORS

J. M. A. Anderson, J. L. Bottorff, E. A. Carty, J. L. Johnson, P. Ratner, S. Thorne.

ASSOCIATE PROFESSORS

W. A. Hall, A. Henderson, C. J. Jillings, G. L. Joachim, M. J. Lynam, A. Perry, E. Saewyc, C. Varcoe.

ASSISTANT PROFESSORS

L. Balneaves, G. Boschma, A. Browne, C. Canam, L. Chiu, S. Dahinten, A. L. Dewar B. Garrett, J. Oliffe, J. A. Phinney, F. Warnock, S. Wong.

Program Overview

The School of Nursing offers two graduate degrees: a Master of Science in Nursing (M.S.N.), and the Doctor of Philosophy (Ph.D.). These graduate degree programs provide advanced professional leadership, clinical scholarship, and research training beyond the baccalaureate degree in nursing.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Ph.D. program in Nursing is designed to prepare researchers and leaders to develop the knowledge base of nursing. The program combines core courses totalling 12 credits, support courses as specified by the supervisory committee, and a thesis. A comprehensive examination is held upon completion of all required coursework. Applicants to the program are admitted on the basis of outstanding achievement in their master's program; evidence of potential for research and scholarship; an ability to be self-directed; and articulated goals in keeping with the resources available in the program, including available faculty support and programs of research. The number of qualified applicants that can be accepted in any given year is determined by faculty resources and other factors. Applicants must at minimum meet the admission requirements of the Faculty of Graduate Studies. GRE scores are required by the School of Nursing. Canadian students must hold practising nurse registration in BC or another province. International students must meet general eligibility criteria for nurse registration in BC.

MASTER OF SCIENCE IN NURSING

The M.S.N. program is designed to prepare graduates to function as leaders in a range of roles such as education, advanced practice, policy implementation, health care management, and nursing knowledge development. The program provides a basis for leadership in professional nursing practice and also creates a foundation for doctoral studies. Within the 33-credit program, the student may do a major essay (3 credits) or a thesis (6 credits). Applicants must be registered nurses with a baccalaureate degree, normally in nursing, who meet the admission requirements of the UBC Faculty of Graduate Studies. Successful applicants will be drawn from the top-ranked

candidates who have a minimum overall average of 76% at the third- and fourth-year levels, with a First class standing (80% or above) in 12 credits or more of nursing courses in their baccalaureate program. GRE scores are required by the School of Nursing. In order to be included among the top-ranked candidates, there must be clear evidence that the applicant is competent to pursue studies in the English language. Completion of a satisfactory TOEFL (Test of English as a Foreign Language), with a minimum score of 600, may be required before any offer of admission can be made.

The School offers a Nurse Practitioner (Family) option, within the M.S.N. program, that prepares family nurse practitioners who will work in primary care settings. Graduates will be prepared to assess, diagnose and treat common and predictable conditions across the lifespan. In contrast to the general M.S.N. program, this option comprises 54 credits of coursework designed to meet the anticipated competencies associated with program approval so that graduates may sit national credentialing exams and be eligible for provincial licensure. Applicants must meet the general requirements for admission to the M.S.N. program, have completed a minimum of three years of clinical practice as a registered nurse, demonstrate clinical excellence, and provide evidence of their ability to work autonomously.

OCCUPATIONAL AND ENVIRONMENTAL HYGIENE

Degrees Offered: Ph.D., M.Sc.

Members

PROFESSORS

M. Brauer, M. Hodgson, S. M. Kennedy, K. E. Teschke.

ASSOCIATE PROFESSOR

P. Demers.

ASSISTANT PROFESSORS

K. Bartlett, W. Chu, H. Davies.

Program Overview

The vision of the School of Occupational and Environmental Hygiene (SOEH) is a world in which risks from occupational and environmental hazards are minimized by their recognition, evaluation, and control, to the benefit of workplace and community health and well-being. The School's mission is to enhance public health and well being through minimizing risks from occupational and environmental hazards by providing an outstanding education to students and professionals, by generating new knowledge through research, and by effectively communicating this knowledge.

Students interested in research or professional careers in any aspect of workplace or community environmental exposures and their impact on human health are encouraged to apply. The School's major research themes include acoustics, noise, and vibration; exposure assessment and epidemiology; analytical methods development using immunological, biological, chemical, and microsensor methods; occupational and environmental respiratory disease; and risk assessment and translation of research to policy.

For additional information, see *the School of Occupational and Environmental Hygiene*, p. 367, or SOEH's website (www.soeh.ubc.ca).

Degree Requirements

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy is a research degree; students should enter with a strong background in their field of study. The primary goal of the Ph.D. program is to develop the occupational and environmental hygiene researchers, university teachers, and policy makers of tomorrow. Students with a master's degree in occupational or environmental sciences must complete a minimum of 9 credits of courses; those from other disciplines must complete a minimum of 18 credits of courses including 9 credits selected from a list of specified "core" courses. Specific course requirements are determined by the student's supervisory committee in consultation with the student; additional courses may be necessary in support of the proposed thesis research. As research is the cornerstone of any doctoral program, emphasis will be on courses that promote an understanding of research methodologies. In addition to standard coursework all doctoral students must participate in the School research seminars throughout their doctoral program.

MASTER OF SCIENCE

Students in the Master of Science program may choose to follow a project or thesis option. Because of the varied backgrounds of students, both options are relatively course-intensive and include specific non-credit requirements related to adult education in addition to courses.

Students in the **project option** must complete 11 mandatory courses, a 6-credit project based on a four-month co-op placement (culminating in a comprehensive technical report and presentations), and approved electives to make up a total of 45 credits of course and project work. After completion of all required components students must also pass a comprehensive examination.

The **thesis option** also comprises 45 credits of courses and research work. Students are required to complete three mandatory courses (including two research seminars), 16.5 credits of courses chosen from a list of specified "core" courses, a further 12 credits of approved electives, and complete a 12-credit research thesis (culminating in an oral examination).

Further details regarding required courses and non-credit activities are available on the SOEH website (www.soeh.ubc.ca).

OCCUPATIONAL THERAPY

Degrees Offered: M.O.T.

Members

PROFESSOR

I. Dyck.

ASSOCIATE PROFESSORS

C. Backman, T. Jarus, L. Jongbloed, S. J. Stanton.

ASSISTANT PROFESSOR

W. H. Miller.

Program Overview

Occupational therapists provide specialized rehabilitation services to maintain, restore, or improve the ability of children and adults to perform the occupations of daily life, which may be impaired as a result of illness, injury, congenital or acquired disabilities, or social disadvantage. Occupational therapists focus on adapting the environment or improving the person's skills, to enhance performance in the areas of self care (eating, dressing, personal hygiene), productivity (household work, employment, school), and leisure activities, thereby improving overall health and quality of life.

The Master of Occupational Therapy degree provides the professional education necessary to obtain a licence to practice occupational therapy. It differs from the advanced or research master's degree in *Rehabilitation Sciences*, p. 277, which prepares practitioners with advanced research skills and requires completion and defense of a thesis.

Degree Requirements

MASTER OF OCCUPATIONAL THERAPY

Admission is offered on a competitive basis. The annual enrolment and class size is limited. Admission requirements include:

- Completion of a recognized baccalaureate degree in any field and the successful completion of the following prerequisites: Biological Sciences (3 credits), Social Sciences (3 credits) and Behavioural Sciences (3 credits); and
- A minimum of 70 hours of volunteer or paid work which includes direct contact involving interaction with persons with cognitive, emotional, or physical disabilities at no more than two facilities.

Primary consideration for admission is given to residents of British Columbia.

Applicants who meet the above minimum requirements are eligible for interview consider-

ation (verbal communication skill, maturity, and personal suitability). The interview will comprise a verbal interview and an examination of written English proficiency. Fulfillment of the minimum requirements, however, does not guarantee an interview. Selection of interview candidates is based on the academic standing in the senior level courses.

OCEANOGRAPHY

Degrees Offered: Ph.D., M.Sc.

Members

PROFESSORS

R. Andersen, N. Balmforth, R. Francois, M. Healey, W. Hsieh, G. Ingram, C. Suttle.

ASSOCIATE PROFESSORS

S. Allen, K. Orians, R. Pawlowicz.

ASSISTANT PROFESSORS

C. DiBacco, M. Maldonado, E. Pakhomov, L. Pandolfo, A. Ridwell, P. Tortell.

Program Overview

Oceanographers investigate both fundamental and applied problems relating to the physics, mathematics, biology, chemistry, and geology of the sea, often working across traditional academic disciplines. Research carried out both independently and in collaboration with federal government laboratories occurs in many different oceanographic regimes, including coastal BC fjords, the inland sea of the Strait of Georgia, open ocean regions of the Subarctic Pacific, and many other locations, including the Arctic and Antarctic Oceans. The types of problems that can be studied include fundamental questions about the flow of stratified fluids at scales ranging from tens of meters to thousands of kilometers, applied research in estuaries, coastal, and deep-ocean processes, general ocean circulation and climate change issues, marine chemistry, geochemistry, and biogeochemistry, natural product chemistry, marine viruses, fisheries oceanography, plankton ecology and physiology, and primary production of the sea. The Department is well equipped to carry out research in the field (using either its own boat or larger vessels in the oceanographic fleet), at the laboratory bench, and in the numerical heart of a computer. Most problems involve aspects of all three.

Students in Oceanography may select courses, depending on their interest, from the following areas of specialization:

- Biological oceanography
- Marine chemistry and geochemistry
- Physical oceanography and atmospheric sciences

Students are encouraged to broaden their knowledge by taking courses outside their area of specialization. Courses related to Oceanography are also offered in the Departments of Botany, Chemistry, Civil Engineering, Geography, Physics and Astronomy, and Zoology.

Oceanography students normally begin their studies in September but may sometimes arrange to start their thesis work in the summer before their first Winter Session. A student wishing to do graduate work in Oceanography should first discuss the proposed program with appropriate faculty in the Department of Earth and Ocean Sciences.

Degree Requirements

DOCTOR OF PHILOSOPHY

Applicants normally should have a master's degree in an area of science or applied science. The Ph.D. program consists of appropriate course work chosen in consultation with the candidate's committee and the preparation of a thesis based on the results of original research.

MASTER OF SCIENCE

Applicants normally should have a bachelor's degree in an area of science or applied science. The Master of Science program consists of 12 credits of thesis and 18 credits in course work, or 30 credits in coursework and an essay.

ASSISTANT PROFESSORS

A. Brooks-Wilson, K. Chi, M. Cox, J. Davison, E. Guns, P. Hoodless, S. Jones, P. Kozlowski, K. McNagny, A. Mui, C. Ong.

Program Overview

The Interdisciplinary Oncology Program offers advanced study and research in a variety of fields relating to oncology. The focus on interdisciplinarity is accomplished through a breadth of coverage in the following disciplines: molecular and cellular biology, genetics, biophysics, bioinformatics, pharmaceutical

sciences, radiological sciences, immunology, sociobehavioural studies, and epidemiology. The goal of the Program is to provide graduate students from diverse backgrounds with an education in a number of disciplines relating to oncology, and to provide opportunities for intensive training in specialized aspects of oncology through thesis research.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy program consists of 18 credits of coursework plus a research thesis. Coursework must include the core courses (ONCO 501, 502, 510) plus electives chosen by the supervisor and the student, based on the student's needs and thesis topic. While most electives should be at the 500 level or higher, a maximum of 6 credits may be at the 300 or 400 level.

MASTER OF SCIENCE

The Master of Science program requires 18 credits of courses plus a 12-credit research thesis. Coursework must include the core courses (ONCO 501, 502, 510) as well as electives chosen by the student in consultation with his/her research supervisor. Most electives should be at the 500 level or higher but up to 6 credits may be at the 300 or 400 level.

Program Overview

Experimental Pathology refers to research in any area of biomedical investigation that is relevant to human disease. Since it is necessary to understand the normal working of the

system to fully define the changes associated with disease, the areas represented at UBC cover a wide range of fields and approaches. Work at all levels of biological organization is involved, from protein to lipoprotein biochemistry and molecular biology through cell and tumour biology, animal models for studies on pulmonary and cardiovascular pathophysiology and viral and bacterial infection processes, to clinical studies on human population and the AIDS epidemic. Projects suitable for graduate research are active in all these areas; current research funding awarded to faculty within the Department of Pathology exceeds \$6 million annually.

Degree Requirements

DOCTOR OF PHILOSOPHY

Students who apply with the equivalent of a First class honours degree may be admitted directly into the Ph.D. program. Such individuals must register for 18 credits of coursework, at least 10 of which must be graduate level courses during the first year. Doctoral students must obtain 68% to pass any course. To remain in the Ph.D. program, students must achieve a First class average with a minimum of 10 credits of First class standing in these courses. If this level is not obtained the student will be asked to complete an M.Sc. before embarking on a Ph.D. program. M.Sc. students who achieve at the academic level described above may be elevated directly into the Ph.D. program at the end of the first year if the student and supervisor agree and if such an elevation is recommended by the student's supervisory committee. Students entering with an M.Sc. are not required to complete coursework other than PATH 500A, PATH 635, and, if necessary, PATH 547, although other courses may be suggested by the supervisory committee.

All Ph.D. students must pass a comprehensive examination within the first 18 months of initial registration. The examination consists of preparation of a research proposal (written according to the regulations for an application for a grant-in-aid from the Medical Research Council of Canada) on a topic that may be related to the student's own research project but must be distinct from it. The proposal is presented and defended orally before an examination committee.

Each student must meet with his or her supervisory committee once a year and requires the committee's consent to prepare the thesis. This thesis is first presented and defended before a Departmental examination committee containing two individuals not on the supervisory committee. The process culminates in a public examination of the thesis by representatives of the student's advisory committee, two University examiners and an external examiner (whose comments are received in writing by the Examining Committee). A Ph.D. is normally completed in four to five years.

MASTER OF SCIENCE

To enter the M.Sc. program students must possess a bachelor's or M.D. degree with the academic background outlined in the Eligibility

section. The program is expected to be completed in two to three years.

18 credits of coursework (of which no more than 6 may be for undergraduate courses) plus an 18-credit thesis are required for completion. All students must register for PATH 500A: Experimental Pathology (2 credits), the seminar series PATH 535 (2 credits) and, if a similar such course has not been taken, PATH 547: Molecular Biology Laboratory (3 credits). The remaining courses are chosen by the student and supervisor, with consideration of the student's background and the research area of the thesis.

Each student must meet with his or her supervisory committee, consisting of at least three faculty members, at least once a year for a review of progress. The final examination consists of an oral presentation of the thesis and its defense before an examining committee.

ASSISTANT PROFESSORS

B. Cairns, A. Frankel, U. Hafeli, R. Kassam, U. Kumar, L. D. Lynd, C. A. Marra, J. Soon, J. M. Y. Wong.

Program Overview

The Faculty of Pharmaceutical Sciences offers opportunities for advanced study leading to the Master of Science (M.Sc.) and Doctor of Philosophy (Ph.D.). The Faculty ranks in the top tier of Pharmacy Faculties in Canada and provides outstanding research mentoring opportunities. The research interests of the individual members of the Department can be found in the Faculty section of the program's website (www.pharmacy.ubc.ca). The Faculty's research and clinical faculty have national and international reputations in their fields and we graduate highly qualified personnel. There is a high demand for our graduates in academic and clinical institutions, pharmaceutical and biotechnology companies, and the government.

Degree Requirements

DOCTOR OF PHILOSOPHY

Students admitted to the Ph.D. degree will normally possess a master's degree or recognized equivalent from an accredited university-level institution with the minimum academic requirements met. Transfer from the M.Sc. to the Ph.D. program is permitted under regulations set forth by the Faculty of Graduate Studies. The regulations which apply to M.Sc. students in terms of course requirements also apply to doctoral candidates who have not taken these courses must achieve an equivalent academic level during their first two years of study, as determined by the candidate's research committee. For the Ph.D. degree there is a Faculty requirement for the completion of a thesis (12 credits) and a seminar (2 credits).

For information about the professional Doctor of Pharmacy (Pharm.D.) program, please see *the Faculty of Pharmaceutical Sciences*, p. 374, or visit the program's website (www.pharmacy.ubc.ca/graduate_programs/PharmD.html).

MASTER OF SCIENCE

New graduate students holding a baccalaureate degree are generally admitted only into the M.Sc. program; however, the Faculty strongly encourages subsequent transfer into the Ph.D. program for those who wish to pursue a Ph.D. More information about transfer to the Ph.D. program can be found at the Graduate Studies website (grad.ubc.ca). A master's student must complete most of the graduate courses offered in their specific division they have chosen. If a course relevant to the student's field of research is offered by another Faculty, preference should be given for that course over a divisional course if the former is more relevant to the student's field of research. A minimum of 30 credits are required which includes 12 credits for the thesis, 2 credits for the seminar, a minimum of 10 additional credits at the 300 level or above.

ASSISTANT PROFESSORS

C. R. Ries, S. Schwarz, X. Wang.

Program Overview

Pharmacology and Therapeutics was established in 1951. The more than 20 faculty members are devoted to research and teaching of Pharmacology and Therapeutics in the Faculty of Medicine at UBC. Courses in Pharmacology are taught in the undergraduate, medical, dental, and graduate programs.

Our program adheres to an “apprenticeship” model of graduate training, in which graduate students work in close collaboration with a faculty member who is also their graduate supervisor. The program has strengths in projects covering a wide range of scientific and clinical areas of investigation. The primary aim of our graduate training program is to provide students with the skills necessary to conduct research in Pharmacology and Therapeutics that can be published in first-rate journals. Thus, an important factor in an applicant’s admissibility is a matching of research and professional interests of the student and a faculty member within the program.

Degree Requirements

DOCTOR OF PHILOSOPHY

Applicants to the Ph.D. program must have advanced understanding in Pharmacology in addition to fulfilling the admission requirements of the Faculty of Graduate Studies. Facilities are available for original investigations in cellular, biochemical, viral, autonomic, cardiovascular, clinical, and neuropharmacology within Pharmacology and Therapeutics.

MASTER OF SCIENCE

In addition to fulfilling the admission requirements of the Faculty of Graduate Studies, acceptance to the M.Sc. program requires a B.Sc. degree in Pharmacology (or a related subject), or a Doctor of Medicine (M.D. or equivalent) degree. Students are required to take 18 credits of graduate-level courses in pharmacology and thesis-related subjects plus a 12-credit thesis.

ASSOCIATE PROFESSOR
P. Bartha.

ASSISTANT PROFESSORS

S. Anderson, S. Berryman, P. Rysiew, O. Simchen, C. Stephens.

Program Overview

The Department of Philosophy offers courses of instruction leading to both the Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) in most major areas of the discipline, including epistemology, metaphysics, ethics, political and social philosophy, philosophy of art, philosophy of mind, philosophy of language, logic, philosophy of science, philosophy of biology, philosophy of mathematics, and history of philosophy.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy program consists of coursework, a comprehensive examination, and research leading to a dissertation that is defended in an oral final examination. See the graduate regulations located on the department’s website (www.philosophy.ubc.ca) for details.

Prerequisites for the Ph.D. include either an M.A. or an honours B.A. with First class standing or equivalent.

MASTER OF ARTS

There are two options for the Master of Arts:

- 1) Thesis Option. This option requires 18 credits of coursework (a maximum of 6 credits at the 300 and 400 level, and a minimum of 12 credits at the 500 level or above) and a 12-credit thesis.
- 2) Non-thesis Option. This option requires 30 credits of coursework. Of these, 6 credits may be at the 300 or 400 level, and 24 credits must be at the 500 level or above.

Prerequisites for the M.A. program include a Bachelor of Arts or Bachelor of Science with at least one term course in formal logic and sufficient upper division work in the history of philosophy, ethics and value theory, and metaphysics, epistemology, or the philosophy of science to enable the student to undertake graduate-level work in these areas.

PHYSICAL EDUCATION

Degrees Offered: M.A., M.Ed.

Members

ASSOCIATE PROFESSOR
H. Hubball.

ASSISTANT PROFESSOR
J. Butler.

Program Overview

The graduate programs (M.Ed. and M.A.) in Physical Education (PETE) are part of the graduate offerings in the Department of Curriculum Studies. The Physical Education program

will appeal to elementary, middle, and secondary school educators with interests in: integrated and thematic approaches to curriculum and pedagogy; development and evaluation of outdoor environmental, leadership or experiential education programs; active living, health promotion and wellness; movement education concepts; teaching games for understanding; and inclusive models of education and issues of equity and social justice.

Students interested in secondary physical education, sports specific instruction, or coaching might also want to consider the graduate programs in *Human Kinetics*, p. 258., but are encouraged to inquire with the Physical Education program as well.

Degree Requirements

MASTER OF ARTS

Admission Requirements: In addition to the Faculty of Graduate Studies requirements, the program requires:

- 1) Normally, 18 credits of senior coursework or a professional concentration in the area of interest.
- 2) Normally, two years of teaching experience or other relevant professional experience.

Degree Requirements: The program consists of 30 credits. At least 15 credits must be at 500 level or above. A maximum of 6 credits may be taken at the 300 or 400 level. A thesis, normally 9 credits, is included.

Part-time and full-time study options are offered.

MASTER OF EDUCATION

Admission Requirements: Same as M.A.

Degree Requirements: The program consists of a minimum of 30 credits, of which 24 must be courses numbered at the 500 level. A maximum of 6 credits may be taken at the 300 or 400 level. Students select either a program consisting entirely of courses (for example, ten 3-credit courses) or 27 credits of coursework plus a graduating project (3 credits).

Part-time and full-time study options are offered.

Basia Zurek, Graduate Secretary

PHYSICAL THERAPY

Degree Offered: M.P.T.

Members

PROFESSORS

E. Dean, S. R. Harris.

ASSOCIATE PROFESSORS

J. Eng, D. L. MacIntyre, W. D. Reid.

Program Overview

Physical therapists specialize in the assessment and treatment related to movement. Common movement disorders result from impairment of the neuromuscular, musculoskeletal, respiratory, or cardiovascular systems. Following assessment of their clients, physical therapists often use physical agents such as therapeutic exercise, heat, cold, and electrical stimulation to increase muscle strength and function, reduce pain, promote general health and fitness, and prevent disability. As specialists in movement dysfunction, physical therapists also provide expertise in human mobility, carefully analyzing gait patterns and prescribing treatment regimens or devices (such as braces, crutches, or wheelchairs) to enable clients to move independently through their environments.

The Master of Physical Therapy degree provides the professional education necessary to obtain a licence to practice physical therapy. It differs from the advanced or research master's degree in *Rehabilitation Sciences*, p. 277, which prepares practitioners with advanced research skills and requires completion and defense of a thesis.

Degree Requirements

MASTER OF PHYSICAL THERAPY

Admission is offered on a competitive basis. The annual enrolment and class size is limited. Admission requirements include:

- Completion of a recognized baccalaureate degree in any field and the successful completion of the following prerequisites: first-year Biology (6 credits or equivalent), first-year Physics (3 credits or equivalent), Chemistry 12 or higher, Basic Human Anatomy (3 credits or equivalent), Human Physiology (6 credits or equivalent), Psychology (3 credits or equivalent), Statistics (3 credits or equivalent); and
- A minimum of 70 hours of volunteer or paid work which includes direct contact involving interaction with persons with cognitive, emotional, or physical disabilities at no more than two facilities.

Primary consideration for admission is given to residents of British Columbia.

Applicants who meet the above minimum requirements are eligible for interview consideration (verbal communication skill, maturity and personal suitability). The interview will comprise a verbal interview and an examination of written English proficiency. Fulfillment of the minimum requirements, however, does not guarantee an interview. Selection of interview candidates is based on the academic standing in the senior level courses.

Program Overview

The Department of Physics and Astronomy is a broadly based department comprised of over 50 faculty members with a wide range of research interests that cover most of the key topics in contemporary physics and astronomy. These activities are supported by several computing and experimental facilities within the Department, and excellent electronics and machine shops. Much of the Department's research is enhanced by local facilities such as the TRIUMF National Laboratory, the Advanced Materials and Process Engineering Laboratory (AMPEL), and the BC Cancer Agency, UBC and Vancouver General Hospitals, in addition to many specialized research laboratories housed within the Department. There is a great deal of collaboration and overlap of interests among the various groups, and incoming graduate students are currently attracted to research opportunities in many subfields of physics:

- Applied Physics (see *Engineering Physics*, p. 247)
- Medical Physics
- Biophysics
- Nuclear and Particle Physics
- Astronomy and Astrophysics (see *Astronomy*, p. 234)
- Atomic, Molecular, and Optical Physics
- Condensed Matter Physics
- Theoretical Physics

Full details on research programs and facilities are available on the departmental website (www.physics.ubc.ca) and the AMPEL website (www.ampel.ubc.ca).

Degree Requirements

DOCTOR OF PHILOSOPHY

The Department offers Ph.D. programs in Astronomy, Physics, and Engineering Physics.

Students may be admitted to the Ph.D. program after obtaining a Master of Science, or Master of Applied Science. A minimum of 12 credits in graduate level courses in any Science or Applied Science (or Medicine for Medical Physics students) departments are required for the Ph.D., with details of the course load determined in consultation with the thesis advisor and supervisory committee but must conform to the department's quantum mechanics requirements. Students who do not already have credit for the required master's degree courses for their program or the equivalent graduate level courses from another university (approved by Graduate Chair) must take these courses in the Ph.D. program. Alternatively, well-qualified students admitted to the M.Sc. program may transfer to the Ph.D. program after a year's residence at UBC if they have at least 18 credits in M.Sc. coursework with an overall average of at least 85%, clear evidence of research ability, and approval of the thesis supervisor. Direct transfer students require a further 12 credits of graduate-level coursework in any Science or Applied Science program (or Medicine for Medical Physics students) for the Ph.D.

MASTER OF SCIENCE

Master of Science programs are offered in physics and astronomy. The prerequisite for the program is a B.Sc. in physics (single or combined), astronomy, or mathematics; or a B.A.Sc. in engineering physics or electrical engineering. An overall average of 'A-' or better in third- and fourth-year courses is expected for entry into the program. The M.Sc. program requires a minimum of 30 credits with the thesis counting 12 credits. The remaining 18 credits must include at least 12 credits from graduate courses in any Science or Applied Science departments (or Medicine, for medical physics students), and may include up to 6 300- or 400-level credits in undergraduate courses. All M.Sc. students are required to satisfy the Department's quantum mechanics course requirements. Astronomy graduate students must also participate in the Astronomy Journal Club.

An accredited Master of Science program is offered with a specialization in Medical Physics. The M.Sc. (Medical Physics) specialization requires a minimum of 12 credits of thesis and 18 credits of specified courses (see the department website (www.physics.ubc.ca)). Students will also be required to accumulate a specified number of days of clinical experience and to participate in the medical physics seminar series.

K. G. Baimbridge, A. M. J. Buchan, C. McIntosh, J. A. Pearson, D. Fedida.

ASSOCIATE PROFESSORS

C. Courneya, S. J. Kehl, T. J. Kieffer, Y. N. K. Kwok, D. A. Mathers, E. D. W. Moore.

ASSISTANT PROFESSOR

J. D. Johnson.

Program Overview

The Department of Cellular and Physiological Sciences at UBC offers graduate programs leading to the M.Sc. and Ph.D. degrees. Physiology is an experimental science and thus there is an emphasis in both of these programs on research work carried out under the personal supervision of one of the members of the Faculty which will culminate in the preparation and presentation of a thesis. The research interests of the individual members of the Department can be found in the Faculty section of the website (www.physiology.ubc.ca).

Degree Requirements

DOCTOR OF PHILOSOPHY

Students admitted to the Ph.D. degree will normally possess a B.Sc. degree with First class honours in physiology. Transfer from the M.Sc. to the Ph.D. program is permitted under regulations set forth by the Faculty of Graduate Studies and the regulations that apply to M.Sc. students in terms of course requirements also apply to students in the first year of the Ph.D. program. Additional coursework may be required, as arranged in consultation with the student's supervisory committee. All Ph.D. students are required to pass an oral comprehensive examination with emphasis on the area of their research activity and this examination must be satisfactorily completed at least one year before the Ph.D. thesis is presented.

MASTER OF SCIENCE

For the M.Sc. degree there is a Faculty requirement for the completion of a minimum of 30 credits, which includes a 12-credit M.Sc. thesis. This total may be increased at the discretion of the candidate's supervisory committee if the student's undergraduate background has not included an extensive exposure to physiology or a closely related discipline. Ordinarily completion of an M.Sc. degree requires 18 months to two years of work.

ASSISTANT PROFESSOR

M. A. Larice.

Program Overview

The School of Community and Regional Planning (SCARP) was created in 1952 and has one of the largest planning programs in Canada. The School's mission is to advance the transition to sustainability through excellence in integrated policy and planning research, professional education, and community service. SCARP emphasizes an integrated approach to planning through five concentrations or streams: urban policy and community development, international development, environmental and natural resources, urban design, and planning process and methods. The School's master's degrees are recognized by the Canadian Institute of Planners and the American Institute of Certified Planners.

SCARP's research arm, the *Centre for Human Settlements*, p. 75, is involved in a variety of planning research projects focusing on urban development issues in both North and South America and Asia. In addition, two SCARP faculty are attached to the *Westwater Research Unit*, p. 83, and four SCARP faculty are attached to the *Institute for Resources, Environment and Sustainability*, p. 82.

Full details on SCARP can be found in the chapter *The School of Community and Regional Planning*, p. 175, and on the School of Community and Regional Planning website (www.scarp.ubc.ca).

Degree Requirements

DOCTOR OF PHILOSOPHY

The School offers a Doctor of Philosophy program for advanced study and research in the areas of its competence. The Doctor of Philosophy is primarily a research degree, so that students should enter with a good background in their field of study. After two years of coursework and examinations, candidates devote their efforts toward thesis research.

Applicants for admission must have a master's degree in Planning, or its equivalent, with high academic standing. To ascertain the School's ability to fulfil potential candidates' objectives, a statement of about 1,000 words is required describing their research interests and objectives which should be submitted at least one month before the application deadline.

For more information, visit the SCARP website (www.scarp.ubc.ca). All documents and the appropriate application fee should be returned

to the Director's Office. The deadline for submitting complete applications is December 1.

MASTER OF ARTS AND MASTER OF SCIENCE IN PLANNING

The master's degree will be either a Master of Arts (Planning) or a Master of Science (Planning), whichever best describes the prerequisites offered by the candidate and the courses chosen.

The M.A.P. or M.Sc.P. degree is awarded upon satisfactory completion of a program consisting of 60 credits, including a thesis or project, over two academic years. Those students who wish to develop a strong specialization may satisfy a significant proportion (up to 12 credits) of this requirement through courses in other departments.

Full details on master's programs can be found in *the School of Community and Regional Planning*, p. 175, and on the SCARP website (www.scarp.ubc.ca).

Patti Topoworski, Master's Admissions

PLANT SCIENCE

Degrees Offered: Ph.D., M.Sc.

Members

PROFESSORS

C. Chanway, Q. Cronk, B. Ellis, M. Isman, P. Joliffe, J. Kronstad, J. Myers, M. K. Upadhyaya.

ASSISTANT PROFESSORS

S. Binns, E. Jovel, A. Riseman.

Program Overview

The Plant Science Graduate Program offers M.Sc. and Ph.D. degrees in fundamental and applied topics related to plant production, plant protection, biotechnology, plant physiology and biochemistry, and plant-environment interactions. Specific areas of specialization include:

- Plant-microbe interaction, bacterial and fungal diseases, plant virology, biological control of pests and diseases, insect physiology, natural insecticides, insect ecology and behaviour, and weed biology, ecology, and control;
- Seed physiology, plant nutrition, plant growth analysis, plant-plant interaction, biotic and abiotic stressor resistance, and environmental plant physiology;
- Vegetable culture, ornamental horticulture, plant breeding, and post-harvest physiology;

- Plant biochemistry, tissue culture, genetic engineering, and plant, fungal, and viral molecular genetics; and
- Rangeland ecology and wildlife habitat studies.

The program is enriched through collaboration with colleagues in Graduate Programs such as Food Science, Soil Science, Botany, Zoology, and in agencies such as Agriculture and Agri-Food Canada, and the British Columbia Ministry of Agriculture, Fisheries and Food.

Coursework selected in consultation with the student's supervisory committee includes graduate courses in plant science and from other areas relevant to each student's research.

Plant Science teaching and research facilities are located in the UBC Biotech Laboratory and in the H.R. MacMillan Building, which houses the Faculty of Land and Food Systems and the MacMillan Library, with its excellent collection of books and periodicals in agriculture and forestry. Research facilities include the UBC Botanical Garden, field Laboratory (8.1 ha land and orchards on-campus), greenhouses, controlled environment growth chambers, and modern analytical laboratories.

Degree Requirements

DOCTOR OF PHILOSOPHY

Appropriate coursework will be selected in consultation with the candidate's committee. All candidates are required to take a comprehensive examination. The major requirement for the Ph.D. is completion of a research thesis demonstrating ability to conduct significant and original scientific research.

MASTER OF SCIENCE

Completion of the M.Sc. program requires a minimum of 18 credits of coursework plus 12 credits of thesis research.

POLITICAL SCIENCE

Degrees Offered: Ph.D., M.A.

Members

PROFESSORS

M. Byers, M. Cameron, C. Campbell, R. K. Carty, B. L. Job, R. G. C. Johnston, S. LaSelva, P. J. Marantz, D. Mauzy, P. Quirk, P. Resnick, A. Tupper, M. D. Wallace, M. Warren.

ASSOCIATE PROFESSORS

B. Arneil, P. Dauvergne, K. Harrison, R. M. Price.

ASSISTANT PROFESSORS

G. Baier, B. Baum, K. Coleman, F. E. Cutler, A. Ellermann, K. Foster, A. Jacobs, L. Janara, C. Kam, B. Nyblade, A. O'Mahony, L. M. Sundstrom, Y. Tiberghien.

Program Overview

The Department of Political Science offers opportunities for advanced study in the major fields of political science. It is a major centre for the study of Canadian politics with a strong core of faculty actively engaged in research touching on Canadian themes. The Department is a leading centre for the study of parties and elections in Canada. It has a long tradition of the study of federalism and the normative dimensions underlying Canadian politics. Much current work focuses on issues of public policy.

The University is one of North America's leading centres for Asian studies and the Department is an important element of that research strength with faculty members specializing in the study of China, Japan, India, Korea, and Southeast Asia. Several department members are associated with the Institute of Asian Research on campus and play an active role in the editorial work of the journal *Pacific Affairs* which is housed on campus.

The Department has a distinguished history of research in international relations and in international security studies. Several faculty members are associated with UBC's Interdisciplinary Centre of International Relations (whose current Director is a member of the Department of Political Science). The Centre has been recognized for its expertise by the Department of National Defence which provides support through its Military and Strategic Studies program.

The Department also promotes research and teaching in political theory, political economy, research methodologies, and public policy. Individual faculty members' interests cover a broad spectrum of political systems (including Russia, Latin America, the United States, and Australia in addition to those noted above) and embrace a variety of methodological approaches.

The UBC Library is one of North America's major university research libraries and is a depository for UN, Canadian, and BC Government publications, and many US Government documents. The Asian Research Library is a particularly important research centre. The Department and UBC Library hold joint memberships in the Inter-University Consortium for Political Research and the International Survey Library Association. The UBC Data Library has the largest collection of machine-readable material in Canada.

Degree Requirements

DOCTOR OF PHILOSOPHY

The basic requirements are six 3-credit seminars in the first year, two comprehensive examinations (chosen from Canadian politics, comparative politics, international relations, and political theory) the second year, and a dissertation. As a general rule, the Department requires that applicants to the Ph.D. program have an undergraduate degree and a Master of Arts in Political Science. Criteria for admission include evidence of outstanding previous work, research interests compatible with those of the Department, and letters of reference indicating

a strong potential to contribute to the discipline. Admission is competitive and the Department generally admits approximately 10 students each year.

MASTER OF ARTS

This is a one-year program for full-time students. Students may also complete the degree on a part-time basis. The basic requirements include six one-term seminars and a thesis of a maximum of 100 pages that is orally defended upon completion. As a general rule, successful applicants will have minimum First class standing (80% or higher at UBC or equivalent) in each of the last two years of undergraduate study, in accordance with the criteria for graduate funding in the Faculty of Graduate Studies.

The TOEFL requirement is 580.

Program Overview

The Department of Psychology offers advanced study leading to both the Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degrees in most major areas of the discipline, including: behavioral neuroscience, clinical psychology, cognitive science, developmental psychology, forensic psychology, personality and social psychology, and psychometrics. The clinical program is fully accredited by both the American Psychological Association and the Canadian Psychological Association. Graduate education in the department follows an apprenticeship model in which students conduct research in close collaboration with a particular faculty member. Graduate study must be on a full-time basis. Students are typically assured of financial support (in the form of fellowships, teaching assistantships, and research assistant-

ships) for two years at the master's level and four years at the doctoral level. Complete details regarding the various programs in psychology are provided on the Department website (www.psych.ubc.ca/graduate.htm).

Degree Requirements

DOCTOR OF PHILOSOPHY

Admission to the Ph.D. program requires a master's degree and evidence of research competence. Areas of specialization include behavioral neuroscience, clinical psychology, cognitive science, developmental psychology, forensic psychology, personality and social psychology, and psychometrics. Program requirements include coursework, comprehensive examinations, and a dissertation. In addition to the usual coursework and research requirements, clinical students must develop an acceptable level of clinical skill and serve a one-year internship in an approved applied setting.

MASTER OF ARTS

Admission to the M.A. program is restricted to those who intend to continue on to the Ph.D. Areas of specialization include behavioral neuroscience, clinical psychology, cognitive science, developmental psychology, forensic psychology, personality and social psychology, and psychometrics. In addition, the Department offers an M.A. specialization in Human-Computer Interaction, in collaboration with the *Media and Graphics Interdisciplinary Centre*, p. 76. Program requirements include coursework and a research thesis, and is expected to be completed within two years.

REHABILITATION SCIENCES

Degrees Offered: Ph.D., M.Sc., M.R.Sc.

Members

PROFESSORS

E. Dean, I. J. Dyck, S. R. Harris.

ASSOCIATE PROFESSORS

C. Backman, J. Eng, T. Jarus, L. Jongbloed, D. L. MacIntyre, W. D. Reid, S. J. Stanton.

ASSISTANT PROFESSOR

W. H. Miller.

Program Overview

Our research graduate programs are designed to prepare individuals to conduct research independently and in collaboration with other scientists. Students will investigate an area of research relevant to rehabilitation through critical analysis of problems related to basic sciences, clinical practice, or to development of theory.

Students will have the opportunity to study in state-of-the-art laboratories, such as the UBC

MacDonald Research Laboratory at St. Paul's Hospital, the Thoracic Outlet Syndrome Research Clinic in Kelowna, the McGregor-Hudson Physical Therapy Research Lab, the Margaret Hood Occupational Therapy Lab, the Post Polio Research Lab, the Rehabilitation Research Laboratory at GF Strong Rehab Centre, and the ICORD building.

Courses offered by our team of internationally renowned scholars and educators help students learn critical evaluation of the scientific literature relevant to rehabilitation, analysis of theoretical constructs through of quantitative and qualitative methods of inquiry, and the design, execution, and presentation of their results.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy (Ph.D.) will focus on the discipline of Rehabilitation Sciences, the study of providing treatment and education to persons with temporary or permanent disabilities to return them to maximum function, well-being, and personally-satisfying levels of independence.

A thesis-based master's degree in Rehabilitation Sciences, or other related fields of study, along with appropriate undergraduate and graduate courses, are normally required for admission.

Students must contact one or more potential faculty supervisors to discuss their research interests prior to the application deadline.

Students entering the Ph.D. program will be required to spend a minimum of two terms of uninterrupted duration (eight months) in full-time status at the University.

MASTER OF SCIENCE

The Master of Science (M.Sc.) program is designed to prepare individuals to conduct research independently and in collaboration with other scientists. Students will investigate an area of research relevant to rehabilitation through critical analysis of problems related to basic sciences, clinical practice, or to development of theory.

A bachelor's degree from a recognized university or college in a health-related discipline such as Occupational Therapy, Physical Therapy, Life Sciences, or Social Sciences is required for admission.

A minimum of 3 credits in research methodology and/or analysis is required.

Students must contact one or more potential faculty supervisors to discuss their research interests prior to the application deadline.

MASTER OF REHABILITATION SCIENCE

Our Master of Rehabilitation Science (M.R.Sc.) is a 30-credit, non-thesis, **online** master's degree. In addition to requiring the five graduate courses (15 credits) in the Graduate Certificate in Rehabilitation, learners in this advanced master's degree will also complete other courses and a major project.

This master's degree has been designed for occupational therapists, physical therapists, and other health professionals with a baccalaureate degree who have already established their

eligibility to practice in their discipline but want advanced knowledge to inform their practice.

Recommended: completion of an introductory course in Statistics.

RELIGIOUS STUDIES

Degrees Offered: Ph.D., M.A.

Members

PROFESSORS

A. A. Barrett, S. D. Sullivan, R. Todd, E. H. Williams.

ASSOCIATE PROFESSORS

D. Arbel, P. C. Burns, R. Cousland, R. Menkis, P. G. Mosca, D. Neufeld.

ASSISTANT PROFESSORS

L. Bablitz, L. Cooper, D. Creese, R. Daum, F. De Angelis, T. Hikade, C. Johnson, C. Marshall, M. Yazigi.

Program Overview

The Religious Studies graduate program offers courses of instruction leading to both the Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.). Studies leading to the M.A. degree are offered in the following areas of concentration: Biblical Studies; Christian Thought and Institutions; History of Religions; Islamic Studies; and Judaic Studies. The Ph.D. program at present provides training in Early Judaism, Christian Origins, and Religions of the Late Antique Mediterranean.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy program consists of coursework, comprehensive examinations, and research leading to a dissertation that is defended in an oral final examination.

Prerequisites for the Ph.D. include either (1) an M.A. in Religious Studies or equivalent, or (2) in exceptional cases, an honours B.A. with First class standing and clear demonstration of advanced research ability.

For details on the prerequisites and the graduate regulations (including language prerequisites and requirements), see the website (cnrs.arts.ubc.ca).

MASTER OF ARTS

There are two options for the Master of Arts:

- 1) **Non-thesis Option.** This option requires 30 credits of coursework, as well as comprehensive examination(s) and a major essay. Of the 30 credits, 6 credits may be at the 300 or 400 level, and 24 credits must be at the 500 level or above.
- 2) **Thesis Option.** This option requires 18 or 24 credits of coursework (6 credits at the

300 or 400 level, the rest at the 500 level or above) and a 12-credit or a 6-credit thesis, for a total of 30 credits.

Prerequisites for the M.A. program include a Bachelor of Arts in Religious Studies or equivalent.

For details on the language prerequisites and requirements, see the website (cnrs.arts.ubc.ca).

REPRODUCTIVE AND DEVELOPMENTAL SCIENCES

Degrees Offered: Ph.D., M.Sc.

Members

PROFESSORS

N. Auersperg, J. T. Emerman, G. Hammond, B. Ho Yuen, C. Y. G. Lee, P. C. K. Leung, P. F. McComb, Y. S. Moon, A. M. Perks, R. Rajamahendran, D. Rurak.

ASSOCIATE PROFESSORS

B. Gilks, R. Liston, C. MacCalman, D. Money, C. Roskelley.

ASSISTANT PROFESSORS

S. Ma, P. von Dadelszen.

Program Overview

The goal of the graduate program in Reproductive and Developmental Sciences is to provide students with a broad knowledge of mammalian reproductive and developmental biology, as well as with in-depth expertise in at least one area of research, including reproductive and molecular endocrinology, immunology of reproduction, fertilization and early embryonic development, perinatal metabolism, and fetal neonatal physiology. M.Sc. and Ph.D. programs of study are offered. Both programs involve coursework and completion of a thesis based on research carried out by the student.

Degree Requirements

DOCTOR OF PHILOSOPHY

In addition to *Admissions Requirements*, p. 217, as set by the Faculty of Graduate Studies, applicants must have:

- 1) A B.Sc. degree with First class honours in Biological Science or related field, or its academic equivalent (M.D., D.V.M., D.D.S.). **N.B.: students entering directly from bachelor's degree must, during the first year of graduate study, complete 18 credits with a First class average of which at least 10 credits must be at the 500 level or above and at least 10 credits must be of First class standing;**
- 2) A bachelor's degree with one year of study in a master's program with 18 credits of First class standing, and clear evidence of

research ability. Students in the M.Sc. program may transfer into the Ph.D. program at the end of their first year provided they meet the transfer requirements of the Faculty of Graduate Studies and the graduate program; or

- 3) A master's degree (or equivalent in Biological Science or a closely related field).

MASTER OF SCIENCE

In addition to *Admissions Requirements*, p. 218, as set by the Faculty of Graduate Studies, applicants must have a B.Sc. degree or its academic equivalent (M.D., D.V.M., or D.D.S.) with:

- 1) Honours in Biological Science (or a closely related field) with First class standing in at least 12 credits of third- and fourth-year coursework in that field; or
- 2) First class standing in at least 12 credits of coursework and at least upper Second class standing in the remaining course work at the third- and fourth-year level in the field of Biological Science or related subjects.

RESOURCE MANAGEMENT AND ENVIRONMENTAL STUDIES

Degrees Offered: Ph.D., M.A., M.Sc.

Members

PROFESSORS

H. Dowlatabadi, M. J. Healey, T. McDaniels, J. B. Robinson, H. E. Schreier, I. B. Vertinsky.

ASSOCIATE PROFESSORS

S. Chang, L. Frank, S. Hinch, T. Satterfield.

ASSISTANT PROFESSOR

K. Chan.

Program Overview

The Institute for Resources, Environment and Sustainability provides interdisciplinary graduate study through the Resource Management and Environmental Studies program (RMES). RMES provides a home for graduate students focusing on the integration of the biophysical (ecological) and the socio-economic and political realities of resource management within the context of a sustainable healthy environment. Students in RMES develop tailored academic programs for their graduate degrees that draw on the expertise of faculty from across the campus, as well as the private and public sectors. To enable students to develop unique graduate programs that capture the breadth of their previous educational experience and their academic and career goals, the RMES program offers either a M.A. or M.Sc. option as well as a Ph.D. Supervisors of graduate students, as well as members of the supervisory committee, are selected from across

the University representing the faculties of Arts, Science, Applied Science, Law, and Graduate Studies.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Ph.D. program involves intensive research resulting in an original and scholarly contribution to knowledge in the field of study. The candidate is expected to initiate and develop a research plan in consultation with their supervisory committee. The program, because of its comprehensive nature, normally requires three to four years for completion. Students admitted to the RMES program will be required to take RMES 500, RMES 501, and RMES 502, or equivalent courses as assigned by the supervisory committee, if they have not already taken courses judged by the graduate program chair as equivalent. Additional courses will be assigned by the supervisory committee and approved by the graduate program chair.

The supervisory committee and student will agree on the student's required academic program. Upon completion of the academic course requirements, and normally at least two years before the candidate is expected to complete requirements for the Ph.D., the Comprehensive Examination takes place. This examination consists of a written examination with questions submitted by the supervisory committee, followed by an oral examination. The defence of the thesis follows the guidelines and policies of the Faculty of Graduate Studies.

MASTER OF ARTS AND MASTER OF SCIENCE

The master's degree provides candidates with the opportunity to broaden their academic and research experience. The student's background, the selection of the thesis topic, the approach to research and the program electives, govern whether the M.A. or M.Sc. degree program is pursued. A research investigation producing a scholarly contribution to the particular area of study is necessary. Normally, these programs will take two years to complete, including at least one year of residence. Provision is available for students who demonstrate outstanding academic and research ability to transfer to the Ph.D. program after completion of one year's residency. Transfer is possible if the supervisory committee strongly supports the transfer and it is endorsed by the graduate program chair.

The master's degree requirement is a minimum of 36 credits, including a 12-credit thesis. Of the remaining 24 credits of coursework, at least 16 credits must be in courses numbered 500 or above. The academic program must be approved by the supervisory committee and the graduate program chair. The intent of the program is to ensure that the student research and write an integrative thesis. Upon completion of the thesis, an external examiner (on or off campus) will be appointed to the examination committee for the thesis defence.

SCHOOL PSYCHOLOGY

Degrees Offered: Ph.D., M.A., M.Ed.

Members

PROFESSOR

S. Hymel.

ASSOCIATE PROFESSORS

R. Ervin, L. Ford.

ASSISTANT PROFESSORS

W. McKee, L. Miller.

Program Overview

The School Psychology graduate program prepares students to become psychologists who work in schools, academic, research, community, and private practice settings. The primary goal of the program is to develop professional psychologists whose research, training, and practice activities increase the educational and psychological well-being of children and youth. The program follows a scientist-practitioner model, with emphasis on the integration of theory, research, and clinical skills. Training encompasses academic, social, behavioral, consultation, intervention, and prevention domains, and students receive training in the integration of assessment and intervention and in relevant professional, legal, and ethical issues. Science and professional practice are viewed as interactive and complementary, with research integrated across core psychological and educational foundations training, as well as relevant practical experiences at all levels of the program. The program places a strong emphasis on evidence-based prevention, intervention, and systems-level change. In addition, school psychology training at UBC maintains a strong appreciation for diversity, in terms of the populations served, the students admitted, the issues and elements of practice examined and trained, and the provision of skills and experiences in working with a broad range of clients, families, and settings.

Degree Requirements

DOCTOR OF PHILOSOPHY

The doctoral program in school psychology is designed to prepare psychologists who can serve as practitioners and supervisors in the field, trainers of school psychologists, researchers, and leaders in school psychology. The typical doctoral program is 45 credits, beyond completion of the UBC School Psychology M.A. or equivalent program. Any prerequisites not met prior to entry will be taken as a part of the doctoral program. With an emphasis on

leadership in facilitating systems-level change, all students take coursework in school and community systems and cross-cultural issues (9 credits). Coursework in professional practice (e.g., prevention, intervention, assessment) (6 credits) and research methodology (9 credits) is developed in consultation with a program advisory committee. Students complete a supervision practicum, a specialty practicum placement (3 credits each), a year-long doctoral research seminar (6 credits), as well as a year long pre-doctoral internship (9 credits). Students must also pass a comprehensive examination to demonstrate breadth and depth of knowledge in the field, and complete and defend a doctoral thesis.

MASTER OF ARTS

The 75-credit SCPS Master of Arts (M.A.) program requires three years of full time study, including both on-campus courses and school-based practicum/internship experiences. Students are required to complete a sequence in School Psychology Practice including coursework in professional, ethical and legal issues in school psychology (EPSE 550, 3 credits); consultation (EPSE 551, 6 credits); and cognitive (EPSE 536, 6 credits), academic (EPSE 534, 6 credits and EPSE 552, 6 credits), and social-emotional (EPSE 535, 6 credits) assessment and intervention. Coursework in Psychological Foundations including human development, history of psychology, biological bases of psychology, social psychology and psychopathology (3 credits each) is required and is designed to meet eligibility for certification and/or registry as a school psychologist. Research coursework includes: measurement (EPSE 528), statistics (EPSE 592 and EPSE 596), and a research seminar (EPSE 571) designed to facilitate the completion of the master's thesis (EPSE 599, 6 credits). A two-term integrated field practicum is completed in year two (EPSE 561, 6 credits) in addition to the intensive school-based practicum/internship in year three.

MASTER OF EDUCATION

The 66-credit SCPS Master of Education (M.Ed.) program requires three years of full time study, including both on-campus courses and school-based practicum/internship experiences. Students are required to complete a sequence in School Psychology Practice, including coursework in: professional, ethical, and legal issues in school psychology (EPSE 550, 3 credits); consultation (EPSE 551, 6 credits); and cognitive (EPSE 536, 6 credits), academic (EPSE 534, 6 credits and EPSE 552, 3 credits), and social-emotional (EPSE 535, 3 credits) assessment and intervention. Coursework in Psychological Foundations, including human development, history of psychology, biological bases of psychology, social psychology, and psychopathology (3 credits each) is required and is designed to meet eligibility for certification and/or registry as a school psychologist. Research coursework includes measurement (EPSE 528) and statistics (EPSE 592). Students complete a two semester integrated field practicum in year two (EPSE 561, 6 credits). At the end of their program, in

addition to the intensive school-based practicum/internship in year three (EPSE 598), students participate in a graduating seminar (EPSE 590) that brings together their goals and objectives as well as their accomplishments and experiences throughout the program in the development of a professional portfolio.

SCIENCE EDUCATION

Degrees Offered: M.A., M.Ed.

Members

PROFESSORS

G. Erickson, J. Gaskell.

ASSOCIATE PROFESSORS

J. Mayer-Smith, K. Meyer.

ASSISTANT PROFESSORS

D. Anderson, S. Khan, S. Nashon.

Program Overview

The graduate degree programs (M.Ed. and M.A.) in Science Education are part of the graduate offerings in the Department of Curriculum Studies. Students can pursue a wide variety of research and professional interests in all areas of science education at both elementary and secondary levels. Students can also pursue studies in education within other learning contexts such as museums and community settings.

Degree Requirements

MASTER OF ARTS

Admission Requirements: In addition to the Faculty of Graduate Studies requirements, the program requires:

- 1) normally, 18 credits of senior coursework or a professional concentration in the area of interest; and
- 2) normally, two years of teaching experience or other relevant professional experience.

Degree Requirements: The program consists of 30 credits. At least 15 credits must be at 500 level or above. A maximum of 6 credits may be taken at the 300 or 400 level. A thesis, normally 9 credits, is included.

Part-time and full-time study options are offered.

MASTER OF EDUCATION

Admission Requirements: Same as M.A.

Degree Requirements: The program consists of a minimum of 30 credits, of which 24 must be courses numbered at the 500 level. A maximum of 6 credits may be taken at the 300 or 400 level. Students select either a program consisting entirely of courses (for example, ten 3-credit

courses) or 27 credits of coursework plus a graduating project (3 credits).

Part-time and full-time study options are offered.

SOCIAL STUDIES EDUCATION

Degrees Offered: M.A., M.Ed.

Members

PROFESSORS

W. Ross, P. Seixas.

ASSOCIATE PROFESSORS

W. Werner, L. Farr Darling.

ASSISTANT PROFESSORS

P. Clark, L. Loutzenheiser.

Program Overview

The graduate degree programs (M.A. and M.Ed.) in Social Studies Education are part of the graduate offerings in the Department of Curriculum Studies. Each student devises a program of relevant coursework in consultation with his or her faculty advisor. Programs of study are individually designed to match the interests and needs of the busy professional teacher, program administrator, social studies curriculum specialist, and scholar researcher.

The master's programs offer flexibility depending upon student needs and desires. Full-time or part-time studies focusing on professional development and/or research are available. Core courses focus on research methods, principles of social studies education, and curriculum studies.

Degree Requirements

MASTER OF ARTS

Admission Requirements: In addition to the Faculty of Graduate Study Requirements, the program requires:

- 1) normally, 18 credits of senior coursework or a professional concentration in the area of interest; and
- 2) normally, two years of teaching experience or other relevant professional experience.

Degree Requirements: The program consists of 30 credits. At least 15 credits must be at 500 level or above. A maximum of 6 credits may be taken at the 300 or 400 level. A thesis, normally 9 credits, is included.

Part-time and full-time study options are offered.

MASTER OF EDUCATION

Admission Requirements: Same as M.A.

Degree Requirements: The program consists of a minimum of 30 credits, of which 24 must be courses numbered at the 500 level. A maximum

of 6 credits may be taken at the 300 or 400 level. Students select either a program consisting entirely of courses (for example, ten 3-credit courses) or 27 credits of coursework plus a graduating project (3 credits).

Part-time and full-time study options are offered.

SOCIAL WORK

Degree Offered: M.S.W.

Members

PROFESSORS

G. Riches, M. Russell.

ASSOCIATE PROFESSORS

E. A. Kruk, P. McNicoll, D. O'Connor, B. O'Neill, T. Stainton, R. Sullivan, F. Tester, R. W. Vedan.

ASSISTANT PROFESSORS

S. Cadell, G. Charles, P. Riaño-Alcalá, M. Wright, M. C. Yan.

Program Overview

The School of Social Work and Family Studies offers advanced studies in social work. The Master of Social Work program (M.S.W.) requires the completion of 33 credits, with a minimum of 6 credits to be completed in each of the following areas: theoretical foundations and policy, social work practice, research, and elective coursework. Students can choose between a graduating essay or a thesis. The graduating essay option is for those students intending to specialize in direct social work practice, with an emphasis on the integration of theory and practice. The graduating essay is 3 credits and a 6-credit practicum is required. Students selecting the thesis option intend to carry out an in-depth research study of an original nature. The thesis is worth 6 credits and students choosing this option are required to complete a shorter practicum worth 3 credits. The M.S.W. program specializes in advanced practice and research with individuals, families, and groups from diverse populations. Students may also take courses outside the School to a maximum of 12 credits to meet their learning objectives.

Completion of the program normally requires a minimum of 12 months of full-time studies, beginning in September. Part-time study consisting of a minimum of three years is available.

For information about doctoral study in Social Work, please see *Social Work and Family Studies*, p. 280.

Degree Requirements

MASTER OF SOCIAL WORK

General admission requirements include a Bachelor of Social Work (B.S.W.) degree or equivalent and at least 3 credits of coursework in statistics. Other factors considered are: competitive academic standing (GPA), study plan, professional social work experience, and letters of reference.

SOCIAL WORK AND FAMILY STUDIES

Degree Offered: Ph.D.

Members

PROFESSORS

A. Martin-Matthews, D. Perlman, G. Riches, M. Russell, J. White.

ASSOCIATE PROFESSORS

P. Johnson, E. Kruk, P. McNicoll, O'Connor, B. O'Neill, J. Ponzetti, T. Stainton, R. Sullivan, F. Tester, R. Vedan.

ASSISTANT PROFESSORS

S. Cadell, G. Charles, S. Marshall, P. Riano-Alcala, M. Wright, M. C. Yan, C. Yodanis.

Program Overview

The Ph.D. Program in Social Work and Family Studies provides students with a background in social work, social policy, social development or family studies, an opportunity for advanced scholarship, and professional growth in the context of a research-intensive program. Specializing in either Social Work or Family Studies, students are prepared for university teaching and research (theoretical and applied), including program evaluation. The program can also provide critical components for professional practice in research, policy analysis, and human service management.

Via their program of work, students are expected to acquire a basic grounding in the core theoretical paradigms relevant to their course of study and quantitative and qualitative research methods, as well as specialized competencies in the methodological skills necessary for productive scholarship in the substantive area of their chosen research. A research-based dissertation adding to the field's knowledge base is the capstone of this program.

Following the comprehensive examination, the student will present a formal thesis proposal for approval by the candidate's committee before proceeding to the research that will culminate in a formal thesis defense. The major requirement of the Ph.D. is completion of a research

thesis reporting significant and original scientific research.

For information on master's programs, please see the listings under *Family Studies*, p. 249, and *Social Work*, p. 280.

Degree Requirements

DOCTOR OF PHILOSOPHY

A master's degree in Social Work or Family Studies, or other related fields of study, are normally required for admission. Although deficiencies can be made up, entering students are expected to have three-unit graduate level courses in statistics, quantitative methods, and qualitative methods. Students entering the Ph.D. program will be required to spend a minimum of two terms of uninterrupted duration (eight months) in full-time status at the University. Students in the program will be expected to take at least 15 units of coursework including:

- SWFS 601: Social Work and Family Studies Doctoral Seminar;
- SWFS 621: Social Theory, Ideology and Ethics;
- A three-credit substantive course selected with Advisory Committee's approval; and
- Two of the following three Courses¹:
 - (a) SWFS 623: Advanced Data Analysis in Social Work and Family Studies
 - (b) SWFS 654: Advanced Qualitative Inquiry
 - (c) EPSE 591: Theory and Practice of Program Evaluation

¹ Students may substitute one methods course with the approval of the doctoral program coordinator.

Appropriate coursework will be selected in consultation with the candidate's committee and will depend on the student's background and field of study. All students are expected to be admitted to candidacy within two years of initial registration. To do this, students must:

- 1) complete their residency and all required courses;
- 2) pass their comprehensive examinations; and
- 3) have their dissertation proposal approved.

SOCIETY, CULTURE AND POLITICS IN EDUCATION

Degrees Offered: M.A., M.Ed.

Members

PROFESSORS

K. Adam-Moodley, D. Fisher, D. Kelly, V. Strong-Boag, C. Ungerleider.

ASSOCIATE PROFESSORS

L. Andres, J.-A. Archibald, S. Butterwick, J.-A. Dillabough, F. Echols, M. Gleason, A. Mazawi, L. Roman, A. Tom, D. Vokey, P. Walter, H. Wright.

ASSISTANT PROFESSORS

J. Chan-Tiberghien, M. Stack.

Program Overview

The goal of the Society, Culture and Politics in Education (SCPE) graduate program is to use the social sciences and humanities to address major issues affecting educational policy and practice. The program addresses social justice issues such as the unequal distribution of resources and outcomes, power relations, recognition and representation from post-colonial, feminist, anti-racist, materialist, and First Nations perspectives.

Students interested in the SCPE program have diverse academic, professional, and community backgrounds, varied research interests and represent a wide range of social justice education contexts. SCPE faculty and students are educators who bring their knowledge to current affairs, policymaking, community, classrooms, workplaces, and families. SCPE aims to develop scholars, researchers and practitioners.

Degree Requirements

MASTER OF ARTS

The M.A. is a 30-credit research-oriented program for students who wish to develop skills as researchers or who may go on to doctoral-level study. All students are required to take one course in the social context of educational policy (EDST 577), and two of three (EDST 509, 570, 597) core disciplinary courses. These core courses provide students with the disciplinary preparation necessary to pursue advanced study available in a variety of social justice electives. Students are also required to take two courses in research methods: an introductory research course and another of their choice. A master's thesis is required to complete the program.

MASTER OF EDUCATION

The M.Ed. is a designed for professionals in education whose primary focus is understanding and improving educational practice. A somewhat greater emphasis on coursework and a practice-based capstone experience or project distinguish the M.Ed. from the M.A. All students are required to take one course in the social context of educational policy (EDST 577), and two of three (EDST 509, 570, 597) core disciplinary courses. These core courses provide students with the disciplinary preparation necessary to pursue advanced study available in a variety of social justice electives. Students are also required to take two courses in research methods: an introductory research course and another of their choice. A graduating project or capstone course is required to complete the program.

SOCIOLOGY

Degrees Offered: Ph.D., M.A.

Members

PROFESSORS

G. Creese, D. Currie, N. Guppy, D. R. Matthews.

ASSOCIATE PROFESSORS

T. Kemple, B. Ross, D. Tindall, J. Torpey.

ASSISTANT PROFESSORS

J. Chun, S. Fuller, A. Hanser, R. Mawani, W. Roth, G. Veenstra, R. Wilkes, D. Zuberi.

Program Overview

Studies in the M.A. and Ph.D. programs in Sociology are normally available in the following core areas of study: Social and Cultural Theory and Methods; Gender, Race, Class, and Sexuality; Environment, Economy, and Development; and Politics, Law, and Social Movements.

Research facilities in Sociology include social survey and small groups laboratories. There is ready access to the Department's Graduate Computer Lab and Graduate Reading Room. Graduate students may participate in courses and services provided by Arts ISIT, the Faculty of Arts Instructional Support, and Information Technology unit. UBC is also the western regional site of the Statistics Canada Data Information Centre. Students may also participate in specialized programs and facilities provided by the Asian Studies Centre, and many other UBC centres and institutes.

For graduate programs in Anthropology, see *Anthropology*, p. 231.

Degree Requirements

DOCTOR OF PHILOSOPHY

The prerequisite for the Ph.D. program normally is a master's degree in Sociology that includes preparation in sociological theory and in research methods. The Ph.D. program includes courses, comprehensive examinations, and a dissertation.

MASTER OF ARTS

The M.A. program, available to both full-time and part-time students, requires courses that include sociological theory and research methods. A 6 or 12-credit thesis option offers a unique opportunity for variation in graduate work. Exceptional M.A. candidates may seek transfer to the Ph.D. program after the first year of graduate work has been completed.

SOFTWARE SYSTEMS

Degree Offered: M.S.S.

Members

ASSOCIATE PROFESSORS
P. Nasiopoulos, S. Vuong.

Program Overview

The Master of Software Systems program is offered by the Institute of Computing, Information and Cognitive Systems (ICICS) in collaboration with the Departments of Computer Science and Electrical and Computer Engineering. The program is designed to be of interest to graduates in the various engineering disciplines, mathematics, or the physical sciences, but other applicants with the necessary technical background or work experience may be accepted on approval by the program director and the Faculty of Graduate Studies. Students with degrees in Computer Science or Computer Engineering are not eligible to apply.

Our instructors are from various organizations: UBC faculty, Langara College, and industry. For complete information please refer to the program's website (www.icics.ubc.ca/mss).

Degree Requirements

MASTER OF SOFTWARE SYSTEMS

The Master of Software Systems is a 16-month program, composed of 30 credits taken in three terms, as well as a four-month industry internship. The program is an opportunity to expand a student's existing skills and develop them for a career in a software systems environment.

Successful applicants must hold a bachelor's degree (in subjects other than Computer Science or Computer Engineering) and must also have computer program design and data structures knowledge equivalent to that offered in CPSC 221 or CPSC 252.

SOIL SCIENCE

Degrees Offered: Ph.D., M.Sc.

Members

PROFESSORS
A. Black, C. Chanway, S. Chieng, H. Schreier.

ASSOCIATE PROFESSORS
A. Bomke, M. Novak.

ASSISTANT PROFESSOR

M. Krzic.

Program Overview

Soil Science offers opportunities for advanced study and research leading to M.Sc. and Ph.D. degrees in the areas of soil chemistry and mineralogy, soil organic matter, soil physics, biometeorology, soil pollution, soil and water conservation, soil genesis and classification, land use and land classification, forest soils, soil fertility, soil biology, and remote sensing. Graduate training in Soil Science normally involves a combination of courses in both basic and applied sciences, with research leading to the completion of a thesis. Students are expected to publish their research results in leading refereed journals.

The program is enriched through collaboration with colleagues in other graduate programs such as Forestry, Geography, Plant Science, Institute for Resources and Environment, and Landscape Architecture, and in agencies such as Environment Canada, Canadian Forest Service, Agriculture, Agri-Food Canada, Forest Renewal BC, and various provincial government agencies.

Coursework selected in consultation with the student's supervisory committee includes graduate courses in soil science and from other areas relevant to each student's research.

Research facilities are housed both within the MacMillan Building and, on a shared basis, in other buildings on campus. Within the MacMillan Building, the research facilities include various modern analytical laboratories and other equipment for conducting biochemical and biometeorological research, and computers for conducting qualitative data analysis.

Degree Requirements

DOCTOR OF PHILOSOPHY

Appropriate coursework will be selected in consultation with the candidate's committee. All candidates are required to take a comprehensive examination. The major requirement for the Ph.D. is completion of a research thesis demonstrating ability to conduct significant and original scientific research.

MASTER OF SCIENCE

Completion of the M.Sc. program requires a minimum of 18 credits of coursework plus 12 credits of thesis research.

SPECIAL EDUCATION

Degrees Offered: Ph.D., M.A., M.Ed.

Members

PROFESSORS
P. Miranda, M. Porath, L. Siegel.

ASSOCIATE PROFESSORS
D. Butler, R. Ervin, L. Ford, C. Holbrook, J. Jamieson, N. Perry, K. Schonert-Reichl.

ASSISTANT PROFESSORS

J. Lucyshyn, W. McKee.

Program Overview

The Special Education area concerns the habilitation and education of students with exceptionalities, such as students with visual impairments, physical disabilities, emotional or behavioural disorders, learning disabilities, and developmental disabilities and students who are deaf or hard of hearing. The program also includes a focus on gifted and talented students. The master's programs focus on both research and practice. Topics addressed in the master's programs include cognitive, language, and social development, learning and instructional design, and cultural and individual differences in relation to exceptional students.

UBC does not offer an undergraduate degree in special education; the undergraduate courses in special education are open to students enrolled in the regular B.Ed. program or in one of the following post-B.Ed. special education programs: (1) Diploma, (2) Master of Education (M.Ed), and (3) Master of Arts (M.A.).

Degree Requirements

DOCTOR OF PHILOSOPHY

Typically, doctoral students in Special Education enter with extensive practical experience as general or special education teachers, school administrators, speech-language pathologists, school psychologists, or related professions. Graduates are prepared to assume leadership roles in a wide variety of educational, academic, community, private practice, and research settings. The Ph.D. program of studies in special education is developed for each student to reflect program requirements as well as individual student professional and academic preparation and student career goals. Doctoral training follows the scientist-practitioner model, with preparation in both research and professional skills.

All SPED Doctoral students are required to: participate in a department-wide doctoral seminar (EPSE 601A and B) over two terms; develop competence in at least two research methodologies; complete comprehensive examinations; and complete coursework that is determined on an individual basis. All Ph.D. students are required to complete a research thesis that is defended in an oral final examination.

MASTER OF ARTS

Students completing a Master of Arts degree in Special Education can choose courses in the following concentrations:

- General Special Education

- Autism/Developmental Disabilities Concentration
- Behaviour Disorders Concentration
- Blindness and Visual Impairment Concentration
- Blindness and Visual Impairment Concentration
- High Ability Concentration
- Learning Disabilities Concentration

Most M.A. concentrations require the completion of 30 credits, including coursework (24 credits) and thesis (6 credits). The Blindness and Visual Impairment Concentration requires 54 credits (48 credits coursework, 6 credits thesis) and the Education for Deaf and Hard of Hearing Concentration, 56 credits (50 credits coursework, 6 credits thesis).

Students who intend to apply to a Ph.D. program on completion of the M.A. should include EPSE 528 and EPSE 596 in their program.

MASTER OF EDUCATION

Students completing a Master of Education degree in Special Education can choose courses in the following concentrations:

- General Special Education
- Autism/Developmental Disabilities Concentration
- Behaviour Disorders Concentration
- Blindness and Visual Impairment Concentration
- Blindness and Visual Impairment Concentration
- High Ability Concentration
- Learning Disabilities Concentration

Most concentrations require the completion of 30 credits. The Blindness and Visual Impairment Concentration requires 45 credits and the Education for Deaf and Hard of Hearing Concentration, 47 credits. Credits include the graduating seminar at the end of the student's program in which a professional portfolio is completed.

STATISTICS

Degrees Offered: Ph.D., M.Sc.

Members

PROFESSORS

B. Brant, P.A. Gustafson, N. E. Heckman, H. S. W. Joe, A. J. Petkau, W. J. Welch, R. H. Zamar.

ASSOCIATE PROFESSORS

B. Clarke, A. Doucet, L.Wu

ASSISTANT PROFESSORS

J. Bryan, R. Gottardo, K. Murphy, M. Salibian-Barrera.

Program Overview

The program leading to the Master of Science is designed to prepare the student for employment in government and industry or to serve as preparation for students planning to undertake a program leading to the Doctor of Philosophy. The studies leading to the Ph.D. are designed to equip the student to carry out research, with a view toward a career in academia, industry, or government. Research interests of the faculty include biostatistics, environmetrics, mathematical modelling of biological systems, computational statistics, data mining, machine learning, theory of statistical inference, asymptotics, multivariate analysis, robustness, nonparametrics, design of experiments, smoothing, Bayesian methods, computational molecular biology, gene expression, and microarrays.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy program consists of course work, a comprehensive examination, and research leading to a dissertation that is defended in an oral final examination.

MASTER OF SCIENCE

There are three options for the Master of Science:

- 1) **Thesis Option.** This option requires 24 credits of coursework (6 credits at the 300 level or above and 18 credits at the 500 level or above) and a 6-credit thesis.
- 2) **Project Option.** This option requires 27 credits of coursework (6 credits at the 300 level or above and 18 credits at the 500 level or above) and a 3-credit project.
- 3) **Master's Co-operative Education.** A co-operative education option is available for graduate students in Statistics. The Program is intended to help prepare interested and qualified students for careers in statistics and involves eight months of work placement supervised by practising professionals. Faculty advisors also visit students at their place of work and provide advice on technical reports required of all students in the program.

There is **not** a citizenship status requirement.

Program Overview

The Department of Surgery offers opportunities and facilities for full-time study leading to the Master of Science in Surgery. A student's program will be determined by the program director in consultation with the student's supervisor. A supervisory committee will be chosen to represent the area of specialization elected by the candidate. The Master of Science program consists of an 18-credit thesis (SURG 549) plus 12 credits of coursework to give a total of 30 credits. 12 credits of coursework must be at the 500 level, of which 8 credits should be from the Department of Surgery courses numbered 502 to 548. The candidate, with the advice of the committee, may select other approved courses in related fields. Further information may be obtained from the M.Sc. program director in the Department of Surgery.

Degree Requirements

MASTER OF SCIENCE

Applicants must satisfy the normal admission requirements of the Faculty of Graduate Studies and must be acceptable to the Department of Surgery's Graduate Studies Committee. Prerequisites for application are an M.D., M.B., D.M.D., D.V.M. or equivalent.

TEACHER LIBRARIANSHIP

Degrees Offered: M.A., M.Ed.

Members

PROFESSOR

R. Jobe.

ASSOCIATE PROFESSOR

M. Asselin.

Program Overview

The graduate program in Teacher Librarianship (LIBE) is part of the graduate offerings in the Department of Language and Literacy

Education. The program focuses on school library organization and management, cooperative program planning, and information literacy.

Students who would like to undertake a Ph.D. specializing in Teacher Librarianship can do so through the graduate program in *Language and Literacy Education*, p. 261.

Degree Requirements

MASTER OF ARTS

Admission Requirements: In addition to the Faculty of Graduate Studies requirements, the program requires: 1) at least an 18-credit concentration in the subject area (see the website (www.lled.educ.ubc.ca) for specifics), and 2) normally two years of formal teaching experience.

Program Requirements: The program consists of 30 credits. At least 15 credits must be at 500 level or above. A total of 6 credits may be taken at the 300 or 400 level. A thesis, either 6 or 9 credits, is included.

Full-time and part-time study options are offered.

MASTER OF EDUCATION

Admission Requirements: Same as M.A.

Program Requirements: The program consists of 30 credits of which 24 must be at the 500 level or above. A total of 6 credits may be taken at the 300 or 400 level. Students may opt for a program consisting entirely of courses, or may elect to do 27 credits of coursework plus a graduating paper.

Full-time and part-time study options are offered.

S. Talmy.

Program Overview

Students who would like to undertake a Ph.D. in Teaching English as a Second Language can do so through the program in *Language and Literacy Education*, p. 261.

Teaching English as a Second Language (TESL): examines the social, linguistic, educational, cognitive, and political processes affecting the teaching, learning, assessment, and use of English as an additional language locally and globally. The program Faculty have expertise in TESL methods, applied linguistics, second language acquisition and socialization, content-based language education, pedagogical and functional grammar, second language writing, issues of language and identity, language in education, multilingual literacies, language policy, and English in immigrant and international communities. The program also jointly sponsors the UBC/Ritsumeikan Joint Academic Exchange Program.

MASTER OF ARTS

Admission Requirements: In addition to the Faculty of Graduate Studies requirements, the program requires: 1) at least an 18-credit concentration in the subject area (see the website (www.lled.educ.ubc.ca) for specifics), and 2) normally two years of formal teaching experience.

DEGREE REQUIREMENTS

ASSISTANT PROFESSOR

S. Khan.

Program Overview

The graduate degree programs (M.Ed. and M.A.) in Technology Studies Education are part of the graduate offerings in the Department of Curriculum Studies. Technology Studies Education (TSED) consists of two main areas: Technology Education and Computing Studies. Graduate studies in Technology Studies are interdisciplinary and offer students a variety of research and professional development opportunities.

Students may also choose to enrol in the *M.E.T. (Master of Educational Technology) program*, p. 247, offered online through the Office of External Programs and Learning Technologies.

Degree Requirements

MASTER OF ARTS

Admission Requirements: In addition to the Faculty of Graduate Studies requirements, the program requires:

- 1) Normally, 18 credits of senior coursework or a professional concentration in the area of interest.
- 2) Normally, two years of teaching experience or other relevant professional experience.

Degree Requirements: The program consists of 30 credits. At least 15 credits must be at 500 level or above. A maximum of 6 credits may be taken at the 300 or 400 level. A thesis, normally 9 credits, is included.

Part-time and full-time study options are offered.

MASTER OF EDUCATION

Admission Requirements: Same as M.A.

Degree Requirements: The program consists of a minimum of 30 credits, of which 24 must be courses numbered at the 500 level. A maximum of 6 credits may be taken at the 300 or 400 level. Students select either a program consisting entirely of courses (for example, 10 3-credit courses) or 27 credits of coursework plus a graduating project (three credits).

Part-time and full-time study options are offered.

THEATRE

Degrees Offered: Ph.D., M.A., M.F.A.

Members

PROFESSORS

E. Durbach, R. Gardiner, J. Wasserman.

ASSOCIATE PROFESSORS

C. Burnett, R. Eberle, R. Fedoruk, N. Freeman, A. Green, S. Heatley, S. Malloy, G. Murphy.

ASSISTANT PROFESSORS

K. Johnston, T. Scholte.

Program Overview

The Theatre Program offers opportunities for advanced studies leading to the Doctor of Philosophy (Ph.D.) and the Master of Arts (M.A.) in dramatic literature, theatre history, and criticism. The program also offers advanced studies leading to the Master of Fine Arts (M.F.A.) in the direction of plays and in the design of scenery, costume, and lighting. In cooperation with the Creative Writing Program, Theatre offers an M.F.A. in stage playwriting (see *Creative Writing/Theatre*, p. 242).

The program has diverse offerings in both practical theatre and the academic study of dramatic literature, history, and criticism. Regular productions, directed and designed by faculty, graduate students, and guest artists, are presented in the Frederic Wood Theatre and the Telus Studio Theatre. There is opportunity for participation in all aspects of production.

Library resources are constantly expanding from the present collection of approximately 30,000 works of dramatic literature and books on theatre, and more than 70 periodicals. There are almost 500 recordings of drama in the Wilson Library.

Further information about graduate programs may be obtained from the Theatre website (www.theatre.ubc.ca/programs/programs.htm).

See also graduate programs in *Creative Writing*, p. 241, and *Film Studies*, p. 250.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Ph.D. in Theatre Studies is administered by the Graduate Committee in Theatre Studies. The Program can accommodate very few students, and admission is competitive.

Applicants should be able to match their research interests to those of the Graduate Committee: Canadian Studies, Dramaturgy, Post-Colonial Theatre, and some aspects of 19th Century European and Modern British, American, and Canadian Theatre. All students in the Graduate program are expected to apply for UGF and SSHRC awards to support their studies.

For detailed information about specific application and program requirements, please visit the Ph.D. Theatre page of the Theatre website (www.theatre.ubc.ca/programs/phdcours.htm).

MASTER OF ARTS

The Master of Arts in Theatre is administered by the Graduate Committee in Theatre Studies.

The Program can accommodate very few students, and admission is competitive.

Applicants should be able to match their research interests to those of the Graduate Committee: Canadian Studies, Dramaturgy, Post-Colonial Theatre, and some aspects of 19th Century European and Modern British, American, and Canadian Theatre. All students in the Graduate program are expected to apply for UGF and SSHRC awards to support their studies.

For detailed information about specific application and program requirements please visit the M.A. Theatre page of the Theatre website (www.theatre.ubc.ca/programs/phdcours.htm).

MASTER OF FINE ARTS

The Master of Fine Arts in Design for Theatre is an intensive graduate program intended to prepare students for design in the professional theatre in Canada. The Program can accommodate very few students, and admission is competitive.

Instruction centres around a core of studio classes emphasizing development of the designers' graphic, conceptual, and research skills. In addition, M.F.A. design students may assist faculty and other practising designers on projects outside the University, design theatre productions at UBC and elsewhere, and work in film. The program generally takes two or three years to complete, and culminates in a thesis design or designs. For detailed information about specific application and program requirements please visit the M.F.A. in Design for Theatre page of the Theatre website (www.theatre.ubc.ca/programs/mfadesig.htm).

The M.F.A. Directing program is a professionally oriented intensive graduate program, intended for those who wish to extend and enhance their directing practice. The program can accommodate very few students, and admission is competitive.

Students spend a year investigating a variety of preparation and rehearsal techniques and the demands of various theatrical performance styles. In their second year they direct two full length productions, one of which is the student's thesis production. For detailed information about specific application and program requirements please visit the M.F.A. in Directing for Theatre page of the Theatre website (www.theatre.ubc.ca/programs/mfadir.htm).

VOCATIONAL REHABILITATION COUNSELLING

Degrees Offered: M.A.

Members

ASSOCIATE PROFESSOR

I. Schultz.

Program Overview

UBC has developed a state-of-the-art professionally-oriented graduate program in Vocational Rehabilitation Counselling which follows the scientist-practitioner training model and prepares students for independent practice in a wide spectrum of vocational rehabilitation service areas, including, but not limited to, vocational assessment, vocational individual and group intervention, adjustment and rehabilitative counselling, job development and placement, return-to-work planning, case and disability management, and research and program evaluation. A supervised clinical experience in the Vocational Rehabilitation setting as well as coursework on psychosocial and medical aspects of disability has also been built into the curriculum. The program is responsive to the needs of Canadian vocational rehabilitation professionals and provides a uniquely Canadian perspective on vocational rehabilitation counselling and the environment where it is delivered.

The curriculum has been developed in accordance with future program accreditation requirements, and prepares graduates for licensing by respective professional licensing bodies for vocational rehabilitation professionals.

The program normally admits students every three years. Please check with the program to see if applications are being accepted for the upcoming academic year.

Degree Requirements

MASTER OF ARTS

Admission Requirements: The applicant must have an undergraduate degree, preferably with a concentration in related areas such as psychology, occupational therapy, social work, special education human resources management, or nursing and a standing acceptable to the Faculty of Graduate Studies. The applicant will normally be required to have work experience, either paid or volunteer. Letters of reference attesting to the applicant's personal suitability for the field will be required.

Program Requirements: The program is broad and covers topics of relevance to the professional vocational rehabilitation counsellor such as vocational assessment of persons with disabilities, job placement, disability case management, counselling theory, and medical aspects of disability.

The program is offered on a part-time basis, to accommodate students currently working in the field, with classes arranged for late afternoon (4:30 pm to 7:00 pm) and additional spring and summer offerings.

Program Overview

Women's Studies is an exciting interdisciplinary field of study that also draws upon several traditional disciplines. It has its own texts, journals and methodology. In many disciplines some of the most innovative, scholarly work in theory and research is being done by Women's Studies specialists, and the interdisciplinary nature of Women's Studies scholarship is an important feature of its success and promise. The Women's Studies program at UBC strives to offer courses in an open and mutually supportive atmosphere. The Centre has approximately 50 well-qualified faculty associates from many departments and programs. They include expertise in Gender and Development, Lesbian and Gay Studies, Gender and Cultural Studies (including Asia), Women in Canadian History and Literature (in English and French), issues related to Women's Health, and Feminist Legal Studies. The program aims to maintain flexibility to accommodate the needs of individual students.

To be eligible for consideration applicants must fulfil all the general requirements for admission to the Faculty of Graduate Studies (e.g. TOEFL score). In addition, they must also:

- 1) Demonstrate adequate preparation in feminist theory and methodology, or be willing to take extra courses, as required, to gain such preparation; and
- 2) Submit a writing sample (such as an essay) demonstrating excellent research potential, and a statement explaining why s/he

wishes to undertake doctoral or M.A. work in Women's Studies. The student may describe relevant non-academic experience, and explain any discrepancies in the academic record. This statement should also specify the areas of most interest to the applicant, to enable us to ascertain the likelihood of an appropriate research supervisor being available for the thesis.

Students are selected by an Advisory Committee representing a range of relevant research areas, which assesses the availability of appropriate courses and faculty to provide supervision.

Degree Requirements

DOCTOR OF PHILOSOPHY

The Ph.D. program allows qualified students to undertake doctoral work in the field of Women's Studies and Gender Relations. Students who did not do their M.A. at the Centre must complete WMST 500 in year one, plus a minimum of 9 additional credits of graduate-level coursework, to be approved by a supervisory committee. Additional coursework may be required. Qualifying examinations may take a variety of forms, also to be approved by the committee, and must normally be completed by the end of the second year in the program. All Ph.D. students are required to complete a research thesis that is defended in an oral final examination.

MASTER OF ARTS

The Master of Arts (M.A.) in Women's Studies and Gender Relations allows qualified students to undertake graduate work in the field. Issues related to women, gender analysis, or related topics will be presented in feminist frameworks. The 30-credit M.A. is available on a full-time or part-time basis. There are two options: with thesis or without thesis. Non-thesis students complete a shorter extended essay or research project.

Students complete 30 credits of coursework, including required core courses in methodology and theory and interact with visiting scholars at the Centre through a year-long seminar. There is considerable flexibility in the selection of other courses. Options may include a practicum or internship in the local community or abroad.

ZOOLOGY

Degrees Offered: Ph.D., M.Sc.

Members

PROFESSORS

M. Adamson, J. D. Berger, R. W. Blake, H. W. Brock, A.P. Farrell, J. M. Gosline, T. A. Grigliatti, D. R. Jones, W. Maddison, W. K. Milsom, D. G. Moerman, J. Myers, D. Pauly, A. Pitcher,

D. Schluter, R. Shadwick, A. R. E. Sinclair, J. N. M. Smith, T. P. Snutch, J. D. Steeves, W. Tetzlaff, C. J. Walters.

ASSOCIATE PROFESSORS

V. Auld, L. Aviles, M. Doebeli, L. Matsuuchi, S. P. Otto, N. Pante, R. J. Redfield, A. J. Roskams, E. B. Taylor, M. Whitlock.

ASSISTANT PROFESSORS

N. Abraham, C. Brauner, D. Irwin, B. Leander, M. Ramer, J. Richards, P. Schulte, J. Shurin, D. Srivastava, M. Velland.

Program Overview

Zoology encompasses over 50 principal investigators. Research interests of faculty members can be divided into several broad categories with substantial overlap of interest and collaboration among these arbitrary groups. The program vigorously promotes integrative research in biology and actively participates in several interdisciplinary programs, including the graduate programs in genetics, neuroscience, applied mathematics, and resource management.

Zoology offers a wide variety of research programs leading to the Master of Science and Doctor of Philosophy in the following areas: Cell and Developmental Biology, Community and Population Ecology, Comparative Physiology and Biochemistry, Neurobiology, and Evolutionary Biology.

In addition Zoology is actively involved in several interdisciplinary programs of instruction and research including:

- Fisheries Centre
- Centre for Biodiversity Research
- Centre for Applied Conservation Research (CACR), Faculty of Forestry
- Genetics Program
- ICORD (International Collaboration on Repair Discoveries)
- Institute of Applied Mathematics
- BC Cancer Research Centre

Degree Requirements

DOCTOR OF PHILOSOPHY

Original research supervised by a faculty member constitutes the major component of work toward the Ph.D. degree. Most Ph.D. students are not required to complete coursework unless it is recommended by the thesis committee, or as a condition of admission. All Ph.D. students are required to present a research proposal and pass a comprehensive examination on their research area within 18 months of registering in the Program. The comprehensive exam is an oral examination (typically with five or six examiners) intended to assess the student's breadth of knowledge in the general subject area(s) of the proposed research (i.e., it is not a defense of the written proposal).

MASTER OF SCIENCE

The M.Sc. degree requires a combination of coursework and research for a total of 30 credits. Effective September 2004, 12 credits of courses are required with the remaining 18

credits being thesis research. Single courses typically range from 3 to 6 credits each. Students have considerable flexibility in their choice of courses including graduate and senior undergraduate courses in Zoology, Botany, Microbiology, Genetics, Forestry, Conservation, and Earth and Oceans Sciences, as well as several other departments. Students may also design their own courses in the form of “Directed Studies” supervised by a faculty member.

M.Sc. students are also required to conduct research towards their degrees. Although research conceived independently of the student’s supervisor is encouraged, the minimum requirement for the M.Sc. degree is to successfully complete directed research. The M.Sc. is a two-year program, but due to the nature of the research undertaken many students take longer. Students who originally register in the M.Sc. program may switch to the Ph.D. program after 12 to 18 months, on the advice of their research committee. Switching to the Ph.D. program is only possible if the student has completed 18 credits of coursework in the first 18 months of their program with a First class standing. Such transfers must then comply with the Faculty of Graduate Studies regulations.

MASTER’S CO-OPERATIVE EDUCATION OPTIONS

Master of Arts Co-operative Education Option

Students admitted to the Master of Arts program in a department with a co-operative education option may apply for admission to the Arts Co-operative Education Program. The Program helps prepare interested and qualified students for professional careers in government, the non-profit sector, and industry with at least four months of work placement supervised by practising professionals. Faculty advisors also visit students at their place of work, where feasible, and provide advice on work term projects required of all students in the program.

Students who have been admitted into the Master of Arts program in a department with the co-op option must apply to the Arts Co-op Office early in their first term at UBC. Selection of students will be based on academic performance and general suitability to the work environment as determined by resumé and interview. The total enrolment will be subject to the availability of appropriate work placements and faculty advisors. The work placements are arranged by mutual agreement between students and employing organizations. Co-op courses are taken in addition to the courses needed to meet normal academic requirements. These courses do not count for credit toward the degree, but their completion will be noted on a student’s academic record.

CONTACT INFORMATION Arts Co-op Program

Buch. C369–1866 Main Mall
The University of British Columbia
Vancouver, BC, V6T 1Z1
Fax: 604-822-1529
Web: co-op.arts.ubc.ca

Master of Science Co-operative Education Option

Co-operative education integrates academic study with related and supervised work experience in co-operating employer organizations.

Students admitted to the Master of Science program in Statistics may apply for admission to a co-operative education option that may be course-, project-, or thesis-based. The program helps prepare interested and qualified students for professional careers in government and industry with eight months of work placement supervised by practising professionals. Faculty advisors also visit students at their place of

work where feasible and provide advice on technical reports required of all students in the program.

Students who have been admitted into the Master of Science program in Statistics and who are seeking admission to the co-op option must apply to the Science Co-op Office before December 1 in their first term at UBC. Selection of students will be based on academic performance and general suitability to the work environment as determined by resumé and interview. The total enrolment will be subject to the availability of appropriate work placements and faculty advisors. The work placements are arranged by mutual agreement between students and employing organizations. Participating students register for STAT 598 (in the summer term following their first two terms at UBC) and STAT 599 (in Term 1 of their second year at UBC) in addition to the courses needed to meet normal academic requirements. Satisfactory completion of these courses, which do not carry academic credit, will be noted on a student's academic record. Students choosing the M.Sc. thesis option will require an additional term (their second summer term at UBC) to complete their degree requirements.

For more information on the co-operative education option, contact the Department of Statistics (see address below) or the Co-operative Education Program Office, Room 170, Chemistry/Physics Building 6221 University Blvd, Vancouver, BC, V6T 1Z1; Fax: 604-822-9676. Information is also available through the Co-op website (www.sciencecoop.ubc.ca).

RESIDENTIAL COLLEGES

GREEN COLLEGE

K. Benson (History), Principal

Green College is a centre for advanced interdisciplinary scholarship at the University of British Columbia. It is home to a community of scholars who blend social and intellectual life through living together, academic programs, dining, and cultural events. The programming includes the Green College Speaker Series, monthly interdisciplinary group lecture series, the Cecil and Ida Green Visiting Professorships, and a members' speakers series. Most activities occur before and after dinner, and they attract people from all parts of the campus and from the wider community to share in intellectual discussion. All advertised events are open to the public. Members of the public are also invited to dine through the purchase of a dinner ticket from the Green College Office.

The College provides accommodation for 84 graduate students and 16 post-doctoral

researchers and visiting faculty on a unique site at the north end of the UBC campus, overlooking the Strait of Georgia and surrounding mountains. Graduate students are chosen on the basis of academic standing, commitment to participation in the life of the College, and the need to achieve a mix of students that reflects the general graduate student population. They are permitted to live in Green College for a minimum term of four months and a maximum term of three years. All residents are required to participate in College dining. Non-resident members are also selected from UBC faculty. The criteria for selection are the same as that for resident members.

In addition to living accommodation, the College has meeting rooms, dining and social facilities, a reading room, and administrative offices. There is also a guest house on site, with accommodations available to book for anyone attending UBC on academic business. The focal point of the College is Graham House, which has been restored to its original (1915) form and which contains the dining hall and reading room.

ST. JOHN'S COLLEGE

Timothy Brook, Principal

St. John's College is a graduate residential College of the University of British Columbia that fosters international study and research on issues of global scope. Founded in 1997, the College serves as an intellectual and social centre for graduate students, post-doctoral fellows, visiting scholars, and for other members of the University who share the scholarly objectives of advanced international study and academic excellence. Members of this community—graduate students from Canada and other countries who are registered in different departments at UBC—enrich their academic programs and learn from each other in a collegial setting. Graduate student members of the College are eligible for consideration for St. John's College fellowships.

Student residential facilities include 136 studio residence units, eight accessible units, 11 one-bedroom units for couples, and four residential rooms for post-doctoral fellows and visiting scholars. Only St. John's College members are eligible to reside at the College. Students are selected for membership by means of a competitive process; applications are reviewed by a selection committee comprised of distinguished international scholars and current residents of the College. Selection criteria include high academic standing, good communication skills, experience and/or interest in international/global issues, willingness to participate in the St. John's College community, community service, extracurricular activities, and demonstrated leadership.

Residents are expected to take an active role in the social and academic aspects of College life, including participation in various programs and

attendance at functions and lectures sponsored by or linked with the College. In order to foster interaction and fellowship within the College community, participation in the College's meal plan, which includes five dinners and five breakfasts each week, is a requirement for all residents and guests.

The College has a number of well-appointed guest rooms for short-term academic visitors to the University; guests are encouraged to participate in the College community during their stay.

ACADEMIC STAFF

DEAN'S OFFICE

Frieda Granot; Lynn Alden; Kersti Krug; Ann Rose; Douw Steyn; James Thompson.

MEMBERS

Individuals eligible for membership in the Faculty of Graduate Studies must be tenured or tenure track (including grant tenured or grant tenured track) faculty members holding the title of Assistant Professors, Associate Professor, or Professor in an academic unit authorized to offer graduate programs. Members of the Faculty of Graduate Studies may be sole supervisors of graduate students, chair examining committees, and vote at the Faculty of Graduate Studies general meetings.

Members of the Faculty of Graduate Studies are listed under the *Degree Programs*, p. 229, with which they are associated.

11 The College of Health Disciplines

Principal's Office

Dr. John H. V. Gilbert, Principal
400–2194 Health Sciences Mall
Vancouver, BC V6T 1Z3
Tel: 604-822-5571
Fax: 604-822-2495

Health Disciplines Website
(www.health-disciplines.ubc.ca)

The College is an affiliation of seven Faculties that fosters, enhances, and sustains a culture of interprofessional and interdisciplinary education for future health and human service practitioners through innovative student learning, collaborative research, and best practices. The affiliated Faculties are Applied Science, Arts, Dentistry, Education, Land and Food Systems, Medicine, and Pharmaceutical Sciences. Each of these Faculties either represents a health discipline, or is academic home to one (or more) of the health service School(s) or Department(s). The term “health” in the title for the College is situated in the broad definition of the World Health Organization’s Thirteenth World Health Assembly in 1977, to be inclusive of all health and human service programs.

The College recognizes the desirability of a common set of pedagogic approaches to interprofessional health education, the need to rationalize approaches to practice education, the goal of common policy approaches in UBC’s relations with government, and the contribution of the College’s Institutes, Centres, Divisions, and ancillary units to the University’s health and human service programs.

The College provides an academic home for a range of interprofessional activities both within and outside of the University, activities in which any one faculty could not engage alone. Through the programs of the affiliated faculties, the College addresses the need to prepare students who are graduating from health and human service programs, with the knowledge, skills, and attitudes central to interprofessional practice. These include, for example, an understanding of the role of professional associations in interprofessional practice through competencies, accreditation, and (where appropriate) licensure; addressing issues of pre- and post-licensure education, regardless of degree objective; using interprofessional curricula to guide health human resource planning; accessing and building on the interests of the health and

human service industries in the interprofessional practice education of students; and conducting research into tools for development and evaluation of interprofessional education, health policy, and health human resource planning.

The Council of the College of Health Disciplines is chaired by the Principal and consists of the Deans, Directors, and Heads of faculties, schools, and programs that offer health and human service degrees. Committee members participate in the planning of programs and the administrative structures in the health and human service programs at UBC.

The College of Health Disciplines is administratively responsible for all shared facilities in the Instructional Resources Centre. The College includes four divisions: Practice Education, Interprofessional Education, Health Care Communication, and Interprofessional Activities/Communication. It also includes two Centres and one Institute: the Centre for Health Services and Policy Research, the Centre for International Health, and the Institute for Aboriginal Health. The College also sponsors the Health Sciences Students’ Association and the Global Outreach Students’ Association. It is also responsible for one ancillary unit, the Media Group.

DIVISION OF HEALTH CARE COMMUNICATION

William Godolphin, (Ph.D.), Co-Director
Angela Towle, (Ph.D.), Co-Director

The aim of the Division is to improve client involvement in health care decision-making through collaborative research and program development. Research is conducted with both patients/clients and health professionals, in the community and within academe, and is targeted at understanding the drivers and barriers that influence client-professional communications and consequent health outcomes. The objective is to use research findings to develop projects to effect changes in the areas of professional practice, curriculum of health and human service programs, and patient/client communication and advocacy.

DIVISION OF INTERPROFESSIONAL EDUCATION

Lesley Bainbridge, M.Ed., BSR(PT),
Associate Principal, Interprofessional Education

The Division of Interprofessional Education assists with the coordination and development of projects generated by the Interprofessional Education Committee, which represents all of the health and human service programs. The mandate of the committee is to develop ways and means of integrating the teaching of health and human service subject matter where such integration appears appropriate, to develop recommendations regarding interprofessional teaching programs including format and methods, and to conduct periodic surveys of students and faculty on the form and content of interprofessional learning initiatives.

DIVISION OF RESEARCH AND EVALUATION

Grant Charles, B.S.W. (W.Ont.), M.S.W. (Calg.),
Ph.D. (Vic.B.C.), Associate Principal

The mandate of the Division is to foster and maintain a program of research in interprofessional education for patient-centred collaborative practice, in partnership with other units within the College.

INSTITUTE FOR ABORIGINAL HEALTH

Eduardo Jovel, Ph.D., Director

The Institute for Aboriginal Health assists UBC health and human service faculties, schools, and departments and other post-secondary institutions with program development concerning Aboriginal health issues. The Institute aims to develop capacity with Aboriginal communities and further assist health education, training, and Aboriginal health research, while respecting traditional knowledge.

The Institute also works to: increase the number of Aboriginal health care professionals; improve Aboriginal access to health and human service programs at UBC; provide support to Aboriginal students enrolled in health and human service programs; assist in identifying health care issues; assist in developing programs relevant to Aboriginal health care needs; and encourage interest in health and human service careers at the secondary school level.

CENTRE FOR INTERNATIONAL HEALTH

Jerry Speigel, Ph.D., Director

The UBC Centre for International Health has been established to conduct research into issues of global health and to coordinate and facilitate overseas initiatives in the general areas of health and development. There is representation on its governing body from affiliated faculties and from the undergraduate body, Global Outreach Students' Organization (GOSA). Interested students are strongly encouraged to join GOSA.

CENTRE FOR HEALTH SERVICES AND POLICY RESEARCH

Charlyn Black, M.D., Sc.D., Director

The UBC Centre for Health Services and Policy Research (CHSPR) advances scientific enquiry into population health and into ways in which health services can best be organized, funded, and delivered. Our researchers and staff carry out a diverse program of research and development designed to deliver data, tools, and analysis useful in understanding and renewing health care, and in improving the health of Canadians.

While CHSPR does not offer courses, it does host and mentor graduate students and post-doctoral fellows. CHSPR provides an environ-

ment and resources to support student thesis work, and serves as a potential site for research placements, residency training, co-op placements, and summer employment. The Centre's four-month health policy internship program gives exceptional students the opportunity to conduct their own research. CHSPR hosts a minimum of one intern a year.

CHSPR promotes an interdisciplinary, collaborative approach to research, recognizing that problems in applied health services and population health increasingly transcend traditional academic boundaries. CHSPR is home to faculty members with expertise in health economics, health services research, and health policy analysis.

Much of CHSPR's research is made possible through the BC Linked Health Database, one of the world's largest collections of health services utilization and population health data. Over the past 20 years, CHSPR has built unique core competencies in linking, extracting, and securing data in the BCLHD, giving the research community access to vital longitudinal information on the entire population of British Columbia.

THE MEDIA GROUP

Tony Voon, Director

The Media Group is a service unit dedicated to educational media and audio/visual services. It has two major functions. First, it administers the Woodward Instructional Resources Centre classrooms and provides audio-visual support to UBC faculty who use the facilities for teaching purposes. Second, it provides a wide variety of services, developing and producing instructional media programs on a fee-for-service basis in support of teaching, research and public affairs for the health sciences faculties, the University community, UBC-affiliated teaching hospitals and outside non-profit groups. These services include general and biomedical photography, medical, technical and general illustration, graphic design, media supplies and equipment sales, video production and computer imaging and printing.

GLOBAL OUTREACH STUDENTS' ASSOCIATION

The Global Outreach Students' Association (GOSA) provides students from multidisciplinary backgrounds with an opportunity to learn more about international health. It offers a monthly seminar series on international health, which gives students an opportunity to meet people who have had personal experiences working and volunteering overseas. GOSA also offers students opportunities for hands-on involvement in health projects locally and in Guatemala.

Contact Information:
400-2194 Health Sciences Mall
Vancouver, BC V6T 1Z3
Tel: 604-822-0249
Fax: 604-822-2495

HEALTH SCIENCES STUDENT'S ASSOCIATION

The Health Sciences Student's Association (HSSA) is an organization that promotes the interaction of the College's Affiliated Faculties on an academic and social basis. The aim of the HSSA is to increase awareness among students about the role of each health care provider on a clinical team. This is accomplished through its High School Outreach Program, which brings students from health and human service programs together to make presentations to high school students about the wide array of professional choices available to them at UBC. The HSSA also hosts informal activities for students from the health and human service programs. The executive body of the HSSA is comprised of dedicated and enthusiastic students who are departmental representatives or individuals who share the same goal as the HSSA.

Human Kinetics Website
(www.hkin.educ.ubc.ca)

The School of Human Kinetics offers undergraduate programs leading to the degree of Bachelor of Human Kinetics. Graduate programs leading to the Doctor of Philosophy, Master of Arts, Master of Science, and Master of Human Kinetics are also available. For details of these programs see *Human Kinetics*, p. 258, in the Faculty of Graduate Studies section. Provision can be made for completion of degree studies on a part-time basis or on a combination of full and part-time study.

BACHELOR OF HUMAN KINETICS

The Bachelor of Human Kinetics program prepares students for academic specializations and career opportunities in kinesiology and health science, physical and health education, and interdisciplinary studies related to Human Kinetics.

PROGRAM CHANGES

The Bachelor of Human Kinetics has recently been revised. The following special conditions apply to all B.H.K. students.

- 1) Students entering first year of the B.H.K. program in September, 2004 or later must follow the program requirements in the current edition of the Calendar.
- 2) Students who entered the B.H.K. program prior to September, 2004 must follow the program requirements in the 2003/2004 Calendar. For further information see the Human Kinetics website (www.hkin.educ.ubc.ca/School/ugrad/ugradmain.htm). Information is also available through the Undergraduate Advising Centre, War Memorial Gymnasium.

- 3) Transfer students who started their post-secondary studies in September, 2004 or later must meet the B.H.K. program requirements in the current edition of the Calendar.
- 4) Transfer students who started their post-secondary studies prior to September, 2004 must follow the B.H.K. program requirements in the 2003/2004 Calendar. A grace period of three years will be provided. All transfer students entering the B.H.K. after September, 2007 will need to meet the requirements of the current edition of the Calendar. For further information see the Human Kinetics website (www.hkin.educ.ubc.ca/School/ugrad/ugradmain.htm). Information is also available through the Undergraduate Advising Centre, War Memorial Gymnasium.

ACADEMIC ADVISING

Students are responsible for the completeness and accuracy of their registration as it relates to the regulations of the B.H.K. program. Academic advising is available by drop-in or email. Contact the Undergraduate Advising Centre in the War Memorial Gym, Room 202, 6081 University Boulevard, Vancouver, BC, V6T 1Z1; telephone 604-822-4512; email (hkin.advising@interchange.ubc.ca).

ADMISSION

Due to limited resources, the School has been authorized to restrict enrolment. Achievement of the minimum requirements for admission does not guarantee acceptance. Students applying to enter the School must make formal application to Enrolment Services no later than February 28 with a documentation deadline of June 30.

Transfer Students

Students who are accepted on transfer from other institutions must normally complete all remaining courses toward the Bachelor of Human Kinetics at UBC. A maximum of 60 transfer credits will normally be granted. The University will not grant a degree for studies that represent less than the equivalent of two regular Winter Sessions (60 credits).

In general, transfer credit is limited to the initial two years of a degree program. Credit at a more senior level may be possible if prior written per-

mission has been granted by the School's Undergraduate Advising Centre. A student wishing to take courses at another institution and transfer the credit toward a Bachelor of Human Kinetics degree must first obtain a Letter of Permission from the School's Undergraduate Advising Centre. It is the student's responsibility to forward an official transcript to Enrolment Services, Admissions.

Registration and Program Approval

Students are reminded of the University rule regarding program responsibility. Students are responsible for the completeness and accuracy of their registration as it is related to the regulations of the program of study in which they are enrolled. The following is a summary of the registration procedures for all Human Kinetics students.

- 1) Students should make all course changes through the online Student Service Centre (SSC) (www.students.ubc.ca/ssc) whenever possible. Human Kinetics students must register into the appropriate waiting list section on the SSC for HKIN courses that are full.
- 2) See *Change of Registration*, p. 49, for regulations regarding adding and dropping courses.
- 3) Human Kinetics students are required to attend and confirm their registration in classes during the first week of each term. Students who do not attend the initial classes may be removed from the course.
- 4) Students are required to register in a minimum of nine Human Kinetics credits during each Winter Session.
- 5) In their third year, all students are required to choose a stream of study through the Student Service Centre (SSC).
- 6) Before registering in any course through Distance Education, Human Kinetics students must consult the School's Undergraduate Advising Centre.

Limitation of Enrolment

Enrolment may be limited in certain Human Kinetics courses when the demand is greater than available resources. See *Space in Courses*, p. 45.

ACADEMIC REGULATIONS

Students in all years are normally subject to general academic regulations in addition to others identified by the School.

Graduation Standing

The categories of degree are Class 1 (80–100%), Class 2 (65–79%), and Pass (50–64%), calculated on the best 60 credits of 300/400-level work.

Withdrawal

A student who withdraws from the University must seek permission from the School's Undergraduate Advising Centre.

Probation

Probationary status will be assigned to a student:

- 1) who is readmitted to the School after having been required to withdraw, or
- 2) who passes the Winter Session, but fails in more than six credits of work or fails to achieve an overall average of 55% on all courses attempted.

The following regulations apply to students on probation:

- 1) Deficient program courses must be repeated during the year of probation;
- 2) Year status will be that of the majority of the credits being taken;
- 3) Program must be approved by an advisor after registration;
- 4) Students who do not pass the deficient courses within the probationary academic year will have their academic records reviewed and may be asked to withdraw from the School until the course deficiencies are completed.

Supplemental Examinations

Supplemental examinations are not granted for Human Kinetics courses.

Unsatisfactory Standing

Fail standing in a session will be assigned if a student does not meet one of the following conditions:

- 1) passes in all credits attempted; or
- 2) if taking more than 12 credits, passes in at least three-fifths of them and obtains an overall average of at least 60% in three-fifths of the credits taken; or
- 3) if taking 12 or fewer credits, passes in at least one-half of them.

At any level of study, a student who is assigned fail standing will be required to discontinue studies at the University for at least a year. A student who fails at the first- or second-year level will not normally be permitted to re-enrol to repeat that level of work, but if that level is completed successfully elsewhere, consideration will then be given to the student's readmission to the University. A student who fails for a second time, either in a repeating year or in a later year, will be required to withdraw from the University. After an absence of at least one full Winter Session (September through April), a

student who has been required to withdraw may apply for readmission. Applications for readmission should be submitted to Enrolment Services. No student required to withdraw has an automatic right to readmission.

DEGREE REQUIREMENTS

To qualify for the Bachelor of Human Kinetics, students must:

- 1) satisfy all the BHK program requirements by completing studies whether at UBC or elsewhere;
- 2) satisfy at least 50% of the credits for the BHK program while registered in the program¹; and
- 3) complete a minimum of 30 upper-level (300/400) credits in HKIN;
- 4) complete 48 upper-division UBC credits; and
- 5) complete 120 credits

¹ Courses taken while studying at another institution on a Senate-approved exchange program satisfy this requirement.

and successfully complete the following credits:

- ENGL 112 (3)
- Human Kinetics Core: HKIN 103 (3), 151 (3), 161 (3), 190 (3), 191 (3), 230 (3), 231 (3), 261 (3), 275 (3), 284 (3)
- Stream courses (see notes 1 to 3 below)
- Electives

In the third year of study, students must select one of three streams: Kinesiology and Health Science, Physical and Health Education, Interdisciplinary Studies. Students may change their stream of study after consulting with the School's Undergraduate Advising Centre. The following notes apply to the three streams of study:

- 1) All Bachelor of Human Kinetics students must take ENGL 112 and 30 credits of Human Kinetics core, and must satisfy the course requirements of the stream they select, as follows:
- 2) Stream Requirements – those courses that are required by the stream of study.
- 3) Human Kinetics Electives – HKIN courses that the student may elect to take. See the School's Undergraduate Advising Centre for suggested specific electives.
- 4) Non-Human Kinetics Electives – courses taken outside of Human Kinetics that the student may elect to take. See the School's Undergraduate Advising Centre for suggested specific electives.
- 5) HKIN 355/455 (Field Experience) – prerequisite information for each HKIN 355/455 section may be obtained at the School's Undergraduate Advising Centre.
- 6) Initial and Continuing Education Program – requirements for the Faculty of Education initial and continuing education programs in Physical Education are listed in *The Faculty of Education*, p. 189.

English Requirement

Satisfactory completion of the Language Proficiency Index (LPI) examination is prereq-

uisite to all first-year English courses at UBC (see *Language Proficiency Index Requirement for First-Year English*, p. 120). All Bachelor of Human Kinetics students must take ENGL 112.

Part-Time Study

As there are only a small number of courses offered in the evenings and during Summer Session, students will experience difficulty in completing a Bachelor of Human Kinetics on a part-time basis. Students interested in part-time study should discuss their proposed studies with the advisor.

Prerequisites

Human Kinetics courses at the 100-level are generally considered prerequisite to 200-level courses, and 200-level courses are generally prerequisite to 300- and 400-level courses. 300- and 400-level courses may be taken in any sequence unless otherwise specified. Many Human Kinetics courses have specific course prerequisites. Students who do not have proper prerequisites for a course may have their registration cancelled automatically. Course prerequisites apply to both part-time and full-time students.

Non-Human Kinetics Electives

Many 300/400-level courses require 100/200-level prerequisites, therefore all non-HKIN electives should be selected carefully.

Interprofessional Electives

The *College of Health Disciplines*, p. 291, is responsible for the administration of interprofessional courses (IHHS), which are recommended as non-HKIN electives to students in Human Kinetics.

For more information see Courses (www.students.ubc.ca/calendar/courses.cfm), IHHS, or visit the website (www.health-disciplines.ubc.ca).

Overloading

A student must apply in writing to the School's Undergraduate Advising Centre for permission to register in more than 33 credits of work in a Winter Session or 12 credits of work in a Summer Session.

KINESIOLOGY AND HEALTH SCIENCE

For students who are interested in the broad areas of human movement sciences, health, and fitness, and who want future certification as Kinesiologists.

KINESIOLOGY AND HEALTH SCIENCE

First Year

ENGL 112	3
HKIN 103	3
HKIN 151	3
HKIN 161	3
HKIN 190	3
HKIN 191	3
Electives ^{1,2}	12

Third Year	
HKIN 303	3
HKIN 330	3
HKIN 351	3
HKIN 371	3
HKIN 373	3
HKIN 375	3
Electives ^{2,3,4,5}	12
Total Credits	30

Fourth Year	
Electives ^{2,3,4,5}	30
Total Credits	30

- In order to obtain third year standing in Kinesiology and Health Science, students must complete 12 credits of first year Science in their first two years in at least three of the following four areas: Biology, Chemistry, Mathematics, and Physics.
- Students planning to apply to professional health science programs such as Physiotherapy (www.rehab.ubc.ca) and Medicine (www.admissions.med.ubc.ca) are strongly encouraged to determine the necessary undergraduate requirements that are available in other faculties such as Science and Arts.
- Students in the Kinesiology and Health Science stream must, as a minimum, complete an additional 18 credits of Science in years 3 and 4, of which at least 12 credits must be at the 300/400 level.
- All students must complete 30 credits of HKIN courses at the 300/400 level.
- All students must complete 48 credits at the 300/400-level.

PHYSICAL AND HEALTH EDUCATION

For students who are interested in teaching and instructing sports, physical activity, and active health in public and private agencies. The stream meets admission requirements for the Teacher Education Program in the Faculty of Education (See note 1 below).

PHYSICAL AND HEALTH EDUCATION

First Year	
ENGL 112	3
HKIN 103	3

Total Credits	30

- Students planning to apply to professional programs are strongly encouraged to determine the necessary undergraduate requirements that are available in other faculties such as Science and Arts.
- Students in the Human Kinetics Interdisciplinary Studies stream must complete a minimum of 18 credits of non-HKIN electives, of which at least 12 credits must be at the 300/400 level.
- All students must complete 30 credits of HKIN at the 300/400 level.
- All students must complete 48 credits at the 300/400-level.

MINOR PROGRAMS

Students who wish to focus their non-Human Kinetics electives may, with the approval in writing of the School of Human Kinetics Advisor, undertake an optional Minor program in conjunction with the Bachelor of Human Kinetics degree. All courses in the Minor must be taken outside of the School of Human Kinetics. There are four types of Minors available.

Minor in Arts

An acceptable program must comprise courses in the Faculty of Arts that are for credit towards a Bachelor of Arts and consists of 18 upper-level credits in a single subject field or specialization. Students should design a coherent, academically sound course of studies for their program Minor, which must be approved in writing by the School of Human Kinetics Advisor at the beginning of third year. All courses must be acceptable for a Bachelor of Arts Major in the proposed subject area or field, but a student is not bound by the other requirements that the Faculty of Arts sets for a Major or Minor in the field.

Note: Students who pursue a Minor in Arts should be aware of the prerequisites for many of the upper-level courses in Arts.

Note: Students who wish to pursue further studies in the Faculty of Education should be aware that courses which are acceptable for an Arts Minor may not necessarily meet the requirements for a teaching concentration in the Faculty of Education. Students planning to enter the Teacher Education Program in the Faculty of Education need to review the detailed admission requirements at www.educ.ubc.ca/teacher_ed/bachelor.html. Students planning to apply for the secondary option must prepare a second teaching field.

Upon successful completion of the Minor program, the notation, "Minor in Arts" will be denoted on the student's transcript.

Minor in Commerce

Students wanting a foundation in business management are encouraged to consider the "Minor in Commerce." Enrolment in this program is limited to students eligible for third-year standing with a cumulative average of at least 68% in the previous two years. Enrolment in this program is strictly limited. Application forms may be obtained from the Advising

Centre. Completed applications must be returned no later than May 15. Upon successful completion of this program, the notation Minor in Commerce will be placed on the student's transcript. The program will consist of COMM 329 (3), COMM 457 (3), COMM 465 (3), COMM 473 (3), COMM 493 (3); and one of COMM 398 (3) or COMM 458. Admission to the program requires completion of ECON 101 (3), ECON 102 (3); and one of MATH 100 (3), 102 (3), 104 (3), 120 (3), 180 (4), or 184 (4).

Minor in Nutritional Science

Students wanting a foundation in nutrition are encouraged to consider the Minor in Nutritional Science. Students must be eligible for third-year standing with a cumulative average of at least 68% in the previous two years, and must have completed FNH 250. Enrolment in this program is strictly limited. Application forms may be obtained from the Advising Centre. Completed applications must be returned no later than May 15. Upon successful completion of this program, the notation Minor in Nutritional Science will be placed on the student's transcript. The program will consist of FNH 350, 351; and 12 credits from FNH 301, 355, 370, 371, 402, 451, 470, 473, and 490.

Note: Students who pursue a Minor in Nutritional Science should be aware of the prerequisites for many of the upper-level courses in Food, Nutrition, and Health. Students may encounter difficulty fitting the FNH courses into their program timetable; careful planning is essential.

Note: Students who wish to pursue further studies in the Faculty of Education should be aware that courses which are acceptable for a Nutritional Science Minor may not necessarily meet the requirements for a teaching concentration in the Faculty of Education. Students planning to enter the Teacher Education Program in the Faculty of Education need to review the detailed admission requirements at www.educ.ubc.ca/teacher_ed/bachelor.html. Students planning to apply for the secondary option must prepare a second teaching field.

Minor in Science

An acceptable program must comprise courses recognized in the Faculty of Science that are for credit towards a Bachelor of Science degree and consist of at least 18 credits numbered 300 or higher in a single subject field or specialization, together with all necessary prerequisites. Students should design a coherent and academically sound course of studies for their proposed minor, which must be approved by the Human Kinetics Advisor in writing at the beginning of third year. All courses must be acceptable for a Science Major in the proposed subject area or field.

Note: Students who wish to pursue a Minor in Science should be aware of the prerequisites of many of the upper-level courses in Science.

Note: Students who wish to pursue studies in the Faculty of Education should be aware that

courses which are acceptable for a Minor in Science may not necessarily meet the requirements for a teaching concentration in the Faculty of Education. Students planning to enter the Teacher Education Program in the Faculty of Education need to review the detailed admission requirements at www.educ.ubc.ca/teacher_ed/bachelor.html. Students planning to apply for the secondary option must prepare a second teaching field.

Upon successful completion of the Minor program, the notation, "Minor in [subject]" will be denoted on the student's transcript. Space in many Science courses is limited. Admission to a Science Minor does not guarantee access to courses agreed upon for the minor.

ACADEMIC STAFF

Professors

Peter R. E. Crocker, B.A., M.Sc. (S.Fraser), Ph.D. (Alta.); **Ian Michael Franks**, B.Ed. (McG.), M.Sc., Ph.D. (Alta.); **J. Timothy Inglis**, B.Sc. (Wat.), B.Sc.P.T. (W.Ont.), M.Sc. (Wat.), Ph.D. (Qu.); **Donald C. McKenzie**, B.Sc. (Guelph), M.P.E., M.D. (Br.Col.), Ph.D. (Ohio); **Edward C. Rhodes**, B.Ed. (Alta.), M.Sc., Ph.D. (Oregon); **David J. Sanderson**, B.Sc., M.Sc. (S.Fraser), Ph.D. (Penn.); **Jack E. Taunton**, B.Sc., M.Sc. (S.Fraser), M.D. (Br.Col.); **Patricia A. Vertinsky**, B.A. (Birm.), M.Sc. (U.C.L.A.), Ed.D. (Br.Col.).

Associate Professors

Romeo C. Chua, B.Sc. (S.Fraser), M.Sc. (McM.), Ph.D. (S.Fraser); **Wendy Frisby**, B.P.E. (Alta.), M.H.K. (Windsor), Ph.D. (Wat.); **Richard E. Mosher**, B.P.E. (Br.Col.), M.P.E. (Oregon), Ph.D. (Mich. State); **A. William Sheel**, B.P.E. (New Br.), M.Sc., Ph.D. (Br.Col.); **Robert E. C. Sparks**, B.A. (Wesl.), M.S. (Mass.), Ph.D. (Mass.); **Brian Wilson**, B.P.E. (McM.), M.A. (Br.Col.), Ph.D. (McM.).

Assistant Professors

Mark Beauchamp, B.A. (Exe.), M.A. (Qu.), Ph.D. (Birm.); **Shannon S. D. Bredin**, B.Ed., B.P.E., M.Sc. (Alta.), Ph.D. (Br.Col.); **Mark G. Carpenter**, B.Sc., M.Sc., Ph.D. (Wat.); **Nicola J. Hodges**, B.Sc. (Herts.), M.Sc. (McM.), Ph.D. (Br.Col.); **Laura Hurd Clarke**, B.A. (Qu.), M.S.W. (Laurier), Ph.D. (McM.); **Karim Khan**, M.B.B.S. (Melb.), B.Med.Sc., Ph.D. (Melb.); **Tania Lam**, B.Sc.P.T. (Qu.), Ph.D. (Alta.); **James L. Rupert**, B.Sc. (Guelph), M.Sc. (Tor.), Ph.D. (Br.Col.); **Darren E. R. Warburton**, B.A. (York), M.Sc. (York), PhD (Alta.).

Senior Instructors

Barry Legh, B.Ed. (Br.Col.), M.P.E. (Wash.); **Gail E. Wilson**, B.P.H.E. (Tor.), M.P.E. (Br.Col.).

13 The School of Journalism

A SCHOOL WITHIN THE FACULTY OF ARTS WITH DEGREE PROGRAMS OFFERED THROUGH THE FACULTY OF GRADUATE STUDIES

Director's Office

Donna Logan, Director
6388 Crescent Road
Vancouver, BC V6T 1Z2
Tel: 604-822-6688
Fax: 604-822-6707

Journalism Website (www.journalism.ubc.ca)

The mission of The School of Journalism is to achieve the highest professional standards in journalism through instruction in journalistic practice and the scholarly understanding of journalism, critical thinking, and teaching of ethical responsibility. The School of Journalism is part of the Faculty of Arts, but is governed by the admissions and curriculum requirements of the Faculty of Graduate Studies. It offers a two-year *Master of Journalism (M.J.)*, p. 259.

The School opened in 1998 and is housed in a new building with seminar and work rooms, and faculty and administration offices arranged around a state-of-the-art newsroom. Its construction was made possible by an endowment from the Sing Tao Foundation.

MASTER OF JOURNALISM

By combining advanced journalism practice and theory with academic studies at the graduate level, the program will not only enhance advanced journalism, but also improve the information base and scholarly preparation of students for journalistic writing in their specialty subject areas. The program will serve the profession of journalism and bring developments in many areas of academic investigation to a wider reading public. Workshops, seminars, tutorials, conferences, and publications will deal with reportage as well as major issues, theories, and developments in the field of journalism. Emphases are on the writing of journalism, the historic evolution of journalism as a profession, ethics and journalism, journalism and the legal system, and the role and character of journalism in a changing society.

ADMISSION

Candidates for admission to the Master of Journalism program must possess a four-year honours baccalaureate degree in a discipline or interdisciplinary area regarded as appropriate by the Admissions Committee for the program. Only applicants with superior performance at the baccalaureate level and appropriate journal-

ism knowledge and experience will be admitted. Applicants will be required to indicate their intended academic specialty at the time they apply. Because the number of applicants greatly exceeds the number of places available, a record that satisfies basic entrance requirements does not guarantee admission to the program. Registration in graduate seminars in the academic specialty will be subject to the approval of the Director.

Applicants with journalism experience will submit an extensive sample of their professional work; those without such experience will be selected on the basis of a manuscript of original writing that meets the standards of the peer group selected for entry into the program. The admissions panel will assess the applicant's potential for satisfactory performance in the program and for potential creative and constructive contribution to the profession.

All applicants must meet the admission requirements of the Faculty of Graduate Studies. International applicants will require a score of 600 or more on the Test of English as a Foreign Language (TOEFL).

The deadline for submission is January 15 for entry in September of the following academic year. For students wishing to apply for graduate awards and fellowships, the deadline is December 1 of the previous year.

ACADEMIC REGULATIONS

Students will be required to spend two Winter Sessions (i.e., eight months from September to April) on campus as full-time students. In exceptional circumstances, the School and the program will accommodate the needs of working journalists and others who may find it difficult to take more than eight or 12 months away from regular employment.

For more information, please contact:
School of Journalism
The University of British Columbia
Sing Tao Building
6388 Crescent Road
Vancouver, BC V6T 1Z2
Tel: 604-822-6688
Fax: 604-822-6707
Email: journal@interchange.ubc.ca
Web: www.journalism.ubc.ca
Webzine: *The Thunderbird* (www.journalism.ubc.ca/thunderbird.html)

DEGREE REQUIREMENTS

The program is designed for both persons with extensive journalistic experience, and for those who do not have such experience but who demonstrate superior writing and research ability on par with the peer group.

Because students' backgrounds vary, the number of credits required for the Master of Journalism degree will be determined in consultation with the Director. The number of credits will never be less than 36, and must include a Thesis Project (JRNL 549A) and courses from each of the five core areas:

- Newsroom Practice (JRNL 503C, 505C, 510)
- Media Studies (JRNL 523, 525, 533D, 535)
- Directed Studies (JRNL 539D, 539E, 539G, 539I, and 539J)
- Research and Writing (JRNL 503F, 505A)
- Academic Studies outside Journalism

At least 12 graduate credits must be in Academic Studies outside Journalism. At least 24 credits must be in the other four core areas and the thesis project. The majority of M.J. Candidates will usually complete 42 credits for the degree. Master of Journalism coursework and an approved number of credits for a M.J. degree must be determined in consultation with the Director.

Fax: 604-822-6394

Land and Food Systems Website

(www.agsci.ubc.ca)

The Faculty of Land and Food Systems (formerly known as the Faculty of Agricultural Sciences) offers programs leading to the Bachelor of Science in Agroecology, the Bachelor of Science in Food, Nutrition, and Health, the Bachelor of Science in Global Resource Systems, the Master of Science, and the Doctor of Philosophy.

The Faculty of Land and Food Systems emphasizes an education in an active, student-centred learning environment across the continuum of issues and problems around land, food, and community. The programs and their specializations prepare students for careers in supporting a healthy planet through ecosystem, community, and human health. The programs range from those emphasizing the basic and agricultural sciences to those responding to related issues in the social sciences.

ADMISSION

Application for admission to the Faculty of Land and Food Systems must be made through Enrolment Services. Procedures, policies, and admission requirements for the University of British Columbia and the Faculty of Land and Food Systems are specified in the chapter *Admissions*, p. 13, in this Calendar. Approved examinable Grade 11 and 12 courses are also listed there. Students may find it to their advantage to present credit for as many of Biology 12, Chemistry 12, and Physics 12 as possible.

Students admitted to the Faculty of Land and Food Systems by transfer from other post-secondary institutions must have met the *English requirement*, p. 302, of the Faculty or be eligible to enrol in first-year English at the time of admission.

Advising Office

The Land and Food Systems Academic Advising Office (Student Services) is located in Room 270, MacMillan Building, 2357 Main Mall. Office hours are 8:30 am to 4:00 pm, Monday to Friday. The office can be reached by telephone at 604-822-2620 or by email at agsci@interchange.ubc.ca.

REGISTRATION AND PROGRAM APPROVAL

FIRST-YEAR STUDENTS

First-year students are not required to select a program concentration or major until the end of second year; students must be careful, however, to select courses appropriate for the degree program in which they have been accepted. Students planning to apply to second-year admission degree programs are still required to follow the course requirement for the program to which they were originally admitted. Students not meeting the minimum academic standing required for compulsory courses in a given program may be required to withdraw from that program.

ACADEMIC REGULATIONS

ATTENDANCE, EXAMINATION, AND ADVANCEMENT

The following regulations apply:

- 1) Regular attendance is expected of students in all their classes. Students who neglect their academic work and assignments may be excluded from the final examination. Students who are unavoidably absent because of illness or disability should report to their instructors on return to lecture or laboratory class.
- 2) Students who are absent from December or April examinations because of illness must submit a certificate obtained from a physician to the Student Health Service as soon as possible. If injury or illness did not cause the absence, an explanation of the circumstances should be written to the Associate Dean Academic. Applications for special consideration on account of illness or domestic affliction must be submitted in writing to the Associate Dean Academic as

soon as possible after the close of the examination period.

- 3) Formal written examinations are required at the end of all courses terminating in December or April and also in December for courses continuing all year. The formal written examination may be replaced by alternative examination procedures only upon approval of the program advisor and with permission of the Associate Dean Academic. Passing the final examination may not be sufficient to pass a particular course, but in some courses it may be a requirement. Students may be denied a passing grade for unsatisfactory work during the session or if their essays, reports, or examinations are notably deficient in English. Also, in any course which involves both laboratory work and written examinations, students must complete and pass both parts to pass the course. Any student whose academic record, as determined by tests and examinations of Term 1, is unsatisfactory may be required to withdraw from the Faculty at any time. See *Grading Practices*, p. 47.
- 4) Students will be classified or promoted according to the following criteria:
 - to second-year level: successful completion of 24 or more credits of prescribed courses of first year.
 - to third-year level: successful completion of 54 or more credits, and all the required courses of first year. Students who do not meet this requirement will not normally be permitted to enrol in third-year or higher level courses in the Faculty.
 - to fourth-year level: successful completion of a total of 89 or more credits, including completion of all required second-year courses.
- 5) A student who fails a year will be required to withdraw from the University for a period of at least one academic year after which time an appeal for permission to re-enrol will be considered. Before applying for permission to re-enrol, a first- or second-year student who fails a year is required to register in a full program (30 credits) at a community college. This program should include those courses

failed at UBC, and must be completed with a least a 'C' (60%) average, with no failed courses, and the courses must be applicable to our programs. A student who fails a year but passes some courses will receive credit for the courses passed upon re-statement in the Faculty. Fail standing will be assigned in a session when a student:

- has taken a study program of 15 credits or more and passed in less than 60% of it; or
 - has taken 15 credits or more and has a sessional average of less than 55%; or
 - has taken a study program of fewer than 15 credits and passed in less than 50% of it; or
 - has taken less than 15 credits and has a sessional average of less than 50%.
- 6) Only one probationary year is allowed in a student's program. Probationary status will be assigned to a student:
- who is re-admitted to the Faculty after having been required to withdraw; or
 - who passes the Winter Session, but fails in more than 6 credits of work or fails to achieve an overall average of 60% on all courses attempted.
- 7) In the Winter Session, the total of all courses taken may not exceed 38 credits except with approval of the Associate Dean Academic.
- 8) Students are not permitted to take courses for academic credit at other post-secondary institutions concurrently with their program in the Faculty.
- 9) A student who decides to withdraw from the University should refer to the chapter *Academic Regulations*, p. 47, in this Calendar. See *Withdrawal*, p. 50.

ENGLISH REQUIREMENT

To qualify for the Bachelor of Science Agroecology or the Bachelor of Science in Food, Nutrition, and Health, students must complete at least 3 credits of first-year English. Although English 112 is highly recommended, qualified students are encouraged to consider English 120 and/or 121.

Satisfactory completion of the Language Proficiency Index (LPI) examination is prerequisite to all first-year English courses at UBC. See *Language Proficiency Index Requirement for First-Year English*, p. 120. Students who have not achieved an LPI score of 5 or 6 by the time they have completed 30 credits will normally be required to withdraw from the Faculty of Land and Food Systems.

Students who have not completed at least 3 credits of first-year English by the time they have completed 54 credits will normally be required to withdraw from the Faculty of Land and Food Systems.

Student performance on written work in all courses in the Faculty of Land and Food Systems may be evaluated in part on grammar and syntax.

DEAN'S HONOUR LIST

Students with a standing of 'A-' or better in the previous Winter Session will receive the notation "Dean's Honour List" on their records. A program of at least 30 approved credits must have been completed during the session to receive this designation.

HONOURS STANDING

On graduation, honours standing will be granted to those students who have averaged 'A-' or higher in the best 62 credits of courses, which are selected by the program concentration, and which meet the requirements of third and fourth years.

PART-TIME STUDENTS

Students wishing to take less than a full course load should consult the appropriate program advisor or the Office of the Associate Dean Academic before registering. Some evening classes are available.

BACHELOR OF SCIENCE IN AGROECOLOGY

Agroecology is the science of applying ecological concepts and principles to the design and management of sustainable agroecosystems. This discipline brings together the elements of agricultural sciences, ecology, and environmental thought and is influenced by the experiences of people who manage land and water to produce food and other products. The Agroecology program is committed to provide an agricultural education that integrates disciplinary knowledge within a framework of ecological principles. It provides students with the flexibility to tailor their learning experiences to prepare for a wide range of careers with varying specializations, including animal studies, pre-veterinary medicine, horticulture, soils and environment, resource economics, and sustainable agriculture.

ADVISING OFFICE

See *Advising Office*, p. 301, under the Faculty of Land and Food Systems, Admission.

ADMISSION

Students should refer to the chapter *Admissions*, p. 13, in this Calendar. Students may gain admission directly from secondary school or transfer from a recognized university or college with a minimum of 24 credits, or as mature students.

For admission to the Bachelor of Science in Agroecology program, students from Grade 12 British Columbia schools must meet the general University admission requirements and must have completed English 11 and 12; Social Studies 11; an approved language 11; Mathematics 11 and 12; at least two of Biology 11, Chemistry 11, and Physics 11; one of Chemistry 12, Physics 12, Biology 12, Geology 12; a course chosen from among the approved examinable Grade 12 courses.

DEGREE REQUIREMENTS

A minimum of 121 credits is required for the B.Sc. Agroecology Program. All students are required to take the following common core of 64 credits of course work. The remaining credits depend on the program specialization chosen by the student. In their third and fourth years, students must complete at least 12 credits of Agroecology (AGRO) courses numbered 300 or above, in addition to AGRO core courses.

B.SC. AGROECOLOGY

First Year	
AGSC 100	1
ENGL 112	3
BIOL 112/121	6
BIOL 140	1

Total Credits	30
<i>Overall four-year total</i>	<i>121</i>

¹ CHEM 111 is not for students with Chemistry 12

² Students who have not completed Calculus 12 should take MATH 180 or 184, plus either MATH 103 or 105, to fulfill their first-year Math requirement.

³ Pre-veterinary students are required to take PHYS 101 and 102 or PHYS 121 and 122, and MICB 202. In third and fourth years, pre-veterinary students follow an Animal Studies program.

⁴ Students in Resource Economics concentration take ECON 101 and ECON 102.

⁵ Students in Resource Economics concentration take ECON 301 and ECON 302.

⁶ Students in Agroecology may take the general program or pursue areas of special interest in one of four concentrations. The selection of all electives must be made in consultation with a Program Advisor.

Animal Studies

In second year, students are required to take BIOL 200 and 201, CHEM 205, 233, and 235. In third and fourth year, students are required to take AGRO 311, 312, FNH 350, 452, 453.

Horticulture

In second year, students are required to take BIOL 200 and 201, CHEM 205, 233, and 235. In third and fourth year, AGRO 322, 420, 421, and 423 are required, and one of AGRO 326, 327, 328.

Resource Economics

In second year, students are required to take ECON 301 and 302, and one of FRE 302, 306, or 340. In third and fourth year, students are required to take ECON 371 and 472, FRE 302, and 374, and one of 306 or 340.

Soils and Environment

In second year, students are required to take EOSC 120 or 121, CHEM 205, PHYS 102 or 122. In third and fourth year, students are required to take AGRO 401, 402, and 403.

Pre-Veterinary Program

The Western College of Veterinary Medicine (W.C.V.M.) was established at the University of Saskatchewan to serve the four western provinces. A pre-veterinary program is required in preparation for admission to the four-year veterinary program at the W.C.V.M., and may be completed at UBC in the Faculty of Land and Food Systems.

The course requirements for admission to W.C.V.M. are 6 credits each of English, Biology, Biochemistry, Chemistry, Physics, and Mathematics; 3 credits each of Genetics, Organic Chemistry, and introductory Microbiology; and additional electives to complete 60 credits.

Applicants without significant animal and veterinary experience are rarely successful in being admitted to W.C.V.M. For information and program approval, contact the Academic Advising Office.

BACHELOR OF SCIENCE IN FOOD, NUTRITION, AND HEALTH

Food security and its impact on health is the focus of the academic theme in Food, Nutrition, and Health. New knowledge and advances in science and technology are integrated with socio-economic, cultural, ethical, and legal considerations in the provision of a safe, nutritious, and sustainable food supply. Our programs are designed to provide students with a broad education in food science and nutrition, as well as an academic background to pursue careers as professional dietitians, nutritionists, food scientists, and food market analysts. Research and teaching span the continuum from the production and processing of food to its marketing, consumption, and impact on public health and community.

ADVISING OFFICE

See *Academic Advising Office*, p. 301, under Faculty of Land and Food Systems, Admission.

ADMISSION

Students should refer to *Admissions*, p. 13, in this Calendar. Students may gain admission directly from secondary school or transfer from a recognized university or college with a minimum of 24 credits, or as mature students.

For admission to the Bachelor of Science in Food, Nutrition, and Health, students from Grade 12 British Columbia schools must meet the general University admission requirements and must have completed English 11 and 12; Social Studies 11; an approved language 11; Principles of Mathematics 11 and 12; at least two of Biology 11, Chemistry 11, and Physics 11; one of Chemistry 12, Physics 12, Biology 12, Geology 12; a course chosen from among the approved examinable Grade 12 courses.

Admission to the majors in *Dietetics*, p. 303, *Food Market Analysis*, p. 304, and the *Food and Nutritional Sciences Double Major*, p. 305, is restricted. See those sections for details.

ACADEMIC REGULATIONS

See *Academic Regulations*, p. 301, as listed under Faculty of Land and Food Systems.

DEGREE REQUIREMENTS AND MINORS

Candidates for the B.Sc. (FNH) degree must complete the requirements as spelled out for each major.

Minor in Human Kinetics

Students who wish to focus their non-FNH electives can undertake an optional minor program in conjunction with the Bachelor of Science (Food, Nutrition, and Health) degree.

Enrolment in the Human Kinetics Minor program is limited to students eligible for third-year standing and who will be enrolling in PHYL 301 (6) in third year. Due to space limitations in the Human Kinetics program, admission to the minor is competitive and will be based on a cumulative grade-point average of 54 credits of required first- and second-year courses for the Bachelor of Science (Food, Nutrition, and Health) degree. The minimum cumulative average is 68%; however, meeting the stated minimum average does not guarantee admission into this minor.

Detailed admissions requirements and application procedures are provided at www.landfood.ubc.ca. Completed applications must be returned no later than May 15.

The Human Kinetics Minor program will consist of 18 credits selected from the following: HKIN 303, 353, 361, 363, 364, 370, 461, 463, 464, 469, 471. Note that PHYL 301 will be accepted as an equivalent pre/co-requisite of HKIN 290/291.

Notes:

- 1) Students who wish to pursue a Minor in Human Kinetics should be aware of the 300-level prerequisites for 400-level

Human Kinetics courses. However, 100- and 200- level prerequisites for HKIN courses may be waived for students taking the minor. Space in many Human Kinetics courses is limited. Admission to a Human Kinetics Minor does not guarantee access to courses agreed upon for the minor. Upon successful completion of this minor program, the notation "Minor in Human Kinetics" will be placed on the student's transcript.

- 2) Students who wish to pursue studies in the Faculty of Education should be aware that courses which are acceptable for a Human Kinetics Minor might not necessarily meet the requirements for a teaching concentration in the Faculty of Education. Students planning to enter the Teacher Education Program in the Faculty of Education need to review the detailed admission requirements at www.educ.ubc.ca/teacher_ed/bachelor.html. Students planning to apply for the secondary option must prepare a second teaching field.

Interprofessional Electives

Under the auspices of the Council, the College of Health Disciplines is responsible for the administration of interprofessional courses (IHHS), which are recommended as electives to students in Food, Nutrition, and Health. For more information see Courses (www.students.ubc.ca/calendar/courses.cfm), IHHS, or visit the College of Health Disciplines website (www.health-disciplines.ubc.ca).

DIETETICS MAJOR

The Dietetics Major specializes in the biological sciences. The Dietetics program differs from the Nutritional Sciences program in that it involves greater attention to patient care, administration, and the role of diet in the prevention, etiology, and treatment of disease.

The Dietetics Major is designed to provide academic background and professional practice (dietetic internship) preparation for students interested in pursuing careers as professional dietitians or nutritionists. Program graduates will be eligible to write the registration examination to qualify for membership in the College of Dietitians of BC and/or Dietitians of Canada.

Admission

Admission to the Dietetics Major will normally be to third year and will be based on three components:

- 1) Academic Performance (60% of Admission Score)

Admission to the Dietetics Major is limited to students who will have completed a minimum of 54 credits of university or college coursework by April 30 of the year in which they are applying for admission. This must include the following prerequisites: English (3 credits); BIOL 112, 121, 140, 200 and 201; CHEM 111/113 or 121/123, and 205/233 or 203/204; AGSC 250¹; FNH 200¹ and 250; Social Science¹ (6 credits; e.g., PSYC 100, SOCI 100) or

equivalent. All of these prerequisites can be met by following years one and two of the Nutritional Sciences Major or Food Sciences Major in Food, Nutrition, and Health.

¹ Note that up to 9 credits of AGSC 250, FNH 200, and Social Science (6) can be deferred until a student has been accepted into the Dietetics Major, as long as 54 credits of university or college course work including all other prerequisite courses have been completed. Admission is based on a minimum academic standing of 70% calculated on the basis of 12 credits of second-year Biology and Chemistry and the best 24 credits of the remaining prerequisite courses.

2) Test of Critical Thinking, Reading, and Writing (20% of Admission Score)

Candidates write a formal academic essay, of at least 300 words, in response to a proposition drawn from a short reading. The topic of the essay is not directly related to dietetics. Applicants are required to attain a minimum level of achievement on the test to gain consideration in the final selections (regardless of the performance in other criteria). This test can be written at UBC or at another institution if the applicant can arrange for it to be proctored. An administrative fee will be assessed; contact the Faculty of Land and Food Systems for details.

Essays will be assessed on four main criteria:

- the precision and relevance of the response to the topic,
- the clarity and depth of thought about the topic expressed in the response,
- the coherence and development of the argument, and
- the command of expression, grammar, and punctuation demonstrated in the response.

Each essay is assessed anonymously and independently by two reviewers. The review process is completed over a short time, therefore it is not possible to re-evaluate essays.

This is not the type of test that applicants can study for. However, activities or courses that promote development of reading, writing, and critical thinking skills may assist applicants to perform well on this test.

3) Personal Profile (20% of Admission Score)

At the time of writing the test of critical thinking, reading, and writing, candidates will also complete a Personal Profile. This has two components:

- a brief (maximum two page) chronological resumé, which candidates can prepare in advance and bring along to the testing session; and
- a short set of questions that will allow candidates to explain why they have chosen to pursue a career in dietetics, their understanding of the role of the dietitian, and why they think their background and skills are appropriate for the profession. The specific questions may

vary from year to year. Candidates who have researched the profession and/or have volunteer or work experience in nutrition/dietetics will be better able to answer the questions.

APPLICATION FEE

The application form must be accompanied by an application processing fee. The fee for all applicants is CAD\$50.00.

INTEGRATED INTERNSHIP

ADMINISTRATION FEE

An administration fee of CAD \$1,500.00 per year will be applied to students in the Dietetics major.

DIETETICS MAJOR

Note: the following program will be implemented incrementally beginning September 2004. Students in the Dietetics Major prior to this will follow the program to which they were admitted.

Overall five-year total credits 163

¹ FNH 480 (Professional Dietetic Practice 2) The current plan is to offer this course in May-June each year, with 16 hours/week in the classroom. Planning for this course is still in progress and this schedule may change.

² FNH 481 involves 30 weeks of full-time fieldwork placement (September through April).

³ FNH 482 (Professional Dietetic Practice 4) involves eight full-time weeks of senior fieldwork placement between May and August.

FOOD MARKET ANALYSIS MAJOR

Students enrolled in the Food Market Analysis Major will focus on the core of the Food Science Major and on a core of Economics, Commerce, and Food Resource Economics courses. This will prepare graduates for

employment in the food industry with special interest in market analysis aspects. Students wishing to concentrate on certain areas or who are interested in pursuing graduate studies should consult the program advisor.

¹ CHEM 111 is not for students with Chemistry 12.

² Students who have not completed Calculus 12 should take MATH 180 or 184, plus either MATH 103 or 105, to fulfill their first-year Math requirement.

³ Students should review prerequisites for third-year FNH courses listed in footnote 2 (e.g., PHYS 101 or 102 for FNH 300). One of MATH 200, 217, or 226 is recommended for students contemplating graduate studies or with a special interest in quantitative/empirical analysis.

⁴ Select from: FNH 300, FNH 301, FNH 302, FNH 309, FNH 313, FNH 330, FNH 340, FNH 342, FNH 355, FNH 401, FNH 402.

⁵ Students contemplating graduate studies or with a special interest in quantitative/empirical analysis must select ECON 325.

⁶ Students contemplating graduate studies or with a special interest in quantitative/empirical analysis must select ECON 326.

⁷ Select from: FRE 302, FRE 340, FRE 374, FRE 385, FRE 420, FRE 475.

⁸ Students contemplating graduate studies or with a special interest in quantitative/empirical analysis must take FRE 385 and FRE 475. Also recommended are a second-year calculus course (e.g., MATH 200, 217, or 226) and ECON 420.

FOOD AND NUTRITIONAL SCIENCES DOUBLE MAJOR

Students in the Food and Nutritional Sciences Double Major will focus on the core sections of Food Science and Nutritional Sciences. The double major is based on the chemical, physical, and biological sciences and will prepare graduates for employment in the various facets of the food and nutrition sectors. Students wishing to specialize in or concentrate on certain areas should consult the program advisor.

Admission

The first two years of the Food and Nutritional Sciences Double Major are comprised of the standard cores of the FNH program. Students may apply to the Food and Nutritional Sciences Double Major after completing at least 21 credits of the listed first-year courses (or their equivalent), including courses in each of Biology, Chemistry, Physics, English, and Math. Admission to the double major is limited to students who have achieved an academic standing of at least 70% calculated on the best 21 credits of required courses taken in the previous year.

¹ CHEM 111 is not for students with Chemistry 12.

² Students who have not completed Calculus 12 should take MATH 103 or 105 to fulfill their first-year Math requirement.

³ Students may take BIOC 300 in lieu of BIOL 201/ BIOC 302.

⁴ Select at least 6 credits from the following list of courses: FNH 370, 371, 452, 453, 454, 475, 490, 497, 498, 499.

FOOD SCIENCE MAJOR

Food Science is a discipline encompassing food chemistry, food microbiology, physical, sensory, and nutritional properties of food, and food process science with respect to the manufacture, preservation, quality assurance, and development of food products.

Students wishing to specialize in or concentrate on certain areas should consult the program advisor.

Admission

Entry into the Food Science Major is at the beginning of either second or third year. Admission GPA is calculated on the grades from the best 21 credits of required courses in the most recently completed year of full-time study (either first or second year). A minimum competitive average of 70% is required for entry into the Food Science Major due to space restrictions.

Students who fail to meet the entrance requirements after first year can apply again after second year. Students interested in Food Science who fail to meet the entrance requirements after second year would be eligible to complete the FNH general major, or select another program if appropriate. A student may be permitted to enter the Food Science Major after completing third year if they have taken a full course load in their current program and obtained an average of 75% or higher for required courses, and providing room is available in the major.

Students who are admitted to the Food Science Major will be required to maintain at least a 70% average in required courses in each year to remain in the program.

³ Students may take BIOC 300 in lieu of BIOL 201/ BIOC 302.

⁴ To be selected in consultation with a program advisor. May include courses in FNH, AGRO, AGSC, FRE, COMM, ECON, BIOC, PHARM, immunology, physiology, molecular biology, genetics, etc. (for a list of suggested courses see www.land-food.ubc.ca).

FOOD, NUTRITION, AND HEALTH MAJOR

The Food, Nutrition, and Health (FNH) Major offers flexibility so that students can tailor the program to reflect their own interests in food, nutrition, and health without the specialization depth afforded by the other majors. With suitable course selections, students may be prepared to enter the Home Economics Teacher Education Program at UBC once they have completed this major, a program that prepares graduates for employment opportunities in secondary schools as Home Economics teachers.

³ Students wishing to take FRE courses should select ECON 101 and 102 as their non-science electives. Students considering a transfer to another FNH program should take the required non-science electives for that program.

⁴ To be selected in consultation with a program advisor. May include courses in AGRO, AGSC, BIOC, COMM, ECON, FMST, FNH, FRE, PHARM, immunology, physiology, molecular biology, genetics, etc. (for a list of suggested courses see www.land-food.ubc.ca).

NUTRITIONAL SCIENCES MAJOR

The Nutritional Sciences Major provides a basic education in life sciences. The program in nutritional sciences is specifically intended for those students interested in basic human and animal nutritional sciences, who desire preparation for graduate study and research in nutrition, and for students who plan to proceed to an area of agricultural or health sciences in which a background in nutrition would be of value. Graduates of the Nutritional Sciences Major will most often pursue advanced degrees leading to positions in university teaching, research, nutrition services, or international food and nutrition organizations.

Unrestricted Electives	9
Restricted Electives ⁵	3
Total Credits	30

Overall four-year total credits	
	122

¹ CHEM 111 is not for students with Chemistry 12.

² Students who have not completed Calculus 12 should take MATH 180 or 184 to fulfill their first year Math requirement.

³ Alternate BIOC 300 for BIOL 201/BIOC 302.

⁴ Alternate AGRO 311 and 312 or BIOL 353 or BIOL 355.

⁵ Restricted elective in consultation with an advisor (at least 6 credits of upper-level courses in Food, Nutrition, and Health (except FNH 330, 340, 341, 342, and 440), Agroecology, Food and Resources Economics, immunology, biochemistry, pharmacy, molecular biology, genetics, or other disciplines).

⁶ Nutrition specialization electives (at least 9 credits from FNH 301, 370, 371, 452, 453, 454, 470, 473, 475, 490*, 497*, 498, 499. Students must consult with an advisor).

BACHELOR OF SCIENCE IN GLOBAL RESOURCE SYSTEMS

The Bachelor of Science in Global Resource Systems program recognizes that resource problems are complex and require solutions that are global and interdisciplinary in scope, and draw on a range of skills. It offers a comprehensive and flexible undergraduate degree program in which students are given the opportunity to customize their degree by selecting both a resource area and region of the world to focus their studies.

Students are eligible to apply to the Bachelor of Science in Global Resource Systems undergraduate program after completing first-year Agricultural Sciences, Arts, or Sciences. They can begin the program at the beginning of second year or third year. In third and fourth years, students pursue a double major, a resource specialization, and a regional specialization.

For the resource specialization, students focus on one discipline or choose courses from different disciplines that relate to a resource theme. Options include, but are not limited to: aquaculture, environment, food and resource economics, First Nations resource systems, horticulture, human ecology, international development, and sustainable agriculture.

For the regional specialization, students choose Africa, Asia Pacific, Europe, or the Americas. Within the regional specialization, the program requires a relevant language other than English, a relevant international experience, and relevant course work. The international experience requirement is met through a period of learning in the region via academic exchange, field study, or work-based learning (internships).

ADVISING OFFICE

See *Academic Advising Office*, p. 301, as listed under the Faculty of Land and Food Systems, Admission.

ADMISSION

Students can apply to the GRS program after completing 24 credits of first-year university-level courses. To be considered, students are required to have a minimum academic standing of at least 70% (or 2.80 on a 4-point scale). Achievement of this minimum, however, does not guarantee admission. Admission is limited by the Faculty's capability to accommodate

students in this global program. Admission is based on grades, preparation, experiences, and commitment to a global education. When applying to GRS, students must submit a letter of intent (500 words or less) conforming to guidelines specified on the GRS website (www.landfood.ubc.ca/programs/grs_ug.htm). The letter of intent is to be submitted to Enrolment Services at the time of application.

Students are advised to complete first-year requirements as listed in *Degree Requirements*, p. 307, for the Bachelor of Science in Global Resource Systems.

Transfer from the Environmental Studies Diploma, Langara College

Students who successfully complete the Environmental Studies Diploma program at Langara College, and gain admission to the Faculty of Land and Food Systems and the Global Resource Systems (GRS) undergraduate program, will receive transfer credit for 60 credits into the GRS program if they have:

- 1) satisfied first-year requirements of the GRS program in Biology, Chemistry, Economics, English, and Mathematics;
- 2) completed UBC course AGSC 250 or equivalent; and
- 3) completed 6 credits of language relevant to the regional specialization.

They will be able to finish the GRS program with the further 62 credits required.

ACADEMIC REGULATIONS

See *Academic Regulations*, p. 301, as listed under the Faculty of Land and Food Systems.

DEGREE REQUIREMENTS

To qualify for the Bachelor of Science in Global Resource Systems, students must complete at least 3 credits of first-year English. Although English 112 is highly recommended, qualified students are encouraged to consider English 120 and/or 121.

Satisfactory completion of the Language Proficiency Index (LPI) examination is prerequisite to all first-year English courses at UBC. See *Language Proficiency Index Requirement for First-Year English*, p. 120. Students who have not achieved an LPI score of 5 or 6 by the time they have completed 30 credits will normally be required to withdraw from the Faculty of Land and Food Systems.

Student performance on written work in all courses in the Faculty of Land and Food Systems may be evaluated in part on grammar and syntax.

Students who have not completed at least 3 credits of first-year English will not normally be permitted to enrol in third-year or higher-level courses in the Faculty.

BACHELOR OF SCIENCE IN GLOBAL RESOURCE SYSTEMS

First Year	
AGSC 100	1
BIOL 111/112/115 or 121	3

GRS 490	2
Resource Specialization Electives ¹⁰	21
Regional Specialization ¹¹	
Anthropology and Culture	3
Economics and Commerce	3
Geography, History, and Political Science	3
Regional Specialization Electives	9
International Experience ¹²	0
Program Electives ⁷	3/2
Unrestricted Electives	3
Total Credits	60
Overall four-year total	122

¹ CHEM 111 is not for students with Chemistry 12.

² ENGL 112 is recommended.

³ Students who pass an oral proficiency test for a language relevant to their regional specialization are exempt, and must choose 6 credits of program electives approved by a program advisor.

⁴ Students who have not completed Calculus 12 should take MATH 180 or 184 to fulfill their first-year Math requirement.

⁵ Courses that provide a foundation for the resource specialization. Science-based resource specializations require BIOL 121 and 140 and CHEM 113 or 123. Economics-based resource specializations require ECON 102. Must be approved by a program advisor.

⁶ At least 1 credit is required.

⁷ Courses that provide further foundation for the resource specialization. Typically in Agricultural Sciences, Biology, Chemistry, or Economics. Must be approved by a program advisor.

⁸ Met by a field studies course that is pre-approved by a program advisor.

⁹ At least 1 credit is required.

¹⁰ 300- or 400-level courses from one resource discipline or from several disciplines that relate to a resource theme. Must be approved by a program advisor.

¹¹ Africa, Asia Pacific, Europe, or the Americas. The regional specialization requires 18 credits that are relevant to the region. These can include social sciences, humanities, language courses, and experiential learning. At least 3 credits must relate to each of these areas: anthropology and culture, economics and commerce, and geography, history, and political science. Must be approved by a program advisor.

¹² Met by learning in the region of specialization for at least one term, or three-month period. Options include participation in UBC's Go Global Student Mobility Programs or work-based learning (internships). Must be pre-approved by a program advisor.

CANADIAN EXCHANGE PROGRAMS

Formal exchange programs facilitate the exchange of students with other universities in Canada and abroad. These exchanges allow students to experience a different cultural and academic life, and receive credit for courses successfully completed. Undergraduate students are eligible to spend third year on exchange. Graduate students can transfer up to 12 credits toward their UBC degree. Interested students should see *Go Global (Exchange Programs)*, p. 443, for further information.

Opportunities for students exist at McGill University, University of Alberta, and Université Laval. These universities participate with UBC in the Canada Exchange Scholars Program (CANEX). Opportunities also exist at University of Guelph, which has an exchange agreement with the Faculty.

EXCHANGES ABROAD

Go Global: Student Mobility Programs offers eligible students the opportunity to spend one or two semesters at a variety of partner universities throughout the world, including the University of the Philippines Los Banos, University of Melbourne and Queensland University (Australia), Lincoln University (New Zealand), University of California, and Oregon State University. Additional opportunities for graduate student exchange are available in Malaysia, Indonesia, Philippines, and Thailand through UBC's membership in the Southeast Asian University Consortium for Graduate Education in Agriculture and Natural Resources.

BC INSTITUTE OF AGROLOGISTS

Agrology is the profession of applying science and scientific principles to the business and art of agriculture. In British Columbia, agrology is recognized by the provincial statute of 1948, the Agrologists Act, under which the British Columbia Institute of Agrologists (BCIA) (www.bcica.com) is incorporated.

A graduate of the Faculty holding a Bachelor of Science in Agroecology, Bachelor of Science in Food, Nutrition, and Health, or a Bachelor of Science in Global Resource Systems meets the educational requirements for membership in the BC Institute of Agrologists.

A graduate who plans to practise as an agrolgist in the province of British Columbia is expected to register as a member of the BCIA. Applications should be forwarded to the Registrar, BCIA.

DR. AND MRS. A.S. DEKABAN FOUNDATION

A foundation was established by Dr. and Mrs. A. S. Dekaban primarily to permit graduate students from the Polish agricultural universities to study in the Faculty of Land and Food Systems. Polish students may spend up to six months in the Faculty, undertaking research related to their study program in their home institution. The students are selected by the Polish agricultural universities. The foundation also supports occasional short-term visits by members of the Faculty Land and Food Systems to Polish agricultural universities and visits by scientists from the Polish agricultural universities to the Faculty.

AGROECOLOGY

Professors

T. A. Black, B.Sc. (Br.Col.), M.Sc., Ph.D. (Wis.); C. P. Chanway, B.Sc. (Winn.), B.S.Ag. (Manit.), M.Sc., Ph.D. (Br.Col.); K. M. Cheng, B.S. (Tenn. Tech.), M.S. (S. Ill.), Ph.D. (Minn.); S. Chieng, B.Sc. (Nat. Taiwan), M.Sc., Ph.D. (McG.); Q. Cronk, B.A., Ph.D. (Camb.); B. E. Ellis, B.Sc. (New Br.), Ph.D. (Br.Col.); A. Farrell, B.Sc. (Bath), Ph.D. (Br. Col.); D. G. Fraser, B.A. (Tor.), Ph.D. (Glas.); M. B. Isman, B.Sc., M.Sc. (Br.Col.), Ph.D. (Calif.); P. A. Jolliffe, B.Sc. (Qu.), Ph.D. (Br.Col.); R. S. McKinley, B.Sc. (Guelph), M.Sc. (York), Ph.D. (Wat.); J. H. Myers, B.Sc. (Chatham Coll.), M.Sc. (Tufts), Ph.D. (Indiana); R. Rajamahendran, B.V.Sc. (Ceyl.), M.Sc., Ph.D. (McG.); H. E. Schreier, B.A. (Colorado), M.Sc. (Sheff.), Ph.D. (Br.Col.); D. M. Shackleton, B.Sc. (Leic.), M.Sc. (W.Ont.), Ph.D. (Calg.); T. P. Sullivan, B.Sc., M.Sc., Ph.D. (Br.Col.); M. K. Upadhyaya, B.Sc. (Ag.) (J. Nehru Agric.), M.Sc. (I.A.R.I.), M.A. (Princ.), Ph.D. (Mich.), P.Ag., C.P.H., C.P.Ag., F.W.S.S.A.; D. M. Weary, B.Sc., M.Sc. (McG.), Ph.D. (Oxf.).

Professors Emeriti

T. M. Ballard, B.S.F., M.F., Ph.D. (Wash.); V. C. Brink, B.A., M.Sc. (Br.Col.), Ph.D. (Wisc.); G. W. Eaton, B.S.A. (Tor.), Ph.D. (Ohio); F. B. Holl, B.Sc., M.Sc. (Manit.), Ph.D. (Cantab.), P.Ag.; L. M. Lavkulich, B.Sc., M.Sc. (Alta.), Ph.D. (C'nell.); J. Leichter, B.S. (Cracow Coll., Poland), M.S., Ph.D. (Calif., Berkley); L. E. Lowe, B.A., M.A. (Oxf.), M.Sc., Ph.D. (McG.); B. March, B.A., M.S.A. (Br.Col.); B. D. Owen, M.Sc. (Alta), Ph.D. (Sask.), P.Ag.; V. C. Runeckles, B.Sc. (Lond.), A.R.C.S. (Imp. Coll.), Ph.D. (Lond.), D.I.C. (Imp. Coll.); M. Shaw, M.Sc., Ph.D., D.Sc. (McG.), F.A.P.S., F.R.S.C.; I. E. P. Taylor, B.Sc., Ph.D. (Liv.).

Associate Professors

A. A. Bomke, B.S., M.S. (S. Ill.), Ph.D. (Ill.); M. D. Novak, B.Eng. (McG.), M.Sc. (W.Ont.), Ph.D. (Br.Col.).

Associate Professors Emeriti

R. J. Copeman, B.Sc. (McG.), Ph.D. (Wis.); J. De Vries, B.A., M.A., Ph.D. (Br.Col.); R. C. Fitzsimmons, B.Sc. (Wash.), M.Sc., Ph.D. (Minn.); G. Kennedy, B.A. (Br.Col.), M.Sc. (Minn.), Ph.D. (Purdue); R. G.

Peterson, B.Sc. (Wyo.), M.Sc., Ph.D. (Ill.); M. D. Pitt, B.Sc., M.S., Ph.D. (Calif.), P.Ag.; R. M. Tait, B.Sc. (Durham), Ph.D. (N'cle, U.K.).

Assistant Professors

K. Adams, B.A. (Earlham Coll.), M.Sc. (Miami), Ph.D. (Indiana); K. Baylis, B.A. (Windsor), M.Sc. (Sask.), Ph.D. (Calif., Berkeley); S. Binns, B.Sc. (Guelph), Ph.D. (Ott.); S. Graham, B.Sc. (St. Andrews, Scot.), M.Sc., Ph.D. (Tor.); S. Gulati, M.S., Ph.D. (Maryland); M. Krzic, B.Agron., M.S. (Belgrade), Ph.D. (B.Col.); A. Riseman, B.Sc., M.Sc., Ph.D. (Penn. State); M. von Keyserlingk, B.Sc. (Br.Col.), M.Sc. (Alta.), Ph.D. (Br.Col.).

Adjunct Professors

C. P. Bennett, B.Sc. (Salford), M.Sc. (Exe.); S. M. Berch, B.Sc., M.Sc. (Wat.), Ph.D. (Laval); M. Curran, B.Sc. (Vic.B.C.), M.Sc., Ph.D. (Br.Col.); A. B. de Passillé, M.Sc., Ph.D. (McG.); D. L. Ehret, B.Sc. (Alta.), M.Sc. (Ill.), Ph.D. (Br.Col.); J. E. Elliott, M.Sc. (Ott.), Ph.D. (Br.Col.); D. Henderson, B.Sc. (Trent), M.Sc. (Manit.), Ph.D. (Br.Col.); D. A. Higgs, B.Sc. (Vic.B.C.), B.Sc., Ph.D. (Manit.); J. A. Love, B.V.M.S. (Glas.), M.R.C.V.S. (U.K.), Ph.D. (Tor.); D. M. Rochan, B.A., M.S., Ph.D. (Wayne State); J. Rushen, B.S., Ph.D. (Q'ld.); D. A. Theilmann, B.Sc., M.Sc. (Qu.), Ph.D. (Texas A & M).

Senior Instructor

A. Rojas, B.Sc. (Chile), M.A., Ph.D. (York, Canada).

Lecturer from Other Department

A. P. Wharton, B.Sc. (N.Wales).

FOOD, NUTRITION, AND HEALTH

Professors

S. I. Barr, B.H.E. (Br.Col.), Ph.D. (Minn.); T. D. Durance, B.S. (Wat.), B.Sc. (Guel.), M.Sc., Ph.D. (Br.Col.); D. D. Kitts, B.Sc., M.Sc., Ph.D. (Br.Col.); E. Li-Chan, B.Sc. (Br.Col.), M.Sc. (Alta.), Ph.D. (Br.Col.); J. R. Thompson, B.Sc., M.Sc. (Br.Col.), Ph.D. (Calif., Davis), P.Ag.; H. J. J. Van Vuuren, B.Sc., M.Sc. (Stell.), Ph.D. (Ghent); J. A. Vercammen, B.Sc., M.Sc. (Sask.), Ph.D. (Calif., Berkeley).

Professors Emeriti

R. M. Beames, M.Agr.Sc. (Q'ld.), Ph.D. (McG.), P.Ag.; I. D. Desai, B.Sc., M.Sc. (Gujarat), Ph.D. (Calif., Davis); B. E. March, B.A., M.S.A., D.Sc. (Honoris causa) (Br.Col.), F.A.I.C., F.R.S.C., F.P.S.A., P.Ag.; W. D. Powrie, M.A. (Tor.), Ph.D. (Mass.), F.I.F.T., F.C.I.C., F.C.I.S.T.; J. F. Richards, M.Sc. (Manit.), Ph.D. (Minn.), F.C.I.F.S.T., P.Ag.

Honorary Professors

R. Blair, B.Sc. (Glas.), Ph.D. (Aberd.), D.Sc. (Sask.), P.Ag.; S. Nakai, B.Sc., Ph.D. (Tokyo), F.C.I.F.S.T.

Associate Professors

R. R. Barichello, B.Sc. (Agr.) (Br.Col.), A.M., Ph.D. (Chic.); G. E. Chapman, B.Sc., H.Ec. (Sask.), M.Sc., Ph.D. (Tor.); S. Samuels, B.A.Sc., B.Sc. (Tor.), M.Sc. (Guel.), Ph.D. (Alta.); C. H. Scaman, B.Sc., M.Sc. (Br.Col.), Ph.D. (Alta.); B. J. Skura, B.Sc., M.Sc. (Alta.), Ph.D. (Br.Col.); Z. Xu, B.Sc. (Jiangxi), M.Sc., Ph.D. (Guelph).

Associate Professor Emeritus

J. Vanderstoep, B.S.A., M.S.A., Ph.D. (Br.Col.).

Assistant Professors

T. Beatty, B.A. (Laval), M.Sc. (Montr.), Ph.D. (Calif., Berkeley); K. M. Keiver, B.Sc. (Br.Col.), M.Sc., Ph.D. (Guelph); S. T. Lund, B.S. (Mich.), M.S. (Minn.), Ph.D.

(Minn.); V. Measday, B.Sc. (Mich.), M.S., Ph.D. (Minn.).

Adjunct Professors

K. Beauchemin, B.Sc. (McG.), M.Sc. (Laval), Ph.D. (Guelph); S. Bittman, B.Sc., M.Sc. (McG.), Ph.D. (Sask.); P. A. Bowen, B.Sc. (Agr.) (Br.Col.), M.Sc. (Br.Col.), Ph.D. (Calif., Davis); M. Cliff, B.Sc. (Br.Col.), M.Sc. (Calif., Davis), Ph.D. (Missouri); G. Mazza, Ph.D. (Alta.), F.C.I.F.S.T.; B. D. Oomah, M.Sc. (Timiryazev Acad. Agric. Moscow, FSU), Ph.D. (Manit.); G. M. M. Sandberg, M.Sc., Ph.D. (Br.Col.); G. C. Van Kooten, B.Sc., M.A. (Alta), Ph.D. (Oregon); D. Veira, B.Sc. (Guelph), M.Sc. (Aberd.), Ph.D. (Guelph); J. Zawistowski, M.Sc. (Warsaw), Ph.D. (Manit.).

Instructor

K. Traviss, B.Sc., M.Sc. (Br.Col.).

Lecturer from Other Department

S. M. Innis, Pediatrics.

Law Website (www.law.ubc.ca)

The Faculty of Law offers programs of study leading to the degrees of Bachelor of Laws and Master of Laws. For information concerning the Master of Laws, Doctor of Philosophy, and Master of Jurisprudence (Common Law) see *Law*, p. 261, in the Graduate Studies Programs section. For information on the combined Bachelor of Laws and Master of Business Administration, see *LL.B./M.B.A. Combined Program*, p. 171. For information on our combined Bachelor of Laws and Master of Asian Pacific Policy Studies, see *M.A.P.P.S./LL.B. Combined Program*, p. 312.

UBC's Law Faculty opened in 1945 under the inspiring leadership of George Curtis, who launched Canada's first modern law school with a small budget, two army huts, and no library. Yet Dean Curtis had a vision. He recruited a diverse faculty offering students multiple perspectives on the theory and practice of law. Under his outstanding leadership, UBC Law grew into one of Canada's foremost law schools.

Our faculty members' research projects inspire their teaching and give our students an opportunity to work on projects at the cutting edge of the law. Our faculty are also committed to ensuring that their research efforts make a difference, whether by changing the course of academic debate or offering real-life solutions to war-torn countries.

BACHELOR OF LAWS

The Bachelor of Laws degree is granted on the successful completion of a three-year course and prepares students for admission to the practice of law (subject to further requirements which are set out below) and for business and

public service. The number of students entering the practice of law in Canada has increased in the last few years and a degree in law is no guarantee of a position in either the necessary year of articles (described below) or in the practice of law. Enrolment in the first year of legal studies at the Faculty of Law is approximately 198 full-time equivalent students.

ADMISSION

Regular Applicants

To be eligible for selection, an applicant must have:

- 1) obtained an undergraduate degree in an approved course of studies from a degree granting university; or
- 2) successfully completed the first three years (minimum 90 credits) or more of an approved course of studies leading to an undergraduate degree at the University of British Columbia or completed the equivalent at a degree granting university; or
- 3) successfully completed the first two years of studies leading to an undergraduate degree at the University of British Columbia or other degree granting university, and be currently enrolled in the third year of the degree program. (An offer of admission will be conditional on successful completion of the third year by June 30 with a minimum of 90 credits at the University of British Columbia, or the equivalent at a degree granting university, and maintenance of the academic average obtained in the first two years of studies); and
- 4) obtained an overall standing of no less than 65%.

Applicants should regard their satisfaction of the entrance requirements as meaning only that they are eligible for selection. Because of the competition for admission to the Bachelor of Laws program a regular applicant must have an undergraduate academic average substantially higher than the minimum (65%) in order to have a reasonable chance of admission. The median applicant accepted for 2004/2005 had an academic average of approximately 82% with an LSAT score of 163 (90th percentile). The academic average and LSAT score are used in a formula to determine an index number by which applicants are ranked. The academic

average and LSAT score are weighted approximately equally. In calculating the academic average, only those years of undergraduate study making up the first undergraduate degree that are complete at the time of deadline for application are considered, except for Item 3 above, where the applicant must maintain the overall standing of the first two years of studies. Generally, no greater weight is attached to one series of academic courses or disciplines than to another. Performance courses are counted towards the required minimum 90 credits but the grades earned in such courses are not usually counted in computing the academic average. Graduate degrees are not taken into account, except within the discretionary category discussed below.

A personal statement is required in all categories. Regular applicants may request that special circumstances be considered in determining their academic average. The special factors or circumstances (such as medical or other emergency matters) must be documented fully. If a regular applicant requests the Committee to consider making an adjustment to the academic average (not including certain courses or a year), the facts must be verified and supported by appropriate documentation. If the special circumstances are medical then a doctor's letter is required. Not all special circumstances can be considered in the regular category. Certain factors such as financial hardship, learning disabilities or other disadvantages, or ethnic background, can only be considered in the discretionary category.

Regular applicants will be advised in writing as soon as possible whether their application has been accepted or rejected for admission purposes. Applicants who have not received a letter will be on the wait list until a decision can be made.

Discretionary Applicants

A limited number of positions in first-year law are available for discretionary applicants. Because of special factors in life, an applicant may not satisfy one or more of the requirements for regular applicants, but may have other relevant achievements and experience. The Admissions Committee has the discretion to respond to this type of situation by taking into account factors such as disability or special needs, financial disadvantage, age (generally

over 30 years old), membership in a historically disadvantaged group and any other factors that the applicant wishes the Admissions Committee to consider. These factors will be considered in the context of the applicant's other achievements and work experience, including volunteer work for community or charitable organizations.

Discretionary applicants are required to have completed the first two years of an approved course of studies leading to an undergraduate degree at an approved college or university. A personal statement, LSAT score, and two letters of reference are required, and where appropriate, documentation such as medical reports should be submitted. Each application is considered individually on its merits. Decisions in this category are usually made in mid-June.

Normal policy is to require discretionary applicants to have completed the first two years of studies leading to an undergraduate degree at a degree granting university.

Discretionary applicants must submit a biographical resume detailing the special factors, including their achievements and work experience, that they wish the Admissions Committee to consider. Each application is considered individually on its merits. It is important that applicants send detailed accounts of their circumstances, including their involvement in community or charitable organizations. In this category it is also important that applicants submit documentation (e.g., medical reports, if applicable or letters of reference) in order for the Admissions Committee to evaluate their files. Incomplete applications cannot be evaluated and it is the responsibility of applicants to ensure their applications are complete. Decisions in this category are made in June.

First Nations Applicants

Applicants with First Nations ancestry may apply in the regular category or in the First Nations category. First Nations applicants should contact the Coordinator of First Nations Legal Studies, Gloria Cardinal (cardinal@law.ubc.ca), as early as possible to discuss their application.

The Faculty considers the applicant's involvement with a commitment to First Nations communities and organizations, and the applicant's intention to use his or her legal training to advance First Nation's concerns and interests. Applicants are required to establish their First Nations ancestry by enclosing a copy of their status card. If unable to provide a status card, applicants must provide a chart tracing their line of ancestry. In addition, a personal statement is required, two letters of recommendation, LSAT score and two official transcripts.

Other Categories for Admission (other than to first year)

Each year there are many requests for admission to the upper years. Only a few applicants, however, can be accommodated.

Degree Categories

Applicants who have either started their LL.B. degree or who have graduated from a foreign law school can apply under either the Transfer or Advanced Standing categories. Applicants who apply under either of these categories must successfully complete two years of legal studies at UBC Law to receive a degree from UBC.

- 1) **Transfer.** Students at other Canadian common law schools who have completed their first year of legal studies may apply for transfer to UBC Law. The Admissions Committee gives preference to applicants who:
 - (a) would have been admitted to the first year of legal studies at UBC Law at the time of being admitted to their present institution;
 - (b) have achieved satisfactory academic performance in their legal studies at their current institution; and
 - (c) have compelling reasons for transferring to UBC Law, which include compassionate grounds in which the applicant has no control over the circumstances.
 - (d) Applicants must submit a copy of their LSAT score, official undergraduate and law transcripts as well as two letters of reference with their application.
- 2) **Advanced Standing.** Graduates of foreign law schools and Quebec civil law schools and students who are currently registered in non-Canadian common law schools may apply to complete two years of legal studies at UBC Law to obtain an LL.B. Applicants must submit a copy of their LSAT score, official undergraduate and law transcripts, a personal statement explaining the reasons for the request, and two letters of reference.

Non-Degree Categories

Please note that applicants admitted in either of the following categories are not eligible to receive an LL.B. from UBC Faculty of Law.

- **Visiting (Letter of Permission).** Students enrolled in an LL.B. program at an approved law school may request permission from their current school to attend one year or one term of either the second or third-year program at UBC Law on a letter of permission basis. Students must obtain a letter of permission from the Associate Dean of their current law school, a copy of their LSAT score (if applicable), compelling reasons for their request, official undergraduate and law transcripts, as well as two letters of reference. Criteria for selection are the same as for transfer requests (see above). Visiting status will be granted to successful applicants for a maximum of one year.
- **Unclassified.** Applicants who have law degrees or their equivalents from foreign jurisdictions and who wish to undertake legal studies at UBC Law in order to satisfy the certification requirements of the National Committee on Accreditation may

apply for unclassified status. An applicant requesting unclassified status must submit a personal statement, a copy of their LSAT score if taken, two official transcripts, a letter from the National Committee on Accreditation and two letters of reference. There must be clear evidence that the student is competent to pursue studies in the English language. If you do not have a law degree from a University taught in the English language, an official TOEFL and TWE score from the testing agency is required. These test scores must be from tests taken within the 24 months leading up to the date of application. The minimum TOEFL and TWE scores for admission are 600 and 5.5 respectively (250 and 5.5 under the computerized version). A minimum score does not necessarily guarantee admission. The TOEFL Head Office must send the score directly to the LL.B. Admissions Office of the Faculty of Law. For more information about the TOEFL and TWE please see the TOEFL website (www.toefl.org). Applicants must have their transcripts evaluated by: The National Committee on Accreditation, Faculty of Law, Common law Section, University of Ottawa, 57 Louis Pasteur, Ottawa, Ontario, K1N 6N5. Tel: 613-562-5704, fax: 613-562-5722, email: [Fran Russo \(frusso@uottawa.ca\)](mailto:FranRusso@uottawa.ca), Administrator. You may also visit their website (www.flsc.ca).

Canadian Civil Law Programs

Graduates from a civil law program at a Canadian law school may:

- apply to the National Committee on Accreditation and apply for unclassified status at UBC Law; or
- apply for Advanced Standing (see above).

Students currently enrolled in a civil law program at a Canadian law school are not eligible to transfer to the UBC Law. They may, however, request visiting (letter of permission) status at UBC Law if permitted to do so by their current law school. Visiting status will be granted for a maximum of one year only.

APPLICATION

All applicants for admission must submit the following documents by the deadlines set out below:

- completed application form
- transcripts
- an LSAT score
- an application fee, and
- other documentation where necessary

Regular, Discretionary, and First Nations Applicants

The application form, application fee, and all supporting documents must be submitted on or before February 1. Forms must be postmarked on or before February 1. Final official transcripts (see below) must be submitted on or before June 30.

Transfer, Letter of Permission, Advanced Standing, and National Committee

The application form, current transcripts, other documents, and application fee must be submitted on or before May 31. Final official transcripts (see below) must be submitted on or before May 31.

Application Forms

Application forms are available from the Admissions Office of the Faculty of Law 604-822-6303 or online on the Faculty website (www.law.ubc.ca/prospective/lb/apply.html). The Faculty will mail forms on request but will not fax or courier them to applicants.
