Biographical Sketch

Leonard Jay Angel was born in Montreal in September 1945, and received his Bachelor of Arts from McGill University in 1966. Angel then moved to Vancouver to study at the University of British Columbia where he completed an MA in Philosophy in 1968, an MA in Creative Writing and Theatre in 1970, and a PhD in Philosophy in 1974. He was an associate fellow in UBC's Department of Philosophy in 1992, and taught philosophy at Douglas College from fall 1993 through 2012. Angel maintained a close relationship with UBC throughout his career, working on and off as a sessional lecturer for philosophy and creative writing courses, and participating in student study groups and departmental colloquia. He also produced at least two plays ("The Ballad of Etienne Brule" and "Eleanor Marx") through UBC's theatre department.

Angel was a poet, playwright, philosopher, and author, with 17 plays produced and 7 published books. He was an active figure in the Vancouver theatre scene from the 1970s through the 1990s, with plays produced and performed by Vancouver's Street Theatre, Terrific Theatre, and the New Play Centre. Angel also had several of his plays produced in theatres in Toronto and Seattle. Outside of his academic writing on philosophy, he practiced and wrote at length about Jewish theology as well as Zen practices. He was connected to Vancouver's Jewish community through his involvement in Or Shalom Synagogue and founded the Integral Studies Institute in 1987 to provide instruction on meditation and spirituality. Angel was also an advocate for World Federalism and was president of the Vancouver branch of World Federalist Movement Canada from 1996 through 2013. Leonard Angel passed away in August 2022.

Custodial History

The materials were donated in 2023 to the University Archives by Susan Fogel Angel.

Scope and Content

Fonds contains textual (1960-2013), digital-born (1994-2023) (ca 3,149 Mac WriteNow files), photographic, and other graphic material related to Angel's various creative endeavors, including poetry, playwriting, prose writing, and art. Material from plays includes scripts, correspondence, clippings, and ephemera from their production. The fonds contains drafts of his poetry, as well as clippings of select poems published in the

Or Shalom Synagogue's newsletter *Keren Or*. There is a wide range of material related to Angel's scholarly and personal interests in religion, philosophy, and spirituality, including but not limited to published articles, material from meditation retreats led by Angel, and miscellaneous writing and correspondence on Judaism, Zen, and other religions and philosophies.

The fonds also contains his collected "black books," sketchbooks spanning nearly thirty years that include notes and drawings of meetings, conferences, and personal events attended by Angel. Pen and ink portraits of individuals make up the majority of Angel's sketches. Other personal records include diplomas and certificates, along with correspondence and a sample set of a card game developed by Angel.

The Play, Poetry, Personal, and Philosophy & Spirituality series contain both textual and digital-born records. In contrast, the Sketchbook and Photograph series exclusively comprise textual materials.

Additionally, the digital-born materials include two new series: the Writings series and the World Federalists Branch, Vancouver Branch series.

Notes

File list available.

Most materials are in English with some materials in Hebrew.

Initially, the digital files transferred to the archives were organized into two main directories: "Lenny Angel" and "Lenny Current." Due to overlapping content, the archivist merged these two directories. An inventory of the original structure is available upon request.

Mac WriteNow files have been successfully migrated to the Open Document Text format. Many of these files were initially converted by Susan Angel.

The total size in megabytes and the number of files indicated in the series is the number of files not including normalized open document text files.

In instances where date information is corrupted or misinterpreted, the system defaults to a standard date to prevent errors or crashes. In some files within this collection, you may encounter a default year of 1980, indicating that the creation date is 'unknown'.

At some point, files were converted between different encodings, which resulted in errors and the appearance of unexpected characters, such as "TÇ^a" in the file titles. These characters have been removed, and a CSV file documenting the original and cleaned

names is available in the same folder as the files. Other than the removal of the unexpected characters the file titles are as the creator intended.
